PROSPECT MEDICAL HOLDINGS, INC.
AUDIT AND COMPLIANCE COMMITTEE CHARTER

OVERVIEW AND PURPOSE

The Board of Directors ("Board") of Prospect Medical Holdings, Inc. (the "Company" or "PMH") has established an Audit and Compliance Committee (the "Committee"). The primary function and purpose of the Committee is to assist the Board in fulfilling its oversight responsibility to shareholders, employees and others relating to:

- The integrity of the Company's financial statements;
- The financial reporting process, the systems of internal accounting and financial controls;
- The performance of the Company's internal audit function and external auditors;
- The external auditor's qualifications and independence;
- The Company's compliance with the Company's Code of Conduct, policies and procedures, legal and regulatory requirements.
- The Company's procedures and policies related to compliance with laws and regulatory requirements necessary to ensure that the Company maintains an effective compliance program.

The Committee shall serve as an independent and objective party to monitor the Company's financial reporting process and internal control system, and its compliance with laws regulations and Company polices. The Committee shall provide an open avenue of communication among the independent accountants, financial and senior management, the compliance department, the internal auditing department and the Board.

The Company has also established a Management Audit Committee (the "MAC") and an Executive Compliance Committee (the "ECC") which shall consist of members of management and such committees may form further subcommittees consisting of members of management. The MAC and the ECC shall assist the Committee in fulfilling its oversight responsibility. The Committee shall oversee the activities of the MAC and the ECC, and any subcommittees thereof, and shall approve the selection or removal of its members. The Committee shall delegate responsibilities to the MAC and the ECC in its discretion.

Confidential LGP-SBC-000002884

ORGANIZATION

The Committee shall consist of at least three (3) members of the Board of Directors, each of whom is considered to be "financially literate" and at least one member must be a "financial expert".

The Committee's responsibilities are limited to oversight. Management of the Company is responsible for the PMH's financial statements, including the estimates and judgments on which they are based, as well as the Company's financial reporting process, its policies and procedures, internal accounting controls and disclosure controls and procedures. The external auditor is responsible for performing an audit of the Company's annual financial statements, expressing an opinion as to the conformity of the annual financial statements with generally accepted accounting principles and reviewing the Company's quarterly financial statements. It is not the responsibility of the Committee to plan or conduct audits or to determine that the Company's financial statements and disclosures are complete and accurate and in accordance with generally accepted accounting principles and applicable laws, rules and regulations. Management of the Company is also responsible for ensuring that it maintains an effective compliance program necessary for complying with laws, regulations and company policies and for establishing and implementing effective compliance training, auditing and monitoring and reporting and determining potential compliance concerns and ensuring that all appropriate corrective action is taken as necessary.

Each member of the Committee is entitled to rely on people within the Company and the professionals and experts (including the Company's external auditor and PMH's internal auditors) from which the Committee receives information on the completeness and accuracy of the financial and other information they provide to the Committee.

All Committee members serve at the pleasure of the Board and any member may be removed, with or without cause, by the Board.

POWER AND AUTHORITY

In addition to the powers and responsibilities expressly delegated to the Committee in this Charter, the Committee may exercise any other powers and carry out any other responsibilities from time to time delegated to it by the Board. The Committee may also conduct or authorize investigations into any matter within the scope of the duties and responsibilities delegated to the Committee by the Board.

The Committee will determine its own rules of procedure regarding the call, place, time and frequency of its meetings, subject to procedures of notification. In the absence of such rules, the Committee will meet at the call of its Chairperson as appropriate to fulfill the Committee's purposes. A majority of the members of the Committee will constitute a quorum for the transaction of business. Meeting agendas will be prepared and provided in advance to members, along with appropriate briefing materials. Meeting minutes will be prepared and approved by the Committee.

Confidential LGP-SBC-000002885

RESPONSIBILITIES

The primary responsibility of the Committee is to assist the Board in fulfilling its oversight responsibilities by (a) reviewing the financial information which will be provided to the Board, the shareholders of the Company and others, the system of internal controls which Management and the Board have established and the audit process, and (b) reviewing the Company's compliance program that is necessary for complying with laws, regulations and company policies and for establishing and implementing effective compliance training, auditing and monitoring and reporting and determining potential compliance concerns and ensuring that all appropriate corrective action is taken as necessary.

The Committee has formed the MAC to assist it with its financial oversight responsibilities and has formed the ECC to assist it with its compliance oversight responsibilities and has delegated significant responsibilities to the MAC and the ECC pursuant to the MAC Charter and the ECC Charter. The Committee shall appoint all members of the MAC and the ECC and shall approve the appointment of any members of subcommittees thereof. The Committee may remove members of the MAC or ECC in its discretion.

The Committee shall oversee the activities of the MAC and the ECC including monitoring the performance of their respective responsibilities as described in the MAC Charter and ECC Charter, respectively. The Committee may determine in its discretion which activities shall require approval of the Committee (e.g. selection and retention of independent auditor). The Chairperson of the MAC and the Chairperson of the ECC shall report to the Committee regarding the activities of the MAC and the ECC, respectively, and they can contact the Committee at anytime they deem appropriate or necessary.

COMMUNICATIONS FROM SHAREHOLDERS, EMPLOYEES AND OTHERS

Shareholders, employees and other interested persons who wish to communicate with the Committee (including communicating complaints about the Company's accounting, internal accounting controls, auditing matters, compliance matters, policies and procedures) may do so by writing to the Committee. Such communications may be submitted on a confidential and anonymous basis, if desired.

PROSPECT MEDICAL HOLDINGS, INC.
MANAGEMENT AUDIT COMMITTEE CHARTER

OVERVIEW

Prospect Medical Holdings, Inc. (the "Company" or "PMH") has established the Management Audit Committee (the "MAC") of Prospect Medical Holdings, Inc.'s Board's Audit Committee (the "Committee"). The MAC is made up of members of PMH's senior management. The MAC's Chairperson will periodically provide reports to the Committee. The purpose of the MAC is to provide assistance to the Committee in fulfilling its oversight responsibility to shareholders, employees and others relating to:

- The integrity of the Company's financial statements;
- The financial reporting process, the systems of internal accounting and financial controls;
- The performance of the Company's internal audit function and external auditors;
- The external auditor's qualifications and independence;
- The Company's compliance with the Company's Code of Conduct, policies and procedures, legal and regulatory requirements.

ORGANIZATION

The MAC shall consist of at least five (5) members, each of whom is considered to be "financially literate" and at least one member must be a "financial expert".

The MAC's responsibilities are limited to oversight. Management of the Company is responsible for the PMH's financial statements, including the estimates and judgments on which they are based, as well as the Company's financial reporting process, its policies and procedures, internal accounting controls and disclosure controls and procedures. The external auditor is responsible for performing an audit of the Company's annual financial statements, expressing an opinion as to the conformity of the annual financial statements with generally accepted accounting principles and reviewing the Company's quarterly financial statements. It is not the responsibility of the MAC or the Committee to plan or conduct audits or to determine that the Company's financial statements and disclosures are complete and accurate and in accordance with generally accepted accounting principles and applicable laws, rules and regulations.

Confidential LGP-SBC-000002887

Each member of the MAC is entitled to rely on people within the Company and the professionals and experts (including the Company's external auditor and PMH's internal auditors) from which the MAC receives information on the completeness and accuracy of the financial and other information they provide to the Committee.

All MAC members serve at the pleasure of the Committee and any member may be removed, with or without cause, by the Committee.

POWER AND AUTHORITY

In addition to the powers and responsibilities expressly delegated to the MAC in this Charter, the MAC may exercise any other powers and carry out any other responsibilities from time to time delegated to it by the Committee. The MAC may also conduct or authorize investigations into any matter within the scope of the duties and responsibilities delegated to the MAC by the Committee.

The powers and responsibilities delegated to the MAC by the Committee may be exercised in any manner the MAC deems appropriate (including delegation to subcommittees) and without a requirement for ECC's approval except as otherwise specified in this charter or the ECC's delegation. Any decision by the MAC, including any decision to exercise or refrain from exercising any of its delegated powers, is at the MAC's sole discretion. While acting within the scope of the powers and responsibilities delegated to it, the MAC may exercise all the powers and authority of the Committee and, to the fullest extent allowed by law, has the authority to determine which matters are within the scope of its delegated authority.

The MAC has the authority to retain and compensate independent counsel, consultants and other experts and advisors (accounting, financial, information technology, or otherwise) and may also use the services of the Company's regular counsel or other advisors to the Company. The Company will provide appropriate funding, as determined by the MAC, for payment of compensation to the external auditor for preparing or issuing an audit report or performing other audit, review or attest services, for payment of compensation to any experts or advisors retained by the MAC and for payment of ordinary administrative expenses of the MAC.

The MAC will determine its own rules of procedure regarding the call, place, time and frequency of its meetings, subject to procedures of notification. In the absence of such rules, the MAC will meet at the call of its Chairperson as appropriate to fulfill the MAC's purposes. A majority of the members of the MAC will constitute a quorum for the transaction of business. Meeting agendas will be prepared and provided in advance to members, along with appropriate briefing materials. Meeting minutes will be prepared and approved by the MAC.

Committee and ECC members who are not members of the MAC may attend and observe meetings of the MAC but will not be entitled to vote. The MAC may, at its discretion, include in its meetings members of management, representatives of the external auditor, the internal auditor, any other accounting or professional personnel employed or retained by the Company or any other person whose presence the MAC

Confidential LGP-SBC-000002888

believes to be desirable and appropriate. Notwithstanding the foregoing, the MAC may exclude from its meetings any nonmember who it deems appropriate to exclude.

The Chairperson of the MAC will report on the MAC's activities to the Committee at appropriate times and as otherwise requested by the head of the Committee.

RESPONSIBILITIES

The primary responsibility of the MAC is to oversee the Company's external audit process on behalf of the Committee and report the results of their activities to the Committee. Although the MAC has the responsibilities and powers set forth in this Charter, it is not the duty of the MAC to plan or conduct audits or to determine that the Company's financial statements are complete and accurate and in accordance with generally accepted accounting principles. Management is responsible for the preparation, presentation, and integrity of the Company's financial statements and for the appropriateness of the accounting principles and reporting procedures used by the Company. The external auditors are responsible for auditing the Company's annual financial statements and for reviewing the Company's unaudited interim financial statements.

The MAC and the Committee, in carrying out their responsibilities, needs policies and procedures to remain flexible to best react to changing conditions and circumstances. The MAC shall take appropriate actions to set the overall corporate "tone at the top" for quality financial reporting, sound business risk practices, and ethical behavior.

The following shall be the principal duties and responsibilities of the MAC:

- The MAC shall be directly responsible for the appointment, retention and termination of the external auditors (subject, if applicable, to Committee approval), and the external auditors must report directly to the MAC.

- The MAC shall be responsible for oversight of all work of the external auditors, including resolution of disagreements about financial reporting among management and the external auditor.

- The MAC shall approve all audit and non-audit services provided by the external auditors and shall not engage the external auditors to perform any non-audit services prohibited by laws or regulations. The MAC may delegate approval authority to a member of the MAC, provided the decisions of such member to whom approval authority is delegated presents any approval decisions to the full MAC at its next scheduled meeting.

- The MAC shall obtain and review reports by the external auditors at least annually describing:

    - The external auditor's internal quality control procedures.

    - Any material matters raised by the latest internal quality control review, or peer review, of the external audit firm, or by any inquiry or

Confidential LGP-SBC-000002889

investigation by governmental or professional authorities, within the preceding five years, respecting one or more external audits carried out by the external auditor, and any steps taken to take care of any such matters.

- All relationships among the external auditor and the Company to assess the auditor's independence.

- The MAC shall discuss with the internal auditors and the external auditors the overall scope and plans for their audits, including the sufficiency of staffing and compensation.

- The MAC shall discuss with management, the internal auditors, and the external auditors the sufficiency and effectiveness of the accounting and financial controls, including the PMH's documented policies and procedures, to assess, monitor, manage business risk, and legal and ethical compliance programs as documented in Prospect Medical Code of Conduct. As part of this review, the MAC will receive a report documenting any transactions among the Company's Officers and Directors and the Company or any of it subsidiaries or affiliates.

- The MAC shall occasionally meet separately with management, the internal auditors, and the external auditors to discuss issues and concerns warranting MAC's attention. In such meetings the MAC shall provide sufficient opportunity for the internal auditors and the external auditors to meet privately with MAC members. The MAC will review with the external auditor any audit problems or difficulties and management's response.

- The MAC shall receive a regular report from the external auditor on all crucial accounting policies and practices of the Company, all material alternative treatments of financial information within generally accepted accounting principles discussed with management, including the consequences of using such alternative treatments and disclosures and the treatment preferred by the external auditor, and other material written communications between the external auditor and management.

- The MAC shall review management's assertion on its assessment of the effectiveness of internal controls, including information technology security and control, as of the end of the latest fiscal year and the external auditors' report on management's assertion.

- The MAC shall review with management and the external auditors the financial statements and disclosures to be included in the annual Consolidated Financial Statements of Prospect Medical Holdings, Inc., including their judgment about the quality, not just the acceptability, of accounting principles, the reasonableness of significant judgments, and the clarity of the disclosures in the financial statements. The MAC shall also discuss the results of the annual financial statement audit and any other matters required to be

communicated to the MAC by the external auditors under generally accepted auditing standards and the Public Company Accounting Oversight Board (PCAOB) standards, such as complex or unusual transactions and highly judgmental areas, and recent professional and regulatory pronouncements.

- The MAC shall establish procedures for the receipt, retention, and treatment of complaints received by the Company about accounting, internal accounting controls, or auditing matters, and the confidential, anonymous submission by employees of the Company of concerns regarding questionable accounting or auditing matters.

- The MAC shall receive corporate attorneys' reports of evidence of a material violation of laws, regulatory rules and regulations, compliance matters or breaches of fiduciary duties.

- The MAC shall discuss with the Company's chief legal officer any legal matters brought to the MAC's attention that could reasonably be expected to have a material effect on the Company's financial statements. Periodically the MAC will meet separately with the chief legal officer to discuss legal, regulatory or compliance matters.

- The MAC will discuss with management the sufficiency of the Company's documented policies and procedures for risk assessment and risk management, compliance, significant financial risk exposures and the actions management has taken to limit, monitor or control such exposures. The MAC will also confirm with management that all PMH policies and procedures are reviewed by the policy owners and kept up to date.

- The MAC shall review the findings of any examinations by regulatory agencies, and any auditor observations and recommendations.

- The MAC shall review the process for communicating the Code of Conduct and PMH documented policies and procedures to Company personnel and for monitoring compliance therewith.

- The MAC shall perform an evaluation of its performance at least annually to determine whether it is functioning effectively, and any changes proposed by the MAC will be presented to the Committee for approval.

COMMUNICATIONS FROM SHAREHOLDERS, EMPLOYEES AND OTHERS

Shareholders, employees and other interested persons who wish to communicate with the MAC or the Committee (including communicating complaints about the Company's accounting, internal accounting controls or auditing matters) may do so by writing to the MAC or Committee directly or in care of the Company's chief legal officer, who will relay any communications received unopened to the Chairperson of

Confidential LGP-SBC-000002891

the MAC or Committee, as applicable. Such communications may be submitted on a confidential and anonymous basis, if desired.

Confidential LGP-SBC-000002892

PROSPECT MEDICAL HOLDINGS, INC.

COMPLIANCE PROGRAM CHARTER

OVERVIEW

Prospect Medical Holdings, Inc. hereby sets forth this Charter for its Compliance Program. Prospect's (PMH) adherence to the provisions of this Charter is intended to:

- support and maintain PMH's present and future responsibility with regard to participation in federal health care programs;

- further Prospect's goals of establishing an organization that:

  - fosters and maintains the highest ethical standards among all Prospect employees, officers and directors, physicians practicing at Prospect facilities and contractors that furnish health care items or services;

  - values its compliance with all state and federal laws and regulations as a foundation of its corporate philosophy: and

  - aligns with Prospect's core values of quality, integrity, service, innovation and transparency.

The primary focus of the Prospect Compliance Program is on the requirements of Medicare, Medicaid and all other federal health care programs. This Charter shall apply to any facility or business in which Prospect owns an interest of more than 50% or for which Prospect manages the day-to-day operations of the facility or business.

I. COMPLIANCE PROGRAM

The Executive Compliance Committee oversees Prospect's Compliance Program and includes the following:

1. Executive Compliance Committee. Prospect's Executive Compliance Committee ("ECC") shall be chaired by the Chief Compliance Officer and shall include, at a minimum the Chief Executive Officer, Chief Operating Officer and the Department Heads for the Quality, Law, Human Resources, Revenue Integrity, Audit, and a representative from Prospect Medical Services. The ECC provides senior management level oversight of the company's compliance with the legal and regulatory requirements of the federal health care programs. The ECC oversees and advises on the effectiveness of the Ethics and Corporate Compliance Program and makes decisions on investments in the Program, which are communicated to Prospect's QCE Committee for ratification as appropriate. The ECC also provides

Confidential LGP-SBC-000002893

the final review and approval of all Prospect Compliance Program Work Plan policies and reviews the results of audits related to the compliance program. The ECC shall be familiar with Prospect's ethics and compliance policies and procedures and shall monitor, with input from the Compliance Department, all compliance-related issues that may have a material impact on the operations of Prospect. The ECC shall meet at least quarterly and shall keep a record of its proceedings for review by the Board Audit and Compliance Committee or the Prospect Board of Directors as appropriate. The ECC shall have the right to delegate policy and procedure reviews to the Regulatory Compliance Committee

2. ***Audit and Committee of the Board of Directors.*** The Role of the Audit and Compliance Committee of the Board of Directors is set forth in Attachment A. The Chair or his/her designee of the Executive Compliance Committee reports to the Audit and Compliance Committee of the Board.

3. ***Regulatory Compliance Committee.*** Prospect's Regulatory Compliance Committee provides support to Prospect's Executive Compliance Committee and assumes all duties delegated to it by the Executive Compliance Committee.

4. ***Hospital and Facility Compliance Committees***. Each Prospect hospital shall have a Hospital Compliance Committee ("HCC"). The Hospital Compliance Committee shall be chaired by the Facility Compliance Officer ("FCO") of the hospital or facility and include the hospital CEO, CFO, CNO, the Director of Human Resources, and other appropriate senior level executives from other hospital departments. The Hospital Compliance Committee shall be responsible for assisting the FCO in implementing the Prospect Ethics and Compliance Program at that hospital, and for ensuring compliance by the hospital with all federal and state laws and regulations related to federal health care programs. The Hospital Compliance Committee also shall be responsible for reporting, as appropriate, on compliance issues to the FCO, the Chief Compliance Officer. The HCC shall take all responsible steps to meet on monthly basis and shall keep a record of its proceedings for review by the respective RCD and Ethics and Compliance Department as appropriate.

5. ***Chief Compliance Officer.*** Prospect has a Chief Compliance Officer who is responsible for the management and operations of the Compliance Department. The Chief Compliance Officer shall be a senior officer of Prospect, has access to the Audit and Compliance Committee of the Board, and reports directly to Prospect's Chief Executive Officer ("CEO").

a. The Chief Compliance Officer shall make regular reports regarding compliance matters directly to the CEO. The Chief Compliance Officer shall be authorized to report to the Audit and Compliance Committee of the Board of Directors at any time.

b. To further his/her Compliance Program duties, the Chief Compliance Officer shall have the authority to monitor and perform risk assessments of the business and health care delivery activities engaged in by Prospect, Prospect employees, directors, contractors, agents and staff physicians. The Chief Compliance Officer shall have the authority to establish a periodic reporting mechanism to fulfill his/her reporting obligations to the CEO and Executive Compliance Committee. The Chief Compliance Officer may also reasonably request and have access to any Prospect business record at any time in furtherance of the mission of ensuring

Confidential LGP-SBC-000002894

Prospect's compliance with applicable federal and state laws and regulations and company policies.

c. The Chief Compliance Officer shall be responsible for developing annual Compliance Work Plans and for the Compliance Department and Work Plans to the CEO and Executive Compliance Committee. The Compliance Department shall be separate from the Prospect Law Department. The Chief Compliance Officer shall have the independent authority to engage external legal counsel as the Chief Compliance Officer may deem necessary from time to time.

6. ***Compliance Department.*** Prospect's Compliance Department,is managed by the Chief Compliance Officer, and is responsible for the operation of Prospect's Corporate Compliance Program and for ensuring Prospect's compliance with all applicable federal and state laws related to federal health care programs. The Compliance Department shall focus its efforts on overseeing compliance in eight key areas: (1) quality; (2) medical necessity; (3) qualified providers and staff; (4) providing care without financial incentives; (5) providing care in a licensed, accredited facility; (6) patient rights; (7) correct reimbursement; and (8) correct documentation, coding, charging and billing. Among its responsibilities, the Compliance Department shall be responsible for (1) annually assessing, critiquing, and (as appropriate) drafting and distributing company policies and procedures; (2) developing, providing and tracking training to Prospect employees; (3) creating and disseminating the company's Code of Conduct and obtaining certifications of adherence to the Code as a condition of employment; (4) maintaining and promoting the Prospect Compliance Action Line (telephone hot line), which allows confidential reporting of issues on an anonymous basis and emphasizes Prospect's no retaliation policy; (5) responding to and resolving all compliance-related issues that arise from the Compliance Action Line and compliance reports received from Prospect facilities and Hospital Compliance Officers or any other source that results in a report to the Compliance Department; (6) ensuring that appropriate corrective action and disciplinary action is taken by Prospect when non-compliant conduct and/or improper contractual relationships are identified; (7) monitoring and measuring Prospect's adherence to all applicable Prospect policies and legal and regulatory requirements related to federal health care programs; (8) directing an annual screening of individuals for exclusion from federal health care program participation as required by federal regulations; and (9) overseeing annual audits of clinical quality, referral source arrangements, outliers, charging, coding, billing, and/or other compliance risk areas as may be identified from time to time.

7. ***Facility Compliance Officer ("FCO").*** Prospect shall create and staff, as appropriate, the position of the Facility Compliance Officer are responsible for each of its hospital or other facilities. Each FCO shall have sufficient management authority, responsibility, and resources to permit the effective performance of his/her duties. Each FCO is responsible, in coordination with the Chief Compliance Officer for implementation and oversight of the Prospect Compliance Program at the hospital and all applicable federal and state laws related to federal health care programs and shall

Confidential LGP-SBC-000002895

have a dotted line reporting to the hospital CEO. The FCO's duties shall include the following: advising and directing hospital employees including senior executives, and contractors on Compliance Program matters, supporting the overall effectiveness of the Compliance Program by providing input on applicable compliance-related policies and procedures, reporting on ethics and compliance-related issues to the Chief Compliance Officer (or his/her designee), senior hospital executives, and serving as the hospital information resource for ethics and compliance issues.

DRAFT

UNANIMOUS WRITTEN CONSENT OF THE COMPENSATION COMMITTEE OF IVY HOLDINGS INC.

The undersigned, being all of the members of the Compensation Committee (the "Committee") of the Board of Directors (the "Board") of Ivy Holdings Inc., a Delaware corporation (the "Corporation"), acting pursuant to the authority set forth in Section 141(f) of the Delaware General Corporation Law, hereby take the following actions and adopt the following resolutions by unanimous written consent without a meeting:

WHEREAS, on December 15, 2010, the Board adopted the 2010 Stock Option Plan of Ivy Holdings Inc. (the "Plan") and, on December 16, 2010, the stockholders of the Corporation adopted the Plan; and

WHEREAS, on June 30, 2015, the Board adopted the First Amendment to the Plan and on June 30, 2015, the stockholders of the Corporation approved the First Amendment to the Plan (the Plan as so amended the "Plan"); and

WHEREAS, on May 18, 2017, the Board adopted the Second Amendment to the Plan and on May 18, 2017, the stockholders of the Corporation approved the Second Amendment to the Plan (the Plan as so amended the "Plan"); and

WHEREAS, on May 10, 2018, the Board adopted the Third Amendment to the Plan and on May 10, 2018, the stockholders of the Corporation approved the Third Amendment to the Plan (the Plan as so amended the "Plan"); and

WHEREAS, the Plan is administered by the Committee in accordance with the terms of the Plan; and

WHEREAS, the Committee desires to grant incentive stock options ("Options") within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended, to certain employees of Prospect Medical Holdings, Inc., a wholly owned subsidiary of the Corporation ("Prospect Medical") or of Prospect Medical's direct or indirect subsidiaries; and

WHEREAS, the Committee desires to grant Non-Qualified Stock Options to certain employees of the Corporation or of its direct or indirect subsidiaries; and

WHEREAS, the offering and sale of shares of shares of the Corporation's common stock to employees under the Plan is intended to be exempt from registration under the Securities Act of 1933 as amended (the "Securities Act"), by virtue of Section 4(a)(2) of the Securities Act and/or Regulation D and/or Rule 701 promulgated thereunder by the Securities and Exchange Commission;

WHEREAS, the Committee has relied, in part, in determining the fair market value of the Corporation and its common stock for the purpose of fixing of the exercise price of the Options, among other things, on the valuation advice of Valuation Research Corporation set forth in its written report dated as of February 12, 2018 and issued on March 22, 2018.

Confidential LGP-SBC-000002921

NOW, THEREFORE, BE IT RESOLVED, that the Committee has determined, based in part on the valuation advice of Valuation Research Corporation ("VRC") in its written report as of February 12, 2018, issued on March 22, 2018, that the exercise price of $390.14 equals or exceeds the current fair market value of a share of the Corporation's common stock; and it is

RESOLVED FURTHER, that the form of Incentive Stock Option Agreement (the "ISO Option Agreement") that is attached as Exhibit A to this Unanimous Written Consent hereby is approved by the Committee for use in connection with the grant of Incentive Options that is the subject of this Unanimous Written Consent; and it is

RESOLVED FURTHER, that the form of Non-Qualified Stock Option Agreement (the "NQSO Option Agreement" and, together with the ISO Option Agreement, the "Option Agreements") that is attached as Exhibit B to this Unanimous Written Consent hereby is approved by the Committee for use in connection with the grant of each Non-Qualified Stock Option that is the subject of this Unanimous Written Consent; and it is

RESOLVED FURTHER, that the form of Notice of Grant of Incentive Stock Option (the "Notice of Grant") that is attached as Exhibit C to this Unanimous Written Consent hereby is approved by the Committee for use in connection with the grant of each Incentive Option that is the subject of this Unanimous Written Consent; and it is

RESOLVED FURTHER, that the form of Notice of Grant of Non-Qualified Stock Option (the "Notice of Grant") that is attached as Exhibit C-1 to this Unanimous Written Consent hereby is approved by the Committee for use in connection with the grant of each Non-Qualified option that is the subject of this Unanimous Written Consent; and it is

RESOLVED FURTHER, that the Notice of Grant specifies, among other things, for each Option that is the subject of this Unanimous Written Consent: (1) the grant date and vesting commencement date of the Option; (2) the per share exercise price of $390.14 of the Option, and (3) the vesting terms of the Option, and it is

RESOLVED FURTHER, that the Corporation hereby grants an Option to each employee (an "Option Holder") whose name is listed in the Summary of Stock Option Grants that is attached as Exhibit D to this Unanimous Written Consent (the "Options Summary"); and it is

RESOLVED FURTHER, that the Options Summary describes, among other things, the number of shares of the Corporation's common stock, par value $0.01 per share, that each Option Holder is entitled to purchase upon the satisfaction of the terms and conditions set forth in the Notice of Grant, the Plan, and the Option Agreement for such Option Holder; and it is

RESOLVED FURTHER, that a Notice of Grant and an Option Agreement shall be prepared for each Option Holder regarding the Option that has been granted to the Option Holder and that each such Notice of Grant and Option Agreement together shall contain the terms that are set forth in the Options Summary; and it is

RESOLVED FURTHER, that each Option Holder is required to execute and deliver to the Corporation the applicable Notice of Grant and Option Agreement for such Option Holder; and it is

Confidential LGP-SBC-000002922

RESOLVED FURTHER, that, as a condition to the exercise of the vested portion of his or her Option, an Option Holder must execute and deliver to the Corporation the Stockholders Agreement dated as of December 15, 2010 (the "Stockholders Agreement") among the Corporation and certain of its stockholders, if the Option Holder is not currently a party to the Stockholders Agreement as of the date of this Unanimous Written Consent; and it is

RESOLVED FURTHER, that the Chief Executive Officer, the Chief Financial Officer, and the Secretary of the Corporation (each, an "Authorized Officer" and, collectively, the "Authorized Officers") be, and each of them hereby is, authorized and directed, on behalf of the Corporation and in its name, to prepare for each Option Holder a completed Notice of Grant and Option Agreement and to execute and deliver the Notice of Grant and an Option Agreement for each Option Holder, and to take any and all actions including, without limitation, immaterial modifications to the foregoing agreements and notices and execute, deliver, prepare, and file any and all documents as may be necessary or appropriate, in his or her discretion, in order to cause the Corporation to consummate the transactions contemplated by each Notice of Grant and Option Agreement and perform its obligations thereunder; and it is

RESOLVED FURTHER, that the authority and power given under the foregoing resolutions shall be deemed retroactive and any and all acts authorized thereunder performed prior to the adoption of these resolutions are, in all respects, ratified, confirmed, and approved; and it is

RESOLVED FURTHER, that the Authorized Officers be, and each of them acting alone hereby is, authorized and directed to take any and all actions and to execute and deliver in the name and on behalf of the Corporation any and all filings, applications, and other documents as the Authorized Officer or Authorized Officers taking such actions or executing and delivering such documents may determine to be necessary or appropriate in order to effect the purposes of all of the foregoing resolutions, such approval to be conclusively evidenced by the taking of such actions or the execution and delivery of such documents by such Authorized Officer or Authorized Officers; and it is

RESOLVED FURTHER, that this Unanimous Written Consent may be executed in two counterparts with the same effect as if both signatories hereto had executed one document.

COMPENSATION COMMITTEE
OF THE BOARD OF DIRECTORS OF
IVY HOLDINGS INC.

December 4, 2013

Fiscal Year 2013 Option Vesting

WHEREAS, on December 15, 2010, the Board of Directors adopted the 2010 Stock Option Plan of Ivy Holdings Inc. (the "Plan") and, on December 16, 2010, the stockholders of Ivy Holdings adopted the Plan;

WHEREAS, the Plan is administered by the Committee in accordance with the terms of the Plan;

WHEREAS, the Notice of Grant and the Stock Option Agreement (including any applicable amendments) for each Option granted to an Employee provide that, with respect to Prospect Medical's fiscal year ended September 30, 2013, the following portions of the Option will vest upon the satisfaction or partial satisfaction of the following four conditions:

- 5% of the Option will vest on December 15, 2013 if the Employee is an employee of Prospect Medical as of that date;
- Prospect Medical's Chief Executive Officer (or in the case of Mr. Lee, the Committee) has discretion to permit vesting of up to 5% of the Option;
- Up to 5% of the Option will vest upon the satisfaction or partial satisfaction of a specified Prospect Medical EBITDA target; and
- Up to 10% of the Option will vest upon the satisfaction or partial satisfaction of a specified business unit EBITDA target.

WHEREAS, the Committee desires to confirm and set forth in this Unanimous Written Consent, the discretionary portion of Mr. Lee's Option that vested with respect to Prospect Medical's fiscal year ended September 30, 2013;

NOW, THEREFORE, BE IT RESOLVED, that the Committee approves the full fiscal 2013 discretionary vesting component of the Option for Samuel S. Lee, which represents the vesting of 5% of Mr. Lee's Option.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on December 4, 2013 at 10:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted, Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, Dr. Jeereddi Prasad, John Baumer, Alyse Wagner, and Michael Solomon. Also present for the meeting were Redacted Redacted Steve Aleman, CFO; and Ellen J. Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 10:10 a.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks
The Chairman opened the meeting with general remarks.

Approval of Prior Board Minutes
Ms. Shin asked the Board to review the September 10, 2013 and November 20, 2013 Board minutes. Upon motion duly made, and seconded, the Board unanimously approved those minutes. The motion passed.

Redacted Von Crockett, Redacted entered the room.

Operations Review
Redacted reviewed with the Board the consolidated financial summary for the Medical Groups for fiscal year 2013, and through October 31, 2013. She noted that the Medical Groups had a record year in terms of overall performance. Specifically, the key differences for the year were stabilization in commercial membership, full risk profitability, improvement in performance and medical management programs, and revenues from additional management service organizations. Mr. Baumer asked questions regarding the full risk line of business, and performance programs. Redacted answered those questions. Mr. Baumer then asked a general question about the competitive landscape. Redacted and Redacted responded, and also went into further detail about efforts the Medical Groups had taken to shore up the operations of the Medical Groups against the competition. Redacted then went through forward looking financial operations, which included an overview of key initiatives in attracting additional membership, increasing revenue, lowering medical cost and utilization, and ongoing operations. Redacted also noted risks facing the Medical Groups, including the unknown impact of the Health Insurance Exchange, physician attrition, full risk expansion, ICD-10 conversion, and certain government mandates. Mr. Baumer asked if there were concerns in entering into the full risk business. Redacted stated that the risks should be relatively low given that certain measurements had been implemented to mitigate any such risk. Mr. Lee then gave additional

context on the Company's full risk and Coordinated Regional Care model. Specifically, he noted that 2013 and 2014 would be investment years for the Company, and that the Company expected to see those investments materialize in 2015.

[redacted] Senior Vice President, Hospital Operations of Alta Hospitals System, reviewed with the Board the financial performance for the core Alta hospitals for fiscal year 2013. [redacted]. [redacted] went over volume, revenue, cost management, and EBITDA performance. He also went through forward financial operations in the areas of volume, financial drivers, and operational initiatives. [redacted] shared the ongoing risks from a reimbursement perspective that all hospitals are currently facing. Mr. Baumer asked what Medicare Disproportionate Share amounts the hospitals received last year. Mr. Aleman answered that question. Mr. Baumer then specifically asked about the differences in the normalized and GAAP EBITDA numbers. A discussion then ensued amongst management and the Board.

[redacted] then reviewed with the Board the financial performance of Southern California Hospital at Culver City ("Culver City") for fiscal year 2013. He stated that Culver City had notable increases in volume and revenue, and good control over cost management as compared to the same period last year. Ms. Wagner asked what is the volume of psychiatric care at the hospital. [redacted] reported that the patient population was now approximately 25%. A discussion ensued amongst management and the Board about the competitive landscape of hospitals that provide psychiatric care. [redacted] then shared Culver City's plans to expand into Obstetrics Services.

Mr. Crockett, Senior Vice President, Corporate Development, reviewed with the Board the financial performance of Nix Health ("Nix") for fiscal year 2013. Specifically, Mr. Crockett went over favorable improvements in volume, revenue, cost management, and EBITDA performance through fiscal year 2013. Despite these improvements, Mr. Crockett also noted to the Board that the Emergency Department expansion had also presented a different challenge with an increase in self-pay patients, and collectability of those accounts. On a positive development front, Mr. Crockett shared with the Board that a major favorable contract was entered between Nix and University Health System, and the continued demand for psychiatric services. He also went over the forward financial operations. Mr. Baumer asked what is the average daily census at Nix. Mr. Crockett responded to that question. Mr. Baumer then asked if opening the Emergency Department at Nix was the right decision. Mr. Crockett answered in the affirmative. Mr. Lee then provided an update regarding Nix Community General Hospital.

Coordinated-Regional-Care

[redacted] then provided a regional update to the Board about the Company's Coordinated-Regional-Care ("CRC") operating model and risk management platform. Specifically, he went over current accomplishments and results in Southern California, San Antonio, Rhode Island, and New Jersey. This included an overview of the timeline to put in place a state specific regulatory infrastructure, network development, and health plan engagement. [redacted] also expressed several of the key differences in each of the states, and the regulatory hurdles experienced to date.

[redacted] Mr. Crockett, and [redacted] left the room.

Confidential LGP-SBC-000003125

Finance Matters

Mr. Aleman then reviewed with the Board the financial statements for the Company's consolidated entities through September 30, 2013. Specifically, Mr. Aleman went over the Company's consolidated balance sheet and income statement through September 30, 2013, the Adjusted EBITDA fifteen month trend, and further details at each entity level. Mr. Aleman also provided an update as to the status of the fiscal year 2013 audit, and that he estimated that the audit should be completed by the end of next week. Mr. Lee gave his perspective on the performance of the Company at fiscal year 2013, and expected headwinds into 2014 and 2015.

Mr. Solomon asked about the Company's available cash at September 30, 2013, and ability to fund upcoming transactions. Mr. Aleman responded to those questions. Mr. Solomon also asked what the Company anticipated paying in capital expenditures for the coming year. Mr. Aleman stated approximately $13 million.

Redacted entered the room.

Corporate Development

Redacted provided an update on the Chartercare transaction. Specifically, he went over the major deal points, timeline and current hurdles. Mr. Crockett elaborated further on the status of discussions with the union at the facilities. Mr. Lee explained the potential for the Company to make a significant impact in providing quality, and effective population management in the State of Rhode Island.

Redacted then provided an update on the Pacific Health transaction. He specifically went over each of the regulatory hurdles at the Tustin, Bellflower, and Redacted - Business Sensitive Redacted also reviewed the pipeline of potential acquisitions that the Company is considering.

Mr. Aleman then went over the status of the Redacted - Business Sensitive transaction, and another potential opportunity in New Jersey. A discussion ensued amongst management and the Board.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 12:35 p.m.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on November 14, 2017 at 10:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of Leonard Green & Partners located at Redacted Redacted, Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, John Baumer, Alyse Wagner, Michael Solomon and Jeereddi Prasad, M.D. (the "Board"). Also present for the meeting were Redacted Redacted a representative of Leonard Green & Partners; President - CRC President; Steve Aleman, Chief Financial Officer; Von Crockett, Senior Vice President, Corporate Development; Redacted Redacted Systems Chief Financial Officer; and Ellen Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 10:05 a.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks

The Chairman opened the meeting with general remarks.

Approval of Prior Board Minutes

Ms. Shin then asked the Board to review the August 22, 2017 Board minutes. Upon motion duly made, and seconded, the motion passed and the Board unanimously approved those minutes.

Redacted Redacted Von Crockett, Redacted Redacted Redacted Redacted, and Redacted entered the room.

Mr. Lee introduced Mr. Systems CFO to members of the Board.

Operations Review

Hospital Segment:

Redacted Senior Vice President, California Hospital Operations, reviewed with the Board the operational performance for the California hospitals for fiscal year 2017. He first went over as a group the challenges and successes at Los Angeles Community Hospital, Norwalk Community Hospital, Hollywood Community Hospital, and Van Nuys Community Hospital.

SVP - CA then went over the challenges and successes at Southern California Hospital at Culver City ("Culver City"). In particular, he noted that significant improvements had been made in decreased length of stay, premium pay reduction, termination of the LPS designation, and an increase in psychiatric admissions. Mr. Lee asked Systems CFO for his opinion regarding his assessment of the facility. Systems CFO responded to that question, and a discussed ensued amongst the Board and management regarding the challenges and current efforts to improve the financial performance of the hospital.

SVP - CA then reviewed with the Board the performance of Los Angeles Community Hospital at Bellflower ("Bellflower"). He went over improvements in average daily census and the status of the expansion of beds at the facility.

SVP - CA then reviewed with the Board the performance of Foothill Regional Medical Center ("Foothill"). Despite certain challenges with staff recruitment and retention and managed care contracting, SVP - CA noted several successes, including growth in inpatient volume and surgical programs, reduction in registry hours, new managed care agreements (with favorable rates), new Medical Staff leadership and management. Mr. Aleman commented on crossover benefits between Foothill and the Medical Groups.

Mr. Crockett then reviewed with the Board the performance of Eastern Connecticut Health Network ("ECHN") in Connecticut. Specifically, he went over ECHN's financial performance, major challenges, successes, and risks/opportunities. Although there were some volume leakage concerns, Mr. Crockett also noted that there were some successful payor contract negotiations and volume increases in the Eating Disorder Unit. Other notable risks/opportunities identified were a proposed $4 million increase in state supplemental revenue and the addition of Gero-Psych beds. A discussion regarding the process and timing of the Gero-Psych beds ensued amongst the Board members and management.

Mr. Crockett then discussed the performance of Waterbury Hospital ("Waterbury") in Connecticut. Some of the notable major challenges mentioned by Mr. Crockett were the Cerner electronic health records uplift and union negotiations with SEIU and CHCA. He also went over certain successes in labor management, ED LOS and patient experience. He also noted some opportunities in proposed supplemental revenue increase, physician engagement and recruitment, emergency room expansion and increases in managed care rates.

Mr. Crockett next discussed the performance of the Nix hospitals ("Nix") in San Antonio, Texas. A discussed ensued regarding certain challenges, including lower volumes at the Nix since the flood, psychiatry billing issues, and stagnated IPA growth. Mr. Crockett also went over some successes, which included the maintenance of Behavioral Health volumes, strong Labor management, and ED physician recruitment. He also noted that state reimbursement program were still on track to be extended to 2018 (Section 1115 Waiver), and there is a new supplemental program for managed Medi-caid effective in December 2017 that should yield some additional monies to the Nix.

A discussion ensued regarding the ongoing struggles at its facilities. Mr. Crockett noted some physician recruitment opportunities.

Mr. Crockett then provided an update regarding operations and matters at East Orange General Hospital (EOGH) in New Jersey. He noted some major challenges, including a monthly $500,000 reduction in Charity Care, effective July 1st, and loss of the psychiatric emergency screening grant, which totaled $1.6 million annually, effective November 1st. Mr. Crockett also went over some successes at the facilities, including an increase in physician morale and engagement, and a significant reduction in LOS. Risks and opportunities were also identified, including a changing landscape with local and state politicians.

Mr. Crockett then went over the financial performance, major challenges, successes and risks/opportunities for CharterCARE Health Partners in Rhode Island. He noted that there was a decline in volume and general instability in the Rhode Island healthcare marketplace and physician market. A discussion ensued amongst management and the Board about the current Rhode Island healthcare marketplace. Mr. Crockett added that the negative union campaigning by UNAP continued to contribute to the overall instability in the marketplace. Despite those challenges, Mr. Crockett noted several successes including strong acute admissions and continued recruitment of physicians affiliated with a competitor. Mr. Crockett also stated that there are some opportunities in the local marketplace the Company is pursuing.

Redacted Redacted Chief Executive Officer at Crozer-Keystone Health System ("Crozer), appeared by telephonic conference. CEO - Crozer reviewed with the Board Crozer's fiscal year 2017 performance, including fiscal year 2017 and 4th quarter adjusted EBITDA performance. He reviewed those results with prior year performance. He also noted certain volume trends, challenges, and successes. CEO - Crozer also gave a preliminary outlook on fiscal year 2018, including a rebound in certain volume trends and projected fiscal year 2018 EBITDA projections. Mr. Baumer thanked CEO - Crozer for his presentation and the good work at Crozer.

CEO - Crozer then exited the meeting.

Medical Group Segment:

Redacted Redacted, the Chief Executive Officer of the Company's Medical Group segment, went over the fiscal year 2017 successes and opportunities for the Medical Group segment. CEO - Medical Group then discussed Adjusted EBITDA performance excluding RAF adjustments, and also went over projected fiscal year 2018 EBITDA. Mr. Aleman gave some further context.

Redacted, Mr. Crockett, and Redacted then left the room.

Coordinated-Regional-Care:

Redacted Redacted, the President of the Company's Coordinated Regional Care segment, then provided an overall update to the Board about the Company's performance in the segment. Specifically, President - CRC went over the payor market in each market, and the Company's progress to adjust to those marketplace demands.

Finance Matters

Mr. Aleman then provided an update regarding the financial performance for the third quarter of fiscal year 2017. Specifically, he went over the 15 month Adjusted EBITDA trend, a summary of the Hospital Segment financial summary, and the current cash projections. Mr. Aleman also provided an update on the timing of Quality Assurance Fee monies. A discussion ensued amongst the Board and management regarding the inclusion of QAF monies into the Company's overall financial picture.

Corporate Development

Steve Aleman provided an update regarding current corporate development activities. He also noted ongoing activities related to the sale of excess non-essential real property and discussions regarding the possible sale of identified home health agencies.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 12:55 p.m.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on May 23, 2018 at 10:07 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at Redacted Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, John Baumer, Alyse Wagner, and Michael Solomon. Also present for the meeting were Redacted of Leonard Green & Partners; Steve Aleman, Chief Financial Officer; and Ellen Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 10:00 a.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks

The Chairman opened the meeting with general remarks.

Approval of Prior Board Minutes

Ms. Shin then asked the Board to review the May 23, 2018 Board minutes. Upon motion duly made, and seconded, the motion passed and the Board unanimously approved those minutes.

George Pillari entered the room.

Finance Matters

Mr. Aleman gave an overview of the financial performance of the Company, which included a 12 month and quarter by quarter review. Mr. Aleman noted that the figures were in line with the Company's projections. Mr. Aleman then went over an analysis of certain EBITDA adjustments with the Board. Mr. Baumer asked a question about financing costs in February 2018. Mr. Aleman answered that question.

Mr. Pillari noted that the Company was undergoing a new electronic health records implementation. A discussion ensued amongst the Board and members of management regarding the impact of the implementation, and other development costs.

Redacted entered the room.

Mr. Aleman then went over the GAAP to Adjusted EBITDA Bridge for the quarter ending March 31, 2018, which included certain pro forma adjustments. Mr. Aleman also provided a comparative analysis on cash collections from fiscal year 2017 to fiscal year 2018. Mr. Baumer asked about the status of cash collections specifically at Crozer Keystone Health System ("Crozer"). Mr. Lee responded to that question.

Mr. Aleman then provided a cash projection for the remainder of the calendar year.

Confidential

Von Crockett entered the room.

Operations Review

Hospital Segment:

Redacted Chief Executive Officer at Crozer, appeared by video conference. CEO - Crozer reviewed with the Board Crozer's second quarter of fiscal year 2018 financial performance, fiscal year to date financial performance and trailing twelve months performance. In particular, he went over admissions and expense control metrics from the prior fiscal year quarter. He also noted certain areas of underperformance and performance trends, and steps the management team has taken to address both items. Mr. Crockett also gave some perspective on some legislation that was currently being considered to address staffing ratios in Pennsylvania. There being no further discussion items, the Board members thanked CEO - Crozer for his participation.

CEO - Crozer exited the meeting.

Mr. Crockett, Senior Vice President, Corporate Development, reviewed with the Board the operational performance of the four legacy Alta hospitals for the second quarter of fiscal year 2018. Specifically, he went over challenges, successes, underperformance, trends, and steps taken to address any areas of underperformance and trends. Mr. Baumer asked for the financial performance of hospitals from the last year, and specifically for future presentations. Mr. Aleman stated that information would be provided going forward.

Mr. Crockett then reviewed with the Board the operational performance of Southern California Hospital at Culver City ("Culver City") for the second quarter of fiscal year 2018. Mr. Crockett went over certain performance and underperformance highlights, and the steps taken to address the underperformance areas. For instance, Mr. Crockett pointed out that registry costs had come down significantly during April 2018. Mr. Aleman went through the timing and impact of the Quality Assurance Fee ("QAF") monies. A discussion ensued regarding the breakdown and timing of QAF.

Mr. Baumer left the room.

Mr. Crockett then went over the operational performance of Foothill Regional Medical Center ("Foothill) for the second quarter of fiscal year 2018. Mr. Crockett highlighted for the Board that overall volume at Foothill had increased and the benefit of a significant payor agreement. He did state, however, that certain initiatives had fallen below expectations of management.

Mr. Crockett then reviewed with the Board the operational performance of Los Angeles Community Hospital at Bellflower ("Bellflower) for the second quarter of fiscal year 2018. Mr. Crockett stated that volume at Bellflower had remained relatively flat for the quarter, and that outreach efforts had expanded into Orange County. A discussion ensued amongst the Board and management regarding those updates.

Mr. Baumer returned to the room.
Sam Lee left the room.

Confidential LGP-SBC-000002951

Redacted left the room.

Mr. Crockett then reviewed with the Board the operational performance of Nix Healthcare in San Antonio, Texas for the second quarter of fiscal year 2018. He noted that volume metrics and operating revenues were mixed compared to the prior quarter, and that there were some additional opportunities for improvements. A discussion ensued amongst the Board and management about the continued challenges and efforts by the management team to address them.

Sam Lee returned to the room.
George Pillari left the room.

Mr. Crockett then reviewed with the Board the operational performance of CharterCARE Health Partners ("CCHP") in Rhode Island for the second quarter of fiscal year 2018. Specifically, he went over CCHP's volume trends, focused improvements on employed physician practices, and further expense reductions. Mr. Baumer asked for a status update about the pension litigation at CCHP. Ms. Shin responded to Mr. Baumer's inquiry.

Redacted returned to the room.

Mr. Crockett then reviewed with the Board the operational performance of East Orange General Hospital ("EOGH") in New Jersey for the second quarter of fiscal year 2018. Mr. Baumer asked a question about efforts by the hospital to address the loss of charity care reimbursement. Mr. Crockett responded to that question. Mr. Crockett also went over some improvement initiatives in revenue cycle. A further discussion ensued amongst the Board and management.

Mr. Baumer left the room.

Mr. Crockett then reviewed the financial performance for the second quarter of fiscal year 2018 at Eastern Connecticut Health Network ("ECHN") in Connecticut. Mr. Crockett gave an update on new programs, and how the hospital had benefited from improved state rates.

Mr. Baumer returned to the room.

Mr. Crockett reviewed the financial performance for the second quarter of fiscal year 2018 at Waterbury Health. Mr. Crockett went over some challenges, successes, and trends. Mr. Baumer asked a question about competition from other area hospitals. Mr. Crockett responded to that question. Mr. Lee gave some further context.

The meeting participants then discussed the Connecticut marketplace.

Redacted entered the room.

Medical Group Segment:

Redacted President of the Company, provided an executive summary regarding the operational performance of the second quarter of fiscal year 2018 at the Medical Group segment. He noted that core operations continue to be strong, and that operational improvements were able to offset

a decline in commercial membership performance. President - PMH also went over certain initiatives to address underperformance.

Redacted entered the room.

Coordinated-Regional-Care ("CRC") Segment:

Redacted then provided an update to the Board about the Company's performance in the segment. Specifically, he went over total CRC membership, CRC financials highlight, and CRC opportunities and risks.

Redacted Mr. Crockett and Redacted then left the room.

Corporate Development

Mr. Aleman then provided an update regarding the Company's current corporate development pipeline. Mr. Aleman A discussion ensued amongst the Board and management related to the timing of those activities.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 1:14 p.m.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on February 25, 2011 at 10:45 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted Los Angeles, CA at 2:00 p.m.

Members of the Board of Directors who were present were Mr. Lee, Dr. Jeereddi Prasad, John Baumer, Alyse Wagner, and Michael Solomon. Also present for the meeting were David Topper, Alta Hospitals System ("Alta") President; Redacted, CFO; and Ellen J. Shin, General Counsel. Redacted, outside Corporate Counsel participated by invitation. Sam Lee acted as Chairman and Ellen J. Shin acted as Secretary of the meeting. The Chairman called the meeting to order, announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks
The Chairman opened the meeting with general remarks.

Acceptance of Prior Audit Committee Reports
The Board reviewed and accepted the February 7 and 11, 2011 Audit Committee minutes.

Appointment of Chairperson of Audit Committee
Given the recent formation of the Audit Committee, Ms. Shin stated that the Committee needed to appoint a Chairperson. Upon motion duly made, and seconded, the Board of Directors unanimously adopted the following resolutions:

WHEREAS, under the Audit Committee Charter ("Charter"), the Board of Directors shall designate a Chairperson;

WHEREAS, the Chairperson shall be financially literate and possess the requisite accounting or related financial management experience and expertise to qualify as an "audit committee financial expert;"

NOW, THEREFORE, BE IT RESOLVED, that the Board hereby appoints Alyse Wagner of Leonard Green & Partners, L.P. to serve as the Chairperson of the Audit Committee;

RESOLVED FURTHER, that the officers of the Company are hereby directed to provide to the Audit Committee, each member thereof, such information and materials, including books, records, projections and financial statements of the Company and any documents, reports or studies pertaining to the Company as may be useful or helpful in the discharge of the Audit Committee's duties or as may be determined by the Audit Committee, or any member thereof, to

Confidential

be appropriate or advisable in connection with the discharge of the duties of the Audit Committee;

RESOLVED FURTHER, that the officers of the Company are hereby authorized and directed to take all such further action and to prepare, execute, acknowledge, file and deliver all such further documents and instruments by and on behalf of the Company, and in its name, or otherwise, as in the judgment of any such officer shall be necessary, appropriate or advisable in order fully to carry out the intent and to accomplish the execution of the purposes of the foregoing resolutions.

Redacted, Redacted, and Redacted entered the room.

Operations Review

Redacted, Alta's Senior Vice President, Operations, reviewed with the Board the consolidated financial summary for the month and year to date of December 31, 2010. Alta SVP Ops specifically noted that the volume of admissions and discharges was lower than the prior year due to a one time H1N1 flu outbreak during the same time frame last year. He also explained that revenue had decreased slightly from the prior year, and that overall cost management had slightly increased, primarily due to an increase in registry usage. With respect to the forward financial operations, Alta SVP Ops informed the Board that the volume of admissions had increased for January. Mr. Baumer asked why the increase in revenue did not translate into better financial performance for the month. Alta SVP Ops and Alta CFO explained that the length of stay should have been better managed.

Redacted Alta's Chief Financial Officer, then gave a report on Brotman Medical Center's financial operations for the month and year to date of December 31, 2010. She explained that the volume of discharges and patient days had increased from the prior year, but that the emergency room visits had decreased for the prior year. Alta CFO then explained that the net collectible revenue had increased for the same period from the prior year, and that the TAR denials had decreased for this same time frame. Mr. Baumer asked how these metrics compared to Alta. Mr. Lee responded to that question. Ms. Wagner asked for an update on the status of discussions with Gemino Healthcare LLC ("Gemino") and the Jewish Home for the Aging ("JHA"). Alta CFO also explained that there continued to be many challenges at Brotman Medical Center, Inc. ("Brotman"), including the inability to access additional capital under Brotman's existing revolving line of credit with Gemino. Mr. Lee provided an additional update on management's negotiations with the JHA.

Dr. Prasad, President of the ProMed entities, then provided an operations and financial summary of the ProMed entities through the end of January 2011. Given the ongoing recession, Dr. Prasad explained that commercial membership had continued to decline, but that continued growth in senior membership had helped to offset the overall decline. He also stated that revenue had decreased by approximately $83,000 from the prior year period, but that the

business unit had also obtained commercial rate increases from several health plans. On a going forward basis, Dr. Prasad informed the Board there continued to be risks on a national and local basis, which included competitive pressure and the uncertain impact of health care reform legislation. He then proceeded to explain a number of operational initiatives to mitigate the losses in membership.

Redacted then gave an update on Prospect Medical Group's financial operations through January 31, 2011. Redacted explained that membership had stabilized due to slight increase in senior membership, and despite a continued decrease in commercial membership. He also went over a number of forward financial operations efforts, including exclusivity arrangements with key physicians, strategic alliance with health plans, maximizing risk adjustment and pay for performance revenue, improvements in health plan contracting negotiations, IPA/MSO consolidation, capitated arrangements with certain health plans, and the potential purchase of medical groups. Mr. Lee also provided further context.

Finance Matters

Mr. Heather reviewed with the Board the financial statements for the Company's consolidated entities through December 31, 2010. This included a review of the first quarter of fiscal 2011 filing, which will be filed on February 14, 2010, and a review of the preliminary financials through January 31, 2011.

Mr. Heather explained that even though the Company was no longer publicly traded, it still had debt that could be publicly traded, and as a result, concluded that it would still file its quarterly financials until it had decided otherwise. He also informed the Board that Brotman had also issued its stand alone financials, and that Prospect Medical Group had timely filed its quarterly statutory filing with the Department of Managed Health Care.

Mr. Baumer raised a question about the Company's single physician shareholder model. A discussion ensued among the Board and management. Ms. Shin stated that she would further research the issue, and report back to the Board.

Mr. Heather then reviewed with the Board the Company's consolidated balance sheet through January 31, 2011, and the Adjusted EBITDA fifteen month trend. He then went over the tax filings for the various Company business entities.

Mr. Heather then provided an update on the Company's efforts to modify its existing indenture and remove the current requirement to file the Company's quarterly and annual financial statements. A discussion ensued among management and the Board.

Corporate Development

Mr. Lee gave an overview on the Company's current acquisition pipeline of hospital targets.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 1:10 p.m.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on November 17, 2016 at 10:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of Leonard Green & Partners ("LGP"), Redacted Redacted Los Angeles, CA 90025.

Members of the Board of Directors who were present were Mr. Lee, John Baumer, Alyse Wagner, and Michael Solomon (the "Board"). Also present for the meeting were Redacted, LGP representative; Steve Aleman, Chief Financial Officer; and Ellen J. Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 10:10 a.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks
The Chairman opened the meeting with general remarks.

Approval of Prior Board Minutes
Ms. Shin then asked the Board to review the September 12 and 26, 2016 Board minutes. Upon motion duly made, and seconded, the Board unanimously approved those minutes. The motion passed.

Acceptance of Prior Compensation Minutes
Ms. Shin then asked the Board to the September 29, 2016 Compensation Committee minutes. The Board accepted those minutes.

Redacted Von Crockett and Redacted entered the room.

Mr. Lee gave context about the Company since the last Board meeting. This included a recap about the completion of this past year's acquisitions, and some key issues that had a significant impact on the overall performance of the Company.

Operations Review
Redacted Chief Executive Officer at Crozer-Keystone Health System ("Crozer), appeared by video conference. CEO - Crozer reviewed with the Board preliminary fourth quarter adjusted EBITDA, inpatient volume and case mix index trends, and outpatient volume trends. He then went over various development initiatives, challenges and successes. Mr. Baumer asked if the performance of the first quarter of fiscal 2017 was driven by revenue or focus on expenses. Redacted CEO - Crozer stated the drivers were both items. Mr. Baumer then asked about the marketplace, and whether or not much had changed as a result of the conversion from a non-profit organization to for-profit. CEO - Crozer stated in his opinion that the change was not significant.

Confidential LGP-SBC-000003057

CEO - Crozer exited the meeting.

SVP Ops - CA, Senior Vice President, Hospital Operations, then reviewed with the Board the operational performance for the California hospitals through September 30, 2016. SVP Ops - CA went over the financial performance compared to the previous quarter performance. He also went through challenges, successes, and highlights for Los Angeles Community Hospital, Norwalk Community Hospital, Van Nuys Community Hospital, Hollywood Community Hospital, Southern California Hospital at Culver City, Los Angeles Community Hospital at Bellflower, and Foothill Regional Medical Center.

Mr. Lee and Mr. Solomon left the room.

Mr. Baumer asked a question about the status of the Emergency Department at Foothill Regional Medical Center. SVP Ops - CA gave an update about the specific regulatory hurdles and status.

Redacted left the room.

Mr. Crockett, Senior Vice President, Corporate Development, then reviewed with the Board the performance of Nix Healthcare ("Nix") for the quarter ending September 30, 2016. Specifically, Mr. Crockett went over Nix's financial performance, major challenges, successes, risks/opportunities. Mr. Baumer asked for some further clarification related to the performance of the first quarter of fiscal 2017. Mr. Aleman responded to that question.

Mr. Lee, Mr. Solomon and Redacted returned to the room.

Mr. Crockett then reviewed with the Board the performance of CharterCARE Health Partners ("CCHP") for the quarter ending September 30, 2016. Specifically, he went over CCHP's financial performance, major challenges, successes, and risks/opportunities. In particular, he noted that physician performance was an issue, and that several non-productive physician practices had been discontinued.

Mr. Crockett then reviewed with the Board the performance of East Orange General Hospital ("EOGH") for the quarter ending September 30, 2016. He stated that the facility was performing at or above expectations. He then went through the financial performance, major challenges, successes, and risks/opportunities at the facility.

Redacted President of the Company, then reviewed with the Board the performance for the Medical Group segment for the fiscal year ending September 30, 2016, and also gave an outlook for fiscal year 2017. He then went through the risk, challenges, and opportunities. He asked if there were any questions from the Board. Mr. Baumer asked a question about the overall performance. Ms. Wagner asked a question about the profitability with Medicaid expansion. Redacted President - PMH and Mr. Lee answered those questions.

Coordinated-Regional-Care

President - PMH then provide an overall update to the Board about the Company's Coordinated-Regional-Care ("CRC") operating model and risk management platform. He went over the (1)

current build-operate-transfer model in Pennsylvania, Connecticut and New Jersey; (2) Rhode Island CRC fiscal year 2017 bridge initiatives; (3) Pennsylvania CRC fiscal year 2017 bridge initiatives; (4) Connecticut CRC fiscal year 2017 bridge initiatives; and (5) New Jersey CRC fiscal year 2017 bridge initiatives. A discussion ensued amongst management and the Board.

SVP Ops - CA left the room.

Finance Matters

Mr. Aleman then provided an update to the Board of the fiscal 2016 audit and went over the financial statements for the Company's consolidated entities through September 30, 2016. Mr. Baumer asked if there were any concerns about finishing the audit on time. Mr. Aleman stated there were no concerns. Mr. Aleman then provided an overview of the potential impact of the Presidential election, including some of the healthcare positions that President elect Donald Trump had taken publicly. He also went through the recent and relevant healthcare California propositions 52 and 55. Mr. Aleman also gave an update of the pension and self-insurance efforts by the Company since the acquisitions of Crozer, Eastern Connecticut Health Network ("ECHN"), and Waterbury Hospital ("Waterbury"). Mr. Aleman also provided an update on cash projections and the monies spent on the recent acquisitions.

Corporate Development

Mr. Crockett provided a post-closing update on Crozer, ECHN, and Waterbury. In particular, he went over the financial performance, major challenges, successes, and risks/opportunities at ECHN and Waterbury, which had just closed on October 1, 2016. Mr. Crockett also shared with the Board that the focus for the coming year would be divesting excess real estate across the system, and several smaller closings by the end of calendar year 2016.

Mr. Crockett left the room.

Executive Session

The Board met with Mr. Aleman, Ms. Shin, and President - PMH in executive session.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 12:46 p.m.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on May 20, 2015 at 10:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, Dr. Prasad, John Baumer, Alyse Wagner, and Michael Solomon (the "Board"). Also present for the meeting were Steve Aleman, Chief Financial Officer, and Ellen J. Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 10:10 a.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks
The Chairman opened the meeting with general remarks.

Approval of Prior Board Minutes
Ms. Shin asked the Board to review the February 17, 2015 Board minutes. Upon motion duly made, and seconded, Dr. Prasad, Mr. Lee, Mr. Baumer, and Ms. Wagner approved the February 17, 2015 Board minutes. The motion passed.

Legal Update
Ms. Shin provided an update to the Board with respect to the Redacted – Privileged Redacted – Privileged

Approval of Designation of Prospect Health Plan as an Unrestricted Subsidiary
Ms. Shin then went over a request to seek approval of a resolution to designate Prospect Health Plan, Inc. ("PHP") as an "Unrestricted Subsidiary" under a certain Indenture, dated as of May 3, 2012, by and among the Company, the subsidiary guarantors party thereto and U.S. Bank National Association as trustee, under which the Company has issued its 8.375% Senior Secured Notes due 2019, a copy of which is attached hereto as Exhibit A. Upon motion duly made and seconded, the Board unanimously approved the resolution.

Redacted Von Crockett, Redacted and Redacted entered the room.

Operations Review
Redacted Hospital CEO of Alta Los Angeles Hospitals, Inc., reviewed with the Board the consolidated financial summary for the month and year to date through March 31, 2015 of Los Angeles Community Hospital, Norwalk Community Hospital, Van Nuys Community Hospital and Hollywood Community Hospital. Hosp CEO - Alta LA went through changes in volume, revenue, cost management, and EBITDA. He noted significant decreases in registry hours and supply

Confidential LGP-SBC-000003073

expenses. Mr. Baumer asked what is driving the decrease in EBITDA? Hosp CEO - Alta LA stated that it was the payor and case mix index. Mr. Lee stated that the Medicare business is shifting over to managed care, and as a result utilization of medical services is decreasing. Mr. Baumer then asked for a status of the projects at Hollywood Community Hospital. Hosp CEO - Alta LA responded to that question. Hosp CEO - Alta LA then went over the forward financial operations.

Hosp CEO - Alta LA then reviewed with the Board the consolidated financial summary for the month and year to date through March 31, 2015 of Southern California Hospital at Culver City ("Culver City"). He explained that admissions had increased by 5%. This increase was despite the fact that a small fire occurred at the end of January on the roof at Culver City. Mr. Baumer asked what caused the fire. Mr. Lee explained a contractor working on the roof appeared to have caused a localized fire, which resulted in smoke entering the building. Although patients were forced to evaluate, there were no reported patient or employee issues. Hosp CEO - Alta LA stated that employee productivity numbers were high because of work related to the fire and a recent CMS survey. On the cost management side, he stated that registry hours had also decreased by about 60%. Mr. Lee reminded the Board about prior performance, the Disproportionate Share cuts, and expected current performance at Culver City. Hosp CEO - Alta LA then went over the forward financial operations, including the emergency room expansion and build out.

Mr. Baumer asked what is going on in the emergency room. Hosp CEO - Alta LA stated that the facility had outgrown the current emergency room, and as a result were turning away patients from the facility. Mr. Baumer asked some follow up questions. Mr. Aleman responded to those questions.

Hosp CEO - Alta LA then provided a summary of the financial operations for the month and year to date ending March 2015 at Los Angeles Community Hospital at Bellflower ("Bellflower) and Foothill Regional Medical Center ('Foothill"). With respect to Foothill, Hosp CEO - Alta LA stated that medical surgical services opened on March 30, 2015, and the first patient was admitted on March 31, 2015. Other key milestones achieved/to be completed were/are: OSHPD approval (occurred in mid-March) and California Department of Public Health ("CDPH") licensure (completed at the end of March). With respect to Bellflower, Hosp CEO - Alta LA stated that the facility is waiting for licensure inspection by CDPH, which should be any day now. He stated that the other key drivers for opening of the facility are: completion of construction (expected June 2015), OSHPD approval (occurred on April 29, 2015), CDPH licensure (expected to occur in late May 2015), conditional use permit by the City of Bellflower (occurred April 30, 2015), and Det Norske Veritas accreditation (expected to occur end of May). He also went over forward financial operations for Bellflower and Foothill. Mr. Baumer asked a question about the impact of any government reimbursement programs at the facilities. Mr. Aleman responded to that question.

Von Crockett, Senior Vice President, Corporate Development at the Company, provided a summary to the Board of the financial operations for the quarter and year to date ending March 2015 at Nix Hospitals System, LLC ("Nix"). Mr. Crockett stated that it was a transition year at the Nix, and went over the following highlights: (1) opening of the Babcock facility, (2) execution of the UHS contract, (3) increases in overall admissions volume, (4) slight decreases in emergency room admissions, and (5) continued challenges in the rural market at Nix Community

General Hospital ("NCGH"). He stated that the expected performance of Nix appeared to be about the same as last year.

Michael Solomon entered the room.

Mr. Crockett also went over expected risks to Nix's financial operations for next quarter, including some potential cuts in Uncompensated Care reimbursement, changes in Delivery System Reform Incentive Payments ("DSRIP") after 2016, and the fact that NCGH continues to lag in performance expectations. Mr. Baumer asked a question regarding what the DSRIP program will look like going forward. Mr. Crockett responded to that question.

Mr. Crockett then went over the consolidated financial summary for the quarter and year to date through March 31, 2015 at CharterCARE Health Partners ("CCHP"). Specifically, he stated that volume was still strong despite the severe snowstorms that occurred in the region during the quarter. He further added that the volume had returned to prior levels by March, except for elective surgeries. Other highlights for the quarter were: (1) the addition of some senior executives in finance and operations, (2) financial performance, (3) physician recruitment, and (4) the state Medicaid global risk project. Mr. Baumer asked a question regarding what percentage of the payor mix is Medicaid. Mr. Crockett stated approximately 10%.

Having concluded the discussion related to the Hospital segment, Mr. Crockett then turned the meeting to Redacted to review with the Board performance of the Medical Groups segment. Redacted Redacted stated the for the six months ending March 31, 2015, year to date EBITDA performance was $16.3 million. She attributed the successful performance to overall membership growth, increases in capitation revenue and other lines of revenue, and steady management of the cost of revenue and operating expenses. She then went over the forward finance and operations for the next quarter, which included a discussion regarding opportunities, key initiatives, revenue, cost of revenue, operations and risks. Redacted asked if there were any further questions, and there were none from the Board.

Redacted and Redacted left the room.

Coordinated-Regional-Care

President - PMH stated that over the last two years the Company had established its ability to set up independent physician associations, management service organizations, handle population management, and manage risk in several new regions. He further stated that the next evolution of the Company is to take this global risk platform into new regions where the Company is buying hospitals. He pointed out that this ability is what differentiates the Company from other buyers. He then explained to the Board the Company's plan to launch C-R-C Solutions to "friends and family" health systems in current and new markets. A discussion ensued amongst the Board and management regarding this new segment line of potential business.

Finance Matters

Mr. Aleman then reviewed with the Board the financial statements for the Company's consolidated entities through March 31, 2015. He highlighted the Company's projected revenue and EBITDA performance through September 30, 2015. Mr. Baumer asked how the projected

performance compared to last year. Mr. Aleman responded to that question. He then provided an update of the Company's available cash, including the timing of Quality Assurance Fee ("QAF") payments and net funds. He stated that the available cash on hand was lower due to the timing of those QAF funds. Mr. Baumer noted that the accounts receivables looked considerably higher. Mr. Aleman agreed, and explained that the Company had tightened up some processes in its management of revenue cycle. Mr. Lee also stated that from a billing and collection perspective, the Company was not as effective or as efficient compared to its prior performance.

Corporate Development

On the Corporate Development front, Mr. Crockett explained that there were several opportunities in two new states – Connecticut and Pennsylvania. In particular, Mr. Crockett explained that the laws in Connecticut had changed recently so that for-profit health systems could enter the state. As a result, all of the current health systems were non-profit and primarily dominated by two health systems – Yale and Hartford Health System. Mr. Crockett also stated some additional positive market attributes in Connecticut, including that Connecticut is familiar with managed care and is a Medicaid expansion state. Mr. Crockett then went on to explain an attempt by Tenet Healthcare last year to acquire five hospitals in Connecticut, which was ultimately unsuccessful. Mr. Crockett then provided a summary description of Waterbury Hospital, which included a review of the hospital profile, comprehensive range of acute care services, preliminary projection, proposed purchase price, projected cash required to close the transaction, and the current status of the Company's proposed transaction. Mr. Crockett stated that the Company had recently executed a letter of intent with an exclusivity period through September 8, 2015, and that the parties were currently in due diligence.

Mr. Crockett then provided a system profile of another health system in Connecticut – Eastern Connecticut Health Network ("ECHN"). He also covered the comprehensive range of acute care services provided by ECHN, preliminary projection, proposed purchase price, projected cash required to close the transaction, and that the Company had submitted an indication of interest on March 16, 2015, and expected a decision by ECHN in mid-June 2015.

A discussion ensued amongst the Board and management regarding the Connecticut marketplace.

Following that discussion, Mr. Crockett gave an overview of the health system marketplace in Pennsylvania and identified Crozer-Keystone Health System ("CKHS") as the target of interest for the Company. In particular, Mr. Crockett noted that Pennsylvania is experienced with managed care systems. He went over the profile of the health system, and noted that it covered four hospitals in Delaware County, Pennsylvania and currently had over $730 million in revenues. He stated that the Company had submitted an indication of interest in December 2014, and that CKHS was engaged in a high level of reverse due diligence. He expected CKHS to make their final selection of a suitor in mid-June 2015.

Mr. Crockett then went over the Company's efforts to work on a Coordinated Care Medicaid Pilot Project in Rhode Island. He went over the proposal to the State, potential projections, and the current status. A discussion ensued amongst the Board and management.

Finally, Mr. Crockett went over the Company's current pipeline of potential acquisition opportunities.

Adjournment

Mr. Lee asked if there were any further questions. There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 11:53 a.m.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on August 24, 2015 at 10:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted, Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, Dr. Prasad, John Baumer, Alyse Wagner, and Michael Solomon (the "Board"). Also present for the meeting were Redacted representative from Leonard Green & Partners; Steve Aleman, Chief Financial Officer and Ellen J. Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 10:00 a.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks
The Chairman opened the meeting with general remarks.

Approval of Prior Board Minutes
Ms. Shin asked the Board to review the May 20, 2015 Board minutes. Upon motion duly made, and seconded, the Board unanimously approved the May 20, 2015 Board minutes. The motion passed.

Operations Review
Hosp CEO - Alta LA Hospital CEO of Alta Los Angeles Hospitals, Inc., reviewed with the Board the consolidated financial summary for the quarter and year to date through June 30, 2015 of Los Angeles Community Hospital, Norwalk Community Hospital, Van Nuys Community Hospital and Hollywood Community Hospital. Hosp CEO - Alta LA went through changes in volume, revenue, cost management, and Earnings Before Interest Tax Depreciation and Amortization ("EBITDA") for the quarter and year to date. He also went over the forward financial operations, including changes in volume, operational initiatives and risks. Mr. Aleman then went over the impact of

Confidential

the Quality Assurance Fees ("QAF"). Mr. Baumer asked a clarifying question about the timing and amounts. Mr. Aleman responded to that question.

Hosp CEO - Alta LA then reviewed with the Board the consolidated financial summary for the quarter and year to date through June 30, 2015 for Southern California Hospital at Culver City ("Culver City"). He stated that admissions for the quarter ending June 30, 2015 had increased primarily as a result of increases in psychiatric admissions and detoxification admissions, which were offset by decreases in acute admissions and rehabilitation admissions as compared to the prior fiscal year same quarter. He also went over positive increases in revenue. However, on the cost management side, Hosp CEO - Alta LA stated that registry hours and supply expenses had increased. Hosp CEO - Alta LA offered reasons as to the cause of those increases. For the month and quarter ended, Hosp CEO - Alta LA stated that the EBITDA performance for the hospital had improved by $1.1 million over the prior year period. Mr. Lee gave further context given Culver City's prior performance, and forward financial operations. Mr. Baumer asked a few follow questions about the performance. Mr. Aleman responded to those questions.

Hosp CEO - Alta LA then provided a summary of the financial operations for the quarter and year to date ending June 30, 2015 at Los Angeles Community Hospital at Bellflower ("Bellflower") and Foothill Regional Medical Center ("Foothill"). For the benefit of the Board, Hosp CEO - Alta LA went over the key milestones in the opening of Foothill. He also did the same overview with respect to Bellflower. For both facilities, Hosp CEO - Alta LA then went over the current operational initiatives and the associated regulatory and operational risks.

Mr. Crockett, Senior Vice President, Corporate Development at the Company, then provided a summary to the Board of the financial operations for the quarter and year to date ending June 30, 2015 at the Nix Hospitals System ("Nix"). Mr. Crockett reviewed with the Board changes in volume, which included decreases in admissions from the same quarter from the prior year period. He explained that the admission shortfall was attributed to a decrease in emergency room visits/admissions, the County re-opening of their psychiatric unit in February and discontinuance of the 10 additional contracted behavior beds, loss of certain key admitting physicians, and the general softness in the rural market. Mr. Lee explained further that the Redacted – Privileged Redacted – Privileged Ms. Shin provided further context. Mr. Crockett then proceeded to go over changes in revenue, cost management, and EBITDA performance. On the forward financial operations, Mr. Crockett continued to explain how the foregoing recent developments had negatively impacted the volume at the Nix, a number of operational initiatives (including the introduction of a new Chief Executive Officer for Nix, Redacted), and certain risks associated with the loss of certain physicians, continued declining performance at Nix Community General Hospital and certain reimbursement challenges. Mr. Baumer asked about the performance expectation for fiscal year end. Mr. Crockett and Mr. Aleman responded to that question.

Mr. Crockett then went over the consolidated financial summary for the quarter and year to date through June 30, 2015 at CharterCARE Health Partners ("CCHP"). Specifically, he went over positive increases in volume, increases in revenue, changes in cost management, and improved EBITDA performance from the prior same year period. He then went over forward financial

operations, including updates on volume, other financial drivers, operational initiatives for the remainder of 2015, and regulatory and operational risks at the facilities. A discussion then ensued amongst management and the Board.

Redacted Chief Financial Officer of the Medical Groups segment then reviewed with the Board the performance of the Medical Group segment for the quarter and year to date through June 30, 2015. She stated that year to date EBITDA performance is $44.7 million, which represented an increase of $23.3 million. She attributed the success to growth in all lines of business, increases in incentive bonus revenue (e.g. RAF, shared risk, full risk and pay for performance), and improvement in Medi-Cal and commericial gross profit. CFO - Med Grp then specifically went through the changes in membership, revenue, cost of revenue, operating expenses, and forward looking finance and operations. Mr. Baumer stated that the performance was strong, and then asked what are the business unit's expectations by fiscal year end. CFO - Med Grp responded to that question. Mr. Aleman provided further context.

Redacted Mr. Crockett, and Redacted left the meeting.

Coordinated-Regional-Care ("CRC") Update

President - PMH provided an update of the Company's Coordinated-Regional-Care results in Los Angeles, San Antonio, Rhode Island, New Jersey and Connecticut. President - PMH then stated that the CRC platform also included care management programs, which will put in place an integration of core processes between medical groups and hospitals. President - PMH also provided an update to the Board on CRC Solutions, and its C-R-C Group Launch Plan.

Financial Review

Mr. Aleman informed the Board of the Company's trailing twelve months EBTIDA performance as of June 30, 2015. Mr. Aleman then stated that projected EBITDA at fiscal year end should be approximately $160 million, and with $1.3 billion in revenue. Mr. Baumer asked what were the numbers for last year. Mr. Aleman responded to that question. Mr. Aleman then went through the consolidated financial statements for the quarter, and for each material business segment. Mr. Aleman then went over the Company's current cash projections, along with the proposed balances given the timing of certain acquisitions. He explained the timing of Quality Assurance Fee payments.

Redacted entered the room.

Corporate Development

Redacted Senior Vice President, Mergers and Acquisition, introduced himself to the Board, including an overview of his background and experience in mergers and acquisitions. He then presented to the Board the status of the Company's pending acquisition opportunities – Waterbury Hospital ("Waterbury"), Eastern Connecticut Health Network ("ECHN"), Crozer-Keystone Health System ("CKHS"), East Orange General Hospital ("EOGH"). Mr. Crockett then provided an update on the East Orange General Hospital ("EOGH") transaction. He stated that subject to receipt of certain conditions and regulatory approvals, it was currently anticipated that the EOGH transaction would close in late Fall 2015. Mr. Baumer asked a follow up question. A discussion ensued amongst management and the Board regarding the EOGH

transaction. SVP - M and A then went over the pipeline of potential acquisition opportunities with the Board.

Adjournment

Mr. Lee asked if there were any further questions. There being no further business to come before the meeting, the chairman declared the meeting adjourned at 12:07 pm.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on September 12, 2016 at 2:00 p.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted, Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, John Baumer, Alyse Wagner, and Michael Solomon (the "Board"). Also present for the meeting were Redacted Redacted Leonard Green & Partners; Steve Aleman, Chief Financial Officer and Ellen J. Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 2:10 p.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Approval of Prior Board Minutes

Ms. Shin asked the Board to review the May 24, 2016 and August 23, 2016 Board minutes. Upon motion duly made, and seconded, the Board approved both sets of minutes. The motion passed.

Redacted entered the room.

Operations Review

Redacted President of the Company, reviewed with the Board performance of the Medical Groups segment for 10 months ending July 31, 2016, and the projected fiscal year 2016 performance. Specifically, he went over changes in membership growth, expected Medi-Cal expansion rate cuts of 15%, unfavorable full risk performance, unfavorable shared savings in the Healthnet Insurance Exchange, unfavorable operations expense, and lower than expected urgent care volume. Ms. Wagner asked how much of the decline in performance was recaptureable. President - PMH responded to that question, and then went over areas of remediation by the Company in order to address the financial impact in the areas of full risk, operations expense, clinic management, management, other areas of improvement. Finally, he went over challenges and possible areas that could offset some of the expected negative impact. Mr. Lee gave further context.

Redacted Chief Executive Officer of Crozer Keystone Health System ("Crozer"), appeared by videoconference and gave a general introduction about his background. He then went over with the Board a third quarter review of fiscal year 2016, update on the Crozer transaction, human resources update, inpatient volume and case mix index trends, and outpatient volume trends. He also went over certain development initiatives, which included the Broomall multi-specialty outpatient facility, continued primary care development, geriatric psych unit, and the drug and alcohol unit. Ms. Wagner then asked CEO - Crozer what is the biggest opportunity moving from a

non-profit entity to a for-profit entity such as the Company. CEO - Crozer answered that question. He asked if there were any further questions. The Board thanked him for his time, and CEO - Crozer signed off the videoconference.

Alta SVP Ops Senior Vice President of Hospital Operations at Alta Hospitals System then reviewed with the Board the performance of the California hospitals through the third quarter of fiscal year 2016. Alta SVP Ops went through the financial performance, prior issues, key challenges, successes, and updates at the California hospitals. Ms. Wagner asked a question about admissions at Culver City. Mr. Aleman answered that question. Mr. Lee gave further context.

Redacted and Mr. Solomon left the room.

Mr. Baumer asked about the status of regulatory approvals at Los Angeles Community Hospital at Bellflower ("Bellflower"). Alta SVP Ops stated that Bellflower was in its final stages of obtaining regulatory approval to expand its current psychiatric beds. He then went on to explain the status of regulatory approvals with opening up the emergency room at Foothill Regional Medical Center.

Redacted and Mr. Solomon entered the room.

Mr. Lee asked Redacted for his perspective on the status of the California hospitals altogether. Redacted gave his perspective and stated that he believed the right management team was in place, and with a renewed focus.

Redacted left the room.

Von Crockett, Senior Vice President, Corporate Development at the Company, went over the financial performance, major challenges, successes, and risks/opportunities at Nix Healthcare, CharterCARE Health Partners, and East Orange General Hospital for the third quarter of fiscal year 2016.

Coordinated-Regional-Care

President - PMH provided a Coordinated-Regional Care update. This included his perspective of the market progression to full risk, IPA provider growth, and the number of population under management, and an example of VBR health system service retention.

Finance Matters

Mr. Aleman then reviewed with the Board the consolidated income statement for the month ended July 31, 2016, monthly projections trends for 2016 and 2017, the fifteen month trend in EBTIDA performance, and the Company's current cash projections (which included timing of acquisitions).

Corporate Development

Mr. Crockett then gave an update on the status of the Waterbury Hospital and Eastern Connecticut Health Network transactions. Specifically, Mr. Crockett went over key milestones

and a timeline update. He also reminded the Board about the pension obligations. Finally, Mr. Crockett went over the Company's current pipeline of potential acquisition opportunities, but stated that the current focus is on closing the Connecticut transactions, Crozer Keystone Health System integration and non-strategic asset divestitures.

Executive Session

President - PMH provided an update to the Board.

Adjournment

Mr. Lee asked if there were any further questions. There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 4:50 p.m.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on February 21, 2017 at 2:00 p.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted, Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, John Baumer, Alyse Wagner, Michael Solomon and Jeereddi Prasad, M.D. (the "Board"). Also present for the meeting were Redacted a representative of Leonard Green & Partners; David Topper, President of the Company's subsidiary, Alta Hospitals System, LLC; Redacted President; Steve Aleman, Chief Financial Officer; Von Crockett, Senior Vice President, Corporate Development; and Redacted Assistant General Counsel. Mr. Lee acted as Chairman and Asst Gen Counsel acted as Secretary of the meeting. The Chairman called the meeting to order at 2:05 p.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks

The Chairman opened the meeting with general remarks. He noted certain accomplishments and improvements since the last meeting of the Board.

Approval of Prior Board Minutes

Asst Gen Counsel then asked the Board to review the November 17, 2016 Board minutes. Upon motion duly made, and seconded, the motion passed and the Board unanimously approved those minutes.

Operations Review

Hospital Segment:

CEO - Crozer Chief Executive Officer at Crozer-Keystone Health System ("Crozer), appeared by video conference. CEO - Crozer reviewed with the Board Crozer's preliminary first quarter fiscal 2017, and second quarter to date, adjusted EBITDA, inpatient volume and case mix index trends, and outpatient volume trends. He noted EBITDA and revenue cycle improvements and discussed their contributors. He also noted certain challenges, including a continued shift to high deductible healthcare plans. CEO - Crozer noted that Crozer is on target to meet key 2nd quarter projections.

In response to a question raised by Mr. Baumer, a discussion ensued regarding the status of capital expenditure commitments and related ongoing investments.

Mr. Topper and Mr. Crockett discussed potential government grants related to Crozer's detox and behavioral health units.

Confidential

CEO - Crozer exited the meeting.

Redacted Senior Vice President, Hospital Operations, then reviewed with the Board the operational performance for the California hospitals for the first fiscal quarter of 2017 and the second quarter to date. He noted improvements in employee turnover, vacancy rates, admissions and productivity ratios.

SVP Ops - CA also noted that the accreditation for Los Angeles Community Hospital has been converted from DNV to the Joint Commission and the implications of that change.

A discussion ensued regarding reductions in use of nurse registry hours and related efforts.

Ms. Wagner asked how the California hospitals are expected to trend for the second quarter. SVP Ops - CA SVP Ops - CA noted that the Bellflower facility may trend flat, but that the other facilities are expected to have strong second quarter performance on target with projections.

A discussion ensued regarding performance at the Culver City facility. Mr. Topper noted that the recent CMS audit of the facility had made it difficult to recruit and retain nurses and to staff full patient admission. However, Mr. Topper further noted improvements following the facility's successful survey results.

In response to a question from Mr. Baumer, a discussion ensued with Mr. Aleman and Mr. Topper regarding performance against monthly projections. Mr. Aleman noted that they are in line with projections and quality indicators are good.

Redacted then entered the room.

A discussion then ensued regarding future expectations for the California Quality Assurance Fee (QAF) Program and the amount of funds expected to be received under the program.

Mr. Lee and Mr. Topper noted new efforts across all facilities to improve quality performance.

SVP Ops - CA noted management changes made at the Culver City facility and ongoing discussions with the nurses' union at the facility.

A discussion ensued regarding ongoing negotiations with the California Nurses Association (CNA) regarding proposed pay rate increases that will make staff recruitment easier at the Culver City facility. SVP Ops - CA noted a target completion of such negotiations within approximately four weeks.

The meeting participants then discussed issues related to the Culver City's involuntary admission of emergency department psych patients pursuant to its LPS designation with the Los Angeles County's Department of Health. They discussed issues related to the designation and its burdensome requirements, as well as plans to meet with the County and the possibility of a voluntary termination of the LPS designation.

SVP Ops - CA then discussed plans to open an additional 23 beds at Bellflower, which will bring its total to 55.

Plans for a ribbon cutting with Redacted were discussed for the new Foothill Emergency Department. The meeting participants also discussed plans to seek approval for paramedic runs from the facility, issues with its Redacted contract, and its revamped management. Its increasingly positive admissions and financial results were noted.

SVP Ops - CA exited the meeting.

Mr. Crockett then reviewed with the Board the performance of CharterCARE Health Partners ("CCHP") in Rhode Island. Specifically, he went over CCHP's financial performance, major challenges, successes, and risks/opportunities. He noted management changes that have occurred for its facilities as well as its replacement of hospitalist and ED groups. He also noted that its patient volume is increasing. The meeting participants also discussed the status of union negotiations at CCHP.

Mr. Crockett next discussed the performance of the Nix hospitals in San Antonio, Texas. A discussion ensued regarding certain ongoing struggles at its facilities, as well as the effects of its recent flood. Mr. Crockett noted its recent physician group additions.

The meeting participants next discussed the status of ongoing discussions with the Pennsylvania Association of Staff Nurses and Affiliated Professionals (PASNAP) union at Delaware County Memorial Hospital, which has threatened a two-day strike. Management promised to keep the Board members informed regarding the ongoing developments.

As the next agenda item, Mr. Crockett provided an update regarding operations and matters at East Orange General Hospital (EOGH) in New Jersey. He noted recent salary increases and additional staff and physicians. He also discussed a planned new partnership with Rutgers Medical School. He also discussed ongoing efforts to improve nursing staffing and physician relations.

Mr. Crockett then reviewed developments at the Prospect ECHN facilities in Connecticut that were acquired on October 1, 2016. He noted efforts to benefit from integration and economies of scale with the new Waterbury facility, also in Connecticut.

The meeting participants discussed the implications of possible changes to the Connecticut hospital supplemental program that was recently proposed by the Connecticut Governor.

Mr. Crockett noted that ECHN metrics are on pace with year-end targets.

Mr. Crockett then discussed results and developments at the Waterbury Hospital facility that was also acquired on October 1, 2016. He noted its ongoing Emergency Room renovation and discussed ongoing staffing changes. A discussion ensued regarding plans for cardiac program services shared with the nearby unaffiliated St. Mary's facilities.

Medical Group Segment:

Redacted President of the Company, then introduced Redacted, the new Chief Executive Officer of the Company's Medical Group segment who joined the company in September 2016. CEO - Medical Group discussed his background and experience.

CEO - Medical Group then discussed certain key metrics regarding the recent performance of the Company's Medical Group segment, including an increased EBITDA, an improved Medical Loss Ratio and shared risk improvements.

CEO - Medical Group noted certain recent issues with our arrangements with Redacted

In response to a question raised by Mr. Baumer, a discussion ensued regarding ongoing efforts to improve RAF scores of contracted providers. President - PMH noted that all non-RAF drivers are in a much better position than last year.

Redacted and Redacted then left the room.

Coordinated-Regional-Care Segment:

Redacted, the President of the Company's Coordinated Regional Care segment, then provided an overall update to the Board about the Company's performance in the segment. President - CRC noted that the east coast payor market has been in the process of changing and it is becoming more comfortable with risk arrangements.

The meeting participants discussed the implications of recent failed health plan mergers in the Company's east coast markets.

President - CRC noted that the prospects for new Medicare Advantage arrangements is looking even better under the new presidential administration. He noted continuing discussions with payors in Pennsylvania, Rhode Island and Connecticut regarding proposed risk arrangements.

Mr. Topper then left the room.

A discussion ensued regarding improvements in EBITDA for the Coordinated Regional Care segment.

Redacted then re-entered the room and Mr. Crockett and Redacted left the room.

Finance Matters

Mr. Aleman then provided an update regarding the overall financial performance of the Company, as well as its separate segments. He noted that the Company is on target for identified year end targets.

A discussion ensued regarding billing collection delays at some recently acquired entities due to regulatory and credentialing "change of control" requirements. Mr. Aleman noted that they are normal for such acquisitions .

The meeting participants discussed plans for pay down of the Company's revolving credit facilities.

Mr. Aleman provided an update regarding the ongoing sale of certain non-essential medical office buildings (MOBs).

Mr. Solomon, Mr. Aleman and Mr. Lee discussed on-going developments regarding pension obligations at the Company's recently acquired Connecticut and Pennsylvania hospital facilities.

Corporate Development

Redacted the Company's Senior Vice President - Mergers and Acquisitions, then entered the room. He provided an update regarding ongoing, and planned, corporate development activities. He noted that the Company's primary current focus is on integration and optimization of its recent acquisitions.

Mr. Topper then re-entered the room.

SVP - M and A discussed certain tax abatement measures, including a notable one in New Jersey, that are being entered into with local regulators. He also noted a possible cancer center joint venture that is being pursued in connection with Waterbury Hospital.

SVP - M and A also noted ongoing activities related to the sale of excess non-essential real property and discussions regarding the possible sale of identified home health agencies, which are not part of the Company's core line of business.

Redacted and Mr. Topper then left the room.

Executive Session

The Board met with Redacted Mr. Aleman, Redacted and Redacted in executive session.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 4:51 p.m.

MINUTES OF THE
AUDIT & COMPLIANCE COMMITTEE
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A telephonic meeting of the Audit & Compliance Committee ("Committee") of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on October 7, 2019 at 1:30 p.m. Committee members Alyse Wagner (Chairperson) and Michael Solomon were present. Company participants were Redacted Chief Financial Officer; Redacted Chief Accounting Officer; George Pillari, Chief Performance Improvement Officer; Redacted, VP, Finance & Treasury; Ellen Shin, General Counsel; Von Crockett, SVP, Corporate Development; and Redacted, Chief Compliance & Privacy Officer. Participants from BDO USA, LLP ("BDO") were Redacted and Redacted

Call to Order
Ms. Wagner called the meeting to order.

Approval of Prior Audit & Compliance Committee minutes
Ms. Shin asked the Committee to review the August 16, 2019 Audit & Compliance Committee minutes. Upon motion duly made, and seconded, the Committee unanimously approved those minutes. The motion passed.

Management Audit Committee Report
Mr. Pillari provided an update to the Committee from the last meeting.

BDO Audit Planning Presentation
Mr. Pillari then turned the meeting over to Redacted who walked the Committee through BDO's Audit & Planning Presentation for fiscal year 2019. Specifically, Redacted discussed the members of the client service team, management's responsibilities, the engagement objectives (which are BDO's responsibilities), the overall audit strategy and planned scope, primary areas of focus and audit strategy, overall audit timeline, and the What Could Go Wrong ("WCGW") analysis. Ms. Wagner asked a question about consolidated reporting. Redacted responded to that question.

With respect to BDO's primary areas of focus and audit strategy, Redacted explained some of the high risk considerations, and BDO's planned approach to handling those areas. Redacted noted that for the period significant matters included the sale / leaseback transaction with Medical Properties Trust ("Transaction"), the costs associated with the Transaction, payoff of the Term Loan, and the pending Nix and EOGH transactions.

Redacted asked the Committee if there were any questions, and if the Committee, the Management Audit Committee ("MAC"), and management were aware of any fraud considerations in the Company's financials. Everyone answered in the negative.

A discussion ensued amongst the Committee and Redacted regarding purchase accounting.

Redacted stated that based on the current audit timeline, it was expected that the Company could issue the FY2019 audited financial statements before Christmas. BDO and management are proactively working together to achieve that target deadline.

Redacted then summarized the preliminary results of the WCGW analysis, which was requested by the MAC. In particular, Redacted noted that there had been significant improvements in critical areas, including internal controls, management override, tone at the top, and the consolidation, financial reporting and close process. He did state that his only area of concern is at the Crozer Keystone Health System. Specifically, he stated that his concern relates to a delay in completion of deliverables due to staff turnover. Redacted then asked if there were any comments. Ms. Wagner asked for more specifics about Crozer. Ms. Redacted explained that there were balance account reconciliations that needed to be completed, and that the team is on track for completion by October 28, 2019. Mr. Pillari stated that a great deal of collective work had been put in by the MAC and BDO, and that everyone was working together.

Compliance Program

Redacted then introduced herself to the Committee. She then went over the Company's Compliance Program. Specifically, she went over the elements of an effective Compliance and Ethics Program.

MINUTES OF THE
AUDIT & COMPLIANCE COMMITTEE
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Audit & Compliance Committee of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on January 22, 2019 at 4:00 p.m.. at LPG's Corporate Office located at [redacted] Los Angeles, CA 90025. Committee members John Baumer, Alyse Wagner, and Michael Solomon were present. Company personnel were present and included George Pillari, Chief Performance Improvement Officer; Ellen Shin, General Counsel; Von Crockett, SVP, Corporate Development; [redacted] Compliance Counsel; and Samuel Lee, Chief Executive Officer (telephonically). Presentors included Bird Marella: [redacted] Esq., [redacted] Esq.; Ernst & Young: [redacted]; BDO: [redacted] and [redacted] (telephonically) and [redacted] (telephonically). Ellen J. Shin acted as Secretary of the meeting.

1.0 Call to Order
Mr. Pillari called the meeting to order.

2.1 Acceptance of Prior Management Audit Committee minutes
Ms. Shin asked the Committee to review the January 4, 2019 minutes. The Committee accepted those minutes.

2.2 Approval of Prior Audit & Compliance Committee minutes
Ms. Shin asked the Committee to review the January 7, 2019 minutes. Upon motion duly made, and seconded, the Committee unanimously approved those minutes.

Confidential LGP-SBC-000002686

Redacted – Privileged

(Steve Aleman, Redacted and BDO's Redacted , Redacted , and Redacted entered the room)

3.2 and 3.3 Status of Fiscal Year 2018 Audit and BDO Presentation

Redacted Chief Accounting Officer and Mr. Steve Aleman, Chief Financial Officer, Chief Acct'n Off. and Mr. Aleman turned the meeting over to Redacted of BDO to provide a FY2018 Audit Wrap Up Presentation.

BDO distributed to all persons in the room, a copy of the BDO presentation to the Audit Committee entitled "Audit Wrap Up" dated September 30, 2018.

BDO provided an extensive report on the FY2018 year end audit and emphasized that the audit was conducted pursuant to GAAP. BDO went over the current status of the audit, results of the audit, internal control over financial reporting, other requirement communications and independence communication. BDO noted that all information was provided to the auditors by the Company and that the Company's management and employees were available and cooperative with the auditors.

One correction to the BDO audit report was noted by Chief Acct'n Off. Specifically, Chief Acct'n Off. stated that the income tax provision, which is noted as a debit of $7.8M was incorrect. BDO agreed with Chief Acct'n Off.' statement and stated that it would be properly reflected in the audited financial statements. BDO and other members of BDO took turns going through the rest of the audit report to the Committee, and asked if there were any questions or comments. Mr.

Baumer thanked BDO for their diligence and work, and stated that as an Audit Committee member and controlling shareholder of the Company, the Company is committed to improvement

Ms. Wagner asked if the current audit impacts the subsequent Company related stand alone audits. There were 25 subsequent audits noted by BDO. BDO stated that these are on track.

BDO then stated there were few minor open items, including the management representation letters. He also inquired about the status of the capital infusion into the Company following completion of the audit. Mr. Baumer responded to that inquiry.

4.0 Executive Session (BDO and Committee)

The Committee asked for an Executive session between the BDO Audit Team and the Committee.

(Prospect management was excused from the meeting. Minutes were not taken. Following Executive Session, management returned to the meeting).

5.0 Lenders

Mr. Pillari provided an update on the status of the waiver. The Committee asked for a report on the numbers for the first quarter of fiscal year 2019 and Mr. Pillari responded that the Company has been so focused on the audit that management has not had an opportunity to "stress test" the information, and that Crozer needs more work.

Discussion ensued regarding the current cash position of the Company.

Mr. Aleman then reviewed with the Board a financial snapshot of FY2018. A discussion ensued amongst the Board and Mr. Aleman. Mr. Aleman then reported that the earnings release and the remaining lender deliverables, including the audited financials and other certificates will be sent to the full board for review and approval. Ms. Shin clarified that as part of the new process, the outstanding lender deliverables would be sent to the Management Audit Committee for review and recommendation to the Audit & Compliance Committee, who would also review and make a recommendation to the full Board for approval. The Board would then approve the entire set of Lender Deliverables by formal resolution prior to submission to the Lenders. Mr. Baumer emphasized that point.

MINUTES OF THE
AUDIT & COMPLIANCE COMMITTEE
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A telephonic meeting of the Audit & Compliance Committee of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on February 7, 2019 at 5:00 p.m. Committee members John Baumer, Alyse Wagner, (Chairperson) and Michael Solomon were present. Company participants were Sam Lee, Chief Executive Officer; Steve Aleman, Chief Financial Officer; Redacted Chief Accounting Officer; George Pillari, Chief Performance Improvement Officer; Ellen Shin, General Counsel; Von Crockett, SVP, Corporate Development; and Redacted Compliance Counsel. Redacted and Redacted of LGP were also in attendance.

1.0 Call to Order
Ms. Wagner called the meeting to order.

2.1 Acceptance of Prior Management Audit Committee ("MAC") minutes
Ms. Shin asked the Committee to review the January 17, 22 and 30, 2019 MAC minutes. The Committee accepted those minutes.

2.2 Approval of Prior Audit & Compliance Committee minutes
Ms. Shin asked the Committee to review the January 22, 2019 Audit & Compliance Committee minutes. Upon motion duly made, and seconded, the Committee unanimously approved those minutes.

3.1 Review and Approval of Lender Deliverables
Mr. Pillari provided the Committee with a report from the MAC and stated that the MAC has reviewed all of the documents that have been sent to the Committee as part of this agenda and has consulted with internal and external experts including legal counsel, Latham & Watkins. Chairperson Wagner requested an explanation of the recent change in the amount of consolidated EBITDA and Mr. Aleman provided an explanation. Mr. Aleman added that the following list of lender deliverables, as set forth below, represents everything that is necessary in order to be in compliance; in addition to the weekly cash forecasts. Mr. Aleman told the Committee that the plan is to submit the lender deliverables tonight and borrow tomorrow morning and that JP Morgan is aware of this action item.

Ms. Shin then reviewed with the Committee, and asked for a motion to adopt the following resolution:

WHEREAS, the Committee has been provided with and has reviewed (i) the Company's audited financial statements prepared by BDO USA, LLP for the fiscal year ended September 30, 2018 (the "2018 Audited Financial Statements"), (ii) a draft of the Company's management discussion and analysis with respect to the 2018 Audited Financial Statements, (iii) a draft of the

Company's compliance certificates (including all exhibits and attachments thereto) relating to the 2018 Audited Financial Statements, (iv) calculations of the Company's EBITDA, fixed charge coverage ratio and total leverage ratio as required under the Company's ABL credit agreement and term loan credit agreement for the period ended September 30, 2018 and (v) a draft summary of revenues, EBITDA, indebtedness and assets for each of the Company's Unrestricted Subsidiaries (as such term is defined in the Company's ABL credit agreement and term loan credit agreement) (the documents listed in the foregoing clauses (i) through (v), collectively, the "Lender Deliverables");

WHEREAS, the Company is required to submit the Lender Deliverables pursuant to its ABL credit agreement and term loan credit agreement;

WHEREAS, the Committee has consulted with appropriate officers of the Company and members of the MAC on the Lender Deliverables;

WHEREAS, the [Management Audit Committee] (the "MAC") has consulted with appropriate officers of the Company charged with the preparation and review of the Lender Deliverables, and are satisfied with their review, which includes review by outside advisors of the Company, including Latham Watkins LLP and members of Leonard Green & Partners;

WHEREAS, the MAC has recommended to the Committee that the Lender Deliverables be approved, authorized and adopted in all respects and be submitted by the Company pursuant to its ABL credit agreement and term loan credit agreement.

NOW, THEREFORE, BE IT RESOLVED, that the Committee does hereby authorize, approve and adopt the Lender Deliverables in all respects and does approve the submission by the Company of the Lender Deliverables pursuant to its ABL credit agreement and term loan credit agreement; and

RESOLVED FURTHER, that the officers of the Company be, and each of them hereby is, with full power of delegation, authorized, empowered, and directed to take any actions reasonably necessary to effectuate the foregoing resolutions

Upon motion duly made, and seconded, the Committee approved the foregoing resolution. The motion passed. Ms. Shin further informed the Committee that approval by the Board was still required, and to that effect, a unanimous written consent would be circulated to the Board for their approval this evening.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A telephonic meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on June 28, 2019 at 7:00 a.m. Pacific Time pursuant to notice given by Samuel Lee, Chairman of the Board and Chief Executive Officer of the Company.

Redacted counsel from the law firm Ropes & Gray ("Ropes"), took a roll call of attendees, and noted that the following individuals were present from the Board: Mr. Lee, Dr. Jeereddi Prasad, John Baumer, Alyse Wagner, and Michael Solomon. He also noted additional attendees at the Board meeting, including: 1) from the Company: George Pillari, Chief Performance Improvement Officer; Redacted VP, Finance & Treasury; and Ellen Shin, General Counsel, 2) from Ropes: Redacted Redacted Redacted and Redacted and from Leonard Green & Partners ("LGP"), Redacted. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 7:00 a.m., noted that all potential attendees are in attendance, and then opened the Board meeting and described how the Board meeting will be structured. Mr. Lee introduced Ropes Rep

Medical Properties Trust Transaction

Ropes Rep described Ropes' role in the instant transaction with Medical Properties Trust ("MPT"). Ropes Rep asked if the Board was comfortable with Redacted a representative at LGP, being present at the meeting. No objections were raised and LGP Rep remained present throughout the Board meeting.

Ropes Rep stated that Ropes & Gray would take minutes from the meeting and Ms. Shin would keep those minutes. Ropes Rep noted that a package of Board materials, including Board resolutions to approve the documents in the materials had been sent to the Board yesterday.

Redacted asked the Board members to confirm a waiver of the 48-hour prior notice requirement of the Board meeting. No Board members were opposed to granting the waiver and the waiver was approved.

Redacted joined the call.

Redacted then turned the meeting over to Redacted, who gave an introduction to the MPT deal.

Mr. Pillari walked the Board through the Board presentation, and provided an overview of the transaction. Mr. Pillari noted that the purchase price of the transaction was $1.55 billion and there was an ability to "earn" an additional $250 million over three years. Mr. Pillari stated that there would be a signing soon and a closing, which is anticipated to occur in August or September 2019.

Mr. Pillari described the structure of the transaction and explained why different properties were receiving different treatments (Traditional Sale-Leaseback, Failed Sale-Leaseback, Mortgage Financing, and Unsecured Note). Mr. Pillari highlighted the Foothill and Rhode Island situations. He stated that there would be no taxable gain on the sale, which was also confirmed by PricewaterhouseCoopers, the Company's tax advisors.

Mr. Pillari reviewed the Lease terms, including initial rent/interest payments, rent contour, annual escalators, term, and rights to purchase upon expiration of the term. Mr. Pillari noted the covenants were similar to what was currently under the ABL and were not particularly stringent or onerous, and that he believed that this is a good deal as compared to what is currently in the market. The Board discussed mechanisms in the documents that addressed adjusting rent payments with the "lumpiness" of governmental reimbursement payments.

Mr. Pillari asked Redacted to walk the Board through the use of proceeds, which would include: repaying the Term Loan, paying gain on sale tax, paying transaction fees and deposit, repaying FILO, making a pension contribution payment, paying working capital and ABL repayment. Redacted stated the total transaction consideration would be $1.55 billion. The Board discussed the timing of the various payments bucketed under use of proceeds.

Mr. Pillari asked Redacted and Redacted to discuss the text of the transaction documents. Redacted provided an overview of the status of documents in order to provide a sense of how close to finalization the documents currently stand.

Redacted stated that the Asset Purchase Agreement is close to being final. The Board discussed the solvency representation in the Asset Purchase Agreement. Redacted stated that as the deal currently stands the solvency representation would be made at signing, closing and either three or five years post-closing. Mr. Pillari noted that a solvency expert would be presenting in the next week or so, but there are no expected issues. Redacted then stated that the Loan Agreement and the Lease Agreement are being distributed to counsel today, and these are expected to soon be the final versions. Redacted noted that there is no release price mechanism built into the documentation and there is no restriction in the loan documents with regard to dividends. Redacted then explained how the change of control provisions had been settled in the documents. Ms. Wagner asked if there were any MPT contingencies. Redacted stated that MPT had no contingencies for closing.

Redacted left the call.

Mr. Pillari went over the status of the ABL amendment and Intercreditor Agreement.

Redacted explained the timing of the signing of an announcement of the deal, which will be delayed due to a public offering that MPT will be initiating around the same time as signing of this deal. Redacted asked if there were any questions.

Ms. Wagner asked if there would be enough liquidity post-transaction to pay rent and meet the Company's obligations. Mr. Pillari noted that the model showed there would be enough liquidity. Ms. Wagner asked who is the company's solvency advisor. Mr. Pillari stated Redacted Redacted

Ms. Shin reminded the Board that the transaction is confidential and non-public, and that all communications regarding the transaction must be kept within this group.

Redacted provided an overview of the Resolutions that were distributed to the Board yesterday. Redacted explained that the Resolutions approve the transaction, key transaction documents, and collateral documents. There were no questions as to the content of the Resolutions.

Redacted asked the Board to move to approve the Resolutions, which are attached as Exhibit A. The Board unanimously approved the Resolutions, with no members abstaining or opposing authorization of the Resolutions.

Adjournment

There being no further business to come before the meeting, the Board meeting concluded at approximately 8:00 a.m. Pacific Time.

Prospect Medical Holdings, Inc.
Management Audit Committee Meeting Minutes
August 1, 2019 at 9:00 am

Committee Members Attending:
(*in person*) George Pillari (Chairperson), Ellen Shin, Esq., Redacted, Redacted, Von Crockett
(by telephone) Redacted

Non-Committee Attendees: CPA, Redacted (by telephone)

Absent: Redacted

Agenda	Discussion	Action Points
Call to Order and Review of Meeting Agenda	Mr. Pillari, SVP, Chief Performance Improvement Officer, called the meeting to order at 9:03 am, determined that there was a quorum, and the agenda was reviewed.	
Approval of Minutes	Upon motion made and seconded, the minutes of the June 10, 2019 MAC meeting were approved.	Remove draft stamp and file
MAC Work Plan Update	Redacted reported that all the corrective action plan items have been incorporated into the MAC Work Plan. Redacted stated that the Responsible Parties should continue to provide evidence that the corrective action plan items have been completed and/or remediated. Redacted also noted that there are items on the MAC Work Plan that	

Confidential

	were not due for completion before August and certain items are not due until September. At Mr. Pillari's request, Redacted will meet before Labor Day with those MAC Members who still need to provide evidence of remediation of the corrective action plan items assigned to them and that are currently due to be completed.	Redacted will schedule meetings with Chief Acct'n Off., Ms. Shin and SVP Finance to meet with them before Labor Day.
Restricted Accounts	Mr. Pillari reminded the MAC members that in connection with the prior internal investigation, EY Redacted – Privileged **Redacted – Privileged**	SVP Finance will review the Redacted – Privileged report his findings to the MAC. Ms. Shin will Redacted - Privileged Redacted - Privileged

Confidential

BDO Audit Preparation	Chief Acct'n Off. reported that BDO has begun its preliminary analyses in California, Connecticut and Rhode Island. Their interim work will begin in mid-August for all hospital segments except East Orange General Hospital ("EOGH") and Nix Health ("Nix"). The audit will accelerate in late October when BDO will receive the September Year to Date financial statements and trial balances. BDO will not perform any on-site work at Nix or EOGH but will review revenue and accounts receivable. Interim CFO stated that her office has requested financial certifications from each of the facility CFOs for the Q3 FY2019 financial statements. Mr. Pillari inquired whether financial certifications are required for Nix and EOGH. Interim CFO stated that Nix and EOGH will be expected to complete certifications since the operations of those facilities are incorporated in the FY2019 financial statements. Interim CFO noted that Crozer's finance department may need additional resources to assist them in preparing for the audit. Mr. Pillari agreed that Interim CFO and Chief Acct'n Off. should proceed with providing those resources. In terms of fiscal year end planning for the BDO audit, Chief Acct'n Off. reported that he expects to have the audit completed before the Christmas holidays. This timeline will satisfy the audit completion deadlines in the MPT agreement and ABL covenants. Ms. Shin stated that the Audit and Compliance Committee and Board meetings to	Interim CFO and Chief Acct'n Off. will arrange to provide Crozer's finance department with additional resources to assist them in preparing for the BDO audit.

Confidential

	review the audit findings could tentatively be scheduled around December 17 and 18. The MAC members generally agreed to the following schedule between now and the end of the year: • **Week of August 12**: MAC, Audit and Compliance Committee and Board meetings to review and approve Q3 financial statements and lender deliverables • **August 19**: Lender deliverable deadline; DMHC Submission • **Late August**: BDO audit planning presentation; Compliance presentation to Audit and Compliance Committee, Full Board • **Mid-September**: MAC Work Plan status meeting • **Late October and approximately every two weeks until end of year**: MAC meetings to discuss status of BDO audit and address any issues	
Adjournment	The meeting was adjourned at approximately 9:30 am.

The Honorable Sheldon Whitehouse,
Chairman
The Honorable Charles Grassley, Ranking
Member
U.S. Senate Committee on the Budget
624 Dirksen Senate Office Building
Washington, DC 20510

Re: First Response to December 6, 2023 Letter to Leonard Green & Partners, L.P.

Dear Senator Whitehouse and Senator Grassley:

We represent Leonard Green & Partners, L.P. ("LGP" or the "Firm") and are writing in response to your letter, dated December 6, 2023 (the "Letter"), requesting the production of certain documents and information in connection with the United States Senate Committee on the Budget's (the "Committee") inquiry into private equity and health care. First and foremost, LGP shares the Committee's dedication to ensuring that our nation's hospitals are equipped to provide exceptional health care for their patients.

As recognized in your letter, between 2010 and 2021, LGP managed investment funds (the "Funds") that held investments in Prospect Medical Holdings ("PMH" or "Prospect"). PMH is a healthcare system that provides accessible, quality healthcare and physician services. During this time, PMH's business model involved acquiring and rehabilitating closed or failing hospitals at risk of closure. PMH grew from five hospitals with 759 licensed beds and approximately 2,100 employees to 17 hospitals with 3,300 licensed beds and approximately 17,800 employees. In addition, PMH invested tens of millions of dollars in improving hospital operations during that time, and thus made many positive contributions to the communities it served, including access to healthcare and the addition or preservation of jobs at the hospitals it acquired.

In California, for instance, PMH acquired hospitals in Tustin and Bellflower in 2014 that had been closed by their previous owners. PMH renovated and reopened the facilities in 2015, bringing both new jobs and much-needed healthcare services to residents. Upon the reopening of Foothill Regional Medical Center, Tustin Mayor Dr. Allan Bernstein emphasized the value, saying, "*Prior to the opening of Foothill Regional Medical Center, Tustin residents had to seek emergency medical attention outside of the city. With quality emergency care close*

to home, our residents as well as the Tustin Police Department and our local fire departments, are able to utilize a central location in Tustin.".[1]

In Connecticut, a number of the hospitals that PMH bought in 2016 were in serious financial distress and were close to shutting down prior to being acquired by PMH. When no other hospital operators were willing to step up, PMH saved the two hospital systems, preserved thousands of jobs, and secured the systems' existing pension funds, guaranteeing retirement income for many employees. As a result, both systems paid property taxes for the first time ever, which help support schools, fire departments, and other important services in their local communities.

We therefore reject any implication that PMH was operated in a financially irresponsible fashion during the Funds' ownership period or that the Funds have put their financial interests ahead of the interests of the hospital system and the communities they serve.

At the end of the Funds' ownership period, all 17 PMH hospitals were fully accredited by, and in good standing with, the Centers for Medicare and Medicaid Services ("CMS"), as well as other accreditation agencies. In addition, during the Funds' ownership period, PMH facilities achieved numerous awards, recognitions and accreditations, including Get with the Guidelines Gold Plus ratings from both the American Heart Association and the American Stroke Associations; The American Heart Association Mission Lifeline STEMI Receiving Center Gold Award; and multiple Healthgrades Awards for quality, patient safety, critical care, cancer care, GI and sepsis, to name a few. PMH hospitals have been featured in US News and World Report for best care, and PMH received local and regional awards for its hospitals, physicians and nurses from its communities, which understand and appreciate the high-quality care provided by PMH hospitals. For example, Waterbury Hospital was voted the Best Hospital in the Greater Waterbury Region by the Waterbury Observer. The hospital also received the St. Vincent DePaul Mission award and was recognized by the New England Quality Innovation Network-Quality Improvement Organization for improvements in hospital readmissions.

The Letter notes a specific sale-leaseback transaction. The primary advantage of sale-leaseback financing for a hospital is that it secures a stable 20- to 30-year financing relationship. For most hospitals, such a relationship is preferable to going in and out of debt markets due to fluctuations in interest rates or market conditions. Since the goal of a sale-leaseback financial partner is to collect rental payments over the life of the lease, the parties are aligned on the success of the hospital. It is also important to note that the sale-leaseback transaction with Medical Properties Trust, Inc. ("MPT") allowed PMH to repay all of its existing term loan debt. At the time of the transaction, Samuel Lee, CEO of Prospect said, *"In*

[1] https://www.ocregister.com/2017/03/13/tustins-only-hospital-reopens-under-new-ownership-after-scandal/

addition to strengthening Prospect financially, having MPT available for long-term capital provides us with a significant and experienced potential source of funding for improvements to our existing facilities as well as for future acquisitions and other growth opportunities. We will intensify our focus and resources in our existing markets – where we can expand and drive more growth – to provide quality, cost-effective, coordinated care through our comprehensive network of hospitals, medical groups, and ancillary facilities."[2] Additionally, Moody's noted that "*the transaction is credit positive as it will provide a meaningful liquidity boost to Prospect Medical.*"[3]

In October 2019, the Funds entered into a definitive agreement to sell their interests in PMH to the management team of PMH, who, at the time, were owners of a meaningful portion of PMH with nearly 20 years of experience owning and operating hospitals. As of March 31, 2021, the date of the last PMH financials before the Funds sold their investment in the company, PMH was in strong financial condition with access to over $500 million to support its operations. PMH had ample liquidity available to continue to fund operations, to continue to invest in improving the hospitals it manages and to continue to provide quality care to its patients. That transaction closed in June 2021, after receipt of the various state level regulatory approvals. Therefore, our responses have been drafted based on information pre-dating the Funds' sale of their investment in PMH.

This letter contains some of the Company's confidential, trade secret, and/or proprietary information. We have marked this letter "Confidential" and request that it not be disclosed beyond the Committee or made public. We ask that you treat this letter as a confidential Committee record in accordance with Standing Rule of the Senate XXIX, clause 5, afford it the maximum protection available to the Committee, and that you inform us of any proposed use by the Committee of the information contained herein and provide LGP with an opportunity to be heard prior to any such proposed use.

The information contained in this response is based on the Firm's best efforts undertaken within the timeframe provided and based on its understanding of the terms of the Letter. The representations made in this response are based on information reasonably available to the Firm and may not reflect all existing relevant information. LGP reserves the opportunity to supplement information in this response. In providing information responsive to the Letter, LGP does not waive any rights or legal options relating to the Committee's inquiry.

---

[2] Prospect Medical Holdings, Inc. Press Release July 15, 2019. https://www.businesswire.com/news/home/20190715005786/en/Prospect-Receive-1.55-Billion-Investment-Medical-Properties

[3] Moody's Investor Services Issuer Comment on Prospect Medical Holdings, Inc. dated July 16, 2019.

LGP does not intend to, and does not, waive any applicable privilege, protection or other legal basis under which information may not be subject to production. If it were found that the information or documents provided constitute disclosure of privileged material, such disclosure would be inadvertent. By the provision of such information, LGP does not waive and has not waived the attorney-client privilege or any other protections.

For your convenience, we have reproduced below the requests to which we are responding in this, the Firm's first response.

Request 1:

Describe the historical (both current and former) financial and operational relationship between Leonard Green and PMH from January 1, 2010, through the time of Leonard Green's divestment. Provide identifying information about all hospitals that were part of the PMH system while controlled by Leonard Green, including name of hospital, geographical location (city, state, and whether urban, rural, or other), primary areas of care offered, and number of beds or patients served.

Response:

LGP and its Funds do not currently have any relationship (financial, operational or otherwise) with PMH, as the Funds fully exited their investment in PMH in 2021. Due to the sale of the Funds' interests in PMH in 2021, LGP and the Funds are not entitled to, and do not have any information rights regarding, the current operations of PMH.

Regarding the former financial and operational relationship between the Funds and PMH, during the Funds' ownership period, from 2010 through the first part of 2021, the Funds owned approximately 60% of the shares in PMH, and management of PMH owned the remaining approximately 40% of the shares. The Funds were entitled to appoint three representatives to the five-person board of directors of PMH. Notably, the Funds did not have the unfettered authority to remove the executive officers of PMH.

Unlike many private equity firms, LGP does not utilize an "operating partner" model and primarily engages with its portfolio companies at the Board of Directors level. This means that LGP acts as a "non-manager shareholder" and is not involved in the day-to-day operations of its portfolio companies. LGP seeks to invest in companies with strong management teams and strong performance and to empower existing PMH management at the Board level to be able to further accelerate growth.

Request 2:

From 2015 through the date of its divestment from PMH, provide the exact dollar amount that Leonard Green invested in PMH and in each individual hospital under PMH's umbrella, whether made directly in the hospital or indirectly through PMH. Produce any documents demonstrating this relationship—including, but not limited to, contracts or written agreements, memoranda of understanding, proofs of investment, investment thesis documents describing or setting out evidence-based rationales for Leonard Green's investments in PMH, any memoranda setting out the reason for Leonard Green's acquisition of or investment in PMH, and operational or administrative procedure manuals.

Response:

The Funds contributed $24 million to Ivy Holdings, Inc., a parent company of PMH during this period. No other contributions or investments were made by the Funds during this time. The contribution was made directly to Ivy Holdings, Inc. and not to any individual hospitals.

Request 3:

Provide the following information, from January 1, 2010 through the time of Leonard Green's divestment of its interest in PMH, about each hospital within PMH's network: (a) number of licensed health care professionals providing care; (b) any available staff-to-patient ratios; (c) any available data from patient experience surveys collected by Leonard Green, PMH, individual hospitals, or third parties; and (d) any data regarding the ratio of outpatient-to-inpatient charges. Produce documents sufficient to demonstrate this information.

Response:

As stated above, LGP was a non-manager shareholder of PMH and does not have sufficient information in its possession to respond to this request. LGP respectfully directs the Committee to PMH for information responsive to this request.**Request 4:**

From January 1, 2010, through Leonard Green's divestment from PMH, describe— and produce documents sufficient to demonstrate—Leonard Green's and PMH's authorities, both individually and collectively, to:

a. Manage PMH's or an individual hospital's care delivery;
b. Manage PMH's or an individual hospital's billing practices;
c. Manage PMH's or an individual hospital's chargemaster;
d. Determine PMH's or an individual hospital's annual net income goals;
e. Determine PMH's or an individual hospital's charge per patient goals;
f. Determine PMH's or an individual hospital's staff-to-patient ratios;
g. Determine PMH's or an individual hospital's charge-to-cost ratios;
h. Enter into contracts for staffing at PMH's or any individual hospital; and
i. Enter into any contracts on behalf of PMH or any individual hospital.

Response:

As a non-manager shareholder of PMH, the Funds were not charged with, or authorized to, manage the activities noted in Requests 4(a) through 4(c) above, to determine the goals or ratios indicated in Requests 4(d) through 4(g) above, or to enter into contracts set forth in 4(h) and 4(i) above. LGP respectfully directs the Committee to the management team of PMH, which was responsible for those items.

Request 6:

Explain Leonard Green's role in the decision-making process for hiring executives and medical directors at PMH. If Leonard Green was not involved in executive or medical director hiring, explain both why it was not and identify the individual(s) or entities who were responsible. Produce documents sufficient to demonstrate Leonard Green's role in this decision-making process.

Response:

Neither LGP nor the Funds drove the decision-making process for hiring executives and medical directors at PMH. This role was performed by the management team of PMH. In their roles as board members, LGP directors would approve the appointment of executive officers of PMH, as recommended by management.

Request 7:

Describe the role of Leonard Green and of PMH in the hiring of non-director level medical and non-medical staff at each hospital within PMH's networks, including policies and procedures for vetting candidates. If an entity played no role in such hiring processes, please explain. Produce documents sufficient to demonstrate both Leonard Green's and PMH's respective roles.

Response:

Neither LGP nor the Funds were involved in the hiring of non-director level medical and non-medical staff at each hospital within PMH's networks.

Request 8:

Did Leonard Green, PMH, and/or any of the individual hospitals within PMH's network use third-party contractors to fill staffing roles of those hospitals? If yes, for what roles? Explain the vetting process that Leonard Green, PMH, and/or any of the individual hospitals within PMH's network used when selecting third-party contractors. Produce documents sufficient to demonstrate this vetting policy.

Response:

Neither LGP nor the Funds were involved in the use of any third-party contractors for this purpose.

Request 12:

How much money did Leonard Green, PMH, and/or any individual hospital under PMH's umbrella receive in COVID-19 stimulus aid, including, but not limited to, PPP and CARES Act dollars and grants? Provide an explanation as to why your company and/or hospitals needed federal stimulus aid. Describe in detail how the funds were allocated and spent.

Response:

Neither LGP nor the Funds received any COVID-19 stimulus aid.

Request 14:

Please list all third-party contractors that Leonard Green and/or PMH used for staffing at its PMH-operated hospitals from to the time of Leonard Green's acquisition of an ownership interest in PMH through the time of its divestment of PMH. For each contractor, list the name, address, type of staffing for which the contractor is used, years in which the contractor is/was used, and the hospitals or medical centers at which the contractor is/was used.

Response:

As stated in response to Request 8, neither LGP nor the Funds engaged third-party contractors used for staffing at PMH-operated hospitals.

Request 16:

Confirm whether Leonard Green currently holds a controlling ownership stake in any hospital operators (not including PMH) and, if it does, provide the names of those hospital operators as well as all identifying information about each hospital, including hospital name, geographical location (city, state, and whether urban, rural, or other), primary areas of care offered, and number of beds or patients served.

Response:

Neither LGP nor any of its investment funds currently hold an ownership stake in PMH or in any other hospital operator.

Re: Sixteenth Response to December 6, 2023 Letter and October 22, 2024 Supplemental Requests to Leonard Green & Partners, L.P.

Dear Chairman Whitehouse and Ranking Member Grassley:

We represent Leonard Green & Partners, L.P. ("LGP" or the "Firm") and are writing in response to your letter dated December 6, 2023 (the "Letter") requesting the production of certain documents and information in connection with the United States Senate Committee on the Budget's (the "Committee's") inquiry into private equity and health care, and Supplemental Requests posed by your staff on October 22, 2024 (the "Supplemental Request(s)").

We are pleased to provide you with this sixteenth response to your Letter and Supplemental Requests. We hope that the Committee finds this response helpful to its review.

* * *

This response contains some of the Firm's confidential, trade secret, and/or proprietary information. We have marked this response "Confidential" and request that it not be disclosed beyond the Committee or made public. We ask that you treat this response and the accompanying documents as confidential Committee records in accordance with Standing Rule of the Senate XXIX, clause 5, afford them the maximum protection available to the Committee, and that you inform us of any proposed use by the Committee of the information contained herein or the accompanying documents and provide LGP with an opportunity to be heard prior to any such proposed use.

The information contained in this response is based on the Firm's best efforts undertaken within the timeframe provided and based on its understanding of the terms of the Letter. The representations made in this response are based on information reasonably available to the Firm and may not reflect all existing relevant information. LGP reserves the opportunity to supplement information in this response. In providing information responsive

to the Letter, LGP does not waive any rights or legal options relating to the Committee's inquiry.

LGP does not intend to, and does not, waive any applicable privilege, protection or other legal basis under which information may not be subject to production. If it were found that the information or documents provided constitute disclosure of privileged material, such disclosure would be inadvertent. By the provision of such information, LGP does not waive and has not waived the attorney-client privilege or any other protections.

For your convenience, we have reproduced below the requests to which we are responding in this, the Firm's sixteenth response.

* * *

October 22, 2024 Supplemental Request 1:

Provide any and all documents—including memoranda, PowerPoints, third-party reports, correspondence, or communications—containing proposals, discussions or analyses regarding potential and/or actual strategic planning by or among LGP, Medical Properties Trust (MPT), PMH, or their subsidiaries or affiliates relating to closure or sale of any of PMH's hospitals.

Response:

Please find at Bates Numbers LGP-SBC-000002038, LGP-SBC-000002713, LGP-SBC-000002729, LGP-SBC-000002734, LGP-SBC-000002749, LGP-SBC-000002769, LGP-SBC-000002937, and LGP-SBC-000002961 board meeting minutes relating to this Request. Please find at Bates Numbers LGP-SBC-000000189, LGP-SBC-000000218, and LGP-SBC-000000743 financial reports relating to this Request.

During the eleven-year period in which the Green Equity Investors V funds held an investment in Prospect Medical Holdings ("PMH" or "Prospect"), PMH sold East Orange General Hospital ("EOGH") and closed Nix Health Care System ("Nix"). EOGH, which PMH sold in 2021 and which still operates as a hospital today, is a smaller facility in New Jersey that PMH acquired out of bankruptcy with the hope that it would able to acquire other hospitals in the state and build a meaningful local presence. When other acquisitions did not materialize, PMH determined that it made more sense to sell the hospital than continue to operate a small single hospital in the state.

PMH acquired Nix in San Antonio in February 2012 from private equity firm Willis Stein. The main medical surgical hospital of Nix was built in the 1930s and was thus exempt from having a full-service emergency room. Prospect added an emergency room to Nix during its ownership. Prospect closed Nix in the fourth quarter of 2019 as the hospital had become financially unviable. The San Antonio market for hospital services is highly competitive, and declining volumes and a change to certain reimbursement programs in Texas rendered the hospital unprofitable. The 10-mile radius around Nix contains numerous health care facilities, including five full-service hospitals with 24-hour emergency rooms, that met the health care needs of San Antonio's residents. Prospect attempted to sell Nix to another healthcare provider in order to keep it operating. More than 40 potential buyers were contacted to purchase the entire system, the medical surgical hospital, or the behavioral health program. No bids were received for the entire system or the medical surgical hospital. While five buyers expressed initial interest in the behavioral health program, potential acquirors of the program could not get assurances from regulatory authorities and insurance companies that the licenses and insurance contracts could be transferred seamlessly. Ultimately, no one offered to purchase the behavioral health program. Given no other health care company was willing to continue operating Nix, the hospital was ultimately shut down. We understand that the community continues to have a number of alternative health care facilities available to its residents.

October 22, 2024 Supplemental Request 2:

According to the 2010 Stock Option Plan of Ivy Holdings Inc., an "independent director" was eligible for [stock] options" of Ivy Holdings—the parent company of PMH. An independent director was a member of the Board but not an employee of Ivy Holdings or its subsidiaries. Therefore, the independent directors were Michael Solomon, Alyse Wagner, and John Baumer (collectively "LGP Directors")—the three members of the five-member PMH Board of Directors. The Board determined the number of shares, along with the terms and conditions of the stock options for independent directors. Given the previous information, please provide the following:

a. **For each instance that an LGP Director received dividends—either directly or indirectly—from Ivy Holdings, PMH, or its affiliates, list the recipient, the dollar amount, and the date received.**

b. **List the type, cash value, and date of receipt for any and all compensation that the LGP Directors received from LGP for managing and overseeing LGP's investment in Ivy Holdings, PMH, its subsidiaries, and affiliates.**

Response:

LGP partners on the PMH Board of Directors did not receive dividends from Ivy Holdings, PMH, or its affiliates. As we indicated in our Eighth Response, Green Equity Investors V did receive dividends from PMH. LGP directors did not receive any additional compensation for managing and overseeing the Firm's investment in PMH.

October 22, 2024 Supplemental Request 3:

According to the December 4, 2013, minutes of the Compensation Committee of Ivy Holdings, Inc. and Prospect Medical Holdings, Inc.— the members of which were LGP Directors—the Compensation Committee, "in consultation with senior management, is responsible for overseeing [PMH's] compensation program." Please describe in detail the consultation that took place between the Compensation Committee and senior management regarding the compensation of PMH's C-suite executives from 2010 through the date of LGP's divestment. Provide documents and meeting minutes sufficient to support this information.

a. **What factors were used to determine the salary and compensation of C-suite executives? Were the same factors used for each executive? Who determined these factors? How was the performance of C-suite executives reviewed, who was responsible for reviewing it, and how often was it reviewed? Provide documents and meeting minutes sufficient to support this information.**

b. **Which individuals and bodies were required to approve the salaries and compensation of C-suite executives? What was the process for approving the salary and compensation of C-suite executives? Provide documents and meeting minutes sufficient to support this information.**

c. **Were other committees, the Board of Directors, senior management, or other individuals notified or briefed on decisions regarding the salary and compensation of C-suite executives? Provide documents and meeting minutes sufficient to support this information.**

Response:

The Compensation Committee, in consultation with PMH's senior management, was responsible for overseeing PMH's compensation program and for approving the proposed compensation amounts during Compensation Committee meetings. *See, e.g.*, LGP-SBC-000003024. In accordance with LGP's "non-manager shareholder" model of investment, the

Board of Directors approved the compensation amounts proposed by PMH's senior management, as the proposals were seen as reasonable and necessary to attract and retain talented C-Suite executives. LGP respectfully directs the Committee to PMH for more detailed records regarding the factors upon which the compensation amounts proposed by PMH's senior management were based.

October 22, 2024 Supplemental Request 4:

In the same December 4, 2013, minutes referenced above, Exhibit B noted the 2010 Stock Option Plan of Ivy Holdings, Inc., which contained a vesting schedule based on employees satisfying certain conditions. Up to "5% of the option [would] vest upon the satisfaction or partial satisfaction of a specified Prospect Medical EBITDA target; and up to 10% of the option [would] vest upon the satisfaction or partial satisfaction of a specified business unit EBITDA target" with respect to fiscal year 2013.

a. **Provide any amended versions of the 2010 Stock Option Plan of Ivy Holdings, Inc. that was approved on December 15, 2010.**

b. **What were the "specified Prospect Medical EBITDA target" and the "specified business unit EBIDTA target"? Were the targets partially or fully satisfied by any of the employees? If so, when, which targets, and by whom? Provide documents and meeting minutes sufficient to support this information.**

Response:

Please find at Bates Numbers LGP-SBC-000003243 - LGP-SBC-000003247 documents responsive to this Request.

October 22, 2024 Supplemental Request 5:

Provide any and all internal and third-party reports, Powerpoints, presentations, scorecards, guidance, action plans, and the like prepared for corporate review by and/or at the request of LGP and/or PMH, their subsidiaries, affiliates, and facilities related to assessing, assuring, and improving the quality and/or patient safety at any or all PMH facilities from 2010 through the date of LGP's divestment.

Response:

As explained in our Seventh Response, LGP did not monitor PMH's quality of care directly but was routinely apprised of PMH's quality performance in a variety of ways. *See* LGP-SBC-

000001043 to LGP-SBC-000001121. LGP conducted diligence before the Green Equity Investors V funds invested in PMH, including diligence to measure the quality of care provided by PMH. For instance, Bates Number LGP-SBC-000003248 is a benchmarking analysis prepared by LGP comparing various PMH "hospital quality metrics" including mortality rates, readmission rates, and patient satisfaction to comparable hospitals based on CMS data. The data shows that PMH's quality metrics were similar to those of comparable hospitals.

October 22, 2024 Supplemental Request 6:

Provide LGP's investment thesis and value creation plan regarding PMH and its affiliates pre-acquisition and any amended theses or plans thereafter.

Response:

LGP's investment strategy across the Green Equity Investors V funds is to invest in companies with market-leading franchises and defensible competitive positions, attractive growth prospects, and leading management teams.

October 22, 2024 Supplemental Request 7:

What were LGP's short and long-term goals for PMH hospitals and facilities? Provide documents and meeting minutes sufficient to support this information.

Response:

Consistent with its investment thesis, LGP's investment in PMH provided the Firm with the opportunity to partner with a leading management team with a proven track record of turning around troubled health care assets through strategic acquisitions. *See* LGP-SBC-000000414 at LGP-SBC-000000418. Throughout the tenure of its investment in the Funds, LGP's goal was, in partnership with PMH's management, to use PMH's efficient operating model and established infrastructure to provide high quality, efficient health care to the communities that PMH served. *Id.* at LGP-SBC-000000418-19.

MINUTES OF THE
BOARD OF DIRECTORS OF
PROSPECT MEDICAL HOLDINGS, INC.
A Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation, a Delaware corporation (collectively the "Company"), was held on November 14, 2019 at 10:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices located at [redacted] Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, John Baumer, Alyse Wagner and Michael Solomon (the "Board"). Also present for the meeting were [redacted], Interim-Chief Financial Officer; [redacted] Associate General Counsel and Acting Corporate Secretary; and George Pillari, Chief Performance Improvement Officer. Mr. Lee acted as Chairman and [redacted] acted as Secretary of the meeting. The Chairman called the meeting to order at 10:00 a.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Von Crockett, SVP, Corporate Development, and [redacted], President, entered the room.

Acceptance of Prior Management Audit Committee Minutes

[redacted] asked the Board to review the prior Management Audit Committee minutes from August 15 and October 2, 2019. The Board accepted those minutes.

Acceptance of Prior Audit & Compliance Committee Minutes

[redacted] asked the Board to review the prior Audit & Compliance Committee minutes from August 16 and October 7, 2019. The Board accepted those minutes.

Approval of Prior Board Minutes

[redacted] asked the Board to review the August 29, 2019 and September 24, 2019 Board minutes. Upon motion duly made, and seconded, the Board approved those minutes. The motion passed.

Management Discussion

Mr. Pillari provided an update to the Board on the status of shareholder consents that had been collected so far. He reported to the Board that the Company had received requests for appraisal from shareholders and the response to those shareholders was provided by Ropes and Gray. Mr. Pillari reported on the status of the regulatory filings in various states for approval of the merger transaction. Mr. Pillari then gave a pension update to the Board on upcoming payments in 2020.

Operations Review

Regulatory/Accreditation Update

Mr. Crockett, Senior Vice President, Corporate Development, gave an update to the Board about the three previous hospitals who had received termination notices from CMS. He explained that one hospital: Rockville General Hospital in Connecticut have been resolved and Southern California Hospital at Culver City is still on the termination track due to issues in the pharmacy

Confidential LGP-SBC-000002938

going back to 2015. He said there was no harm to patients due to the issues that were identified. He explained that we expect the termination to extend to February and could take 6-9 months to resolve and could include a substantial fine. We expect a survey at Our Lady of Fatima in the next several months.

Hospital Segment:
Mr. Crockett, then reviewed with the Board the performance of Waterbury for the fourth quarter of fiscal 2019. He stated that the fourth quarter was strong, discussed the provider tax legislation, and that the facility is on track to meet its performance goals.

Mr. Crockett then went over the performance of Eastern Connecticut Health Network for the fourth quarter of fiscal 2019 and stated that volume as down slightly. Mr. Crockett stated the new CEO started on October 1, 2019– [redacted] who is familiar with the New England area. He discussed that we filed an application for a cath lab and got an unusual ruling from the DOH and are appealing it.

Mr. Crockett then went over the performance of CharterCARE Health Partners for the fourth quarter of fiscal 2019. He informed the Board that they opened a new emergency department for Roger William Medical Center and are seeing increased traffic. He discussed that Our Lady of Fatima is slightly down for the quarter. Mr. Crockett stated that they would receive some rate relief associated with behavioral health.

Mr. Crockett then provided a summary of the performance at Crozer for the fourth quarter of fiscal 2019. Mr. Crockett explained that they received a supplemental payment from the State during this quarter. He informed the Board that the system is outsourcing both the ED and hospitalist service lines because of the lack of management and oversight. He said that Crozer opened a neurology emergency department because of an increase in trauma needs and that the ICU beds are fully utilized and they are looking for a solution. He stated that there should be large increases in EBDITA from managed care negotiations and dish money. Corporate has redirected resources to support local management in dealing with legacy issues such as the replacement of 45 year old software with the new Cerner implementation scheduled for June 2020 and Oracle going live January 2020.

Mr. Crockett then reviewed with the Board a summary of the performance at Los Angeles Community Hospital, Los Angeles Community Hospital at Norwalk ("Norwalk"), Southern California Hospital at Hollywood ("Hollywood"), Southern California Hospital at Van Nuys ("Van Nuys"), Southern California Hospital at Culver City ("Culver City") and Foothill Regional Medical Center ("Foothill) for the fourth quarter of fiscal year 2019. Specifically, he went over their respective financial performance, what worked for the quarter, what underperformed for the quarter, measures taken to address underperformance, trends that may impact performance through year end, and what we have done to address those trends. Mr. Crockett explained that payments under California's Quality Assurance Fee ("QAF") program has ended and any revenue that might come in representing this fiscal quarter would not be booked until realized. He explained that the new QAF rates would not be announced until March 2020 and payments received 3-4 months following. Mr. Baumer asked questions about dollars received historically under QAF and whether we had any understanding of what the next QAF

revenue would be and Mr. Crockett responded to that question. Mr. Crockett also discussed the current status of the licensing survey issue with CMS, and the Culver City's current plan of correction. Mr. Crockett also informed the Board that there was an adjustment in the fourth quarter due to a capitated pool correction between Prospect Medical Group and the hospital.

Medical Group segment:

[redacted] provided a summary to the Board of the performance of the Medical Groups segment and the Coordinated-Regional-Care ("CRC") through the fourth quarter of fiscal 2019. He went over what worked, what underperformed, what we have done to address underperformance, what trends that will impact performance through year-end, and what we have done to address those trends. [redacted] then noted that it would likely be a down year but we are pursuing growth in certain areas that would improve financial performance. [redacted] asked the Board if there were any questions. There were none.

Finance Matters

[redacted] reviewed with the Board the highlights for the fourth quarter of fiscal 2019. She noted that it was a good quarter despite some volume challenges. [redacted] reported that revenue increased over 3% from prior year same quarter and cash collections improved from focus on revenue cycle and implementation of software that helps realize revenue. [redacted] specifically went over some expense management initiatives that decreased expenses 3% and medical group operating expenses decreased while revenue increased. [redacted] then informed the Board about cash, restricted cash and the availability of the revolver. She reported on payments to 401(k) plans, cash from the sale of a building in the Nix winddown. [redacted] discussed the implementation of a standardized budgeting process across the organization and was asked by Mr. Baumer if the budget is achievable and she answered yes. She then reported on the 2019 audit status and informed the Board that it is on track to be complete by December 20. Mr. Pillari reported that he received a call from BDO who reported the audit was going well. [redacted] asked if there were any further questions. There were none.

Corporate Development

Mr. Crockett then gave an update on the sale of EOGH with the currently identified buyer. Mr. Crockett then discussed the timing and reported that the buyer had retained Deloitte to advise them on the transaction and discussed the state's certificate of need process estimating closing to be anywhere from four to six months. Mr. Crockett also stated that the Company has back up buyers if this one falls through and that the Company is still moving toward a conversion to a non-profit for this asset.

Mr. Crockett then gave an update on the sale of the Nix Health System. He stated that the Company is closing down the behavioral care side of the business on November 15, 2019 because the potential buyers for that line of business backed out. He discussed potential buyers of the owned buildings and reported that the agreement with a buyer for the downtown building was scheduled to close on December 12, 2019 and the buyer for the Vance Jackson building should be within ninety days. Mr. Crockett reported that the Company is negotiating with landlords of leased buildings to either try to get out of the existing leases or help find a new

tenant. There was some discussion about the behavioral health sale. Mr. Crockett asked if there were any further questions. There were none.

Adjournment

Mr. Lee then asked if there were any further questions. There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 11:48 a.m.

Redacted Secretary

Confidential LGP-SBC-000002941

MINUTES OF THE JOINT MEETING
OF
THE BOARDS OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
&
IVY HOLDINGS INC.

A special telephonic meeting of the Boards of Directors (the "Boards") of Prospect Medical Holdings, Inc., a Delaware corporation ("PMH") and Ivy Holdings Inc. ("Ivy" and together with PMH, the "Companies"), was held on November 22, 2019 at 2:30 p.m. pursuant to notice given by Samuel Lee, Chief Executive Officer of the Companies and the Chairman of the Boards. All Directors on the Boards signed and delivered a waiver of notice of the meeting in compliance with the notice requirements of the Companies' Bylaws.

The following Directors, who constitute all members of the Boards, attended the meeting:

- Samuel S. Lee (Chairman)
- John Baumer
- Michael S. Solomon
- Alyse Wagner
- Jeereddi A. Prasad, M.D.

Also present for the meeting were:

- George Pillari, Chief Integration and Performance Improvement Officer
- Redacted Treasurer
- Redacted Assistant General Counsel & Assistant Secretary
- Redacted Partner with Ropes & Gray LLP
- Redacted Partner with Latham & Watkins LLP

Mr. Lee acted as Chairperson of the meeting and Redacted acted as Secretary of the meeting.

Call to Order

Mr. Lee called the meeting to order at 2:32 pm PST, announced that a quorum of the Boards was present and that the Boards would proceed with the meeting.

Confirmation of Receipt of Meeting Materials

Upon the inquiry of SVP Finance, all Directors confirmed that, prior to this meeting, they have received and reviewed (1) the Offer to Purchase Ivy Holdings, Inc. (Prospect Medical Holdings, Inc.), dated November 19, 2019 (the "Offer Letter"), and received from McDermott Will & Emery LLP on behalf of its client, Prime Healthcare Companies ("Prime") and (2) the proposed draft response letter (the "Response Letter").

Review of the Offer Letter

Mr. Lee asked the other Directors whether they have any questions or comments regarding the Offer Letter.

Redacted - Privileged

Redacted - Privileged that is the conclusion of the Companies' management and legal counsel (including external legal counsel in attendance for the meeting) Redacted - Privileged

Redacted - Privileged

Status of Shareholder Consent to Merger

Ms. Wagner inquired about the status of receipt of shareholder consents to the transactions contemplated in the Agreement and Plan of Merger, dated September 25, 2019, among the Companies, Chamber Merger Sub Inc., and solely for purposes of Section 6.03(b) thereto, Green Equity Investors V, L.P. and Green Equity Investors Side V, L.P. (the "Merger Agreement").

Mr. Lee confirmed that, as of the date of this meeting, signed consents have been received from shareholders representing ownership of 97.4% of the outstanding stock of Ivy.

Advice of Counsel Regarding Director Obligations

Ropes and Gray summarized existing obligations of the Companies under the Merger Agreement. He noted that contractual conditions have been satisfied and the Companies are now contractually bound to proceed to its transaction closing. Ropes and Gray further stated that the Companies have no contractual flexibility regarding such obligations. He further noted that the Directors are under no legal obligation to consider, or take any action related to, the Offer Letter and the matters set forth therein.

Review of the Response Letter

Mr. Lee asked the other Directors whether they have any questions or comments regarding the Response Letter. After a short discussion, with no objections or proposed changes, the Directors unanimously approved the Response Letter and its delivery to Prime and its counsel promptly following the meeting.

Other Matters

Upon Mr. Lee's inquiry, the other Directors confirmed that they have no other questions, concerns or other matters that they would like to discuss regarding the subject matter of this meeting.

Adjournment

There being no further business to come before the meeting, Mr. Lee declared the meeting adjourned at 2:52 p.m.

Redacted Assistant Secretary

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on March 4, 2014 at 9:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, Dr. Jeereddi Prasad, John Baumer, Alyse Wagner, and Michael Solomon (the "Board"). Also present for the meeting were Redacted of Leonard Green & Partners, L.P.; and Ellen J. Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order, announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks
The Chairman opened the meeting with general remarks.

Acceptance of Prior Committee Minutes
Ms. Shin asked the Board to review the December 4, 2013 minutes of the Ivy Holdings Inc. and Prospect Medical Holdings, Inc. Compensation Committee. The Board accepted those minutes.

Approval of Prior Board Minutes
Ms. Shin asked the Board to review the December 4, 2013 Board minutes. Upon motion duly made, and seconded, the Board unanimously approved the December 4, 2013 Board minutes. The motion passed.

Redacted entered the room.

Operations Review
Redacted, Senior Vice President, Hospital Operations of Alta Hospitals System ("Alta") reviewed with the Board the consolidated financial summary for the month and year to date through December 31, 2013 of the core Alta facilities. Specifically, SVP Ops - Alta went through changes in volume, revenue, cost management, EBITDA from the prior year period. SVP Ops - Alta also explained the various operational initiatives, and that some initiatives had resulted in notable increases in expense in the areas of information technology, utilization review, clinical documentation improvement, and Corporate hospital management staffing. SVP Ops - Alta also stated that the Company had recently cleared regulatory and licensing surveys that were conducted at the California hospitals.

Redacted entered the room.

Confidential

SVP Ops - Alta then went over the impact of the change in the all patient refined diagnosis related groups ("APR DRG") system. A discussion ensued amongst management and the Board. SVP Ops - Alta SVP Ops - Alta then reviewed with the Board the continued challenges and risks given the current federal and state reimbursement environment, and other material changes in the industry, including the transition from international classification of diseases ("ICD") 9 to ICD 10. Mr. Baumer asked for further explanation as to what the change involved. SVP Ops - Alta responded to that question.

SVP Ops - Alta then reviewed with the Board the financial operational performance of Southern California Hospital at Culver City ("Culver City") for the month and year to date through December 31, 2013. SVP Ops - Alta went over the significant improvement in volume, revenue, cost management, other financial drivers, and EBITDA from the prior year period. SVP Ops - Alta SVP Ops - Alta noted, however, that this quarter also reflected an expected Medicare Disproportionate Share ("DSH") cut of approximately $2.5 million. SVP Ops - Alta also went over a number of operational initiatives for the remainder of the year, including expansion of the psychiatric unit and obstetrics unit. Mr. Baumer asked about the timeline for those expected initiatives. Subject to any regulatory hurdles, SVP Ops - Alta estimated completion of those particular initiatives by the middle of 2014.

Mr. Baumer then asked about the estimated financial performance of Culver City. Mr. Aleman stated that the Company currently estimated that Culver City will be around the same amount as last year given the projected Medicare DSH cuts. Mr. Baumer then asked for the expected Medicare DSH impact to the entire Company. Mr. Aleman stated approximately $13 million. Mr. Lee then gave some further context as to how the Medicare DSH cuts were affecting all hospitals in the industry.

SVP Ops - Alta then provided a review of the first quarter of 2014 at the Nix Health system ("Nix"). Specifically, SVP Ops - Alta went over the changes to volume, revenue, expenses, and EBITDA from the prior year period. He also went over Nix's forward financial operations, which included a number of key operational initiatives with the psychiatric expansion and the rural health initiative. SVP Ops - Alta also explained some of the risks and challenges facing Nix, including competition in the area and reimbursement reductions.

Mr. Baumer then inquired about Nix's last year performance. SVP Ops - Alta stated that it was approximately $14 million, but that he and the rest of the management team expected a marked improvement due to the initiatives referenced previously, among others. Mr. Lee gave a further explanation regarding Nix's financial performance, including a notation that the financial performance of Nix Community General Hospital had not met the Company's internal expectations.

Redacted Chief Executive Officer of Prospect Medical Systems, then proceeded to go over the operations and financial summary of the consolidated Medical Groups through January 31, 2014. Specifically, Redacted went over changes in membership, revenue, cost of revenue, operating expenses, and year to date EBITDA. In particular, Redacted noted that the Medical Groups had picked up an additional 27,000 new members due to member sign-ups in the Health Net Health Insurance Exchange. Mr. Baumer asked about the impact of the Medicare Advantage

reductions. Redacted went over the projected negative impact through the remainder of the fiscal year, and the projected negative impact for fiscal year 2015. In sum, Redacted noted that despite all of the various government reductions, he expected the financial performance of the Medical Groups segment to remain approximately the same. He attributed the ability to withstand the significant rate reductions to other initiatives by the Medical Group segment, including some expected improvement in performance monies.

Mr. Lee left the room.

Coordinated-Regional-Care

Redacted, Senior Vice President, Coordinated Regional Care, provided an update to the Board about the Company's Coordinated-Regional-Care ("CRC") activities in California, Texas, Rhode Island, and New Jersey. In particular, SVP - CRC informed the Board that the Company had entered into a letter of intent with Blue Cross of Blue Shield of Rhode Island, with a goal of introducing a joint sponsored product by the middle of 2014 to the Rhode Island community. A discussion ensued amongst management and the Board.

Mr. Lee returned to the room.

SVP - CRC then explained about the Company's efforts to date in building a provider network in New Jersey. Dr. Prasad explained to the Board that the normal timeline to build a sufficient provider network is approximately one year. Mr. Baumer asked about the financial impact of the CRC segment. Mr. Lee and Mr. Aleman responded to those questions.

Redacted left the room.

Finance Matters

Mr. Aleman the reviewed with the Board the financial statements for the Company's consolidated entities through December 31, 2013. Specifically, Mr. Aleman noted that the lumpiness of the quarter was due to the inability of the Company to recognize revenue from the California Quality Assurance Fee Program. He also estimated that the delay in recognition of those funds would not be realized until the middle of 2014. Mr. Aleman then reviewed with the Board a summary of the Company's available cash at February 1, 2014, and expectations through year end given the Company's anticipated transaction activity.

Redacted entered the room.

Corporate Development

Redacted gave an update to the Board about the status of the CharterCARE transaction. He noted certain key upcoming regulatory Hearing dates, but that the Company is still on track to close in the May or June 2014 timeframe. Mr. Lee gave some further context of the transaction process. Co-Gen. Counsel, Hosp-Outpatient then reviewed with the Board the status of the acquisition of Bellflower Medical Center, Tustin Medical Center, and Redacted - Business Sensitive Specifically, [redacted], Co-Gen. Counsel, Hosp-Outpatient explained the significant regulatory and licensing hurdles that had been presented during the diligence period, negotiation of the Asset Purchase Agreement and related agreements (the

"APA"), and post-signing of the APA. Redacted noted that such items had reflected in a downward purchase price adjustment.

Mr. Aleman then provided the Board with an overview of a potential transaction with East Orange General Hospital, which is located in New Jersey, key attributes of the hospital, growth opportunities, and a potential transaction structure. Mr. Aleman also gave an update on the potential transaction with Redacted - Business Sensitive which is another hospital located in New Jersey.

Finally, Redacted went over the Company's current pipeline of potential acquisition opportunities.

Adjournment

Mr. Lee asked if there were any further questions. There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 11:46 a.m.

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on May 28, 2014 at 10:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted, Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, Dr. Jeereddi Prasad, John Baumer, Alyse Wagner, and Michael Solomon (the "Board"). Also present for the meeting were Redacted Redacted of Leonard Green & Partners, L.P.; Steve Aleman, Chief Financial Officer, and Ellen J. Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order, announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks
The Chairman opened the meeting with general remarks.

Approval of Prior Board Minutes
Ms. Shin asked the Board to review the March 4, 2014 and May 22, 2014 Board minutes. Upon motion duly made, and seconded, the Board unanimously approved the motion to approve those minutes. The motion passed.

Approval of Revised Prospect Hospitals System Corporate Compliance Program
Ms. Shin reviewed with the Board the Company's updated Prospect Hospitals System Corporate Compliance Program ("Program"). Ms. Shin then reviewed with the Board the resolutions to approve the Program. A copy of which is attached as Exhibit A. Upon motion duly made, and seconded, the Board unanimously approved the motion to approve the Program as of May 28, 2014, and instructed the Company's management to provide for the distribution of the Program in a manner consistent with past practices.

Redacted Redacted w, Redacted Redacted and Von Crockett entered the room.

Operations Review
Mr. Lee then turned the meeting to SVP Hosp Ops to provide the Board with a business operations review of the California hospitals. SVP Hosp Ops reviewed with the Board the core Alta hospitals' financial performance for the second quarter of 2014. In his presentation, SVP Hosp Ops SVP Hosp Ops went through changes in volume, revenue, cost management, and EBITDA. He noted that on the cost management side, there was a significant increase in registry hours given the volume increases. SVP Hosp Ops also went through forward financial operations, which included operational initiatives and risks. SVP Hosp Ops also provided an update regarding the Bellflower Medical Center ("Bellflower") and Newport Specialty Hospital ("Newport")

Confidential

transactions. Mr. Baumer asked SVP Hosp Ops a question about the current status of opening both facilities. SVP Hosp Ops responded to those questions. Mr. Baumer then asked a question about the current reimbursement cuts affecting the hospital segment. Mr. Aleman responded to that question, and explained that the Company expected reimbursement cuts of approximately $9 million on a go forward basis. Mr. Baumer asked another follow up question regarding the governmental process and personnel involved with reopening the Bellflower and Newport facilities. SVP Hosp Ops responded to that question.

SVP Hosp Ops then reviewed with the Board the second quarter 2014 highlights for Southern California Hospital at Culver City. Specifically, SVP Hosp Ops went over changes in the volume, revenue, cost management, and EBITDA performance. Once again, SVP Hosp Ops noted a significant increase in registry hours given the volume increases. Similarly, SVP Hosp Ops also pointed out to the Board increases in supplies due to increases in surgeries at the facility. SVP Hosp Ops then went over a number of operational initiatives for 2014, including CBO collections, ER throughput, acute rehab and detox program growth, SNF/sub-acute growth, additional payor contracts, emergency room relocation and rebuild, bariatric program, spine program, psychiatric expansion, and obstetrics program development. Mr. Baumer asked about the impact of reimbursement cuts at the facility. Mr. Lee answered that question. Mr. Solomon asked a question about a competitor. Mr. Lee and Mr. Aleman answered that question. Mr. Baumer then asked management to provide a status update regarding the Quality Assurance Fee program. Mr. Aleman responded to that question, and a discussion ensued amongst the Board and management. Mr. Lee also informed the Board that the Company had spent time and resources into developing some additional executives in operations.

Mr. Crockett then reviewed with the Board the second quarter 2014 consolidated financial summary for the Nix Hospitals System, LLC ("Nix"). In particular, Mr. Crockett noted some of the major initiatives at Nix, including the opening of the psychiatric program at the Babcock facility. Mr. Baumer asked a question related to the volume increases. Mr. Crockett answered that question by going over the competitive landscape in the area.

Redacted then provided a consolidated financial summary for the Medical Group segment through the quarter ending March 31, 2014. Specifically, Redacted went over changes in EBITDA, senior and commercial membership, revenue, cost of revenue, and operating expenses. Redacted also went over opportunities and key initiatives in finance and operations. Mr. Baumer asked a question about the status of the Company's Coordinated-Regional-Care ("CRC") efforts outside of California. Mr. Aleman stated that all states have been receptive to the Company's CRC model. He added that much of the work in the states outside of California is to lay the groundwork for this year in infrastructure and program development. Mr. Baumer then asked a follow up question regarding any associated risks with the Company's CRC model. Mr. Lee and Mr. Aleman responded to that question. Mr. Lee then emphasized to the Board that 2014 is a turnaround year for the Company given the various government cuts affecting the Medical Group and Hospital segments. Mr. Lee went through the various cuts, and along those same line also went through various programs the Company had either completed or initiated to combat those various cuts. Mr. Baumer then asked some questions regarding the Company's out of state corporate development activities. Mr. Aleman answered those questions.

Redacted, Mr. Crockett, and Redacted left the room.

Finance Matters

Mr. Aleman reviewed with the Board the financial statements for the Company's consolidated entities through March 31, 2014. Mr. Aleman then reviewed with the Board the Company's consolidated balance sheet and income statement through March 31, 2014, the Adjusted EBITDA fifteen month trend, and cash projections. Mr. Aleman also provided the Board with an update on the QAF program (and its expected timeline for approval) and receipt of electronic health record ("EHR") monies. With respect to funding of the pending transactions, Mr. Aleman stated that existing cash on hand could fund those transactions. Ms. Wagner asked a question about the profitability of the CharterCARE system at closing of the transaction. Mr. Aleman responded to that question.

Redacted entered the room.

Corporate Development

Co-Gen. Counsel, Hosp-Outpatient provided an update to the Board about the pending CharterCARE transaction. [redacted] then went over the current status of the East Orange General Hospital transaction, noting that the Asset Purchase Agreement and related agreements were executed on May 28, 2014, and the regulatory process would take approximately 9-12 months. Co-Gen. Counsel, Hosp-Outpatient then went through the list of potential transaction activities, which included Redacted – Business Sensitive Redacted - Business Sensitive A discussion ensued amongst the Board and management.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 12:15 p.m.

Resolutions re Approval of Prospect Hospitals System Corporate Compliance Program

Confidential

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on May 15, 2017 at 2:00 p.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted, Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, John Baumer, Alyse Wagner, Michael Solomon and Jeereddi Prasad, M.D. (the "Board"). Also present for the meeting were Redacted a representative of Leonard Green & Partners; Steve Aleman, Chief Financial Officer; and Ellen Shin, General Counsel. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 2:07 p.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks

The Chairman opened the meeting with general remarks regarding which entities were performing, and which entities were not performing to the satisfaction of management. He also gave an overview of cash savings in the Company.

Approval of Prior Board Minutes

Ms. Shin then asked the Board to review the February 21, 2017 Board minutes. Upon motion duly made, and seconded, the motion passed and the Board unanimously approved those minutes.

Redacted, Von Crockett, Redacted entered the room.

Operations Review

Medical Group Segment:

Redacted, Chief Executive Officer of Prospect Medical Systems, went through the Medical Group's financial performance, including year to date adjusted EBITDA for the six month ended March 31, 2016 compared to the prior year. Mr. Baumer asked what the revenue was during that same time period. Mr. Aleman answered that question.

Redacted then went over the quarter's successes and key challenges. Mr. Baumer asked for an explanation of the performance for the quarter despite the improvements that had been made. Mr. Aleman responded to that question. Dr. Prasad asked if the revenue would pick up later in the year. Mr. Aleman stated that this should be the case. Despite the challenges the Medical Groups were facing, Redacted stated that the core operations were improving.

Redacted left the room.

Confidential

Hospital Segment:

Redacted Senior Vice President, Hospital Operations of Alta Hospitals System, LLC, then reviewed with the Board the operational performance for the California hospitals for the second fiscal quarter of 2017 and the second quarter to date. He noted improvements in Adjusted EBITDA performance from the comparative prior year period, excluding Quality Assurance Fee recognized for that period.

Redacted first went through the operational performance of Los Angeles Community Hospital ("LA"), Norwalk Community Hospital ("Norwalk"), Southern California Hospital at Van Nuys ("Van Nuys"), and Southern California Hospital at Hollywood ("Hollywood"). He noted improvements in quality, infrastructure, management, and registry reduction at both LA and Norwalk. At Van Nuys, Redacted noted that improved documentation had led to a reduction in denials. At Hollywood, Redacted noted an improvement in volume and reduction in registry hours.

Redacted then went through the financial performance of Southern California Hospital at Culver City ("Culver City") through the end of March 2017 as compared to the prior year period. Redacted noted that Culver City had terminated its LPS designation. Mr. Baumer asked where patients were now going as result of the termination. Redacted answered that question. Mr. Baumer then asked about the status of relationships between Culver City and the regulatory agencies. Redacted stated that relationships had improved and were currently good. Redacted then reviewed with the Board the major challenges and successes of Culver City for the quarter. A discussion ensued amongst the Board and management.

Redacted then went over the financial performance of Los Angeles Community Hospital at Bellflower ("Bellflower") through the end of March 2017 as compared to the prior year period. He also shared that the facility was running an capacity, expansion plans were in progress, and the appointment of a new Medical Director.

Redacted then went over the financial performance for the quarter ended March 2017 as compared to the prior year period. He also went through the major challenges and successes for the quarter.

Redacted left the room.

Mr. Crockett, Senior Vice President of Corporate Development, then reviewed with the Board the performance of Nix Healthcare ("Nix") in Texas for the second fiscal quarter of 2017. Specifically, he went over Nix's financial performance, major challenges, successes, and risks/opportunities. He noted that volumes had dropped from the period of time prior to the flood at Nix, but over a dozen new physicians are in the pipeline at Nix.

Mr. Crockett next discussed the performance of CharterCARE Health Partners in Rhode Island for the second fiscal quarter of 2017. Specifically, Mr. Crockett went over the major challenges, successes, and risks/opportunities. Mr. Baumer asked how the entity is expected to perform for the year. Mr. Aleman answered that question.

As the next agenda item, Mr. Crockett provided an update regarding the performance at East Orange General Hospital ("EOGH") in New Jersey. In particular, he noted declines in performance in the quarter and fiscal year to date Adjusted EBITDA. Despite some successes for the quarter, Mr. Crockett also explained there were ongoing risks, which included significant reductions in charity care funds. Mr. Baumer asked a series of follow up questions. Mr. Crockett and Mr. Aleman responded to those questions.

Mr. Crockett then reviewed the financial performance, major challenges, successes, and risks/opportunities at Eastern Connecticut Health Network ("ECHN"). He noted favorable improvements in labor management, operational processes, and expansion efforts in the Behavioral Health Day Program.

Mr. Crockett then reviewed with the Board the financial performance for the quarter ended March 2017, and the year to date Adjusted EBITDA. He noted the competitive landscape, improvements in labor management, replacement of the prior Chief Executive Officer, and revenue opportunities. A discussed ensued amongst the Board and management.

Mr. Crockett then explained to the Board the Company's overall labor strategy, which covers 26 collective bargaining agreements across the organization. He stated that two unions continued to present some ongoing challenges.

Redacted, Chief Executive Officer at Crozer-Keystone Health System ("Crozer), appeared by video conference. Redacted reviewed with the Board Crozer's financial performance for the second quarter fiscal 2017, and fiscal year to date. He stated that there were some labor challenges in the quarter, coupled with some notable successes, including the opening of a new drug and alcohol unit in March 2017. Redacted noted that Crozer is on target to exceed year end projections.

Redacted left the meeting.
entered the room.

Coordinated-Regional-Care Segment

Redacted, the President of the Company's Coordinated Regional Care ("CRC") segment, then provided a first and second quarter CRC new markets update to the Board. He also went over core CRC incremental initiatives for the past two quarters, core value base risk capabilities in the east coast and opportunities and risks for the segment. A discussion ensued regarding improvements in EBITDA for the CRC segment.

Redacted left the room.

Finance Matters

Mr. Aleman then provided an update regarding the overall financial performance of the Company for the quarter ended March 2017, as well as its separate segments. He explained the timing of expected Quality Assurance Fee ("QAF') payments, meetings with rating agencies, and current cash projections with and without QAF.

Mr. Aleman then gave an update on the pension obligations for Crozer, ECHN, and Waterbury. Mr. Baumer and Mr. Solomon asked a series of questions regarding what the cost would be to

terminate certain pension obligations today. Mr. Aleman stated that he would look into the questions further and follow up.

Corporate Development

Mr. Aleman then provided a Corporate Development update, including post-closing updates at Crozer and Waterbury, cash collections, favorable property tax stabilization agreements in New Jersey and Connecticut, tax appeals in PA, and solutions for Waterbury joint ventures. He also discussed divestiture of excess real estate, and a current market watch in California and Texas.

Mr. Crockett left the room.

Executive Session

The Board met with Redacted Mr. Aleman, Ms. Shin and Redacted in executive session.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 4:58 p.m.

MINUTES OF THE
BOARD OF DIRECTORS OF
PROSPECT MEDICAL HOLDINGS, INC.
A Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation, a Delaware corporation (collectively the "Company"), was held on August 29, 2019 at 10:00 a.m. pursuant to notice given by Samuel S. Lee, Chairman of the Board and Chief Executive Officer of the Company, and was held at the offices of the Company located at Redacted Redacted Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, John Baumer, Alyse Wagner, Dr. Prasad, and Michael Solomon (the "Board"). Also present for the meeting were Redacted Interim-Chief Financial Officer; Ellen J. Shin, General Counsel and Corporate Secretary; George Pillari, Chief Performance Improvement Officer; and Redacted VP, Finance & Treasury. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order at 10:35 a.m., announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Von Crockett, SVP, Corporate Development, and Redacted President, entered the room.

Acceptance of Prior Management Audit Committee Minutes
Ms. Shin asked the Board to review the prior Management Audit Committee minutes from May 16, 17, 31, June 10, and August 1, 2019. The Board accepted those minutes.

Acceptance of Prior Audit & Compliance Committee Minutes
Ms. Shin asked the Board to review the prior Audit & Compliance Committee minutes from May 17, 2019. The Board accepted those minutes.

Approval of Prior Board Minutes
Ms. Shin asked the Board to review the May 23, 2019 and June 28, 2019 Board minutes. Upon motion duly made, and seconded, the Board approved those minutes. The motion passed.

Finance Matters
Redacted reviewed with the Board the highlights for the third quarter ending June 30, 2019. She noted that it was a good quarter despite some volume challenges. Mr. Baumer asked how the financial performance compared to the same period last year. Redacted answered that it was the same. Redacted specifically went over some items on the balance sheet as compared with the second quarter period, and provided some forward looking guidance for the months of July and August 2019.

Redacted then informed the Board that she had put into place some additional controls. Specifically, she had included a requirement for the subsidiary CEOs and CFOs to provide quarterly certifications, and a budget process throughout all of the business units. She also informed the Board that the audit planning process was underway and that she did not anticipate

any adjustments. Mr. Baumer stated that he had spoken to Redacted at BDO USA, LLP ("BDO"), who had indicated that the Finance team is doing well, and way ahead of prior years. Redacted asked if there were any further questions. There were none.

Dr. Prasad entered the room.

Treasury Update

Pension Update:

Redacted gave a pension update to the Board. Specifically, he went through the current pension underfunded status, and the change from Q2 to Q3. The plans he reviewed were at Crozer Keystone Health System ("Crozer"), Eastern Connecticut Health Network ("ECHN"), and Waterbury Hospital ("Waterbury").

Medical Properties Trust ("MPT") Transaction:

Redacted provided a summary of the MPT Transaction, which closed on August 23, 2019. He noted that proceeds from the MPT Transaction were utilized to pay the TLB, FILO, transfer and title fees, outstanding mortgage at one hospital, ABL repayment, pension paydown, and payment of prior year ERISA obligations related to 401k matching obligations.

He also went over the annual rent payments (which includes 2% escalators), and the two required financial covenants that must be followed.

Debt Summary

Redacted reviewed the list of debt outstanding as of June 30, 2019, and as of August 28, 2019. Mr. Pillari stated that the Company would lose some additional availability on the line of credit following the sales and/or closures of the Nix Health System, and East Orange General Hospital ("EOGH"). A discussion ensued amongst the Board and management.

Operations Review

Hospital Segment:

Mr. Crockett, Senior Vice President, Corporate Development, then reviewed with the Board the performance of Waterbury for the third quarter of fiscal 2019. He stated that the third quarter was strong, the CMS Medicare issue had been resolved, and that the facility is on track to surpass last year's performance.

Mr. Baumer asked for an update on the electronic medical records ("EMR") system implementation. Mr. Crockett responded to that question for both Waterbury and EOGH. Mr. Baumer then asked when Crozer would start with its EMR system implementation. Redacted stated that the implementation had already started.

Mr. Crockett then went over the performance of Eastern Connecticut Health Network for the third quarter of fiscal 2019. Mr. Crockett stated the current CEO would be retiring on October 1, 2019, and that the facility had hired a new CEO – Redacted who is familiar with the New England area. Mr. Baumer asked about the expected performance by the fiscal year end. Redacted answered that question.

Confidential

Mr. Crockett then went over the performance of CharterCARE Health Partners for the third quarter of fiscal year 2019. He also informed the Board that the facility had closed its nursing school and outpatient center. Mr. Crockett then gave an update on the status of the licensing survey issue before CMS. Mr. Baumer asked for an update on the rate increases from the State. Mr. Crockett stated that they would receive an incremental increase for 2020. Redacted stated that discussions were still ongoing.

Mr. Crockett then provided a summary of the performance at Crozer for the third quarter of fiscal year 2019. Mr. Crockett shared with the Board that one of Crozer's competitors, Hahnemann had closed, and that as a result, certain physicians were shifting their practice over to Crozer. A discussion ensued amongst Mr. Baumer and management.

Mr. Crockett then reviewed with the Board a summary of the performance at Los Angeles Community Hospital, Los Angeles Community Hospital at Norwalk ("Norwalk"), Southern California Hospital at Hollywood ("Hollywood"), and Southern California Hospital at Van Nuys ("Van Nuys") for the third quarter of fiscal year 2019. Specifically, he went over their respective financial performance, what worked for the quarter, what underperformed for the quarter, measures taken to address underperformance, trends that may impact performance through year end, and what we have done to address those trends. Mr. Crockett explained that some supplemental monies are expected for the fourth quarter of fiscal year 2019. Mr. Baumer asked a question about whether fiscal year 2018 had an out of period payment under California's Quality Assurance Fee ("QAF") program. Mr. Crockett responded to that question.

Mr. Crockett next discussed the performance of Southern California Hospital at Culver City ("Culver City") for the third quarter of fiscal year 2019. He also discussed the current status of the licensing survey issue with CMS, and the hospital's current plan of correction. He noted that the current affiliation with UCLA is working well, as reflected in the additional volume and financial performance of the hospital.

Mr. Crockett then provided a performance update of Foothill Regional Medical Center ("Foothill) for the third quarter of fiscal year 2019. He stated that the hospital had a good quarter in terms of volume. Mr. Crockett then informed the Board that there will be an adjustment in the fourth quarter due to a misunderstanding how to record the capitated pool between Prospect Medical Group and the hospital.

Mr. Crockett then went over the financial performance of Los Angeles Community Hospital at Bellflower ("Bellflower") for the third quarter of fiscal year 2019. He stated that the overall performance for the quarter was steady.

Medical Group segment:

Redacted provided a summary to the Board of the performance of the Medical Groups segment through the third quarter of fiscal year 2019. He also compared the current performance with the performance from the same prior year period. He also went over what worked, what underperformed, what we have done to address underperformance, what trends that will impact performance through year-end, and what we have done to address those trends. Redacted then provide an estimate for the fiscal year end, and noted that it would likely be a flat year.

Coordinated-Regional-Care

Redacted then provided a Coordinated-Regional-Care ("CRC") update for the third quarter of fiscal year 2019. He went over certain matters that had exceeded and not exceeded expectations this quarter. He noted that there is room for improvement next year, especially in the area of quality. Redacted asked the Board if there were any questions. There were none.

Corporate Development

Mr. Crockett then gave an update on the sale of EOGH. Mr. Baumer asked a question about the identity of the buyer. Mr. Crockett answered that question. Ms. Wagner then asked a question about the timing of closing the transaction. Mr. Crockett stated that he was unsure given the state's certificate of need process, but estimated anywhere from four to six months. A discussion ensued amongst the Board and Mr. Pillari and Mr. Crockett regarding the approval process in New Jersey. Mr. Baumer asked for an update on how much of a cash drain EOGH is at this point. Redacted responded to that question. Mr. Crockett also stated that the Company is working on a conversion from for profit to not for profit for EOGH.

Mr. Crockett then gave an update on the sale of the Nix Health System. He stated that an announcement had been made that the Company is closing down the acute care side of the business, which is a 30 day process. He then stated that he anticipated an agreement with a buyer for the downtown building within the next seven days, and that the transaction should close before the end of the year. Mr. Baumer asked for the identity of the buyer. Mr. Lee responded to that question. With respect to the behavioral side of the business, Mr. Crockett stated that the Company is three to five days away from signing a deal with a potential buyer. He also went over the terms of the deal. Mr. Baumer asked about the status of diligence. Mr. Crockett responded to that question.

Mr. Baumer asked for an update on the Home Health business. Mr. Crockett stated that any potential transactions are on hold. Mr. Lee provided further context.

Adjournment

Mr. Lee then asked if there were any further questions. There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 11:09 a.m.

Confidential

MINUTES OF THE
BOARD OF DIRECTORS
OF
PROSPECT MEDICAL HOLDINGS, INC.
a Delaware corporation

A meeting of the Board of Directors of Prospect Medical Holdings, Inc., a Delaware corporation (the "Company"), was held on September 3, 2014 at 9:00 a.m. pursuant to notice given by Ellen J. Shin, General Counsel and Secretary of the Company, and was held at the offices of the Company located at Redacted Los Angeles, California.

Members of the Board of Directors who were present were Mr. Lee, Dr. Jeereddi Prasad, John Baumer, Alyse Wagner, and Michael Solomon. Also present for the meeting were Redacted Redacted of Leonard Green & Partners, L.P. ("Leonard Green"); Steve Aleman, CFO; and Ms. Shin. Mr. Lee acted as Chairman and Ms. Shin acted as Secretary of the meeting. The Chairman called the meeting to order, announced that a quorum of the Board was present and that the Board would proceed with the transaction of business properly brought before it.

Chairman's Remarks
The Chairman opened the meeting with general remarks.

Redacted, Von Crockett, and Redacted entered the room.

Acceptance of Prior Committee Minutes
Ms. Shin asked the Board to review the prior Compensation Committee minutes, dated July 31, 2014. The Board reviewed and accepted those minutes.

Acceptance of Prior Board Minutes
Ms. Shin asked the Board to review the May 28, 2014 Board minutes. Upon motion duly made, and seconded, the Board unanimously approved the May 28, 2014 Board minutes.

Operations Review
Redacted, CEO of Prospect Medical Systems provided an operations and financial summary of the Medical Groups through July 31, 2014. With respect to the Prospect Medical Group operations, Redacted went over positive changes in year to date of EBITDA, membership, revenue, cost of revenue, and operating expenses. Redacted noted that despite Medicare Advantage cuts to the business, the Medical Group segment had continued to grow in all lines of business. Some of the successes he highlighted for the recent quarter were the positive improvements in full risk arrangements, and in RAF and HCC scores. Redacted also informed the Board that membership had increased in all areas, including 32,000 new Health Net members as a result of a new joint product with Health Net on the California Health Insurance Exchange. Redacted also stated that revenue had increased in a variety of areas, including capitation, full risk performance, Health Net Health Insurance Exchange and management services. Mr. Baumer asked how much money the Company was making on the management services organization ("MSO") line of business. Redacted responded to that question, and pointed out that the line of business was profitable and also provided a nice balance to the other revenue streams.

With all of the growth in business, Redacted stated that the cost of revenue had also increased by 12%, and that operating expenses had increased by $5 million, all of which were related to increases in staffing to handle the growth. Redacted then went over forward looking financial operations. These included opportunities and key initiatives in areas of membership, revenue, cost of revenue, and operations. Some of those highlighted areas of concentration are the dual eligible program, more products on the Health Insurance Exchange, wellness programs, new MSO client membership, care management programs, and Coordinated-Regional-Care ("CRC") execution in all states.

Dr. Prasad entered the room.

From an administration perspective, Redacted reminded the Board that the Medical Group segment planned to downsize and consolidate its operations in Ontario to Orange, California. Mr. Baumer asked about the status of the information technology system migration from EZ Cap to IDX. Redacted answered that question.

Redacted also noted some of the ongoing risks, including additional Medicare Advantage cuts, and increased competition. Redacted stated that the current climate has forced the smaller player to lose their respective health plan contracts, and risk being picked off by others in the marketplace. Finally, Redacted stated where he expected the Medical Group segment to end at September 30. Mr. Baumer asked for a comparison with last year's actual fiscal year end EBITDA number. Redacted responded to that question. Mr. Baumer asked about the Affordable Care Act tax, and whether those amounts had passed onto the Medical Group segment. Redacted stated that some of the amounts had been absorbed, but that any losses were made up in growth in business, and increase in volume.

Mr. Lee then interjected and stated that he and others would elaborate further in the CRC discussion. That discussion, among other things, would go over our: (1) traditional business (Hospital and Medical Group segments); (2) Company's continued efforts on accountable care collaboration, and (3) efforts in markets out of California – risk model, health plan model, and population management. Dr. Lee then turned the meeting over to Dr. Prasad to provide an update on Chaparral Medical Group ("CMG").

Dr. Prasad proceeded to explain that it is a constant balancing act of interests between the Medical Group, health maintenance organization, and the hospital. He also stated that certain physicians are unhappy, and that this is a concern because of potential network instability. Dr. Prasad also added that CMG's financials had been negative for several years because most of the capital had been spent on establishing a leading specialty network.

Mr. Lee then pointed out that there is a very little supply of primary care physicians. For the benefit of the Board, Mr. Lee reminded them that the recent CharterCARE transaction, including a teaching hospital in Rhode Island. Mr. Lee stated that the Company is considering whether that teaching hospital could serve as potential teaching and breeding ground for residents that could be utilized at the Company's hospitals. A discussion ensued amongst management and the Board.

[redacted] CEO of the license for Alta Los Angeles Hospitals, Inc. then reviewed with the Board the financial performance for the core Alta facilities, month and year to date of June 30, 2014. In his presentation, [redacted] also included a comparison with the prior year period. [redacted] also went through changes in volume, revenue, cost management, and EBITDA. Mr. Baumer asked whether the financial data provided included the disproportionate share ("DSH") cuts. Mr. Aleman answered that question. [redacted] then reviewed with the Board various forward financial operations, including updates in initiatives with additional Medi-Cal managed care contracts, arrangements with the Company's Medical Group, quality programs, APR-DRG reimbursement, adoption of electronic medical records, DSH reductions, transition from ICD 9 to ICD 10, sequestration, and RAC audits.

[redacted] then reviewed with the Board the financial performance for Southern California Hospital at Culver City ("Culver City") for the month and year to date of June 30, 2014. Specifically, he covered changes in volume, revenue, cost management, and EBITDA. Mr. Baumer asked about the status of the quality assurance fee at Culver City. Mr. Aleman stated that the number is slightly negative because of the number of Medi-Cal Days. [redacted] also went over the forward financial operations, and highlighted a number of operational initiatives for 2014. He noted that a few initiatives had been delayed due to licensing and regulatory approvals. Mr. Baumer asked if Culver City had obtained the new beds. [redacted] stated that the hospital had not received its new sub-acute unit beds because the State had still not conducted its survey of the unit. Mr. Baumer then asked if the various program initiatives would commence by next calendar year. [redacted] and Mr. Aleman responded in the affirmative. Mr. Aleman then reminded the Board that the unexpected DSH cuts at Culver City amounted to $8 million. A further discussion then ensued amongst Mr. Aleman and Mr. Baumer.

[redacted] then reviewed with the Board the financial performance of Newport Specialty Hospital ("Newport") and Bellflower Medical Center ("Bellflower") for the month and year to date end June 30, 2014. [redacted] reminded the Board that the acquisitions of Newport and Bellflower occurred on May 6, 2014, and that the only operational unit is the pediatric sub-acute unit at Newport. [redacted] then explained to the Board the list of initiatives over the next six months to open up Bellflower and fully open Newport. He noted, however, that regulatory hurdles could potentially delay both openings by a few months.

Mr. Crockett, Senior Vice President, Corporate Development at Company then provided a review of the financial performance of Nix Hospitals System ("Nix") for the quarter ending June 30, 2014 and the month of July 2014. Mr. Crockett stated that volume continues to be strong on all fronts, reflecting an 18% increase from the same period in the prior year. He noted that the increase was driven by the expansion of behavioral health services. Mr. Crockett also went over changes in revenue, cost management, and expected EBITDA for the fiscal year end, and taking into account any adjustment as a result of the Section 1115 uncompensated care formula. For the month of July 2014, Mr. Crockett stated that the financial performance was particularly strong. Mr. Crockett stated that the performance came in slightly less than what was expected at the beginning of the year due to a delay in the construction on the Babcock facility.

Mr. Crockett then provided an update on forward financial operations, which included an increase in the number of beds, emergency room update, new County contract, and continued operational initiatives with the behavior health program expansion.

Mr. Baumer asked a follow up question related to the financial performance of Nix. Mr. Crockett answered that question. Mr. Lee added that this number also included the burden of corporate expenses of approximately $3 million. He also stated that the performance of Community General Hospital is not currently meeting the expectation of the Company.

Mr. Crockett then gave an update on the CharterCARE transaction, which closed on June 20, 2014. Mr. Crockett stated that given the short stub period, the information being provided was mixed and in some cases difficult to decipher, but that generally volume had increased from the prior year period, but there were some losses due to changes attributed from converting to a non-profit health system to a for-profit health system. Mr. Crockett also noted that there some management changes had occurred, including the departure of the CEO and CFO, but that there are replacements in place. Mr. Solomon asked what is the expected capital expenditure expense at the health system on an annual basis. Mr. Aleman stated that under the terms of the transaction, there is no allocated set amount in a given year.

CRC

Mr. Aleman then stated that given Redacted is in Rhode Island this week; he would provide a CRC update to the Board. Redacted is out of town in RI this week. Mr. Aleman went over changes as a result of the CRC platform. These included improvements in volume, efficiency metrics, and quality metrics. Redacted provided some specific examples that the Company is implementing over at the hospital segment of the Company. Mr. Baumer asked a question as to the benefits of the CRC model. Redacted explained the interplay between better quality scores, and better negotiated rates from health plans. He noted that Anthem Blue Cross only picked high performing medical groups, and that Prospect Medical Group was one of them.

Mr. Aleman then covered a development summary by region – Los Angeles, Texas, Rhode Island, and New Jersey. Mr. Aleman then went over dual eligible enrollment trends in California over the past year. Mr. Baumer asked for further clarification about the program. Redacted provided an explanation.

Redacted, and Mr. Crockett left the room.
A break occurred at 10:29 am.
The meeting resumed at 10:35 am.

Financial Review

Mr. Aleman then went over the financial statements for the third quarter of 2014. He noted that no update had yet been provided with respect to CMS' approval of the Quality Assurance Fee program, but that it still appeared that federal approval would be received by the end of this year. He also noted that Medicare Advantage and DSH cuts amounted to approximately $13 million. Mr. Baumer asked a clarifying question related to the financial performance from last year. Mr. Aleman responded to that question.

Mr. Aleman then went over certain EBITDA expectations between now and year end, based on an assumption of QAF. A discussion ensued amongst the Board and management. Mr. Aleman then went over the Company's current cash projections. He highlighted the balance of cash available to fund remaining transactions.

Redacted entered to the room.

Corporate Development

Redacted, Vice President of Corporate Development at Company, then reviewed with the Board the potential acquisition of six not for profit hospitals, also known as Redacted - Business Sensitive Redacted - Business Sensitive Redacted went through each hospital, explained the notable assets of the system, and also presented significant challenges, including substantial pension liabilities and labor contracts. He also explained to the Board some of the growth opportunities and structure of the transaction. Mr. Baumer inquired about the competitive landscape of those interested in the transaction. A discussion ensued amongst the Board and management.

Mr. Baumer then asked about the timing of the transaction. Redacted stated that several parties were actively engaged in due diligence, but that Redacted - Business Sensitive expected a response within the next two to three weeks. Mr. Baumer pointedly stated that the timeframe was inadequate and unrealistic given the size of the transaction. Mr. Lee stated that the Company would not consider submitting a final proposal until there is clear visibility on the material items. A further discussion ensued amongst the Board and management. .

Redacted then went over the current pipeline of potential acquisition opportunities of hospitals and physician practices, locally and outside of California.

Adjournment

There being no further business to come before the meeting, the Chairman declared the meeting adjourned at 11:05 am.

_____

Sam Lee, Chairman

The Honorable Sheldon Whitehouse, Chairman
The Honorable Charles Grassley, Ranking Member
U.S. Senate Committee on the Budget
624 Dirksen Senate Office Building
Washington, DC 20510

Re: Second Response to December 6, 2023 Letter to Leonard Green & Partners, L.P.

Dear Chairman Whitehouse and Ranking Member Grassley:

We represent Leonard Green & Partners, L.P. ("LGP" or the "Firm") and are writing in response to your letter, dated December 6, 2023 (the "Letter"), requesting the production of certain documents and information in connection with the United States Senate Committee on the Budget's (the "Committee") inquiry into private equity and health care.

We are pleased to provide you with this second response to your Letter. We hope that the Committee finds this response helpful to its review.

* * *

This letter and the accompanying documents contain some of the Firm's confidential, trade secret, and/or proprietary information. We have marked this letter and the accompanying documents "Confidential" and request that they not be disclosed beyond the Committee or made public. We have made limited redactions to certain documents to protect personally identifiable information and the confidential, business-sensitive information of third parties. We ask that you treat this letter and the documents as confidential Committee records in accordance with Standing Rule of the Senate XXIX, clause 5, afford them the maximum protection available to the Committee, and that you inform us of any proposed use by the Committee of the information contained herein or in the documents and provide LGP with an opportunity to be heard prior to any such proposed use.

The information contained in this response is based on the Firm's best efforts undertaken within the timeframe provided and based on its understanding of the terms of the Letter. The representations made in this response are based on information reasonably available to the Firm and may not reflect all existing relevant information. LGP reserves the opportunity to supplement information in this response. In providing information responsive

to the Letter, LGP does not waive any rights or legal options relating to the Committee's inquiry.

LGP does not intend to, and does not, waive any applicable privilege, protection or other legal basis under which information may not be subject to production. If it were found that the information or documents provided constitute disclosure of privileged material, such disclosure would be inadvertent. By the provision of such information, LGP does not waive and has not waived the attorney-client privilege or any other protections.

For your convenience, we have reproduced below the requests to which we are responding in this, the Firm's second response.

Request 2:

From 2015 through the date of its divestment from PMH, provide the exact dollar amount that Leonard Green invested in PMH and in each individual hospital under PMH's umbrella, whether made directly in the hospital or indirectly through PMH. Produce any documents demonstrating this relationship—including, but not limited to, contracts or written agreements, memoranda of understanding, proofs of investment, investment thesis documents describing or setting out evidence-based rationales for Leonard Green's investments in PMH, any memoranda setting out the reason for Leonard Green's acquisition of or investment in PMH, and operational or administrative procedure manuals.

Response:

The Funds contributed $24 million to Ivy Holdings, Inc., a parent company of PMH, during this period. No other contributions or investments were made by the Funds during this time. The contribution was made directly to Ivy Holdings, Inc. and not to any individual hospitals. Please find documents responsive to this Request at Bates Numbers LGP-SBC-00000001 to LGP-SBC-00000031.

Request 4:

From January 1, 2010, through Leonard Green's divestment from PMH, describe—and produce documents sufficient to demonstrate—Leonard Green's and PMH's authorities, both individually and collectively, to:

a. **Manage PMH's or an individual hospital's care delivery;**
b. **Manage PMH's or an individual hospital's billing practices;**
c. **Manage PMH's or an individual hospital's chargemaster;**
d. **Determine PMH's or an individual hospital's annual net income goals;**
e. **Determine PMH's or an individual hospital's charge per patient goals;**
f. **Determine PMH's or an individual hospital's staff-to-patient ratios;**
g. **Determine PMH's or an individual hospital's charge-to-cost ratios;**
h. **Enter into contracts for staffing at PMH's or any individual hospital; and**
i. **Enter into any contracts on behalf of PMH or any individual hospital.**

Response:

As stated in LGP's December 20, 2023 Response, as a non-manager shareholder of PMH, the Funds were not charged with, or authorized to, manage the daily operations of PMH. Documents found at Bates Numbers LGP-SBC-00000032 to LGP-SBC-00000117 further describe LGP's role, which consists mainly of advising and consulting regarding the management of PMH's operations.

Specifically, the Ivy Holdings Management Services Agreement § 4 outlines the "decisions/authority" of LGP in relation to PMH, noting that PMH "reserves the right to make all decisions with regard to any matter upon which [LGP] has rendered its advice and consultation . . . ." LGP-SBC-00000034.

Further, the Stockholders Agreement outlines the Board of Directors' role and authority in business decisions concerning PMH. Section 9.10 provides a list of actions that the Board of Directors must approve, which each require the approval of either Samuel Lee (Chairman and CEO of PMH and Management Director of the Board) or Dr. Jeereddi A. Prasad (Management Director of the Board). Effectively, this gave PMH management veto authority over Board decisions. *See* LGP-SBC-00000085 to LGP-SBC-00000087.

Section 9.10 also makes it clear that PMH was free to undertake, without Board of Director approval, many operational business decisions that were made "in the ordinary course of business consistent with past practice." *Id.*

Request 5:

What provisions related to liability for activities that occurred at PMH-operated facilities did Leonard Green include in any or all of its written agreements with PMH? Provide examples of contracts or similar documents sufficient to demonstrate all types of such provisions.

Response:

Please find at Bates Numbers LGP-SBC-00000032 to LGP-SBC-00000117 documents responsive to this Request.

Request 6:

Explain Leonard Green's role in the decision-making process for hiring executives and medical directors at PMH. If Leonard Green was not involved in executive or medical director hiring, explain both why it was not and identify the individual(s) or entities who were responsible. Produce documents sufficient to demonstrate Leonard Green's role in this decision-making process.

Response:

Neither LGP nor the Funds drove the decision-making process for hiring executives and medical directors at PMH. This role was performed by the management team of PMH. In their roles as board members, LGP directors would approve the appointment of executive officers of PMH as recommended by management. Please find responsive documents at Bates Numbers LGP-SBC-00000039 to LGP-SBC-00000117.

Request 15:

Produce all documents between and among PMH and Leonard Green regarding the 2019 sale-leaseback transaction.

Response:

Please find at Bates Numbers LGP-SBC-00000118 to LGP-SBC-00000148 documents responsive to this Request.

Request 17:

Explain why Leonard Green divested its ownership stake in PMH. Provide documents sufficient to support that explanation, including, but not limited to, financial documentation, presentations to Leonard Green's management team and/or Board of Directors, and the like.

Response:

LGP caused the Funds to enter into an agreement sell their interest in PMH in 2019 because the investment in PMH had already exceeded the Fund's targeted holding period and the Funds were nearing the expiration of their term. The Funds are required to use efforts to sell their final remaining investments once the term has expired. The closing of the sale occurred two years later, after regulatory approval was received.

Request 20:

Produce all documents between and among MPT and Leonard Green regarding the 2019 sale-leaseback transaction.

Response:

Please find at Bates Numbers LGP-SBC-00000118 to LGP-SBC-00000148 documents responsive to this Request.

Please feel free to have your staff contact me with any questions concerning this response.

Sincerely,

Redacted

Board Presentation

Prospect Medical Holdings

Summary of Proposed Transaction with:

Medical Properties Trust

June 28, 2019

PROSPECT MEDICAL HOLDINGS, INC.

Summary of Proposed Transaction

Transaction Overview

- Acquisition from and master lease to Prospect of the Prospect Properties. Properties include all hospitals (except for EOGH and Nix). PMS earnings included in consolidated numbers.
- Purchase Price of $1.55 billion on a debt-free, cash-free basis.
  - Ability to "earn" an additional $250 million based on achieving earnings milestones
  - Full performance and payment guaranty of Leases and loans provided by PMH
- CT notice period of up to 90 days (notice only), certain other consents
- Anticipated closing before October 31, 2019
- Proceeds used to extinguish term loan, FILO, and replenish working capital (see Sources & Uses table)
- ABL remains intact, intercreditor agreement in place

Confidential

Summary of Proposed Transaction

Structure

• **Traditional Sale-Leaseback**	$403
– ECHN, Springfield, Taylor, DCMH, Rockville, and Manchester	
• **Failed Sale-Leaseback**	$956
– CA (except Foothill), CCMC, and Waterbury	
• **Mortgage Financing**	$51
– Foothill	
• **Unsecured Note**	$140
– PMH, 3-years, 7.5% IO	
	$1.55bb

Foothill Situation

- $96 million valuation
- $51 million mortgage
- $45 million to be pledged as collateral to satisfy DMHC requirement

Rhode Island Situation

- No direct loan or SLB in RI
- Three-year window for resolution of minority ownership and litigation
- Move into FSLB after resolution

Confidential

Summary of Proposed Transaction

Failed Sale Leaseback

- Different from True Sale Leaseback in the following ways:
  - Benefits and burdens stay with Prospect (appreciation, depreciation)
  - Prospect has option to purchase at a fixed price at end of lease term
  - No gain on sale since this is treated as a financing transaction
  - Treatment confirmed by PWC

Confidential

Summary of Proposed Transaction

Lease Terms

- Initial amount equal to 7.50% of Purchase Price
  - Initial Rent/Interest payments of approximately $9.7 million/month, compared with current TLB debt service of approximately $8.5 to $9.0 million/month.
  - Rent contour to accommodate timing of QAF receipts. Prospect to retain all QAF receipts.
  - Annual escalators of CPI with an annual floor of 2.0% and a ceiling of 4.0%.
- Absolute net master lease with Prospect responsible for all costs of ownership, including capital expenditures structural, HVAC, foundation and other costs.
- 15-year term, with two five-year renewals, and one 57-month renewal
- At expiration of the Lease Term, Lessee will have the right to purchase the Hospitals at the greater of fair market value or MPT's total capital invested to date.

Covenants
• FCCR 1.20x • Rent Coverage 1.50x • Capex minimum of $1,000/staffed bed/year (Approx $18 mm/year) • Standard monthly, quarterly, and annual reporting

Confidential

Summary of Proposed Transaction

Use of Proceeds

Sale Leaseback / Financing Consideration	
Sources	
Transaction Consideration	$ 1,550,000,000
Total Sources	**$ 1,550,000,000**
Uses	
Repay TLB	$ 1,108,800,000
Gain on Sale Tax [(1)]	125,000,000
Trans. Fees, Deposit & Misc. [(2)]	31,795,047
Repay FILO [(3)]	40,000,000
Pension Contribution	70,000,000
Working Capital / ABL Repayment [(4)]	174,404,953
Total Uses	**$ 1,550,000,000**
Notes (as of 6/26/2019):	
1) Assumes ~$125mm NOL and DMHC TNE	
2) Assumes $10mm trans fees, $15mm deposit and $6.7mm dividend recap obligation	
3) Assumes $40mm FILO balance	
4) Assumes $194mm ABL balance

MPT CONFIDENTIAL

Illustrative Buyout Structure of MPT / Sam Lee Partnership

Commentary

- As shown below, based on high level assumptions around leverage and valuation, ***MPT supporting a Sam Lee in a buyout of Prospect is likely structurally achievable***
  - **Assumes Enterprise Value of $2,880MM**, based on $360MM of EBITDAR and 8.0x valuation multiple
  - Illustrative **Real Estate Valuation of $2,000MM** is derived by applying a 2.0x Rent Coverage Multiple (assuming $300MM of hospital EBITDAR) and a 7.5% Cap Rate
- With an initial real estate valuation of $2,000MM and 5.0x total leverage (excluding the $175MM pension liability), a total equity check of $280MM could be achieved via Sam Lee's rollover equity and a minority investment by MPT
  - At 8.0x EV / EBITDA, Sam Lee's rollover equity is ~$280MM (assuming 40% ownership, which several sources have corroborated)

Prospect Medical Real Estate Valuation Estimate

Commentary

- MPT Acquisitions attained the information used in the valuation herein from conversations with Leonard Green and Redacted
  - Leonard Green quoted **total consolidated EBITDAR of ~$360MM** *(Credit Suisse estimates Hospital Services contribution to be ~85%)*
  - Redacted who was involved in the 2016 sale process (which was pulled due to ongoing Prospect acquisitions) relayed that Redacted were the two final bidders, **each with a valuation in the high 7x's**
- Based on this information, the tables below sensitize enterprise value and real estate valuation based on (1) a midpoint EV / EBITDAR multiple of 8.0x and (2) midpoint real estate valuation at an 7.5% cap rate and 2.00x coverage

Illustrative Real Estate Valuation

($ in Millions)		
Total Prospect EBITDAR [1]	$	360.0
Purchase Multiple [2]		8.0x
Total Enterprise Value	**$**	**2,880.0**
Est. Hospital EBITDAR (~85%)	$	300.0
Coverage Multiple		2.0x
Rent Expense	$	150.0
Cap Rate		7.5%
Real Estate Valuation	**$**	**2,000.0**

[1] Per Leonard Green estimate

Total Enterprise Value

MEDICAL PROPERTIES TRUST

Prospect Medical

Profile

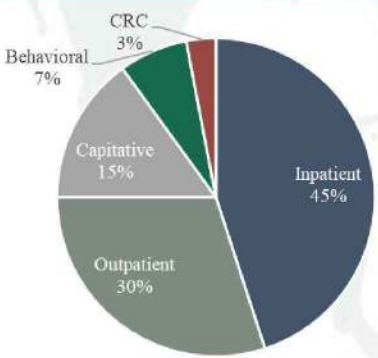
July 2018

Prospect Medical (Owned by Leonard Green & Partners)

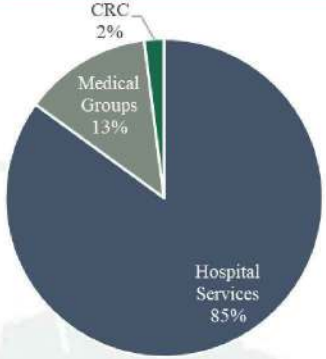
Prospect Highlights

- Prospect, headquartered in Los Angeles, CA, operates 20 hospitals in six states (CA, TX, PA, NJ, CT, and RI)
  - **Acquired by Leonard Green in 2011 for $363MM (6.4x EBITDA); several bankers have communicated their expectation for this to be marketed in Q4 2018**
  - Real estate remains 100% owned
  - IPAs of over 1,000 affiliated physicians
  - 180 outpatient facilities
  - ~750 employed physicians
  - ~450,000 members managed
- **Attractive financial profile:**

~$3BN Revenue



~$360MM EBITDA (1)



- Experienced management team
  - Samuel ("Sam") Lee – CEO & Chairman
  - Steve Aleman - CFO

(1) *Per Leonard Green Partner during June meeting with MPT Acquisitions*

Geographic Overview

- 7 hospitals and 5 clinics
- 15 IPAs
- ~275k members capitated

- 3 hospitals and 12 clinics
- 1 IPA

- 2 hospitals and 35 clinics
- 1 IPA
- ~50k members capitated

- 1 hospital and 5 clinics
- 1 IPA
- ~10k members capitated

- 3 hospitals and 51 clinics
- 2 IPAs
- ~50k members capitated

- 4 hospitals and 72 clinics
- 1 IPA
- ~60k members capitated

MPT CONFIDENTIAL

Prospect Medical Valuation Overview

Commentary

- MPT Acquisitions attained the information used in the valuation herein from conversations with Leonard Green and Redacted
  - Leonard Green quoted **total consolidated EBITDAR of ~$360MM**
  - Redacted who was involved in the 2016 sale process (which was pulled due to ongoing Prospect acquisitions) relayed that Redacted were the two final bidders, **each with a valuation in the high 7x's**
- Based on this information, the tables below sensitize enterprise value and real estate valuation based on (1) a midpoint EV / EBITDAR multiple of 8.0x and (2) midpoint real estate valuation at an 8.0% cap rate and 2.50x coverage

Potential Real Estate Valuation Summary

($ in Millions)		
Total Prospect EBITDAR [1]	$	360.0
Purchase Multiple [2]		8.0x
Total Enterprise Value	**$**	**2,880.0**
Est. Hospital EBITDAR (~85%)	$	300.0
Coverage Multiple		2.5x
Rent Expense	$	120.0
Cap Rate		8.0%
Real Estate Valuation	**$**	**1,500.0**

[1] Per Leonard Green Partner during June meeting with MPT Acquisitions

[2] Redacted conveyed that the 2016 sale process garnered interest in the "high 7x range"

Total Enterprise Value

($ in Millions)

EBITDA Multiple & Valuation						
7.0x	7.5x	**8.0x**	8.5x	9.0x	9.5x	10.0x
$2,520	$2,700	**$2,880**	$3,060	$3,240	$3,420	$3,600

Based on a midpoint enterprise value of $2.9BN, MPT's preliminary real estate valuation of $1.5BN (and up to $2.0BN+) could provide in excess of 50% of the total enterprise valuation, leaving $900MM - $1.4BN to be accounted for by the sponsor, management rollover equity, and 3rd party leverage

Potential Total Real Estate Value

($ in Millions)

		Implied Rent to MPT				
		$150	$133	***$120***	$109	$100

2

- **Plan B:** Lease/sell to Mercy Health
  - **Pro:** Mercy is a major operator in OH and KY markets
  - **Con:** Lengthy decision-making process as Mercy is a large non-profit system

- **Plan C:** Lease/Sell Northside/Trumbull/Hillside package to LifePoint
  - **Pro:** Market size aligns with LifePoint business model
  - **Con:** LifePoint does not currently have a geographic footprint in the area

- **Plan D:** Lease/Sell to University of Pittsburgh Medical Center ("UPMC")
  - **Pro:** Serve as a feeder hospital to large Pittsburgh based system
  - **Con:** Lengthy decision-making process as UPMC is a large non-profit system

- **Plan E:** Lease/Sell to Prime Healthcare
  - **Pro:** Further expand presence within Ohio/Pennsylvania market

- **Con:** Ongoing Prime liquidity/DOJ challenges/ Prime not currently pursuing acquisitions

Hi Steve.
Great to hear from you... Thanks for reaching out!

I will be on the east coast next week -- I will be available in LA next Thu afternoon or Friday. How long are you in LA? (If we miss, it would be great if you could meet with my senior execs, e.g. my CFO...)

Best Regards, Sam

Subject: Catch up with MPT

Sam, we met several years ago. You may be aware that MPT has provided real estate financing to help hospital management teams maximize ownership in their operating companies when their private equity sponsors consider exits/IPOs....we have done this with Ernest, Capella/RCCH, Steward and others.

I would appreciate the opportunity to visit you in your office to describe how we have done this. It is our understanding that Prospect may consider strategic transactions in the near term. A real estate transaction may significantly increase your post-deal control and ownership.

I expect to be in LA next week and will be happy to arrange my schedule to meet at your convenience. Please let me know if we can get together.

Attachments: Executed Prospect LOI 11-27.pdf

[redacted] and Steve, thank you for your patience. Attached is a letter expressing our strong interest in a transaction with Prospect Medical under the general framework of an acquisition from and leaseback to Prospect of certain or all of your real estate interests. We will make ourselves available to you at your convenience to convene by phone or in person to answer your questions and discuss next steps. Please feel free to contact me at any time to schedule such a meeting.

Regards, steve

Dear Redacted and Aleman:

We are pleased to provide this response as a follow up to our recent conversations with regard to a possible sale/leaseback transaction between Medical Properties Trust, Inc. or one or more of its affiliates (collectively, "MPT"), and Prospect Medical Holdings, Inc. ("Prospect"). We are excited about the opportunity and look forward to developing a long-term strategic relationship with Prospect, its senior leadership team, and Leonard Green & Partners, LP ("Leonard Green", together with Prospect, the "Parties").

We understand that as a preliminary step to MPT presenting a detailed proposed term sheet, you have certain questions about our process that we answer below. We suggest that you consider our responses in light of the high level value indication that we orally provided to you earlier this month around a range of $1.5 billion to $2.0 billion on a cash and debt free asset acquisition basis, subject to diligence.

Will MPT Consider a Lease Payment Structure that Contemplates the Sometimes Unpredictable Timing of Prospect's Receipt of "Provider Tax" and Other Supplemental Reimbursement?

Yes. We are very familiar with the arrangements in certain states that in at least one instance in our history has led to our tenant being paid in State IOUs. Moreover, we believe that even if these types of programs are significantly altered from their current structures, State and federal governments and society as a whole will not leave the patients for whom these reimbursements are made with no provision for hospital care.

Medical Properties Trust, Inc.
Redacted
Redacted Redacted Fax Redacted www.medicalpropertiestrust.com

Accordingly, we are willing to structure a master lease to take into account the uncertainty of this reimbursement timing.

What will be MPT's Diligence Process to Assess Supplemental Reimbursement Sustainability?

To the extent that we are not already knowledgeable about the State (and other) programs that reimburse Prospect, we will promptly gain an understanding of how each such program is governed, funded and otherwise managed. Importantly, we will discuss with Prospect management how it makes investment and operating decisions subject to these systems.

How Will Such a Possible Payment Structure Impact MPT's Assessment of Valuation?

Subject of course to our diligence, we believe it unlikely that we will determine that hospitals that heavily rely on these payments will suffer material revenue loss in the foreseeable future. Again, these programs reimburse providers for individuals who might otherwise be turned away from hospital care, and we do not believe our society will allow that to happen – this belief is a bedrock principle of our investing philosophy.

Accordingly, unless our underlying assumptions about these reimbursement programs are proved unreliable, and if we confirm our belief that Prospect has the specialized knowledge and experience to continue to operate profitably in this environment, we believe the potential for variability in the timing of reimbursement will have limited, if any, effect on our assessment of real estate value.

What are the Other Major Components of Our Diligence Process?

As the global leaders in hospital real estate finance, our underwriting team does not need to be educated about the business of operating hospitals. The majority of our diligence will be completed utilizing in-house resources and our outside counsel, Baker Donelson, who has advised us on almost every U.S. hospital acquisition we have completed. Our diligence requirements will generally consist of the following:

- Meeting with Prospect's senior management team in California; our people will be well prepared to discuss Prospect's strategies, operations and future plans and forecasts.
- Site visits to major facilities, including tours and access to local hospital management and physicians.
- In-depth review of individual facility and parent level historical and projected financials (along with review of KPIs, volume trends, etc.).
- Analysis of future capex requirements.
- Individual market reviews, including local competition and bed need analyses.
- Technical real estate due diligence (property condition reports, phase 1 environmental, title and survey).
- Legal review of material contracts.
- Other confirmatory real estate and legal items.

What are MPT's Timing Expectations?

The majority of our team comes from a healthcare operating background, which makes us much more efficient than less-experienced purchasers when it comes to hospital due diligence and underwriting. This translates to a shorter due diligence timeframe, a faster and more certain closing, and fewer distractions for management. We have unmatched expertise regarding the economic, tax, legal, governance and regulatory challenges that may affect the execution of a large hospital real estate transaction. We have closed similarly sized portfolio transactions in the recent past with comprehensive diligence processes in less than 45 days. We foresee no impediment to achieving the same outcome with Prospect.

Based on more than 15 years experience in underwriting and closing more than 300 hospital transactions, we believe that absent unforeseen and unusual circumstances, we would meet the following timetable even allowing for interruption during the year-end holidays.

1. Completion of diligence of Provider Tax and Supplemental Payment programs and affirmative confirmation to Prospect of any impact on MPT's valuation or willingness to complete the transaction....15 days from Prospect's instruction to commence.

2. Site visits, facility and parent financial review and market reviews....45 days from Prospect's instruction to commence and provision of materials; can be performed concurrently with item 1 above.

3. Technical real estate reviews....as soon as possible after ordering from consultants. MPT will accept updated reports if reasonably recent prior reports are available from Prospect. Estimate 30 days from Prospect's instruction to commence and provision of materials; can be performed concurrently with items 1 and 2 above.

4. Legal review and other....30 days from Prospect's instruction to commence and provision of materials; can be performed concurrently with items 1, 2 and 3 above.

5. Completion of fully negotiated definitive documentation (primarily Purchase and Sale Agreement, Master Lease Agreement, and other related transaction documents)....45 days from Prospect's instruction to commence; can be performed concurrently with all other diligence processes.

At present, MPT has more than $2.0 billion in immediately available liquidity, a $750 million "at the market" equity offering in place and a substantial history of being able to access capital markets for multiple $1.0 billion-plus transactions. **There will be no financing condition or contingency related to any offer that MPT makes.**

Additional Considerations

Acquisition Liquidity: We anticipate that Prospect's plan is to continue growing, through both acquisition and development and expansion. MPT will help facilitate that in two ways:

- We underwrite and price based on facility level EBITDAR potential. In other words, what a competent operator should be able to generate at each facility without regard to other corporate activities. Accordingly, we do not constrain the parent operator by liming the amount of parent level debt, nor do we attempt to place other growth restraints on the operator. We want our tenants to grow, and we hope to grow with them.

- We will firmly commit to fund a significant amount of de novo developments and acquisitions that meet broad, general criteria – the same type of criteria that we expect management and ownership will impose on their own investment decisions. Prospect will have 100% certainty of acquisition and development funding at predetermined pricing in order to move quickly when opportunities arise.

Change of Control: We appreciate and understand the characteristics of investor owned businesses; that they cannot be "handcuffed" with restrictive change of control provisions. There would be no limitation on a public equity offering. A sale to another hospital operator would not be of concern to MPT. The sale of assets not within our lease would not be prohibited, assuming the corporate credit profile is not severely impaired. Finally, a sale to another private equity investor (or similar type investor) would not create a problem. MPT would be committed to working with the Parties to address any potential change of control issues.

Corporate Level Leverage: Additionally, we recognize that leverage is often a component and key value driver of sponsor-backed businesses. Accordingly, we understand that lenders will need certainty as to their rights to collateral, including receivables, equipment, intangibles and cure rights. We have never been unable to satisfy even the most demanding of leveraged lenders who provide financing to our sponsor-backed lessees. These include virtually all the major Wall Street banks and private equity firms such as Apollo, Cerberus, OneEquity and others.

MPT is more than a transient capital provider because we consider an initial investment as the beginning of a long-term relationship with our hospital operators. We are a financing source that has significantly more flexibility than most sources of capital. We can tailor a solution to fit the particular needs of a client. Please do not hesitate to contact me with any questions. We would be happy to come to Los Angeles at your convenience to discuss the transaction in more detail. We look forward to working with you and helping Prospect fulfill its growth plans.

Regards,

R. Steven Hamner
Executive Vice President and CFO

From: Steve Hamner [/O=EXCHANGELABS/OU=EXCHANGE ADMINISTRATIVE GROUP (FYDIBOHF23SPDLT)/CN=RECIPIENTS/CN=DD1229FB94254E30B183650A012D361E-STEVE HAMNE]

[redacted]@prospectmedical.com]
CC: Lee, Sam [redacted], Edward K. Aldag, Jr. [redacted]]
Subject: MPT Real Estate Acquisition

George and [redacted], we have analyzed your EBITDAR projections and have estimated your next 12 months EBITDAR to approximate up to $270,000,000 - [redacted] of MPT has discussed this with you. This is compared to the $300,000,000 estimate that our $1.6 billion Letter of Intent was based on. Accordingly, we are prepared to complete the transaction based on the following revised proposal:

1. We will not reduce the total potential proceeds of $1.8 billion we proposed in the LOI;

2. The initial closing proceeds will be $1.5 billion instead of the $1.6 billion that was based on the $300,000,000 of estimated Forward 12 Month EBITDAR; this will also reduce Prospect's initial rent from $120 million to $112.5 million and MPT's coverage level from 2.5 to 2.4 times EBITDAR

3. If Prospect's sustainable EBITDAR for the 12 months following closing equals $300,000,000, MPT will advance an additional purchase price of $100,000,000; if Prospect's sustainable EBITDAR for the 12th through the 24th months after closing equals at least $350,000,000, MPT will advance additional purchase price of up to $300,000,000 (such that aggregate purchase price equals $1.8 billion). During completion of definitive documentation, we will negotiate interim mileposts such that MPT will pay purchase price in excess of $1.6 billion in relation to increases in EBITDAR up to $350,000,000.

If this is acceptable to you, we are prepared to immediately complete all remaining diligence and documentation such that we can close by June 30. It is my understanding that (a) Prospect does not desire an equity investment by MPT, and (b) Prospect is refining its tax modeling to consider how best to allocate the real estate proceeds to mortgages based on recent discussions with MPT.

Please feel free to call me with any questions.

Hi Steve,

Please see enclosed proposed 60% sale-leaseback ($930M) / 40% mortgage ($620M) structure allocation:

Sale-leaseback split:

Legal Entity	Jurisdiction	City	Proceeds
Prospect CCMC	Pennsylvania	Delaware County	$323,296,811
Prospect Crozer, LLC	Pennsylvania	Delaware County	$ 12,398,376
Prospect DCMH	Pennsylvania	Delaware County	$ 90,025,530
Prospect CT Medical Foundation	Connecticut	Manchester	$ 1,957,477
Prospect Haynes Street Property Management	Connecticut	Manchester	$ 1,224,600
Prospect Manchester Hospital	Connecticut	Manchester	$233,022,617
Prospect Rockville Hospital	Connecticut	Vernon	$152,501,825
Prospect Waterbury	Connecticut	Waterbury	$115,572,765
TOTAL			**$930,000,000**

Separately, is there an update on the intercreditor agreement? It seems to be languishing in Baker's court. Thank you.

Best,
[redacted]

Independent Auditor's Report

Board of Directors
Prospect Medical Holdings, Inc.
Los Angeles, California

Opinion

We have audited the consolidated financial statements of Prospect Medical Holdings, Inc. and its subsidiaries (the Company), which comprise the consolidated balance sheets as of September 30, 2021 and 2020, and the related consolidated statements of operations and comprehensive loss, changes in stockholders' deficit, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of September 30, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued or available to be issued.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. Significant Accounting Policies

Description of Business

Prospect Medical Holdings, Inc. ("Prospect" or the "Company" or the "Parent Entity") is a Delaware corporation and a wholly owned indirect subsidiary of Ivy Holdings Inc. ("Ivy Holdings") and its new parent company, Chamber Inc. ("Chamber"). In June 2021, Green Equity Investments V, LP, Green Equity Investments Side V, LP and other shareholders sold their shares of Ivy Holdings. As a result of the sale, the Company became indirectly wholly-owned by two shareholders that were previously the two largest individual shareholders in Ivy Holdings.

Our business consists of four primary reportable segments: Hospital Services, Medical Group, Global Risk Management and Corporate. Our Hospital Services segment is comprised of 16 acute care and behavioral hospitals in Southern California, Rhode Island, Pennsylvania and Connecticut with approximately 3,000 licensed beds, and a network of specialty and primary care clinics. Our Medical Group segment is a healthcare management services organization that provides management services to affiliated physician organizations that operate as independent physician associations ("Medical Groups" or "IPAs"). Our Global Risk Management ("GRM") segment exists in pursuit of Prospect's coordinated regional care ("CRC") operating model and risk management platform. During the first quarter of 2022, following a strategic review of the company's growth strategies and structure, our management approved a plan to sell the hospital operations, Rhode Island, Pennsylvania and Connecticut. See Note 4 – "*Discontinued Operations*" for further information.

Basis of Presentation

Our Consolidated Financial Statements include the accounts of Prospect and its wholly owned and majority-owned subsidiaries. We eliminate intercompany accounts and transactions in consolidation and we include the results of operations of businesses that are newly acquired in purchase transactions from their dates of acquisition. We account for significant investments in other affiliated companies using the equity method. We also utilize the equity method when we have the ability to exercise significant influence over the affiliated company, despite not holding a significant percentage of its ownership interest. The Company has a variable interest in various entities under the Medical Group segment due to the existence of two call options, under which the Company has the ability to require the holders of all of the voting common stock of the underlying subsidiaries to sell their shares at a fixed nominal price to another designated physician chosen by the Company. This call option agreement represents rights provided through a variable interest other than the equity interest itself that limits the returns that could be earned by the equity holders. In addition, the Company has management agreements with the physician organizations under the Medical Group segment which allows the Company to direct the activities of such physician organizations that most significantly impact their economic performance, retain the right to receive expected residual returns and assume the obligation to absorb losses. Accordingly, the Company is considered to be the primary beneficiary and these entities are consolidated within the accompanying consolidated financial statements. Operating results for acquisitions are consolidated with the Company's consolidated financial statements from their acquisition dates. All significant intercompany balances and transactions have been eliminated in consolidation. Unless otherwise indicated, all financial and statistical data included in these notes to our Consolidated Financial Statements relate to our continuing operations.

MPT CONFIDENTIAL MPT_PROSPECT_00006278

The consolidation of these entities does not change any legal ownership, and does not change the assets or the liabilities and equity of the Parent Entity as a stand-alone entity. These entities had total revenues of approximately $423.3 million and $391.7 million and total net income of approximately $33.2 million and $39.8 million for the years ended September 30, 2022 and 2021, respectively. The assets and liabilities of the variable interest entities are as follows (in thousands):

September 30,	**2022**	2021
Assets		
Total current assets	$ **209,298**	$ 155,767
Total non-current assets	**92,154**	110,050
Total assets	$ **301,452**	$ 265,817
Liabilities		
Total current liabilities	$ **76,192**	$ 69,258
Total long-term liabilities	**720**	730
Total liabilities	$ **76,912**	$ 69,988

Noncontrolling Interests in Consolidated Entities

The consolidated financial statements include all assets, liabilities, revenues and expenses of less than 100% owned entities that we control. For certain less than 100% owned entities, non-controlling interest is shown as a component of stockholders' equity on the consolidated balance sheets and the share of income (loss) attributable to non-controlling interest is shown as a component of income (loss) in the consolidated statements of operations.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current period presentation. These reclassifications did not affect net loss, revenues and stockholders' equity. See Note 4 – "*Discontinued Operations*" for further information.

COVID-19 Pandemic

In response to the COVID-19 pandemic, federal, state and local authorities have taken several administrative actions intended to assist healthcare providers in providing care during the outbreak of the novel coronavirus ("COVID-19") public health emergency. Sources of relief include the Coronavirus Aid, Relief and Economic Security Act, the Paycheck Protection Program and Health Care Enhancement Act (the "PPPHCE Act"), the Continuing Appropriations Act, 2021 and Other Extensions Act, and the Consolidated Appropriations Act, 2021 (collectively, (the "COVID Acts"). With the COVID Acts, the federal government authorized funding to be distributed through the Public Health and

Social Services Emergency Fund ("Provider Relief Fund" or "PRF"). U.S. Department of Health and Human Services ("HHS") will recoup PRF grant funds not utilized by the established deadlines. The COVID Acts also revised the Medicare accelerated payment program in an attempt to disburse payments to hospitals and other care providers more quickly and permitted employers to defer payment of the 6.2% employer Social Security tax beginning March 27, 2020 through December 31, 2020.

PRF Fund— As a condition to receiving distributions, providers must agree to certain terms and conditions, including, among other things, that the funds are being used for lost revenues and unreimbursed COVID-related costs as defined by HHS, and that the providers will not seek collection of out-of-pocket payments from a COVID-19 patient that are greater than what the patient would have otherwise been required to pay if the care had been provided by an in-network provider. All recipients of PRF payments are required to comply with the reporting requirements described in the terms and conditions and as determined by the Secretary of the U.S. Department of Health and Human Services ("HHS"). In June 2021, HHS established new deadlines for when recipients of PRF grants must use the funding received, generally 12 to 18 months after receipt of the grant funds. HHS will recoup PRF grant funds not utilized by the established deadlines.

During the years ended September 30, 2022 and 2021, we, including our discontinued operations, received approximately $20.8 million and $11.9 million, respectively, from the PRF. At September 30, 2022 and 2021, we had unrecognized funds balances of $0 and $0, respectively.

Medicare Accelerated Payment Program— In certain circumstances, when a hospital is experiencing financial difficulty due to delays in receiving payment for the Medicare services it provided, it may be eligible for an accelerated or advance payment pursuant to the Medicare accelerated payment program. The COVID Acts revised the Medicare accelerated payment program to disburse payments to healthcare providers more quickly. Recipients may retain the accelerated payments for one year from the date of receipt before recoupment commences, which is effectuated by a 25% offset of claims payments for 11 months, followed by a 50% offset for the succeeding six months. At the end of the 29-month period, interest on the unrecouped balance will be assessed at 4.00% per annum. The initial 11-month recoupment period began in April 2021.

The Company, including discontinued operations, received advance payments from the Medicare accelerated payment program during 2020. As of September 30, 2021, the Company had received Medicare accelerated and advance payments of approximately $276 million, of which approximately $49 million had been recouped through a reduction of those affiliates' Medicare claims payments during year ended September 30, 2021. During the year ended September 30, 2022, approximately $158 million was recouped through a reduction of our Medicare claims payments and no additional advances were received. We have the option to submit a Request for Extended Repayment Schedule ("ERS") Form and ERS can be requested with a minimum of 6 months to the maximum of 60 months.

Liquidity

The Company had a net working capital deficit of approximately $346.4 million as of September 30, 2022 compared to net working capital deficit of approximately $250.1 million as of September 30, 2021, respectively. Additionally, the Company had a net loss of approximately $233.2 million for the year ended September 30, 2022 compared to net loss of approximately $143.3 million for the year ended September 30, 2021. As of September 30, 2022, the Company has a stockholders' deficit of approximately $1,458.1 million compared to stockholders' deficit of approximately $1,274.4 million as of September 30, 2021. Cash and cash equivalents used in operations declined from cash used in operating activities of approximately $172.2 million during the year ended September 30, 2021 to

MPT CONFIDENTIAL MPT_PROSPECT_00006280

cash used in operating activities of approximately $145.9 million during the year ended September 30, 2022. Total change in cash, cash equivalents and restricted cash decreased year on year from a decrease of approximately $282.7 million for the year ended September 30, 2021 to a decline of approximately $14.2 million for the year ended September 30, 2022.

Total debt (including MPT liabilities) increased to approximately $1,763.5 million at September 30, 2022 compared to approximately $1,509.9 million at September 30, 2021, and the balance outstanding on the Company's revolving line of credit increased from $45.0 million at September 30, 2021 to $196.3 million at September 30, 2022. Cash and cash equivalents declined from approximately $59.0 million at September 30, 2021 to approximately $56.1 million at September 30, 2022. See Note 8 – "*Debt*" for further information.

The Company has undertaken a number of actions, including approximately $1.2 billion restructuring of debt and new term loans with Medical Properties Trust, Inc. ("MPT"), Centerbridge Credit CS, L.P. and Blue Torch Capital LP (see Note 13 - "*Subsequent Events*"), and the planned divestiture of the hospital operations at Rhode Island, Pennsylvania, and Connecticut. The Company has executed APAs for both Connecticut and Rhode Island and continues to solicit sale proposals for Pennsylvania (see Note 4 - *"Discontinued Operations"*). The Company also has various initiatives in place to generate positive cash flows from operations. From a revenue generating perspective, these include a focus on improving charge capture, improving the success rate on denials, and increasing reimbursements through rate negotiations with managed care payors, as well as improving volumes. From a cost cutting perspective, the initiatives include improvements to labor productivity and the reduction in overtime and use of registry, driven by the use of an internal registry, as well as better controls on supply and pharmacy contracts. Further, there are initiatives to focus on improving both productivity and volumes from the Company's physician groups. The Company believes that it will have sufficient cash flows from operations and available borrowing facilities to provide sufficient capital resources to sustain operations, investing activities and financing for at least the next twelve months from the date these consolidated financial statements were available to be issued.

Revenues

On October 1, 2020, the Company adopted the new revenue recognition standard, Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers (Topic 606)", using a modified retrospective method of application to all contracts existing on October 1, 2020. The core principle of the guidance in ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. For the Hospital Segment, the adoption of ASU 2014-09 resulted in changes to the presentation and disclosure of revenue primarily related to uninsured or underinsured patients. Prior to the adoption of ASU 2014-09, a significant portion of the provision for doubtful accounts related to self-pay patients, as well as co-pays, co-insurance amounts and deductibles owed by patients with insurance. Under ASU 2014-09, the estimated uncollectable amounts due from these patients are generally considered implicit price concessions that are a direct reduction to net operating revenues, with a corresponding reduction in the amounts presented as provision for doubtful accounts.

The Company recognizes net operating revenues in the period in which performance obligations under contracts by transferring our services to customers are satisfied. Net operating revenues are recognized in the amounts to which the Company expects to be entitled, which are the transaction prices allocated to the distinct services.

MPT CONFIDENTIAL MPT_PROSPECT_00006281

Revenues by reportable segment are comprised of the following amounts (in thousands):

For the Years Ended September 30,	**2022**	2021
Net Hospital Services		
Inpatient	**$ 544,580**	$ 545,307
Outpatient	**42,397**	40,321
Capitation	**229,278**	154,511
Other	**3,699**	(3,922)
Total Hospital Services revenues	**819,954**	736,217
Medical Group		
Capitation	**454,221**	397,670
Management fees	**13,438**	16,393
Other	**60,728**	57,233
Total Medical Group revenues	**528,387**	471,296
Global Risk Management		
Capitation	**167,418**	73,151
Other	**24,507**	27,003
Total Global Risk Management revenues	**191,925**	100,154
Corporate revenues	**4,655**	3,171
Total net revenues	**$ 1,544,921**	$ 1,310,838

Hospital Services operating revenues— We report Fee-For-Service ("FFS") net patient service revenues at the amounts that reflect the consideration we expect to be entitled to in exchange for providing patient care. These amounts are due from patients, third-party payers (including managed care payers and government programs) and others, and they include variable consideration for retroactive revenue adjustments due to settlement of audits, reviews and investigations. Generally, the Company bills patients and third-party payers several days after the services are performed or shortly after discharge. Revenues are recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided and revenues are recognized when performance obligations satisfied over time based on actual charges incurred in relation to total expected charges. This method provides a faithful depiction of the transfer of services over the term of performance obligations based on the inputs needed to satisfy the obligations. Generally, performance obligations satisfied over time relate to patients in the Company's hospitals receiving inpatient acute care services. The Company measures the performance obligation from admission into the hospital, or the commencement of an outpatient service, to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge or completion of the outpatient services. Patient encounters and related episodes of care and procedures qualify as distinct goods and services, provided simultaneously together with other readily available resources, in a single instance of service, and thereby constitute a single performance obligation for each patient encounter and, in most instances, occur at readily determinable transaction prices. All services provided are expected to result in cash flows and are therefore reflected as net revenue in the consolidated financial statements.

MPT CONFIDENTIAL MPT_PROSPECT_00006282

The transaction price is determined based on gross charges for services provided, reduced by contractual adjustments provided to third-party payers, discounts provided to uninsured patients, and implicit price concessions provided primarily to uninsured patients. The estimates of contractual adjustments and discounts are based on contractual agreements, discount policies and historical cash collection experience. As a practical expedient, the Company adopted a portfolio approach for the FFS revenue stream to group together contracts with similar characteristics and analyze historical cash collections trends. The contracts within the portfolio share the characteristics conducive to ensuring that the results do not materially differ under the new standard if it were to be applied to individual patient contracts related to each patient encounter.

Gross charges are retail charges. They are not the same as actual pricing, and they generally do not reflect what a hospital is ultimately paid and, therefore, are not displayed in our consolidated statements of operations. Hospitals are typically paid amounts that are negotiated with insurance companies or are set by the government. Gross charges are used to calculate Medicare outlier payments and to determine certain elements of payment under managed care contracts (such as stop-loss payments). Because Medicare requires that a hospital's gross charges be the same for all patients (regardless of payer category), gross charges are what hospitals charge all patients prior to the application of discounts and allowances.

The Company is responsible for confirming member eligibility, performing program utilization review, potentially directing payment to the provider and accepting the financial risk of loss associated with services rendered, as specified within the Company's patient contracts. The Company has the ability to adjust contractual fees with patients and possess the financial risk of loss in certain contractual obligations. These factors indicate the Company is the principal and, as such, the Company records gross fees contracted with patient in revenues.

Revenues under the traditional FFS service Medicare and Medicaid programs are based primarily on prospective payment systems. Retrospectively determined cost-based revenues under these programs, which were more prevalent in earlier periods, and certain other payments, such as disproportionate share hospital and bad debt expense reimbursement, which are based on our hospitals' cost reports, are estimated using historical trends and current factors. Cost report settlements under these programs are subject to audit by Medicare and Medicaid auditors and administrative and judicial review, and it can take several years until final settlement of such matters is determined and completely resolved. The Company records accruals to reflect the expected final settlements on cost reports. For filed cost reports, the accrual is recorded based on those cost reports and subsequent activity. The accrual for periods for which a cost report is yet to be filed is recorded based on estimates of what the Company expects to report on the filed cost reports. After the cost report is filed, the accrual may need to be adjusted and these accrual are adjusted in future periods as they become known.

Hospital Services operating revenues primarily consist of net patient service revenues, principally for patients covered by Medicare, Medicaid, managed care and other health plans, as well as certain uninsured patients and other uninsured discount and charity programs. Additionally, Hospital Services operating revenues include revenues from capitation arrangements that are made directly made with various managed care providers.

MPT CONFIDENTIAL MPT_PROSPECT_00006283

The following is a summary of sources of patient service revenues in the Hospital Segment (in thousands):

Years Ended September 30,	2022	2021
Medicare	$ 156,873	$ 164,240
Medi-Cal	380,548	377,937
Managed Care/Commercial	38,288	35,090
Self-Pay/Other	11,268	8,361
Capitation	229,278	154,511
Other	3,699	(3,922)
Total patient service revenue	$ 819,954	$ 736,217

Patients who are covered by third-party payers are responsible for related co-pays, co-insurance and deductibles, which vary in amount. The Company estimates the transaction price for patients with co-pays, co-insurance and deductibles and for those who are uninsured based on historical collection experience and current market conditions. The discount offered to certain uninsured patients is recognized as a contractual allowance, which reduces net operating revenues at the time the self-pay accounts are recorded. The uninsured patient accounts, net of contractual allowances recorded, are further reduced to their net realizable value at the time they are recorded through implicit price concessions based on historical collection trends for self-pay accounts and other factors that affect the estimation process. Although outcomes vary, the Company's policy is to attempt to collect amounts due from patients, including co-pays, co-insurance and deductibles due from patients with insurance, at the time of service while complying with all federal and state statutes and regulations. All of the Company's hospital facilities are subject to Emergency Medical Treatment and Active Labor Act ("EMTALA"). This federal law and accompanying regulations require any hospital that participates in the Medicare program to conduct an appropriate medical screening examination of every person who comes to the hospital's emergency department for treatment and, if the patient is suffering from an emergency medical condition, to either stabilize that condition or make an appropriate transfer of the patient to a facility that can treat the condition. The obligation to screen and stabilize emergency medical conditions exists regardless of a patient's ability to pay for treatment. There are severe penalties under EMTALA for violations of the law and regulations, including if a hospital fails to screen or appropriately stabilize or transfer a patient or if the hospital delays appropriate treatment in order to first inquire about the patient's ability to pay. Penalties for violations of EMTALA include civil monetary penalties and exclusion from participation in the Medicare program.

The Company provides charity care to patients who lack financial resources and are deemed to be medically indigent based on criteria established under the Company's charity care policy. This care is provided without charge or at amounts less than the Company's established rates. Because the Company does not pursue collection of amounts determined to qualify as charity care, such amounts are not reported as net operating revenues. Direct and indirect costs for providing charity care are estimated by calculating a ratio of cost to gross charges and then multiplying that ratio by the gross uncompensated charges associated with providing care to charity patients.

The various states in which the Company operates have additional programs in which certain of the Company's facilities participate in, related to medical facilities serving a disproportionate number of low-income patients. The Company recognizes revenues related to supplemental Medicaid payments under using the most likely outcome method, and the estimates also consider whether it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur.

The Company recognizes revenues related to supplemental Medi-Cal payments under California provider fee programs using the most likely outcome method, which is based on formulas contained in the legislation as well as modeling performed by the California Hospital Association ("CHA"). The estimates also consider whether it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. These programs are funded by quality assurance fees paid by participating hospitals and matching federal funds.

The Company recognized supplemental payments, included in net patient service revenue, and quality assurance fee expense, included in general and administrative in the accompanying consolidated statements of operations as follows (in thousands):

Years Ended September 30,	**2022**	2021
Hospital services revenues	**$ 146,828**	$ 137,926
General and administrative	**77,028**	73,720
Net pre-tax impact	**$ 69,800**	$ 64,206

Medical Group revenues— the revenues consist primarily of payments for medical services procured by certain entities included within the Medical Group segment ("Affiliates") under capitated contracts with various managed care providers including HMOs. Capitation revenue under HMO contracts is prepaid monthly to the Affiliates based on the number of enrollees electing any one of the Affiliates as their health care provider.

Global Risk Management revenues— the revenues consist primarily of payments for medical services procured under global capitation arrangements from third-party health plans. Capitation revenue under these global capitation contracts is prepaid monthly to the Global Risk Management segment based on the number of enrollees.

Capitation Revenues

Capitation revenue (net of capitation withheld to fund risk share deficits) is recognized in the month in which the providers are obligated to provide services (stand ready obligation). Minor ongoing adjustments to prior months' capitation, primarily arising from contracted HMOs' finalizing of monthly patient eligibility data for additions or subtractions of enrollees, are recognized in the month they are communicated to the Company. Additionally, Medicare pays capitation using a "Risk Adjustment model," which compensates managed care organizations and providers based on the health status (acuity) of each enrollee. Under Risk Adjustment, capitation is determined based on health severity, measured using patient encounter data. Capitation is paid on an interim basis based on data submitted for the enrollee for the preceding year and is adjusted in subsequent periods the final data is compiled. Positive or negative capitation adjustments are made for Medicare enrollees with conditions requiring more or less healthcare services than assumed in the interim payments. Since the Company cannot reliably predict these adjustments, periodic changes in capitation amounts earned as a result of Risk Adjustment are recognized generally in the fourth quarter when those changes are communicated by the health plans to the Company.

Per Member Per Month ("PMPM") managed care contracts generally have a term of one year or longer. All managed care contracts have a single performance obligation that constitutes a series for the provision of managed healthcare services for a population of enrolled members for the duration of the contract. The transaction price for PMPM contracts is variable as it primarily includes PMPM fees associated with unspecified membership that fluctuates throughout the contract. In certain

contracts, PMPM fees also include adjustments for items such as performance incentives, performance guarantees and risk sharing. The Company generally estimates the transaction price using the most likely amount methodology and amounts are only included in the net transaction price to the extent that it is probable that a significant reversal of cumulative revenue will not occur once any uncertainty is resolved. The majority of the Company's net PMPM transaction price relates specifically to the Company's efforts to transfer the service for a distinct increment of the series (e.g. month) and is recognized as revenue in the month in which members are entitled to service.

Risk Pool Settlements and Incentives

HMO contracts also include provisions to share in the risk for hospitalization, whereby the physician organization can earn additional incentive revenue or incur penalties based upon the utilization of hospital services. Typically, any shared risk deficits are not payable until and unless the Company generates future risk sharing surpluses, or if the HMO withholds a portion of the capitation revenue to fund any risk share deficits. At the termination of the HMO contract, any accumulated risk share deficit is typically extinguished. Due to the lack of access to information necessary to estimate the related costs, shared-risk amounts receivable from the HMOs are only recognized, using the most likely methodology, and only included in revenue to the extent that it is probable that a significant reversal of cumulative revenue will not occur. Risk pools for the prior contract years are generally final settled in the third or fourth quarter of the following fiscal year.

The Company also receives incentives under "pay-for-performance" programs for quality medical care, based on various criteria. The incentive programs track specific performance measures and calculate payments to the Company based on the performance measures. The Company's incentives under "pay-for-performance" programs are recognized using the most likely methodology. However, as the Company does not have sufficient insight from the health plans on the amount and timing of the shared risk pool and incentive payments these amounts are considered to be fully constrained and only recorded when such payments are known and/or received. Management fee revenue is earned in the month the services are rendered.

Management fee arrangements with unaffiliated entities provide for compensation ranging from 6.5% to 10% of revenues. Consideration from management contracts is variable in nature because the majority of the fees are generally based on revenue or collections, which can vary from period to period. The Company has control over pricing. Contractual fees are invoiced to the Company's clients generally monthly and payment terms are typically due within 30 days. The variable consideration in the Company's management contracts meets the criteria to be allocated to the distinct period of time to which it relates because (i) it is due to the activities performed to satisfy the performance obligation during that period and (ii) it represents the consideration to which the Company expects to be entitled.

Contract Assets and Contract Liabilities

The receivables and payables related to the California Hospital Fee Program are the most significant contract assets and liabilities in the Company's consolidated financial statements. As of September 30, 2022 and 2021, the Company had receivables related to the California Hospital Fee Program of approximately $180.2 million and $178.0 million, respectively, and had liabilities related to the California Hospital Fee Program of approximately $96.8 million and $71.2 million, respectively, in the accompanying consolidated balance sheets.

MPT CONFIDENTIAL MPT_PROSPECT_00006286

Patient Accounts Receivable, Net

Patient accounts receivable, include billed accounts and unbilled accounts for which there is the unconditional right to payment, and estimated amounts due from third-party payers for retroactive adjustments, are receivables if the right to consideration is unconditional and only the passage of time is required before payment of that consideration is due.

Receivables from government agencies are significant to our operations, but are not a significant credit risk. We do not believe there are any other significant concentrations of revenues from any particular payer that would subject us to any significant credit risks in the collection of our accounts receivable.

Changes in general economic conditions, patient accounting service center operations, payer mix, or federal or state governmental health care coverage could affect our collection of accounts receivable, cash flows and results of operations.

Estimated uncollectable amounts are generally considered implicit price concessions that are a direct reduction to patient accounts receivable. Such implicit price concessions may be caused by denials for payments for services due to issues over patient eligibility for medical coverage, the Company's ability to demonstrate medical necessity for services rendered and payer authorization of hospitalization.

Property, Improvements and Equipment

Property, improvements and equipment are stated on the basis of cost or, in the case of acquisitions, at their acquisition date fair values. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, and amortization of leasehold improvements is provided using the straight-line basis over the shorter of the remaining lease period or the estimated useful lives of the leasehold improvements. Leasehold improvements are generally depreciated over 5 to 40 years, buildings and improvements are depreciated over 5 to 40 years, equipment is depreciated over 2 to 15 years and furniture and fixtures are depreciated over 2 to 20 years. Equipment capitalized under capital lease obligations are amortized over the lesser of the life of the lease or the useful life of the asset.

Impairment of Long lived Assets

We review our long-lived assets, including intangible assets, for impairment whenever events or circumstances indicate that the carrying value of these assets may not be recoverable. The assessment of possible impairment is based on our ability to recover the carrying value of our asset based on our estimate of its undiscounted future cash flows. If the analysis indicates that the carrying value is not recoverable from future cash flows, the asset is written down to its estimated fair value and an impairment loss is recognized. Fair values are determined based on estimated future cash flows using appropriate discount rates.

Long-lived assets to be disposed of are reported at the lower of their carrying amounts or fair value less costs to sell or close. The estimates of fair value are usually based upon recent sales of similar assets and market responses based upon discussions with and offers received from potential buyers. There were no impairments recorded during the years ended September 30, 2022 and 2021.

MPT CONFIDENTIAL MPT_PROSPECT_00006287

Goodwill

Goodwill is measured as the excess of consideration transferred and the net of the acquisition date fair value of assets acquired, and liabilities assumed in a business acquisition.

We follow the private company alternative, under which private companies can elect to amortize goodwill on a straight-line basis over 10 years, or less than 10 years if the entity demonstrates that another useful life is more appropriate. It also permits a private company to apply a simplified impairment model to goodwill, allowing impairment analysis to be evaluated at the entity level. Accordingly, the Company amortizes goodwill on a straight-line basis over 10 years. The Company evaluates goodwill for impairment at the entity level when a triggering event occurs that indicates that the fair value of the entity may be below its carrying amount. When a triggering event occurs, the Company first assesses qualitative factors to determine whether the quantitative impairment test is necessary. If that qualitative assessment indicates that it is more likely than not that goodwill is impaired, the Company performs the quantitative test to compare the entity's fair value with its carrying amount, including goodwill. The goodwill impairment loss, if any, represents the excess of the carrying amount of the entity over its fair value. The Company has negative carrying value as of September 30, 2022 and 2021, respectively. Since the Company adopted ASU 2017-04, Goodwill generally will not be impaired as the fair value of an entity is rarely negative. Accordingly, there was no goodwill impairment recorded during the years ended September 30, 2022 and 2021.

Intangible Assets

Intangible assets include customer relationships, trade names, and favorable leaseholds. The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. The Company considers assets to be impaired and writes them down to fair value if estimated undiscounted cash flows associated with those assets are less than their carrying amounts. Fair value is based upon the present value of the associated cash flows. Changes in circumstances (for example, changes in laws or regulations, technological advances or changes in strategies) may also reduce the useful lives from initial estimates. Changes in planned use of intangibles may result from changes in customer base, contractual agreements, or regulatory requirements. In such circumstances, management will revise the useful life of the long-lived asset and amortize the remaining net book value over the adjusted remaining useful life. There were no impairments recorded during the years ended September 30, 2022 and 2021.

Insurance Reserves

The Company has two captive insurance companies, Prospect Medical Holding Risk Retention Group, Inc. ("RRG"), based in Vermont, and Connecticut Healthcare Insurance Company ("CHIC"), based in the Cayman Islands. RRG was formed to provide primary insurance coverage for hospital and physician professional and general liability risks for the Company's subsidiary health care organizations located in Pennsylvania. CHIC provides hospital and physician professional and general liability coverage to all of the Company's hospitals and affiliated subsidiaries outside of Pennsylvania.

MPT CONFIDENTIAL MPT_PROSPECT_00006288

Medical Malpractice Reserves

The individual physicians who contract with the physician organizations carry their own medical malpractice insurance, some of which may be purchased from RRG or CHIC. In the Hospital Services segment, the Company's hospitals carry professional and general liability insurance to cover medical malpractice claims under claims-made policies. Under the policies, insurance premiums cover only those claims actually reported during the policy term. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims related to occurrences during the policy term but reported subsequent to the policy's termination may be uninsured. The Company's hospitals have a consolidated policy for professional and general liability insurance with a retention that applies per claim.

Prospect RRG & Prospect Crozer, LLC ("Crozer")

During the years ended September 30, 2022 and 2021 at Crozer, RRG provided primary malpractice insurance ($500,000 per occurrence and $1,500,000 in the aggregate for physicians, and $500,000 per occurrence and $2,500,000 in the aggregate for the hospitals) and general liability ($1,000,000 per occurrence and $2,000,000 in the aggregate). The Pennsylvania MCARE fund provides the $500,000 in excess of $500,000 RRG malpractice coverage for physicians, hospitals, and certain professional corporations. For the year ended September 30, 2021, excess coverage was provided by CHIC for limits up to $80,000,000 over entity retentions, which was 100% reinsured by third party carriers. Additionally, RRG provides $1,000,000 per occurrence and $3,000,000 in the aggregate) coverage for non-healthcare provider professional liability. For the year ending September 30, 2022 and 2021, excess coverage was provided by CHIC for limits up to $80M over entity retentions which was 100% reinsured by third party carriers. Additionally, RRG provides $1,000,000 per occurrence and $3,000,000 in the aggregate) coverage for non-healthcare provider professional liability.

CHIC

For the year ended September 30, 2022 and 2021, the malpractice and general liability risk was retained by the Company's hospitals and affiliated subsidiaries subject to a $7,500,000 retention, except for Crozer subject to $12,500,000 retention. For the years ended September 30, 2022 and 2021, CHIC also provided an excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general liability, automobile liability, employers' liability, helipad liability and non-owned aircraft liability. The limit provided was $80,000,000 during the years ended September 30, 2022 and 2021, for each loss event and in the annual aggregate excess of the primary coverage layers described above. This coverage was fully reinsured by third party carriers.

GAAP requires that a health care organization record and disclose the estimated costs of medical malpractice claims in the period of the incident of malpractice, if it is reasonably possible that liabilities may be incurred and losses can be reasonably estimated. The Company has recognized an estimated liability for incurred but not reported claims and the self-insured risks (including deductibles and potential claims in excess of policy limits) based upon an actuarial valuation of the Company's historical claims experience of its hospitals. At September 30, 2022 and 2021, the total gross claims liability, including our discontinued operations, was approximately $126.9 million and $121.7 million and reinsurance recoverable on unpaid losses were approximately $14.6 million and $16.1 million, respectively, included in other assets on the accompanying consolidated balance sheets, and were estimated using a discount factor ranging from 3.50% to 4.00%.

Workers' Compensation Insurance

For the year ended September 30, 2022, the workers' compensation program provides the statutory benefits required by law through a qualified and approved self-insurance program for the Company's entities located in California and Connecticut. A large deductible program is purchased for entities in Pennsylvania and for remote employees in other states. In both programs, the entities retain the first $500,000 of each claim. For any claim amount in excess of $500,000, workers compensation coverage is purchased from a commercial insurer. The entities in Rhode Island were fully insured for workers' compensation claims with no deductible in a guaranteed cost program.

At September 30, 2022 and 2021, included in accrued salaries, wages and benefits are accruals for uninsured claims and claims incurred but not reported of approximately $30.4 million and $29.1 million, including our discontinued operations, and reinsurance recoverable on unpaid losses of $4.9 million and $5.0 million, respectively, included in other assets on the accompanying consolidated balance sheets. The amounts are estimated based upon an actuarial valuation of claims experience, using a discount factor of 4%.

Reserve Methodology

The claims reserve is based on the best data available to the Company. The estimate, however, is subject to a significant degree of inherent variability. The estimate is continually monitored and reviewed, and as the reserve is adjusted, the difference is reflected in current operations. While the ultimate amount of the medical malpractice and workers' compensation claims liability is dependent on future developments, management is of the opinion that the associated liabilities recognized in the accompanying consolidated financial statements are adequate to cover such claims. Management is not aware of any potential claims whose settlement, if any, would have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Cash and Cash Equivalents

The Company considers highly liquid investments with insignificant interest rate risk and original maturities to the Company of three months or less to be cash equivalents.

Cash and cash equivalents are maintained at financial institutions and, at times, balances may exceed federally insured limits of $250,000 per depositor of each financial institution. The Company has not experienced any losses to date related to these balances.

Restricted Cash

Some of the Company's cash is restricted for various purposes including research, regulatory requirements and letters of credit. The Company is also required to keep restricted deposits by certain HMOs for the payment of claims. Such restricted deposits are classified as a current asset in the accompanying consolidated balance sheets, as they are restricted for payment of current liabilities. Restricted cash also include certificates of deposit with maturity dates of more than 90 days when purchased.

MPT CONFIDENTIAL MPT_PROSPECT_00006290

Restricted Investments

Investments in marketable securities, primarily mutual funds, are classified as available for sale and are stated at fair value. Unrealized gains and losses are recorded in the statements of other comprehensive income. Investment securities are exposed to various risk, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in values of investment securities could occur in the near term and such changes could materially affect investment. These investments are held in the Company's captive insurance companies and are shown as restricted because the state/local regulators require their approval before dividends or return of capital to the Parent Entity.

Inventories

Inventories of supplies are valued at the lower of amounts that approximate the weighted average cost or net realizable value. Inventories consist primarily of medical and surgical supplies and pharmaceuticals.

Internal Use Software & Hosted Software

Capitalized costs for hosting arrangements are accounted for as service contracts that was in the development stage and amortization is scheduled to commence once the project is complete and ready for its intended use. Included within other receivables, prepaid expenses and other current assets are hosting arrangements related to the Oracle suite of products and Cerner, which are accounted for as service contracts. The gross carrying amount of capitalized service costs was approximately $95,853,000 and $32,416,000 at September 30, 2022 and 2021, respectively. The estimated amortization period is 10 years. Amortization expense was approximately $11,323,000 and $6,747,000 during the years ended September 30, 2022 and 2021, respectively.

Deferred Financing charges

Deferred financing costs are amortized over the period in which the related debt is outstanding using the effective interest method and are classified as a deduction from the carrying amount of the related debt. As it relates to MPT liabilities, deferred financing costs are classified in other assets in the accompanying consolidated balance sheets.

Income Taxes

Deferred income tax assets and liabilities are recognized for differences between financial and income tax reporting bases of assets and liabilities based on enacted tax rates and laws. To the extent a deferred tax asset cannot be recognized under the preceding criteria, allowances must be established. The impact on deferred taxes of changes in tax rates and laws, if any, are applied to the years during which temporary differences are expected to be settled and reflected in the financial statements in the period of enactment.

We consider many factors when evaluating our uncertain tax positions, and such judgments are subject to periodic review. Tax benefits associated with uncertain tax positions are recognized in the period in which one of the following conditions is satisfied: (1) the more likely than not recognition threshold is satisfied; (2) the position is ultimately settled through negotiation or litigation; or (3) the statute of limitations for the taxing authority to examine and challenge the position has expired. Tax benefits associated with an uncertain tax position are derecognized in the period in which the more likely than not recognition threshold is no longer satisfied.

Sale-Leaseback Transactions

The Company evaluates sale-leaseback transactions by determining whether the transaction meets the qualifying criteria to be recognized as a sale-leaseback, including the transfer of risk and rewards of ownership as well as the absence of continuing involvement of the Company. When the qualifying criteria for a sale-leaseback transaction are not met, the Company accounts for the transaction as a financing (see Notes 8 and 9).

Comprehensive Income (Loss)

Comprehensive income consists of net income and other gains and losses affecting stockholders' deficit that, under generally accepted accounting principles, are excluded from net income (loss) attributable to the Company. For the Company, such items consist primarily of unrealized gains or losses on restricted investments as well as changes related to pension and other postretirement liabilities that are not recognized immediately in net periodic benefit costs.

Fair Value Measurement

The Company measures at fair value certain of its financial and non-financial assets and liabilities by using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, essentially an exit price, based on the highest and best use of the asset or liability. The levels of the fair value hierarchy are:

Level 1 — Quoted market prices in active markets for identical assets or liabilities;

Level 2 — Significant other observable inputs (e.g., quoted prices for similar items in active markets, quoted prices for identical or similar items in markets that are not active, inputs other than quoted prices that are observable, such as interest rate and yield curves, and market-corroborated inputs); and

Level 3 — Unobservable inputs in which there is little or no market data, which require the reporting unit to develop its own assumptions.

The following table sets forth the Company's financial assets and liabilities measured at fair value on a recurring basis and where they are classified within the hierarchy (in thousands):

September 30, 2022	Total	Level 1	Level 2	Level 3
Mutual funds	**$ 33,298**	**$ 33,298**	**$ -**	**$ -**
September 30, 2021				
Mutual funds	$ 34,283	$ 34,283	$ -	$ -

The Company's investments are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices. The Company's defined benefit pension plan assets are also measured at fair value (see Note 11).

Concentration of Risks

For the years ended September 30, 2022 and 2021, the Hospital Services segment received a total of 65% and 73% of its net patient revenues from Medicare and Medicaid programs, respectively, and the Medical Group segment received a total of 48% and 59% for the years ended September 30, 2022 and 2021, respectively, of their capitation revenues from its five largest HMOs, as follows (in thousands):

Years Ended September 30,		2022	% of Total Revenue		2021	% of Total Revenue
Hospital Services:						
Government Payers:						
Medicare	$	**156,873**	**19%**	$	164,240	22%
Medicaid		**380,548**	**46%**		377,937	51%
Total	$	**537,421**	**65%**	$	547,177	73%
Medical Group:						
HMO A	$	**58,464**	**11%**	HMO A	53,780	14%
HMO G		**56,734**	**11%**	HMO C	51,208	13%
HMO E		**53,026**	**10%**	HMO E	48,304	12%
HMO C		**48,613**	**9%**	HMO D	41,996	11%
HMO B		**38,547**	**7%**	HMO H	35,090	9%
Total	$	**255,384**	**48%**	$	230,378	59%

Recently Issued Accounting Standards

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)" with effective dates deferred for all entities by ASU 2019-10, and further deferred for nonpublic entities by ASU 2020-05. The core principle of ASU 2016-02 is that a lessee should recognize the assets and liabilities that arise from leases, including operating leases. Under the new requirements, a lessee will recognize in the statement of financial position a liability to make lease payments (the lease liability) and the right-of-use asset representing the right to the underlying asset for the lease term. For leases with a term of 12 months or less, the lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from previous GAAP. Nonpublic entities will apply the new standard for annual periods beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. The Company is currently evaluating the standard and the impact on its consolidated financial statements and footnote disclosures.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". The amendments in this standard require the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. In addition, this standard amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. The amendment is effective for nonpublic entities for annual reporting periods beginning after December 15, 2022. Early adoption is permitted.

The Company is currently evaluating the standard and the impact on its consolidated financial statements and footnote disclosures.

In November 2021, the FASB issued ASU 2021-10, "Government Assistance (Topic 832)" ("ASU 2021-10"). The amendments in this update require additional disclosures regarding government grants and money contributions, including information on the nature of transactions and related accounting policies used to account for transactions, detail on the line items on the balance sheet and income statement affected by these transactions, and significant terms and conditions of the transactions. ASU 2021-10 is effective for all entities within their scope for financial statements issued for annual periods beginning after December 15, 2021, with early adoption permitted. The adoption of this guidance will not impact our financial position, results of operations or cash flows.

In November 2021, the FASB issued ASU 2021-09, "Leases (Topic 842): Discount Rate for Lessees That Are Not Public Business Entities". The amendments in this update allow those lessees to make the risk-free rate election by class of underlying asset, rather than at the entity-wide level. Entities that have not yet adopted Topic 842 as of November 11, 2021, are required to adopt the amendments in this Update at the same time that they adopt Topic 842. The Company is currently evaluating the provision of ASU 2018-14 and its impact on its consolidated financial statements and related disclosures.

2. Property, Improvements and Equipment

Property, improvements and equipment, consisted of the following (in thousands):

September 30,	**2022**	2021
Land and land improvements	**$ 33,621**	$ 34,698
Buildings and improvements	**105,458**	104,115
Leasehold improvements	**4,541**	4,436
Equipment and Software	**149,658**	143,366
Furniture and fixtures	**6,026**	5,957
	299,304	292,572
Less: accumulated depreciation	**(178,164)**	(162,145)
	121,140	130,427
Construction in Progress	**42,691**	45,239
Property, improvements and equipment, net	**$ 163,831**	$ 175,666

At September 30, 2022 and 2021, the Company had assets under capitalized leases of approximately $6.0 million and $4.3 million, respectively, and related accumulated depreciation of $1.2 million and $2.3 million, respectively.

Depreciation expense was approximately $17.5 million and $19.3 million for the years ended September 30, 2022 and 2021, respectively.

3. Acquisition of Noncontrolling Interest in CharterCARE

In June 2014, the Company, through a newly formed subsidiary, Prospect CharterCARE, LLC ("CCHP"), acquired substantially all of the assets of CharterCARE Health Partners and its subsidiaries, in exchange for an 85% interest in CCHP, $43.3 million in cash and a commitment to invest at least $50

MPT CONFIDENTIAL MPT_PROSPECT_00006294

million in CCHP and its subsidiaries for strategic business development and capital improvements over the next four years (the "CharterCARE acquisition"). As a result of the acquisition, the Company had an 85% ownership interest in CCHP, with the remaining 15% being owned by the prior owner of the selling entities, CharterCARE Health Partners, which was subsequently renamed CharterCARE Community Board ("CCCB").

CCHP, through wholly owned subsidiaries, operates both Roger Williams Medical Center and St. Joseph Health Services of Rhode Island, dba Our Lady of Fatima Hospital. One of the seller entities, St. Joseph Health Services of Rhode Island, had a Retirement Plan (the "Retirement Plan") which is a defined benefit pension plan and was set up for the benefit of employees of Our Lady of Fatima Hospital when the hospital was a standalone hospital owned by a religious institution. The Company and CCHP did not acquire the Retirement Plan as part of the CharterCARE acquisition, and $14 million of the proceeds from the sale were contributed to the Retirement Plan in exchange for the Company and its subsidiaries, including CCHP, not having any liabilities related to the Retirement Plan. In August 2017, a petition was filed to place the Retirement Plan into receivership by its administrators because it was underfunded. In June 2018, the receiver for the Retirement Plan (along with various named participants) filed a lawsuit on behalf of all participants against various defendants which included CCCB, the Company, CCHP, the subsidiary which holds the Company's ownership interest in CCHP, and the two subsidiaries which own Roger Williams Medical Center and Our Lady of Fatima Hospital, along with the administrators of the Retirement Plan, The Angell Pension Group, Inc., among others. Also, in March 2019, CCCB sued the Company and various directors of the Company, and certain subsidiaries. The suits involved allegations related to the valuation of CCCB's 15% ownership interest in CCHP. In December 2019, CCCB and its subsidiaries settled with the receiver of the Retirement Plan. As a result, in January 2020 the receiver took control of CCCB's noncash assets, including its ownership interest in CCHP. In December 2019, the Company sued CCCB on the basis that CCCB had breached the original terms of the acquisition by entering into the settlement agreement with the receiver and seeking indemnity against the receiver's June 2018 lawsuit.

The Company entered into a Settlement Agreement in December 2020 to release the Company and its directors and subsidiaries from all of the various claims under the aforementioned litigation. The Settlement Agreement also provided for the Company to purchase the noncontrolling interest. Under the terms of the settlement, the Company paid $27.3 million, of which $22.3 million was to settle all of the outstanding cases between the parties, including the Company, which was subsequently released of their related claims, and $5 million was for the acquisition of the noncontrolling interest. The buyout of the noncontrolling interest was treated as an equity transaction. The payment of the settlement was conditioned upon State and Federal Court approvals, which was obtained in March 2021 and August 2021, respectively. Accordingly, the Company paid $27.3 million in August 2021, and the buyout of CCCB's noncontrolling interest in CCHP was effective on August 18, 2021.

The Company received recoveries from its insurance policies of approximately $12 million. A receivable was recorded for this amount at September 30, 2021 and received subsequent to September 30, 2021.

4. Discontinued Operations

As of and for the year ended September 30, 2021, the operations of East Orange General Hospital ("EOGH") in New Jersey met the criteria under applicable accounting standards to be presented as discontinued operations and as assets held for sale. In October 2020, the Company entered into an Asset Purchase Agreement to sell substantially all of the assets of EOGH for a sale price of $6.2 million. That sale closed effective January 1, 2022. We have classified the results of EOGH as discontinued operations in our consolidated statement of operations for all periods presented.

MPT CONFIDENTIAL MPT_PROSPECT_00006295

Additionally, the related assets and liabilities associated with the discontinued operations in the prior year consolidated balance sheet are classified as discontinued operations.

In addition to the sale of the EOGH and Nix Health, we are actively marketing for sale the businesses in our operations in Pennsylvania, Rhode Island, and Connecticut. The Company's plan is to refocus its operations in the hospitals, managed care operations and health system in California.

During the first quarter of 2022, our management approved a plan to sell the operations of Crozer-Keystone Health System ("Crozer"), Eastern Connecticut Health Network, Inc. ("ECHN"), Greater Waterbury Health Network, Inc. ("Waterbury"), and CharterCARE Health Partners ("CharterCare"), respectively. On January 11, 2022, we signed a non-binding Letter of Intent ("LOI") for Centurion Foundation, Inc. to acquire CharterCare. On February 3, 2022, we signed a non-binding LOI for Christiana Care Health System, Inc. to acquire Crozer. However, that LOI was later terminated effective August 8, 2022. Crozer is still actively being marketed for sale and solicitations are being entertained. On February 4, 2022, we signed a non-binding LOI for Yale New Haven Health to acquire ECHN and Waterbury. We have classified the results as discontinued operations in our consolidated statement of operations for all periods presented. Additionally, the related assets and liabilities associated with the discontinued operations in the prior year consolidated balance sheet are classified as discontinued operations. Refer to Note 13, "*Subsequent events*" of the Consolidated Financial Statements for additional information related to the sale of these operations.

The following table presents the aggregate carrying amounts of the classes of assets and liabilities held for sale related to discontinued operations of businesses (in thousands):

September 30,	**2022**	2021
Patient accounts receivable, net and other receivables	**$ 38,258**	$ 57,628
Other receivables, prepaid expenses and other current assets	**45,763**	39,683

5. Goodwill and Intangible Assets

The net carrying value of goodwill by reporting unit is as follows (in thousands):

September 30, 2022	**Gross Carrying Amount**	**Accumulated Amortization**	**Net Book Value**
Southern California Hospitals	**$ 130,912**	**$ (39,274)**	**$ 91,638**
California Medical Groups	**30,722**	**(9,008)**	**21,714**
Total	**$ 161,634**	**$ (48,282)**	**$ 113,352**

September 30, 2021	Gross Carrying Amount	Accumulated Amortization	Net Book Value
Southern California Hospitals	$ 130,912	$ (26,182)	$ 104,730
California Medical Groups	30,722	(5,937)	24,785
Total	$ 161,634	$ (32,119)	$ 129,515

MPT CONFIDENTIAL

The changes in the net carrying amount of goodwill for the years ended September 30 are as follows (amounts in thousands):

September 30,	**2022**	2021
Balance, beginning of year	**$ 129,515**	$ 145,678
Acquisitions	**-**	-
Disposition	**-**	-
Amortization	**(16,163)**	(16,163)
Balance, end of year	**$ 113,352**	$ 129,515

Amortization expense was $16.2 million and $16.2 million for the year ended September 30, 2022 and 2021, respectively, and is included in goodwill amortization expense in the accompanying consolidated statements of operations. Goodwill included in discontinued operations is $110.3 million and $114.5 million, respectively, as of September 30, 2022 and 2021.

Estimated amortization expense for each fiscal year of goodwill is as follows (in thousands):

Years ending September 30,	
2023	$ 16,163
2024	16,163
2025	16,163
2026	16,163
2027	16,163
Thereafter	32,535
Total future amortization expense	$ 113,352

The weighted-average remaining useful life for the goodwill was approximately seven years as of September 30, 2022.

Identifiable intangible assets are comprised of the following (in thousands):

September 30,	Useful lives	2022	2021
HMO membership	14 years	$ -	25,200
Trade names, net of impairment	3 - 20 years	9,690	18,100
Gross carrying value		9,690	43,300
Accumulated amortization		(7,339)	(39,945)
Intangible assets, net		$ 2,351	$ 3,355

Amortization is recognized on a straight-line basis (management's best estimate of the period of economic benefit) over the respective useful lives and expense for the years ended September 30, 2022 and 2021 was $1.0 million and $2.8 million, respectively, and is included in depreciation and amortization expense in the accompanying consolidated statements of operations. There are no expected residual values related to these intangible assets.

MPT CONFIDENTIAL MPT_PROSPECT_00006298

Estimated amortization expense for each future fiscal year of intangible assets is as follows (in thousands):

Years ending September 30,	
2023	$ 485
2024	485
2025	485
2026	485
2027	411
Thereafter	-
	$ 2,351

The weighted-average remaining useful life for the intangible assets was approximately five years as of September 30, 2022.

6. Related Party Transactions

Through June 1, 2021, Jeereddi Prasad, M.D. was a shareholder of Ivy Holdings, a director of Ivy Holdings and the Company, and an officer of the Upland Medical Group, a Professional Medical Group and Pomona Valley Medical Group, Inc. (collectively "ProMed Entities"). Dr. Prasad has ownership interests in physician medical groups that provide medical services to ProMed members, previously including Chaparral Medical Group, Inc.("CMG"), an entity in which the Company beneficially owned a 13.2% interest. Effective February 28, 2022, Akido Labs, Inc. ("Akido") purchased CMG and the Company's ownership interest was exchanged for a 2.45% ownership interest in Akido. For the period from October 1, 2020 to June 1, 2021, a date of Chamber Transaction, the ProMed Entities paid these groups approximately $16.4 million.

Pursuant to a Management Services Agreement, dated December 15, 2010 and amended on May 3, 2012 (the "LGP Management Agreement"), between the Company and Leonard Green & Partners, L.P. ("LGP"), a private equity fund with affiliated funds that collectively constituted the majority shareholder of Ivy Holdings, LGP provided to the Company, (a) certain investment banking services, (b) management, consulting and financial planning services and (c) financial advisory and investment banking services in connection with major financial transactions from time to time. In connection with the Chamber Transaction, the LGP Management Agreement was terminated on June 1, 2021.

The Company is a wholly owned indirect subsidiary of Chamber. Therefore, Chamber is the parent of an affiliated group of corporations within the meaning of Section 1504(a) of the Internal Revenue Code of 1986. On December 15, 2010, Ivy Holdings, Ivy Intermediate and the Company entered into a Tax Sharing Agreement. The Tax Sharing Agreement allows the Company to make payments to Chamber as necessary to fund their payment of any required taxes incurred due to such parent status.

7. Income Taxes

The components of the income taxes are as follows (in thousands):

Year Ended September 30,	2022	2021
Current:		
Federal	$ 2,482	$ -
State	(5,153)	(2,265)
	(2,671)	(2,265)
Deferred:

State	-	-
	-	-
Total:		
Federal	2,482	-
State	(5,153)	(2,265)
	$ (2,671)	$ (2,265)

Temporary differences and carry forward items that result in deferred income tax balances as of September 30, are as follows (in thousands):

September 30,	2022	2021
Deferred tax assets:		
Accrued medical claims	$ 6,711	$ 6,566
Malpractice reserves	10,982	3,911
Accounts receivable	21	617
Accrued salaries & wages	12,943	15,471
Pension obligation	65,689	70,725
Tax Attributes (Net operating losses, credits, and 163j)	122,002	145,617
Other comprehensive income	320	-
Lease liability	127,306	125,316
Deferred revenue	865	3,858
Deferred FICA tax	771	7,215
Outside basis differences	2,549	-
Other	2,265	-
Deferred tax assets	352,424	379,296
Valuation allowance	(315,161)	(291,559)
Net deferred tax assets	37,263	87,737
Deferred tax liabilities:		
Property, plant & equipment	(29,839)	(76,939)
Intangible assets	(1,494)	(4,667)
Prepaid expenses	(5,930)	(4,075)
Outside basis differences	-	(905)
Other	-	(1,150)
Deferred tax liabilities	(37,263)	(87,737)
Net deferred tax assets	$ -	$ -

Deferred income taxes are based on the estimated future tax effects of differences between the financial statement and tax bases of assets and liabilities under the provisions of the enacted tax laws.

Management assesses the available positive and negative evidence to estimate whether sufficient future pretax income will be generated to permit use of the existing deferred tax assets. A significant piece of objective negative evidence evaluated was the cumulative pretax loss incurred over the three-year period ending September 30, 2022. Such objective evidence limits the ability to consider other positive subjective evidence, such as the Company's projections for future growth. Based on this evaluation, on September 30, 2022, and 2021, a valuation allowance of approximately $315.2 million and $291.6 million, respectively, was recorded. The amount of the deferred tax asset considered realizable, however, could be adjusted if negative objective evidence in the form of a three-year cumulative loss is no longer present and additional weight is given to subjective positive evidence.

A consolidated federal income tax return is filed for Chamber, Inc., except for Nuestra Familia Medical Group Inc. ("Nuestra"), which has filed its own federal tax return. The Company files combined state income tax returns in Arizona, California, Connecticut, New Jersey, Rhode Island, and Texas. The Company files separate standalone state income tax returns in Alabama, Florida, and Pennsylvania. We operate in multiple jurisdictions with varying tax laws. Our federal income tax returns have been examined by the Internal Revenue Service through the year ended September 30, 2016. We are subject to audits by any of these taxing authorities. Tax years 2017 to 2021 remain subject to future examination by taxing authorities in jurisdictions in which we are subject to tax.

As of September 30, 2022, The Company has $394 million of gross federal and $2,188 million of gross state net operating loss carryforwards which expire in various years beginning in 2022 or carry forward indefinitely. We believe that it is more likely than not that the benefit from federal and state net operating loss carryforwards will not be realized. In recognition of this assessment, we have provided a valuation allowance on the deferred tax assets related to net operating loss carryforwards. The annual benefit of net operating losses could be subject to limitation.

On October 4, 2022, the Company settled its examination by the California Franchise Tax Board (FTB) for the tax year ended September 30, 2017. In addition to finalizing the audit, the FTB allowed the inclusion of Prospect Medical Group, Inc & Subsidiaries and New Genesis Medical Associates, Inc. & Subsidiaries in the California unitary group filed by Ivy Holdings, Inc & Subsidiaries. An incremental benefit of $5.7 million was recorded to state income tax expense in the current period because the Company closed its proceedings with the FTB. To date the Company has received $6 million in cash refunds from the FTB.

For the tax years that remain open under the applicable statutes of limitations, the Company considered potential unrecognized tax consequences and determined there are no material unrecognized tax positions that would impact income tax.

The CARES Act did not materially impact our effective tax rate for the years ending September 30, 2022, and 2021, although it has impacted the timing of cash payments for tax.

MPT CONFIDENTIAL MPT_PROSPECT_00006301

The differences between the income tax provision at the federal statutory rate and that reflected in the accompanying consolidated statements of operations are summarized as follows:

Years Ended September 30,	**2022**	2021
Tax provision at statutory rate	**21%**	21%
State taxes, net of federal benefit	**(1)%**	14%
Return to provision adjustments	**17%**	(1)%
Goodwill amortization	**(8)%**	(4)%
Deferred tax adjustments	**-%**	2%
Valuation allowance	**(31)%**	(33)%
UTP	**13%**	(1)%
Change in State Tax Rate	**-%**	6%
Other	**-5%**	(2)%
	6%	2%

8. Debt

Debt consists of the following (in thousands) excluding the impact of debt to be assumed on sale:

September 30,	**2022**	2021
MPT TRS loan *(1)*	$ **91,025**	$ 98,606
MPT Foothill loan *(1)*	**151,260**	51,267
Senior Secured and Revolving Credit Facilities	**196,300**	45,000
Other *(2)*	**58,611**	23,736
Total debt	**497,196**	218,609
Less: Debt, current portion	**(200,382)**	(59,667)
Debt, net of current portion	$ **296,814**	$ 158,942

(1) See Note 9 for more information related to MPT transactions.
(2) Other debt is comprised of sale-leaseback financing obligations, building, equipment and software loans.

Promissory Note - Foothill Loan

On August 23, 2019, MPT provided the Company with a $51,266,700 mortgage on the Foothill property. This mortgage is secured by the buildings at Foothill. The interest on this mortgage is 7.5% per annum and is subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. The maturity date of this loan is August 2034. MPT can purchase the property in the event of default or at end of term. The Company is required to provide MPT with the option to purchase the Foothill property and lease it back to the Company under the second master lease agreement, for an amount equal to the outstanding principal balance. We entered into the amendment agreement that provides for an additional $50,000,000 mortgage on May 2, 2022 and a $50,000,000 mortgage on May 31, 2022, respectively. The maturity date of this loan is on January 31, 2023. In February and March 2023, the Company and MPT signed Forbearance agreements, where each of the MPT Parties agrees to temporarily forbear from further enforcing or exercising its rights or remedies with respect to each specified event of default during the forbearance period and ending on May 31, 2023. As of September 30, 2022 and 2021, the balances due under this note are

MPT CONFIDENTIAL MPT_PROSPECT_00006302

$151,260,000 and $51,267,000, respectively, and are reflected in long term debt in the accompanying consolidated financial statements.

Promissory Note – TRS Loan

On August 23, 2019, the Company entered into a promissory note (the "TRS Note"), under which MPT has advanced to the Company $112,937,000. The interest on this note is 7.5% per annum and is subject to annual escalation of the consumer price index, limited to a minimum of 2% and a maximum of 4%. The maturity date of this note was originally scheduled to be the earlier of July 2022 or, if it occurs, a sale-leaseback of the properties in Rhode Island. In connection with the Chamber Transaction, and the approval of such transaction by the Rhode Island Attorney General, the maturity date of the TRS Note was extended to April 30, 2026. A sale-leaseback of the properties in Rhode Island is prohibited to occur before the extended maturity date. As of September 30, 2022 and 2021, the balances due under this loan are $91,025,000 and $98,606,000, respectively, and are reflected in long term debt in the accompanying consolidated financial statements.

All of the agreements referenced in this footnote are cross-collateralized and cross defaulted among the parties and the assets included therein (which do not include any of the hospital operating entities or real properties in Rhode Island, Texas or New Jersey).

The MPT transaction documents contain certain customary covenants and restrictions and a financial covenant based on EBITDAR performance. The Company was in compliance with all such covenants at September 30, 2022 and 2021. Based on annualized Adjusted EBITDA (as defined) achieved over the three years from the transaction date, additional amounts between $50 million to $250 million will be payable to the Company. As of September 30, 2022 and 2021, there has been no accounting for these amounts in the consolidated financial statements.

In connection with the transactions with MPT, the Company incurred deferred financing costs of $28.1 million. Amortization expense was approximately $1.8 million and $1.7 million during the year ended September 30, 2022 and 2021, respectively.

On May 23, 2023, the Company, PHPH and Prospect Healthcare Facilities Management, LLC (a Company subsidiary) entered into an Amended and Restated Master Restructuring Agreement (the "MRA") with MPT Picasso Investors TRS, LLC ("MPT Picasso") that provides for the restructuring of certain current rights and obligations of the parties. In accordance with the terms of the MRA, in exchange for the corresponding cancelation of obligations, including the promissory notes of Foothill and TRS Loan, of the Company and its subsidiaries to MPT and its subsidiaries, MPT Picasso was issued non-voting Series A-1 Preferred Units ("Preferred Units") constituting 49% of the issued and outstanding equity ownership in PHPH (the "MPT Units") plus a Convertible Promissory Note (the "MPT Convertible Note") convertible into additional Preferred Units determinable based upon certain future calculations described in the MRA and the MPT Convertible Note. The maturity date of the MPT Convertible Note is November 20, 2026. See Note 13 – "Subsequent Events" for further information.

Senior Secured and Revolving Credit Facilities

On February 22, 2018, the Company entered into an ABL Credit Agreement (the "ABL Agreement"), by and among the Company (as the borrower), the lenders party thereto and JPMorgan Chase Bank, N.A. ("JPMorgan"), as administrative agent and collateral agent. Under the ABL Agreement, the initial maximum revolving commitment was $250.0 million with ability to expand the facility to $325.0 million (the "ABL Facility"), and the ABL facility bears interest at a variable base rate plus an applicable spread that is based on excess availability under the ABL Facility, as further described in

the ABL Agreement, which was 7.25% and 3.75% as of September 30, 2022 and 2021, respectively. Through various amendments and the sale of Nix Health, the maximum commitment under the ABL Agreement was $275.0 million at September 30, 2021. This commitment decreased by $15.0 million in the month after the sale of EOGH and by a further $10.0 million when the remaining building at Nix Health is sold.

The ABL Facility matured on February 22, 2023. As of September 30, 2022 and 2021, the outstanding balance on the ABL facility was $196.3 million and $45.0 million, respectively. On February 22, 2023, the Company entered into an Amended and Restated Forbearance Agreement with JPMorgan Chase Bank, N.A. ("JPMC") related to the Amended and Restated ABL Credit Agreement, dated as of February 22, 2018 and amended from time to time thereafter (the "ABL Facility"). Under this agreement, JPMC, as the Administrative Agent, and other lenders party agreed to forbear from exercising any rights and remedies arising from or related to the occurrence and continuation of certain defaults until March 24, 2023. Accordingly, the ABL Facility's required repayment date was extended to March 24, 2023. On March 24, 2023, the Company entered into an Amended and Restated Forbearance Agreement with JPMC. JPMC, as the Administrative Agent, and the other lenders party thereto, agreed to forbear from exercising any rights and remedies arising from or related to the occurrence and continuation of certain defaults until May 31, 2023. Accordingly, the ABL Facility's required repayment date was extended to May 31, 2023.

The ABL Facility is secured by a first priority security interest on the working capital assets of the Company and its wholly owned subsidiaries except Prospect Health Plan, Inc., CHIC, RRG, Prospect Health Access Network, Inc. and certain immaterial subsidiaries and a second priority security interest on their fixed assets. The ABL Agreement does not have any financial maintenance covenants. The ABL Agreement has a "springing" fixed charge ratio covenant that applies if excess availability is less than the greater of 10% of the maximum borrowing amount and $22,000,000.

As of September 30, 2022 and 2021, the outstanding letter of credit is $52.9 million and $26.6 million, respectively.

Other

Cerner Promissory Note

Included in Other debt was a $44.4 million promissory note with a third-party creditor entered into on May 31, 2022, by the Company. The promissory note accrues interest at a rate of 4.15% per annum. Payments of interest and principal are being payable in quarterly payments in accordance with the payment plan with such payments commencing on June 1, 2022 and recurring through May 31, 2028. As of September 30, 2022, there was the promissory note outstanding of approximately $41.0 million.

Other debt is comprised of building, equipment and software financing obligation. At September 30, 2022 and 2021, other debt is $17.6 million and $23.7 million, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00006304

The aggregate scheduled maturities of our total debt outstanding as of September 30, 2022 are as follows (in thousands):

Years ending September 30,	
2023	$ 200,382
2024	18,102
2025	16,945

2027	125,606
Thereafter	118,661
	$ 497,196

9. Transactions with MPT

Master Lease I and II

On August 23, 2019, the Company closed a series of transactions with affiliates of MPT, a publicly traded Real Estate Investment Trust ("REIT"). Under these transactions, the Company sold to MPT the Company's hospital buildings in California (excluding Foothill Regional Medical Center ("Foothill")), Connecticut and Pennsylvania for an aggregate purchase price of $1.39 billion. Concurrent with the sale transactions, the Company entered into two master lease agreements whereby the hospital properties and related medical office buildings were leased back for an initial 15 year term, with options to extend twice for an additional 5 years each and for a further 4.75 year extension. Monthly rent is defined as 7.5% of the lease base, subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. For the first master lease, the Company has the option to buy the properties at their fair value at the end of the lease term. For the second master lease, the Company has the option to purchase at a price that is fixed at the time of entering into the lease (the "Option Price"). If the Company chooses not to exercise this option, and the fair value at the end of the lease is below the Option Price, then the Company must pay MPT a sum equal to the difference between the fair value and the Option Price. These transactions do not qualify for sale leaseback accounting because of the Company's deemed continuing involvement with the buyer-lessor, including the requirements to pay reserves for major repairs, and the option to purchase included in the lease, which are considered a form of contingent collateral and results in the transaction being recorded under the financing method. All of the legal entities that are parties to the master lease agreement (which are the hospital entities in California, Connecticut and Pennsylvania) provide cross guarantees on all of the obligations to MPT, which guarantees include both lease payments under the master lease as well as indebtedness due to MPT. As of September 30, 2022 and 2021, the balances due under the leases are approximately $1.27 billion and $1.29 billion, respectively, and are reflected in MPT liabilities in the accompanying consolidated financial statements.

See Note 11 - "*Commitments and Contingencies*" for future minimum lease payments related to MPT Master Lease I and II commitments as of September 30, 2022 and Note 13 - "*Subsequent Events*".

MPT CONFIDENTIAL MPT_PROSPECT_00006305

10. Stockholders' Equity

Chamber Transaction

In June 2021, Green Equity Investments V, LP, Green Equity Investments Side V, LP and other minority shareholders sold their shares of Ivy Holdings for a purchase price of approximately $11,900,000. As a result of the sale, the Company became indirectly wholly-owned by two shareholders that were previously the two largest individual shareholders in Ivy Holdings. The transaction, among other things, (i) merged Ivy Holdings with Chamber Merger Sub Inc., a wholly-owned subsidiary of Chamber Inc. ("Chamber") which is owned by the referenced two ultimate shareholders, and Ivy Holdings, as the surviving entity in such merger, became a wholly-owned direct subsidiary of Chamber, (ii) bought out all of the other stockholders of Ivy Holdings, (iii) terminated all stock options that have not previously been exercised.

Equity Based Compensation Plans

In December 2010, the Board of Directors of Ivy Holdings adopted the Ivy Plan that initially authorized the issuance of options exercisable for up to 155,110 shares of the common stock of Ivy Holdings ("Initial Options") to employees, certain consultants and independent members of the boards of directors, of Ivy Holdings and its subsidiaries (including the Company and its subsidiaries). These options were exercisable into Ivy Holdings stock and vested based on a number of criteria, including time, Company and Business Unit performance based on EBITDA targets and CEO and Compensation Committee discretion. Since the Ivy Holdings stock options were granted to Company employees for their services related to the Company, the related compensation cost has been recorded in the Company's consolidated financial statements. In June 2015, the Board of Directors of Ivy Holdings adopted the First Amendment to the Ivy Plan. Under the First Amendment, and subsequent amendments, a further 63,704 shares of common stock of Ivy Holdings ("New Options") could be issued.

The New Options were exercisable into Ivy Holdings stock and vested based on a number of criteria, including the same criteria as the Initial Options. However, they only became exercisable on the occurrence of certain corporate transactions, including a change in control of Ivy Holdings, as defined in the Incentive Stock Option Agreements. At the time that the Merger Agreement was executed, all options were "underwater." Accordingly, the Company determined to terminate these options and not allow them to be exercised, prior to the Chamber Transaction occurring. In May 2021, the Board of Directors agreed to terminate the options on the Effective Date, as defined in the Merger Agreement. There were no options granted or vested during the years ended September 30, 2022 and 2021. No compensation cost has been recorded in the Company's consolidated financial statements for the years then ended.

Dividends

The Company distributed approximately $11.9 million in connection with the Chamber Transaction during the year ended September 30, 2021, which was recorded against retained earnings, and was ultimately paid to the common stockholders of Ivy Holdings, Inc. There were no distributions during the year ended September 30, 2022.

MPT CONFIDENTIAL MPT_PROSPECT_00006306

11. Commitments and Contingencies

Leases

The Company leases various office facilities and equipment from third parties under non-cancelable operating and capital lease arrangements expiring at various dates through 2034. Certain operating leases contain rent escalation clauses and renewal options, which have been factored into determining rent expense on a straight-line basis over the lease terms. Capital leases bear interest at rates ranging from 2.6% to 9.9% per annum.

The future minimum annual lease payments required under leases in effect at September 30, 2022, are as follows (in thousands):

For the Years ending September 30,	Capital Leases	Operating Leases	MPT Lease Liability
2023	$ 1,487	$ 3,471	$ 112,322
2024	1,340	2,336	114,568
2025	1,260	1,994	116,859
2026	666	1,847	119,197
2027	477	1,719	121,581
Thereafter	-	3,208	1,272,834
Total minimum lease payments	5,231	$ 14,575	1,857,361
Less: amounts representing interest	(522)		(638,214)
Add: amounts representing land	-		47,176
	4,708		1,266,323
Less: current portion	(1,225)		(81,976)
	$ 3,483		$ 1,184,347

Rent expense related to operating leases for the years ended September 30, 2022 and 2021, was approximately $9.0 million and $9.2 million, respectively.

Litigation

We operate in a highly regulated and litigious industry. As a result, various lawsuits, claims and legal and regulatory proceedings have been and can be expected to be instituted by or asserted against us. We are also subject to claims and suits arising in the ordinary course of business, including claims for personal injuries or wrongful restriction of, or interference with, physicians' staff privileges. In certain of these actions the claimants may seek punitive damages against us, which may not be covered by insurance. We are also subject to claims by various taxing authorities for additional taxes and related interest and penalties. The resolution of any such lawsuits, claims or legal and regulatory proceedings could have a material, adverse effect on our results of operations, financial position or liquidity.

Health care companies are subject to numerous investigations by various governmental agencies. Under the federal False Claims Act ("FCA"), private parties have the right to bring qui tam, or whistleblower," suits against companies that submit false claims for payments to, or improperly retain overpayments from, the government. Some states have adopted similar state whistleblower and false claims provisions. Certain of our individual facilities have received, and from time to time,

MPT CONFIDENTIAL MPT_PROSPECT_00006307

other facilities may receive, government inquiries from, and may be subject to investigation by, federal and state agencies. Depending on whether the underlying conduct in these or future inquiries or investigations could be considered systemic, their resolution could have a material, adverse effect on our results of operations, financial position or liquidity. While the Company's management currently believes that resolving all of these matters, individually or in the aggregate, will not have a material adverse impact on the Company's consolidated financial position or results of operations, the litigation and other claims that the Company faces are subject to inherent uncertainties and management's view of these matters may change in the future.

Seismic Standards

The Company's California Hospitals (with the exception of Bellflower and Van Nuys, which currently only provide psychiatric services) are required to comply with laws that regulate the seismic performance of all aspects of hospital facilities in California and imposes near-term and long-term compliance deadlines for seismic safety assessment, submission of corrective plans, and retrofitting or replacement of medical facilities to comply with current seismic standards. These laws and regulations require hospitals to meet seismic performance standards to ensure that they are capable of providing medical services to the public after an earthquake.

These requirements can result in significant operational changes and capital outlays. Management is continuing to assess its options and the methods of financing the required retrofits. Based on management's evaluation, the costs of renovation needed to comply with the California seismic safety standards for its acute-care facilities, including asbestos abatement, are not estimable at this time.

Legislation and HIPAA

The healthcare industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

The Company believes that it is in compliance with fraud and abuse regulations as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

The Health Insurance Portability and Accountability Act ("HIPAA") assures health insurance portability, reduces healthcare fraud and abuse, guarantees security and privacy of health information, and enforces standards for health information. The Health Information Technology for Economic and Clinical Health Act ("HITECH Act") expanded upon HIPAA in a number of ways, including establishing notification requirements for certain breaches of protected health information. In addition to these federal rules, California and Connecticut have developed strict standards for the privacy and security of health and other personal information as well as for reporting certain violations and breaches. The Company may be subject to significant fines and penalties if found not to be compliant with these state or federal provisions.

Collective Bargaining Agreements

As of September 30, 2022, the Company had approximately 15,200 employees, of whom approximately 5,470 employees or 36% are represented by various labor organizations. Of those, none of the Company's employees are employed under union contracts that have expired or will expire before September 30, 2023.

As of September 30, 2021, the Company had approximately 17,000 employees, of whom approximately 3,700 employees or 22% are represented by various labor organizations. Of those, approximately 3,300 employees or 19% of the Company's employees are employed under union contracts that have expired or will expire before September 30, 2022.

Tangible Net Equity ("TNE") Requirement

The Company's affiliated California physician organizations and licensed healthcare service plans may be subject to one or more of the following requirements: minimum working capital, Tangible Net Equity, cash-to-claims ratio and claims payment requirements as prescribed by the California Department of Managed Health Care ("DMHC"). TNE is defined as net assets, less intangibles and amounts due from affiliates, plus subordinated obligations. As of September 30, 2022 and 2021, the Company's affiliated California physician organizations and licensed healthcare service plan were in compliance with these regulatory requirements.

PACE financing

In August 2019 the Company entered into an agreement with a third party that specializes in property assessed clean energy ("PACE") financing to finance approximately $49.0 million for qualifying renovations for the properties in California. The full amount of the funds was deposited into an escrow account managed by a third party administrator, less deductions for the first year of prepaid interest of approximately $3.2 million and deferred financing fees totaling approximately $2.6 million. The Company received cash from the escrow account of approximately $13.5 million which was used to refinance related completed qualifying expenditures under the PACE program and invoices for construction in progress that had been paid. The amount financed is subject to an annual interest rate of 6.0% and the financing has a maturity date of September 2, 2045. Payments are collected through property tax bills as a non-ad valorem assessment. Payments commenced in July 2020. At September 30, 2022, the Company had a related financing liability of approximately $35.0 million, of which $1.1 million and $33.9 million is classified within other current liabilities and other long-term liabilities, respectively, in the accompanying consolidated balance sheets. At September 30, 2021, the Company had a related financing liability of approximately $34.5 million, of which $1.2 million and $33.3 million is classified within other current liabilities and other long-term liabilities, respectively, in the accompanying consolidated balance sheets. At September 30, 2022 and 2021, there was approximately $10.8 million and $18.7 million, respectively, left in escrow required to be spent on qualifying renovations.

Retirement Benefits

The Company sponsors various employee non-contributory, defined benefit pension plans (the "DB Plan") covering certain full-time employees of Crozer, ECHN and Waterbury.

MPT CONFIDENTIAL MPT_PROSPECT_00006309

In connection with the acquisition of Crozer, its plan was frozen with all benefits accruals ceased as of July 1, 2016. With respect to each Represented Employee who is a member of the Laborers' International Union of North America, the Monthly Compensation (as defined), the Credited Service (as defined), the Eligibility Service (as defined) and the accrued benefit was frozen and determined as of July 1, 2016. No benefits accrue since that date. The plan was amended to provide for determination of Vesting Service (as defined) for employees who were employed with the Company before July 1, 2016, such that years of service shall include all periods of employment completed on and after July 1, 2016, subject to the Break in Service rules (as defined). The plan was further amended on September 3, 2016 to provide certain Qualifying Participants (as defined) the right to make a Special Benefit Election (as defined) during "2016 Lump Sum Option Window" period from October 15, 2016 through November 30, 2016 to receive or commence receiving his or her vested Accrued Benefit as of December 1, 2016 in accordance with procedures adopted by the Committee. Further, the Company will adopt a plan amendment to terminate the plan effective within such five year period and will liquidate, fully fund and satisfy, and pay all benefits owed to participants and beneficiaries of the plan by providing lump sum distributions to participants, purchasing annuities for participants who do not elect a lump sum distribution, subject to applicable filing and authorization by the applicable government agency or entity. The five-year period can be extended in the event certain discount rates fall below certain defined thresholds. Presently the discount rates are below those thresholds and the Company intends to delay the termination of the Crozer DB plan.

Crozer also sponsors a postretirement benefit program (the "OPEB Plan") which is an unfunded medical care and life insurance benefit program, and a supplemental executive retirement plan (the "SERP Plan") which is an unfunded retirement plan that covers a group of current and former executives. These plans were frozen and all benefit accruals ceased as of July 1, 2016. No benefits will accrue since that date. The SERP plan was terminated and all funds paid out. With respect to each Represented Employee who is a member of the Laborers' International Union of North America, benefits will continue to accrue until a settlement of an ongoing union contract negotiation is reached for the OPEB Plan.

ECHN sponsors a DB Plan that covered substantially all of its employees. The benefits were based upon years of service and compensation for the five highest years during the employee's last 10 years of service. On December 31, 2008, ECHN implemented a soft freeze on the plan. All qualified employees were eligible to enter into the defined contribution plan, ECHN contributed 3% of eligible employees' salaries. This contribution was non-guaranteed for all employees, except certain union workers covered under a collective bargaining agreement. Effective December 31, 2013, ECHN froze the plan for all remaining participants. During September 2013, the Board passed a resolution to freeze all benefits related to the plan.

ECHN also sponsors an OPEB Plan that provides health care benefits to vested, retired employees, who are age 55 or older and start collecting under the defined benefit plan described above once retired. The retiree must be enrolled into the medical plan on the date of retirement to be eligible for the continuation. Full-time registered nurse retirees from ECHN's Manchester facility (retired prior to October 1, 2005 and were eligible per the collective bargaining agreement) were grandfathered and required to pay at least 50% of the total cost of the medical and dental coverage they elect for themselves under the OPEB Plan.

Waterbury has a noncontributory defined benefit cash balance plan. The plan was frozen to non-union participants effective June 30, 2015. Participants who are part of the Connecticut Healthcare Associates Technical Unit remain active in the plan. Non-union employees no longer accrue additional employer contribution credits in the plan. These participants will continue to receive interest credits based on their account balances in accordance with the terms of the plan. They will be entitled to their account balance (the retirement benefit they have earned up to June 30, 2015) plus applicable

interest credits after the Plan were frozen. Cash balance interest crediting rate is 1.50% compounded annually.

For all plans, the Company has made contributions sufficient to meet the minimum funding requirements of applicable laws and regulations.

The changes in the benefit obligation for September 30, 2022 is mainly due to an actuarial gain from an increase in the discount rate. The activity of the pension plans for the years ended September 30, 2022 and 2021 is as follows:

(in thousands):

September 30,	**2022**	2021
Changes in benefit obligations		
Projected benefit obligations, beginning of period	**$ 773,873**	$ 797,145
Service cost	**99**	126
Interest cost	**22,192**	22,527
Plan participant contributions	**-**	-
Actuarial gain	**(191,829)**	(1,879)
Benefits paid	**(26,132)**	(24,780)
Lump sum benefits paid and annuity purchase	**(26,055)**	(19,266)
Other	**(622)**	-
Projected benefit obligation, end of year	**$ 551,526**	$ 773,873
Changes in plan assets		
Fair value of plan assets, beginning of year	**$ 483,462**	$ 559,213
Actual return on plan assets	**(123,566)**	(40,002)
Contributions by plan sponsor	**3,960**	8,297
Plan participant contributions	**-**	-
Benefits paid	**(26,132)**	(24,780)
Lump sum benefits paid and annuity purchase	**(26,055)**	(19,266)
Fair value of plan assets, end of year	**$ 311,669**	$ 483,462
Funded status of the plan, end of year	**$ (239,857)**	$ (290,411)
Accumulated benefit obligation, end of year	**$ (239,857)**	$ (290,411)

The funded status of the pension plans as of September 30, 2022 and 2021 is as follows (in thousands), split between the pension plans and the post retirement plans:

	2022 Pensions	**2022 OPEBs**	**2022 Total**	2021 Pensions	2021 OPEBs	2021 Total
Current liability	**$ -**	**$ 310**	**$ 310**	$ -	$ 430	$ 430

	$ 235,184	**$ 4,673**	**$ 239,857**	$ 284,674	$ 5,737	$ 290,411

MPT CONFIDENTIAL

The components of net periodic benefit cost for the years ended September 30, 2022 and 2021 are as follows (in thousands):

September 30,	**2022**	2021
Components of net periodic benefit cost:		
Service cost	**$ 99**	$ 126
Interest cost	**22,192**	22,551
Expected return on plan assets	**(9,244)**	(10,292)
Amortization of net loss	**456**	(30)
Effect of settlement	**(1,458)**	724
Amortization of prior service credit	**(51)**	(51)
Total net periodic benefit cost	**$ 11,994**	$ 13,028

Service cost is recorded in Hospital operating expenses on the consolidated statements of operations. All other components of net periodic benefit costs are recorded in other expense on the consolidated statements of operations.

	2022	2021
Other change in benefit obligations recognized in accumulated other comprehensive loss:		
Loss due to participant experience	**$ -**	$ 143
Amortization of net gain	**(456)**	(8)
Asset return (gain) loss	**(59,755)**	49,035
Prior service (cost)/credit	**(622)**	-
Amortization of prior service (cost)/credit	**51**	51
Amount recognized due to settlement	**1,458**	(723)
Total recognized in other comprehensive (income) loss and accumulated other comprehensive (income) loss	**$ (59,324)**	$ 48,498

The assumptions used in determining the actuarial present value of the projected benefit obligations for pension plans as of September 30, 2022 and 2021 and for the years then ended are as follows:

	2022	2021
Weighted average assumptions used to determine benefit obligations at end of period		
Discount rate	**5.63-5.90%**	2.65-3.01%
Rate of compensation increase	**0.00-3.00%**	0.00-2.00%
Weighted average assumptions used to determine net periodic benefit cost for the period ended		
Discount rate	**2.65-3.01%**	2.55-2.97%
Rate of compensation increase	**0.00-2.00%**	0.00-2.00%
Expected return on the plan assets	**0.00-3.50%**	0.00-3.25%

The asset allocation percentage by major asset class for the plans and the target allocation for 2022 follows:

	Target	2022
Asset class:		
Cash and cash equivalents	0% - 20%	1 %
Fixed income	10% - 100%	98 %
Alternative investments and hedge funds	0% - 30%	1 %
		100 %

The investment objectives of the plans are to invest consistently with the fiduciary standards of ERISA, to provide for the funding and anticipated withdrawals on an ongoing basis, conserve and enhance the capital value of the plans in real terms while maintaining a moderate risk profile, to minimize principal fluctuations over the investment cycle, and achieve a long-term level of return commensurate with contemporary economic conditions. The expected long-term rate of return with respect to the plans is based on an aggregate of expected capital market returns within each asset category.

The following tables set forth the assets in the plans measured at fair value, by input level (in thousands):

September 30, 2022	Level 1	Level 2	Level 3	Net asset value	Total
Fixed income securities:					
Short-Term Duration	$ -	$ 35,401	$ -	$ -	$ 35,401

Interim Duration	-	60,320	-	-	60,320
Long-Term Duration	-	166,901	-	-	166,901
Real estate	-	-	928	-	928
Alternative investments	-	-	10,423	-	10,423
Cash and cash equivalents	-	-	-	2,861	2,861
Total	$ -	$ 469,250	$ 11,351	$ 2,861	$ 483,462

MPT CONFIDENTIAL

Pension plan assets classified as Level 3 in the fair value hierarchy represent investments in which the trustee has used significant unobservable inputs in the valuation model. The hedge funds consist of equity/long/short funds and multi-strategy funds in which fair values have been estimated using the net asset value per share of the investment. The alternative investments primarily consist of investments in limited partnerships that invest in the Public-Private Investment Program which fair values have been estimated using the net asset value per share of the investment.

On an annual basis, the Company assesses the valuation hierarchy for pension assets recorded at fair value. From time to time, assets will be transferred within the fair value hierarchy as a result of changes in, among other things, inputs used, liquidity, or valuation methodologies. During the years ended September 30, 2022 and 2021, there were no transfers in classification within the fair value hierarchy.

The following table is a rollforward of the plans' assets classified within Level 3 of the fair value hierarchy (in thousands):

September 30,	**2022**	2021
Balance, beginning of year	**$ 11,351**	$ 13,697
Actual return on plan assets:		
Unrealized loss	**(6,775)**	(2,346)
Balance, end of year	**$ 4,576**	$ 11,351

The expected long-term future benefit payments to retirees with respect to the plans and are as follows (in thousands):

2023	$ 47,100
2024	42,040
2025	42,280
2026	42,690
2027	42,860
2028 - Thereafter	207,430
	$ 424,400

Waterbury participates in multi-employer pension plans that cover substantially all union employees. Contributions to the plans are based upon a percentage of each participant's total salary. The risks of participating in these multi-employer plans are different from single employer plans in the following aspects:

- Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of another participating employer.

- If a participating employer stops contributing to the plan, the unfunded obligation of the plan may be borne by the remaining participating employers.

- If Waterbury chose to stop participating in the multi-employer plans, Waterbury may be required to pay those plans an amount based on the underfunded status of the plans, referred to as a withdrawal liability.

The following table presents Waterbury's participation in these plans as of and for the years ended September 30, 2022 and 2021.

Pension Trust Fund	EIN / Pension Plan	Pension Protection Act ("PPA") Certified Zone Status *(1)* 2022	2021	FIP / RP Status Pending / Implemented *(2)*	Contributions 2022	2021	Surcharge Imposed	Exp. Date of CBA
Connecticut Health Care Associates Pension Fund	06-1313462	**Green**	Red	Pending	**$ 2,026,216**	$ 2,168,769	No	7/1/25
New England Health Care Employees Pension Fund	22-3071963	**Frozen Green**	Green	NA	**1,139,701**	783,560	No	3/15/25
Total contributions					**$ 3,165,917**	$ 2,952,329		

(1) The most recent PPA Certified Zone Status available for each Fund is for the 2022 plan year. The Zone Status is based on information received from each Fund and is certified by the Fund's actuary. Among other factors: Funds in the Red Zone are generally less than 65 percent funded or have a projected Funding Deficiency in the Fund's Minimum Funding Standard Account within the next 4 years, Funds in the Endangered (Yellow) Zone are generally less than 80 percent funded and don't have a projected Funding Deficiency within the next 7 years, and Funds not in the Red or Yellow Zones are in the Green Zone.

(2) The "FIP/RP Status Pending/Implemented" column indicates Funds for which a financial improvement plan ("FIP") or a rehabilitation plan ("RP") is either pending or has been implemented (if applicable). For the 2022 plan year, this column was not applicable for either Fund.

During the years ended September 30, 2022 and 2021, Waterbury's contributions to the CHCA Pension Plan and the New England Health Care Employees Pension Plan represented 81.5% and 3.3% and 81.9% and 2.5% of the total contributions made to the plans by all participating employers, respectively.

Governmental regulations impose certain requirements relative to union-sponsored pension plans. In the event of plan termination or employer withdrawal, an employer may be liable for a portion of the plan's unfunded vested benefits. As of September 30, 2022 and 2021, Waterbury has not recorded any liabilities for future withdrawal obligations related to the multi-employer plans.

Defined contribution plans

The Company sponsors two defined contribution plans covering substantially all employees who meet certain eligibility requirements, which are segregated between union and non-union employees. Under these plans, employees can contribute up to 50% of their compensation up to the IRS deferred annual maximum. There is currently no company match offered under the plans, except at certain facilities in Rhode Island and Pennsylvania, for which the expense for the employer match was $16,117,000 and $16,070,000 for the years ended September 30, 2022 and 2021, respectively.

12. Accrued Medical Claims and Other Healthcare Costs Payable

Below is a schedule showing the changes in our accrued medical claims and other healthcare costs payable (Medical Group segment, Global Risk Management segment, and full risk contracts) during the two years ended September 30, 2022 (in thousands) excluding the impact of discontinued operations:

September 30,	**2022**	2021
IBNR as of beginning of year	**$ 93,619**	$ 76,374
Claim expenses incurred during the year:		
Related to current year	**447,597**	352,288
Related to prior year	**7,446**	(6,715)
Total incurred	**455,043**	345,573
Claims paid during the year:		
Related to current year	**(344,704)**	(274,447)
Related to prior year	**(83,740)**	(53,881)
Total paid	**(428,444)**	(328,328)
IBNR as of end of year	**$ 120,218**	$ 93,619

Following is a table showing the details of the Medical Group and Global Risk Management segments cost of revenues per the consolidated statements of operations (in thousands):

Years Ended September 30,	**2022**	2021
Capitation expense	**$ 153,785**	$ 133,786
Fee-for-service claims expense	**338,298**	232,103
Other physician compensation	**24,558**	28,428
Other cost of revenues	**19,567**	17,255
Total cost of revenues	**$ 536,208**	$ 411,572

13. Subsequent Events

Subsequent events have been evaluated through to May 25, 2023, the date the Company's consolidated financial statements were available for issuance.

On October 5, 2022, the Company entered into an asset purchase agreement with Yale New Haven Health Services Corporation, a Connecticut nonstock corporation, pursuant to which the Company agreed to sell, and the buyer agreed to purchase, substantially all of the assets and liabilities of the Company related to the Company's ECHN and Waterbury hospital systems in Connecticut. The Company's pension obligation is not assumed by the buyer.

On November 18, 2022, the Company entered into an asset purchase agreement with Centurion Foundation, Inc., pursuant to which the Company agreed to sell, and the buyer agreed to purchase, substantially all of the assets and liabilities of the Company related to the Company's CharterCARE hospital system in Rhode Island. The Company's pension obligation is not assumed by the buyer.

MPT CONFIDENTIAL MPT_PROSPECT_00006316

Effective December 1, 2022, the Company became the indirect 100% beneficial owner of Nuestra Familia Medical Group, Inc. ("Nuestra") after Nuestra repurchased the 3.66% ownership interest held by a contracted physician provider in accordance with the terms of Nuestra's Agreement Concerning Shares of the Company, dated September 19, 1995, due to the termination of the physician's contracted services.

On February 22, 2023, the Company entered into a Forbearance Agreement with JPMC related to the Amended and Restated ABL Credit Agreement, dated as of February 22, 2018 and amended from time to time thereafter (the "ABL Facility"). JPMC, as the Administrative Agent, and the other lenders party thereto, agreed to forbear from exercising any rights and remedies arising from or related to the occurrence and continuation of certain defaults until March 24, 2023. On March 24, 2023, the Company and JPMC entered into an Amended and Restated Forbearance Agreement that extended the forbearance period until May 31, 2023.

On February 16, 2023, a Forbearance Agreement was signed between the Company and the MPT Parties. Under this agreement, each of the MPT Parties agreed to temporarily forbear from further enforcing or exercising its rights or remedies with respect to each specified event of default during the forbearance period commencing on the agreement effective date and ending on February 23, 2023. On February 23, 2023, the Company and the MPT Parties signed an Amended and Restated Forbearance Agreement that extended the forbearance period until March 24, 2023. On March 24, 2023, the Company and the MPT Parties entered into a Second Amended and Restated Forbearance Agreement that extended the forbearance period until May 31, 2023.

Such March 24th MPT forbearance was provided in connection with a larger endeavor to restructure the obligations owed by the Company and its affiliates to MPT's affiliates. For that purpose, the Company and MPT also entered into a Term Sheet, dated March 30, 2023, pursuant to which the parties agreed to terms regarding certain rent and debt relief and the payment of certain Company obligations through the issuance to MPT of equity, and/or debt convertible into equity, in the Company's Medical Group segment operating in California, Arizona and Texas (the "PhysicianCo Business"). In connection with the forgoing, MPT Picasso, an MPT affiliate, loaned $50 million to PHP Holdings, LLC, a Company subsidiary, pursuant to a Convertible Promissory Note dated March 31, 2023. The maturity date of the note was March 31, 2026, if not earlier repaid or converted into equity in the PhysicianCo Business.

On May 23, 2023, a Financing Agreement (the "PhysicianCo Loan Agreement") was executed by and among (1) PHP Holdings, LLC, ("PHPH"), two of its subsidiaries as borrowers, and its other subsidiaries (excluding Prospect Health Plan, Inc. ("PHP")) as guarantors, all of which (together with PHP, which is not a borrower or guarantor) collectively comprise the PhysicianCo Business, (2) the Company and its California hospital subsidiaries at guarantors, (3) Wilmington Trust, National Association, as administrative agent and collateral agent, (4) Centerbridge Entity, as a lender and (5) Blue Torch entity, as a lender. Additionally on May 23, 2023, the Company and its subsidiaries comprising the Company's Hospital segment (the "HospitalCo Business") entered into a Loan Agreement (the "HospitalCo Loan Agreement") with MPT TRS Lender PMH, LLC, as administrative agent and collateral agent, and other lenders from time to time party thereto. The proceeds of the two financing transactions are used to refinance the ABL Facility (see Note 8), to pay certain expenses associated with the refinancing, to provide cash required for compliance with certain minimum regulatory capital requirements for certain California subsidiaries of PHPH, and to finance certain working capital and other operational needs of the Company and its subsidiaries. The maturity date of both loans is May 23, 2026. The principal amount of the PhysicianCo Loan is $375.0 million and it bears interest at a rate determined through an adjusted secured overnight financing rate (SOFR) calculation

MPT CONFIDENTIAL MPT_PROSPECT_00006317

set forth in the PhysicianCo Loan Agreement plus 13.00%. Interest on the loans shall be payable every 3 months from the date of the making of the loan.

Additionally, on May 23, 2023, the Company and its subsidiaries comprising the Company's Hospital segment (the "HospitalCo Business") entered into a Loan Agreement (the "HospitalCo Loan Agreement") with MPT TRS Lender PMH, LLC, as administrative agent and collateral agent, and other lenders from time to time party thereto. The initial principal amount of the loan (the "HospitalCo Loan") is $25.0 million with an additional $50.0 million in delayed draw loans (for an aggregate of $75.0 million). The Hospital Loan bears interest at a rate determined through an adjusted SOFR calculation set forth in the HospitalCo Loan Agreement plus 5.00% and interest on the loans shall be payable quarterly. The maturity date is May 23, 2026. The proceeds of the HospitalCo Loan are used to finance certain working capital and other operational needs of the Company and its subsidiaries.
In connection with the closing of the PhysicianCo Loan and the HospitalCo Loan, on May 23, 2023, the Company, PHPH and Prospect Healthcare Facilities Management, LLC (a Company subsidiary) entered into an Amended and Restated Master Restructuring Agreement (the "MRA") with MPT Picasso that provides for the restructuring of certain current rights and obligations of the parties. In accordance with the terms of the MRA, certain obligations of the Company and its subsidiaries to MPT and its subsidiaries were cancelled. Such obligations mainly include $103 million of MPT's Connecticut real estate, $100 million of MPT's Pennsylvania real estate, the loans aggregating approximately $264 million and accrued rent and interest of approximately $56 million, along with the previous $50 million Convertible Promissory Note and future rent deferral. In exchange for the corresponding cancelation of these obligations of the Company and its subsidiaries to MPT and its subsidiaries, MPT Picasso was issued non-voting Series A-1 Preferred Units ("Preferred Units") by PHPH and a Convertible Promissory Note in the amount of $646.3 million (the "MPT Convertible Note") convertible into additional Preferred Units determinable based upon certain future calculations described in the MRA and the MPT Convertible Note. The MPT Convertible Note bears interest at a rate of 8.00% per annum and all principal, interests, and other amounts payable under the MPT Convertible Note may then be converted. MPT may elect at any time voluntarily to convert all or any portion of the outstanding convertible amount. The maturity date of the MPT Convertible Note is November 20, 2026.

Independent Auditor's Report on Supplementary Information

Our audits of the consolidated financial statements included in the preceding section of this report were conducted for the purpose of forming an opinion on those statements as a whole. The supplementary information presented in the following section of this report is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

PROSPECT MEDICAL HOLDINGS REPORTS FISCAL 2019 THIRD QUARTER FINANCIAL RESULTS

Q3 FY 2019 Highlights

- **Revenue was $730.4 million**
- **Adjusted EBITDA was $57.0 million for Q3 2019**
- **Net revenue per adjusted admission increased by 3%**
- **Net revenue per adjusted patient day increased by 4%**
- **Surgeries increased by 5%**
- **Nix Health and East Orange General Hospital results have been classified as discontinued operations and assets classified as held for sale and are not included in the information above.**

Los Angeles, CA - August 19, 2019 - Prospect Medical Holdings, Inc. ("Prospect" or the "Company") today announced financial results for its fiscal 2019 third quarter ended June 30, 2019. The Company will host a conference call on September 3, 2019 at 1:00 pm PDT / 4:00 pm EDT to discuss these results - details at page 3 of this release.

CONSOLIDATED RESULTS OVERVIEW

The following results exclude the operations of Nix Hospital System ("Nix Health") and East Orange General Hospital ("EOGH"), as these were classified as discontinued operations and assets held for sale as of June 30, 2019. Consolidated revenues were $730.4 million for the fiscal quarter ended June 30, 2019. The Hospital Segment reported $615.9 million in revenues, while the Medical Group reported $93.5 million in revenues and the Global Risk Management segment reported $9.9 million in revenues. This is an increase of $3.3 million when compared to consolidated revenues of $727.1 million in the quarter ended June 30, 2018. Compared with the prior year's third quarter, Hospital Segment Revenue decreased 1.0%, Medical Group Revenue increased 10.8%, and Global Risk Management Segment Revenue increased 9.3% for the fiscal quarter ended June 30, 2019.

Adjusted EBITDA was $57.0 million, a sequential increase of 12.5% from $50.7 million for the fiscal quarter ended March 31, 2019. Trailing Twelve Month ("TTM") Adjusted EBITDA totaled $117.7 million, including approximately $62.0 million of out-of-period adjustments. When these out-of-period adjustments are excluded, the TTM Adjusted EBITDA at June 30, 2019 would have been $179.7 million. Adjusted EBITDA for the nine months ended June 30, 2019 was $146.8 million.

During the three months ended March 31, 2019, the Company made the determination to sell the operations of Nix Health in Texas and EOGH in New Jersey and has an active program to identify buyers for both of these operations.

This document should be read in conjunction with the audited consolidated financial statements for the year ended September 30, 2018, as well as the earnings releases for the first and second quarters of fiscal 2019.

USE OF NON-GAAP MEASURES

This document contains "non-GAAP financial measures," that is, financial measures that either exclude or include amounts that are not excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. Specifically, we make use of the non-GAAP measures "EBITDA" and "Adjusted EBITDA." We also make use of ratios based on these non-GAAP measures.

We define EBITDA as net income (loss) plus (i) income (loss) from discontinued operations, (ii) provision for income taxes, (iii) interest expense, net (including amortization of deferred financing costs), (iv) depreciation, and (v) amortization. In addition, we define Adjusted EBITDA as EBITDA as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance, including transaction costs, certain legal expenses, stock-based compensation, sponsor structuring and management fees, go-private transaction costs, purchase price adjustments and pre-acquisition items, other unusual and non-recurring charges, and other noncash charges. Management believes that EBITDA and Adjusted EBITDA are useful tools for investors and other users of our financial statements in assessing our ability to service and/or incur indebtedness, maintain current operating levels of capital assets and acquire additional operations and businesses. A reconciliation of EBITDA and Adjusted EBITDA to our net income (loss) under generally accepted accounting principles, or GAAP, for certain periods presented in our financial statements is included in this document. However, EBITDA and Adjusted EBITDA are not necessarily comparable to other similarly titled financial measures of other companies due to the potential inconsistencies in the method of calculation. EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered in isolation or as substitutes for analyzing the Company's results as reported under GAAP. Some of these limitations are:

- They do not reflect cash outlays for capital expenditures or future contractual commitments;
- They do not reflect changes in, or cash requirements for, working capital;
- They do not reflect interest expense, or the cash requirement necessary to service interest, or principal payments, on indebtedness;
- They do not reflect income tax expense or the cash necessary to pay income taxes;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect cash requirements for such replacements; and
- Other companies, including other companies in our industry, may not use such measures or may calculate the measures differently than as presented in this earnings release, limiting their usefulness as a comparative measure.

Because of these limitations, EBITDA and Adjusted EBITDA or any related ratio using such measures should be considered only as a supplemental measure in addition to, and not in lieu of, our GAAP income and cash flow statements, and not as a measure of discretionary cash available to invest in business growth or reduce indebtedness.

EQUITY CONTRIBUTION AND DEBT AMENDMENTS IN SECOND QUARTER FISCAL 2019

During Q2 FY19, Ivy Holdings Inc., the ultimate parent company of the Company, made an equity contribution in the amount of $41 million to Ivy Intermediate Holding Inc., which was then contributed as equity to the Company.

Additionally, during Q2 FY19, we entered into three amendments to our Amended and Restated ABL Credit Agreement, by and among Prospect (as the borrower), the lenders party thereto and JPMorgan, as administrative agent and collateral agent (as amended, the "ABL Agreement"). Under these amendments, the maximum revolving commitment increased initially from $250.0 million to $280.0 million, and then to $285.0 million. As part of this, the maximum expansion of the facility has been reduced from $325.0 million to $285.0 million. Additionally, the first amendment provides for $40.0 million of a "first in first out" revolving facility, which bears interest at either 2.5% or 3.5% per annum depending on whether they are Eurodollar loans or ABR loans.

SUBSEQUENT EVENTS

On July 10, 2019, we entered into a Real Property Asset Purchase Agreement with affiliates of Medical Properties Trust, Inc. ("MPT"), a publicly traded Real Estate Investment Trust ("REIT"), which provides for sale-leaseback transactions involving of our properties in California, Connecticut and Pennsylvania. Upon closing of the transactions contemplated in the agreement we will receive $1.55 billion, which will be used to retire our existing term loans and for working capital purposes. The transaction is expected to close in the second half of calendar 2019.

On July 24, 2019, we entered into a fourth amendment to the ABL Agreement that will become effective upon the closing of the aforementioned MPT transactions. Under the amendment, various changes will be made to the ABL Agreement to reflect the closure of the MPT transactions and retirement of our term loans. Additionally, the maximum revolving commitment of $285.0 million will decrease by a total of $20.0 million and $10.0 million related to the future planned dispositions of Nix Health and EOGH, respectively, at the time that we cease to own a majority interest in those facilities.

RECLASSIFICATIONS

During the three months ended March 31, 2019, the Company made the determination to sell the operations of Nix Health in Texas and EOGH in New Jersey. Both are reported in the Hospital Services segment. We have determined that as of June 30, 2019, under applicable accounting literature, both continue to qualify as "held for sale." Accordingly, as of June 30, 2019 and September 30, 2018, the assets and liabilities of these businesses have been classified as held for sale, and the operations (as it relates to revenues and expenses that will no longer continue post sale) have been shown within discontinued operations.

Additionally, certain additional reclassifications have been made to the prior year consolidated financial statements to conform to current year presentation.

CONFERENCE CALL

Management will host a conference call on Tuesday, September 3, 2019 at 1:00 pm PDT / 4:00 pm EDT to discuss these results. Interested parties may participate in the call by dialing Redacted (Domestic) or Redacted (Toll) approximately 10 minutes before the call is scheduled to begin and ask to be connected to the Prospect Medical Holdings conference call. The conference call will be broadcast live over the internet at the following link: Redacted To listen to the live call on the internet, go to the website at least 15 minutes early to register, and download and install any necessary audio software. A replay of the call will be available for 30 days at this link, or by dialing Redacted (Toll-Free) or Redacted (Toll).

(1) Prospect Health Plan, Inc. is an Unrestricted Subsidiary as of June 30, 2016 pursuant to the Company's Term Loan and ABL Credit Agreements entered into on that date and subsequently pursuant to the Amended and Restated Term Loan and ABL Credit Agreements entered into on February 22, 2018 and amended from time to time thereafter.

Hospital Services Segment

The following table sets forth the results of operations for our Hospital Services segment for the three and nine months ended June 30, 2019 and 2018, respectively. Hospital services expenses do not include allocation of corporate overhead or interest expense - see "Corporate Segment" on page 20. Prior to October 1, 2018, the hospital segment included expenses which we deem to be "true" corporate overhead. Such expenses were previously recorded in the hospital segment, but effective October 1, 2018 are now recorded in the corporate segment. This has no impact on the consolidated financial statements. Such amount that was included in the corporate segment in Q3 FY19 was $4.7 million, and $20.6 million for Q3 FY19 year-to-date.

In March 2019, the Company made the determination to sell the operations of Nix Health in Texas and EOGH in New Jersey. Both are reported in the Hospital Services segment. We have determined that as of June 30, 2019, under applicable accounting literature, both qualify as "held for sale." Accordingly, the income statements below present the operations of Nix Health and EOGH within discontinued operations and represent revenues and expenses that will not continue after the respective sales of these facilities.

Operating income	$ 17,126	$ 42,152	$ 41,011	$ 178,405

The table above reflects out of period California Hospital Fee program ("QAF") revenues and EBITDA of $126.2 million and $65.3 million, respectively, that was recognized during the first quarter of fiscal 2018.

Certain amounts have been reclassified for consistency with current quarter presentation. These reclassifications had no effect on the overall consolidated reported results of operations.

The table below reflects the revenues and expenses recorded related to supplemental reimbursement programs.

(Unaudited, in thousands)	Three Months Ended June 30,		Nine Months Ended June 30,	
	2019	2018 (2)	2019	2018 (2)
California Hospital Fee program revenues	$ 40,991	$ 38,633	$ 122,972	$ 115,900
California Hospital Fee program expenses	(17,926)	(16,833)	(53,777)	(50,501)

Total Hospital Services operating expenses	(36,239)	(34,938)	(108,718)	(107,700)
Total net pre-tax impact	$ 29,220	$ 22,232	$ 83,868	$ 77,564

Summarized financial information for discontinued operations is included below (in thousands). Note that the segment financial statements exclude the effect of taxes, but these are included in the table below to reconcile to the consolidated financial statements on page 5. Further, as discussed on page 9, in FY18 we allocated corporate overhead to the hospitals. The numbers in the table below exclude the impact of such overhead, in line with applicable accounting literature.

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2019	2018	2019	2018
Net Hospital Services	$ 44,623	$ 50,808	$ 152,436	$ 159,191

MPT CONFIDENTIAL

The following table shows certain selected historical operating statistics for our hospitals for the three and nine months ended June 30, 2019 and 2018, respectively, for continuing operations:

(Unaudited)	Three Months Ended June 30,			Nine Months Ended June 30,		
Dollars in thousands	2019	2018	Increase (Decrease)	2019	2018	Increase (Decrease)
Number of hospitals at end of period	16	16	0%	16	16	0%
Licensed beds at end of the period	3,077	3,077	0%	3,077	3,077	0%
Average staffed beds	1,772	1,757	1%	1,772	1,757	1%
Occupancy rate for staffed beds (1)	85.9%	93.6%	-8%	88.4%	93.0%	-5%
Admissions (2)	22,306	24,073	-7%	69,685	71,130	-2%
Adjusted patient admissions (3)	40,001	41,917	-5%	122,728	123,708	-1%
Patient days	138,488	149,647	-7%	427,762	445,789	-4%
Adjusted patient days (4)	250,485	264,525	-5%	761,021	773,316	-2%
Average length of patients' stay (days) (5)	6.2	6.2	0%	6.1	6.3	-2%
Outpatient visits (6)	645,126	647,200	0%	1,924,974	1,906,307	1%
Surgeries	19,152	18,305	5%	56,194	56,804	-1%
Net inpatient revenues (7)	$ 357,437	$ 362,709	-1%	$ 1,062,978	$ 1,195,322	-11%
Net inpatient revenue per admission	$ 16,024	$ 15,067	6%	$ 15,254	$ 16,805	-9%
Net inpatient revenue per adjusted admission	$ 8,936	$ 8,653	3%	$ 8,661	$ 9,662	-10%
Net inpatient revenue per patient day	$ 2,581	$ 2,424	6%	$ 2,485	$ 2,681	-7%
Net inpatient revenue per adjusted patient day	$ 1,427	$ 1,371	4%	$ 1,397	$ 1,546	-10%
CA Hospital Fee Program revenues (8)	$ 40,991	$ 38,633	6%	$ 122,972	$ 115,900	6%
CA Hospital Fee Program revenues - OOP (8)	$ -	$ -	0%	$ -	$ 126,196	-100%
Net inpatient revenues excluding CA Program revenues (7)	$ 316,446	$ 324,076	-2%	$ 940,006	$ 953,226	-1%
Capitation revenues	$ 41,204	$ 38,596	7%	$ 118,053	$ 119,228	-1%
Other hospital services revenues (9)	$ 5,426	$ 5,252	3%	$ 14,956	$ 14,463	3%
Net outpatient revenues	$ 237,038	$ 240,934	-2%	$ 702,920	$ 694,368	1%
Net outpatient revenue per visit	$ 367	$ 372	-1%	$ 365	$ 364	0%
Other revenues (9)	$ 11,852	$ 11,189	6%	$ 36,257	$ 37,205	-3%

(1) The occupancy rate for staffed beds represents average daily census in the period divided by staffed beds. Occupancy rates are affected by many factors, including the population size and general economic conditions within particular market service areas, the degrees of variation in medical and surgical products, outpatient use of hospital services, quality and treatment availability at competing hospitals, and seasonality.

(2) Charity care admissions represented 0.2% and 0.2% of total admissions for the three months ended June 30, 2019 and 2018 and 0.1% and 0.4% for the nine months ended June 30, 2019 and 2018, respectively. Loss in revenue due to charity write offs represented $0 million and $1.8 million for the three months ended June 30, 2019 and 2018 and $2.3 million and $8 million for the nine months ended June 30, 2019 and 2018, respectively.

(3) Adjusted patient admissions are total admissions adjusted for outpatient volume. Adjusted patient admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient charges and gross outpatient charges and then dividing the resulting amount by gross inpatient charges.

(4) Adjusted patient days are total patient days adjusted for outpatient volume. Adjusted patient days are computed by multiplying patient days (inpatient volume) by the sum of gross inpatient charges and gross outpatient charges and then dividing the resulting amount by gross inpatient charges.

(5) Average length of patients' stay ("ALOS") is calculated by dividing total discharged patient days by total patient discharges during the period, and includes the length of patients' stay related to acute, psychiatric, sub-acute, and rehabilitation services.

(6) The outpatient visits for the nine months ended June 30, 2019 and the three and nine month periods ended June 30, 2018 periods reflect changes from previously disclosed numbers to include outpatient visits, emergency room visits and urgent care visits for all facilities disclosed.

(7) Net inpatient revenues include self-pay revenues of $4.7 million and $8.4 million for the three months ended June 30, 2019 and 2018, respectively; and $19.9 million and $20.6 million for the nine months ended June 30, 2019 and 2018, respectively.

(8) This item excludes $126.2 million of California Hospital Fee Program revenues applicable to periods prior to fiscal 2018, but recognized in Q1 of FY18, which are shown in the second line item separately (titled "CA Hospital Fee Program revenues - OOP").

(9) Other hospital service revenues consist of revenues earned from ancillary and other hospital operations, while other revenues consist primarily of rental income, tuition revenue from the St. Joseph Health Services of Rhode Island School of Nursing, and Crozer Health Club membership and other revenues.

Results of Operations - Q3 FY19 vs Q3 FY18

- Hospital services revenues before provision for bad debts was $641.1 million for Q3 FY19 compared to $647.5 million for Q3 FY18, and bad debt expense was flat at $25.3 million. While net revenues decreased quarter over quarter, as noted in the FY18 earnings release, we recorded significant entries to reduce revenues and accounts receivable in Q4 FY18, of which approximately $24 million related to Q3 FY18. This primarily pertained to a change in the patient accounts receivable ("AR") valuation model at Crozer Keystone Health System in Pennsylvania ("Crozer") from one based on expected contractual reimbursements to a model based on a paid claims rate methodology, effective September 30, 2018, to reduce complexities and more accurately reflect the value of patient accounts to collection trends. Normalizing for this change in estimation, net revenues (after bad debts) increased by 3% quarter over quarter, due to an increase in the number of surgeries, increased reimbursements related to both contractual increases and better payment collection trends, as well as better trends in denials and collections on such denials. Additionally, supplemental funds increased (see page 10) and capitation revenues increased due to an increase in the number of enrolled members.
- Salaries, wages and benefits ("SWB") decreased from $316.5 million during Q3 FY18 to $311.1 million during Q3 FY19. While adjusted patient days decreased by 5%, the decrease in SWB expense was offset by union rate increases and also an increase in employee benefits expense, offset by transfers of "true corporate" (as discussed above) to the Corporate segment of $4.2 million.
- Supplies expense increased from at $60.3 million in Q3 FY18 to $63.4 million in Q3 FY19 as a result of the increase in the number of surgeries and the mix of the surgeries performed.
- Capitation expense increased from $35.8 million in Q3 FY18 to $38.1 million to Q3 FY19, due to an increase in the number of enrolled members. We recognize revenue and expenses in the Hospital Services segment for global capitation arrangements for which hospitals in our Hospital Services segment are responsible for the provision of care to members under such arrangements.
- Other operating expenses increased from $81.1 million in Q3 FY18 to $84 million in Q3 FY19. The increase in operating expenses in Q3 FY19 compared to Q3 FY18 is due to increased purchased services, offset by transfers of "true corporate" (as discussed above) to the Corporate segment of $0.5 million and professional fees (driven in part by a new physician group that started in FY19 at CharterCARE).
- Hospital G&A expense increased from $74.2 million in Q3 FY18 to $83.3 million in Q3 FY19, in part driven by increases in professional liability insurance, increase in purchased services due to Cerner at Waterbury and certification and CMS visit at Culver, offset by reclassifications to other operating expenses at CharterCARE Health Partners in Rhode Island ("CharterCARE").
- Depreciation and amortization expense increased from $19.1 million in Q3 FY18 quarter to $23.1 million in Q3 FY19 as a result of assets being put into service, for example the EHR system at Waterbury.
- Income from unconsolidated joint ventures was $215,000 for Q3 FY18 compared to $4.4 million in Q3 FY19. Income from unconsolidated joint ventures consists of equity method income related joint venture interests owned by CharterCARE, Crozer, Waterbury Hospital in Connecticut ("Waterbury") and Eastern Connecticut Health Network ("ECHN") and other equity method investments. The increase was driven by an increase in the net assets at a joint venture at Waterbury due a donation.
- Loss from discontinued operations increased from a loss of ($4.4 million) in Q3 FY18 to a loss of ($12.1 million) in Q3 FY19, as a result of a decline in net revenues at both Nix Health and EOGH as well as increases in SWB, and an increase in purchased services (primarily related to the implementation of the new EHR system at EOGH in November 2018, for which fees cannot be capitalized post "go live"). Loss from discontinued operations reflects the net income (before tax provision) for our operations at Nix Health and EOGH, which we made the decision in Q2 FY19 to sell.

Results of Operations - YTD Q3 FY19 vs YTD Q3 FY18

- Hospital services revenues before provision for bad debts was $1,836.3 million for YTD Q3 FY19 compared to $1,951.2 million for YTD Q3 FY18, and bad debt expense decreased from $72.2 million in YTD Q3 FY18 to $62.6 million in YTD Q3 FY19. Excluding the impact of revenues recorded under the California Hospital Fee Program during Q1 FY18 of $126.2 million, due to the timing of the approval of the program by the Centers for Medicare & Medicaid ("CMS"), that relate to the period from January 1, 2017 to September 30, 2017, hospital services revenues before provision for bad debts increased by 0.6% to $1,836.3 million for YTD Q3 FY19 compared to $1,825.0 million for YTD Q3 FY18. As noted in the FY18 earnings release, we recorded significant entries to reduce revenues and accounts receivable in Q4 FY18, of which approximately $47 million related to YTD Q3 FY18. Most of this reduction pertained to a change in the patient accounts receivable ("AR") valuation model at Crozer from one based on expected contractual reimbursements to a model based on a paid claims rate methodology, effective September 30, 2018, to reduce complexities and more accurately reflect the value of patient accounts to collection trends. Normalizing for this change in estimation, net revenues (after bad debts) increased by 3% between the fiscal year to date periods due to increased reimbursements related to both contractual increases and better payment collection trends, as well as better trends in denials and collections on such denials. Additionally, supplemental funds increased (see page 10).
- SWB increased from $923.6 million during YTD Q3 FY18 to $943.3 million during YTD Q3 FY19. While this represents an increase of approximately 2%, the reduction in costs driven by a 2% reduction in adjusted patient days was offset by union rate increases, an increase in employee benefits expense (driven by additional 401(k) contributions at Crozer, for which the expense in the prior YTD period was trued up in Q4 FY18), and the acquisition of a medical practice at Crozer in March 2018, and offset by transfers of "true corporate" (as discussed above) to the Corporate segment of $13.3 million.
- Supplies expense increased slightly from $180.7 million in YTD Q3 FY18 to $184.5 million in YTD Q3 FY19.
- Capitation expense decreased from $112.9 million in YTD Q3 FY18 to $112.0 million to YTD Q3 FY19, due to a slight decrease in the number of enrolled members. We recognize revenue and expenses in the Hospital Services segment for global capitation arrangements for which hospitals in our Hospital Services segment are responsible for the provision of care to members under such arrangements.
- Other operating expenses decreased from $295.1 million in YTD Q3 FY18 to $253.4 million in YTD Q3 FY19. Excluding expense related to out of period QAF, other operating expenses in YTD Q3 FY18 were $234.0 million. The increase in operating expenses in YTD Q3 FY19 compared to the normalized operating expenses is due to increased purchased services (related to (i) the implementation of our electronic health records ("EHR") systems at Waterbury in November 2018, for which fees cannot be capitalized post "go live"; (ii) an increase in third party fees for TAR denials in California; (iii) reclassification from Hospital General and Administrative ("G&A") costs at CharterCARE), and professional fees (driven in part by a new physician group that started in FY19 at CharterCARE), offset against a fall in registry expense and by transfers of "true corporate" (as discussed above) to the Corporate segment of $7.2 million.
- Hospital General and Administrative ("G&A") expense increased from $237.5 million in YTD Q3 FY18 to $248.7 million in YTD Q3 FY19.
- Depreciation and amortization expense increased from $56.0 million in YTD Q3 FY18 to $67.4 million in YTD Q3 FY19 as a result of additional assets being put into service, for example the new EHR system at Waterbury.
- Income from unconsolidated joint ventures was $1.2 million for YTD Q3 FY18 compared to $6.0 million for YTD Q3 FY19. Income from unconsolidated joint ventures consists of equity method income related to CharterCARE, Crozer, ECHN and Waterbury joint ventures and other equity method investments. The increase was driven by an increase in the net assets at a joint venture at Waterbury due to a donation.
- Loss from discontinued operations decreased from a loss of ($5.5 million) in YTD Q3 FY18 to a loss of ($28.2 million) in YTD Q3 FY19, as a result of decline in net revenues at both Nix (related to an unfavorable patient mix) and at EOGH (due to lower admissions and a revised AR valuation model adopted on September 30, 2018) as well as increases in SWB and other operating expenses, offset by decreases in G&A expenses, at both Nix Health and EOGH. Loss from discontinued operations reflects the net income (before tax provision) for our operations at Nix Health and EOGH, which we made the decision in Q2 FY19 to sell.

Medical Group Segment

The following table sets forth the results of operations for our Medical Group operations for the three and nine months ended June 30, 2019 and 2018. Cost of revenues does not include allocation of corporate overhead or interest expense - see "Corporate Segment" on page 20.

(Unaudited, in thousands)	Three Months Ended June 30, 2019	Three Months Ended June 30, 2018	Nine Months Ended June 30, 2019	Nine Months Ended June 30, 2018
Medical Group revenues:				
Capitation	$ 77,648	$ 75,327	$ 229,665	$ 226,533
Management fees	4,670	1,435	10,323	5,701
Other operating revenues (1)	11,204	7,646	31,863	22,822
Total Medical Group revenues	93,521	84,408	271,851	255,056
Medical Group cost of revenues:				
PCP capitation	11,588	12,238	35,294	36,804
Specialist capitation	12,430	11,295	38,333	32,143
Claims expense	35,103	36,120	108,055	104,918
Physician incentives	7,343	3,132	14,952	9,540
Other cost of revenues	292	325	558	2,732
Total Medical Group cost of revenues	66,756	63,110	197,193	186,138
Gross margin	26,765	21,298	74,658	68,919
General and administrative	17,184	16,843	50,907	51,638
Depreciation and amortization	921	846	2,685	2,429
Total other expenses	18,104	17,689	53,593	54,067
Income from unconsolidated joint ventures	47	-	(35)	(95)
Operating income	$ 8,708	$ 3,609	$ 21,031	$ 14,757
Medical cost ratio	76.1%	79.2%	79.1%	76.8%

The following table sets forth the approximate number of members, by category, as of June 30, 2019 and 2018:

(Unaudited, in thousands)	As of June 30, 2019	As of June 30, 2018
Commercial - owned	69.3	75.0
Commercial - managed (2)	14.1	4.0
Senior - owned	32.6	32.3
Senior - managed (2)	5.3	1.6
Medicaid - owned (5)	76.3	83.1
Medicaid - managed (2) (5)	21.9	22.4
Health Insurance Exchange - managed (2) (3)	19.7	19.4
Value Based Reimbursement (4)	223.5	230.1
	462.7	467.9

(1) Other operating revenues primarily consist of payments from HMOs under pay-for-performance programs and are recognized each year once the amounts of such items are known, as well as patient service revenues related to clinical operations.

(2) Represents members that we manage on behalf of third parties in exchange for a monthly management fee.

(3) Our management services company is party to an agreement with one of our major HMOs to manage the provision of medical services to members enrolled under the Patient Protection and Affordable Care Act ("PPACA") Health Insurance Exchange program. We receive a fixed per member per month management fee under the program and do not share in the risk for medical services for such members.

(4) Value Based Membership is also defined as population under management. We have direct contracts with multiple Health Plans in all of the states where we operate for the provision of quality care services to the population under management improving care delivery to the members in most cost-efficient manner for a fixed infrastructure payment. In many of the contracts, we also receive variable revenue called Pay for Performance for improving health scores and closing quality gaps. In addition, in some of the contracts, we are also eligible for upside and downside sharing of risk pools for the population under management.

(5) The decrease in Medicaid membership period over period is due to decrease of approximately 6,000 members (owned) from a health plan, and loss of managed Medicaid membership due to a contract which was terminated effective April 30, 2018.

Results of Operations - Q3 FY19 vs Q3 FY18

Medical Group Revenue

- Capitation revenue increased 3.1% to $77.6 million for Q3 FY19 from $75.3 million for Q3 FY18. The increase of $2.3 million relates to a $4.8 million increase in per-member-per month ("PMPM") rate in our Senior line of business as well has higher Senior membership, offset by a decline of $2.5 million due to net membership losses in our Medicaid and Commercial lines of businesses.

- Management fee revenue for managing third-party Independent Physician Group ("Managed IPA") increased 225.4% to $4.7 million for Q3 FY19 from $1.4 million for Q3 FY18. The increase was primarily due to increase in Managed IPAs' revenues, along with addition of two new Managed IPAs in Q3 FY19. Management fees range from 6.5% to 10.0% of revenues, depending on the type of revenue.

- Other operating revenue, which contains incentive, hospital and shared risk pool revenues, increased 46.5% to $11.2 million for Q3 FY19 from $7.6 million for Q3 FY18. The increase was primarily due to improved hospital risk pool performance as a result of lower admissions from better management of patients' utilizations of hospital services as well as higher capitation revenue resulting from higher PMPM in our Senior line of business.

Medical Group Operating Expenses

- Primary care physician ("PCP") capitation expense decreased 5.3% to $11.6 million for Q3 FY19 compared to $12.2 million for Q3 FY18. PCP capitation expense as a percentage of capitation revenues decreased from 16.2% to 14.9% due to higher capitation revenue.

- Specialist capitation expense increased 10.1% to $12.4 million for Q3 FY19 from $11.3 million for Q3 FY18. Specialist capitation expense as a percentage of capitation revenues increased to 16.0% from 15.0%. The increase in specialist capitation expense as a percentage of capitation revenues was primarily due to a strategic effort to convert certain high cost specialists from fee for service to capitated arrangements.

- Claims expense decreased 2.8% to $35.1 million for Q3 FY19 from $36.1 million for Q3 FY18. Claims expense as a percentage of capitation revenues decreased to 45.2% for Q3 FY19 from 48.0% for Q3 FY18. The decrease was primarily due to the strategic effort to convert certain high cost specialists from fee for service to capitated arrangements.

- Physician incentives expense increased 134.5% to $7.3 million for Q3 FY19 from $3.1 million for Q3 FY18. The increase was primarily attributable to payments for improved quality and profitability on profit sharing arrangements with contracted medical groups to improve quality of care and management of costs.

- Other cost of revenues was unchanged from Q3 FY19 compared to Q3 FY18.

Medical Cost Ratio and Gross Margin

- Medical care costs as a percentage of Medical Group capitation revenues (the medical cost ratio, a non-GAAP measure) decreased to 76.1% for Q3 FY19 from 79.2% for Q3 FY18, and gross margin as a percentage of total revenue, increased to 28.6% for Q3 FY19 from 25.2% for Q3 FY18. These changes were the result of items discussed above.

General and Administrative

- G&A expenses increased 2.0% to $17.2 million for Q3 FY19 from $16.8 million for Q3 FY18. G&A expenses as a percentage of total Medical Group revenues decreased to 18.4% for Q3 FY19 from 20.0% for Q3 FY18. The increase in G&A expenses was primarily due to higher cost incurred related to professional services.

Depreciation and Amortization

- Depreciation and amortization expense was $0.9 million for Q3 FY19 and $0.8 million for Q3 FY18.

Income (Loss) from Unconsolidated Joint Ventures

- Income (loss) from unconsolidated joint ventures (our 50% partnership interest in AMVI/Prospect Medical Group) was income of $47,000 and $0 for Q3 FY19 and Q3 FY18, respectively.

Results of Operations - YTD Q3 FY19 vs YTD Q3 FY18

Medical Group Revenue

- Capitation revenue increased 1.4% to $229.7 million for Q3 FY 19 from $226.5 million for Q3 FY 18. We experienced $3.2 million increase in revenues from overall favorability of per-member-per month ("PMPM") rates due to $8.6 million increased our Senior line of business from a combination of higher PMPM and increase in membership, offset by a decline in revenues of $5.4 million due to net membership losses from our Commercial and Medicaid lines of businesses.

- Management fee revenue increased 81.1% to $10.3 million for Q3 FY19 from $5.7 million for Q3 FY18. The increase was primarily due to increase in Managed IPAs' revenues, along with addition of two new Managed IPA in Q3 FY19. Management fees range from 6.5% to 10.0% of revenues, depending on the type of revenue.

- Other operating revenue, which contains incentive, hospital and shared risk pool revenues, increased 39.6% to $31.9 million for Q3 FY19 from $22.8 million for Q3 FY18. The increase was primarily due to improved hospital risk pool performance as a result of lower admissions from better management of patients' utilizations of hospital services as well as higher capitation revenue resulting from higher PMPM to our Senior line of business.

Medical Group Operating Expenses

- Primary care physician ("PCP") capitation expense decreased 4.1% to $35.3 million for Q3 FY19 compared to $36.8 million for Q3 FY18. PCP capitation expense as a percentage of capitation revenues decreased to 15.4% from 16.2%. The decrease was primarily due to change in membership mix between Commercial, Medicaid and Senior lines of business during the current fiscal year.

- Specialist capitation expense increased 19.3% to $38.3 million for Q3 FY19 from $32.1 million for Q3 FY18. Specialist capitation expense as a percentage of capitation revenues increased to 16.7% from 14.2%. The increase was primarily due to a strategic effort to convert certain high cost specialists from fee for service to capitated arrangements.

- Claims expense increased 3.0% to $108.1 million for Q3 FY19 from $104.9 million for Q3 FY18. Claims expense as a percentage of capitation revenues increased to 47.0% for Q3 FY19 from 46.3% for Q3 FY18. The increase was primarily due to an IBNR deficit of $2 million at Q2 FY18 (which was subsequently corrected in Q4 FY18) and higher claims expense because of higher cost basis of cases in Q3 FY19.

- Physician incentives expense increased 56.7% to $15.0 million for Q3 FY19 from $9.5 million for Q3 FY18. The increase was primarily attributable to payments for improved quality and profitability on profit sharing arrangements with contracted medical groups to improve quality of care and management of costs.

- Other cost of revenues was $0.6 million for Q3 FY19 compared to $2.7 million for Q3 FY18. The decrease was primarily due to higher recoveries from re-insurance coverage and lower pharmacy costs year-over-year.

Medical Cost Ratio and Gross Margin

- Medical care costs as a percentage of Medical Group capitation revenues (the medical cost ratio, a non-GAAP measure) increased to 79.1% for Q3 FY19 from 76.8% for Q3 FY18, and gross margin as a percentage of total revenue, decreased to 27.5% for Q3 FY19 from 27.0% for Q3 FY18. These changes were the result of items discussed above.

General and Administrative

- G&A expenses decreased 1.4% to $50.9 million for Q3 FY19 from $51.6 million for Q3 FY18. G&A expenses as a percentage of total Medical Group revenues decreased to 18.7% for Q3 FY19 from 20.2% for Q3 FY18.

Depreciation and Amortization

- Depreciation and amortization expense was $2.7 million for Q3 FY19 and $2.4 million for Q3 FY18.

Income (Loss) from Unconsolidated Joint Ventures

- Income (loss) from unconsolidated joint ventures (our 50% partnership interest in AMVI/Prospect Medical Group) was a loss of $(35,000) and $(95,000) for Q3 FY19 and Q3 FY18, respectively.

Global Risk Management Segment

The following table sets forth the results of operations for our Global Risk Management segment for the three and nine months ended June 30, 2019 and 2018. Global Risk Management expenses do not include allocation of corporate overhead or interest expense - see "Corporate Segment" below. Capitation revenue includes net capitation revenue retained by the Global Risk Management segment after transfer of capitation to the Hospital Services and Medical Group segments.

(Unaudited, in thousands)	Three Months Ended June 30,		Nine Months Ended June 30,	
	2019	2018	2019	2018
Global Risk Management revenues:				
Capitation	$ 7,819	$ 8,371	$ 28,330	$ 18,380
Other operating revenues	2,115	719	9,625	3,849
Total Global Risk Management revenues	9,934	9,090	37,954	22,230
Global Risk Management cost of revenues:				
Capitation Expense	285	(239)	303	757
Claims Expense	5,662	6,233	18,053	13,379
Other cost of revenues	2,854	(337)	5,630	(42)
Total Global Risk Management cost of revenues	8,801	5,657	23,986	14,094
Gross margin	1,133	3,433	13,968	8,135
General and administrative	2,496	4,095	13,669	9,636
Total other expenses	2,496	4,095	13,669	9,636
Operating Income (loss)	$ (1,363)	$ (661)	$ 300	$ (1,501)

Results of Operations - Q3 FY19 vs Q3 FY18

Global Risk Management Revenues

The Global Risk Management segment entered into Management Services Agreements with our Medical Group and Hospital Services segments, under which up to 85% of capitation revenue received is transferred to the Medical Group and Hospital Services segments. Capitation and other revenues recognized increased to $9.9 million for Q3 FY19 from $9.1 million for Q3 FY18. During Q3 FY19, capitation revenue received from health plans was $76.2 million, of which $25.8 million and $40.0 million was transferred to our Hospital Services segment and Medical Group segment, respectively. During Q3 FY18, capitation revenue received from health plans was $67.5 million, of which $25.1 million and $31.7 million were transferred to our Hospital Services segment and Medical Group segment, respectively. The increase in capitation revenue relates primarily to the conversion of a contract to Global Risk during FY18. Capitation revenue includes shared risk pool deficit of $(2.6) million and ($2.4) million for the three months ended June 30, 2019 and 2018, respectively.

Global Risk Management Cost of Revenues

Cost of revenues increased to $8.8 million during Q3 FY19 from $5.7 million during Q3 FY18. Cost of revenues consists primarily of claims and other related expense related to capitation retained by the Global Risk Management segment. The increase in cost of revenue from Q3 FY18 to Q3 FY19 is mostly attributable to a $2.8 million increase in physician bonus payout related to prior year performance. Cost of revenues as a percentage of total revenues increased to 88.6% for Q3 FY19 from 62.2% for Q3 FY18.

General and Administrative

G&A expenses decreased to $2.5 million for Q3 FY19 from $4.1 million for Q3 FY18. The decrease in G&A expenses was primarily due to risk pool expense adjustments in the current quarter. G&A expenses as a percentage of total revenues decreased to 25.1% for Q3 FY19 from 45.0% for Q3 FY18.

Results of Operations - YTD Q3 FY19 vs YTD Q3 FY18

The Global Risk Management segment entered into Management Services Agreements with our Medical Group and Hospital Services segments, under which up to 85% of capitation revenue received is transferred to the Medical Group and Hospital Services segments. Capitation and other revenues recognized increased to $38.0 million for YTD Q3 FY19 from $22.2 million for YTD Q3 FY18. During YTD Q3 FY19, capitation revenue received from health plans was $205.5 million, of which $75.8 million and $99.5 million was transferred to our Hospital Services segment and Medical Group segment, respectively. During Q3 FY18, capitation revenue received from health plans was $192.7 million, of which $77.2 million and $88.8 million were transferred to our Hospital Services segment and Medical Group segment, respectively. The increase in capitation revenue relates primarily to the conversion of a contract to Global Risk during FY18. Capitation revenue includes shared risk pool deficit of $(2.0) million and ($8.4) million for the nine months ended June 30, 2019 and 2018, respectively.

Global Risk Management Cost of Revenues

Cost of revenues increased to $24.0 million during YTD Q3 FY19 from $14.1 million during YTD Q3 FY18. Cost of revenues consists primarily of claims and other related expense related to capitation retained by the Global Risk Management segment. The increase in cost of revenue from Q3 FY18 to Q3 FY19 is attributable to a $4.7 million increase in claims expense and a $3.9 million increase in physician bonus related to prior year performance. The increase in claims expense is consistent with the increase in capitation revenue. Cost of revenues as a percentage of total revenues slightly decreased to 63.2% for YTD Q3 FY19 from 63.4% for YTD Q3 FY18.

General and Administrative

G&A expenses increased to $13.7 million for YTD Q3 FY19 from $9.6 million for YTD Q3 FY18. The increase in G&A expenses was primarily due to an increase in SWB, professional fees and management fees to support the transition of health plans to Global Capitation programs. In addition, there was a $2 million salary true up in a prior fiscal quarter that was booked in Q4 FY18. G&A expenses as a percentage of total revenues decreased to 36.0% for YTD Q3 FY19 from 43.3% for YTD Q3 FY18.

MPT CONFIDENTIAL MPT_PROSPECT_00007025

Corporate Segment

The Corporate segment primarily reflects certain expenses incurred at Prospect not specifically allocable to the Hospital Services, Medical Group, or Global Risk Management segments. These include, but are not limited to: salaries, benefits and other compensation for corporate employees; financing expenses; insurance expenses; rent; legal fees; and accounting fees. Additionally, this segment includes operations of two captive insurance companies. Prospect Medical Holdings Risk Retention Group, Inc. ("RRG"), incorporated in the state of Vermont, provides primary insurance coverage for hospital and physician professionals and general liability risks for Crozer. In addition, the Company has a captive insurance company based in the Cayman Islands, Connecticut Healthcare Insurance Company ("CHIC"), which provides hospital and physician professional and general liability coverage to all the Company's hospitals and affiliated subsidiaries, except for Crozer and its Pennsylvania subsidiaries. Effective January 1, 2018, ownership of CHIC was transferred from Prospect ECHN, Inc. to Prospect Medical Holdings, Inc. As such, from that date the results of operations for CHIC are included in the Corporate Segment. The Company does not allocate interest expense related to acquisition debt or income taxes to the other reporting segments. Prior to October 1, 2018, the hospital segment included expenses which we deem to be "true" corporate overhead. Such expenses were previously recorded in the hospital segment, but effective October 1, 2018 are now recorded in the corporate segment. This has no impact on the consolidated financial statements. Such amount that was transferred to the corporate segment in Q3 FY19 was $4.7 million, and $20.6 million for year-to-date ending June 30, 2019.

The following table summarizes our corporate expenses for the three and nine months ended June 30, 2019 and 2018:

(Unaudited, in thousands)	Three Months Ended June 30, 2019	Three Months Ended June 30, 2018	Nine Months Ended June 30, 2019	Nine Months Ended June 30, 2018
Corporate revenues:				
Other Revenue	(769)	169	356	175
Gross margin	(769)	169	356	175
Operating Expenses:				
General and administrative (1)	$ 17,396	$ 8,196	$ 54,301	$ 58,158
Depreciation and amortization	1,187	84	3,561	204
Total Corporate Expenses	$ 18,583	$ 8,281	$ 57,861	$ 58,362
Operating loss	(19,352)	(8,112)	(57,505)	(58,187)

Results of Operations - Q3 FY19 vs Q3 FY18

Other Revenue decreased to $(769,000) in Q3 FY19 from $169,000 in Q3 FY18, related to unfavorability in the captive insurance business in the current fiscal year compared to the same fiscal period in the prior year.

G&A expenses increased to $17.4 million during Q3 FY19 from $8.2 million during Q3 FY18. The increase was due primarily to the transfer of true corporate expenses previously recorded in the hospital segment, increases in outside services to support corporate initiatives during FY19 when compared with FY18 and $3.2 million in YTD Q3 FY19 related to risk share claims expense which has not yet been allocated to the hospital and medical group segments.

Results of Operations - YTD Q3 FY19 vs YTD Q3 FY18

Other Revenue increased to $356,000 in Q3 FY19 from $175,000 in Q3 FY18.

G&A expenses decreased to $54.3 million during YTD Q3 FY19 from $58.2 million during YTD Q3 FY18. The decrease was due primarily to bonuses paid in prior fiscal year-to-date, offset by increases in salary due to transfer of true corporate expenses previously recorded in the hospital segment, increases in outside services to support corporate

initiatives during FY19 when compared with FY18 and $3.2 million in YTD Q3 FY19 related to risk share claims expense which has not yet been allocated to the hospital and medical group segments.

Consolidated Results of Operations

Results of Operations - Q3 FY19 vs Q3 FY18

Other (Income) and Expense, Net

Total Other Expense increased to $30.7 million for Q3 FY19 from $29.0 million for Q3 FY18.

Provision / (Benefit) for Income Taxes

The income tax benefit was $3.8 million and expense of $7.1 million for Q3 FY19 and Q3 FY18, respectively.

Loss from Discontinued Operations, net

Net loss from discontinued operations was $8.9 million and $3.0 million for Q3 FY19 and Q3 FY18, respectively. See discussion in Hospital Segment above.

Results of Operations - YTD Q3 FY19 vs YTD Q3 FY18

Other (Income) and Expense, Net

Total Other Expense increased to $100.1 million for YTD Q3 FY19 from $95.8 million for YTD Q3 FY18. The increase was primarily due to higher interest expense because of the debt refinancing that occurred in February 2018 which resulted in increased debt.

Provision / (Benefit) for Income Taxes

The income tax benefit was $18.8 million and expense of $26.2 million for Q3 FY19 and Q3 FY18, respectively.

Loss from Discontinued Operations, net

Net loss from discontinued operations was $23.9 million and $4.3 million for YTD Q3 FY19 and Q3 FY18, respectively. Additionally, we fully impaired the entire $3.1 million of goodwill at Nix Health in March 2019 in connection with the application of the applicable accounting literature. See discussion in Hospital Segment above.

Independent Auditor's Report

Board of Directors
Prospect Medical Holdings, Inc.
Los Angeles, California

We have audited the accompanying consolidated financial statements of Prospect Medical Holdings, Inc. (the "Company"), which comprise the consolidated balance sheets as of September 30, 2019 and 2018, and the related consolidated statements of operations, statements of comprehensive loss, statements of stockholder's deficit, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Prospect Medical Holdings, Inc. and its subsidiaries as of September 30, 2019 and 2018, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

BDO USA, LLP

MPT CONFIDENTIAL MPT_PROSPECT_00007077

1. Organization

Prospect Medical Holdings, Inc. ("Prospect" or the "Company" or the "Parent Entity") is a Delaware corporation and a wholly-owned indirect subsidiary of Ivy Holdings Inc. ("Ivy Holdings").

The Company's operations are currently organized into four primary reportable segments: Hospital Services, Medical Group, Global Risk Management and Corporate, as discussed below.

Hospital Services Segment

As of September 30, 2019, through its subsidiaries, the Company owns 16 acute care and behavioral hospitals and multi-level elder care facilities in Southern California, Rhode Island, Pennsylvania and Connecticut with approximately 3,100 licensed beds, and a network of specialty and primary care clinics. The Hospital Services segment subsidiaries are wholly-owned by Prospect, except for the facilities in Rhode Island, in which Prospect has an 85% interest in the subsidiary that owns such facilities.

Additionally, at September 30, 2019, through its subsidiaries the Company owns 4 acute care and behavioral health hospitals in Texas and New Jersey, which are in the process of being closed or sold. According, and as further discussed in Note 5, for all periods presented the assets and liabilities of these businesses have been classified as "held for sale," and the operations (as it relates to revenues and expenses that will no longer continue post sale) have been shown within discontinued operations. All of the footnotes in these financial statements refer to continuing operations unless otherwise stated.

Admitting physicians are primarily practitioners in the local area. The hospitals have payment arrangements with Medicare, Medicaid and other third party payers, including commercial insurance carriers, health maintenance organizations ("HMOs") and preferred provider organizations ("PPOs").

Medical Group Segment

The Medical Group segment is a healthcare management services organization that provides management services to affiliated physician organizations that operate as independent physician associations ("Medical Groups" or "IPAs"). The affiliated physician organizations enter into agreements with HMOs to provide HMO enrollees with a full range of medical services in exchange for fixed monthly fees ("Capitation"). The Medical Groups contract with physicians (primary care and specialist) and other healthcare providers to provide enrollees with medical services. Prospect currently manages the provision of healthcare services for its affiliated physician organizations in California, Texas, Rhode Island, Connecticut, Pennsylvania and New Jersey. The California network consists of various IPAs that are generally wholly-owned by Prospect Medical Group, Inc. ("PMG") and managed by the two medical management company subsidiaries that are wholly-owned by Prospect. The Company's networks in its other states consist of IPA subsidiaries of Prospect Provider Groups, Inc. The Medical Group segment also owns clinic facilities in California, Rhode Island, Pennsylvania and Connecticut that operate by employing physicians to serve their patients. In California, the clinic facilities are owned through New Genesis Medical Association ("NGMA"). PMG and NGMA are owned by a nominee physician shareholder pursuant to an assignable option agreement, under which Prospect has an assignable option, obtained for a nominal amount from PMG and the nominee shareholder, to designate the purchaser (successor physician) for all or part of PMG's issued and outstanding stock held by the nominee physician shareholder (the "Stock Option") in its sole discretion.

Most of the physician organizations in California and Texas have entered into Management Service Agreements ("MSA") with Prospect Medical Systems Inc., ("PMS"), and have agreed to pay a management fee to PMS, which is based in part on the costs to the management company and on a percentage of revenues. In Rhode Island, Pennsylvania, Connecticut and New Jersey, the physician organizations have entered into Administrative Services Agreements ("ASA") with PMS pursuant to which they have agreed to reimburse PMS for the costs of certain administrative services provided by PMS on their behalf. In return for payment of the management fee, PMS has agreed to provide financial management, information systems, marketing, advertising, public relations, risk management, and administrative support, including for utilization review and quality of care. At its cost, PMS has assumed the obligations for all facilities and employs physician and non-physician personnel for administrative services. The management fee is earned based on a combination of percentage of revenue and share of pre-tax income. The management fees fluctuate based on the revenue and profitability of each physician organization. The MSAs are not terminable by the physician organization except in the case of gross negligence, fraud or other illegal acts, or bankruptcy, of PMS. The services provided under an ASA are more limited than those provided under an MSA and each ASA is terminable by either party upon the delivery of 90 days prior written notice thereof.

Prospect consolidates the revenues and expenses of all the physician organizations (except for one entity that is a 50/50 joint venture, which is accounted for under the equity method) from the respective dates of execution of the Management Agreements. All significant inter-entity balances have been eliminated in consolidation. In the case of the joint venture, only that portion of the results which are contractually identified as Prospect's are recognized in the consolidated financial statements, together with the management fee that the Company charges the joint venture for managing the other owners' share of the joint venture operations.

Prospect has also entered into management services agreements with unaffiliated third parties to manage services to their HMO enrollees. These management agreements do not have characteristics that give rise to the consolidation of the entities under current accounting literature. These management services agreements are terminable in accordance with the agreements.

The affiliated physician organizations provided medical services to a combined total of approximately 445,000 and 442,000 enrollees as of September 30, 2019 and 2018, respectively. The enrollees include approximately 237,000 and 255,000 enrollees that the Company manages for the economic benefit of certain independent third parties, and for which the Company earns management fee income as of September 30, 2019 and 2018, respectively. The total paid member months including managed enrollees, for the years ended September 30, 2019 and 2018 was approximately 5,435,000 and 5,360,000, respectively.

Global Risk Management Segment

The Global Risk Management segment exists in pursuit of the Company coordinated regional care ("CRC") operating model and risk management platform. CRC has subsidiaries in California, Texas, Rhode Island, Pennsylvania, Connecticut and New Jersey, and has accountable care organizations operating in Rhode Island, Pennsylvania and New Jersey. These entities contract with third-party health plans and the Centers for Medicare and Medicaid Services ("CMS") on progressive risk reimbursement models leading to global risk contracts for physicians, other medical services and institutional services including hospital inpatient and outpatient services, home health, skilled nursing facility and other institutional services. In turn, the global risk management entities contract with owned and third-party independent physician associations, owned and third-party hospitals and other health care providers to assume and manage this global risk. Through these contracts, the Company manages health plan member populations with a focus

on delivering coordinated care to members across our network of physicians and providers under risk and value-based contracts. This segment also includes Coordinated Regional Care Group, Inc. ("CRCG"). CRCG incurs development and operating costs related to the Global Risk Management segment for new markets and strategic initiatives.

Corporate Segment

The Company has two captive insurance companies, Prospect Medical Holding Risk Retention Group, Inc. ("RRG"), based in Vermont, and Connecticut Healthcare Insurance Company ("CHIC"), based in the Cayman Islands. RRG was formed to provide primary insurance coverage for hospital and physician professional and general liability risks for the Company's subsidiary health care organizations located in Pennsylvania on a claims-made basis. CHIC provides hospital and physician professional and general liability coverage to all of the Company's hospitals and affiliated subsidiaries except for Prospect Crozer, LLC ("Crozer") and its Pennsylvania subsidiaries. CHIC is an exempted Company with limited liability under the Companies Law of the Cayman Islands and it holds a Class "B(i)" Insurer's License under Section 4(3)(b) of the Cayman Islands Insurance Law 2010. CHIC's principal activity is to issue primary policies for hospital liabilities covering Prospect, its subsidiaries and employees, on a claims-made basis. The Company procured excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general liability, automobile liability, employer's liability, helipad liability and non-owned aircraft liability of the Company and its affiliates. This excess coverage is purchased entirely from unrelated commercial insurers. CHIC also provides a deductible reimbursement policy for workers compensation to the Company's facilities all of which have high deductible program structures or are qualified self-insureds.

On January 1, 2018, CHIC began providing an employee benefit stop-loss policy to all Company subsidiaries. Unlimited excess coverage is purchased from unrelated reinsurance companies.

The Company does not allocate interest expense related to acquisition debt or income taxes to the other reporting segments.

2. Significant Accounting Policies

Principles of Consolidation and Basis of Presentation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and include the accounts of all controlled subsidiaries, of which control is effectuated through ownership of voting common stock or by other means, but do not include the accounts of the parent companies, Ivy Holdings Inc. and Ivy Intermediate Holding Inc. The Company has a variable interest in various entities under the Medical Group segment due to the existence of two call options, under which the Company has the ability to require the holders of all of the voting common stock of the underlying subsidiaries to sell their shares at a fixed nominal price ($1,000) to another designated physician chosen by the Company. This call option agreement represents rights provided through a variable interest other than the equity interest itself that limits the returns that could be earned by the equity holders. In addition, the Company has management agreements with the physician organizations under the Medical Group segment which allows the Company to direct the activities of such physician organizations that most significantly impact their economic performance, retain the right to receive expected residual returns and assume the obligation to absorb losses. Accordingly, the Company is considered to be the primary beneficiary and these entities are consolidated within the accompanying consolidated financial statements.

Operating results for acquisitions are consolidated with the Company's financial statements from their acquisition dates. All significant intercompany balances and transactions have been eliminated in consolidation. Non-controlling interests in less-than-wholly-owned consolidated subsidiaries of the Company are presented as a component of total equity to distinguish between the interests of the Company and the interests of the non-controlling owners.

The consolidation of these entities does not change any legal ownership, and does not change the assets or the liabilities and equity of the Parent Entity as a stand-alone entity. These entities had total revenues of approximately $330,930,000 and $310,720,000 and total net income of approximately $14,245,000 and net loss of approximately $2,184,000 for the years ended September 30, 2019 and 2018, respectively. The assets and liabilities of the variable interest entities are as follows (in thousands):

September 30,	**2019**	2018
Assets		
Total current assets	$ **86,966**	$ 89,882
Total non-current assets	**89,049**	90,465

Total net revenues	**$ 2,849,198**	$ 2,893,888

Hospital Services Segment

Net Patient Service Revenues

Operating revenue of the Hospital Services segment consists primarily of net patient service revenue. The Company reports net patient service revenue at the estimated net realizable amounts from patients and third-party payers and others in the period in which services are rendered. The Company has agreements with third-party payers, including Medicare, Medicaid, managed care and other insurance programs that are paid at negotiated rates. These payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges and per diem payments, as further described below. Estimates of contractual allowances are based upon the payment terms specified in the related contractual agreements. The Company accrues for amounts that it believes may ultimately

MPT CONFIDENTIAL MPT_PROSPECT_00007082

be due to or from the third-party payers. Normal estimation differences between final settlements and amounts accrued in previous years are reported as changes in estimates in the current year. Outstanding receivables, net of allowances for contractual discounts and bad debts, are included in patient accounts receivable in the accompanying consolidated balance sheets.

The following is a summary of sources of patient service revenues (net of contractual allowances and discounts) before provision for bad debts and exclude revenues from discontinued operations (in thousands):

Years ended September 30,	2019	2018
Medicare	$ 822,407	$ 801,222
Medicaid	750,909	874,865
Managed Care	579,141	559,463
Self-Pay/Other	166,528	164,495
Capitation	148,800	157,968
Other	19,371	18,831
Total patient service revenue	$ 2,487,156	$ 2,576,844

A summary of the payment arrangements with major third-party payers follows:

Medicare: Medicare is a federal program that provides certain hospital and medical insurance benefits to persons aged 65 and over, some persons with end-stage renal disease and certain other beneficiary categories, including eligible disabled persons. Most inpatient hospital services rendered to Medicare program beneficiaries are paid on a fee-for-service basis at prospectively determined rates per discharge, according to a patient classification system based on clinical, diagnostic, and other factors. Most outpatient services also are paid on a fee-for-service basis generally using prospectively determined rates. The Company receives, as appropriate, Medicare disproportionate share hospital ("DSH") and bad debt payments at tentative rates, with final settlement determined after submission of the annual Medicare cost report and audit thereof by the Medicare Administrative Contractor. The Company also receives, as appropriate, Medicare uncompensated care DSH payments, which are generally not subject to cost report audit except to determine eligibility for Medicare DSH. The Company also receives Medicare outlier payments on an ongoing basis during the year for cases that are unusually costly, and under certain circumstances these payments may be reconciled to more closely reflect the costs in excess of outlier thresholds after the submission and audit of the annual Medicare cost report. Normal estimation differences between filed settlements and amounts accrued are reflected in net patient service revenue.

The Company is reimbursed by Medicare for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports and audits thereof by the Medicare Administrative Contractor. The estimated amounts due to or from the program are reviewed and adjusted annually based on the status of such audits and any subsequent appeals. Differences between final settlements and amounts accrued in previous years are reported as adjustments to net patient service revenue in the year that examination is substantially completed.

Although services for most Medicare beneficiaries are paid by the Federal government on a fee-for-service basis, approximately one-third of Medicare beneficiaries are enrolled in a "Medicare Advantage" plan, which is a type of health plan that contracts with the Medicare program to provide hospital and medical benefits to Medicare beneficiaries. Medicare Advantage Plans include Health

MPT CONFIDENTIAL MPT_PROSPECT_00007083

Maintenance Organizations, Preferred Provider Organizations, Private Fee-For-Service Plans, Special Needs Plans, and Medicare Medical Savings Account Plans. For Medicare beneficiaries enrolled in a Medicare Advantage plan, most Medicare services are covered by the plan and are not paid for under fee-for-service Medicare. Certain Medicare Advantage plans make capitation payments to the Company using a "Risk Adjustment model," which compensates providers based on the health status (acuity) of each enrollee. Providers with higher acuity enrollees generally will receive more and those with healthier enrollees will receive less.

Medicaid: Medicaid is a joint federal-state funded healthcare benefit program that is administered by states to provide benefits to qualifying individuals who are unable to afford care. The Company receives reimbursements under the fee-for-service component of Medicaid programs in each state in which it operates at prospectively determined rates for inpatient services and a mixture of fee schedules and cost reimbursement methodologies for outpatient services depending on the specific state regulations. Cost report settlements are recorded based upon as-filed cost reports (if required by the respective facility's state) and adjusted for tentative and final settlements, if any. In addition, in California, Rhode Island, and Pennsylvania, a substantial portion of Medicaid beneficiaries are enrolled in Medicaid managed care organizations. The Company received payments for services furnished to these beneficiaries based on negotiated contract rates or non-contract payment methodologies where the Company does not have a contract with the managed care organization.

The various states in which the Company operates have additional programs in which certain of the Company's facilities participate in, related to medical facilities serving a disproportionate number of low-income patients. The following table shows the revenues generated by these programs during the years ended September 30, 2019 and 2018 (in thousands), which are reflected in Net Hospital Services revenues in the accompanying consolidated statements of operations:

For the years ended September 30,	**2019**	2018
California Medi-Cal Disproportional Share ("CA DSH") *(a)*	**$ 28,967**	$ 13,761
Rhode Island DSH and Upper Payment Limit ("UPL") *(b)*	**20,456**	19,035
Pennsylvania State Programs *(c)*	**68,831**	40,344
Connecticut Medicaid DSH revenue *(d)*	**26,338**	33,152
	$ 144,592	$ 106,292

(a) Revenues are accrued based on the expected total annual awards. Differences between the estimated and the actual awards are recorded in the period they become known, and are subject to retrospective revision prior to finalization, which could lead to material retractions. The Company records retrospective retractions when they are estimable and probable. Retrospective additional revenues are recorded when the amounts are received.

(b) Rhode Island hospitals receive federal and state Medicaid funds as additional reimbursement for treating a disproportionate share of low-income patients. The State of Rhode Island also assesses a license fee to all hospitals in Rhode Island based on each hospital's net patient revenue. The Company recorded $17,565,000 and $16,925,000 of expense during the years ended September 30, 2019 and 2018, respectively, as a result of the license fee.

(c) The Company's Pennsylvania hospitals are participants in Pennsylvania statewide hospital assessment, Medicaid Modernization Assessment ("MMA"), which has been extended through June 30, 2023. The assessments have enabled the Commonwealth of Pennsylvania to maintain

the updated inpatient payment system, make changes to existing disproportionate share/supplemental payments, and to create new payments where applicable. The Company has also recognized revenues from the Pennsylvania Community Access Fund ("CAF").

(d) The Company's hospitals in Connecticut participate in its Medicaid DSH program and receive additional reimbursement for treating a disproportionate share of low-income patients. Connecticut assesses a provider tax based on total net revenue received by a hospital for the provision of inpatient hospital services and outpatient hospital services. The state's 2020/2021 budget eliminated a scheduled reduction in the hospital's tax rates on inpatient and outpatient services by maintaining the rates at fiscal year 2019 levels but requiring the base year for calculating the tax to be adjusted each biennium. The State has made a Medicaid supplemental payment to hospitals for the first quarter of the State's 2020-21 fiscal year prior to obtaining federal approval, and has announced that this payment would be recovered if federal approval was not obtained. The amount of the provider tax has also been the subject of litigation, which was recently settled. However, the final settlement is contingent on federal approval of the state's tax waiver and proposed Medicaid State Plan Amendments, as well as on the state's General Assembly approval and adoption of implementing legislation. The proposed settlement agreement is estimated to have a financial impact on hospitals of approximately $1.8 billion in state and federal funds between now and 2026. The agreement includes a one-time payment or refund of approximately $79 million to hospitals, along with declining taxes on hospitals and corresponding increasing state payments to facilities during the applicable time period. The state can ask the court to modify the agreement if the state's overall costs are between $50 and $100 million, and the state can terminate the agreement if the state's overall costs rise by $100 million.

Managed Care: The Company has also entered into payment agreements with certain commercial insurance carriers, HMOs, and PPOs. The basis for payment under these agreements is in accordance with negotiated contracted rates or at the Company's standard charges for services provided. Some of these payments are capitated, meaning that the Company receives an agreed amount per patient for providing an agreed range of services.

Self-Pay: Self-pay patients represent those patients who do not have health insurance and are not covered by some other form of third party arrangement. Such patients are evaluated, at the time of services or shortly thereafter, for their ability to pay based upon federal and state poverty guidelines, qualifications for Medicaid, as well as the Company's local hospital's indigent and charity care policy.

Laws and regulations governing the third-party payor arrangements are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Normal estimation differences between subsequent cash collections on patient accounts receivable and net patient accounts receivable estimated in the prior year are reported as adjustments to net patient service revenue in the current period.

The following is a summary of due from and due to governmental payers at September 30, 2019 and 2018 (in thousands):

September 30,	**2019**	2018
Due from government payers:		
Medicaid Disproportionate Share	**$ 19,301**	$ 16,545
Medicare cost report settlements	**969**	4,691
Medicaid Section 1115 receivable	**-**	173
	$ 20,270	$ 21,409
Due to government payers:		
Medicare cost report settlements	**$ 19,464**	$ 20,323
Medicaid cost report settlements	**9,142**	8,814
	$ 28,606	$ 29,137

The Company is not aware of any material claims, disputes, or unsettled matters with any payers that would affect revenues that have not been adequately provided for and disclosed in the accompanying consolidated financial statements.

California Hospital Fee Program

The Company recognizes revenues related to supplemental Medi-Cal payments under California provider fee programs. These programs are funded by quality assurance fees paid by participating hospitals and matching federal funds.

Based on formulas contained in the legislation as well as modeling done by the California Hospital Association, the Company recognized supplemental payments, included in net patient service revenue, and quality assurance fee expense, included in general and administrative expenses in the accompanying consolidated statements of operations as follows (in thousands):

Years Ended September 30,	**2019**	2018
Hospital services revenues	**$ 122,976**	$ 284,122
General and administrative expenses	**53,775**	123,996
Net pre-tax impact	**$ 69,201**	$ 160,126

As of September 30, 2019 and 2018, the Company had receivables related to the California Hospital Fee Program of approximately $167,530,000 and $211,454,000, respectively, and had liabilities related to the California Hospital Fee Program of approximately $24,362,000 and $65,996,000, respectively, in the accompanying consolidated balance sheets.

Legislation approved by the State of California in October 2013 created the framework for the hospital fee program to continue in perpetuity without requiring further legislation from California. In November 2016, California voters approved Proposition 52, which made the hospital fee program permanent and prohibits lawmakers from diverting Medi-Cal funds to pay for anything other than their intended purpose.

In December 2017, CMS approved the fee-for-service inpatient and outpatient payments and taxes for the period from January 1, 2017 to June 30, 2019 ("QAF 5"). CMS has not yet approved the amended Health Plan contracts. During the year ended September 30, 2018, the Company recorded revenues under the QAF 5 program of $111.9 million related to periods prior to the current fiscal year. Additionally, the Company recorded revenues related to previous hospital fee programs prior to QAF 5 of $14.6 million during the year ended September 30, 2018. The current cycle of the California Hospital Fee Program relates to the period from July 1, 2019 through December 31, 2021 ("QAF 6"). This cycle has not yet been approved by CMS and accordingly the Company has not recorded any revenues or expenses related to QAF 6 (or any prior program) during the fourth quarter of the year ended September 30, 2019.

Charity Care

The Company provides charity care to patients who lack financial resources and are deemed to be medically indigent based on criteria established under the Company's charity care policy. This care is provided without charge or at amounts less than the Company's established rates. Because the Company does not pursue collection of amounts determined to qualify as charity care, such amounts are not reported as revenue. The direct and indirect costs related to this care totaled approximately $7,559,000 and $8,787,000 for the years ended September 30, 2019 and 2018, respectively. Direct and indirect costs for providing charity care are estimated by calculating a ratio of cost to gross charges and then multiplying that ratio by the gross uncompensated charges associated with providing care to charity patients. In addition, the Company provides services to other medically indigent patients under various state Medicaid programs. Such programs pay amounts that are less than the cost of the services provided to the recipients. The Company has not changed its charity care or uninsured discount policies during the years ended September 30, 2019 and 2018.

Provisions for Contractual Allowances and Bad Debts

Collection of receivables from third-party payers and patients is the Company's primary source of cash and is critical to its operating performance. The Company closely monitors its historical collection rates, as well as changes in applicable laws, rules and regulations and contract terms, to assure that provisions for contractual allowances are made using the most accurate information available. However, due to the complexities involved in these estimations, actual payments from payers may be materially different from the amounts management estimates and records. The Company's primary collection risks relate to uninsured patients and the portion of the bill which is the patient's responsibility, primarily co-payments and deductibles. Payments for services may also be denied due to issues over patient eligibility for medical coverage, the Company's ability to demonstrate medical necessity for services rendered and payer authorization of hospitalization.

Accounts receivable are reduced by an allowance for doubtful accounts. Valuation of the collectability of accounts receivable and provision for bad debts is based on historical collection experience, payer mix and the age of the receivables. Management routinely reviews accounts receivable balances in conjunction with these factors and other economic conditions which might ultimately affect the collectability of the patient accounts, and makes adjustments to the Company's allowances as warranted. For receivables associated with services provided to patients who have third-party coverage, management analyzes contractually due amounts and subsequently calculates an allowance for doubtful accounts and provision for bad debts once the age of the accounts reaches a specific age category based on historical experience. For receivables associated with self-pay patients, management records a significant provision for bad debts beginning in the period services were provided based on past experience that many patients are unable or unwilling to pay the portion of their bill for which they are

financially responsible. The allowance for doubtful accounts as a percent of gross accounts receivable was 35% and 32% at September 30, 2019 and September 30, 2018, respectively. The allowance for doubtful accounts was approximately $165,719,000 and $151,279,000 as of September 30, 2019 and 2018, respectively, and the increase results from a determination at September 30, 2019 to fully reserve for all patient accounts receivable over 365 days old.

Legislation

All of the Company's hospital facilities are subject to the Emergency Medical Treatment and Active Labor Act ("EMTALA"). This federal law requires any hospital that participates in the Medicare program to conduct an appropriate medical screening examination of every person who presents to the hospital's emergency department for treatment and, if the patient is suffering from an emergency medical condition, to either stabilize that condition or make an appropriate transfer of the patient to a facility that can handle the condition. The obligation to screen and stabilize emergency medical conditions exists regardless of a patient's ability to pay for treatment. There are severe penalties under EMTALA if a hospital fails to screen or appropriately stabilize or transfer a patient or if the hospital delays appropriate treatment in order to first inquire about the patient's ability to pay. Penalties for violations of EMTALA include civil monetary penalties and exclusion from participation in the Medicare program. In addition, an injured patient, the patient's family or a medical facility that suffers a financial loss as a direct result of another hospital's violation of the law can bring a civil suit against that other hospital. The Company believes that it is in compliance with EMTALA and is not aware of any pending or threatened EMTALA investigations involving allegations of potential wrongdoing that would have a material effect on the Company's consolidated financial statements.

Medical Group Segment

Medical Group Revenues

Operating revenue of the Medical Group segment consists primarily of payments for medical services procured by certain entities included within the Medical Group segment ("Affiliates") under capitated contracts with various managed care providers including HMOs. Capitation revenue under HMO contracts is prepaid monthly to the Affiliates based on the number of enrollees electing any one of the Affiliates as their health care provider. See "Concentrations of Credit Risks" below for revenues received from the five largest contracted HMOs.

Capitation revenue (net of capitation withheld to fund risk share deficits discussed below) is recognized in the month in which the physician organizations are obligated to provide services. Minor ongoing adjustments to prior months' capitation, primarily arising from contracted HMOs' finalizing of monthly patient eligibility data for additions or subtractions of enrollees, are recognized in the month they are communicated to the Company. Additionally, Medicare pays capitation using a "Risk Adjustment model," which compensates managed care organizations and providers based on the health status (acuity) of each enrollee. Health plans and providers with higher acuity enrollees will receive more and those with healthier enrollees will receive less. Under Risk Adjustment, capitation is determined based on health severity, measured using patient encounter data. Capitation is paid on an interim basis based on data submitted for the enrollee for the preceding year and is adjusted in subsequent periods (generally in the Company's fourth quarter) after the final data is compiled. Positive or negative capitation adjustments are made for Medicare enrollees with conditions requiring more or less healthcare services than assumed in the interim payments. Since the Company cannot reliably predict these adjustments, periodic changes in capitation amounts earned as a result of Risk Adjustment are recognized generally in the fourth quarter when those changes are communicated by the health plans to the Company. During the years ended September 30, 2019 and 2018, the Company returned and recognized as a reduction in revenue,

approximately $1,749,000 and $3,220,000, respectively, as a result of the final Hierarchical Condition Category ("HCC") reconciliation.

HMO contracts also include provisions to share in the risk for hospitalization, whereby the physician organization can earn additional incentive revenue or incur penalties based upon the utilization of hospital services. Typically, any shared risk deficits are not payable until and unless the Company generates future risk sharing surpluses, or if the HMO withholds a portion of the capitation revenue to fund any risk share deficits. At the termination of the HMO contract, any accumulated risk share deficit is typically extinguished. Due to the lack of access to information necessary to estimate the related costs, shared-risk amounts receivable from the HMOs are only recorded when such amounts are known. Risk pools for the prior contract years are generally final settled in the third or fourth quarter of the following fiscal year. For the years ended September 30, 2019 and 2018, Medical Group revenues included approximately $10,482,000 and $7,125,000, respectively, relating to risk-sharing profit. At September 30, 2019 and 2018, contingent liabilities for carry-forward risk-pool deficits expected to be forgiven, or offset against future surpluses were approximately $88,991,000 and $92,700,000, respectively, based on the available information from the health plans.

The Company also receives incentives under "pay-for-performance" programs for quality medical care based on various criteria. These incentives, which are included in other revenues within Medical Group revenues, are generally recorded in the third and fourth quarters of the fiscal year when such amounts are known. Performance and incentive revenues recorded during the years ended September 30, 2019 and 2018 were $11,221,000 and $5,751,000, respectively.

Management fee revenue is earned in the month the services are rendered. Management fee arrangements with unaffiliated entities provide for compensation ranging from 6.5% to 10% of revenues. Management fee revenues recorded during the years ended September 30, 2019 and 2018 were $10,248,000 and $5,656,000, respectively. Management fees for revenue for entities that are consolidated are eliminated on consolidation.

Medical Group Cost of Revenues

The cost of health care services consists primarily of capitation and claims payments, pharmacy costs and incentive payments to contracted providers. These costs are recognized in the period incurred, or when the services are provided. Claims costs also include an estimate of the cost of services which have been incurred but not yet reported to the Company. The estimate for accrued medical costs is based on projections of costs using historical studies of claims paid and adjusted for seasonality, utilization and cost trends. These estimates are subject to trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management records its best estimate of the amount of medical claims incurred at each reporting period. Estimates are continually monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current period. See Note 14 for changes in claims estimates during the years ended September 30, 2019 and 2018.

The Company has contractual reimbursement obligations to providers and discretionary incentive payment obligations to physicians. These payments are in large part predicated on the pay-for-performance, shared risk revenues, and favorable senior capitation risk adjustment payments received by the Company from the health plans. The Company records these revenues generally in the third or fourth quarter of each fiscal year when the incentives and capitation adjustments due from the health plans are known. During this period, the Company also finalizes the physician discretionary incentive.

The Company recorded physician incentives expense of approximately $17,643,000 and $21,669,000 for the years ended September 30, 2019 and 2018, respectively. As of September 30, 2019 and 2018, physician incentive accruals of approximately $14,351,000 and $17,396,000, respectively, were included in accounts payable and other accrued liabilities in the accompanying consolidated financial statements.

The Company also periodically evaluates the need to establish premium deficiency reserves for the probability that anticipated future health care costs could exceed future capitation payments from HMOs under capitated contracts and, where appropriate, records a premium deficiency reserve. There were no such premium deficiencies recorded at September 30, 2019 and 2018, respectively.

The Company, for certain matters, maintains stop loss coverage for health care costs that are in excess of set thresholds.

Global Risk Management Segment

Global Risk Management Revenues

Operating revenue of the Global Risk Management segment consists primarily of payments for medical services procured under global capitation arrangements from third-party health plans. Capitation revenue under these global capitation contracts is prepaid monthly to the Global Risk Management segment based on the number of enrollees. Entities within the Global Risk Management segment entered into Management Services Agreements with the Hospital Services and Medical Group segments, under which up to 98% of capitation revenue received is transferred to these segments. During the years ended September 30, 2019 and 2018, capitation revenue received from health plans was $267,300,000 and $254,795,000, respectively, of which $105,755,000 and $101,563,000, and $120,119,000 and $116,957,000 was transferred to our Hospital Services segment and Medical Group segment, respectively.

Similar to the Medical Group segment, capitation revenue is recognized in the month in which the Global Risk Management segment is obligated to provide services. Minor ongoing adjustments to prior months' capitation, primarily arising from contracted HMOs' finalizing of monthly patient eligibility data for additions or subtractions of enrollees, are recognized in the month they are communicated to the Company. Additionally, Medicare pays capitation using a "Risk Adjustment model," which compensates managed care organizations and providers based on the health status (acuity) of each enrollee. Health plans and providers with higher acuity enrollees will receive more and those with healthier enrollees will receive less. Under Risk Adjustment, capitation is determined based on health severity, measured using patient encounter data. Capitation is paid on an interim basis based on data submitted for the enrollee for the preceding year and is adjusted in subsequent periods (generally in the Company's fourth quarter) after the final data is compiled. Positive or negative capitation adjustments are made for Medicare enrollees with conditions requiring more or less healthcare services than assumed in the interim payments. Since the Company cannot reliably predict these adjustments, periodic changes in capitation amounts earned as a result of Risk Adjustment are recognized generally in the fourth quarter when those changes are communicated by the health plans to the Company. During the years ended September 30, 2019 and 2018, the Global Risk Management Segment recognized capitation risk adjustments of $4,552,000 and $5,155,000, respectively.

Global Risk Management Cost of Revenues

The cost of health care services consists primarily of the transfer of capitation revenue to the Hospital Services and Medical Group segments under the Management Services Agreements, and capitation and claims payments. These costs are recognized in the period incurred, or when the services are provided.

Claims costs also include an estimate of the cost of services which have been incurred but not yet reported to the Company. The estimate for accrued medical costs is based on projections of costs using historical studies of claims paid and adjusted for seasonality, utilization and cost trends. These estimates are subject to trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management records its best estimate of the amount of medical claims incurred at each reporting period. Estimates are continually monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current operations.

The Company also periodically evaluates the need to establish premium deficiency reserves for the probability that anticipated future health care costs could exceed future capitation payments from HMOs under capitated contracts and, where appropriate, record a premium deficiency reserve. There were no such premium deficiencies recorded at September 30, 2019 or 2018.

The Company, for certain matters, maintains stop loss coverage for health care costs that are in excess of set thresholds.

Property, Improvements and Equipment

Property, improvements and equipment are stated on the basis of cost or, in the case of acquisitions, at their acquisition date fair values. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, and amortization of leasehold improvements is provided using the straight-line basis over the shorter of the remaining lease period or the estimated useful lives of the leasehold improvements. Leasehold improvements are generally depreciated over 5 to 40 years, buildings are depreciated over 5 to 40 years, equipment is depreciated over 2 to 15 years and furniture and fixtures are depreciated over 2 to 20 years. Equipment capitalized under capital lease obligations are amortized over the lesser of the life of the lease or the useful life of the asset.

As more fully described in Note 13, the Company is required to comply with certain seismic standards as required by the state of California by dates ranging from February 2021 through June 2022. The useful life of buildings subject to seismic retrofit requirements may be limited if the Company does not make the necessary upgrades by the required compliance date.

Goodwill

Goodwill represents the excess of the consideration paid and liabilities assumed over the fair value of the net assets acquired, including identifiable intangible assets.

Goodwill is not amortized; rather it is reviewed annually for impairment for each reporting unit, or more frequently if impairment indicators arise. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. The Company's annual goodwill impairment test is conducted on July 1. Impairment of goodwill is tested at the reporting unit level, by comparing the reporting unit's carrying amount, including goodwill, to the fair value of the reporting unit. The fair value of the reporting units are estimated. In evaluating whether indicators of impairment exist, the Company considers adverse changes in market value, laws and regulations, profitability, cash flows, ability to maintain enrollment and renew payer contracts at favorable terms, among other factors. The goodwill impairment test is a one-step process which consists of estimating based on a weighted combination of (i) the guideline company method that utilizes revenue or earnings multiples for comparable publicly-traded companies, and (ii) a discounted cash flow model. If the estimated fair value of the reporting unit is less than its carrying value, this indicates that goodwill is impaired, and impairment is recorded based on the deficiency of fair value compared to the carrying value. The

MPT CONFIDENTIAL MPT_PROSPECT_00007091

Company's impairment test related to goodwill during the year ended September 30, 2018 resulted in a full impairment of goodwill related to the Rhode Island facilities. There were no impairment charges during the year ended September 30, 2019.

Intangible Assets

Intangible assets include customer relationships, trade names, and favorable leaseholds. The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. The Company considers assets to be impaired and writes them down to fair value if estimated undiscounted cash flows associated with those assets are less than their carrying amounts. Fair value is based upon the present value of the associated cash flows. Changes in circumstances (for example, changes in laws or regulations, technological advances or changes in strategies) may also reduce the useful lives from initial estimates. Changes in planned use of intangibles may result from changes in customer base, contractual agreements, or regulatory requirements. In such circumstances, management will revise the useful life of the long-lived asset and amortize the remaining net book value over the adjusted remaining useful life. There were no impairments recorded during the years ended September 30, 2019 and 2018.

Insurance Reserves

Medical Malpractice Liability Insurance

The individual physicians who contract with the physician organizations carry their own medical malpractice insurance, some of which may be purchased from RRG or CHIC. In the Hospital Services segment, the Company's hospitals carry professional and general liability insurance to cover medical malpractice claims under claims-made policies. Under the policies, insurance premiums cover only those claims actually reported during the policy term. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims related to occurrences during the policy term but reported subsequent to the policy's termination may be uninsured. The Company's hospitals have a consolidated policy for professional and general liability insurance with separate retentions for each entity. The Pennsylvania MCARE fund provides the $500,000 in excess of $500,000 RRG malpractice coverage for Crozer.

For the current fiscal year, RRG provided primary malpractice insurance ($500,000 per occurrence and $2,500,000 in the aggregate) and general liability ($1,000,000 per occurrence and $2,000,000 in the aggregate). In addition, the RRG provided coverage for losses of $4,000,000 in excess of $1,000,000 for each hospital professional liability claim with no aggregate limit. RRG also provides additional layers of excess coverage over $5,000,000 up to $20,000,000, which are 100% reinsured by third party insurance carriers through multiple layers. The excess coverage provided for general liability is over $10,000,000 up to $50,000,000, which is also 100% reinsured by third party carriers. Additionally, there is $1,000,000 per occurrence and $3,000,000 in the aggregate) coverage for non-healthcare provider professional liability.

During the year ended September 30, 2018, CHIC provided malpractice and general liability ($2,000,000 per occurrence) coverage for all facilities except Crozer and Prospect ECHN, Inc. ("ECHN"). During the year ended September 30, 2019, CHIC provided malpractice and general liability ($5,000,000 per occurrence and $37 million in the aggregate) coverage for all facilities, except Crozer. CHIC also provided an excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general liability, automobile liability, employers' liability, helipad liability and non-owned aircraft liability. The limit provided was $80,000,000 and $60,000,000

MPT CONFIDENTIAL MPT_PROSPECT_00007092

(during the years ended September 30, 2019 and 2018, respectively) for each loss event and in the annual aggregate excess of the primary coverage layers described above. This coverage was fully reinsured by third party carriers.

GAAP requires that a health care organization record and disclose the estimated costs of medical malpractice claims in the period of the incident of malpractice, if it is reasonably possible that liabilities may be incurred and losses can be reasonably estimated. The Company has recognized an estimated liability for incurred but not reported claims and the self-insured risks (including deductibles and potential claims in excess of policy limits) based upon an actuarial valuation of the Company's historical claims experience of its hospitals. At September 30, 2019 and 2018, the total gross claims liability, was $133,300,000 and $73,532,000 and reinsurance recoverable on unpaid losses were $49,552,000 and $12,834,000, respectively, included in other assets on the accompanying consolidated balance sheets, and were estimated using a discount factor ranging from 3.50% to 4.00%.

Workers' Compensation Insurance

The workers' compensation coverage provides the statutory benefits required by law with a $500,000 deductible reimbursement policy provided by CHIC for the Company's entities located in California and Connecticut, and for the year ended September 30, 2019, Pennsylvania (covered in fiscal 2018 for the first $500,000 with a third party carrier). The facilities in Rhode Island were fully insured for workers' compensation claims with no deductible. At September 30, 2019 and 2018, included in accrued salaries, wages and benefits are accruals for uninsured claims and claims incurred but not reported of approximately $29,182,000 and $27,776,000 and reinsurance recoverable on unpaid losses of $3,134,000 and $8,557,000, respectively, included in other assets on the accompanying consolidated balance sheets. The amounts are estimated based upon an actuarial valuation of claims experience, using a discount factor of 4%.

Reserve Methodology

The claims reserve is based on the best data available to the Company. The estimate, however, is subject to a significant degree of inherent variability. The estimate is continually monitored and reviewed, and as the reserve is adjusted, the difference is reflected in current operations. While the ultimate amount of the medical malpractice and workers' compensation claims liability is dependent on future developments, management is of the opinion that the associated liabilities recognized in the accompanying consolidated financial statements are adequate to cover such claims. Management is not aware of any potential claims whose settlement, if any, would have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Stock Options

Ivy Holdings has a stock option plan (the "Ivy Plan"), which is administered by the Compensation Committee of the Ivy Holdings Board. The plan includes an Incentive Stock Option Agreement and a Non-Qualified Stock Option Agreement to be used in connection with the grant of options under the plan. These options granted under the Ivy Plan are exercisable into Ivy Holdings stock and vest based on a number of criteria.

Compensation costs for option awards are measured and recognized in the consolidated financial statements based on their grant date fair value, net of estimated forfeitures over the awards' service period. Options subject to variable accounting treatment are subject to revaluation at the end of each reporting period. The Company uses the Black-Scholes option pricing model and a single option award

approach to estimate the fair value of stock options granted. The fair value of restricted stock grants are determined on the date of grant, based on the number of shares granted and the quoted price or estimated fair market value of the Company's common stock. Equity-based compensation is classified within the same line items as cash compensation paid to employees. Compensation costs related to stock options that vest or are exercisable when certain corporate transactions occur, including a change in control, are recognized at the time that such an event occurs.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with initial maturities of 90 days or less to be cash equivalents. Cash and cash equivalents are primarily comprised of deposits with banks. The Company maintains its cash at banks with high credit-quality ratings.

Restricted Cash

Some of the Company's cash is restricted for various purposes including research, regulatory requirements and letters of credit. The Company is also required to keep restricted deposits by certain HMOs for the payment of claims. Such restricted deposits are classified as a current asset in the accompanying consolidated balance sheets, as they are restricted for payment of current liabilities. Restricted cash also include certificates of deposit with maturity dates of more than 90 days when purchased.

Cash Held in Escrow

The Company holds $70 million of the cash at September 30, 2019 which is held in in escrow and is expected to be contributed to the Company's pension plans during the year ending September 30, 2020.

Restricted Investments

Investments in marketable securities, primarily mutual funds, and are classified as available for sale and are stated at fair value. Unrealized gains and losses are recorded in the statements of other comprehensive income. Investment securities are exposed to various risk, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in values of investment securities could occur in the near term and such changes could materially affect investment. These investments are held in the Company's captive insurance companies and are shown as restricted because the state/local regulators require their approval before dividends or return of capital to the Parent Entity.

Inventories

Inventories of supplies are valued at the lower of amounts that approximate the weighted average cost or net realizable value, which approximates market value, and are expensed as incurred. Inventories consist primarily of medical and surgical supplies and pharmaceuticals.

Internal Use Software

Included within other receivables, prepaid expenses and other current assets are hosting arrangements related to the Oracle suite of products, which are accounted for as service contracts. The gross carrying amount of capitalized service costs was approximately $12,100,000 and $149,000 at September 30, 2019 and 2018, respectively. There is no expected residual value for capitalized costs. At September 30, 2019 and 2018, there was approximately $12,100,000 and $149,000, respectively, of capitalized costs for hosting arrangements accounted for as service contracts that is was in the development stage and amortization is scheduled to commence once the project is complete and ready for its intended use. The

MPT CONFIDENTIAL MPT_PROSPECT_00007094

estimated amortization period is 5 years. There was no amortization expense for the years ended September 30, 2019 and 2018, respectively.

Deferred Financing Costs

Deferred financing costs are amortized over the period in which the related debt is outstanding using the effective interest method and are classified as a deduction from the carrying amount of the related debt. As it relates to MPT liabilities, deferred financing costs are classified in other assets in the accompanying consolidated balance sheets.

Income Taxes

Deferred income tax assets and liabilities are recognized for differences between financial and income tax reporting bases of assets and liabilities based on enacted tax rates and laws. To the extent a deferred tax asset cannot be recognized under the preceding criteria, allowances must be established. The impact on deferred taxes of changes in tax rates and laws, if any, are applied to the years during which temporary differences are expected to be settled and reflected in the financial statements in the period of enactment. The Company recognizes interest and penalties associated with income tax matters and unrecognized tax benefits in the income tax expense line item of the statements of operations. For the year ended September 30, 2018, the Company incurred $2,405,000 of interest and penalties related to income taxes, which were reversed during the year ended September 30, 2019.

An entity is required to evaluate its tax positions using a two-step process. First, the entity should evaluate the position for recognition. An entity should recognize the financial statement benefit of a tax position if it determines that it is more likely than not that the position will be sustained on examination. Next, the entity should measure the amount of benefit that should be recognized for those tax positions that meet the more-likely-than-not test.

A consolidated federal tax return is filed for Ivy Holdings, with the exception of Nuestra Familia Medical Group Inc., ("Nuestra"), which files its own federal tax returns. The Company files separate state tax returns for California, Texas, Rhode Island, Pennsylvania, Connecticut, New Jersey and Florida. The Company's filed tax returns are generally subject to examination by the IRS and state tax boards for 3 to 4 years.

Sale-Leaseback Transactions

The Company evaluates sale-leaseback transactions by determining whether the transaction meets the qualifying criteria to be recognized as a sale-leaseback, including the transfer of risk and rewards of ownership as well as the absence of continuing involvement of the Company. When the qualifying criteria for a sale-leaseback transaction are not met, the Company accounts for the transaction as a financing (see Notes 9 and 10).

Comprehensive Income

Comprehensive income consists of net income and other gains and losses affecting stockholder's equity that, under generally accepted accounting principles, are excluded from net income (loss) attributable to the Company. For the Company, such items consist primarily of unrealized gains or losses on debt and equity securities as well as changes related to pension and other postretirement liabilities that are not recognized immediately in net periodic benefit costs (see Note 12).

Fair Value of Financial Instruments

Financial instruments consist primarily of cash and cash equivalents, restricted cash, restricted investments, patient and other accounts receivables, accrued salaries and benefits, accounts payable and accrued expenses, medical claims and related liabilities, amounts due to government agencies, notes receivable and payable, capital lease obligations, debt, MPT liability and other liabilities. The carrying amounts of current assets and liabilities approximate their fair value due to the relatively short period of time between the origination of the instruments and their expected realization.

Fair Value Measurement

Relevant accounting guidance establishes a framework for measuring fair value and clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

The guidance requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows: Level 1 quoted prices in active markets for identical assets or liabilities; Level 2 quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or Level 3 unobservable inputs for the asset or liability, such as discounted cash flow models or valuations. The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The Company's Level 1 assets include cash and cash equivalents and investments (certificates of deposit and money market mutual funds). The inputs for fair value of goodwill and intangible assets (including long lived assets and intangible assets subject to amortization) would be based on Level 3 inputs as data used for such fair value calculations would be based on discounted cash flows that are not observable from the market, directly or indirectly.

Financial Items Measured at Fair Value on a Recurring Basis

The following table sets forth the Company's financial assets and liabilities measured at fair value on a recurring basis and where they are classified within the hierarchy (in thousands):

September 30, 2019	Total	Level 1	Level 2	Level 3
Mutual funds	$ 29,540	$ 29,540	$ -	$ -
September 30, 2018				
Mutual funds	$ 23,779	$ 23,779	$ -	$ -

The Company's investments are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices. The Company's defined benefit pension plan assets are also measured at fair value (see Note 12).

The Company's carrying amount of long-term debt approximated fair value as of September 30, 2019 and 2018, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00007096

Nonfinancial Items Measured at Fair Value on a Nonrecurring Basis

Nonfinancial assets such as goodwill and identifiable intangible assets are measured at fair value when there is an indicator of impairment and recorded at fair value only when impairment is recognized. The Company performs an annual impairment test on the goodwill, and performs an impairment test on the intangible assets when there are indications of impairment.

During the year ended September 30, 2018, the Company recorded approximately $14,228,000 of impairment relating to goodwill, which is reflected in the accompanying consolidated statements of operations.

The Company uses the discounted cash flow approach and the guideline public company approach to estimate the residual value of the Company's goodwill. The measurement of goodwill is a Level 3 measurement.

The following table provides quantitative information related to the significant unobservable inputs to determine fair value of goodwill as of September 30, 2018:

Residual Value of Goodwill	Valuation Technique	Unobservable Input	Rates
$ -	Discounted Cash Flow	Weighted average cost of capital	9.3%
		Revenue growth rate	2.1% - 2.5%
	Guideline Public Company	LTM revenue multiple	0.5x
		NTM EBITDA multiple	7.0x

There were no nonrecurring measurements as of September 30, 2019.

Concentrations of Credit Risk

Cash and cash equivalents are maintained at financial institutions and, at times, balances may exceed federally insured limits of $250,000 per depositor of each financial institution. The Company has not experienced any losses to date related to these balances.

Financial instruments that potentially subject the Company to concentrations of credit risk consist of receivables due from Medicare, Medicaid, patients, and health plans including shared-risk arrangements.

The Company invests excess cash in liquid securities at institutions with strong credit ratings, following established guidelines relative to diversification and maturities to maintain safety and liquidity. These guidelines are periodically reviewed and modified to take into consideration trends in yields and interest rates and principal risk. Management attempts to schedule the maturities of the Company's investments to coincide with the Company's expected cash requirements. Credit risk with respect to receivables is limited since amounts are generally due from large HMOs within the Medical Group segment and from the Medicare and Medicaid programs within the Hospital Services segment. Management reviews the financial condition of these institutions on a periodic basis and does not believe the concentration of cash or receivables results in a high level of risk.

MPT CONFIDENTIAL MPT_PROSPECT_00007097

For the years ended September 30, 2019 and 2018, the Hospital Services segment received a total of 63% and 65% of its net patient revenues from Medicare and Medicaid programs, respectively, and the Medical Group segment received a total of 65% and 62% for the years ended September 30, 2019 and 2018, respectively, of their capitation revenues from its five largest HMOs, as follows (in thousands):

Years Ended September 30,	2019	% of Total Revenue		2018	% of Total Revenue
Hospital Services:					
Government Payers:					
Medicare	$ 822,407	33%		$ 801,222	31%
Medicaid	750,909	30%		874,865	34%
Total	$ 1,573,316	63%		$ 1,676,087	65%
Medical Group:					
HMO A	$ 61,087	20%	HMO A	60,506	20%
HMO B	35,674	12%	HMO B	35,705	11%
HMO E	34,684	11%	HMO F	32,934	11%
HMO F	34,207	11%	HMO D	32,357	11%
HMO D	32,617	11%	HMO C	27,051	9%
Total	$ 198,269	65%		$ 188,553	62%

The Global Risk Management segment received all of their revenues from seven health plans during the years ended September 30, 2019 and 2018.

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities at the dates, and for the periods, that the consolidated financial statements are prepared. Actual results could materially differ from those estimates. Principal areas requiring the use of estimates include third party settlements, settlements under risk sharing programs, allowances for contractual discounts and doubtful accounts, accruals for medical claims, impairment of goodwill, long-lived assets and intangible assets, share-based payments, professional and general liability claims and workers' compensation claims, reserves for pension obligations and other postretirement benefit reserves, reserves for outcome of legislation and valuation allowances against deferred tax assets.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers (Topic 606)" with an effective date deferred by ASU 2015-14. The core principle of ASU 2014-09 is built on the contract between a vendor and a customer for the provision of goods and services, and attempts to depict the exchange of rights and obligations between the parties in the pattern of revenue recognition based on the consideration to which the vendor is entitled. To accomplish this objective, the standard requires five basic steps: (i)

identify the contract with the customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, (v) recognize revenue when (or as) the entity satisfies a performance obligation. Nonpublic entities will apply the new standard for annual periods beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Three basic transition methods are available — full retrospective, retrospective with certain practical expedients, and a cumulative effect approach. Under the third alternative, an entity would apply the new revenue standard only to contracts that are incomplete under legacy U.S. GAAP at the date of initial application and recognize the cumulative effect of the new standard as an adjustment to the opening balance of retained earnings. That is, prior years would not be restated and additional disclosures would be required to enable users of the financial statements to understand the impact of adopting the new standard in the current year compared to prior years that are presented under legacy U.S. GAAP. The Company is currently evaluating the effect of this guidance on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)". The core principle of ASU 2016-02 is that a lessee should recognize the assets and liabilities that arise from leases, including operating leases. Under the new requirements, a lessee will recognize in the statement of financial position a liability to make lease payments (the lease liability) and the right-of-use asset representing the right to the underlying asset for the lease term. For leases with a term of 12 months or less, the lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from previous GAAP. The standard was originally scheduled to effective for nonpublic entities for fiscal years beginning after December 15, 2019. In November 2019 the FASB issued ASU 2019-10, "Financial Instruments—Credit Losses (Topic 326), Derivatives and Hedging (Topic 815), and Leases (Topic 842)" which delay the effective date by one year to December 2020. The Company is currently evaluating the standard and the impact on its consolidated financial statements and footnote disclosures.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows (Topic 230)". The updated standard addresses eight specific cash flow issues with the objective of reducing diversity in practice. ASU 2016-15 is effective for non-public business entities for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods. Early adoption is permitted. The Company is assessing the impact of the adoption of ASU 2016-15 on its consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The ASU amends ASC Topic 715, Compensation — Retirement Benefits, to require employers that present a measure of operating income in their statements of income to include only the service cost component of net periodic pension costs and net periodic postretirement benefit cost in operating expenses. The ASU also stipulates that only the service cost component of net benefit cost is eligible for capitalization. This guidance is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted as of the beginning of an annual period for which financial statements have not been issued or made available for issuance. Disclosures of the nature of and reason for the change in accounting principle are required in the first interim and annual periods of adoption. The Company is currently evaluating the provisions of ASU 2017-07 and its impact on the Company's consolidated financial position, results of operations and cash flows.

In August 2018, the FASB issued ASU 2018-14, "Compensation - Retirement Benefits - Defined Benefit plans - General (Topic 715-20): Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans", which amends ASC 715 to add, remove and clarify disclosure requirements related to defined benefit pension and other postretirement plans. This ASU is effective for fiscal years ending after December 15, 2021. Early adoption is permitted. The Company is currently evaluating the provision of ASU 2018-14 and its impact on its consolidated financial statements and related disclosures.

Reclassifications

Certain reclassifications were made to the prior year consolidated financial statements in order to conform to the current year presentation, and primarily relate to presentation of discontinued operations (see Note 5).

3. Property, Improvements and Equipment

Property, improvements and equipment, consisted of the following (in thousands):

September 30,	**2019**	2018
Land and land improvements	**$ 68,403**	$ 75,801
Buildings and improvements	**359,570**	316,217
Leasehold improvements	**12,097**	8,758
Equipment	**373,153**	283,008
Furniture and fixtures	**5,288**	4,705
	818,511	688,489
Less: accumulated depreciation	**(342,106)**	(248,162)
	476,405	440,327
Construction in Progress	**62,066**	73,363
Property, improvements and equipment, net	**$ 538,471**	$ 513,690

At September 30, 2019 and 2018, the Company had assets under capitalized leases of approximately $53,861,000 and $31,784,000, respectively, and related accumulated depreciation of $10,771,000 and $12,433,000, respectively.

Depreciation expense was approximately $83,683,000 and $78,153,000 for the years ended September 30, 2019 and 2018, respectively.

Included within equipment is capitalized software costs, which relate to significant system conversions. The estimated amortization period is 5 years. The gross carrying amount of capitalized software for internal use (related to the Cerner suite of products) was approximately $39,538,000 and $14,557,000 at September 30, 2019 and 2018, respectively, and the net carrying amount considering accumulated amortization was approximately $37,449,000 and $14,557,000 at September 30, 2019 and 2018, respectively. There is no expected residual value for capitalized internal-use software. At September 30, 2019 and 2018, there was approximately $28,355,000 and $7,914,000, respectively, of capitalized costs for internal-use software that is in the development stage and amortization is scheduled to commence once the software project is complete and ready for its intended use. Amortization expense was $2,050,000 and $0 for the years ended September 30, 2019 and 2018, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00007100

4. Acquisitions

For the years ended September 30, 2019 and 2018, the Company entered into the following material acquisitions. All business combinations were consistent with the Company's strategic growth plan and were accounted for using the acquisition method of accounting. Operating results for each of the acquisitions have been included in the accompanying consolidated financial statements from the date of acquisition. Goodwill arising is primarily attributable to the synergies expected to arise after the acquisitions, and is expected to be deductible for tax purposes for entities that were asset acquisitions, but is not is expected to be deductible for tax purposes for entities that were stock acquisitions.

All assets acquired and liabilities assumed were at fair value with the exception of the defined benefit pension liabilities and other post retirement employee benefits, which allows for an exception to fair value accounting for business combinations in accordance with GAAP. The recognized tax bases (the amount that is attributable for tax purposes) of the assets and liabilities are compared to the financial reporting values of the acquired assets and assumed liabilities (book bases) to determine the appropriate temporary differences. The Company identified temporary differences related to assumed pension liabilities, due primarily to differences in tax law regarding when a liability is or is not assumed in an asset acquisition; this difference in the treatment of the pension liabilities resulted in the recording of deferred tax assets which are reflected in the acquisition accounting and noted in the tables below.

Transaction costs incurred during the years ended September 30, 2019 and 2018 were immaterial.

2019 acquisitions

The Company completed the acquisitions of 10 physician practices in Connecticut and Pennsylvania for an aggregate purchase price of approximately $400,000. All acquisitions were asset acquisitions.

2018 acquisitions

In December 2017, New University Medical Group LLC ("New UMG") entered into a Second Closing to acquire the remaining assets of University Medical Group ("UMG") that were not acquired in the initial acquisition in December 2014. As consideration for the acquisition, New UMG has assumed certain designated liabilities of the practice, which consists of various loans payable to subsidiaries of the Company, totaling approximately $7.5 million. Post-acquisition, these liabilities are eliminated on consolidation. There was no cash consideration related to the transaction. The remaining assets and liabilities acquired were immaterial and no value was assigned to them in the purchase price allocation, and accordingly goodwill of $7.5 million arises from the acquisition. New UMG's parent company, Prospect CharterCARE Physicians, LLC, dba CharterCARE Medical Associates ("CCMA"), entered into a Post Closing Administrative Services Agreement pursuant to which CCMA and its affiliates provide services to the seller of the practice in connection with its termination of all operations and the wind up its affairs and operations.

The Company completed the acquisitions of four physician practice acquisitions in Connecticut for an aggregate purchase price of approximately $2.6 million, one physician multi-specialty practice in Pennsylvania for a purchase price of $1.6 million (net of working capital adjustments), three physician medical practices in California for an aggregate purchase price of approximately $800,000, and one physician family practice in Rhode Island for $180,000. All acquisitions were asset acquisitions, except for one stock purchase acquisition in Connecticut for a purchase price of $800,000.

MPT CONFIDENTIAL MPT_PROSPECT_00007101

5. Discontinued Operations

During the year ended September 30, 2019, the Company made the determination to sell the operations of Nix Hospital System ("Nix Health") in Texas and East Orange General Hospital ("EOGH") in New Jersey. The initial plan as approved by the Company's Board of Directors in March 2019 was to sell both Nix Health and EOGH as "going concern" businesses. Subsequent to the initial plan, the plans for Nix Health changed as a result of interest in the market place. The decision to sell the acute hospital building as a real estate transaction was made in August 2019. The hospital closed to patient admissions in September 2019 and as of September 30, 2019 had no patients "in-house". The building is under contract for sale for $28.5 million and the sale is expected to close in the second quarter of fiscal 2020. The decision was made in October 2019 to initially consolidate, and then close, the behavioral business. The two behavioral health businesses were closed in November 2019. Efforts are underway to sell the building that is owned and sublease the building that is leased. Negotiations continue with a number of potential buys with respect to the sale of EOGH. The Company's decision to discontinue the operations of each of these entities was based on the strategy of the Company's management in their respective markets and financial results.

Accordingly, as of September 30, 2019 and 2018, the assets and liabilities of these businesses have been classified as "held for sale," and the operations (as it relates to revenues and expenses that will no longer continue post sale) have been shown within discontinued operations.

In connection with the presentation of discontinued operations, the Company was required to test the long lived assets for impairment as of September 30, 2019. As part of that impairment test: (i) goodwill at Nix Health was fully impaired; (ii) property, plant and equipment at EOGH was impaired by approximately $55.9 million and at Nix Health was impaired by $17.8 million, respectively.

Summarized financial information for discontinued operations is included below (in thousands):

September 30,	**2019**	2018
Patient accounts receivable, net of allowance for doubtful accounts and other receivables	**$ 26,037**	$ 33,377
Due from government payors	**2,022**	11,424

6. Goodwill and Intangible Assets

The carrying value of goodwill by reporting unit is as follows (in thousands):

September 30,	2019	2018
Southern California Hospitals	$ 130,912	$ 130,912
California Medical Groups	28,222	28,222
Crozer	140,216	140,216
ECHN	535	483
Waterbury	2,492	2,155
Total	$ 302,377	$ 301,988

The changes in the carrying amount of goodwill for the years ended September 30 are as follows (amounts in thousands):

September 30,	2019	2018
Balance, beginning of year	$ 301,988	$ 302,985
Acquisitions	389	13,231
Impairment	-	(14,228)
Balance, end of year	$ 302,377	$ 301,988

Identifiable intangible assets are comprised of the following (in thousands):

September 30,	Useful lives	2019	2018
HMO membership	14 years	$ 25,200	$ 25,200
Trade names, net of impairment	3 - 20 years	42,030	50,160
Customer relationships	7 years	-	350
Other	5 - 6 years	97	97
Gross carrying value		67,327	75,807
Accumulated amortization		(41,782)	(43,985)
Intangible assets, net		$ 25,545	$ 31,822

Amortization is recognized on a straight-line basis (management's best estimate of the period of economic benefit) over the respective useful lives and expense for the years ended September 30, 2019 and 2018 was $6,278,000 and $6,898,000, respectively. There are no expected residual values related to these intangible assets.

MPT CONFIDENTIAL MPT_PROSPECT_00007104

Estimated amortization expense for each future fiscal year is as follows (in thousands):

Years ending September 30,	
2020	$ 5,108
2021	5,088
2022	3,299
2023	2,780
2024	2,780
Thereafter	6,490
	$ 25,545

The weighted-average remaining useful life for the intangible assets was approximately 7 years as of September 30, 2019.

7. Related Party Transactions

Jeereddi Prasad, M.D., a shareholder of Ivy Holdings, a director of Ivy Holdings and the Company, and an officer of the Upland Medical Group, a Professional Medical Group and Pomona Valley Medical Group, Inc (collectively "ProMed Entities"), has ownership interests in physician medical groups that provide medical services to ProMed members, including Chaparral Medical Group, Inc., (in which the Company beneficially owns a 13.2% interest). For the years ended September 30, 2019 and 2018, the ProMed Entities paid these groups approximately $21,922,000 and $19,760,000, respectively. As of September 30, 2019 and 2018, the Company had accounts payable and other accrued liabilities due to these related parties of $806,000 and $1,266,000, respectively.

Pursuant to a Management Services Agreement, dated December 15, 2010 and amended on May 3, 2012 (the "LGP Management Agreement"), between the Company and Leonard Green & Partners, L.P. ("LGP"), a private equity fund with affiliated funds that collectively constitute the majority shareholder of Ivy Holdings, LGP provides to the Company, (a) certain investment banking services, (b) management, consulting and financial planning services and (c) financial advisory and investment banking services in connection with major financial transactions from time to time. In consideration for the services provided by LGP under the LGP Management Agreement, the Company pays LGP an annual fee of $1,000,000, payable in monthly installments, and reimburses LGP for its related expenses up to $50,000 annually. If approved by the unanimous consent of the Board of Directors of the Company, additional customary fees may be due to LGP pursuant to the terms of the LGP Management Agreement for services rendered in connection with major transactions from time to time. As of September 30, 2019 and 2018, there was approximately $500,000 and $0 payable, respectively, included in accounts payable and other accrued liabilities on the accompanying consolidated balance sheets.

During the year ended September 30, 2019, the Company received a capital contribution from Ivy Intermediate of $41.0 million and paid a dividend of approximately $44.4 million (see Note 11).

The Company is a wholly-owned indirect subsidiary of Ivy Holdings. Therefore, Ivy Holdings is the parent of an affiliated group of corporations within the meaning of Section 1504(a) of the Internal Revenue Code of 1986. On December 15, 2010, Ivy Holdings, Ivy Intermediate and the Company entered into a Tax Sharing Agreement. The Tax Sharing Agreement allows the Company to make payments to Ivy Holdings as necessary to fund their payment of any required taxes incurred due to such parent status. Under this agreement, the Company received refunds (net of payments) of $(343,000) and $5,463,000 for the years ended September 30, 2019 and September 30, 2018, respectively.

8. Income Taxes

The components of the income tax (benefit) provision are as follows (in thousands):

For the years ended September 30,	**2019**	2018
Current:		
Federal	**$ 11,940**	$ (41,703)
State	**3,353**	(8,549)
	15,293	(50,252)
Deferred:		
Federal	**1,162**	100,529
State	**-**	12,509
	1,162	113,038
Total:		
Federal	**13,102**	58,826
State	**3,353**	3,960
	$ 16,455	$ 62,786

The remainder of this page intentionally left blank.

Temporary differences and carry forward items that result in deferred income tax balances as of September 30, are as follows (in thousands):

September 30,	**2019**	2018
Deferred tax assets:		
Accrued medical claims	$ **3,443**	$ 4,265
Malpractice reserves	**3,254**	3,202
Accounts receivable	**26,596**	22,136
Accrued salaries & wages	**13,478**	10,530
Pension obligation	**65,919**	81,847
Net operating losses	**44,026**	51,567
Tax Credits	**1,719**	2,870
Outside basis differences	**7,244**	755
Lease liability	**132,400**	-
UTP & other	**-**	7,730
Deferred tax assets	**298,079**	184,902
Valuation allowance	**(203,335)**	(105,909)
Net deferred tax assets	**94,744**	78,993
Deferred tax liabilities:		
Property, plant & equipment	**(72,053)**	(54,863)
Intangible assets	**(6,642)**	(8,626)
Prepaid expenses	**(2,969)**	(2,222)
Other comprehensive income	**(11,585)**	(11,307)
UTP & other	**(672)**	-
Deferred tax liabilities	**(93,921)**	(77,018)
Net deferred tax assets	$ **823**	$ 1,975

Deferred tax assets and liabilities reflect the effect of temporary differences between the assets and liabilities recognized for financial reporting purposes and the amounts recognized for income tax purposes.

Management assesses the available positive and negative evidence to estimate whether sufficient future pretax income will be generated to permit use of the existing deferred tax assets. A significant piece of objective negative evidence evaluated was the cumulative pretax losses incurred over the three year period ended September 30, 2019. Such objective evidence limits the ability to consider other subjective evidence, such as the Company's projections for future growth. On the basis of this evaluation, at September 30, 2019 and 2018, a valuation allowance of approximately $203.3 million and $105.9 million, respectively, was recorded to recognize only the portion of the deferred tax asset that is more likely than not to be realized. The amount of the deferred tax asset considered realizable, however, could be adjusted if estimates of future taxable income during the carryforward period are reduced or increased or if negative objective evidence in the form of cumulative losses is no longer present and additional weight is given to subjective evidence such as the Company's projections for growth.

During fiscal 2019, the Company completed an IRS examination for Ivy Holdings, Inc. & Subsidiaries fiscal 2014 through 2016 federal income tax returns without any adjustment to reported taxable income The Company is under examinations by the California Franchise Tax Board for tax years ended September 30, 2014 through 2016. The Company does not currently anticipate any changes to our unrecognized tax benefits for the next twelve months related to these examinations.

The Company's tax years 2016 and 2017 are open for federal tax examination, and generally the states are open for tax years 2015 through 2017. During the year ended September 30, 2018, the Company recorded a liability in the amount of $12.7 million related to uncertain tax positions ("UTP") with respect to impermissible accounting methods for federal income tax purposes, which was recorded in other long-term liabilities in the accompanying consolidated balance sheets. During the year ended September 30, 2019, The Company has removed the UTP liability due to filing with IRS for a change from an improper to a proper accounting method change.

On December 22, 2017, the Tax Cuts and Jobs Act of 2017 (the "Act") was signed into law making significant changes to the Internal Revenue Code. Changes include, but are not limited to, a corporate tax rate decrease from 35% to 21% effective for tax years beginning after December 31, 2017, limitations on various business deductions such as executive compensation under Internal Revenue Code §162(m), the transition of U.S international taxation from a worldwide tax system to a territorial system, and a one-time transition tax on the mandatory deemed repatriation of cumulative foreign earnings as of December 31, 2017. The United States federal income tax rate reduction was effective as of January 1, 2018. As a result, the Company reduced net U.S. deferred tax assets by $25,660,000 during the year ended September 30, 2018. As the Company does not have profitable foreign subsidiaries, it does not anticipate any impacts as a result of the mandatory deemed repatriation of cumulative foreign earnings.

The differences between the income tax provision at the federal statutory rate and that reflected in the accompanying consolidated statements of operations are summarized as follows:

For the years ended September 30,	**2019**	2018
Tax provision at statutory rate	**21%**	25%
State taxes, net of federal benefit	**16%**	15%
Impact of US Tax Reform	**0%**	(16)%
Valuation allowance	**(56)%**	(77)%
UTP	**8%**	(2)%
Other	**1%**	4%
	(10)%	(51)%

9. Long-Term Debt

Long-term debt consists of the following (in thousands):

September 30,	**2019**	2018
Senior secured credit facility (net of discount of $0 and $20,085, respectively)	$ -	$ 1,094,315
Other debt *(1)*	**206,350**	38,769
Less: Deferred financing costs, net ("DFC")	-	(16,214)
Total Debt, net of discount and DFC	**206,350**	1,116,870
Less: current maturities	**(18,983)**	(18,429)
Long-term debt, net of current maturities	$ **187,367**	$ 1,098,441

(1) Other debt includes (i) financing obligations related to sales-leaseback transactions. The financing obligations related to sales-leaseback transactions were $23,152,000 and $24,614,000 for years ended September 30, 2019 and 2018, respectively, excluding the sale leaseback transaction in entered into in fiscal 2019 with MPT (see Note 10) and (ii) debt related to the Foothill ($51,267,000) and TRS Notes ($112,937,000) entered into in fiscal 2019 with MPT (see Note 10).

Senior Secured Credit Facilities

On June 30, 2016, the Company entered into a six-year $625,000,000 senior secured term loan B (the "Original Term Loan"). The Original Term Loan was issued with an original discount of 1.50%, or $9,375,000. Additionally, the Company refinanced the previous revolver with a new $100,000,000 asset-based revolving credit facility ("Original ABL Facility" and together with the Original Term Loan, the "New Senior Secured Credit Facilities"). Pursuant to various amendments from August 2016 through October 2017, the aggregate commitment amount under the Original ABL facility was increased in stages to $175,000,000. The original maturity date for the Original ABL Facility was June 30, 2021, and the original maturity date for the Term Loan was June 30, 2022.

On February 22, 2018, the Company refinanced and replaced both the Original Term Loan and the Original ABL Facility, and entered into an Amended and Restated Term Loan Credit Agreement (the "Amended TL Agreement"), by and among the Company (as the borrower), the lenders party thereto and JPMorgan Chase Bank, N.A. ("JPMorgan"), as administrative agent and collateral agent. The Amended TL Agreement replaced the Original Term Loan with a new Term B-1 Loan ("Term B-1 Loan"). The principal amount of the Term B-1 Loan was $1,120,000,000 and such loan incurred interest at LIBOR (subject to a 1.00% floor) plus 5.50%. The Term B-1 Loan was issued with an original discount of 2.00% and was originally scheduled to mature on February 22, 2024. The Term B-1 Loan was repaid on August 23, 2019 (see Note 10).

Additionally, on February 22, 2018, the Company entered into an Amended and Restated ABL Credit Agreement (the "Amended ABL Agreement"), by and among the Company (as the borrower), the lenders party thereto and JPMorgan, as administrative agent and collateral agent. The Amended ABL Agreement replaced the Original ABL Facility. Under the Amended ABL Agreement, the maximum revolving commitment was $250,000,000 with ability to expand the facility to $325,000,000, and the new ABL

facility (the "New ABL Facility") bears interest at a variable base rate plus an applicable spread that is based on excess availability under the New ABL Facility, as further described in the Amended ABL Agreement, which was 6.0% as of September 30, 2019. From January 2019 through July 2019 the Company entered into various amendments to the Amended ABL Agreement. Such amendments (i) waived certain events of default at September 30, 2018; (ii) increased the maximum revolving commitment from $250.0 million to $280.0 million, and further to $285.0 million, while simultaneously reducing and removing future expansion of the facility; (iii) introduced $40.0 million of a first in last out ("FILO") revolving facility, which incurred interest at either 2.5% or 3.5% per annum depending on whether they are Eurodollar loans or ABR loans (which were repaid on August 23, 2019); (iv) provides for a reduction in the maximum revolving commitment by $20.0 million and $10.0 million upon the future planned closure or disposition of Nix Health and EOGH, respectively. The New ABL Facility matures on February 22, 2023. As of September 30, 2019, the outstanding balance and the available balance on the New ABL facility was approximately $70.0 million and $175.6 million, respectively.

The proceeds of the Term B-1 Loans and the New ABL Facility (the "New Senior Secured Credit Facilities") were used to refinance the Original Term Loan and the Original ABL Facility, to pay a dividend of $457,000,000 to the Company's stockholders, to pay certain expenses associated with the refinancing, to prefund approximately $40,000,000 of pension liabilities of the Company's subsidiaries, to make payments to certain option holders as a result of the referenced dividend, and to finance certain working capital and other operational needs of the Company and its subsidiaries.

Under applicable accounting literature, during the year ended September 30, 2018, deferred financing costs of $11,700,000 and outstanding debt discount of $6,700,000 as of February 22, 2018 were expensed and presented within loss on debt extinguishment in the accompanying consolidated statements of operations, and new costs of approximately $18,000,000 incurred in connection with the refinancing were capitalized to offset the new long-term debt in the accompanying consolidated balance sheets, and are being amortized over the term of the related debt using the effective interest method. In connection with the repayment of the Term B-1 Loan (see Note 10), and under applicable accounting literature, during the year ended September 30, 2019, deferred financing costs of $13,444,000 and outstanding debt discount of $16,608,000 were expensed and are presented within loss on debt extinguishment in the accompanying consolidated statements of operations.

The New ABL Facility is secured by a first priority security interest on the working capital assets of the Company and its wholly-owned subsidiaries except Prospect Health Plan, Inc., CHIC, RRG, Prospect Health Access Network, Inc. and certain immaterial subsidiaries and a second priority security interest on their fixed assets. The Amended ABL Agreement does not have any financial maintenance covenants. The Amended ABL Agreement has a "springing" fixed charge ratio covenant that applies if excess availability is less than the greater of 10% of the maximum borrowing amount and $22,000,000. The fixed charge ratio covenant was not required to be tested for the fiscal quarter ended September 30, 2019.

Demand Notes

The Company has a commitment from a bank for a $15,000,000 equipment leasing facility to finance various equipment at the Company's hospital facilities. As of September 30, 2019 and 2018, draws under the facility are classified as capital lease arrangements. Draws represent demand notes until conversion to capital leases, and interest accrues on such draws at the bank prime rate plus 1.50% with a floor of 4.50% and payable monthly. As of September 30, 2019, approximately $15,000,000 had been drawn under the line.

MPT CONFIDENTIAL MPT_PROSPECT_00007110

Scheduled payments under the Company's current and long-term debt as of September 30, 2019 are as follows (in thousands):

Years ending September 30,	
2020	$ 18,983
2021	15,289
2022	13,140
2023	13,106
2024	13,412
Thereafter	132,420
Total scheduled payments	206,350
Less: Current maturities	(18,983)
Total long-term debt	$ 187,367

10. Transactions with MPT

On August 23, 2019, the Company closed a series of transactions with affiliates of Medical Properties Trust, Inc. ("MPT"), a publicly traded Real Estate Investment Trust ("REIT"). Under these transactions, the Company sold to MPT the Company's hospital buildings in California (excluding Foothill Regional Medical Center ("Foothill"), Connecticut and Pennsylvania for an aggregate purchase price of $1,386,000,000. Concurrent with the sale transactions, the Company entered into two master lease agreements whereby the hospital properties and related medical office buildings were leased back for an initial 15 year term, with options to extend twice for an additional 5 years each and for a further 4.75 year extension. Monthly rent is defined as 7.5% of the lease base, subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. For the first master lease, the Company has the option to buy the properties at their fair value at the end of the lease term. For the second master lease, the Company has the option to purchase at a price that is fixed at the time of entering into the lease (the "Option Price"). If the Company chooses not to exercise this option, and the fair value at the end of the lease is below the Option Price, then the Company must pay MPT a sum equal to the difference between the fair value and the Option Price. These transactions do not qualify for sale leaseback accounting because of the Company's deemed continuing involvement with the buyer-lessor, including the requirements to pay reserves for major repairs, and the option to purchase included in the lease, which are considered a form of contingent collateral and results in the transaction being recorded under the financing method. All of the legal entities that are parties to the master lease agreement (which are the hospital entities in California, Connecticut and Pennsylvania) provide cross guarantees on all of the obligations to MPT, which guarantees include both lease payments under the master lease as well as indebtedness due to MPT. The balance due under the leases is reflected in MPT liabilities in the accompanying consolidated financial statements.

Further, the Company obtained a mortgage on the Foothill property. This mortgage is secured by the buildings at Foothill. The interest on this mortgage is 7.5% per annum and is subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. The maturity date of this loan is in August 2034. MPT can purchase the property on event of default or at end of term, or if Company does not exercise purchase rights for the aforementioned leased properties. Additionally, if the Foothill property is no longer used as collateral for a promissory note payable to Prospect Medical Group, Inc. ("PMG"), one of the Company's California Medical Groups, then MPT shall have the right to purchase the Foothill property and lease it back to the Company under the second master lease

MPT CONFIDENTIAL MPT_PROSPECT_00007111

agreement, for an amount equal to the outstanding principal balance. The referenced promissory note payable to PMG has been included in the calculation of PMG's Tangible Net Equity in connection with requirements of the California Department of Managed Health Care. The balance due under the promissory note payable to MPT is reflected in long term debt in the accompanying consolidated financial statements (see Note 9).

Additionally, the Company entered into a promissory note (the "TRS Note"), under which MPT has advanced to the Company $112,937,000. The interest on this note is 7.5% per annum and is subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. The maturity date of this note is the earlier of July 2022 or, if it occurs, a sale-leaseback of the properties in Rhode Island. The balance due under this note is reflected in long term debt in the accompanying consolidated financial statements (see Note 9).

All of the agreements referenced in this footnote are cross-collateralized and cross defaulted among the parties and the assets included therein (which do not include any of the hospital operating entities or real properties in Rhode Island, Texas or New Jersey). Based on annualized Adjusted EBITDAR (as defined) achieved over the three years from the transaction date, additional amounts between $50 million to $250 million will be payable to the Company. As of September 30, 2019, there has been no accounting for these amounts in the consolidated financial statements. The proceeds from these transactions were used to pay off in full the Term B-1 Loan and to pay down the amounts outstanding under the Amended ABL Agreements (see Note 9) and the FILO facility, as well as fund a restricted cash account for the future paydown of the Company's pension liabilities and to provide working capital.

The MPT transaction documents contain certain customary covenants and restrictions and a financial covenant based on EBITDAR performance.

Interest expense under these agreements was $6,649,000 for the year ended September 30, 2019.

See Note 13 for future minimum lease payments related to sale leaseback commitments as of September 30, 2019.

11. Stockholder's Equity

Equity Based Compensation Plans

Effective December 15, 2010, the Board of Directors of Ivy Holdings adopted the Ivy Plan that initially authorized the issuance of options exercisable for up to 155,110 shares of the common stock of Ivy Holdings ("Initial Options") to employees, certain consultants and independent members of the boards of directors, of Ivy Holdings and its subsidiaries (including the Company and its subsidiaries). These options are exercisable into Ivy Holdings stock and vest based on a number of criteria, including time, Company and Business Unit performance based on EBITDA targets and CEO and Compensation Committee discretion. Since the Ivy Holdings stock options were granted to Company employees for their services related to the Company, the related compensation cost has been recorded in the Company's consolidated financial statements. Effective June 30, 2015, the Board of Directors of Ivy Holdings adopted the First Amendment to the Ivy Plan. Under the First Amendment, and subsequent amendments, a further 63,704 shares of common stock of Ivy Holdings ("New Options") can be issued.

The New Options are exercisable into Ivy Holdings stock and vest based on a number of criteria, including the same criteria as the Initial Options. However, they only become exercisable on the occurrence of certain corporate transactions, including a change in control of Ivy Holdings, as defined in the Incentive Stock Option Agreements ("Corporate Transaction"). Because the occurrence and timing of a Corporate Transaction is not determinable as of September 30, 2019 and 2018, no compensation cost has been recorded in the Company's consolidated financial statements for the years then ended. See Note 16 for Merger Agreement that was entered into subsequent to year-end.

Under the terms of the Ivy Plan, the exercise price of an incentive stock option ("ISO") may not be less than 100% of the fair market value of the Company's common stock on the date of grant and, if granted to a shareholder owning more than 10% of the Company's common stock, then not less than 110%. Stock options granted under the Ivy Plan have a maximum term of 10 years from the grant date, and are exercisable at such time and upon such terms and conditions as determined by the Compensation Committee. Stock options granted to employees generally vest over four years, subject to continued service, performance, and other criteria. In the case of an ISO, the amount of the aggregate fair market value of common stock with respect to which the ISO grant is exercisable, for the first time by an employee during any calendar year, may not exceed $100,000.

Stock Options Activity

The following table summarizes information about Ivy Holdings stock options outstanding as of September 30, 2019 and 2018 and activity during the years then ended for the Initial Options and the New Options:

	Shares Subject to Options	Weighted Average Exercise Price	Weighted Average Aggregate Intrinsic Value	Weighted Average Remaining Contractual Term (Months)
Outstanding as of October 1, 2017	168,875	$ 174.91	$ 663.09	73.4
Granted	26,516	418.21	—	—
Exercised	(22,608)	37.74	—	—
Canceled/Forfeited	(9,530)	322.72	—	—
Outstanding as of September 30, 2018 (1)	163,253	140.47	156.53	70.5
Granted	—	—	—	—
Exercised	—	—	—	—
Canceled/Forfeited	(14,233)	231.42	—	—
Outstanding as of September 30, 2019	149,020	$ 131.79	$ —	56.2

(1) The number of options outstanding at September 30, 2018 were modified in connection with the Adjusted Exercise Price of the options (see below).

The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the estimated fair value of the Company's common stock for those awards that have an exercise price currently below the estimated fair value. As of September 30, 2019, the outstanding shares had no aggregate intrinsic value. As of September 30, 2019, there were 101,448 options that are exercisable at a weighted average exercise price of $47.23.

A summary of Ivy Holdings non-vested options and the changes during the fiscal years ended September 30, 2019 and 2018 is presented as follows for the Initial Options and New Options:

	Shares	Weighted Average Grant Date Fair Value
Ivy Holdings Stock Options:		
Nonvested at October 1, 2017	34,364	$ 225.09
Granted	26,516	188.98
Vested	(17,054)	269.50
Canceled/Forfeited	(9,530)	206.09
Nonvested at September 30, 2018	34,296	181.07
Granted	—	—
Vested	—	—
Canceled/Forfeited	(1,876)	200.11
Nonvested at September 30, 2019	32,420	$ 179.97

Stock-Based Compensation Expense

Stock-based compensation expense for all share-based payments in exchange for employee services (including stock options and restricted stock) is measured at fair value on the date of grant, estimated using an option pricing model and is recognized in the consolidated financial statements, net of estimated forfeitures over the awards requisite service period.

The Company uses the Black-Scholes option pricing model and a single option award approach to estimate the fair value of options granted. Estimated forfeitures will be revised in future periods if actual forfeitures differ from the estimates and will impact compensation cost in the period in which the change in estimate occurs. The determination of fair value using the Black-Scholes option-pricing model is affected by the Company's estimated stock price as well as assumptions regarding a number of complex and subjective variables, including expected stock price volatility, risk-free interest rate, expected dividends and projected employee stock option exercise behaviors.

There were no options granted during the year ended September 30, 2019. Fair value for options granted during the year ended September 30, 2018 was estimated with the following assumptions for Ivy Holdings:

September 30,	2018
Weighted average fair value of option grants	$ 188.98
Estimated fair market value of the Company's common stock on the date of grant	$ 390.14
Weighted average expected life of the options	5 years
Risk-free interest rate	0.85%
Weighted average expected volatility	60.0%
Dividend yield	0.00%

MPT CONFIDENTIAL

Expected Term - The expected term of options granted represents the period of time that they are estimated to be outstanding.

Risk-Free Interest Rate - The Company bases the risk-free interest rate on the implied yield in effect at the time of option grant on U.S. Treasury zero-coupon issues with equivalent remaining terms.

Expected Volatility - The Company estimates the volatility of the common stock at the date of grant based on the average of the historical volatilities of a group of peer companies. The Company has identified a group of comparable companies to calculate historical volatility from publicly available data for sequential periods approximately equal to the expected terms of the option grants. In selecting comparable companies, Management considered several factors including industry, stage of development, size and market capitalization.

Forfeitures - Share-based compensation is recognized only for those awards that are ultimately expected to vest. Compensation expense is recorded net of estimated forfeitures. Those estimates are revised in subsequent periods if actual forfeitures differ from those estimates. The Company used data since December 2010 to estimate pre-vesting option forfeitures.

Stock-based compensation expense for the Ivy Holdings stock options recognized by the Company during the years ended September 30, 2019 and 2018 was $0 and $710,000, respectively. At September 30, 2019, there were no unvested options, which could potentially vest over the next nine fiscal years, subject to meeting the vesting requirements noted above. There were no remaining maximum estimated stock compensation expense to be amortized to expense in future periods. Options which are expected to vest based on CEO and Compensation Committee discretion are treated as variable stock options and are subject to revaluation at each reporting period. Management determined the fair value of the discretionary vested options using a Black Scholes calculation but determined that the change in compensation expense was not material to the consolidated financial statements for the years ended September 30, 2019 and 2018.

Contributions

On January 25, 2019 and on February 6, 2019, Ivy Holdings made equity contributions in the amount of $40,000,000 and $1,000,000, respectively, to Ivy Intermediate Holding Inc., which was then contributed as equity to the Company.

Dividends

On February 22, 2018, the Board of Directors of Ivy Holdings, Inc. (the “Board”) approved special cash in the amount of approximately $33,000,000 in bonus payments were made (“the Bonuses”) to Option Holders in connection with the dividend provided that any Bonus with respect to an unvested portion of an option shall be payable upon the date such unvested portion becomes vested and exercisable, subject to the Optionee’s continued employment with Prospect through such date. At September 30, 2019 and 2018, approximately $2,300,000 was accrued for bonuses in connection with this. To reflect the Dividend and pursuant to the terms of the Option Plan, the Board further resolved to equitably adjust the Options by reducing the per-share exercise price of the Options to an amount determined with reference to the Bonus amount payable by Prospect Medical with respect to such Option (the “Adjusted Exercise Price”).

The Company distributed approximately $456,930,000 in connection with the issuance of "New Senior Secured Credit Facilities" during the year ended September 30, 2018, which was recorded against retained earnings, and was ultimately paid to the common stockholders of Ivy Holdings, Inc. (see Note 9).

The Company distributed approximately $44,407,000 during the year ended September 30, 2019, which was recorded against accumulated deficit.

12. Retirement Benefits

The Company sponsors various employee non-contributory, defined benefit pension plans covering certain full-time employees of Crozer, ECHN and Prospect Waterbury, Inc. ("Waterbury").

In connection with the acquisition of Crozer, $100 million of the purchase price was put into an escrow and subsequently used by the Company, as the new sponsor of the Crozer pension plan ("DB Plan") pursuant to IRS rules and regulations, to fund in part the underfunded plan liability then outstanding. Additionally, within five years after acquisition and subject to applicable filing and authorization by the applicable government agency or entity, the Company will adopt a plan amendment to terminate the plan effective within such five year period and will liquidate, fully fund and satisfy, and pay all benefits owed to participants and beneficiaries of the plan by providing lump sum distributions to participants, purchasing annuities for participants who do not elect a lump sum distribution.

Also, in connection with the Crozer acquisition, the plan was frozen with all benefit accruals ceased as of July 1, 2016. With respect to each Represented Employee who is a member of the Laborers' International Union of North America, the Monthly Compensation (as defined), the Credited Service (as defined), the Eligibility Service (as defined) and the accrued benefit was frozen and determined as of July 1, 2016. No benefits accrue since that date. Additionally, the plan was amended to provide that for purposes of determining Vesting Service (as defined) for employees who were employed with the Company before July 1, 2016, years of service shall include all periods of employment completed on and after July 1, 2016, subject to the Break in Service rules (as defined).

On September 3, 2016, the DB Plan was further amended to provide certain Qualifying Participants (as defined) the right to make a Special Benefit Election (as defined) during "2016 Lump Sum Option Window" period from October 15, 2016 through November 30, 2016 to receive or commence receiving his or her vested Accrued Benefit as of December 1, 2016 in accordance with procedures adopted by the Committee.

In conjunction with the acquisition the Company also became the sponsor and assumed CKHS postretirement benefit program (the "OPEB Plan") which is an unfunded medical care and life insurance benefit program, and a supplemental executive retirement plan (the "SERP Plan") which is an unfunded retirement plan that covers a group of current and former executives. These plans were frozen with all benefit accruals ceased as of July 1, 2016. No benefits will accrue since that date. With respect to each Represented Employee who is a member of the Laborers' International Union of North America, benefits will continue to accrue until a settlement of an ongoing union contract negotiation is reached.

ECHN has a defined benefit pension plan that covered substantially all of its employees. The benefits were based upon years of service and compensation for the five highest years during the employee's last 10 years of service. Effective December 31, 2013, ECHN froze the defined-benefit for all remaining participants. During September 2013, the Board passed a resolution to freeze all benefits related to the

Defined benefit pension plan. On December 31, 2008, ECHN implemented a soft freeze on the defined benefit pension plan. All qualified employees were eligible to enter into the defined contribution plan, ECHN contributed 3% of eligible employees' salaries. This contribution was non-guaranteed for all employees, except certain union workers covered under a collective bargaining agreement.

ECHN also sponsors a postretirement benefit plan that provides health care benefits to those employees who retired. The criteria to receive this benefit is to be vested in the pension plan, attain age 55 or older and start collecting under the defined benefit plan described above once retired. The retiree must be enrolled into the medical plan on the date of retirement to be eligible for the continuation. Full-time registered nurse retirees from ECHN's Manchester facility (retired prior to October 1, 2005 and were eligible per the collective bargaining agreement) were grandfathered and required to pay at least 50% of the total cost of the medical and dental coverage they elect for themselves under the plan.

Waterbury has a noncontributory defined benefit cash balance plan. It is Waterbury's policy to make contributions to the plan sufficient to meet the minimum funding requirements of applicable laws and regulations. The plan was frozen to non-union participants effective June 30, 2015. Participants who are part of the Connecticut Healthcare Associates Technical Unit remain active in the plan. Non-union employees no longer accrue additional employer contribution credits in the plan. These participants will continue to receive interest credits based on their account balances in accordance with the terms of the plan. They will be entitled to their account balance (the retirement benefit they have earned up to June 30, 2015) plus applicable interest credits after the Plan were frozen.

The activity of the pension plans for the years ended September 30, 2019 and 2018 is as follows (in thousands):

September 30,		***2019***		*2018*
Changes in benefit obligations				
Projected benefit obligations, beginning of period	$	**660,176**	$	864,293
Service cost		**181**		194
Interest cost		**28,432**		27,695
Plan participant contributions		**918**		461
Actuarial loss		**115,016**		(48,654)
Benefits paid		**(20,482)**		(134,185)
Lump sum benefits paid and annuity purchase		**(15,606)**		(49,628)
Plan changes		**(21)**		-
Projected benefit obligation, end of year	$	**768,614**	$	660,176
Changes in plan assets				
Fair value of plan assets, beginning of year	$	**400,468**	$	556,590
Actual return on plan assets		**80,668**		(14,437)
Contributions by plan sponsor		**15,939**		41,667
Plan participant contributions		**327**		461
Benefits paid		**(21,108)**		(134,185)
Lump sum benefits paid and annuity purchase		**(15,606)**		(49,628)
Fair value of plan assets, end of year	$	**460,688**	$	400,468
Funded status of the plan, end of year	$	**(307,926)**	$	(259,708)
Accumulated benefit obligation, end of year	$	**(307,926)**	$	(259,708)

The funded status of the pension plans as of September 30, 2019 and 2018 is as follows (in thousands), split between the pension plans and the post retirement plans:

	2019 Pensions	2019 OPEBs	2019 Total	2018 Pensions	2018 OPEBs	2018 Total
Current liability	$ -	$ 500	$ 500	$ -	$ 600	$ 600
Non-current liability	302,372	5,054	307,426	254,121	4,987	259,108
	$ 302,372	$ 5,554	$ 307,926	$ 254,121	$ 5,587	$ 259,708

The components of net periodic benefit cost for the years ended September 30, 2019 and 2018 are as follows (in thousands):

September 30,	2019	2018
Components of net periodic benefit cost:		
Service cost	$ 181	$ 194
Interest cost	28,432	27,695
Expected return on plan assets	(11,154)	(16,045)
Effect of settlement	-	1,457
Amortization of prior service credit	(48)	(48)
Total net periodic benefit cost	$ 17,411	$ 13,253
Other change in benefit obligations recognized in accumulated other comprehensive income:		
(Gain) Loss due to assumption change	$ 111,382	$ (64,429)
Loss due to participant experience	4,849	14,118
Amortization of net loss	63	-
Asset return (gain) loss	(70,275)	30,483
Prior service cost	28	-
Total recognized in other comprehensive loss (income) and accumulated other comprehensive loss (income)	$ 46,047	$ (19,828)

The remainder of this page intentionally left blank.

The assumptions used in determining the actuarial present value of the projected benefit obligations for pension plans as of September 30, 2019 and 2018 and for the years ended September 30, 2019 and 2018 are as follows:

	2019	2018
Weighted average assumptions used to determine benefit obligations at end of period		
Discount rate	**2.92-3.31%**	3.23-4.48 %
Rate of compensation increase	**0.00-2.00%**	0.00-2.00 %
Weighted average assumptions used to determine net periodic benefit cost for the period ended		
Discount rate	**4.24-4.48%**	3.49-4.41 %
Rate of compensation increase	**0.00-2.00%**	0.00-2.00 %
Expected return on the plan assets	**0.00-4.50%**	0.00-4.50 %

Assumed health care cost trend rates for the next period used to measure the expected cost of benefits covered by the plan are as follows:

	2019	2018
Health care trend rate assumed for next year	**6.75%**	7.00%
Rate to which the cost trend is assumed to decline (the ultimate rate)	**4.50%**	4.50%
Year that the rate reaches the ultimate trend rate	**2027**	2026

Assumed health care cost trend rates have a significant effect on amounts reported for other postretirement benefit programs. A one-percentage-point change in assumed health care cost trends would have the following effects (in thousands):

	1% Increase	1% Decrease
Effect on other postretirement benefit obligations	$95	$87
Effect on total of service and interest cost components	$3	$3

The asset allocation percentage by major asset class for the plans and the target allocation for 2019 follows:

	Target	2019
Asset class:		
Cash and cash equivalents	0% - 20%	1 %
Fixed income	10% - 100%	95 %
Domestic equity	0% - 100%	
International equity	0% - 40%	
Real estate	0% - 30%	
Alternative investments and hedge funds	0% - 30%	4 %
		100 %

MPT CONFIDENTIAL

The investment objectives of the plans are to invest consistently with the fiduciary standards of ERISA, to provide for the funding and anticipated withdrawals on an ongoing basis, conserve and enhance the capital value of the plans in real terms while maintaining a moderate risk profile, to minimize principal fluctuations over the investment cycle, and achieve a long-term level of return commensurate with contemporary economic conditions. The expected long-term rate of return with respect to the plans is based on an aggregate of expected capital market returns within each asset category.

The following tables set forth the assets in the plans measured at fair value, by input level (in thousands):

September 30, 2019	Level 1	Level 2	Level 3	Net asset value	Total
Fixed income securities:					
Short-Term Duration	$ -	$ 36,534	$ -	$ -	$ 36,534
Extended Duration	-	172,610	-	-	172,610
Interim Duration	-	48,328	-	-	48,328
Long-Term Duration	-	181,570	-	-	181,570
Real estate	-	-	1,056	-	1,056
Alternative investments	-	-	17,809	-	17,809
Cash and cash equivalents	-	-	-	2,781	2,781
Total	$ -	$ 439,042	$ 18,865	$ 2,781	$ 460,688

September 30, 2018	Level 1	Level 2	Level 3	Net asset value	Total
Fixed income securities:					
Short-Term Duration	$ -	$ 35,100	$ -	$ -	$ 35,100
Extended Duration	-	125,562	-	-	125,562
Interim Duration	-	41,193	-	-	41,193
Long-Term Duration	-	174,162	-	-	174,162
Real estate	-	-	2,962	-	2,962
Alternative investments	-	-	18,593	-	18,593
Cash and cash equivalents	-	-	-	2,896	2,896
Total	$ -	$ 376,017	$ 21,555	$ 2,896	$ 400,468

Pension plan assets classified as Level 3 in the fair value hierarchy represent investments in which the trustee has used significant unobservable inputs in the valuation model. The hedge funds consist of equity/long/short funds and multi-strategy funds in which fair values have been estimated using the net asset value per share of the investment. The alternative investments primarily consist of investments in limited partnerships that invest in the Public-Private Investment Program which fair values have been estimated using the net asset value per share of the investment.

On an annual basis, the Company assesses the valuation hierarchy for pension assets recorded at fair value. From time to time, assets will be transferred within the fair value hierarchy as a result of changes in, among other things, inputs used, liquidity, or valuation methodologies. During the years ended September 30, 2019 and 2018, there were no transfers in classification within the fair value hierarchy.

The following table is a rollforward of the plans' assets classified within Level 3 of the fair value hierarchy (in thousands):

September 30,	**2019**	2018
Balance, beginning of year	**$ 21,555**	$ 23,742
Actual return on plan assets:		
Realized loss	**-**	-
Unrealized (loss) gain	**(2,690)**	(2,187)
Purchases	**-**	-
Sales	**-**	-
Balance, end of year	**$ 18,865**	$ 21,555

The expected long-term future benefit payments to retirees with respect to the plans and are as follows (in thousands):

2020	$ 44,970
2021	40,450
2022	41,940
2023	42,760
2024	43,750
2025 - 2029	216,990
	$ 430,860

Waterbury participates in multi-employer pension plans that cover substantially all union employees. Contributions to the plans are based upon a percentage of each participant's total salary. The risks of participating in these multi-employer plans are different from single employer plans in the following aspects:

- Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of another participating employer.
- If a participating employer stops contributing to the plan, the unfunded obligation of the plan may be borne by the remaining participating employers.
- If Waterbury chose to stop participating in the multi-employer plans, Waterbury may be required to pay those plans an amount based on the underfunded status of the plans, referred to as a withdrawal liability.

The following table presents Waterbury's participation in these plans as of and for the years ended September 30, 2019 and 2018.

Pension Trust Fund	EIN / Pension Plan	Pension Protection Act ("PPA") Certified Zone Status *(1)*		FIP / RP Status Pending / Implemented *(2)*	Contributions		Surcharge Imposed	Exp. Date of CBA
		2019	2018		2019	2018		
Connecticut Health Care Associates Pension Fund	06-1313462	**Red**	Red	Implemented	**$2,122,000**	$2,140,000	No	7/1/22
New England Health Care Employees Pension Fund	22-3071963	**Green**	Green	NA	**754,000**	821,000	No	3/15/21
Total contributions					**$2,876,000**	$2,961,000		

(1) The most recent PPA zone status available in 2019 is for the plan's year-ending during 2018. The zone status is based on information received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the orange zone are less than 80 percent funded and have an accumulated funding deficiency in the current year or projected in the next six years, plans in the yellow zone are less than 80 percent funded, and plans in the green zone are at least 80 percent funded.

(2) The "FIP/RP Status Pending/Implemented" column indicates plans for which a financial improvement plan ("FIP") or a rehabilitation plan ("RP") is either pending or has been implemented. As it relates to the Connecticut Health Care Associates ("CHCA") Pension Plan, the trustees adopted a Rehabilitation Plan on May 7, 2018. The Rehabilitation Period, as defined, commenced on January 1, 2019 and ends on December 31, 2028. The trustees updated the Rehabilitation Plan on December 12, 2019 which reflects various reductions to plan benefits effective January 1, 2020.

During the years ended September 30, 2019 and 2018, Waterbury's contributions to the CHCA Pension Plan and the New England Health Care Employees Pension Plan represented 98.1% and 2.4% and 98.2% and 2.6% of the total contributions made to the plans by all participating employers, respectively.

Governmental regulations impose certain requirements relative to union-sponsored pension plans. In the event of plan termination or employer withdrawal, an employer may be liable for a portion of the plan's unfunded vested benefits. As of September 30, 2019, Waterbury has not recorded any liabilities for future withdrawal obligations related to the multi-employer plans.

Defined contribution plans

The Company previously sponsored five defined contribution plans covering substantially all employees who meet certain eligibility requirements. Effective May 1, 2018, the plans covering employees at ECHN, Waterbury and Crozer were merged into the plan covering employees at CharterCARE, and the two remaining plans were renamed and segregated between union and non-union employees. Under these

plans, employees can contribute up to 50% of their compensation up to the IRS deferred annual maximum. There is currently no company match offered under the plans, except at certain facilities in Rhode Island and Pennsylvania, for which the expense for the employer match was $18,863,000 and $19,723,000 for the years ended September 30, 2019 and 2018, respectively.

13. Commitments and Contingencies

Leases

The Company leases various office facilities and equipment from third parties under non-cancelable operating and capital lease arrangements expiring at various dates through 2034. Certain operating leases contain rent escalation clauses and renewal options, which have been factored into determining rent expense on a straight-line basis over the lease terms. Capital leases bear interest at rates ranging from 2.5% to 41.0% per annum.

The future minimum annual lease payments required under leases in effect at September 30, 2019, are as follows (in thousands):

For the Years ending September 30,	Capital Leases	Operating Leases	MPT Liability*
2020	$ 12,661	$ 22,455	$ 103,935
2021	9,157	18,685	106,273
2022	4,903	16,987	109,461
2023	4,018	14,195	112,745
2024	2,889	12,887	116,128
Thereafter	19,855	56,273	1,358,111
Total minimum lease payments	53,483	$ 141,482	1,906,653
Less: amounts representing interest	(12,873)		(572,644)
Add: amounts representing land	-		47,176
	40,610		1,381,185
Less: current portion	(10,238)		(43,145)
	$ 30,372		$ 1,338,040

* *Excludes debt related to the Foothill and TRS Notes entered into in fiscal 2019 with MPT (see Note 10).*

Rent expense related to operating leases for the years ended September 30, 2019 and 2018 was approximately $44,959,000 and $46,124,000, respectively. Sublease rental income was not material to the consolidated financial statements for the years ended September 30, 2019 and 2018.

Litigation

The Company is subject to a variety of claims and suits that arise from time to time in the ordinary course of its business, acquisitions, or other transactions. While the Company's management currently believes that resolving all of these matters, individually or in the aggregate, will not have a material adverse impact on the Company's consolidated financial position or results of operations, the litigation

and other claims that the Company faces are subject to inherent uncertainties and management's view of these matters may change in the future. Should an unfavorable final outcome occur, there exists the possibility of a material adverse impact on the Company's consolidated financial position, results of operations and cash flows for the period in which the effect becomes probable and reasonably estimable.

Seismic Standards

The Company's California Hospitals (with the exception of Bellflower, which currently only provides psychiatric services) are required to comply with laws that regulate the seismic performance of all aspects of hospital facilities in California and imposes near-term and long-term compliance deadlines for seismic safety assessment, submission of corrective plans, and retrofitting or replacement of medical facilities to comply with current seismic standards. These laws and regulations require hospitals to meet seismic performance standards to ensure that they are capable of providing medical services to the public after an earthquake.

The Company was required to conduct engineering studies at its hospitals to determine whether and to what extent modifications to the hospital facilities will be required. Two buildings at Southern California Hospital at Culver City ("SCH Culver City") and one building at Los Angeles Community Hospital ("LACH") do not currently meet the applicable seismic requirements. The three buildings are currently classified at Structural Performance Category 1 ("SPC-1") and, subject to possible deadline extensions discussed below, they must be upgraded to at least SPC-2 by January 1, 2020. That deadline date was set pursuant to an extension granted upon the Company's application submitted in accordance with California Senate Bill 90 (SB 90) and approved by the Office of Statewide Health Planning and Development ("OSHPD").

OSHPD has a voluntary program to re-evaluate the seismic risk of hospital buildings classified as SPC-1. These buildings are considered hazardous and at high risk of collapse in the event of an earthquake and they were required to be retrofitted, replaced or removed from providing acute care services by the applicable deadline. OSHPD is using Hazards U.S. ("HAZUS"), a state-of-the-art methodology, to reassess the seismic risk of SPC-1 buildings. Once the SPC-1 buildings have been seismically upgraded to SPC-2, they are no longer considered a significant risk to occupants, but they may not be repairable or functional after an earthquake. Participation in the HAZUS program is optional for hospital owners wishing to have their SPC-1 buildings evaluated.

Applications for HAZUS evaluation of seismic risk were submitted for all five of the Company's California acute care facilities: Southern California Hospital at Hollywood ("SCH Hollywood"); SCH Culver City; Los Angeles Community Hospital; Los Angeles Community Hospital at Norwalk ("LACH Norwalk"); and Foothill. All buildings at these five facilities obtained SPC-2 reclassification using HAZUS, except for the aforementioned three buildings at SCH Culver City and LACH which are still classified as SPC-1. Currently, failure to obtain SPC-2 reclassification for the three remaining SPC-1 buildings by January 1, 2020 would mean that the buildings would not be allowed to provide acute care services starting on that date.

Recently enacted Assembly Bill 2190 (AB-2190) was utilized to request additional extension. OSHPD granted extensions to 06/01/2022, 10/01/2021, and 02/01/2021 for Tower Building (at SCH Culver City), Pavilion Building (at SCH Culver City), and LACH respectively. For all three buildings, the construction must start by April 1, 2020 for AB-2190 extensions to be valid. SCH-Culver City is evaluating pursuing an alternate "replacement" scheme that would relocate the Emergency department into the adjoining One-Story Building which currently classified as an SPC-2 structure. The Tower Building would be retained as a 'non-hospital' OSHPD building useable for lower acuity services such as behavioral health and subacute/skilled nursing services.

The Company will also be required to make significant capital expenditures in the future to comply with 2030 seismic standards (i.e., upgrade to SPC-4D and NPC-4D/5) for any buildings that will be utilized for hospital facilities beyond January 1, 2030. Such modifications to the hospital facilities could potentially result in environmental remediation liabilities which may be material to the Company.

These requirements can result in significant operational changes and capital outlays. Management is continuing to assess its options and the methods of financing the required retrofits. Based on management's evaluation, the costs of renovation needed to comply with the California seismic safety standards for its acute-care facilities, including asbestos abatement, are not estimable at this time.

Legislation and HIPAA

The healthcare industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

The Company believes that it is in compliance with fraud and abuse regulations as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

The Health Insurance Portability and Accountability Act ("HIPAA") assures health insurance portability, reduces healthcare fraud and abuse, guarantees security and privacy of health information, and enforces standards for health information. The Health Information Technology for Economic and Clinical Health Act ("HITECH Act") expanded upon HIPAA in a number of ways, including establishing notification requirements for certain breaches of protected health information. In addition to these federal rules, states have also developed their own standards for the privacy and security of health information as well as for reporting certain violations and breaches (for example, California's Confidentiality of Medical Information Act and Lanterman-Petris Short Act) which in some cases are more stringent. Other federal privacy laws may also apply to certain services provided by the Company, including 42 C.F.R. Part 2, which addresses the confidentiality of substance use disorder records. The Company may be subject to significant fines and penalties if found not to be compliant with these state or federal provisions.

Affordable Care Act

The Patient Protection and Affordable Care Act ("PPACA") has made significant changes to the United States health care system. The legislation impacted multiple aspects of the health care system, including many provisions that change payments from Medicare, Medicaid and insurance companies. Under this legislation, 33 states have expanded their Medicaid programs to cover previously uninsured childless adults, and four additional states voted in 2018 to expand Medicaid or to elect a governor that pledged to expand Medicaid. In addition, many uninsured individuals have had the opportunity to purchase health insurance via state-based marketplaces, state-based marketplaces using a federal platform, state-partnership marketplaces or the federally-facilitated marketplace. PPACA also implemented a number of health insurance market reforms, such as allowing children to remain on their parents' health insurance until age 26 or prohibiting certain plans from denying coverage based on pre-existing conditions. Nationally, these reforms have reduced the number of uninsured individuals.

MPT CONFIDENTIAL MPT_PROSPECT_00007125

It is unclear what changes may be made to PPACA with the divided Congress, current presidential administration, and pending litigation over the validity of PPACA. The Administration has promulgated rules to broaden the availability of coverage options that do not comply with the full range of PPACA requirements for individual market coverage, namely Association Health Plans and Short-Term Limited-Duration Insurance. The Administration has also provided additional guidance on state PPACA waivers. These executive actions have been or may be challenged in court. In addition, the Tax Cuts and Jobs Act ("TCJA"), passed in December 2017, eliminates the individual mandate penalty under PPACA, effective January 1, 2019. The individual mandate penalty was included in PPACA to address concerns that other market reforms expanding access to coverage might produce adverse selection and higher premiums. The extent to which the repeal of the individual mandate penalty will impact the uninsured rate and future premiums are unclear at this juncture. On December 14, 2018, the United States District Court for the Northern District of Texas ruled that the individual mandate without the penalty is unconstitutional and that PPACA is therefore invalid in its entirety. Litigation on this issue is ongoing, with a decision pending from a panel of the United States Court of Appeals for the Fifth Circuit following oral arguments in July 2019. This litigation along with any future legislative changes to PPACA or other federal and state legislation could have a material impact on the operations of the Company. The Company is continuing to monitor the legislative environment and developments in pending litigation for risks and uncertainties.

Collective Bargaining Agreements

As of September 30, 2019, the Company had approximately 17,800 employees, of whom approximately 5,500 employees or 31% are represented by various labor organizations. Of those, approximately 1,300 employees or 7% of the Company's employees are employed under union contracts that have expired or will expire before September 30, 2020.

Tangible Net Equity ("TNE") Requirement

The Company's affiliated California physician organizations and licensed healthcare service plans may be subject to one or more of the following requirements: minimum working capital, Tangible Net Equity, cash-to-claims ratio and claims payment requirements as prescribed by the California Department of Managed Health Care ("DMHC"). TNE is defined as net assets, less intangibles and amounts due from affiliates, plus subordinated obligations. As of September 30, 2019, the Company's affiliated California physician organizations were in compliance with these regulatory requirements.

Employee Health Plans

The Company offers self-insured EPO/HMO and PPO plans to all eligible employees.

Employee health benefits are administered by a third party claims administrator, based on plan coverage and eligibility guidelines determined by the Company, as well as by collective bargaining agreements (as reflected above). Prior to January 1, 2018, commercial insurance policies covered per occurrence losses. Effective January 1, 2018, all locations were covered by insurance policies with CHIC for per occurrence losses in excess of $350,000, except for Crozer for which the limit is $750,000. CHIC maintains reinsurance coverage above $500,000 for all locations except for Crozer, for which the limit is $750,000. An actuarially and internally-estimated liability of approximately $12,808,000 and $16,566,000 for incurred but not reported claims has been included in accrued salaries, wages, and benefits as of September 30, 2019 and 2018, respectively.

Provider Contracts

Many of the Company's payer and provider contracts are complex in nature and may be subject to differing interpretations regarding amounts due for the provision of medical services. Such differing interpretations may not come to light until a substantial period of time has passed following contract implementation. Liabilities for claims disputes are recorded when the loss is probable and can be estimated. Any adjustments to reserves are reflected in current operations.

14. Accrued Medical Claims and Other Healthcare Costs Payable

The following table presents the roll-forward of incurred but not reported ("IBNR") claims reserves (Medical Group segment, Global Risk Management segment, and full risk contracts) as of and for each of the years ended September 30, 2019 and 2018 (in thousands):

September 30,	**2019**	2018
IBNR as of beginning of year	**$ 62,887**	$ 53,510
Claim expenses incurred during the year:		
Related to current year	**296,817**	301,598
Related to prior year	**4,523**	8,667
Total incurred	**301,340**	310,265
Claims paid during the year:		
Related to current year	**(229,417)**	(246,369)
Related to prior year	**(62,302)**	(54,519)
Total paid	**(291,719)**	(300,888)
IBNR as of end of year	**$ 72,508**	$ 62,887

Following is a table showing the details of the Medical Group and Global Risk Management segments cost of revenues per the consolidated statements of operations (in thousands):

Years Ended September 30,	**2019**	2018
Capitation expense	**$ 98,254**	$ 96,027
Fee-for-service claims expense	**167,702**	171,443
Other physician compensation	**24,561**	15,097
Other cost of revenues	**2,558**	5,239
Total cost of revenues	**$ 293,075**	$ 287,806

15. Joint Ventures and Unconsolidated Equity Investments

The Company has invested in several joint ventures with unrelated third parties, which are accounted for under the equity method of accounting. As of September 30, 2019 and 2018, CharterCARE owned: 20% of Roger Williams Radiation Therapy and 20% of Southern New England Regional Cancer Center, LLC. ECHN owned: 50% of NRRON, LLC; 50% of Aetna Ambulance Service, Inc.; 50% of Ambulance Service of Manchester, LLC; and 50% of Evergreen Endoscopy Center, LLC. Waterbury owned: 50% of Harold Leever Regional Cancer Center Inc. Crozer owned: 50% of University Technology Park, Inc. and 21.25% of Delaware Valley Sleep Management Company, LLC. Prospect Medical Group, Inc. owned: 50% of AMVI/Prospect Medical Group. These joint ventures under the equity method are included in the other assets in the accompanying consolidated balance sheets as of September 30, 2019 and 2018 are $28,119,000 and $24,627,000, respectively. For the years ended September 30, 2019 and 2018, the Company received $1,828,000 and $1,746,000, respectively, in distributions for equity method investments, and $527,000 and $404,000, respectively, for cost method investments.

Summarized combined unaudited financial information for the Company's joint ventures as of September 30, 2019 and 2018 and for the years then ended is as follows (in thousands):

September 30,	**2019**	2018
Cash	$ **18,976**	$ 17,226
Receivables	**10,096**	8,060
Other current assets	**21,329**	23,654
Total current assets	**50,401**	48,940
Property, improvements and equipment, net	**32,972**	33,757
Goodwill	**7,142**	7,142
Intangible assets	**821**	852
Other long-term assets	**2,904**	3,094
Total assets	**94,240**	93,785
Accounts payable and accrued liabilities	**5,827**	5,563
Other long-term liabilities	**6,116**	5,334
Equity	**82,297**	82,888
Total liabilities and partner's capital	$ **94,240**	$ 93,785

Years ended September 30,	**2019**	2018
Revenues	$ **74,095**	$ 67,554
Net income	$ **12,178**	$ 5,039
PMH's income from equity method investments	$ **5,358**	$ 1,332

16. Subsequent Events

The Company has evaluated subsequent events through December 20, 2019, the date the Company's consolidated financial statements were available for issuance.

Effective October 2, 2019, Ivy Holdings entered into an Agreement and Plan of Merger ("Merger Agreement") with Chamber, Inc. ("Chamber"), Chamber Merger Sub, Inc. and affiliates of LGP. Chamber is owned by two individuals who hold the largest individual shareholdings in Ivy Holdings. The Merger Agreement contemplates, among other things, (i) the purchase of Ivy Holdings by and merger into by Chamber Merger Sub, Inc. (ii) the buyout of all of the other current stockholders of Ivy Holdings, (iii) the termination of all options that have not previously been exercised. The Merger Agreement is subject to regulatory approval by various state agencies and is expected to close during the year ended September 30, 2020.

Independent Auditor's Report on Supplementary Information

Our audit of the consolidated financial statements included in the preceding section of this report was conducted for the purpose of forming an opinion on those statements as a whole. The supplementary information presented in the following section of this report is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

BDO USA, LLP

December 20, 2019

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Los Angeles, CA - February 19, 2019 - Prospect Medical Holdings, Inc. ("Prospect" or the "Company") today announced financial results for its fiscal 2019 first quarter ended December 31, 2018. The Company will host a conference call on February 22, 2019 at 1:00 pm PST / 4:00 pm EST to discuss these results - details at page 3 of this release.

CONSOLIDATED RESULTS OVERVIEW

Consolidated revenues were $777.5 million for the fiscal quarter ended December 31, 2018. The Hospital Segment reported $664.6 million in revenues while the Medical Group reported $91.7 million in revenues and the Global Risk Management segment reported $10.2 million in revenues. This represents a 4.3% increase in Consolidated Revenue from $745.8 million and a 3.4% increase in Hospital Segment revenue for the fiscal quarter ended December 31, 2018 when out of period QAF is excluded. The Medical Group increased 11.7% from $82.1 million and the Global Risk Management Segment increased 42.1% from $7.2 million for the fiscal quarter ended December 31, 2018.

Consolidated EBITDA was $51.2 million for the fiscal quarter ended December 31, 2018. Excluding run-rate adjustments, Adjusted EBITDA was $44.5 million. TTM Consolidated EBITDA totaled $162.0 million. TTM Consolidated EBITDA includes approximately $31.4 million of out-of-period adjustments. When these out-of-period adjustments are excluded, the normalized TTM Consolidated EBITDA at December 31, 2018 is $193.4 million. Additionally, for comparative purposes to prior quarters, the December 31, 2018 TTM Consolidated EBITDA no longer includes $65.3 million of out-of-period QAF related to the period January 2017-September 2017 that rolled off the calculation when Q1 FY18 was replaced by Q1 FY19.

Impacting the comparative quarterly performance were strong hospital volume metrics and growth in the number of lives owned or managed in the Medical Group and Global Risk segments.

- Hospital Segment
  - Admissions: 3.2% increase compared to Q1 2018
  - Adj Admission: 4.6% increase compared to Q1 2018
  - Patient days: 4.1% increase compared to Q1 2018
  - Adj Patient Days: 2.4% increase compared to Q1 2018

- Medical Group and Global Risk Segment
  - Lives owned or managed: 2.9% increase to 474,000 from the first quarter of fiscal 2018

This document should be read in conjunction with the audited consolidated financial statements for the year ended September 30, 2018.

USE OF NON-GAAP MEASURES

This document contains "non-GAAP financial measures" that is, financial measures that either exclude or include amounts that are not excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. Specifically, we make use of the non-GAAP measures "EBITDA," "Adjusted EBITDA" and "Consolidated EBITDA." Consolidated EBITDA is defined within our Amended and Restated Term Loan Agreement and our Amended and Restated ABL Agreements which were entered into on February 22, 2018 and are used as a basis for calculating covenants under those agreements. We also make use of ratios based on these non-GAAP measures.

We define EBITDA as net income (loss) plus (i) provision for income taxes, (ii) interest expense, net (including amortization of deferred financing costs), (iii) depreciation, (iv) amortization, and (v) other non-cash charges. In addition, we define Adjusted EBITDA as EBITDA as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance, including transaction costs, certain legal expenses, stock-based compensation, sponsor structuring and management fees, go-private transaction costs, purchase price adjustments and pre-acquisition items, and other unusual and non-recurring charges. Consolidated EBITDA is defined as Adjusted EBITDA, further adjusted for Run Rate identifiable cost savings and synergies, and to remove activity related to our Unrestricted Subsidiaries, for the time period for which such subsidiaries were classified as Unrestricted Subsidiaries. Management believes that EBITDA, Adjusted EBITDA and Consolidated EBITDA are useful tools for investors and other users of our financial statements in assessing our ability to service and/or incur indebtedness, maintain current operating levels of capital assets and acquire additional operations and businesses. Management believes that the most directly comparable GAAP measure is net income (loss). A reconciliation of EBITDA, Adjusted EBITDA and Consolidated EBITDA to our net income (loss) under generally accepted accounting principles, or GAAP, for certain periods presented in our financial statements is included in this document.

Some of these limitations are:

- They do not reflect cash outlays for capital expenditures or future contractual commitments;
- They do not reflect changes in, or cash requirements for, working capital;
- They do not reflect interest expense, or the cash requirement necessary to service interest, or principal payments, on indebtedness;
- They do not reflect income tax expense or the cash necessary to pay income taxes;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA, Adjusted EBITDA and Consolidated EBITDA do not reflect cash requirements for such replacements; and
- Other companies, including other companies in our industry, may not use such measures or may calculate the measures differently than as presented in this earnings release, limiting their usefulness as a comparative measure.

Because of these limitations, EBITDA, Adjusted EBITDA, Consolidated EBITDA or any related ratio using such measures should be considered only as a supplemental measure in addition to, and not in lieu of, our GAAP income

MPT CONFIDENTIAL MPT_PROSPECT_00007592

and cash flow statements, and not as a measure of discretionary cash available to invest in business growth or reduce indebtedness.

RECLASSIFICATIONS

Certain reclassifications have been made to the prior year consolidated financial statements to conform to current year presentation.

CONFERENCE CALL

Management will host a conference call on Friday, February 22, 2019 at 1:00 pm PST / 4:00 pm EST to discuss these results. Interested parties may participate in the call by dialing [Redacted] (Domestic) or [Redacted] (International) approximately 10 minutes before the call is scheduled to begin, and ask to be connected to the Prospect Medical Holdings conference call. The conference call will be broadcast live over the internet at the following link: [Redacted]/ and use meeting number [Redacted]. To listen to the live call on the internet, go to the website at least 15 minutes early to register, and download and install any necessary audio software. A replay of the call will be available for 30 [Redacted]s at this link, or by dialing [Redacted] (Toll-Free) or [Redacted] (Toll) ([Redacted]

Hospital Services Segment

The following table sets forth the results of operations for our Hospital Services segment for the three months ended December 31, 2018 and 2017. Hospital services expenses do not include allocation of corporate overhead or interest expense - see "Corporate Segment" below. Prior to October 1, 2018, the hospital segment included expenses which we deem to be "true" corporate overhead. Such expenses were previously recorded in the hospital segment but effective October 1, 2018 are now recorded in the corporate segment. This has no impact on the consolidated financial statements. Such amount that was transferred to the corporate segment in Q1 FY19 was $8.0 million.

Effective January 1, 2018, ownership of Connecticut Healthcare Insurance Company, Inc. ("CHIC") was transferred from Prospect ECHN, Inc. to Prospect Medical Holdings, Inc. As such, the results of operations for CHIC for the fiscal period 2018 are included in the Corporate Segment.

[redacted]
Smart1075718-Project Medical - Tab @MEDICALPROPERTIESREIT.COM CONFIDENTIAL
Friday, May 17, 2019 8:39:18 AM

(1) Net inpatient revenues include self-pay revenues of $8.5 million and $2 million for the three months ended December 31, 2018 and 2017, respectively.

(2) Other hospital service revenues consist of revenues earned from ancillary and other hospital operations, while other revenues consist primarily of rental income, incentive revenues earned for the implementation of certified EHR technology at our hospitals, tuition revenue from the St. Joseph Health Services of Rhode Island School of Nursing, and Crozer Health Club membership and other revenues.

(3) California Hospital Fee Program revenues are included in inpatient (Medicaid) revenues, Texas Section 1115 Waiver revenues are included in inpatient (Medicaid) revenues and other hospital services revenue, and Pennsylvania Medicare Modernization Act, Community Access Funds and Legislative Initiatives revenues are included in inpatient (Medicaid) revenues.

(4) The occupancy rate for staffed beds represents average daily census in the period divided by staffed beds. Occupancy rates are affected by many factors, including the population size and general economic conditions within particular market service areas, the degrees of variation in medical and surgical products, outpatient use of hospital services, quality and treatment availability at competing hospitals, and seasonality.

(5) Charity care admissions represented 0.0% and 0.01% of total admissions for the three months ended December 31, 2018 and 2017, respectively.

(6) Adjusted patient admissions are total admissions adjusted for outpatient volume. Adjusted patient admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient charges and gross outpatient charges and then dividing the resulting amount by gross inpatient charges.

(7) Adjusted patient days are total patient days adjusted for outpatient volume. Adjusted patient days are computed by multiplying patient days (inpatient volume) by the sum of gross inpatient charges and gross outpatient charges and then dividing the resulting amount by gross inpatient charges.

(8) Average length of patients' stay ("ALOS") is calculated by dividing total discharged patient days by total patient discharges during the period, and includes the length of patients' stay related to psychiatric, sub-acute, and rehabilitation services.

(9) Excludes $126.4 million of California Hospital Fee Program revenues applicable to periods prior to the three months ended December 31, 2017.

Results of Operations - Q1 FY19 vs Q1 FY18

- Hospital services revenues before provision for bad debts was $692.8 million for Q1 FY19 compared to $797.0 million for Q1 FY18, and bad debt expense increased from $27.9 million in Q1 FY18 to $28.2 million in Q1 FY19. Excluding the impact of revenues recorded under the California Hospital Fee Program during Q1 FY18, due to the timing of the approval of the program by CMS, that relate to the period from January 1, 2017 to September 30, 2017, hospital services revenues before provision for bad debts increased by 3.3% to $692.8 million for Q1 FY19 compared to $670.8 million for Q1 FY18. This increase is broadly in line with the improvement in patient metrics for quarter vs. quarter but is tempered by the change in the AR valuation model at Crozer from one based on expected contractual reimbursements to a model based on a patient-collection-rate methodology, effective September 30, 2018, to reduce complexities and more accurately reflect the value of patient accounts to collection trends.

- Salaries, wages and benefits ("SWB") increased from $323.8 million during Q1 FY18 to $348.0 million during Q1 FY19. This presents an increase of approximately 7.5% and is driven in part by a 2.4% increase in the number of adjusted patient days quarter on quarter and a 3% increase in employee benefits expense.

- Supplies expense increased from $63.8 million in Q1 FY18 to $63.9 million in Q1 FY19. Supplies per adjusted patient admissions decreased by 4.2% from $1,4[redacted] in Q1 FY18 to $1,365 in Q1 FY19.

- Capitation expense increased from $35.9 million in Q1 FY18 to $38.0 million to Q1 FY19. We recognize revenue and expenses in the Hospital Services segment for global capitation arrangements for which hospitals in our Hospital Services segment are responsible for the provision of care to members under such arrangements.

- Other operating expenses decreased from $142.6 million in Q1 FY18 to $96.0 million in Q1 FY19. Excluding expense related to out of period QAF, other operating expenses in Q1 FY18 were $81.5 million. The increase in operating expenses in Q1 FY19 compared to the normalized operating expenses is due increased in purchased services and professional fees.

- Hospital General and Administrative ("G&A") expense increased from $89.5 million in Q1 FY18 to $95.1 million in Q1 FY19, as a result of an increase in non-medical professional fees and purchased services, offset by lower repairs and maintenance expense.

- Depreciation and amortization expense increased from $21.6 million in Q1 FY18 quarter to $25.7 million in Q1 FY19 as a result of a higher rate of capital expenditures quarter over quarter.

- Income from unconsolidated joint ventures was $633,000 for Q1 FY18 compared to $697,000 in Q1 FY19. Income from unconsolidated joint ventures consists of equity method income related to CharterCare, Crozer, ECHN and Waterbury joint ventures and other equity method investments.

CONFIDENTIAL Subject to Protective Order Entered in Case No. 2019-0[illegible]

Medical Group Segment

The following table sets forth the results of operations for our Medical Group operations for the three months ended December 31, 2018 and 2017. Cost of revenues does not include allocation of corporate overhead or interest expense - see "Corporate Segment" below.

(Unaudited, in thousands)	Three Months Ended December 31, 2018	2017
Medical Group revenues:		
Capitation	$ 78,114	$ 74,978
Management fees	6,706	2,068
Other operating revenues (1)	6,834	5,042
Total Medical Group revenues	91,653	82,088
Medical Group cost of revenues:		
PCP capitation	12,091	12,838
Specialist capitation	12,748	10,067
Claims expense	33,040	34,034
Physician incentives	2,800	3,573
Other cost of revenues	489	1,088
Total Medical Group cost of revenues	61,168	61,601
Gross margin	30,486	20,487
General and administrative	23,384	16,990

Total other expenses	24,268	17,772
Income from unconsolidated joint ventures	(15)	(49)
Operating income	$ 6,203	$ 2,666
Medical cost ratio	74.1%	75.9%

[redacted] Smart1075718-Prospect Medical - TBD CONFIDENTIAL @MEDICALPROPERTIESTRUST.COM Friday, May 17, 2019 8:31:18 AM

The following table sets forth the approximate number of members, by category, as of December 31, 2018 and 2017:

(Unaudited, in thousands)	As of December 31, 2018	2017
Commercial - owned	73.8	80.2
Commercial - managed (2)	11.5	5.7
Senior - owned	32.4	31.5
Senior - managed (2)	3.4	3.3
Medicaid - owned	79.9	80.9
Medicaid - managed (2)	22.3	36.0
Health Insurance Exchange - managed (2) (3)	19.0	14.1
Value Based Reimbursement (4)	231.6	208.8
	473.9	460.5

(1) Other operating revenues primarily consist of payments from HMOs under pay-for-performance programs and are recognized each year once the amounts of such items are known, as well as patient service revenues related to clinical operations.

(2) Represents members that we manage on behalf of third parties in exchange for a monthly management fee.

(3) Our management services company is party to an agreement with one of our major HMOs to manage the provision of medical services to members enrolled under the PPACA Health Insurance Exchange program. We receive a fixed per member per month management fee under the program and do not share in the risk for medical services for such members.

(4) Value Based Membership is also defined as population under management. We have direct contracts with multiple Health Plans in all of the states where we operate for the provision of quality care services to the population under management improving care delivery to the members in most cost-efficient manner for a fixed infrastructure payment. In many of the contracts, we also receive variable revenue called Pay for Performance for improving health scores and closing quality gaps. In addition, in some of the contracts, we are also eligible for upside and downside sharing of risk pools for the population under management.

Results of Operations - Q1 FY19 vs Q1 FY18

Medical Group Revenue

- Capitation revenue increased 4.2% to $78.1 million for Q1 FY 19 from $75.0 million for Q1 FY 18 as a result of an increase in overall PMPM revenues, offset by lower Commercial and Medicaid member-months.

- Management fee revenue increased 224.3% to $6.7 million for Q1 FY19 from $2.1 million for Q1 FY18. The increase was primarily due to higher capitation revenues from a health plan that converted to Global Risk in July 2017. Management fees range from 6.5% to 10.0% of revenues, depending on the type of revenue.

- Other operating revenue increased 35.5% to $6.8 million for Q1 FY19 from $5.0 million for Q1 FY18. The increase was primarily due to increase in wellness program reimbursements.

Medical Group Operating Expenses

- Primary care physician ("PCP") capitation expense decreased 5.8% to $12.1 million for Q1 FY19 compared to $12.8 million for Q1 FY18. PCP capitation expense as a percentage of capitation revenues decreased to 15.5% from 17.1%. The decrease in PCP capitation expense as a percentage of capitation revenues was primarily due to change in membership mix between commercial, Medicaid and senior in the current fiscal quarter.

- Specialist capitation expense increased 26.6% to $12.7 million for Q1 FY19 from $10.1 million for Q1 FY18. Specialist capitation expense as a percentage of capitation revenues increased to 16.3% from 13.4%. The increase in specialist capitation expense as a percentage of capitation revenues was primarily due to a strategic effort to convert certain high cost specialists from fee for service to capitated arrangements.

- Claims expense decreased 2.9% to $33.0 million for Q1 FY19 from $34.0 million for Q1 FY18. Claims expense as a percentage of capitation revenues decreased to 42.3% for Q1 FY19 from 45.4% for Q1 FY18. The decrease in claims expense as a percentage of capitation revenues was primarily due to our new Global Risk contract that expanded the Medical Group's financial obligation on certain diseases.

- Physician incentives expense decreased 21.6% to $2.8 million for Q1 FY19 from $3.6 million for Q1 FY18. The decrease was primarily due to lower shared risk revenue contributing to the lower profit sharing incentive payment.

- Other cost of revenues was $0.5 million for Q1 FY19 compared to $1.1 million for Q1 FY18. The decrease was primarily due to lower utilization of contracted physicians at our clinic operations in Q1 FY19 compared to Q1 FY18.

Medical Cost Ratio and Gross Margin

- Medical care costs as a percentage of Medical Group capitation revenues (the medical cost ratio, a non-GAAP measure) decreased to 74.1% for Q1 FY19 from 75.9% for Q1 FY18, and gross margin as a percentage of total revenue, increased to 33.3% for Q1 FY19 from 25.0% for Q1 FY18. These changes were the result of items discussed above.

General and Administrative

- G&A expenses increased 37.6% to $23.4 million for Q1 FY19 from $17.0 million for Q1 FY18. G&A expenses as a percentage of total Medical Group revenues increased to 25.5% for Q1 FY19 from 20.7% for Q1 FY18. The increase in G&A expenses as a percentage of total Medical Group revenues was primarily due to increase in salary expense to support expansion of the value-based business and business infrastructure.

Depreciation and Amortization

- Depreciation and amortization expense was $0.9 million for Q1 FY19 and $0.8 million for Q1 FY18.

MPT CONFIDENTIAL MPT_PROSPECT_00007604

Income (Loss) from Unconsolidated Joint Ventures

- Income (loss) from unconsolidated joint ventures (our 50% partnership interest in AMVI/Prospect Medical Group) was a loss of $(15,000) and $(49,000) for Q1 FY19 and Q1 FY18, respectively.

Global Risk Management Segment

The following table sets forth the results of operations for our Global Risk Management segment for the three months ended December 31, 2018 and 2017. Global Risk Management expenses do not include allocation of corporate overhead or interest expense - see "Corporate Segment" below. Capitation revenue includes net capitation revenue retained by the Global Risk Management segment after transfer of capitation to the Hospital Services and Medical Group segments.

(Unaudited, in thousands)	Three Months Ended December 31, 2018	2017
Global Risk Management revenues:		
Capitation (1) (2)	$ 8,221	$ 5,363
Other operating revenues	1,983	1,818
Total Global Risk Management revenues	10,204	7,180
Global Risk Management cost of revenues:		
Capitation Expense	67	868
Claims Expense	6,421	4,477
Other cost of revenues	586	-
Total Global Risk Management cost of revenues	7,073	5,345
Gross margin	3,131	1,836
General and administrative (3)	3,422	2,365
Total other expenses	3,422	2,365
Operating Income (loss)	$ (291)	$ (530)

(1) For the three months ended December 31, 2018 and 2017, capitation revenue includes $62.8 million and $63.5 million, respectively, received from health plans, of which $53.2 million and $55.4 million, respectively, were transferred to our Medical Group and Hospital Services segments.

(2) Capitation revenue includes shared risk pool deficit of ($0.7) million and ($1.4) million for the three months ended September 30, 2018 and 2017, respectively.

(3) General and administrative expenses increased to $3.4 million in Q1 FY19 from $2.4 million in Q1 FY18 as a result of the increased headcount, management and infrastructure fees in support of the health plans transition to Global Capitation programs.

Results of Operations - Q1 FY19 vs Q1 FY18

The Global Risk Management segment entered into Management Services Agreements with our Medical Group and Hospital Services segments, under which up to 85% of capitation revenue received is transferred to the Medical Group and Hospital Services segments. Capitation and other revenues recognized increased to $10.2 million for Q1 FY19 from $7.2 million for Q1 FY18. During Q1 FY19, capitation revenue received from health plans was $62.8 million, of which $24.7 million and $28.6 million was transferred to our Hospital Services segment and Medical Group segment, respectively. During Q1 FY18, capitation revenue received from health plans was $63.5 million, of which $26.4 million and $29.0 million were transferred to our Hospital Services segment and Medical Group segment, respectively. The increase in capitation revenue and the amounts transferred to the Hospital Services segment and Medical Group segment were primarily due to expansion of health plans in California.

[redacted] Smart1075718-Prospect Medical - CONFIDENTIAL @MEDICALPROPERTIESTRUST.COM Friday, May 17, 2019 8:39:18 AM

Global Risk Management Cost of Revenues

Cost of revenues increased to $7.1 million during Q1 FY19 from $5.3 million during Q1 FY18. Cost of revenues consists primarily of claims expense related to capitation retained by the Global Risk Management segment and the increase is consistent with increase in capitation revenue. Cost of revenues as a percentage of total revenues decreased to 67.3% for Q1 FY19 from 74.4% for Q1 FY18.

General and Administrative

G&A expenses increased to $3.4 million for Q1 FY19 from $2.4 million for Q1 FY18. The increase in G&A expenses was primarily due to an increase in SWB, professional fees and management fees to support the transition of health plans to Global Capitation programs. G&A expenses as a percentage of total revenues decreased slightly to 32.4% for Q1 FY19 from 32.9% for Q1 FY18.

Corporate Segment

The Corporate segment primarily reflects certain expenses incurred at Prospect not specifically allocable to the Hospital Services, Medical Group, or Global Risk Management segments. These include, but are not limited to: salaries, benefits and other compensation for corporate employees; financing expenses; insurance expenses; rent; legal fees; and accounting fees. Additionally, this segment includes operations of two captive insurance companies. Prospect Medical Holdings Risk Retention Group, Inc. ("PRRG"), which was incorporated on June 20, 2016 in the state of Vermont, was formed as an indirect wholly-owned subsidiary of the Company to provide primary insurance coverage for hospital and physician professionals and general liability risks for the Company's subsidiary healthcare organizations. In addition, the Company has a captive insurance company based in the Cayman Islands, Connecticut Healthcare Insurance Company ("CHIC"), which provides hospital and physician professional and general liability coverage to all of the Company's hospitals and affiliated subsidiaries except for Crozer and its Pennsylvania subsidiaries. Effective January 1, 2018, ownership of CHIC was transferred from Prospect ECHN, Inc. to Prospect Medical Holdings, Inc. As such, the results of operations for CHIC for Q1 FY19 are included in the Corporate Segment. The Company does not allocate interest expense related to acquisition debt or income taxes to the other reporting segments. Prior to October 1, 2018, the hospital segment included expenses which we deem to be "true" corporate overhead. Such expenses were previously recorded in the hospital segment but effective October 1, 2018 are now recorded in the corporate segment. This has no impact on the consolidated financial statements. Such amount that was transferred to the corporate segment in Q1 FY19 was $8.0 million.

The following table summarizes our corporate expenses for the three months ended December 31, 2018 and 2017:

(Unaudited, in thousands)	Three Months Ended December 31, 2018	2017
Corporate revenues:		
Other Revenue	(1,238)	(1)
Total Corporate revenues:	(1,238)	(1)
Operating Expenses:		
General and administrative (1)	$ 16,829	$ 5,671
Depreciation and amortization	1,187	37
Total Corporate Expenses	$ 18,016	$ 5,708
Operating loss	(19,254)	(5,709)

Results of Operations - Q1 FY19 vs Q1 FY18

G&A expenses increased to $16.8 million during Q1 FY19 from $5.7 million during Q1 FY18. The increase was due primarily to increases in outside services and salary expense as a result of an increase in employee staffing to support corporate initiatives during FY19 when compared with FY18.

MPT CONFIDENTIAL MPT_PROSPECT_00007606

Consolidated Results of Operations

Results of Operations - Q1 FY19 vs Q1 FY18

Other (Income) and Expense, Net

Total Other Expense increased to $31.4 million for Q1 FY19 from $19.8 million for Q1 FY18. The increase was primarily due to higher interest expense as a result of the debt refinancing that occurred in February 2018.

Provision / (Benefit) for Income Taxes

The income tax provision / (benefit) was a benefit of $(11.9) million and provision of $25.4 million for Q1 FY19 and Q1 FY18, respectively.

(1) Management adjusts for expenses and gains that it does not consider in evaluating core operating performance for compensation, internal capital allocations, acquisition analysis or other strategic purposes.

(2) Transaction costs primarily relate to costs directly related to financing and merger and acquisition activity. Included in Q4 FY17 was approximately $15.0 million of costs related to retro coverage premiums incurred in connection with the Crozer acquisition.

(3) None of net California Hospital Fee Program income was recorded in Q2 FY17; $3.0 million of net California Hospital Fee Program was recorded in Q3 FY17; $13.8 million of net California Hospital Fee Program was recorded in Q4 FY17; $92.7 million of net California Hospital Fee Program was recorded in Q1 FY18; $38.6 million of net California Hospital Fee Program was recorded in Q2 FY18; $38.6 million of net California Hospital Fee Program was recorded in Q3 FY18; $42.0 million of net California Hospital Fee Program was recorded in Q4 FY18; and $41.0 million of net California Hospital Fee Program was recorded in Q1 FY19.

(4) Certain reclassifications were made to prior quarters' presentation to conform to the current quarter's presentation.

(5) Included in Q2 FY18 was approximately $36.8 million of payments incurred in connection with a Dividend Recapitalization transaction to vested option holders.

(6) Prospect Health Plan, Inc. is an Unrestricted Subsidiary as of June 30, 2016 pursuant to the terms of the New Senior Credit Facilities agreements.

(7) Proforma calculation reflects deferred QAF in Cash for fiscal years 2017 and 2018.

(8) TTM Consolidated EBITDA includes approximately $31.4 million of out-of-period adjustments. When these out of period adjustments are excluded, the normalized TTM Consolidated EBITDA at December 31, 2018 is $193.4 million. Additionally, for comparative purposes to prior quarters, the December 31, 2018 TTM Consolidated EBITDA no longer includes $65.3 million of out-of-period QAF related to the period January 2017 - December 2017 that rolled off the calculation when Q1 FY18 was replaced by Q1 FY19.

PROSPECT MEDICAL HOLDINGS REPORTS FISCAL 2018 FIRST QUARTER FINANCIAL RESULTS

Q1 FY 2018 Highlights Compared to Q1 FY 2017

- **Revenue increased 21.3% to $876.7 million from $722.8 million**
- **Adjusted EBITDA increased 202.6% to $129.0 million from $42.6 million**
- **Pro-Forma Trailing Twelve Months ("TTM") Adjusted EBITDA totaled $324.2 million**

  TTM Adjusted EBITDA increase 76% to $301.2 million from $171.1 million
- **Operating income increased to $102.7 million from $14.2 million**
- **Net Income increased to $57.6 million from $0.1 million**
- **Adjusted patient admissions increased 2.8% to 47,052 from 45,780**
- **Cash and investments was $113.1 million at December 31, 2017 compared to $38.2 million at December 31, 2016**

  Cash and investments increase to $200.2 million when 2017 QAF is included
- **Net Debt to Adjusted TTM EBITDA Ratio of 2.26 at December 31, 2017 compared to 4.35 at December 21, 2016**

  TTM Net Debt to Adjusted EBITDA Ratio approximates 1.84X when 2017 QAF Cash is included

Los Angeles, CA - February 15, 2018 - Prospect Medical Holdings, Inc. ("Prospect" or the "Company") today announced financial results for its fiscal 2018 first quarter ended December 31, 2017. The Company will host a conference call on February 26, 2018 at 1:00 pm PST (4:00 pm EST) to discuss these results - details at page 8 of this release.

Prospect's first quarter results reflect the continued investments in, and pursuit of, the Company's Coordinated-Regional-Care ("CRC") operating model that emphasizes quality care, cost-effectiveness and execution, through its hospitals, affiliated medical groups, clinics/outpatient centers and risk management platform. The Company believes that its CRC operating model provides great flexibility and efficiency, is well-suited to today's healthcare market, and positions the Company to capitalize on changes occurring and anticipated within the healthcare industry.

Prospect continues to focus on improving same-store operating performance, cross-fertilizing growth between its Hospital Services, Medical Group and Global Risk Management segments, and entering into value-enhancing arrangements with its Health Plan, Hospital and Physician partners.

CONSOLIDATED RESULTS OVERVIEW

Revenues increased 21.3% to $876.7million for the fiscal 2018 first quarter from $722.8 million for the fiscal 2017 first quarter. Included in this $153.8 million quarter-over-quarter increase are a $168.2 million increase in Hospital Services revenues and a $5.6 million increase in Global Risk Management revenues, offset by a $12.1 million decrease in Medical Group revenues and a $7.8 million decrease in other revenues. The increase in Hospital Services revenues was due primarily to was primarily due to increased enrollment resulting from new Global Capitation arrangement at our Foothill facility effective July 1, 2017, in addition to an increase in Inpatient volume with Medicare discharges at our Waterbury facility, partially offset by a decrease in other revenues due to the sale of placement rights for cell towers at our Rhode Island and Connecticut facilities. Additionally, during the three months ended December 31, 2017, we recorded revenues related to the California Hospital Fee (QAF) program of $164.8 million, of which $35.3 million was applicable to the period October 1, 2017 to December 31, 2017. The increase in Global Risk Management revenues was primarily due to expansion of health plans in California, partially offset by loss in risk pool revenue. The decrease in Medical Group revenues was primarily due to lower shared risk-pool revenue, which was impacted by timing of settlement of shared risk-pool and a decrease in other operating revenue, due to timing of performance incentive payments and other program reimbursements, partially offset by higher Medicaid member-months. The decrease in other revenues was primarily due to the sale of placement rights for cell towers at our Rhode Island and Connecticut facilities within Hospital Services Segment.

On a normalized basis and excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program, net adjusted EBITDA increased 11.0% to $32.8 million for the fiscal 2018 first quarter from $29.5 million for the same fiscal 2017 quarter.

SEGMENT RESULTS OVERVIEW

Hospital Services

Fiscal 2018 first quarter Hospital Services segment revenues were $787.2 million compared to $626.7 million for the same fiscal 2017 quarter. On a normalized basis and excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program revenues[1] , net Hospital Services segment revenues increased 3.8% to $615.3 million for the fiscal 2018 first quarter from $592.5 million for the same fiscal 2017 quarter. The $36.3 million increase in Hospital Services segment revenues was primarily due to increased enrollment resulting from new Global Capitation arrangement at our Foothill facility effective July 1, 2017, in addition to an increase in inpatient volume with Medicare discharges at our Waterbury facility, partially offset by a decrease in other revenues to the sale of placement rights for cell towers at our Rhode Island and Connecticut facilities.

Total Hospital Services segment adjusted EBITDA increased to $128.2 million for the fiscal 2018 first quarter from $35.3 million for the fiscal 2017 first quarter. On a normalized basis and excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program, net Hospital Services segment adjusted EBITDA increased 44.0% to $32.0 million for the fiscal 2018 first quarter from $22.2 million for the same fiscal 2017 quarter.

Medical Group

Fiscal 2018 first quarter Medical Group segment revenues were $82.3 million compared to $94.4 million for the same fiscal 2017 quarter. The decrease was primarily due to lower shared risk-pool revenue, which was impacted by timing of settlement of shared risk-pool and a decrease in other operating revenue, due to timing of performance incentive payments and other program reimbursements, partially offset by higher Medicaid member-months. Total Medical Group segment adjusted EBITDA decreased to $4.0 million for the fiscal 2018 first quarter from $10.6 million for the fiscal 2017 first quarter.

[1] California Hospital Fee Program revenue was $164.8 million and $24.8 million for the first quarter of fiscal 2018 and 2017, respectively. Texas Section 1115 Waiver revenue was $7.1 million and $7.3 million for the first quarter of fiscal 2018 and 2017, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00007665

Global Risk Management

Our Global Risk Management Segment enters into global capitation arrangements with certain third-party health plans and manages the provision of care for members in coordination with our Hospital Services and Medical Group segments. The segment began operations during the first quarter of fiscal 2015. On a same-store basis, Global Risk Management segment revenue was $7.2 million for the fiscal 2018 quarter compared to $1.6 million for the fiscal 2017 quarter. Capitation revenue received from health plans totaled $63.5 million and $19.0 million for the fiscal 2018 and 2017 quarters, respectively, of which $55.4 million and $17.4 million was transferred to our Medical Group and Hospital Services segments for the fiscal 2018 and 2017 quarters, respectively. Total Global Risk Management segment adjusted EBITDA was $0.7 million for the fiscal 2018 first quarter compared to $0.2 million for fiscal year 2017 first quarter.

Corporate

Corporate segment expenses decreased to $5.7 million for the fiscal 2018 quarter from $7.6 million for the fiscal 2017 quarter. The decrease was primarily attributable to a decrease in the utilization of outside services related to business development as acquisitions were substantially completed by the end of fiscal year 2016.

MPT CONFIDENTIAL MPT_PROSPECT_00007666

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview and Recent Transactions

We provide quality, cost-efficient and coordinated healthcare services through our hospitals, clinics and physician networks in California, Texas, Rhode Island, New Jersey, Pennsylvania, and Connecticut. We conduct our business operations through four complementary segments: the Hospital Services segment, Medical Group segment, Global Risk Management segment and Corporate segment.

Hospital Services

Through our Hospital Services segment, we own and operate 20 facilities with approximately 3,800 licensed beds. Our facilities are primarily located in diverse, high-density population areas and maintain important market positions in the areas they serve. Our facilities are 100% owned (with the exception of the CharterCARE facilities in Rhode Island, in which we have an 85% interest), and provide a comprehensive range of services tailored to their specific communities, including area hospitals, physicians, and health plans. We believe that our proven model has a number of competitive advantages, including a data-driven and cost-efficient platform that has enabled us to provide quality care.

Acquisitions and Divestitures

Effective October 1, 2016, our wholly-owned subsidiary Prospect ECHN, Inc. (and affiliated wholly-owned subsidiaries) acquired substantially all of the assets, and certain liabilities, of Eastern Connecticut Health Network, Inc. and certain of its subsidiaries in exchange for cash consideration of $105 million (subject to certain adjustments). The acquired assets include a network of hospitals, outpatient service centers and providers and specialists serving eastern Connecticut. Our acquired hospitals are The Manchester Memorial Hospital, an acute-care hospital with 283 licensed beds, and The Rockville General Hospital, an acute-care hospital with 118 licensed beds. The assumed liabilities included a long-term pension obligation of $66.9 million as of October 1, 2016. Results of operations for Prospect ECHN, Inc. are included in the results of our Hospital Services segment from the date of acquisition.

Also effective October 1, 2016, our wholly-owned subsidiary Prospect Waterbury, Inc. (and affiliated wholly-owned subsidiaries) acquired substantially all of the assets, and certain liabilities, of Greater Waterbury Health Network, Inc. and certain of its subsidiaries in exchange for cash consideration of $31.8 million (subject to certain adjustments). During the year ended September 30, 2017 the purchase price allocation was finalized and in December 2017, the Company paid an additional $22 million as a working capital adjustment and added to the consideration paid. The acquired assets include Waterbury Hospital, an acute-care hospital with 357 licensed beds, and a network of outpatient centers and affiliated physicians. Waterbury Hospital provides a comprehensive range of inpatient, outpatient and ancillary services for residents of Waterbury, Connecticut, and its surrounding community. The assumed liabilities included a long-term pension obligation of $11.8 million as of October 1, 2016. Results of operations for Prospect Waterbury, Inc. are included in the results of our Hospital Services segment from the date of acquisition.

Effective July 1, 2016, our wholly-owned subsidiary Prospect Crozer, LLC ("Crozer") acquired certain assets and assumed certain liabilities of Crozer-Keystone Health System, which has locations throughout Delaware County in Pennsylvania and the surrounding areas for cash consideration of $56.4 million, subject to a working capital adjustment. During the year ended September 30, 2017, the purchase price allocation was finalized and in December 2017, the Company paid an additional $22 million as a working capital adjustment and added to the consideration paid. Crozer has 4 acute-care hospitals with 628 licensed beds, a network of outpatient centers and urgent care centers, a comprehensive physician network of primary care and specialty practices, and a sports club. Crozer provides a full range of services including acute care services, sub-acute care services, emergency and trauma services, behavioral health services, nursing and rehabilitative services, and physician care services. Assumed liabilities included a long-term pension obligation of $330.3 million as of July 1, 2016. In connection with the acquisition, Crozer paid $100 million into an escrow and subsequently used to fund in part the underfunded pension liability. Results of operations for Crozer have been included in the results of our Hospital Services segment from the date of acquisition.

Effective May 1, 2017, our wholly-owned subsidiary, Prospect Blackstone Valley Surgicare, LLC ("Prospect Blackstone"), completed an asset acquisition of a freestanding ambulatory surgery center located near our CharterCARE facilities in Rhode Island. It was purchased from Blackstone Valley Surgicare Acquisition, L.P. in exchange for cash consideration of $1.5 million, of which $100,000 is subject to a one-year indemnification escrow hold-back. Results of operations for Prospect Blackstone have been included in the results of our Hospital Services segment from the date of acquisition.

Reimbursement

Under the California Hospital Fee Program, supplemental payments are provided to hospitals under the Medi-Cal program, such as the hospitals owned and operated by the Company's subsidiaries. The California Hospital Fee Program requires participating hospitals to pay fee assessments into a special fund. Much of these funds, together with federal matching funds, are then distributed to qualifying hospitals based on a prescribed formula ("Fee for Service Component"). Another portion of the funds, together with federal matching funds, are paid as additional capitation payments to health plans participating in Medi-Cal managed care ("Managed Care Component"), and the health plans are required to disburse the additional capitation payments to hospitals. The net benefit for the current California Hospital Fee Program for the period January 1, 2017 through June 30, 2019, for the Company, including Bellflower, was $217.9 million.

In November 2016, the California voters approved Proposition 52, which continued the Hospital Fee Program after December 31, 2016. The Hospital Fee Program is operated in cycles known as program periods. The current program period began January 1, 2017 and will end June 30, 2019 and on December 14, 2017, CMS approved the waiver of the broad-based and uniformity requirements related to the health care related tax program on inpatient hospital services. Subsequent program periods will be of duration not to exceed three years.

Nix Health receives supplemental payments from the Texas Medicaid program which are based upon two pools. One pool is for payments for Uncompensated Care ("UCC") which includes the shortfall in Medicaid reimbursement as compared to the cost of providing services to uninsured patients. The other pool is the Delivery System Reform Initiative Payments ("DSRIP"), where approved programs and services are undertaken to improve access and services provided. Programs are established by regions and approved by the Texas Health and Human Services Commission and the Centers for Medicare and Medicaid Services ("CMS"). These programs are assigned a value and milestones are established to measure success and the timing and level of payment from the DSRIP funds. CMS, on May 2, 2016, granted Texas a 15-month extension on waivers for two $3.1 billion programs, largely funded by the federal government, meant to expand access to health care. The extension on Texas' Section 1115 Waiver allowed the UCC pool and DSRIP program to continue at their current funding rates through December 2017. In December 2017, CMS approved a five-year renewal of Texas' Healthcare Transformation and Quality Improvement Program Section 1115 waiver. The DSRIP pool remains flat for the first two years of the new five year waiver, and then declines over the remaining period, and disappears for year five. Nix Health will be participating in the Uniform Hospital Rate Increase Program ("UHRIP") which should offset UCC payment losses (if any) in years three through five, and partially mitigate the DSRIP losses.

The Pennsylvania Department of Public Welfare, as approved by CMS, has established a revised inpatient hospital fee-for-service payment system utilizing All Patient Refined Diagnosis-Related Groups and provided an enhanced hospital reimbursement model. Our Crozer hospitals are participants in Pennsylvania's Medicaid Modernization Assessment ("MMA") and also receives funds from the Pennsylvania Community Access Fund Grant and Legislative Initiative.

Our hospitals in Rhode Island and Connecticut are participants in Medicaid Disproportionate Share Hospital ("DSH") programs and receive federal and state Medicaid funds as additional reimbursement for treating a disproportionate share of low income patients. The states also assess a license fee or provider tax based on net patient revenue.

Medical Group

Through our Medical Group segment, we manage the provision of physician services to enrollees of HMOs in California, Texas, Rhode Island and New Jersey through a network of approximately 22,000 primary care and specialty physicians. We also recently contracted with a health plan to begin providing physician services in New Jersey and Connecticut. Our medical groups have a significant presence in Southern California and have capitated contracts with most major HMOs operating in the region. Under the capitated model, an HMO pays our medical groups a stable and predictable per-member-per-month ("PMPM") rate, or a "capitation" payment, for which the medical groups assume responsibility for providing required physician services for those enrollees.

Acquisitions

We completed several minor acquisitions of physician practices during the prior fiscal year. Effective January 2017, Prospect CharterCARE Physicians, LLC ("CharterCARE Physicians") acquired a primary care practice for $530,000 to be paid over the three years following the effective date. During the year ended September 30, 2016, CharterCARE Physicians entered into asset purchase agreements to acquire two medical practices and Nix Physicians, Inc. acquired a medical practice for combined cash consideration of $0.6 million for the three practices. Results of operations for the acquired physician practices have been included in the results of our Hospital Services segment from the date of acquisition.

On December 18, 2014, the Company's newly formed subsidiary, New University Medical Group, LLC ("New UMG"), entered into an Asset Purchase Agreement pursuant to which New UMG acquired substantially all of the assets of University Medical Group ("UMG"), a physician medical practice with approximately 35 primary care and specialist physicians located in multiple offices within Providence, Rhode Island, and the surrounding communities. As consideration for the acquisition, New UMG assumed certain designated liabilities of the practice. New UMG is a wholly owned subsidiary of Prospect CharterCARE RWMC, LLC ("Roger Williams Medical Center").

Effective on the December 18, 2014 initial closing date, New UNMG acquired designated assets of the practice, including equipment, and entered into an Administrative Services Agreement (which was subsequently amended). In December 2017, the acquisition was completed after New UMG acquired the majority of the remaining assets of the practice and entered into a Post-Closing Administrative Services Agreement pursuant to which CCMA and its affiliates provide services to the seller of the practice in connection with its termination of all operations and the wind up its affairs and operations.

Effective December 1, 2015, New Genesis Medical Associates, Inc. ("NGMA") entered into a Stock Purchase Agreement pursuant to which it simultaneously closed its acquisition of all issued and outstanding shares of Primary and Multi-Specialty Clinics of Anaheim, Inc. ("PMCA"). PMCA operates a medical practice consisting of primary and multi-specialty clinics in Orange County, California. The purchase price consisted of approximately $5.4 million less certain liabilities and certain other adjustments as specified in the Stock Purchase Agreement. The $5.4 million purchase price included $1.08 million paid during December 2016.

Global Risk Management

Our Global Risk Management segment is a new segment in our operations, reflecting the Company's pursuit of our CRC operating model and risk management platform, capitalizing on changes occurring and anticipated within the healthcare industry and emphasizing quality care, cost-effectiveness and execution under value-based reimbursement. We have expanded our global risk structure through Prospect Health Plan, Inc. ("PHP") in California, Prospect Health Services TX, Inc. ("PHSTX") in Texas, Prospect Health Services RI, Inc. ("PHSRI") in Rhode Island, Prospect Health Services NJ, Inc. ("PHSNJ") in New Jersey, Prospect Health Services CT, Inc. ("PHSCT") in Connecticut, Prospect Health Services PA, Inc. ("PHSPA") in Pennsylvania, and Prospect ACO Northeast, LLC ("NE ACO"). These entities contract with third-party health plans and the Center of Medicare and Medicaid Services on progressive risk reimbursement models leading to global risk contracts for both physicians, other medical services and institutional services including hospital inpatient and outpatient services, home health, skilled nursing facility and other institutional services. In turn, our global risk management entities contract with owned and third party independent physician associations, owned and third party hospitals and other health care providers to assume and manage this global risk. Through these contracts, we manage health plan member populations with a focus on delivering coordinated care to members across our network of physicians and providers under risk and value-based contracts that reward value over volume.

The Global Risk Management segment also includes Coordinated Regional Care Group, Inc. ("CRCG"), for which results are included beginning in June 2015. CRCG includes development and operating costs related to the Global Risk Management segment for new markets and strategic initiatives.

Corporate

Capitalization

On June 30, 2016, we entered into a six-year $625 million senior secured term loan B (the "Term Loan"), the proceeds of which were used to repay $425 million for PMH's existing 8.375% senior secured notes due during 2019; to repay $60 million for borrowings under our existing revolving credit facility (the "Replaced Revolver"); to fund acquisitions, including the acquisition of Crozer-Keystone Health System in Pennsylvania, which closed on July 1, 2016; and to finance transaction fees and expenses. The Term Loan bears interest at LIBOR (subject to a 1.0% floor) plus 6.0%, and the effective interest rate was 7.5% as of December 31, 2017.

Additionally, we refinanced the Replaced Revolver with a new $100 million asset-based revolving credit facility ("ABL Facility" and together with the Term Loan, the "New Senior Secured Credit Facilities"). The ABL limit was increased to $115 million effective August 2016. The ABL Facility bears interest at a variable base rate plus an applicable spread, contingent on the Company's ABL Facility availability, as defined in the ABL Facility credit agreement. The ABL Facility effective interest rate was 3.5% as of December 31, 2017. We made an initial draw of $55 million on the ABL Facility on June 30, 2016, and the balance as of December 31, 2017 was $115.3 million. The maturity date for the ABL Facility is September 30, 2021, and the maturity date for the Term Loan is September 30, 2022.

The New Senior Secured Credit Facilities are guaranteed on a senior secured basis by all assets of the Company and its wholly-owned subsidiaries ("Guarantors") except Prospect Health Plan, Inc., Connecticut Healthcare Insurance Co., Prospect Medical Holding Risk Retention Group, Inc., Prospect Health Access Network, Inc. and certain immaterial subsidiaries. The ABL Facility has a first priority security interest on the working capital assets of the Company and the Guarantors and a second priority security interest on their fixed assets. The Term Loan has a first priority security interest on fixed assets and a second priority security interest on working capital assets. The New Senior Secured Credit Facilities are effectively senior to all of our existing and future indebtedness.

USE OF ADJUSTED EBITDA

This Earnings Release contains "non-GAAP financial measures," that is, financial measures that either exclude or include amounts that are not excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. Specifically, we make use of the non-GAAP measures "EBITDA" and "Adjusted EBITDA." We also make use of ratios based on these non-GAAP measures.

We define EBITDA as net income (loss) plus (i) provision for income taxes, (ii) interest expense, net (including amortization of deferred financing costs), (iii) depreciation, (iv) amortization, and (v) other non-cash charges. In addition, we define Adjusted EBITDA as EBITDA as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance, including transaction costs, certain legal expenses, stock-based compensation, sponsor structuring and management fees, go-private transaction costs, purchase price adjustments and pre-acquisition items, and other unusual and non-recurring charges. Management believes that EBITDA and Adjusted EBITDA are useful tools for investors and other users of our financial statements in assessing our ability to service and/or incur indebtedness, maintain current operating levels of capital assets and acquire additional operations and businesses. Management believes that the most directly comparable GAAP measure is net income (loss). A reconciliation of EBITDA and Adjusted EBITDA to our net income (loss) under generally accepted accounting principles, or GAAP, for certain periods presented in our financial statements is included at page 29 of this release.

Some of these limitations are:

- They do not reflect cash outlays for capital expenditures or future contractual commitments;
- They do not reflect changes in, or cash requirements for, working capital;
- They do not reflect interest expense, or the cash requirement necessary to service interest, or principal payments, on indebtedness;
- They do not reflect income tax expense or the cash necessary to pay income taxes;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect cash requirements for such replacements; and
- Other companies, including other companies in our industry, may not use such measures or may calculate the measures differently than as presented in this earnings release, limiting their usefulness as a comparative measure.

Because of these limitations, EBITDA, Adjusted EBITDA or any related ratio using such measures should be considered only as a supplemental measure in addition to, and not in lieu of, our GAAP income and cash flow statements, and not as a measure of discretionary cash available to invest in business growth or reduce indebtedness.

CONFERENCE CALL

Management will host a conference call on Monday, February 26, 2018 at 1:00 pm PST / 4:00 pm EST to discuss these results. Interested parties may participate in the call by dialing Redacted (Domestic) or Redacted (International) approximately 10 minutes before the call is scheduled to begin, and ask to be connected to the Prospect Medical Holdings conference call. The conference call will be broadcast live over the internet at the following link: Redacted To listen to the live call on the internet, go to the website at least 15 minutes early to register, and download and install any necessary audio software. A replay of the call will be available for 30 days at this link, or by dialing Redacted (Domestic) or Redacted (International) (Conference ID Redacted).

ABOUT PROSPECT MEDICAL HOLDINGS

Prospect Medical Holdings, Inc. is a healthcare services company that owns and operates 20 facilities, with approximately 3,800 licensed beds, as well as clinics and outpatient centers. Prospect also manages the provision of healthcare services for members enrolled in its networks. Prospect's hospitals are located in diverse, high-density population areas within markets in California, Texas, Rhode Island, New Jersey, Pennsylvania, and Connecticut. Prospect Medical Holdings' website can be found at www.pmh.com.

FORWARD-LOOKING STATEMENTS

This earnings release contains forward-looking statements. Additional written or oral forward-looking statements may be made by Prospect from time to time. Statements contained herein that are not historical facts are forward-looking statements. Readers are cautioned that forward-looking statements, including the statements regarding anticipated or expected results, involve risks and uncertainties which may affect the Company's business and prospects. Any forward-looking statements contained in this earnings release represent our estimates only as of the date hereof, or as of such earlier dates as are indicated, and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our estimates change.

Three months ended December 31, 2017 compared to the three months ended December 31, 2016

Hospital Services Segment

The following table sets forth the results of operations for our Hospital Services segment for the three months ended December 31, 2017 and 2016. Hospital services expenses do not include allocation of corporate overhead or interest expense - see "Corporate Segment" below. The California Hospital Fee Program, Texas Section 1115 Waiver Program and Service Organization of San Antonio ("SOSA") expense significantly impact the comparability of our results between periods. As a result, our discussion of results also includes a description on a "normalized basis" that excludes their impact for the three months ended December 31, 2017 and 2016.

(Unaudited, in thousands)	Three Months Ended December 31,	
	2017	2016
Revenues:		
Net Hospital Services revenues (1):		
Medicare	$ 207,559	$ 210,286
Medicaid	326,265	182,859
Managed care	159,778	144,238
Self pay / other payor	59,314	58,309
Capitation revenue	38,254	24,249
Other	15,192	14,557
Hospital Services revenues	806,362	634,497
Provision for bad debts	(27,933)	(24,294)
Net Hospital Services revenues	778,429	610,203
Other revenues	8,725	16,546
Total Revenues	787,154	626,749
Hospital Services operating expenses:		
Salaries, wages and benefits	323,834	329,077
Supplies	62,347	67,198
Capitation expense	35,859	22,945
Other operating expenses (1)	144,400	91,514
Total Hospital Services operating expenses	566,440	510,735
General and administrative	93,445	82,620
Depreciation and amortization	21,643	21,026
Total non-medical expenses	115,089	103,646
Operating income (loss) from unconsolidated joint ventures	633	739
Operating income from continuing operations	106,258	13,108
Operating loss (income) from discontinued operations	-	569
Operating income	$ 106,258	$ 12,539

(1) Supplemental Reimbursement Program amounts recognized and related expenses:

(Unaudited, in thousands)	Three Months Ended December 31,	
	2017 (A)	2016
California Hospital Fee program revenues	$ 35,274	$ 24,798
California Hospital Fee program expenses	(13,490)	(16,416)
Net pre-tax impact	$ 21,783	$ 8,382
Texas Section 1115 Waiver revenues	$ 6,058	$ 6,267
Texas Section 1115 Waiver contract revenues	1,000	1,046
Texas Section 1115 Waiver contract expenses	(597)	(1,096)
Total Texas Section 1115 Waiver net pre-tax impact	$ 6,461	$ 6,217
Texas Rural community provision of services (SOSA)	$ (2,930)	$ (3,674)
Net pre-tax impact	$ 3,531	$ 2,543
Pennsylvania Medicaid Modernization revenues	$ 8,302	$ 10,503
Pennsylvania Medicaid Modernization expenses	(4,181)	(4,181)
	$ 4,121	$ 6,322
Pennsylvania Community Access Fund and Legislative Initiative revenues	$ 8,316	$ 3,895
Net pre-tax impact	$ 12,437	$ 10,217
Rhode Island DSH & UPL revenues	$ 4,678	$ 5,032
Rhode Island License Fees	(4,186)	(3,988)
Net pre-tax impact	$ 492	$ 1,044
Connecticut Medicaid DSH revenues	$ 8,413	$ 1,975
Connecticut Provider Tax	(10,033)	(6,755)
Net pre-tax impact	$ (1,620)	$ (4,780)
Total Hospital Services revenues	$ 72,041	$ 53,516
Total Hospital Services operating expenses	(35,417)	(36,110)
Total net pre-tax impact	$ 36,623	$ 17,406

(A) Hospital revenue and expenses recognized during fiscal 2018 first quarter under the California Hospital Fee Program were $164.8 million and $72.1 million respectively, for a net pre-tax benefit of $92.7 million.

California Hospital Fee Program applicable to the period October 1, 2017 to December 31, 2017 totaled approximately $35.3 million of revenues, approximately $13.5 million of expense and a net benefit of approximately $21.8 million.

MPT CONFIDENTIAL MPT_PROSPECT_00007673

The following table shows certain selected historical operating statistics for our hospitals for the three months ended December 31, 2017 and 2016:

(Unaudited)	Three Months Ended December 31,	
	2017	2016
Net inpatient revenues (in thousands) (1) (9)	$ 371,428	$ 360,092
Net inpatient revenues excluding California Hospital Fee Program revenues (in thousands) (1)	$ 336,154	$ 335,294
Net outpatient revenues (in thousands)	$ 250,817	$ 235,599
Capitation revenues (in thousands)	$ 38,254	$ 24,249
Other hospital services revenues (in thousands) (2)	$ 15,192	$ 14,557
Other revenues (in thousands) (2)	$ 8,725	$ 16,546
California Hospital Fee Program revenues (in thousands) (3) (9)	$ 35,274	$ 24,798
Texas Section 1115 Waiver revenues (in thousands) (3)	$ 7,058	$ 7,313
Number of hospitals at end of period	20	20
Licensed beds at end of the period	3,762	3,762
Average licensed beds	3,762	3,762
Average staffed beds	2,130	2,022
Occupancy rate for staffed beds (4)	84.2%	83.4%
Admissions (5)	27,394	27,076
Adjusted patient admissions (6)	47,052	45,780
Net inpatient revenue per admission (in thousands) (9)	$ 13,559	$ 13,299
Patient days	165,059	155,121
Adjusted patient days (7)	278,389	279,060
Net inpatient revenue per patient day (in thousands) (9)	$ 2,250	$ 2,321
Average length of patients' stay (days) (8)	6.0	5.7
Outpatient visits	583,947	666,382
Net outpatient revenue per visit (in thousands)	$ 430	$ 354

(1) Net inpatient revenues include self-pay revenues of $10.0 million and $5.9 million for the three months ended December 31, 2017 and 2016, respectively.

(2) Other hospital service revenues consist of revenues earned from ancillary and other hospital operations, while other revenues consist primarily of rental income, incentive revenues earned for the implementation of certified EHR technology at our hospitals, tuition revenue from the St. Joseph Health Services of Rhode Island School of Nursing, and Crozer Health Club membership and other revenues.

(3) California Hospital Fee Program revenues are included in Inpatient (Medicaid) revenues, Texas Section 1115 Waiver revenues are included in Inpatient (Medicaid) revenues and other hospital services revenue, and Pennsylvania Medicare Modernization Act, Community Access Funds and Legislative Initiatives revenues are included in Inpatient (Medicaid) revenues.

(4) The occupancy rate for staffed beds represents average daily census in the period divided by staffed beds. Occupancy rates are affected by many factors, including the population size and general economic conditions within particular market service areas, the degrees of variation in medical and surgical products, outpatient use of hospital services, quality and treatment availability at competing hospitals, and seasonality.

(5) Charity care admissions represented 0.0% and 0.2% of total admissions for the three months ended December 31, 2017 and 2016, respectively.

(6) Adjusted patient admissions are total admissions adjusted for outpatient volume. Adjusted patient admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient charges and gross outpatient charges and then dividing the resulting amount by gross inpatient charges.

(7) Adjusted patient days are total patient days adjusted for outpatient volume. Adjusted patient days are computed by multiplying patient days (inpatient volume) by the sum of gross inpatient charges and gross outpatient charges and then dividing the resulting amount by gross inpatient charges.

(8) Average length of patients' stay ("ALOS") is calculated by dividing total discharged patient days by total patient discharges during the period, and includes the length of patients' stay related to psychiatric, sub-acute, and rehabilitation services.

(9) Excludes $129.5 million of California Hospital Fee Program revenues applicable to periods prior to the three months ended December 31, 2017.

Medical Group Segment

The following table sets forth the results of operations for our Medical Group operations for the three months ended December 31, 2017 and 2016. Cost of revenues does not include allocation of corporate overhead or interest expense - see "Corporate Segment" below.

(Unaudited, in thousands)	Three Months Ended December 31, 2017	2016
Medical Group revenues:		
Capitation	$ 75,232	$ 84,607
Management fees	2,067	2,045
Other operating revenues (1)	5,034	7,793
Total Medical Group revenues	82,333	94,445
Medical Group cost of revenues:		
PCP capitation	12,925	12,369
Specialist capitation	10,089	12,550
Claims expense	34,206	32,201
Physician incentives	3,573	11,093
Other cost of revenues	1,088	873
Total Medical Group cost of revenues	61,881	69,086
Gross margin	20,452	25,359
General and administrative	17,004	14,949
Depreciation and amortization	782	826
Total other expenses	17,786	15,775
(Loss) income from unconsolidated joint ventures	-	(101)
Operating income	$ 2,666	$ 9,483
Medical cost ratio	76.1%	67.5%

The following table sets forth the approximate number of members, by category, as of December 31, 2017 and 2016:

	As of December 31,	
(Unaudited, in thousands)	**2017**	**2016**
Commercial - owned	80.2	89.4
Commercial - managed (2)	5.7	5.6
Senior - owned	31.5	32.2
Senior - managed (2)	3.3	3.2
Medicaid - owned	80.9	75.2
Medicaid - managed (2)	36.0	35.6
Health Insurance Exchange - managed (2) (3)	14.1	14.0
Value Based Reimbursement (4)	221.9	174.2
	473.6	429.4

(1) Other operating revenues primarily consist of payments from HMOs under pay-for-performance programs and are recognized each year once the amounts of such items are known, as well as patient service revenues related to clinical operations.

(2) Represents members that we manage on behalf of third parties in exchange for a monthly management fee.

(3) Our management services company is party to an agreement with one of our major HMOs to manage the provision of medical services to members enrolled under the PPACA Health Insurance Exchange program. We receive a fixed per member per month management fee under the program and do not share in the risk for medical services for such members.

(4) Value Based Membership also defined as Population under management. We have direct contracts with multiple Health Plans in all of the states where we operate to provide quality care to the population under management improving care delivery to the members in most cost efficient manner for a fixed infrastructure payments. In many of the contracts, we also receive variable revenue also called Pay for Performance for improving health scores, and closing quality gaps. In addition, in some of the contracts, we are also eligible for upside and downside sharing of risk pools for the population under management.

Global Risk Management Segment

The following table sets forth the results of operations for our Global Risk Management segment for the three months ended December 31, 2017 and 2016. Global Risk Management expenses do not include allocation of corporate overhead or interest expense - see "Corporate Segment" below. Capitation revenue includes net capitation revenue retained by the Global Risk Management segment after transfer of capitation to the Hospital Services and Medical Group segments.

(Unaudited, in thousands)	Three Months Ended December 31, 2017	2016
Global Risk Management revenues:		
Capitation (1) (2)	$ 5,362	$ 1,443
Other operating revenues	1,818	186
Total Global Risk Management revenues	7,180	1,629
Global Risk Management cost of revenues:		
Capitation Expense	868	-
Claims Expense	4,836	973
Total Global Risk Management cost of revenues	5,704	973
Gross margin	1,476	656
General and administrative (3)	2,006	1,476
Total other expenses	2,006	1,476
Operating (loss)	$ (530)	$ (820)

(1) For the three months ended December 31, 2017 and 2016, capitation revenue includes $63.5 million and $19.1 million, respectively, received from health plans, of which $55.4 million and $17.3 million, respectively, were transferred to our Medical Group and Hospital Services segments.

(2) Capitation revenue includes shared risk pool deficit of ($2.7) million and ($0.3) million for the three months ended December 31, 2017 and 2016, respectively.

(3) General and administrative expenses include development costs incurred for our Global Risk Management segment.

Corporate Segment

The Corporate segment primarily reflects certain expenses incurred at Prospect Medical Holdings, Inc. not specifically allocable to the Hospital Services, Medical Group, or Global Risk Management segments. These include, but are not limited to: salaries, benefits and other compensation for corporate employees; financing expenses; insurance expenses; rent; legal fees; and accounting fees. Additionally, this segment includes operations of a captive insurance company, Prospect Medical Holding Risk Retention Group, Inc. ("RRG"), which was incorporated on June 20, 2016 in the state of Vermont. The RRG was formed as a wholly-owned subsidiary of the Company to provide primary insurance coverage for hospital and physician professional and general liability risks for the Company's subsidiary health care organization. The Company does not allocate interest expense related to acquisition debt or income taxes to the other reporting segments.

The following table summarizes our corporate expenses for the three months ended December 31, 2017 and 2016:

(Unaudited, in thousands)	Three Months Ended December 31, 2017	2016
Operating Expenses:		
General and administrative (1)	$ 5,671	$ 7,531
Depreciation and amortization	37	36
Total Corporate Expenses	$ 5,708	$ 7,567

1) General and administrative expenses reflect a decrease in transaction and development costs of $1.8 million from the three months ended December 31, 2016 to the three months ended December 31, 2017.

MPT CONFIDENTIAL

Three months ended December 31, 2017 compared to the three months ended December 31, 2016

Hospital Services Segment Results of Operations

Net Hospital Services Revenues

Hospital services revenues before provision for bad debts was $806.4 million for the first quarter of fiscal 2018 ("fiscal 2018 quarter") compared to $634.5 million for the first quarter of fiscal 2017 ("fiscal 2017 quarter"). On a normalized basis and excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program revenues, hospital services revenues before provision for bad debts increased 5.3% from $602.4 million for the fiscal 2017 quarter to $634.5 million for the fiscal 2018 quarter. The $32.1 million increase in Hospital Services segment revenues was primarily due to increased enrollment resulting from new Global Capitation arrangement at our Foothill facility effective July 1, 2017, in addition to an increase in Inpatient volume with Medicare discharges at our Waterbury facility.

Provision for bad debts, on a normalized basis, as a percentage of hospital services revenues (excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program), increased from 4.2% in the first quarter of fiscal year 2017 to 4.7% in the same quarter of fiscal year 2018 due to the increase in provision for bad debts at our Connecticut, Pennsylvania and New Jersey facilities, driven by receivables ageing more than one year post acquisition at the beginning of fiscal 2017 first quarter. The provision for bad debts relates principally to amounts due from self-pay patients and self-pay after insurance.

Other revenues consist primarily of Nix Health and CharterCARE commercial real estate rental income, incentive revenues earned for the implementation of certified EHR technology at our hospitals, and Crozer Health Club membership dues. On a normalized basis, other revenue decreased from $14.4 million for the fiscal 2017 quarter to $8.7 million for the fiscal 2018 quarter, primarily due to the sale of placement rights for cell towers during fiscal 2017 first quarter at our Rhode Island and Connecticut facilities, in addition to EHR incentives at our southern California hospitals during fiscal 2017 first quarter.

Hospital Services Operating Expenses

Salaries, wages and benefits ("SWB") decreased from $329.1 million during the fiscal 2017 first quarter to $323.8 million during the same fiscal 2018 quarter. On a normalized basis, SWB as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program), decreased to 57.0% for the first quarter of fiscal year 2018 from 59.4% for the same quarter of fiscal 2017.

Supplies expense decreased from $67.2 million in the fiscal 2017 quarter to $62.3 million in the fiscal 2018 quarter, due to decrease in spine surgical implants and decrease in pharmaceutical consumption. On a normalized basis, supplies expense as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program), decreased from 12.1% during the fiscal 2017 quarter to 11.0% during the fiscal 2018 quarter.

Capitation expense increased from $22.9 million in the fiscal 2017 quarter to $35.9 million in the fiscal 2018 quarter, due to new Global Capitation arrangement at Foothill facility effective July 1, 2017 resulting in increased enrollment from 55,211 at December 31, 2016 to 98,833 at December 31, 2017. We recognize revenue and expenses in the Hospital Services segment for global capitation arrangements for which hospitals in our Hospital Services segment are responsible for the provision of care to members under such arrangements.

Other operating expenses increased from $91.5 million in the fiscal 2017 quarter to $144.4 million in the fiscal 2018 quarter. On a normalized basis and excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program and capitation revenue, other operating expenses as a percentage of net hospital services revenues decreased from 12.7% during the fiscal 2017 quarter to 12.1% during the fiscal 2018 quarter.

General and Administrative

Hospital General and Administrative ("G&A") expense increased from $82.6 million in the fiscal 2017 quarter to $93.4 million in the fiscal 2018 quarter. The $10.8 million increase was primarily due to costs incurred with related to professional liability insurance, professional fees and an increase in property tax in connection to the acquisition of a new school at our Pennsylvania facilities. On a normalized basis, G&A as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program), increased from 14.9% to 16.4% for the fiscal 2017 and 2018 quarters, respectively.

Depreciation and Amortization

Depreciation and amortization expense increased from $21.0 million in the fiscal 2017 quarter to $21.6 million in the fiscal 2018 quarter. On a normalized basis, depreciation and amortization as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program), remained at 3.8% for both fiscal 2017 and 2018 quarters.

Income from Unconsolidated Joint Ventures

Income from unconsolidated joint ventures was $0.6 million for the fiscal 2018 first quarter compared to $0.7 million in the fiscal 2017 quarter. Income from unconsolidated joint ventures consists of equity method income related to CharterCare, Crozer, ECHN and Waterbury joint ventures and equity method investments.

Operating Income from Continuing Operations

Hospital Services operating income from continuing operations were $106.3 million in the fiscal 2018 first quarter compared to $13.1 million in the same fiscal 2017 quarter.

Medical Group Segment Results of Operations

Medical Group Revenue

Capitation revenue decreased 11.1% to $75.2 million for the fiscal 2018 quarter from $84.6 million for the fiscal 2017 quarter. The decrease was primarily due to lower shared risk-pool revenue, which was impacted by timing of settlement of shared risk-pool, and partially offset by higher Medicaid member-months.

Management fee revenue remained flat at $2.0 million for both the fiscal periods. Management fees range from 6.5% to 12.0% of revenues, depending on the type of revenues.

Other operating revenue decreased 35.4% to $5.0 million for the fiscal 2018 quarter from $7.8 million for the fiscal 2017 quarter. The decrease was primarily due to timing of performance incentive payments and other wellness programs reimbursements.

Medical Group Operating Expenses

Primary care physician ("PCP") capitation expense increased 4.5% to $12.9 million for the fiscal quarter 2018 compared to $12.4 million for the fiscal quarter 2017. PCP capitation expense as a percentage of capitation revenues increased to 17.2% from 14.6%. The increase in PCP capitation expense as a percentage of capitation revenues was primarily due to competitive rate increases to PCP to secure market share, partially offset by the effect of lower capitation revenue.

Specialist capitation expense decreased 19.6% to $10.1 million for the fiscal quarter 2018 from $12.6 million for the fiscal quarter 2017. Specialist capitation expense as a percentage of capitation revenues decreased to 13.4% from 14.8%. The decrease in specialist capitation expense as a percentage of capitation revenues was primarily due to certain physicians switching from capitation to fee-for-service payment arrangement, partially offset by the effect of lower capitation revenue.

Claims expense increased 6.2% to $34.2 million for the fiscal quarter 2018 from $32.2 million for the fiscal quarter 2017. Claims expense as a percentage of capitation revenues increased to 45.5% for the fiscal quarter 2018 from 38.1% for the fiscal quarter 2017. The increase in claims expense as a percentage of capitation revenues was primarily due to certain physicians switching from capitation to fee-for-service payment arrangements and the effect of lower capitation revenue.

Physician incentives expense decreased 67.8% to $3.6 million for the fiscal quarter 2018 from $11.1 million for the fiscal quarter 2017. The decrease was primarily due to lower shared risk revenue and lower discretionary bonus and profit sharing incentive payment.

Other cost of revenues was $1.1 million for the fiscal 2018 quarter compared to $0.9 million for the fiscal 2017 quarter. The increase was primarily due to higher utilization of contracted physicians at our clinic operations in the fiscal quarter 2018 compared to the fiscal quarter 2017.

Medical Cost Ratio and Gross Margin

Medical care costs as a percentage of Medical Group capitation revenues (the medical cost ratio, a non-GAAP measure) increased to 76.1% for the fiscal quarter 2018 from 67.5% for the fiscal quarter 2017, and gross margin, as a percentage of total revenue, decreased to 24.8% for the fiscal quarter 2018 from 26.9% for the fiscal quarter 2017. These changes were the result of items discussed above.

General and Administrative

G&A expenses increased 13.8% to $17.0 million for the fiscal quarter 2018 from $14.9 million for the fiscal quarter 2017. G&A expenses as a percentage of total Medical Group revenues increased to 20.7% for the fiscal quarter 2018 from 15.8% for the fiscal quarter 2017. The increase in G&A expenses as a percentage of total Medical Group revenues was primarily due to increase in SWB related to expansion of our value-based business.

Depreciation and Amortization

Depreciation and amortization expense remained consistent at $0.8 million for both fiscal periods.

Income (Loss) from Unconsolidated Joint Ventures

Income (loss) from unconsolidated joint ventures (our 50% partnership interest in AMVI/Prospect Medical Group) was none and ($0.1) million for the fiscal quarters of 2018 and 2017, respectively.

Operating Income

Our Medical Group segment reported operating income decreased $6.8 million or 71.9% to $2.7 million for the fiscal quarter 2018 from $9.5 million for the fiscal quarter 2017 as a result of the items discussed above.

Global Risk Management Segment Results of Operations

Global Risk Management Revenue

Our Global Risk Management segment began operations during the first quarter of fiscal 2015. The Global Risk Management segment entered into Management Services Agreements with our Medical Group and Hospital Services segments, under which up to 98% of capitation revenue received is transferred to the Medical Group and Hospital Services segments. Capitation revenue recognized increased to $7.2 million for the fiscal 2018 quarter from $1.6 million for the fiscal 2017 quarter. During the fiscal 2018 quarter, capitation revenue received from health plans was $63.5 million, of which $26.4 million and $29.0 million was transferred to our Hospital Services segment and Medical Group segment, respectively. During the fiscal 2017 quarter, capitation revenue received from health plans was $19.1 million, of which $8.5 million and $8.8 million were transferred to our Hospital Services segment and Medical Group segment, respectively. The increases in capitation revenue and the amounts transferred to the Hospital Services segment and Medical Group segment were primarily due to expansion of health plans in California, partially offset by loss in risk pool revenue.

Global Risk Management Cost of Revenues

Cost of revenues increased to $5.7 million during the fiscal 2018 quarter from $1.0 million during the fiscal 2017 quarter. Claims expense as a percentage of capitation revenues increased to 67.4% for the fiscal 2018 quarter from 59.7% for the fiscal 2017 quarter.

General and Administrative

G&A expenses increased to $2.0 million for the fiscal 2018 quarter from $1.5 million for the fiscal 2017 quarter. Increase in G&A expenses was primarily due to increase in SWB, partially offset by a decrease in utilization of outside services related to business development activities within our Global Risk Management segment. G&A expenses as a percentage of total revenues decreased to 26.9% for the fiscal 2018 quarter from 90.6% for the fiscal 2017 quarter. The increase was mainly attributable to increased costs incurred related to expansion to new markets.

Operating (Loss)

Our Global Risk Management segment reported an operating loss of ($0.5) million and ($0.8) million for the fiscal 2018 quarter and fiscal 2017 quarter, respectively, as a result of the items discussed above.

Corporate Segment Results of Operations

G&A expenses decreased to $5.7 million during the fiscal 2018 quarter from $7.6 million during the fiscal 2017 quarter. The decrease was due primarily to a decrease in the utilization of outside services related to business combination as acquisitions including ECHN and Waterbury were completed in the fiscal 2017 quarter as compared to no such activities during the fiscal 2018 quarter.

Consolidated Results of Operations

Other Income and Expense, Net

Interest expense, net, increased from $13.7 million for the fiscal 2017 quarter to $19.3 million for the fiscal 2018 quarter.

Provision for Income Taxes

The income tax provision was $25.4 million for the fiscal 2018 quarter compared to a provision for income taxes of $0.2 million for the fiscal 2017 quarter.

Liquidity and Capital Resources

Cash Flow for the three months ended December 31, 2017 compared to the three months ended December 31, 2016

Cash Flow from Operations

Net cash provided by operating activities for the three months ended December 31, 2017 was $68.4 million, compared to net cash used of $23.8 million for the fiscal 2017 quarter. The increase of $92.2 million was primarily due to the following factors:

Increases as a result of:

- Decrease in income taxes receivable, net of $29.3 million in the fiscal 2018 quarter as compared to an increase of $1.2 million in the fiscal 2017 quarter;
- Increase in the net effect of the amount and timing of the California Hospital Fee Program amounts recognized, representing an aggregate cash decrease of $64.1 million in the fiscal 2018 quarter, compared to a decrease of $8.7 million in the fiscal 2017 quarter;
- Decrease in other receivables, prepaid expenses and other current assets of $53.4 million in the fiscal 2018 quarter as compared to an increase of $20.8 million in the fiscal 2017 quarter; and
- Increase in net amounts due to/from government payers of $2.2 million in the fiscal 2018 quarter as compared to a decrease of $1.9 million in the fiscal 2017 quarter.

Decreases as a result of:

- Increase in patient accounts receivables of $7.2 million in the fiscal 2018 quarter as compared to an increase of $67.5 million in the fiscal 2017 quarter;
- Decrease in accounts payable and other accrued expenses of $57.4 million in the fiscal 2018 quarter as compared to an increase of $31.9 million in the fiscal 2017 quarter;
- Increase in Hospital Fee Program receivable of $126.2 million in the fiscal 2018 quarter as compared to an decrease of $0.1 million in the fiscal 2017 quarter;
- Increase in inventories of $1.0 million in the fiscal 2018 quarter as compared to an increase of $2.4 million in the fiscal 2017 quarter; and
- Increase in deposits and other assets of $2.2 million in the fiscal 2018 quarter as compared to a decrease of $5.4 million in the fiscal 2017 quarter.

Net cash used in investing activities was $24.9 million during the three months ended December 31, 2017, compared to $18.0 million during the three months ended December 31, 2016, including the following items:

- During the fiscal 2018 quarter, we spent $21.5 million on capital expenditures, compared to $14.1 million in the fiscal 2017 quarter;
- During the fiscal 2018 quarter, our restricted investments increased $3.3 million as compared to none during the fiscal 2017 quarter.

Net cash provided by financing activities was $18.3 million in the three months ended December 31, 2017, as compared to net cash provided by financing activities of $35.5 million in the prior year quarter, including the following items:

- The Company repaid $2.9 million and $2.5 million in amounts due under capital leases during the fiscal 2018 and 2017 quarters, respectively;
- The Company repaid $2.5 million of insurance premiums financing during the fiscal 2018 quarter as compared to $2.9 million during the fiscal 2017 quarter; and
- Decrease in restricted cash of $25.8 million as compared to a nominal increase for the fiscal 2018 and 2017 quarters, respectively.

Net Debt: Adjusted TTM EBITDA Ratio:	As reported	Proforma [6]
Adjusted EBITDA (TTM)	$ 301.2	$ 324.2
Ending debt	794.0	794.0
Less: Ending cash and investments	113.1	136.1
Ending net debt	$ 680.9	$ 657.9
Net Debt: Adjusted TTM EBITDA Ratio	2.26	2.03

(1) Management adjusts for expenses and gains that it does not consider in evaluating core operating performance for compensation, internal capital allocations, acquisition analysis or other strategic purposes.

(2) Transaction costs primarily relate to costs directly related to financing and merger and acquisition activity. Included in Q4 2017 was approximately $15 million of costs related to retro coverage premiums incurred in connection with the Crozer acquisition.

(3) $8.6 million of net California Hospital Fee Program income was recorded in Q2 16; $7.3 million of net California Hospital Fee Program income was recorded in Q3 16; $8.4 million of net California Hospital Fee Program income was recorded in Q4 16; and $8.4 million of net California Hospital Fee Program income was recorded in Q1 17. None of net California Hospital Fee Program income was recorded in Q2 17; $3.0 million of net California Hospital Fee Program was recorded in Q3 17; and $13.8 million of net California Hospital Fee Program was recorded in Q4 17; and $92.7 million of net California Hospital Fee Program was recorded in Q1 18.

(4) Quarterly results include the results of the CharterCARE Physician practices acquisitions (acquired at various dates from Q1 15 through Q3 16), PMCA (acquired December 1, 2015), East Orange (acquired March 1, 2016), Crozer (acquired July 1, 2016), EHCN (acquired October 1, 2016), Waterbury (acquired October 1, 2016) and Prospect Blackstone (acquired May 1, 2017) from their respective acquisition dates. Certain reclassifications were made to prior quarters' presentation to conform to the current quarter's presentation.

(5) The Company refinanced its debt effective June 30, 2016, and a portion of the proceeds were used to purchase Crozer effective July 1, 2016. Adjusted EBITDA - TTM does not include pro forma Adjusted EBITDA for acquisitions completed in the respective trailing twelve month periods.

(6) Pro-Forma adjustments include: Budgeted and approved increase in CT Supplemental Reimbursement of $9.3 million; temporary reduction in NJ Charity Care Reimbursement of ($3.0 million); budgeted and approved increase in TX DSH reimbursement of $1.8 million; negotiated and finalized contract rate increases of $7.7 million; and demonstrated run rate net contribution improvement from previously closed Foothill facility of $7.2 million.

PROSPECT MEDICAL HOLDINGS REPORTS FISCAL 2018 SECOND QUARTER FINANCIAL RESULTS

Q2 FY 2018 Highlights Compared to Q2 FY 2017

- **Revenue increased 9.1% to $775.2 million from $710.8 million**
- **Adjusted EBITDA increased 22.6% to $59.3 million from $48.4 million**
- **Pro-Forma March 2018 Trailing Twelve Months ("TTM") Adjusted EBITDA is $339.8 million**

  TTM Adjusted EBITDA increased 62.1% to $312.1 million from $192.6 million
- **Operating income increased to $30.5 million compared to $19.2 million (excluding the effect of the payment in connection with Dividend Recapitalization transaction)**
- **Net Income increased to $6.0 million compared to net loss of $2.8 million (excluding the after-tax effect of payment in connection with Dividend Recapitalization transaction, loss on debt extinguishment and other nonrecurring expenses)**
- **Cash and Investments was $161.1 million at March 31, 2018 (when deferred 2017 and 2018 QAF is included)**

  Cash and investments was $53.7 million at March 31, 2018, after $108.4 million cash paid for capital acquisitions and pension contributions, and March 31, 2017 (when deferred 2017 and 2018 QAF is not included)
- **Net Debt to Pro Forma Adjusted TTM EBITDA Ratio is 3.51x at March 31, 2018 (when deferred 2017 and 2018 QAF is included)**

  Net Debt to Adjusted TTM EBITDA Ratio of 4.16x at March 31, 2018 (when deferred 2017 and 2018 QAF is not included)

  At comparable debt levels, the Net Debt to Adjusted TTM EBITDA Ratio is 2.26X at March 31, 2018 compared to 3.80x at March 31, 2017

Los Angeles, CA - May 16, 2018 - Prospect Medical Holdings, Inc. ("Prospect" or the "Company") today announced financial results for its fiscal 2018 second quarter ended March 31, 2018. The Company will host a conference call on May 31, 2018 at 1:00 pm PST (4:00 pm EST) to discuss these results - details at page 10 of this release.

Prospect's second quarter results reflect the continued investments in, and pursuit of, the Company's Coordinated-Regional-Care ("CRC") operating model that emphasizes quality care, cost-effectiveness and execution, through its hospitals, affiliated medical groups, clinics/outpatient centers and risk management platform. The Company believes that its CRC operating model provides great flexibility and efficiency, is well-suited to today's healthcare market, and positions the Company to capitalize on changes occurring and anticipated within the healthcare industry. Prospect continues to focus on improving operating performance, cross-fertilizing growth between its Hospital Services, Medical Group and Global Risk Management segments, and entering into value-enhancing arrangements with its health plan, hospital and physician partners.

CONSOLIDATED RESULTS OVERVIEW

Revenues increased 9.1% to $775.2 million for the fiscal 2018 second quarter from $710.7 million for the fiscal 2017 second quarter. Included in the $64.5 million quarter-over-quarter increase are a $67.0 million increase in Hospital Services revenues, a $2.5 million increase in Medical Group revenues, and a $3.4 million increase in Global Risk Management revenues, offset by an $8.3 million decrease in other revenues. The increase in Hospital Services revenues was primarily due to increased enrollment resulting from the new Global Capitation arrangement at our Foothill facility, in addition to an increase in inpatient volume with Medicare discharges at our Waterbury facility. Additionally, during the three months ended March 31, 2018, we recorded revenues related to the California Hospital Fee (QAF) program of $38.6 million. The increase in Medical Group revenues was primarily due to timing of recognition for Risk Adjustment Factor (RAF) / Hierarchical Condition Category (HCC) supplemental revenue, along with higher Medicaid and Senior member-months, partially offset by lower Commercial member-months and lower shared risk revenue. The increase in Global Risk Management revenues was primarily due to the expansion of health plans in California, partially offset by loss in risk pool revenue. The decrease in other revenues was primarily due to the sale of placement rights for cell towers at our Rhode Island, Connecticut and Culver City facilities within our Hospital Services Segment.

Total adjusted EBITDA increased 22.6% to $59.3 million for the fiscal 2018 second quarter from $48.4 million for the same fiscal 2017 quarter.

SEGMENT RESULTS OVERVIEW

Hospital Services

Fiscal 2018 second quarter Hospital Services segment revenues were $680.4 million compared to $621.8 million for the same fiscal 2017 quarter. On a normalized basis and excluding the effect of the California Hospital Fee Program and Texas Section 1115 Waiver Program revenues[1], net Hospital Services segment revenues increased 3.5% to $635.2 million for the fiscal 2018 second quarter from $613.7 million for the same fiscal 2017 quarter. The $58.6 million increase in Hospital Services segment revenues was primarily due to increased enrollment resulting from the new Global Capitation arrangement at our Foothill facility in Tustin, California effective July 1, 2017, in addition to an increase in inpatient volume with Medicare discharges at our Waterbury facility in Connecticut.

Total Hospital Services segment adjusted EBITDA increased 25.2% to $52.5 million for the fiscal 2018 second quarter from $42.0 million for the same fiscal 2017 quarter.

Medical Group

Fiscal 2018 second quarter Medical Group segment revenues were $88.8 million compared to $86.4 million for the same fiscal 2017 quarter. The increase was primarily due to timing of recognition for RAF/HCC supplemental revenue, along with higher Medicaid and Senior member-months, partially offset by lower Commercial member-months and lower shared risk revenue. Total Medical Group segment adjusted EBITDA increased 11.7% to $10.6 million for the fiscal 2018 second quarter from $9.5 million for the fiscal 2017 second quarter.

[1] California Hospital Fee Program revenue was $38.6 million and $0 million for the second quarter of fiscal 2018 and 2017, respectively. Texas Section 1115 Waiver revenue was $6.6 million and $7.3 million for the second quarter of fiscal 2018 and 2017, respectively. For a brief explanation of both programs, see the "Hospital Services - Reimbursement" section in the Management's Discussion and Analysis of Financial Condition and Results of Operations below.

MPT CONFIDENTIAL

Global Risk Management

Our Global Risk Management Segment enters into global capitation arrangements with certain third-party health plans and manages the provision of care for members in coordination with our Hospital Services and Medical Group segments. Global Risk Management segment revenue was $6.0 million for the fiscal 2018 quarter compared to $2.6 million for the fiscal 2017 quarter. Capitation revenue received from health plans totaled $61.7 million and $29.5 million for the fiscal 2018 and 2017 quarters, respectively, of which $53.7 million and $26.6 million was transferred to our Medical Group and Hospital Services segments for the fiscal 2018 and 2017 quarters, respectively. Total Global Risk Management segment adjusted EBITDA was $1.2 million for the fiscal 2018 second quarter compared to $1.3 million for fiscal year 2017 second quarter.

Corporate

Corporate segment expenses increased to $44.3 million for the fiscal 2018 quarter from $5.8 million for the fiscal 2017 quarter. The increase was primarily due to increases in salary expenses as a result of the payment of $36.8 million in connection with the Dividend Recapitalization transaction to option holders during the fiscal 2018 quarter.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview and Recent Transactions

We provide quality, cost-efficient and coordinated healthcare services through our hospitals, clinics and physician networks in California, Texas, Rhode Island, New Jersey, Pennsylvania, and Connecticut. We conduct our business operations through four complementary segments: the Hospital Services segment, the Medical Group segment, the Global Risk Management segment and the Corporate segment.

Hospital Services

Through our Hospital Services segment, we own and operate 20 facilities with approximately 3,700 licensed beds. Our facilities are primarily located in diverse, high-density population areas and maintain important market positions in the areas they serve. Our facilities are 100% owned (with the exception of the CharterCARE facilities in Rhode Island, in which we have an 85% interest), and provide a comprehensive range of services tailored to their specific communities, including area hospitals, physicians, and health plans. We believe that our proven model has a number of competitive advantages, including a data-driven and cost-efficient platform that has enabled us to provide quality care.

Acquisitions and Divestitures

Effective July 1, 2016, our wholly-owned subsidiary Prospect Crozer, LLC ("Crozer") acquired certain assets and assumed certain liabilities of Crozer-Keystone Health System, which has locations throughout Delaware County in Pennsylvania and the surrounding areas for cash consideration of $56.4 million, subject to a working capital adjustment. During the year ended September 30, 2017, the purchase price allocation was finalized and in December 2017, the Company paid an additional $22.0 million as a working capital adjustment and added to the consideration paid. Crozer has 4 acute-care hospitals with 628 licensed beds, a network of outpatient centers and urgent care centers, a comprehensive physician network of primary care and specialty practices, and a sports club. Crozer provides a full range of services including acute care services, sub-acute care services, emergency and trauma services, behavioral health services, nursing and rehabilitative services, and physician care services. Assumed liabilities included a long-term pension obligation of $330.3 million as of July 1, 2016. In connection with the acquisition, Crozer paid $100.0 million into an escrow that was subsequently used, in part, to fund the underfunded pension liability. Results of operations for Crozer have been included in the results of our Hospital Services segment from the date of acquisition.

Effective October 1, 2016, our wholly-owned subsidiary Prospect ECHN, Inc. (and affiliated wholly-owned subsidiaries) acquired substantially all of the assets, and certain liabilities, of Eastern Connecticut Health Network, Inc. and certain of its subsidiaries in exchange for cash consideration of $105.0 million (subject to certain adjustments). During the fiscal 2018 second quarter, the purchase price allocation was finalized. Adjustments recognized during fiscal 2017 were adjusted on the opening balance sheet and adjustments recorded in the fiscal 2018 second quarter were recorded in the income statement, as proscribed under applicable accounting literature. The acquired assets include a network of hospitals, outpatient service centers and providers and specialists serving eastern Connecticut. Our acquired hospitals are The Manchester Memorial Hospital, an acute-care hospital with 283 licensed beds, and The Rockville General Hospital, an acute-care hospital with 118 licensed beds. The assumed liabilities included a long-term pension obligation of $66.9 million as of October 1, 2016. Results of operations for Prospect ECHN, Inc. are included in the results of our Hospital Services segment from the date of acquisition.

Effective October 1, 2016, our wholly-owned subsidiary Prospect Waterbury, Inc. (and affiliated wholly-owned subsidiaries) acquired substantially all of the assets, and certain liabilities, of Greater Waterbury Health Network, Inc. and certain of its subsidiaries in exchange for cash consideration of $31.8 million (subject to certain adjustments). During the fiscal 2018 second quarter, the purchase price allocation was finalized. Adjustments recognized during fiscal 2017 were adjusted on the opening balance sheet and adjustments recorded in the fiscal 2018 second quarter were recorded in the income statement, as proscribed under applicable accounting literature. The acquired assets include Waterbury Hospital, an acute-care hospital with 357 licensed beds, and a network of outpatient centers and affiliated physicians. Waterbury Hospital provides a comprehensive range of inpatient, outpatient and ancillary services for residents of Waterbury, Connecticut, and its surrounding community. The

MPT CONFIDENTIAL MPT_PROSPECT_00007697

assumed liabilities included a long-term pension obligation of $11.8 million as of October 1, 2016. Results of operations for Prospect Waterbury, Inc. are included in the results of our Hospital Services segment from the date of acquisition.

Effective May 1, 2017, our wholly-owned subsidiary, Prospect Blackstone Valley Surgicare, LLC ("Prospect Blackstone"), completed an asset acquisition of a freestanding ambulatory surgery center located near our CharterCARE facilities in Rhode Island. It was purchased from Blackstone Valley Surgicare Acquisition, L.P. in exchange for cash consideration of $1.5 million, of which $100,000 is subject to an indemnification escrow hold-back. Results of operations for Prospect Blackstone have been included in the results of our Hospital Services segment from the date of acquisition.

Reimbursement

Our hospitals participate in the Medicaid programs in the states in which they are located.

California's Medicaid program, known as Medi-Cal, has both a fee-for-service component under which the State pays hospitals directly for covered services, and a managed care component, under which the State makes capitation payments to health plans which pay hospitals for services to Medi-Cal patients enrolled in the plans. Most Medi-Cal services are currently reimbursed under managed care.

Hospitals receive payments for inpatient services under the fee-for-service component based on prospectively set rates, which vary based on the AP-DRG to which the patient is assigned. Hospitals receive payments for outpatient services under the fee-for-service component based on a rate schedule established by the State. Under Medi-Cal managed care, most hospital reimbursement is based on rates in contracts between the health plans and the hospitals.

California makes certain supplemental payments to hospitals under Medi-Cal. The largest supplemental payment program is the Hospital Quality Assurance Fee program (the "California Hospital Fee Program" or "QAF program"). Under this program, supplemental payments are provided to hospitals, such as the hospitals owned and operated by the Company's subsidiaries. The California Hospital Fee Program requires participating hospitals to pay fee assessments into a special fund. A portion of these funds, together with federal matching funds, are then paid to qualifying hospitals based on a prescribed formula ("Fee for Service Component"). Another portion of the funds, together with federal matching funds, are paid as additional capitation payments to health plans participating in Medi-Cal managed care ("Managed Care Component"), and the health plans are required to disburse the additional capitation payments to hospitals. The net benefit for the California Hospital Fee Program for the period January 1, 2014 through December 31, 2016, for the Company, including Bellflower, was $80.0 million.

In November 2016, the California voters approved Proposition 52, which continued the California Hospital Fee Program after December 31, 2016. The California Hospital Fee Program is operated in cycles known as program periods. The next program period began January 1, 2017 and will end June 30, 2019. Subsequent program periods will be of a duration not to exceed three years.

In December 2017, CMS approved the fee-for-service inpatient and outpatient payments and taxes for the period from January 1, 2017 to June 30, 2019. The increased payments to the Medi-Cal managed plans for the current California Hospital Fee Program period is anticipated to occur the second half of Calendar 2018 when CMS approves the amended Health Plan contracts.

In July 2010, the Department of Health and Human Services ("HHS") published final regulations implementing the Health Information Technology for Economic and Clinical Health Act ("HITECH Act"). The final regulation establishes the requirements for the Medicare and Medicaid Electronic Health Records ("EHR") incentive programs, for which our acute care hospitals are eligible. We have completed certain phases of EHR implementations at our hospital facilities.

In Texas, inpatient hospital stays (except in state-owned teaching hospitals and psychiatric facilities) are reimbursed according to a prospective payment methodology based on diagnosis-related groups (DRGs). Outpatient Services are reimbursed on a reasonable cost based on a percentage of the hospital's most recent tentative Medicaid

cost report settlement as of August 31, 2013. The method of determining reasonable cost is similar to that used under Medicare.

Texas also reimburses hospitals through a Medicaid Section 1115 Waiver Program. The program has consisted of three major components: statewide Medicaid managed care, the Uncompensated Care ("UC") pool, and "Delivery System Reform Incentive Payment" (DSRIP). The UC pool contain $3.1 billion in annual funding to cover, among other things, "shortfall" between the cost of providing care to an uninsured patient and the reimbursement amount that Medicaid would pay for that service. DSRIP is an incentive pool with another $3.1 billion in annual funding that allows providers to earn payments for meeting certain CMS and HHSC-approved reporting and performance metrics for "a wide range of innovative projects. Historically, Nix Health has received payments from both the DSRIP and UC pools. Texas' Medicaid Section 1115 Waiver that CMS approved in December 2017 (the "2017 Waiver") extended the program for an additional five years from October 2017 through September 2022 but made significant changes to the pools. The UC pool will remain at $3.1 billion until September 2019 and will subsequently be adjusted based on aggregate provider data concerning charity care cost in 2017. Widespread failure by providers to report accurate charity care data will result in a "default" pool size of $2.3 billion. The DSRIP program will be phased out during the five-year period as federal matching funds of DSRIP activities will be reduced each year until it ceases entirely in 2021. Some of these funds might be available to support other programs, or if the original DSRIP projects will be continued or incorporated into managed care. Moreover, the impact of UC pool changes, particularly in relation to charity care hospitals, while currently uncertain, will become more evident with each passing deadline over the new Waiver's five-year term.

The Pennsylvania Medicaid Program has both a fee-for-service component and a managed care component. Hospitals receive payments for inpatient services under the fee-for-service component based on prospectively set rates, which vary based on the AP-DRG to which the patient is assigned. Hospitals receive payments for outpatient services under the fee-for-service component based on a rate schedule established by the State.

For inpatient hospital services provided under a participation agreement between an inpatient acute care hospital and a medical assistance managed care organization, payments are made as specified in the agreement.

Our Crozer hospitals are participants in Pennsylvania's Medicaid Modernization Assessment ("MMA"), which has been reauthorized through June 30, 2018, and also receive funds from the Pennsylvania Community Access Fund Grant and Legislative Initiative.

In Rhode Island, inpatient hospital services under fee-for-service Medicaid are reimbursed based on prospectively set rates, which vary based on the AP-DRG to which the patient is assigned. Outpatient services are paid under an Ambulatory Payment Classification (APC) Fee Schedule. Our hospitals in Rhode Island participate in the Medicaid Disproportionate Share Hospital ("DSH") program and receive additional reimbursement for treating a disproportionate share of low income patients. The state also assesses a provider tax based on net patient revenue. Rhode Island's proposed budget for FY 2019 includes various cuts to Medicaid spending, including freezing hospital reimbursement rates and requiring beneficiaries to pay co-payments for the first time in the program's history. This may adversely impact our hospitals' reimbursement from the Rhode Island Medicaid Program.

In Connecticut, inpatient hospital services under fee-for-service Medicaid are reimbursed based on prospectively set rates, which vary based on the AP-DRG to which the patient is assigned. Pursuant to state law, over a period of four years, starting in 2016, Connecticut is transitioning from hospital-specific AP-DRG base rates to state-wide rates by peer groups. Outpatient hospital services are paid under an Ambulatory Payment Classification (APC) prospective payment system based on the complexity of the services performed.

Our hospitals in Connecticut and New Jersey participate in their Medicaid DSH programs and receive additional reimbursements for treating a disproportionate share of low income patients. Our hospitals may also be eligible for a portion of a supplemental pool of funds equal to the hospital's pro rata share of the total Medicaid outpatient revenues of all eligible hospitals in the aggregate. Such payments, and the ultimate amount, are dependent on Federal approval of amendments to the States' Plans.

Connecticut assesses a provider tax based on total net revenue received by a hospital for the provision of inpatient hospital services and outpatient hospital services. The amount of the provider tax is currently in a state of flux and is the subject of both litigation and legislative changes to the state budget that must be federally approved. The

two-year budget adopted in late 2017 provides for an increase in the provider tax, as well as additional supplemental payments to be paid to hospitals. Both changes require federal approval (either of a tax waiver or state plan amendment), neither of which has been granted as of this date. Pending federal approval, hospitals are subject to the new tax, while the state has discretion to pay only half of the total amount of supplemental payments to hospitals. It is unclear when the federal government will approve the tax waiver and state amendments.

Medical Group

Through our Medical Group segment, we manage the provision of physician services to enrollees of HMOs in California, Texas, Rhode Island, New Jersey and Pennsylvania through a network of approximately 22,000 primary care and specialty physicians. We also recently contracted with a health plan to begin providing physician services in New Jersey and Connecticut. Our medical groups have a significant presence in Southern California and have capitated contracts with most major HMOs operating in the region. Under the capitated model, an HMO pays our medical groups a stable and predictable per-member-per-month ("PMPM") rate, or a "capitation" payment, for which the medical groups assume responsibility for providing required physician services for those enrollees.

Acquisitions

On December 18, 2014, the Company's newly formed subsidiary, New University Medical Group, LLC ("New UMG"), entered into an Asset Purchase Agreement pursuant to which New UMG acquired substantially all the assets of University Medical Group ("UMG"), a physician medical practice with approximately 35 primary care and specialist physicians located in multiple offices within Providence, Rhode Island, and the surrounding communities. As consideration for the acquisition, New UMG assumed certain designated liabilities of the practice. New UMG is a wholly owned subsidiary of Prospect CharterCARE RWMC, LLC ("Roger Williams Medical Center").

Effective on the December 18, 2014 initial closing date, New UMG acquired designated assets of the practice, including equipment, and entered into an Administrative Services Agreement (which was subsequently amended). In December 2017, the acquisition was completed after New UMG acquired the majority of the remaining assets of the practice.

Additionally, our physician practice subsidiaries in our states of operations have, from time to time, purchased the medical practices of physicians that then became employed (or engaged as independent contractors) by our acquiring entities. In the second fiscal quarter of 2018, PMCA acquired a California physician practice for $0.2 million.

In Rhode Island, our subsidiary, Prospect CharterCARE Physicians, LLC (DBA CharterCARE Medical Associates ("CCMA")) completed a physician practice acquisition in the second fiscal quarter of 2017 for a purchase price of $0.5 million and a subsequent practice acquisition in the fourth fiscal quarter of 2017 for a purchase price of $0.6 million.

In Connecticut, our subsidiary, Prospect CT Medical Foundation, Inc. ("PCTMF"), employs physicians within the services areas of our Prospect ECHN and Prospect Waterbury health networks. During the fiscal quarter ended March 31, 2018, PCTMF completed three physician practice acquisitions for an aggregate purchase price of $2.2 million.

Effective March 1, 2018, our Pennsylvania subsidiary, Prospect Health Access Network, Inc. ("HAN") completed its acquisition of a physician multi-specialty practice for a purchase price of $1.9 million. During the fiscal quarter ended March 31, 2017, HAN also completed an acquisition of a single physician practice for a purchase price of $0.1 million.

Global Risk Management

Our Global Risk Management segment is a new segment in our operations, reflecting the Company's pursuit of our CRC operating model and risk management platform, capitalizing on changes occurring and anticipated within the healthcare industry and emphasizing quality care, cost-effectiveness and execution under value-based reimbursement. We have expanded our global risk structure through Prospect Health Plan, Inc. ("PHP") in

California, Prospect Health Services TX, Inc. ("PHSTX") in Texas, Prospect Health Services RI, Inc. ("PHSRI") in Rhode Island, Prospect Health Services NJ, Inc. ("PHSNJ") in New Jersey, Prospect Health Services CT, Inc. ("PHSCT") in Connecticut, Prospect Health Services PA, Inc. ("PHSPA") in Pennsylvania, and Prospect ACO Northeast, LLC ("NE ACO"). These entities contract with third-party health plans and the Center of Medicare and Medicaid Services on progressive risk reimbursement models leading to global risk contracts for both physicians, other medical services and institutional services including hospital inpatient and outpatient services, home health, skilled nursing facility and other institutional services. In turn, our global risk management entities contract with owned and third-party independent physician associations, owned and third-party hospitals and other health care providers to assume and manage this global risk. Through these contracts, we manage health plan member populations with a focus on delivering coordinated care to members across our network of physicians and providers under risk and value-based contracts that reward value over volume.

The Global Risk Management segment also includes Coordinated Regional Care Group, Inc. ("CRCG"). CRCG includes development and operating costs related to the Global Risk Management segment for new markets and strategic initiatives.

Corporate

Capitalization

On June 30, 2016, we entered into a six-year $625.0 million senior secured term loan B (the "Original Term Loan"), the proceeds of which were used to repay $425.0 million for PMH's existing 8.375% senior secured notes due in 2019; to repay $60.0 million for borrowings under our existing revolving credit facility (the "Replaced Revolver"); to fund acquisitions, including the acquisition of Crozer-Keystone Health System in Pennsylvania, which closed on July 1, 2016; and to finance transaction fees and expenses. The Original Term Loan provided for interest at LIBOR (subject to a 1.0% floor) plus 6.0%, and the effective interest rate was 7.5% as of December 31, 2017. As described below, the Original Term Loan was refinanced and replaced on February 22, 2018.

Additionally, on June 30, 2016 we refinanced the Replaced Revolver with a new $100.0 million asset-based revolving credit facility ("Original ABL Facility"). The ABL limit was increased to $115.0 million effective August 2016. The Original ABL Facility provided for interest at a variable base rate plus an applicable spread, contingent on the Company's ABL Facility availability, as defined in the ABL Facility credit agreement. The Original ABL Facility effective interest rate was 3.5% as of December 31, 2017. We made an initial draw of $55.0 million on the ABL Facility on June 30, 2016, and the balance as of December 31, 2017 was $115.3 million. The maturity date for the Original ABL Facility was September 30, 2021, and the maturity date for the Original Term Loan was September 30, 2022.

On February 22, 2018, we refinanced and replaced both the Original Term Loan and the Original ABL Facility. We entered into an Amended and Restated Term Loan Credit Agreement (the "Amended TL Agreement"), by and among the Company (as the borrower), the lenders party thereto and JPMorgan Chase Bank, N.A. ("JPMorgan"), as administrative agent and collateral agent. The Amended TL Agreement replaced the Original Term Loan with a new Term B-1 Loan and Additional Term B-1 Commitment ("Term B-1 Loans"). The total maximum borrowing under the Term B-1 Loans is $1,120.0 million and such loans bear interest at LIBOR (subject to a 1.0% floor) plus 5.5%. The Term B-1 Loans were issued with an original discount of 2% and they mature on February 24, 2024.

Additionally, on February 22, 2018, we entered into an Amended and Restated ABL Credit Agreement (the "Amended ABL Agreement"), by and among the Company (as the borrower), the lenders party thereto and JPMorgan, as administrative agent and collateral agent. The Amended ABL Agreement replaced the Original ABL Facility. Under the agreement, the maximum borrowing is $250.0 million, and the new ABL facility (the "New ABL Facility") bears interest at a variable base rate plus an applicable spread that is contingent on Prospect's ABL Facility availability, as defined in the agreement. The New ABL Facility matures on February 22, 2023.

The proceeds of the Term B-1 Loans and the New ABL Facility (the "New Senior Secured Credit Facilities") were used to refinance the Original Term Loan and the Original ABL Facility, to pay a dividend of $457.0 million to the Company's stockholders, to pay certain expenses associated with the refinancing, to prefund approximately $38.0 million of pension liabilities of the Company's subsidiaries, to make payments to certain option holders as a result of the Dividend Recapitalization, and to finance certain working capital and other operational needs of the Company and its subsidiaries.

Under applicable accounting literature, deferred financing costs of $11.6 million as of February 22, 2018 were expensed and presented within loss on debt extinguishment in the accompanying consolidated statements of operations, and new costs of $18.0 million incurred in connection with the refinancing have been capitalized to offset the new long-term debt in the accompanying consolidated balance sheets.

The New Senior Secured Credit Facilities are guaranteed on a senior secured basis by all assets of the Company and its wholly-owned subsidiaries ("Guarantors") except Prospect Health Plan, Inc., Connecticut Healthcare Insurance Company, Prospect Medical Holding Risk Retention Group, Inc., Prospect Health Access Network, Inc. and certain immaterial subsidiaries. The New ABL Facility has a first priority security interest on the working capital assets of the Company and the Guarantors and a second priority security interest on their fixed assets. The Term B-1 Loans have a first priority security interest on fixed assets and a second priority security interest on working capital assets. The New Senior Secured Credit Facilities are effectively senior to all of our existing and future indebtedness.

Captive Insurance Subsidiaries

Prospect Medical Holding Risk Retention Group, Inc. ("RRG") was incorporated on June 20, 2016 in the state of Vermont. RRG was formed as an indirect wholly-owned subsidiary of the Company to provide primary insurance coverage for hospital and physician professionals and general liability risks for the Company's subsidiary healthcare organization.

Effective January 1, 2018, ownership of Connecticut Healthcare Insurance Company ("CHIC") was transferred from Prospect ECHN, Inc. to make CHIC a direct wholly-owned subsidiary of the Company. CHIC is an exempted Company with limited liability under the Companies Law of the Cayman Islands and it holds a Class "B(i)" Insurer's License under Section 4(3)(b) of the Cayman Islands Insurance Law 2010. The principal activity is to issue primary policies for hospital professional liability and general liability covering Prospect, its subsidiaries and employees, on a claims-made basis.

Effective October 1, 2017, the Company procured excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general care liability, automobile liability, employer's liability, helipad liability and non-owned aircraft liability of the Company and its affiliates. This excess coverage is purchased entirely through unrelated commercial insurers.

Beginning on October 1, 2017, CHIC provides a deductible reimbursement policy for workers compensation to the Company's California and Connecticut hospital facilities all of which have high deductible program structures or are qualified self-insureds.

On January 1, 2018, CHIC began providing an employee benefit stop-loss policy to all Company subsidiaries. Unlimited excess coverage is purchased through unrelated reinsurance companies.

Taxation

On December 22, 2017, the 2017 Tax Cuts and Jobs Act (the "Tax Act") was enacted into law and the new legislation contains several key tax provisions that will affect the Company, including a reduction of the federal corporate federal income tax rate from 35% to 21% effective January 1, 2018. The Company is required to recognize the effect of the tax law changes in the period of enactment, such as re-measuring the U.S. federal portion of deferred tax assets and liabilities as well as reassessing the net realizability of the Company's deferred tax assets

MPT CONFIDENTIAL MPT_PROSPECT_00007702

and liabilities, and accordingly will reflect such changes in the consolidated financial statements for the year ending September 30, 2018. The Company will implement the change during the fourth quarter of fiscal 2018.

USE OF ADJUSTED EBITDA

This Earnings Release contains "non-GAAP financial measures," that is, financial measures that either exclude or include amounts that are not excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. Specifically, we make use of the non-GAAP measures "EBITDA" and "Adjusted EBITDA." We also make use of ratios based on these non-GAAP measures.

We define EBITDA as net income (loss) plus (i) provision for income taxes, (ii) interest expense, net (including amortization of deferred financing costs), (iii) depreciation, (iv) amortization, and (v) other non-cash charges. In addition, we define Adjusted EBITDA as EBITDA as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance, including transaction costs, certain legal expenses, stock-based compensation, sponsor structuring and management fees, go-private transaction costs, purchase price adjustments and pre-acquisition items, and other unusual and non-recurring charges. Management believes that EBITDA and Adjusted EBITDA are useful tools for investors and other users of our financial statements in assessing our ability to service and/or incur indebtedness, maintain current operating levels of capital assets and acquire additional operations and businesses. Management believes that the most directly comparable GAAP measure is net income (loss). A reconciliation of EBITDA and Adjusted EBITDA to our net income (loss) under generally accepted accounting principles, or GAAP, for certain periods presented in our financial statements is included at page 35 of this release.

Some of these limitations are:

- They do not reflect cash outlays for capital expenditures or future contractual commitments;
- They do not reflect changes in, or cash requirements for, working capital;
- They do not reflect interest expense, or the cash requirement necessary to service interest, or principal payments, on indebtedness;
- They do not reflect income tax expense or the cash necessary to pay income taxes;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect cash requirements for such replacements; and
- Other companies, including other companies in our industry, may not use such measures or may calculate the measures differently than as presented in this earnings release, limiting their usefulness as a comparative measure.

Because of these limitations, EBITDA, Adjusted EBITDA or any related ratio using such measures should be considered only as a supplemental measure in addition to, and not in lieu of, our GAAP income and cash flow statements, and not as a measure of discretionary cash available to invest in business growth or reduce indebtedness.

CONFERENCE CALL

Management will host a conference call on Thursday, May 31, 2018 at 1:00 pm PST / 4:00 pm EST to discuss these results. Interested parties may participate in the call by dialing Redacted (Domestic) or Redacted (International) approximately 10 minutes before the call is scheduled to begin, and ask to be connected to the Prospect Medical Holdings conference call. The conference call will be broadcast live over the internet at the following link: Redacted. To listen to the live call on the internet, go to the website at least 15 minutes early to register, and download and install any necessary audio software. A replay of the call will be available for 30 days at this link, or by dialing Redacted (Toll-Free) or Redacted (Toll) (Conference ID Redacted).

MPT CONFIDENTIAL

ABOUT PROSPECT MEDICAL HOLDINGS

Prospect Medical Holdings, Inc. is a healthcare services company that owns and operates 20 facilities, with approximately 3,700 licensed beds, as well as clinics and outpatient centers. Prospect also manages the provision of healthcare services for members enrolled in its networks. Prospect's hospitals are located in diverse, high-density population areas within markets in California, Texas, Rhode Island, New Jersey, Pennsylvania, and Connecticut. Prospect Medical Holdings' website can be found at www.pmh.com.

FORWARD-LOOKING STATEMENTS

This earnings release contains forward-looking statements. Additional written or oral forward-looking statements may be made by Prospect from time to time. Statements contained herein that are not historical facts are forward-looking statements. Readers are cautioned that forward-looking statements, including the statements regarding anticipated or expected results, involve risks and uncertainties which may affect the Company's business and prospects. Any forward-looking statements contained in this earnings release represent our estimates only as of the date hereof, or as of such earlier dates as are indicated, and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, even if our estimates change.

Hospital Services Segment

The following table sets forth the results of operations for our Hospital Services segment for the three and six months ended March 31, 2018 and 2017. Hospital services expenses do not include allocation of corporate overhead or interest expense - see "Corporate Segment" below. The California Hospital Fee Program, Texas Section 1115 Waiver Program and Service Organization of San Antonio ("SOSA") expense significantly impact the comparability of our results between periods. As a result, our discussion of results also includes a description on a "normalized basis" that excludes their impact for the three months ended March 31, 2018 and 2017.

Effective January 1, 2018, ownership of CHIC was transferred from Prospect ECHN, Inc. to Prospect Medical Holdings, Inc. As such, the results of operations for CHIC for the fiscal period 2018 are included in the Corporate Segment.

Average licensed beds	3,664	3,665	3,664	3,665
Average staffed beds	2,153	2,111	2,153	1,660
Occupancy rate for staffed beds (4)	90.9%	90.5%	87.1%	106.5%
Admissions (5)	27,519	27,666	54,913	54,742
Adjusted patient admissions (6)	43,713	47,958	90,765	93,738
Net inpatient revenue per admission (in thousands) (9)	$ 14,837	$ 12,770	$ 14,199	$ 13,079
Patient days	176,212	171,932	341,271	321,680
Adjusted patient days (7)	293,604	275,046	571,993	538,124
Net inpatient revenue per patient day (in thousands) (9)	$ 2,317	$ 2,055	$ 2,285	$ 2,226
Average length of patients' stay (days) (8)	6.4	6.2	6.2	5.9
Outpatient visits	601,595	629,969	1,185,542	1,213,916
Net outpatient revenue per visit (in thousands)	$ 389	$ 369	$ 410	$ 383

(1) Net inpatient revenues include self-pay revenues of $6.6 million and $6.3 million for the three months ended March 31, 2018 and 2017, respectively, and $8.6 million and $9.9 million for the six months ended March 31, 2018 and 2017, respectively.

(2) Other hospital service revenues consist of revenues earned from ancillary and other hospital operations, while other revenues consist primarily of rental income, incentive revenues earned for the implementation of certified EHR technology at our hospitals, tuition revenue from the St. Joseph Health Services of Rhode Island School of Nursing, and Crozer Health Club membership and other revenues.

(3) California Hospital Fee Program revenues are included in inpatient (Medicaid) revenues, Texas Section 1115 Waiver revenues are included in inpatient (Medicaid) revenues and other hospital services revenue, and Pennsylvania Medicare Modernization Act, Community Access Funds and Legislative Initiatives revenues are included in inpatient (Medicaid) revenues.

(4) The occupancy rate for staffed beds represents average daily census in the period divided by staffed beds. Occupancy rates are affected by many factors, including the population size and general economic conditions within particular market service areas, the degrees of variation in medical and surgical products, outpatient use of hospital services, quality and treatment availability at competing hospitals, and seasonality.

(5) Charity care admissions represented 0.7% and 0.0% of total admissions for the three months ended March 31, 2018 and 2017, respectively and 0.4% and 0.1% of total admission for the six months ended March 31, 2018 and 2017.

(6) Adjusted patient admissions are total admissions adjusted for outpatient volume. Adjusted patient admissions are computed by multiplying admissions (inpatient volume) by the sum of gross inpatient charges and gross outpatient charges and then dividing the resulting amount by gross inpatient charges.

(7) Adjusted patient days are total patient days adjusted for outpatient volume. Adjusted patient days are computed by multiplying patient days (inpatient volume) by the sum of gross inpatient charges and gross outpatient charges and then dividing the resulting amount by gross inpatient charges.

(8) Average length of patients' stay ("ALOS") is calculated by dividing total discharged patient days by total patient discharges during the period, and includes the length of patients' stay related to psychiatric, sub-acute, and rehabilitation services.

(9) Excludes $129.5 million of California Hospital Fee Program revenues applicable to periods prior to the six months ended March 31, 2018.

Medical Group Segment

The following table sets forth the results of operations for our Medical Group operations for the three and six months ended March 31, 2018 and 2017. Cost of revenues does not include allocation of corporate overhead or interest expense - see "Corporate Segment" below.

(Unaudited, in thousands)	Three Months Ended March 31, 2018	Three Months Ended March 31, 2017	Six Months Ended March 31, 2018	Six Months Ended March 31, 2017

Medical cost ratio	70.6%	69.9%	73.2%	68.7%

The following table sets forth the approximate number of members, by category, as of March 31, 2018 and 2017:

(Unaudited, in thousands)	As of March 31, 2018	As of March 31, 2017
Commercial - owned	76.1	88.4
Commercial - managed (2)	6.3	5.9
Senior - owned	32.5	32.7
Senior - managed (2)	3.2	3.2
Medicaid - owned	85.6	71.6
Medicaid - managed (2)	35.6	33.5
Health Insurance Exchange - managed (2) (3)	20.7	16.1
Value Based Reimbursement (4)	223.0	176.0
	483.0	427.4

(1) Other operating revenues primarily consist of payments from HMOs under pay-for-performance programs and are recognized each year once the amounts of such items are known, as well as patient service revenues related to clinical operations.

(2) Represents members that we manage on behalf of third parties in exchange for a monthly management fee.

(3) Our management services company is party to an agreement with one of our major HMOs to manage the provision of medical services to members enrolled under the PPACA Health Insurance Exchange program. We receive a fixed per member per month management fee under the program and do not share in the risk for medical services for such members.

(4) Value Based Membership is also defined as population under management. We have direct contracts with multiple Health Plans in all of the states where we operate for the provision of quality care services to the population under management improving care delivery to the members in most cost-efficient manner for a fixed infrastructure payment. In many of the contracts, we also receive variable revenue also called Pay for Performance for improving health scores, and closing quality gaps. In addition, in some of the contracts, we are also eligible for upside and downside sharing of risk pools for the population under management.

Global Risk Management Segment

The following table sets forth the results of operations for our Global Risk Management segment for the three and six months ended March 31, 2018 and 2017. Global Risk Management expenses do not include allocation of corporate overhead or interest expense - see "Corporate Segment" below. Capitation revenue includes net capitation revenue retained by the Global Risk Management segment after transfer of capitation to the Hospital Services and Medical Group segments.

(Unaudited, in thousands)	Three Months Ended March 31, 2018	Three Months Ended March 31, 2017	Six Months Ended March 31, 2018	Six Months Ended March 31, 2017
Global Risk Management revenues:				
Capitation (1) (2)	$ 4,646	$ 2,230	$ 10,009	$ 3,673
Other operating revenues	1,313	366	3,130	552
Total Global Risk Management revenues	5,959	2,596	13,139	4,225
Global Risk Management cost of revenues:				
Capitation Expense	129	-	997	-
Claims Expense	2,964	1,304	7,441	2,277
Total Global Risk Management cost of revenues	3,093	1,304	8,438	2,277
Gross margin	2,866	1,292	4,701	1,948
General and administrative (3)	3,176	1,485	5,542	2,962
Total other expenses	3,176	1,485	5,542	2,962
Operating loss	$ (310)	$ (193)	$ (841)	$ (1,014)

(1) For the three months ended March 31, 2018 and 2017, capitation revenue includes $61.7 million and $29.5 million, respectively, received from health plans, of which $53.7 million and $26.6 million, respectively, were transferred to our Medical Group and Hospital Services segments. For the six months ended March 31, 2018 and 2017, capitation revenue includes $125.2 million and $48.6 million, respectively, received from health plans, of which $109.2 million and $44.0 million was transferred to our Medical Group and Hospital Services segments.

(2) Capitation revenue includes shared risk pool deficit of ($3.3) million and ($0.6) million for the three months ended March 31, 2018 and 2017, respectively. For the six months ended March 31, 2018 and 2017, capitation revenue includes shared risk pool deficit of ($6.0) million and ($1.0) million, respectively.

(3) General and administrative expenses increased to $3.2 million in the 2018 quarter from $1.5 million in support of the increase in revenue as health plans transition to Global Capitation programs.

Corporate Segment

The Corporate segment primarily reflects certain expenses incurred at Prospect not specifically allocable to the Hospital Services, Medical Group, or Global Risk Management segments. These include, but are not limited to: salaries, benefits and other compensation for corporate employees; financing expenses; insurance expenses; rent; legal fees; and accounting fees. Additionally, this segment includes operations of two captive insurance companies. Prospect Medical Holding Risk Retention Group, Inc. ("RRG"), which was incorporated on June 20, 2016 in the state of Vermont, was formed as an indirect wholly-owned subsidiary of the Company to provide primary insurance coverage for hospital and physician professionals and general liability risks for the Company's subsidiary healthcare organizations. In addition, effective January 1, 2018, ownership of CHIC was transferred from Prospect ECHN, Inc. to Prospect Medical Holdings, Inc. As such, the results of operations for CHIC for the fiscal period 2018 are included in the Corporate Segment. The Company does not allocate interest expense related to acquisition debt or income taxes to the other reporting segments.

The following table summarizes our corporate expenses for the three and six months ended March 31, 2018 and 2017:

	Three Months Ended March 31,		Six Months Ended March 31,	
(Unaudited, in thousands)	2018	2017	2018	2017
Corporate revenues:				
Other Revenue	8	(61)	6	(63)
Total Corporate revenues:	8	(61)	6	(63)
Operating Expenses:				
General and administrative (1)	$ 44,291	$ 5,782	$ 49,962	$ 13,318
Depreciation and amortization	83	28	120	64
Total Corporate Expenses	$ 44,374	$ 5,810	$ 50,082	$ 13,382
Operating loss	(44,366)	(5,871)	(50,076)	(13,445)

1) General and administrative expenses increased primarily due to increases in salary expenses as a result of the payment of $36.8 million in connection with the Dividend Recapitalization transaction to option holders during fiscal 2018 quarter.

MPT CONFIDENTIAL

Three months ended March 31, 2018 compared to the three months ended March 31, 2017

Hospital Services Segment Results of Operations

Net Hospital Services Revenues

Hospital services revenues before provision for bad debts was $699.1 million for the second quarter of fiscal 2018 ("fiscal 2018 quarter") compared to $622.4 million for the second quarter of fiscal 2017 ("fiscal 2017 quarter"). The increase is primarily due to QAF revenue recorded in the 2018 fiscal quarter. On a normalized basis and excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program revenues and capitation revenue, hospital services revenues before provision for bad debts increased 6.3% from $615.0 million for the fiscal 2017 quarter to $653.9 million for the fiscal 2018 quarter. The $38.9 million increase in Hospital Services segment revenues was primarily due to increased enrollment resulting from new Global Capitation arrangement at our Foothill facility effective July 1, 2017, in addition to an increase in Inpatient volume with Medicare discharges at our Waterbury facility.

Provision for bad debts, on a normalized basis, as a percentage of hospital services revenues (excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program and capitation revenue), increased from 3.3% in the fiscal 2017 quarter to 4.8% in the fiscal 2018 quarter due to the increase in provision for bad debts at our Connecticut, Pennsylvania and New Jersey facilities, driven by receivables ageing more than one-year post acquisition at the beginning of fiscal 2018 first quarter. The provision for bad debts relates principally to amounts due from self-pay patients and self-pay after insurance.

Other revenues consist primarily of Nix Health and CharterCARE commercial real estate rental income, Crozer Health Club membership dues. On a normalized basis, other revenue decreased from $18.3 million for the fiscal 2017 quarter to $10.6 million for the fiscal 2018 quarter, primarily due to the sale of placement rights for cell towers during fiscal 2017 quarter at our Rhode Island and Connecticut facilities, in addition to EHR incentives at our southern California hospitals during the fiscal 2017 quarter.

Hospital Services Operating Expenses

Salaries, wages and benefits ("SWB") increased from $326.7 million during the fiscal 2017 quarter to $335.8 million during the same fiscal 2018 quarter. On a normalized basis, SWB as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program and capitation revenue), increased slightly to 57.6% for the fiscal 2018 quarter from 57.1% for the same quarter of fiscal 2017.

Supplies expense decreased from $69.0 million during the fiscal 2017 quarter to $68.8 million during the fiscal 2018 quarter. On a normalized basis, supplies expense as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program and capitation revenue) decreased from 12.1% during the fiscal 2017 quarter to 11.8% during the fiscal 2018 quarter.

Capitation expense increased from $23.1 million in the fiscal 2017 quarter to $40.5 million in the fiscal 2018 quarter, due to the new Global Capitation arrangement at the Foothill facility effective July 1, 2017 resulting in increased enrollment from approximately 55,000 at March 31, 2017 to approximately 102,000 at March 31, 2018. We recognize revenue and expenses in the Hospital Services segment for global capitation arrangements for which hospitals in our Hospital Services segment are responsible for the provision of care to members under such arrangements.

Other operating expenses increased from $72.2 million in the fiscal 2017 quarter to $91.9 million in the fiscal 2018 quarter. The increase is primarily due to QAF revenue recorded in the 2018 fiscal quarter. On a normalized basis and excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program and capitation revenue, other operating expenses as a percentage of net hospital services revenues increased from 11.8% during the fiscal 2017 quarter to 12.4% during the fiscal 2018 quarter.

General and Administrative

Hospital General and Administrative ("G&A") expense decreased from $92.8 million in the fiscal 2017 quarter to $92.3 million in the fiscal 2018 quarter. On a normalized basis, G&A as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program and capitation revenue), decreased from 16.2% to 15.8% for the fiscal 2017 and 2018 quarters, respectively.

Depreciation and Amortization

Depreciation and amortization expense increased from $20.4 million in the fiscal 2017 quarter to $21.6 million in the fiscal 2018 quarter. On a normalized basis, depreciation and amortization as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Texas Section 1115 Waiver Program and capitation revenue) increased slightly from 3.6% in fiscal 2017 to 3.7% in fiscal 2018.

Income from Unconsolidated Joint Ventures

Income from unconsolidated joint ventures was $0.4 million for the fiscal 2018 first quarter compared to $0.5 million in the fiscal 2017 quarter. Income from unconsolidated joint ventures consists of equity method income related to CharterCare, Crozer, ECHN and Waterbury joint ventures and other equity method investments.

Operating Income from Continuing Operations

Hospital Services operating income from continuing operations were $29.9 million in the fiscal 2018 second quarter compared to $18.0 million in the same fiscal 2017 quarter.

Medical Group Segment Results of Operations

Medical Group Revenue

Capitation revenue increased 2.5% to $81.6 million for the fiscal 2018 quarter from $79.6 million for the fiscal 2017 quarter. The increase was primarily due to timing of recognition for RAF/HCC supplemental revenue, along with higher Medicaid and Senior member-months, partially offset by lower Commercial member-months and lower shared risk revenue.

Management fee revenue increased 11.2% to $2.2 million for the fiscal 2018 quarter from $2.0 million for the fiscal 2017 quarter. The increase was primarily due to additional revenue from managing a new health plan. Management fees range from 6.5% to 12.0% of revenues, depending on the type of revenue.

Other operating revenue increased 5.0% to $5.0 million for the fiscal 2018 quarter from $4.8 million for the fiscal 2017 quarter. The increase was primarily due to increase in wellness program reimbursements.

Medical Group Operating Expenses

Primary care physician ("PCP") capitation expense decreased 3.2% to $11.8 million for the fiscal quarter 2018 compared to $12.2 million for the fiscal quarter 2017. PCP capitation expense as a percentage of capitation revenues decreased to 14.5% from 15.3%. The decrease in PCP capitation expense as a percentage of capitation revenues was primarily due to change in membership mix between commercial, Medicaid and senior in the current fiscal quarter.

Specialist capitation expense decreased 7.0% to $10.8 million for the fiscal quarter 2018 from $11.6 million for the fiscal quarter 2017. Specialist capitation expense as a percentage of capitation revenues decreased to 13.2% from 14.6%. The decrease in specialist capitation expense as a percentage of capitation revenues was primarily due to certain physicians switching from capitation to fee-for-service payment arrangements.

Claims expense increased 9.8% to $35.0 million for the fiscal quarter 2018 from $31.8 million for the fiscal quarter 2017. Claims expense as a percentage of capitation revenues increased to 42.8% for the fiscal quarter 2018 from 40.0% for the fiscal quarter 2017. The increase in claims expense as a percentage of capitation revenues was primarily due to certain physicians switching from capitation to fee-for-service payment arrangements.

Physician incentives expense decreased 40.0% to $2.8 million for the fiscal quarter 2018 from $4.7 million for the fiscal quarter 2017. The decrease was primarily due to lower shared risk revenue contributing to the lower profit sharing incentive payment.

Other cost of revenues was $1.3 million for the fiscal 2018 quarter compared to $0.9 million for the fiscal 2017 quarter. The increase was primarily due to higher utilization of contracted physicians at our clinic operations and higher pharmacy expenses in the fiscal quarter 2018 compared to the fiscal quarter 2017.

Medical Cost Ratio and Gross Margin

Medical care costs as a percentage of Medical Group capitation revenues (the medical cost ratio, a non-GAAP measure) increased to 70.6% for the fiscal quarter 2018 from 69.9% for the fiscal quarter 2017, and gross margin as a percentage of total revenue, increased to 30.5% for the fiscal quarter 2018 from 29.1% for the fiscal quarter 2017. These changes were the result of items discussed above.

General and Administrative

G&A expenses increased 5.0% to $17.8 million for the fiscal quarter 2018 from $17.0 million for the fiscal quarter 2017. G&A expenses as a percentage of total Medical Group revenues increased to 20.1% for the fiscal quarter 2018 from 19.7% for the fiscal quarter 2017. The increase in G&A expenses as a percentage of total Medical Group revenues was primarily due to increase in SWB to support expansion of the value-based business and business infrastructure.

Depreciation and Amortization

Depreciation and amortization expense decreased to $0.8 million for the fiscal quarter 2018 from $1.0 million for the fiscal quarter 2017.

Income (Loss) from Unconsolidated Joint Ventures

Income (loss) from unconsolidated joint ventures (our 50% partnership interest in AMVI/Prospect Medical Group) was nominal for both the fiscal quarters of 2018 and 2017.

Operating Income

Our Medical Group segment reported an increase in operating income of $1.3 million to $8.5 million for the fiscal quarter 2018 from $7.2 million for the fiscal quarter 2017 as a result of the items discussed above.

Global Risk Management Segment Results of Operations

Global Risk Management Revenue

The Global Risk Management segment entered into Management Services Agreements with our Medical Group and Hospital Services segments, under which up to 87% of capitation revenue received is transferred to the Medical Group and Hospital Services segments. Capitation revenue recognized increased to $4.6 million for the fiscal 2018 quarter from $2.2 million for the fiscal 2017 quarter. During the fiscal 2018 quarter, capitation revenue received from health plans was $61.7 million, of which $25.6 million and $28.1 million was transferred to our Hospital Services segment and Medical Group segment, respectively. During the fiscal 2017 quarter, capitation revenue received from health plans was $29.5 million, of which $13.1 million and $13.5 million were transferred to our Hospital Services segment and Medical Group segment, respectively. The increase in capitation revenue and the amounts transferred to the Hospital Services segment and Medical Group segment were primarily due to expansion of health plans in California, partially offset by loss in risk pool revenue.

Global Risk Management Cost of Revenues

Cost of revenues increased to $3.1 million during the fiscal 2018 quarter from $1.3 million during the fiscal 2017 quarter. Cost of revenues as a percentage of total revenues increased to 51.9% for the fiscal 2018 quarter from 50.2% for the fiscal 2017 quarter.

General and Administrative

G&A expenses increased to $3.2 million for the fiscal 2018 quarter from $1.5 million for the fiscal 2017 quarter. Increase in G&A expenses was primarily due to increase in SWB, professional fees and management fees to support the transition of health plans to Global Capitation programs. G&A expenses as a percentage of total revenues decreased to 53.3% for the fiscal 2018 quarter from 57.2% for the fiscal 2017 quarter. The decrease is due to efficiencies attained in the operations within the existing market.

Operating Loss

Our Global Risk Management segment reported an operating loss of $0.3 million and $0.2 million for the fiscal 2018 quarter and fiscal 2017 quarter, respectively.

Corporate Segment Results of Operations

General and Administrative

G&A expenses increased to $44.3 million during the fiscal 2018 quarter from $5.8 million during the fiscal 2017 quarter. The increase was due primarily to increases in salary expense as a result of the payment of $36.8 million in connection with the Dividend Recapitalization transaction to option holders during the fiscal 2018 period.

Consolidated Results of Operations

Other Income and Expense, Net

Total Other Income and Expense increased from $20.7 million for the fiscal 2017 quarter to $47.8 million for the fiscal 2018 quarter. The increase was primarily due to the debt refinancing and extinguishment of costs remaining related to the previous debt in February 2018. In addition, adjustments to purchase price accounting of $4.3 million were included in other (income) expense during the fiscal 2018 quarter as purchase price allocations were finalized for the Waterbury and ECHN acquisitions.

Provision / (Benefit) for Income Taxes

The income tax benefit was ($7.0) million for the fiscal 2018 quarter compared to a provision for income taxes of $7.1 million for the fiscal 2017 quarter.

Six months ended March 31, 2018 compared to the six months ended March 31, 2017

Hospital Services Segment Results of Operations

Net Hospital Services Revenues

Hospital services revenues before provision for bad debts was $1.5 billion for the six months ended March 31, 2018 ("fiscal 2018 period") compared to $1.3 billion for the six months ended March 31, 2017 ("fiscal 2017 period"). The increase is primarily due to QAF revenue recorded in the 2018 fiscal period. Excluding the effect of the California Hospital Fee Program and Section 1115 Waiver Program revenues, hospital services revenues before provision for bad debts increased 5.5% from $1.2 billion for the fiscal 2017 period to $1.3 billion for the fiscal 2018 period. The $66.8 million increase in Hospital Services segment revenues was primarily due to increased enrollment resulting from the new Global Capitation arrangement at our Foothill facility effective July 1, 2017, in addition to an increase in inpatient volume with Medicare discharges at our Waterbury facility.

Provision for bad debts increased from $43.9 million in the fiscal 2017 period to $57.3 million in the fiscal 2018 period. On a normalized basis, provision for bad debts as a percentage of hospital services revenues (excluding the effect of the California Hospital Fee Program, Section 1115 Waiver Program, and capitation revenues), increased slightly to 4.8% from 3.7% for the fiscal 2018 and 2017 periods, respectively. The provision for bad debts relates principally to amounts due from self-pay patients and self-pay after insurance. Other revenues represent primarily rental income earned from real estate operations at Nix Health and Crozer Health Club membership and other revenues. On a normalized basis, other revenues decreased from $32.6 million in the fiscal 2017 period to $19.3 million in the fiscal 2018 period due to EHR revenues recorded in the fiscal 2017 period.

Hospital Services Operating Expenses

Salaries, Wages and Benefits ("SWB") increased from $655.8 million for the fiscal 2017 period to $659.6 million for the fiscal 2018 period. On a normalized basis, SWB as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Section 1115 Waiver Program, and capitation revenues), decreased from 58.2% during the fiscal 2017 period to 57.5% during the fiscal 2018 period due to an increase at our southern California facilities to support Hospital Services segment development activities and increases at our Los Angeles and Hollywood facilities in the fiscal 2017 period.

Supplies expense decreased from $136.2 million for the fiscal 2017 period to $131.2 million for the fiscal 2018 period. On a normalized basis, supplies expense as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Section 1115 Waiver Program, and capitation revenues), decreased from 12.1% during the fiscal 2017 period to 11.4% during the fiscal 2018.

Capitation expense increased from $46.1 million for the fiscal 2017 period to $76.4 million for the fiscal 2018 period. Hospital member enrollment increased approximately 55,000 at March 31, 2017 to 102,000 at March 31, 2018. Capitation expense as a percentage of capitation revenues decreased from 96.8% during the fiscal 2017 period to 95.1% during the fiscal 2018 period due to a decrease in full risk claims expenses during the fiscal 2018 year. We recognize revenue and expenses in the Hospital Services segment for global capitation arrangements for which hospitals in our Hospital Services segment are responsible for the provision of care to members under such arrangements.

Other operating expenses increased from $163.7 million for the fiscal 2017 period to $236.0 million for the fiscal 2018 period. On a normalized basis, other operating expenses as a percentage of net hospital services revenues remain at 12.2% for both the fiscal 2017 period and the fiscal 2018 period.

General and Administrative

Hospital General and Administrative ("G&A") expense increased to $182.0 million for the fiscal 2018 period from $175.4 million for the fiscal 2017 period. On a normalized basis, G&A as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Section 1115 Waiver Program, and capitation revenues) increased from 15.6% for the fiscal 2017 period to 15.9% for the fiscal 2018 period.

Depreciation and Amortization

Depreciation and amortization expense increased from $41.4 million for the fiscal 2017 period to $43.3 million for the fiscal 2018 period. On a normalized basis, depreciation and amortization as a percentage of net hospital services revenues (excluding the effect of the California Hospital Fee Program, Section 1115 Waiver Program, and capitation revenues), increased slightly from 3.7% for the fiscal 2017 period to 3.8% for the fiscal 2018 period.

Income from Unconsolidated Joint Ventures

Income from unconsolidated joint ventures was $1.0 million for the fiscal 2018 period compared to $1.2 million in the fiscal 2017 period. Income from unconsolidated joint ventures consists of equity method income related to various CharterCARE, Crozer, ECHN and Waterbury joint ventures and equity method investments.

Operating Income/(Loss) from Continuing Operations

Hospital Services operating income was $136.1 million for the fiscal 2018 period compared to $31.1 million for the fiscal 2017 period. Hospital Services operating income from continuing operations for the fiscal 2017 period did not include the 2017 California Hospital Fee Program.

Medical Group Segment Results of Operations

Medical Group Revenue

Capitation revenue decreased 4.5% to $156.8 million for the fiscal 2018 period from $164.2 million for the fiscal 2017 period. The decrease was primarily due to lower shared risk-pool revenue from a health plan switching to global risk arrangement.

Management fee revenue increased 6.1% to $4.3 million for the fiscal 2018 period from $4.0 million for the fiscal 2017 period. The increase was primarily due to additional revenue from managing a new health plan. Management fees range from 6.5% to 12.0% of revenues, depending on the type of revenue.

Other operating revenue increased 28.1% to $10.1 million for the fiscal 2018 period from $7.9 million for the fiscal 2017 period. The increase was primarily due to increases in wellness program reimbursements.

Medical Group Operating Expenses

Primary care physician ("PCP") capitation expense slightly increased to $24.7 million for the fiscal 2018 period and $24.6 million for the fiscal 2017 period. PCP capitation expense as a percentage of capitation revenues increased to 15.8% for the fiscal 2018 period from 15.0% for the fiscal 2017 period. The increase in PCP capitation expense as a percentage of capitation revenues was primarily due to change in membership mix between commercial and Medicaid in the current fiscal period.

Specialist capitation expense decreased 13.5% to $20.9 million for the fiscal 2018 period from $24.2 million for the fiscal 2017 period. Specialist capitation expense as a percentage of capitation revenues decreased to 13.3% for the fiscal 2018 period from 14.7% for the fiscal 2017 period. The decrease in specialist capitation expense as a percentage of capitation revenues was primarily due to certain physicians switching from capitation to fee-for-service payment arrangement.

Claims expense increased 8.0% to $69.2 million for the fiscal 2018 period from $64.0 million for the fiscal 2017 period. Claims expense as a percentage of capitation revenues decreased to 44.1% for the fiscal 2018 period from 39.0% for the fiscal 2017 period. The increase in claims expense as a percentage of capitation revenues was primarily due to certain physicians switching from capitation to fee-for-service payment arrangements and the effect of lower capitation revenue.

Physician incentives expense decreased 42.3% to $6.4 million for the fiscal 2018 period from $11.1 million for the fiscal 2017 period. Physician incentive expense as a percentage of capitation revenues decreased to 4.1% for the fiscal 2018 period from 6.8% for the fiscal 2017 period. The decrease was primarily due to lower shared risk revenue contributing to the lower profit sharing incentive payment.

Other cost of revenues increased to 35.9% to $2.4 million for the fiscal 2018 period from $1.8 million for the fiscal 2017 period. The increase was primarily due to higher utilization of contracted physicians at our clinic operations and higher pharmacy expenses in the fiscal quarter 2018 compared to the fiscal quarter 2017.

Medical Cost Ratio and Gross Margin

Medical care costs as a percentage of Medical Group capitation revenues (the medical cost ratio, a non-GAAP measure) increased to 73.2% for the fiscal 2018 period from 68.7% for the fiscal 2017 period, and gross margin as a percentage of total revenue decreased to 27.8% for the fiscal 2018 period from 28.7% for the fiscal 2017 period. These changes were the result of items discussed above.

General and Administrative

G&A expense increased 9.1% to $34.8 million for the fiscal 2018 period from $31.9 million for the fiscal 2017 period. G&A expense as a percentage of Medical Group revenue increased to 20.3% for the fiscal 2018 period from 18.1% for

the fiscal 2017 period. The increase in G&A expenses as a percentage of total Medical Group revenues was primarily due to increase in SWB to support expansion of our value-based business and business infrastructure.

Depreciation and Amortization

Depreciation and amortization expense decreased 11.4% to $1.6 million for the fiscal 2018 period from $1.8 million for the fiscal 2017 period.

Loss from Unconsolidated Joint Ventures

Income (loss) from unconsolidated joint ventures (our 50% partnership interest in AMVI/Prospect Medical Group) was nominal for both the fiscal quarters of 2018 and 2017.

Operating Income

Our Medical Group segment reported operating income of $11.1 million and $16.7 million for the fiscal 2018 and 2017 periods, respectively. The decrease in current year operating income is a result of the items discussed above.

Global Risk Management Segment Results of Operations

Global Risk Management Revenue

The Global Risk Management segment entered into Management Services Agreements with our Medical Group and Hospital Services segments, under which up to 87% of capitation revenue received is transferred to the Medical Group and Hospital Services segments. Capitation revenue recognized increased to $10.0 million for the fiscal 2018 period from $3.7 million for the fiscal 2017 period. During the fiscal 2018 period, capitation revenue received was $125.2 million, of which $52.0 million and $57.2 million was transferred to our Hospital Services segment and Medical Group segment, respectively. During the fiscal 2017 period, capitation revenue received was $48.6 million, of which $21.6 million and $22.4 million was transferred to our Hospital Services segment and Medical Group segment, respectively.

Global Risk Management Cost of Revenues

Cost of revenues increase to $8.4 million for the fiscal 2018 period from $2.3 million for the fiscal 2017 period. Cost of revenues consists primarily of claims expense related to capitation retained by the Global Risk Management segment and the increase is consistent with increase in capitation revenue. Cost of revenues as a percentage of total revenues increased to 64.2% for the fiscal 2018 period from 53.9% for the fiscal 2017 period.

General and Administrative

G&A expenses increased to $5.5 million for the fiscal 2018 period from $3.0 million for the fiscal 2017 period. Increase in G&A expenses was primarily due to increase in SWB, professional fees and management fees to support the transition of health plans to Global Capitation programs. G&A expenses as a percentage of total revenues decreased to 42.2% for the fiscal 2018 period from 70.1% for the fiscal 2017 period. The decrease is due to efficiencies attained in the operations within the existing market.

Operating Loss

Our Global Risk Management segment reported an operating loss of $0.8 million and $1.0 million for the fiscal 2018 and 2017 periods, respectively.

Corporate Segment Results of Operations

General and Administrative

G&A expenses increased to $49.9 million during the fiscal 2018 period from $13.3 million during the fiscal 2017 period. The increase was primarily due to increases in salary expenses as a result of the payment of $36.8 million in connection with the Dividend Recapitalization transaction to option holders during the fiscal 2018 quarter, partially offset by a decrease in the utilization of outside services related to the business combination as acquisitions including ECHN and Waterbury were completed in the fiscal 2017 period as compared to no such activities during the fiscal 2018 period. Depreciation and amortization expense remained consistent for the fiscal 2018 and 2017 periods.

Consolidated Results of Operations

Other Income and Expense, Net

Total Other Income and Expense increased from $34.5 million for the fiscal 2017 period to $67.6 million for the fiscal 2018 period. The increase was primarily due the debt refinancing in February 2018. In addition, adjustments to purchase accounting of $4.3 million were included in other income and expense during the fiscal 2018 quarter as purchases price allocations were finalized for the Waterbury and ECHN acquisitions.

Provision/(Benefit) for Income Taxes

The income tax provision was $18.4 million for the fiscal 2018 period compared to the income tax provision of $7.3 million for the fiscal 2017 period.

Income on Discontinued Operations

Income on discontinued operations was $6.9 million for the fiscal 2017 period, net of the related income tax (benefit). There were no discontinued operations reflected in fiscal 2018 period. Income on discontinued operations includes the operations of Elmhurst and NCGH for the fiscal 2017.

Cash Flow for the six months ended March 31, 2018 compared to the six months ended March 31, 2017

Cash Flow from Operations

Net cash used by operating activities for the six months ended March 31, 2018 was $55.6 million, compared to net cash from operations of $1.6 million for the fiscal 2017 period. The decrease of $57.2 million was primarily due to the following factors:

Increases as a result of:

- Decrease in patient accounts receivables of $86.1 million in the fiscal 2018 period as compared to an increase of $67.0 million in the fiscal 2017 period; and
- Increase in net Hospital Fee Program receivable/payable of $99.9 million in the fiscal 2018 quarter as compared to an increase of $2.4 million in the fiscal 2017 period.

Decreases as a result of:

- Increase in other receivables, prepaid expenses and other current assets of $14.2 million in the fiscal 2018 period as compared to a decrease of $20.2 million in the fiscal 2017 period;
- Increase in net amounts due to/from government payers of $13.9 million in the fiscal 2018 period as compared to a decrease of $6.3 million in the fiscal 2017 period;
- Decrease in accounts payable and other accrued expenses of $8.0 million in the fiscal 2018 period as compared to an increase of $16.3 million in the fiscal 2017 period; and
- Decrease in pension obligation of $38.7 million in the fiscal 2018 period as compared to $0 million in the fiscal 2017 period.

Net cash used in investing activities was $48.3 million during the six months ended March 31, 2018, compared to $29.6 million during the six months ended March 31, 2017, including the following items:

- During the fiscal 2018 period, we spent $43.2 million on capital expenditures, compared to $34.4 million in the fiscal 2017 period; and
- During the fiscal 2017 period, we received proceeds from sale of equity method investment and sale of property and improvements of $4.3 million and $6.5 million, respectively, as compared to none in fiscal 2018 period.

Net cash provided by financing activities was $107.0 million in the six months ended March 31, 2018, as compared to $36.0 million in the prior year period, including the following items:

- The Company borrowed $1,097.6 million (net of original issuance cost of $22.4 million) and repaid $617.2 million of senior secured term B under Amended and Restated Term Loan Credit Agreement during the fiscal 2018 period;
- The Company borrowed $203.0 million and repaid $115.3 million under Amended and Restated ABL Guarantee and Security Agreement during the fiscal 2018 period;
- The Company paid deferred financing cost of $18.0 million by entering into the Amended and Restated Term Loan Credit Agreement and ABL Guarantee and Security Agreement;
- The Company paid dividends of $456.9 million during the fiscal 2018 period;
- The Company repaid $6.2 million and $1.8 million in amounts due under capital leases during the fiscal 2018 and 2017 period, respectively;

- The Company repaid $5.9 million of insurance premiums financing during the fiscal 2018 period as compared to $4.8 million during the fiscal 2017 period; and

- Decrease in restricted cash of $28.3 million as compared to $0.1 million for the fiscal 2018 and 2017 period, respectively.

(1) Prospect Health Plan, Inc. ("PHP") is an Unrestricted Subsidiary as of June 30, 2016 pursuant to the terms of the New Senior Credit Facilities agreements. On February 22, 2018, pursuant to the Amended TL Agreement, CHIC, RRG and HAN were designated as Unrestricted Subsidiaries in addition to PHP (see page 8).

Adjusted EBITDA Reconciliation
(Unaudited, in millions)

A reconciliation of Adjusted EBITDA to the most directly comparable GAAP measure in accordance with SEC Regulation G follows, for certain quarterly periods:

	Q3 16 [4]	Q4 16 [4]	Q1 17 [4]	Q2 17 [4]	Q3 17 [4]	Q4 17 [4]	Q1 18 [4]	Q2 18 [4]
EBITDA Reconciliation (unaudited):								
Net income from continuing operations (3)	$ (4.7)	$ (6.8)	$ 0.2	$ (8.6)	$ 10.6	$ 28.5	$ 57.4	$ (47.1)
Provision (benefit) for income taxes	(2.8)	0.8	0.2	7.1	(6.6)	(0.3)	25.4	(7.0)
Interest expense	$ 37.0	15.4	13.1	23.0	18.5	16.2	18.7	24.3
Depreciation and amortization	$ 10.1	19.0	21.9	21.4	21.8	39.0	22.0	22.5
Amortization of financing costs	0.6	0.6	0.6	0.6	0.6	0.6	0.6	0.9
Loss on debt extinguishment	-	-	-	-	-	-	-	18.3
Gain on bargain purchase	-	-	-	-	-	(30.0)	-	-
Other	-	-	-	(3.0)	-	1.4	1.0	4.3
EBITDA	40.2	29.0	36.0	40.5	44.9	55.4	125.1	16.2
Adjustments (1)								
Transaction costs (2)	6.2	10.4	3.9	3.9	1.7	16.3	1.6	2.0
Litigation expenses	-	0.5	0.1	-	-	-	0.5	1.0
Stock-based compensation (6)	0.3	0.3	0.3	0.3	0.3	0.3	0.1	37.0
Sponsor structuring and management fees	0.2	0.2	0.2	0.3	0.2	0.2	0.2	0.3
Strategic business planning	6.6	7.7	2.0	3.4	1.4	3.2	1.5	2.8
Adjusted EBITDA (3)	$ 53.5	$ 48.1	$ 42.6	$ 48.4	$ 48.5	$ 75.3	$ 129.0	$ 59.3
Adjusted EBITDA - Trailing Twelve Months (TTM) (5)	$ 147.5	$ 155.7	$ 171.0	$ 192.6	$ 187.6	$ 214.9	$ 301.2	$ 312.1

Net Debt: Adjusted TTM EBITDA Ratio:	As reported	Proforma [7]
Adjusted EBITDA (TTM)	$ 312.1	$ 339.8
Ending debt	1,353.2	1,353.2
Less: Ending cash and investments	53.7	161.1
Ending net debt	$ 1,299.5	$ 1,192.1
Net Debt: Adjusted TTM EBITDA Ratio	4.16	3.51

(1) Management adjusts for expenses and gains that it does not consider in evaluating core operating performance for compensation, internal capital allocations, acquisition analysis or other strategic purposes.

(2) Transaction costs primarily relate to costs directly related to financing and merger and acquisition activity. Included in Q4 2017 was approximately $15 million of costs related to retro coverage premiums incurred in connection with the Crozer acquisition.

(3) $7.3 million of net California Hospital Fee Program income was recorded in Q3 16; $8.4 million of net California Hospital Fee Program income was recorded in Q4 16; and $8.4 million of net California Hospital Fee Program income was recorded in Q1 17. None of net California Hospital Fee Program income was recorded in Q2 17; $3.0 million of net California Hospital Fee Program was recorded in Q3 17; and $13.8 million of net California Hospital Fee Program was recorded in Q4 17; and $92.7 million of net California Hospital Fee Program was recorded in Q1 18; and $38.6 million of net California Hospital Fee Program was recorded in Q2 18.

(4) Quarterly results include the results of the CharterCARE Physician practices acquisitions (acquired at various dates from Q1 15 through Q3 16), PMCA (acquired December 1, 2015), East Orange (acquired March 1, 2016), Crozer (acquired July 1, 2016), EHCN (acquired October 1, 2016), Waterbury (acquired October 1, 2016) and Prospect Blackstone (acquired May 1, 2017) from their respective acquisition dates. Certain reclassifications were made to prior quarters' presentation to conform to the current quarter's presentation.

(5) The Company refinanced its debt effective June 30, 2016, and a portion of the proceeds were used to purchase Crozer effective July 1, 2016. Adjusted EBITDA - TTM does not include pro forma Adjusted EBITDA for acquisitions completed in the respective trailing twelve-month periods.

(6) Included in Q2 2018 was approximately $36.8 million of payments incurred in connection with Dividend Recapitalization transaction to option holders.

(7) Amount reflects the estimated impact of deferred California Hospital Fee program (QAF) which was fully realized in prior fiscal quarter.

CIVIL INVESTIGATIVE DEMAND

United States Department of Justice

Washington, D.C. 20530

TO: Southern California Healthcare System, Inc.
[redacted]
Los Angeles, CA 90034

Civil Investigative Demand No. [redacted]

Serve on: Custodian of records or any person authorized to accept service of process for Southern California Healthcare System, Inc.

This Civil Investigative Demand is issued pursuant to the False Claims Act, 31 U.S.C. §§ 3729-3733, in the course of a False Claims Act investigation to determine whether there is or has been a violation of 31 U.S.C. § 3729. The False Claims Act investigation concerns allegations that Southern California Healthcare System, Inc. and related entities ("SCHS") submitted or caused the submission of false claims to federal healthcare programs for services that were provided as a result of illegal kickbacks and/or that were medically unnecessary or not provided.

This Demand requires you to provide documents and answers to the attached written interrogatories to the Federal Government. This is the original of the Demand; no copies have been served on other parties. The information and documents provided in response to this Demand may be shared, used, and disclosed as provided by 31 U.S.C. § 3733.

Document Request:

In accordance with the Definitions and Instructions set forth in **Attachment A**, you are required by this Demand to produce any and all documents in your possession, custody or control responsive to the document requests set forth in **Attachment C**.

You must make this material available to [redacted] Civil Division, U.S. Department of Justice, and [redacted] Office of the U.S. Attorney for the Central District of California, who have been designated as False Claims Act custodians in this case. [redacted] may be contacted at [redacted] or [redacted] and [redacted] may be contacted at [redacted] or [redacted] if you have any questions. These documents shall be produced no later than thirty (30) days from the receipt of this Demand, to the attention of [redacted] at U.S. Department of Justice, Civil Division, [redacted], Washington, D.C., 20002, or at another time or location to be mutually agreed upon by you and the False Claims Act custodians. The production of documentary material in response to this Demand must be made under a sworn certificate in the form printed in this Demand.

Written Interrogatories:

In accordance with the Definitions and Instructions set forth in **Attachment A**, you are required by this Demand to answer the attached interrogatories set forth in **Attachment D**. The answers to interrogatories shall be submitted no later than twenty (20) days from the receipt of this Demand, to the attention of [redacted] at U.S. Department of Justice, Civil Division, [redacted], Washington, D.C., 20002, or at another time or location to be mutually agreed upon by you and the False Claims Act custodians. The interrogatories shall be answered separately and fully in writing under oath and also shall be submitted under a sworn certificate in the form printed in this Demand. If you object to any interrogatory, the reasons for the objection shall be stated with specificity.

Issued at Washington, DC, this 7th day of May, 2021.

[redacted]

FORM OF CERTIFICATE OF COMPLIANCE[1]

I have responsibility for producing the documents requested in Civil Investigative Demand No [redacted]. I hereby certify that all the materials required by that Civil Investigative Demand which are in the possession, custody or control of the person to whom the Demand is directed have been submitted to a custodian named therein.

If any such material has not been produced because of a lawful objection, the objection to the document request and the reasons for the objection have been stated.

FORM OF CERTIFICATE OF COMPLIANCE[1]

I have responsibility for answering interrogatory numbers 1-4 in Civil Investigative Demand No. [redacted]. I hereby certify that all the information required by the Civil Investigative Demand and in the possession, custody, control, or knowledge of the person to whom the Civil Investigative Demand is directed has been submitted. To the extent information has not been furnished, the information is identified and the reasons why the information was not furnished are set forth with particularity. Additionally, if any such information has not been produced because of a lawful objection, the objection to the interrogatory and the reasons for the objection have been stated. I certify under penalty of perjury that the foregoing interrogatory responses are true and correct.

NOTARY PUBLIC

[1] In place of a sworn statement, the above certificate of compliance may be supported by an unsworn declaration as provided for by 28 U.S.C. § 1746.

ATTACHMENT A

A. DEFINITIONS

1. Unless specified otherwise, the terms "You," Your", or "SCHS" means Southern California Healthcare System, Inc., with a principal place of business in [redacted] Los Angeles, CA 90034, and any and all predecessors, successors, affiliates, subsidiaries, parent companies, branches, divisions, offices, units, officers, directors, employees, agents, and assigns.

2. "Hospitals" means and includes the following facilities or entities:

   a. Southern California Hospital at Culver City;
   b. Southern California Hospital at Hollywood;
   c. Southern California Hospital at Van Nuys.

3. "Communication" is used in the broadest sense permitted by Federal Rule of Civil Procedure 26(b), 34(a) and 45(a) and means any transmission or exchange of information orally or in writing.

4. "Document" and "Documents" are used in the broadest sense permitted by Federal Rule of Civil Procedure 26(b), 34(a) and 45(a) and include, but are not limited to, any hard copy or electronically stored information and emails.

5. "Employee" shall mean any person including, but not limited to, an employee, volunteer, independent contractor or agent, all past and present directors, officers, agents, representatives, accountants, advisors, and consultants who acted or purported to act on Your behalf or who performed any service for You under Your name, whether on a full-time, part-time, piece-work, commission or other basis and whether paid or unpaid.

6. "Relating to" and "related to" mean consisting of, concerning, referring to, reflecting, supporting, evidencing, prepared in connection with, used in preparation for, or being in any way legally, logically, or factually connected to the matter discussed.

7. The terms "and" and "or" shall be construed conjunctively or disjunctively so as to make each particular request inclusive rather than exclusive.

8. The terms "any" and "all" shall be construed conjunctively or disjunctively so as to make each particular request inclusive rather than exclusive.

9. The singular and plural forms of any word shall be construed interchangeably so as to bring within the scope of this Demand any document which might otherwise be construed as outside its scope.

B. INSTRUCTIONS

1. Unless otherwise stated in any specific request below, each request covers the relevant time period since October 1, 2014.

2. This Demand is continuing in nature. If you become aware of or acquire possession, custody, or control of additional documents that are responsive to this Demand, or if you become aware of or acquire additional information that is responsive to these Interrogatories, you shall promptly produce such additional documents or supplement your Interrogatory responses.

3. This Demand applies to all documents and information in your possession, custody, or control regardless of their location and regardless of whether such documents or information are held by your current or former employees, including, but not limited to, in-house IT specialists and technicians, IT specialists and technicians to whom digital services have been out-sourced.

4. All documents produced pursuant to this Demand are to be organized in such a manner that all documents relating to a particular request are grouped together and identified as being responsive to that request.

5. If any document which is otherwise responsive to this Demand is not disclosed because of a claim of privilege or other objection, you shall identify such documents on a Privilege Log. The Privilege Log shall be produced in Excel or Word format and include the following information:

(a) the basis for the assertion of the privilege or objection;

(b) the type of document (e.g., letter, memorandum, email, etc.)

(c) the name and title of the author (and if different, the preparer and signatory);

(d) the name(s) and title(s) of the individual(s) to whom the document was addressed;

(e) the name(s) and title(s) of the individuals to whom the document or a copy of the document was sent or to whom the document or a copy, or any part thereof, was shown;

(f) the date of the document;

(g) number of pages;

(h) a general description of the subject matter; and

(i) the Request(s) to which the document is responsive.

6. When a requested document contains both privileged and non-privileged material, the non-privileged material must be disclosed to the fullest extent possible. If a privilege is asserted with regard to a part of the material contained in a document, the party claiming the privilege must clearly indicate the portions as to which the privilege is claimed. When a document is redacted or altered in any fashion, identify as to each document the reason for the redaction or alteration, the date of the redaction or alteration, and the person performing the redaction or alteration. Any redaction must be clearly visible on the redacted document.

7. If any document otherwise responsive to this Demand is not produced because it was lost, destroyed, or discarded:

(a) identify the document by type, date, and title;

(b) identify the person who last had custody or control over the document;

(c) state the date on which the document was destroyed or was discovered to have been lost;

(d) if the document was destroyed, state why it was destroyed and identify the person(s) who destroyed it;

(e) if the document was lost, describe the circumstances in which its loss was discovered, state the date that it was last seen or otherwise accounted for, and identify the person(s) who discovered its loss and who last saw or otherwise accounted for it;

(f) identify all persons who have knowledge pertaining to the destruction or loss of the document, giving a concise but complete statement of the knowledge you claim each such person has;

(g) identify all persons who have knowledge of the contents of each lost or destroyed document, giving a concise but complete statement of the knowledge you claim each such person has; and

(h) produce all existing indices, lists, or other documents in your possession, custody, or control that reflect the existence of such lost or destroyed documents, and/or their transfer or destruction.

8. If no documents exist that are responsive to a specific document Request, a written statement to that effect shall be provided at the time of production.

9. To the extent that documents responsive to this Demand are in the possession, custody, or control of third parties, this Demand requires a statement to that effect at the time of production, specifically providing the name, address, telephone number and principal contact of the third party, and shall further identify those documents in said third party's possession.

10. Please produce imaged hard copy and electronic documents according to the attached **Specifications for Production of Electronically Stored Information and Digitized Images** set forth in **Attachment B**.

11. For each Interrogatory and subpart thereof, you must respond separately and in writing. Your responses must identify all documents that you used, referenced, or relied upon in your written responses.

12. If you withhold any information responsive to any Interrogatory based on a claim of privilege or other objection: (a) furnish the basis for the assertion of the privilege or objection, (b) identify all individuals who could respond to the Interrogatory with regard to the information that is being withheld, and (c) set forth the general subject matter and the specific Interrogatory or Interrogatories to which each individual could testify.

13. When providing the name of an individual in response to any Interrogatory or individuals identified pursuant to Instruction 12 above, provide the individual's last known address, telephone number, email address, or other contact information, as well as the individual's relationship to you. If the individual is or was an employee, provide the individual's title and dates of employment.

ATTACHMENT B

Specifications for Production of ESI and Digitized ("Scanned") Images ("Production Specifications")

Collection of Electronically Stored Information (ESI)

Careful consideration should be given to the methodology, implementation and documentation of ESI collection to ensure that all responsive data and metadata are preserved in the collection process. Consideration should also be given as to whether production media should be encrypted when producing to the government when required by law (i.e. Health Insurance Portability and Accountability Act (HIPAA), Family Educational Rights and Privacy Act (FERPA), etc.). *See* Section 10 below.

1. Specification Modifications

Any modifications or deviations from the Production Specifications may be done only with the express permission of the government and these modifications or deviations should be communicated to the government and approved by the government in written form. Any responsive data or documents that exist in locations or native forms not discussed in these Production Specifications remain responsive and, therefore, arrangements should be made with the government to facilitate their production.

2. Production Format of ESI and Imaged Hard Copy Documents

Responsive ESI and imaged hard copy shall be produced in the format outlined below. All ESI, except for spreadsheets and presentation files (e.g. Excel, PowerPoint) and those forms listed below in section 5-7, shall be rendered to TIFF image format, and accompanied by an Opticon/Concordance® Image Cross Reference file. All applicable metadata/database (see section 3 below) shall be extracted and provided in Concordance® load file format.

a. **Image File Format:** All documents shall be produced in black and white TIFF format unless the image requires color. An image requires color when color in the document adds emphasis to information in the document or is itself information that would not be readily apparent on the face of a black and white image.
b. When producing black and white paper documents scanned to images, or rendered ESI, they shall be produced as 300 dpi, 1 bit, single-page TIFF files, CCITT Group IV (2D Compression). When producing in *color,* paper documents scanned to images, or rendered ESI, they shall be produced as 300 dpi single-page JPG. Images should be uniquely and sequentially Bates numbered and unless otherwise specified, Bates numbers should be an endorsement on each image.

    i. All TIFF file names shall include the unique Bates number burned into the image. (See section 8, below, regarding Bates number instructions.)
    ii. All TIFF image files shall be stored with the ".tif" extension.
    iii. Images shall be OCR'd using standard COTS products.
        1. An exception report shall be provided when limitations of paper digitization software/hardware or attribute conversion do not allow for OCR text conversion of certain images. The report shall include the DOCID or Bates number(s) corresponding to each such image.
            a. All pages of a document or all pages of a collection of documents that comprise a folder or other logical grouping, including a box, shall be delivered on a single piece of media.
            b. No image folder shall contain more than 2,000 images.

c. **Opticon/Concordance® Image Cross Reference file:** Images should be accompanied by an Opticon load file that associates each Bates number with its corresponding single-page TIFF image file. The Cross Reference file should also contain the relative image file path for each Bates numbered page.

The Opticon/Concordance® Image Cross Reference file is a page level load file, ABC00000001,OLS,D:\DatabaseName\Imageswith each line representing one image.

Below is a sample:

REL000000001,,.\IMAGES\001\REL000000001.TIF,Y,,,
REL000000002,,.\IMAGES\001\REL000000002.TIF,,,,
REL000000003,,.\IMAGES\001\REL000000003.TIF,,,,
REL000000004,,.\IMAGES\001\REL000000004.TIF,Y,,,
REL000000005,,.\IMAGES\001\REL000000005.TIF,,,,

The fields are, from left to right:

- Field One – (REL000000001) – the Bates Number. This value must be unique for each row in the OPT file. The first page of each document must match the DOCID or BEGDOC# value of the respective document.
- Field Two – (blank) – the volume identifier. This field is not required.
- Field Three – (.\IMAGES\001\REL000000001.TIF) – The relative file path to the image to be loaded.
- Field Four – (Y) – the document marker. A "Y" indicates the start of a unique document.
- Field Five – (blank) – The folder indicator. This field is not required, and typically is not used.
- Field Six – (blank) – The box indicator. This field is not required, and typically is not used.
- Field Seven – (blank) – The page count. This field is not required.

d. **Concordance® Load File**: Images should also be accompanied by a flat, document-level load file to provide the metadata and native files containing delimited text that will populate fields in a searchable, flat database environment. The file encoding must be one of four types: Western European (Windows), Unicode (UTF16), Big-Endian Unicode or UTF8. The file should contain the required fields listed below in section 3.

- Text delimited load files are defined using the standard Concordance delimiters. For example:

Field Separator	*¶ or Code 020*
Text Qualifier	*þ or Code 254*
Newline	*® or Code 174*
Multi-value	*° or Code 167*
Nested values	*\ or Code 092*

- This load file should contain the relative file path to the individual multi-page, document level text files.
- This load file should also contain the relative file path to all provided native files, such as Microsoft Excel or PowerPoint files.
- There should be one line for every record in a collection.
- The load file must contain a header listing the metadata/database fields contained within. For example, if the data file consists of a First Page of a Record (BegDoc#), Last Page of a Record (ending Bates / ENDDOC#), DOCID, DOCDate, File Name, and a Title, then the structure may appear as follows:

þBEGDOCþ¶þENDDOCþ¶þDOCIDþ¶þDOCDATEþ¶þFILENAMEþ¶þTITLEþ

e. **The extracted/OCR** text should be provided for each document as a separate single text file. The file name should match the BEGDOC# or DOCID for that specific record and be accompanied by the .txt extension.

f. **Directory and folder structure**: The directory structure for productions should be:

*CaseName***LoadFiles**
*CaseName***Images** < For supporting images (can include subfolders as needed, should not include more than 2,000 files per folder)
*CaseName***Natives** <Native Files location (can include subfolders as needed, should not include more than 2,000 files per folder)
*CaseName***Text** <Extracted Text files location (can include subfolders as needed, should not include more than 2,000 files per folder)

3. **Required Metadata/Database Fields**

A "✓" denotes that the indicated field should be present in the load file produced. "Other ESI" includes data types other than imaged hard copy materials (which should follow "Hard Copy" column) and email and email repositories (both of which should follow "Email" column). For example, "Other ESI" includes MS Office files (e.g. Excel, PowerPoint), WordPerfect files, and any files identified in sections 5-7 below. The parties will meet and confer about any field which cannot be populated automatically (i.e. would require manual population of information).

Field name	Field Description	Field Type	Field Value	Hard Copy	E-mail	Other ESI
COLLECTION SOURCE	Name of the Company/Organization data was collected from	Text	160	✓	✓	✓
SOURCE ID (BOX #)	Submission/volume/box number	Text	10	✓	✓	✓
CUSTODIAN	Custodian/Source - format: Last, First or ABC Dept.	Text	160	✓	✓	✓
DUPECUSTODIAN	Custodian/Source – all custodians who had the document before de-duplication; format: Last, First or ABC Dept.	Text	Unlimited		✓	✓
DUPECUSTODIAN FILE PATH	Listing of all the file locations of the document before de-duplication	Text	Unlimited		✓	✓
AUTHOR	Creator of the document	Text	500			✓
BEGDOC#	Start Bates (including prefix) - No spaces	Text	60	✓	✓	✓
ENDDOC#	End Bates (including prefix) - No spaces	Text	60	✓	✓	✓
DOCID	Unique document Bates # or populate with the same value as Start Bates (DOCID = BEGDOC#)	Text	60	✓	✓	✓
PGCOUNT	Page Count	Number	10	✓	✓	✓

Field name	Field Description	Field Type	Field Value	Hard Copy	E-mail	Other ESI
GROUPID	Contains the Group Identifier for the family, in order to group files with their attachments	Text	60		✓	✓
PARENTID	Contains the Document Identifier of an attachment's parent	Text	60		✓	✓
ATTACHIDS	Child document list; Child DOCID or Child Start Bates	Text – semicolon delimited	Unlimited	✓	✓	✓
ATTACHLIST	List of Attachment filenames	Text – semicolon delimited	Unlimited		✓	✓
BEGATTACH	Start Bates number of parent	Text	60	✓	✓	✓
ENDATTACH	End Bates number of last attachment	Text	60	✓	✓	✓
PROPERTIES	Privilege notations, Redacted, Document Withheld Based On Privilege	Text – semicolon delimited	Unlimited	✓	✓	✓
RECORD TYPE	Use the following choices: Image, Loose E-mail, E-mail, E-Doc, Attachment, Hard Copy or Other. If using Other, please specify what type after Other	Text	60	✓	✓	✓
FROM	Sender (i.e.: e-mail address, Last name, First name)	Text	160		✓	✓
TO	Recipient (i.e. : e-mail address, Last name, First name)	Text – semicolon delimited	Unlimited		✓	✓
CC	Carbon Copy Recipients (i.e.: e-mail address, Last name, First name)	Text – semicolon delimited	Unlimited		✓	✓
BCC	Blind Carbon Copy Recipients (i.e.: e-mail address, Last name, First name)	Text – semicolon delimited	Unlimited		✓	✓
SUBJECT	Subject line of email	Text	Unlimited		✓	
TITLE	Document Title	Text	Unlimited			✓
CONVINDEX	E-mail system ID used to track replies, forwards, etc.	Text	Unlimited		✓	

Field name	Field Description	Field Type	Field Value	Hard Copy	E-mail	Other ESI
DOCDATE	Last Modified Date for files and Sent date for e-mail, this field inherits the date for attachments from their parent. Do not provide 00/00/0000.	Date	MM/DD/YYYY		✓	✓
TEXT FILEPATH	Relative file path of the text file associated with either the extracted text or the OCR	Text	Unlimited	✓	✓	✓
DATE TIME SENT	Date and time Sent (USE TIME ZONE OF COLLECTION LOCALITY) Numbers must be populated. If date is unknown, leave blank. Do not provide 00/00/0000	Date and Time	MM/DD/YYYY HH:MM:SS		✓	
DATE TIME CRTD	Date Created (USE TIME ZONE OF COLLECTION LOCALITY) Numbers must be populated. If date is unknown, leave blank. Do not provide 00/00/0000	Date and Time	MM/DD/YYYY HH:MM:SS		✓	✓
DATE TIME SVD	Date Saved (USE TIME ZONE OF COLLECTION LOCALITY) Numbers must be populated. If date is unknown, leave blank. Do not provide 00/00/0000	Date and Time	MM/DD/YYYY HH:MM:SS		✓	✓
DATE TIME MOD	Date Last Modified (USE TIME ZONE OF COLLECTION LOCALITY) Numbers must be populated. If date is unknown, leave blank. Do not provide 00/00/0000	Date and Time	MM/DD/YYYY HH:MM:SS		✓	✓

Field name	Field Description	Field Type	Field Value	Hard Copy	E-mail	Other ESI
DATE TIME RCVD	Date Received (USE TIME ZONE OF COLLECTION LOCALITY) Numbers must be populated. If date is unknown, leave blank. Do not provide 00/00/0000	Date and Time	MM/DD/YYYY HH:MM:SS		✓	
DATE TIME ACCD	Date Accessed (USE TIME ZONE OF COLLECTION LOCALITY) Numbers must be populated. If date is unknown, leave blank. Do not provide 00/00/0000	Date and Time	MM/DD/YYYY HH:MM:SS		✓	✓
TIME ZONE OFFSET	Time zone of collection locality, relative to Coordinated Universal Time (UTC). E.g., for US Central Standard Time (CST), the value for this field should be -6.0	Decimal	10		✓	
FILE SIZE	Native File Size in KBs	Decimal	10			✓
FILE NAME	File name - name of file as it appeared in its original location	Text	Unlimited			✓
APPLICATION	Application used to create native file (e.g. Excel, Outlook, Word)	Text	160		✓	✓
FILE EXTENSION	Extension for the file (e.g. .doc, .pdf, .wpd)	Text	10		✓	✓
FILEPATH	Data's original source full folder path	Text	Unlimited		✓	✓
NATIVE LINK	Relative file path location to the native file	Text	Unlimited		✓	✓
FOLDER ID	Complete E-mail folder path (e.g. Inbox\Active) or Hard Copy container information (e.g. folder or binder name)	Text	Unlimited	✓	✓	

Field name	Field Description	Field Type	Field Value	Hard Copy	E-mail	Other ESI
HASH VALUE	Identifying value of an electronic record that is used for deduplication during processing. MD5 or SHA1 hash algorithms may be used, but must be kept consistent throughout all productions and communicated to Government.	Text	Unlimited		✓	✓
MESSAGEHEADER	E-mail header. Can contain IP address	Text	Unlimited		✓	
ATTACHMCOUNT	Number of attachments (any level child document) associated with a ParentID	Text	10		✓	
FILE TYPE	Description that represents the file type to the Windows Operating System. E.g., Adobe Portable Document Format, Microsoft Word 97 – 2003, or Microsoft Office Word Open XML Format.	Text	160		✓	✓
HAS HIDDEN CONTENT	Identifies whether the document has comments, track changes or other hidden content associated with it	Text	Yes/No		✓	✓
MESSAGE TYPE	Exchange Message class or equivalent	Text	60		✓	
EXTENDED PROPERTIES	For PDFs Only	Text	Unlimited		✓	✓
HAS REDACTIONS	Identifies whether a record has been produced with redactions; should be populated with Y for records with redactions and N for records without redactions.	Text	Yes/No	✓	✓	✓

4. **Search, De-Duplication, Near-Duplicate Identification, Technology Assisted Review, E-mail Conversation Threading and Other Culling Procedures**

a. De-duplication of exact hash copies shall be performed globally – across all custodians. The custodian of each record shall be populated in the DupeCustodian field.
b. All files found on the National Institute of Standards and Technology (NIST) list, commonly referred to as deNISTing, should be excluded from delivery to the Government. All available metadata from files withheld from delivery due to the deNISTing process will be available upon request.
c. All files should be globally de-duplicated with the following conditions:
    i. The "DupeCustodian" metadata field (listing of all custodians who had the document before de-duplication) must be provided with the document production.
    ii. The "DupeCustodian File Path" metadata field (listing all the file locations of the document before de-duplication) must be provided with the document production.
    iii. All files and metadata for the duplicate documents removed during de-duplication must be preserved and available for production upon request.
    iv. No customization of hashing may occur without prior express approval by the Government.
    v. De-duplication must be done by document family, not by individual document.
    vi. A detailed description of the steps taken to de-duplicate (including the process of obtaining hash values) must be provided to the Government. For every production after the first, a separate Unified Custodian overlay shall be provided. If no overlay is necessary due to the fact that no documents de-duped out in connection with previously produced documents, this shall be expressly stated in the cover letter accompanying the subsequent production(s).
d. The recipient shall not use any other procedure to cull, filter, group, separate or de-duplicate, or near-deduplicate, etc. (i.e., reduce the volume of) responsive material before discussing with and obtaining the written approval of the government. All objective coding (e.g., near duplicate ID or e-mail thread ID) shall be discussed and produced to the government as additional metadata fields. The recipient will not employ analytic software or technology to search identify, or review potentially responsive material, including but not limited to technology assisted review (TAR) or predictive coding, without first discussing with the government.

5. **The following data must be discussed with the government in advance of producing:**

a. Hidden Text (e.g. track changes, hidden columns, mark-ups, notes)
b. Embedded Files (e.g. Word documents, Excel spreadsheets, .wav files, etc.)
c. Image-Only Files (e.g. image-only files (non-searchable .pdfs, multi-page TIFFs, Snipping Tool [and other] screenshots, etc., as well as all other images that contain text)
d. Encrypted Files (e.g. protected by password or encryption key)
e. Email Repositories (e.g. email databases, such as Outlook .PST, Lotus .NSF, etc.)
f. Instant Messenger (IM), Voicemail Data, Audio Data, Video Data, Text Messages, etc.
g. Social Media
h. Structured Data (e.g., Oracle, SQL, MySQL, QuickBooks, etc.)
i. Structured Data from Proprietary Applications (e.g., proprietary timekeeping, accounting, etc.)
j. Photographs
k. Images from which Text Cannot be OCR Converted
l. Format of ESI from Non-PC or Non- Windows-based Systems (e.g., Apple, IBM mainframes, and UNIX machines, Android device, etc.)
m. Native files

6. Production of Imaged Hard Copy Records

All imaged hard copy material shall reflect accurate document unitization including all attachments and container information (to be reflected in the PARENTID, ATTACHID, BEGATTACH, ENDATTACH and FOLDERID).

a. Unitization in this context refers to identifying and marking the boundaries of documents within the collection, where a document is defined as the smallest physical fastened unit within a bundle. (e.g., staples, paperclips, rubber bands, folders, or tabs in a binder).
b. The first document in the collection represents the parent document and all other documents will represent the children.
c. All imaged hard copy documents shall be produced as 300 dpi single-page TIFF files, CCITT Group IV (2D Compression). All documents shall be produced in black and white TIFF format unless the image requires color. An image requires color when color in the document adds emphasis to information in the document or is itself information that would not be readily apparent on the face of a black and white image. Images identified as requiring color shall be produced as color 300 dpi single-page JPEG files.
d. All objective coding (e.g., document date or document author) should be discussed and could be produced to the government as additional metadata/database fields should they be deemed as necessary.Production of Spreadsheets and Presentation Files

7. Production of Spreadsheets and Presentation Files

All spreadsheet and presentation files (e.g. Excel, PowerPoint) shall be produced in the unprocessed "as kept in the ordinary course of business" state (i.e., in native format), with an associated placeholder image and endorsed with a unique Bates number. The file produced should maintain the integrity of all source, custodian, application, embedded and related file system metadata.

8. Bates Number Convention

All images should be assigned Bates numbers before production to the government. Each Bates number shall be a standard length, include leading zeros in the number, and be unique for each produced page. The numbers should be endorsed on the actual images at a location that does not obliterate, conceal, or interfere with any information from the source document. Native files should be assigned a single Bates number for the entire file which will represent the native document in the Opticon/ Concordance® Image Cross Reference file. The load/dat file will include a reference to the native file path and utilize the NATIVELINK metadata field). The Bates number shall not exceed 30 characters in length and shall include leading zeros in the numeric portion. The Bates number shall be a unique number given sequentially (i.e. page one of document is PREFIX0000000001, page two of the same document is PREFIX0000000002) to each page (when assigned to an image) or to each document (when assigned to a native file). If the parties agree to a rolling production, the numbering convention shall remain consistent throughout the entire production. There shall be no spaces between the prefix and numeric value. If suffixes are required, please use "dot notation." Below is a sample of dot notation:

	Document #1	*Document #2*
Page #1	PREFIX00000000001	PREFIX00000000002
Page #2	PREFIX00000000001.002	PREFIX00000000002.002
Page #3	PREFIX00000000001.003	PREFIX00000000002.003

9. Media Formats for Storage and Delivery of Production Data

Electronic documents and data shall be delivered on any of the following media:

a. CD-ROMs and/or DVD-R (+/-) formatted to ISO/IEC 13346 and Universal Disk Format 1.02 specifications; Blu-ray.
b. External hard drives (USB 3.0 or higher, formatted to NTFS format specifications) or flash drives.
c. Storage media used to deliver ESI shall be appropriate to the size of the data in the production.
d. Media should be labeled with the case name, production date, Bates range, and producing party.

10. Virus Protection and Security for Delivery of Production Data

Production data shall be free of computer viruses. Any files found to include a virus shall be quarantined by the producing party and noted in a log to be provided to the government. Password protected or encrypted files or media shall be provided with corresponding passwords and specific decryption instructions. All encryption software shall be used with approval by and with the written consent of the government.

11. Transmittal Letter to Accompany Deliverables

All deliverables should be accompanied by a transmittal letter including the production date, case name and number, producing party name, and Bates number range produced. Technical instructions on how to decrypt media should be included in the transmittal letter but the password should be transmitted separately.

ATTACHMENT C

DOCUMENT REQUESTS

Please produce documents in response to the following requests for production in accordance with the Definitions and Instructions in **Attachment A**:

1. All documents and communications related to any actual, potential, or considered payments or other remuneration, including without limitation documents sufficient to show the dates and amounts of any payment or remuneration, provided by SCHS, directly or indirectly, to any physicians, employees, or agents of any skilled nursing facilities ("SNFs"), including without limitation:

a. [redacted]
b.
c.
d.
e.
f.
g.
h.
i.
j.
k.
l.
m.
n.

2. All copies of any contracts or agreements, including any drafts of contracts or agreements, between You and any SNF, including without limitation those SNFs identified in **Request 1**.

3. All documents and communications relating to any contract or agreement, whether executed or not, between SCHS and any SNF, including without limitation those identified in **Request 1**.

4. All documents and communications related to any actual, potential, or considered payments or other remuneration, including without limitation documents sufficient to show the dates and amounts of any payment or remuneration, provided by SNFs, including without limitation those identified in **Request 1**, directly or indirectly, to any physicians, employees, or agents of SCHS.

5. All documents and communications related to the admission of patients from SNFs to Your Hospitals or the discharge of patients from Your Hospitals to SNFs.

6. All documents related to the initial evaluation and inpatient admission of patients at Your Hospitals, including without limitation any pre-registration forms or documents.

7. All documents and communications related to any guidance given to marketing or business development employees at Your Hospitals relating to inpatient admissions or interactions with SNFs.

8. All documents and communications between SCHS and [redacted] The requested documents and communications include, without limitation, any contracts or agreements between [redacted] and SCHS or any drafts of contracts or agreements.

9. All documents and communications related to any actual, potential, or considered payments or other remuneration, including without limitation documents sufficient to show the dates and amounts of any payment or remuneration, provided by SCHS, directly or indirectly, to prospective or actual SCHS patients or their families or agents.

10. All documents and communications related to any efforts at any of Your Hospitals to identify and transport patients to Your Hospitals, excluding emergency ambulance services.

11. All documents related to Your relationship with [redacted] including without limitation all contracts and records of payments or other remuneration related to the [redacted]

12. Documents sufficient to detail the schedules of the following personnel at the [redacted] during the relevant time period:

a. [redacted]
b.

The requested documents include without limitation time sheets, patient logs, schedules, and calendars.

13. All guidance, policies, or procedures for SCHS and Your Hospitals related to:

a. Anti-kickback statutes;
b. Reimbursement from federal and state healthcare programs;
c. Document retention;
d. Interactions with SNFs, including without limitation patient transfers;

e. Inpatient admissions, including without limitation providing patients transportation or any payments or other remuneration;
f. Psychiatric or behavioral health patients, including without limitation admission, and retention of patients and use of restraints;
g. Transfer of patients between Hospitals;
h. Transfer of patients between departments or units within the Hospitals; and
i. Supervision of physician assistants or medical students.

14. All documents related to complaints, grievances, or other expressions of concern raised by any SCHS employee or third-party regarding:

a. SCHS's interactions with SNFs, including without limitation complaints, grievances, or other expressions of concern regarding any payments or other remuneration;
b. The admission or treatment of psychiatric or behavioral health patients to Your Hospitals, including without limitation complaints; grievances, or other expressions of concern raised by patients or their families;
c. The process of admitting individuals as inpatient at Your Hospitals;
d. Physicians being paid for services not performed;
e. Physician care or supervision of patients at Your Hospitals.

15. All documents related to financial statements, cost reports, accounts receivable, accounts payable, budgets, revenue sources, and general ledgers for each of Your Hospitals.

16. All documents related to any audits conducted or completed by You or an outside contractor or consultant related to billing, coding, or attaining reimbursement for patients on federal or state healthcare programs.

17. All documents related to any method SCHS used to measure or track referrals from SNFs and/or resulting revenues.

ATTACHMENT D

WRITTEN INTERROGATORIES

Please answer the following interrogatories in accordance with the Definitions and Instructions in **Attachment A**:

1. Identify all of SCHS's parent entities (part or whole), individual owners (part or whole), subsidiary entities (part or whole), and affiliated entities, and explain the organizational and business relationship of each with SCHS. For each entity, identify the full name, headquarters address and telephone number, and state of incorporation or registration.

2. Identify all persons who have been or are currently employed by SCHS as marketing or business development employees at Your Hospitals at any time during the relevant time period. For each such person, identify the person's full name, phone number, email address, position(s) and dates of employment by SCHS.

3. Describe each method SCHS has used to measure or track referrals from skilled nursing facilities ("SNFs") and/or resulting revenues, and provide the name of each document containing such information.

4. Identify any audits or investigations of Your Hospitals conducted by any healthcare programs, including without limitation the Centers for Medicare & Medicaid Services, Medicare Administrative Contractors, or Medicaid Fraud Control Units, over the relevant time period. Report their findings, any penalties imposed, and any changes You implemented in response.

Independent Auditor's Report

Board of Directors
Prospect Medical Holdings, Inc.
Los Angeles, California

Opinion

We have audited the consolidated financial statements of Prospect Medical Holdings, Inc. and its subsidiaries (the Company), which comprise the consolidated balance sheets as of September 30, 2021 and 2020, and the related consolidated statements of operations and comprehensive loss, changes in stockholder's deficit, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of September 30, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As described in Note 2 to the consolidated financial statements, effective October 1, 2020, the Company changed its method of accounting for recognition of revenues and related disclosures in 2021 due to the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued or available to be issued.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

BDO USA, LLP

MPT CONFIDENTIAL MPT_PROSPECT_00010119

1. Organization

Prospect Medical Holdings, Inc. ("Prospect" or the "Company" or the "Parent Entity") is a Delaware corporation and a wholly owned indirect subsidiary of Ivy Holdings Inc. ("Ivy Holdings") and its new parent company, Chamber Inc. ("Chamber"). In June 2021, Green Equity Investments V, LP, Green Equity Investments Side V, LP and other shareholders sold their shares of Ivy Holdings for a purchase price of approximately $11.9 million (see Note 11 for further discussion of the transaction). As a result of the sale, the Company became indirectly wholly-owned by two shareholders that were previously the two largest individual shareholders in Ivy Holdings.

The Company's operations are currently organized into four primary reportable segments: Hospital Services, Medical Group, Global Risk Management and Corporate, as discussed below.

COVID-19 Pandemic

During 2020 and 2021, federal, state and local authorities have taken several administrative actions intended to assist healthcare providers in providing care during the outbreak of the novel coronavirus ("COVID-19") public health emergency. Sources of relief include the Coronavirus Aid, Relief and Economic Security Act, the Paycheck Protection Program and Health Care Enhancement Act (the "PPPHCE Act"), the Continuing Appropriations Act, 2021 and Other Extensions Act, and the Consolidated Appropriations Act, 2021 (collectively, (the "COVID Acts"). With the COVID Acts, the federal government authorized funding to be distributed through the Public Health and Social Services Emergency Fund ("Provider Relief Fund" or "PRF"). U.S. Department of Health and Human Services ("HHS") will recoup PRF grant funds not utilized by the established deadlines. The COVID Acts also revised the Medicare accelerated payment program in an attempt to disburse payments to hospitals and other care providers more quickly and permitted employers to defer payment of the 6.2% employer Social Security tax beginning March 27, 2020 through December 31, 2020. In June 2021, the U.S. Department of Health and Human Services ("HHS") established new deadlines for when recipients of PRF grants must use the funding received, generally 12 to 18 months after receipt of the grant funds.

In certain circumstances, when a hospital is experiencing financial difficulty due to delays in receiving payment for the Medicare services it provided, it may be eligible for an accelerated or advance payment pursuant to the Medicare accelerated payment program. The COVID Acts revised the Medicare accelerated payment program in an attempt to disburse payments to healthcare providers more quickly. Recipients may retain the accelerated payments for one year from the date of receipt before recoupment commences, which is effectuated by a 25% offset of claims payments for 11 months, followed by a 50% offset for the succeeding six months. The initial 11-month recoupment period began in April 2021. At the end of the 29-month period, interest on the unpaid balance will be assessed at 4% per annum. As of September 30, 2021, the Company had received Medicare accelerated and advance payments of approximately $276 million, of which approximately $49 million had been repaid during year ended September 30, 2021 and approximately $227 million and $276 million were reflected in current and noncurrent refund liabilities in the accompanying consolidated balance sheets as of September 30, 2021 and 2020, respectively.

The following table shows the funds that the Company received through the PRF in both general and targeted distributions, net of amounts received for previously divested entities that were required to be repaid to HHS, during the years ended September 30, 2021 and 2020 (in thousands):

	General Funds	Targeted Funds	State funds	Other funds	Total
Funds received during the year ended September 30, 2020	$ 50,482	$ 83,088	$ 15,782	$ 33,702	$ 183,054
Transferred from discontinued operations to continuing operations	1,683	-	-	-	1,683
Applied to lost revenues	(48,004)	(69,144)	-	-	(117,148)
Applied to incremental expenses	(4,161)	(3,570)	(15,782)	(32,842)	(56,355)
Applied to incremental capital	-	-	-	(860)	(860)
Funds unused at September 30, 2020	$ -	$ 10,374	$ -	$ -	$ 10,374
Funds received during the year ended September 30, 2021	$ 6,971	$ -	$ 3,831	$ 1,146	$ 11,948
Transferred from continuing opens to discontinued operations	(1,683)	-	-	-	(1,683)
Reversal against lost revenues	5,930	-	-	-	5,930
Applied to incremental expenses	(11,218)	(10,374)	(3,831)	(948)	(26,371)
Applied to incremental capital	-	-		(198)	(198)
Unused at September 30, 2021	$ -	$ -	$ -	$ -	$ -

The amount of lost revenues (represented as a negative change in year-over-year net revenues from patient care related sources) was recorded in "pandemic relief grant income" and incremental expenses were recognized as a reduction to operating expense within the accompanying consolidated statements of operations for the years ended September 30, 2021 and 2020. The recognition of amounts received is conditioned upon the provision of care for individuals with possible or actual cases of COVID-19 after January 31, 2020, certification that payment will be used to prevent, prepare for and respond to COVID-19 and will reimburse the recipient only for healthcare related expenses or lost revenues that are attributable to COVID-19, and receipt of the funds. Amounts are recognized as a reduction to operating costs and expenses only to the extent the Company is reasonably assured that underlying conditions are met. These monies have been recognized following the grant accounting model, recognizing income or reduction to expenses over the applicable reporting period as management becomes reasonably assured of meeting the required criteria. As of September 30, 2021, the Company has no funds that had not been recognized in the consolidated statements of operations.

Liquidity

The Company had a net working capital deficit of approximately $250 million as of September 30, 2021 compared to net working capital surplus of approximately $130 million as of September 30, 2020, respectively. Additionally, the Company had a net loss before income taxes of approximately $144 million for the year ended September 30, 2021 compared to net loss before income taxes of approximately $82 million for the year ended September 30, 2020. As of September 30, 2021, the Company has a stockholder's deficit of approximately $1,274 million compared to stockholder's deficit of approximately $1,060 million as of September 30, 2020. Cash and cash equivalents generated by operations declined from cash provided by operating activities of approximately $396 million during the year ended September 30, 2020 to cash used in operating activities of approximately $175 million during the year ended September 30, 2021. Total change in cash, cash equivalents and restricted cash decreased year on year from an increase of approximately $265 million for the year ended September 30, 2020 to a decline of approximately $283 million for the year ended September 30, 2021. During the year ended September 30, 2020, the Company received approximately $276 million in funds under the Medicare accelerated payment program, and during the year ended September 30, 2021 the Company repaid approximately $49 million under this program. During the year ended September 30, 2020, the Company received stimulus funds totaling approximately $183 million for continuing operations and approximately $29 million (net of monies returned) for discontinued operations. During the year ended September 30, 2021, the Company received stimulus funds totaling approximately $12 million for continuing operations and $0 for discontinued operations. These two items account for the majority of the swings in cash generated related to operating activities, year over year. In relation to the amounts outstanding under the Medicare accelerated payment program, the Company estimates that approximately $74 million will be outstanding at the end of the 17-month period that Medicare withholds payments and will convert to an on-demand note, with interest accruing every 30 days at a rate of 4% per annum. Total debt (including MPT liabilities) decreased to approximately $1,475 million at September 30, 2021 compared to approximately $1,547 million at September 30, 2020, and the balance outstanding on the Company's revolving line of credit increased from $0 at September 30, 2020 to $45 million at September 30, 2021. At September 30, 2021, the available balance on the line was approximately $191 million. Cash and cash equivalents declined from approximately $387 million at September 30, 2020 to approximately $59 million at September 30, 2021.

The Company has various initiatives in place to generate positive cash flows from operations. From a revenue generating perspective, these include a focus on improving charge capture, improving the success rate on denials, and increasing reimbursements through rate negotiations with managed care payors, as well as improving volumes. From a cost cutting perspective, the initiatives include improvements to labor productivity and the reduction in overtime and use of registry, driven by the use of an internal registry, as well as better controls on supply and pharmacy contracts. Further, there are initiatives to focus on improving both productivity and volumes from the Company's physician groups. In addition, the shareholders have confirmed continued financial support and commitment to the Company. The Company believes that it will have sufficient cash flows from operations and available revolving facilities to provide sufficient capital resources to sustain operations, investing activities and financing for at least the next twelve months from the date these financial statements were available to be issued.

Hospital Services Segment

As of September 30, 2021, through its subsidiaries, the Company owned 16 acute care and behavioral hospitals in Southern California, Rhode Island, Pennsylvania and Connecticut with approximately 3,000 licensed beds, and a network of specialty and primary care clinics. During the year ended September 30, 2021, the Company acquired the remaining 15% interest in CharterCARE (see Note 4), and accordingly the Hospital Services segment subsidiaries are wholly owned by Prospect.

MPT CONFIDENTIAL MPT_PROSPECT_00010122

Additionally at September 30, 2021, through its subsidiaries, the Company owned one acute care hospital in New Jersey, as well as two behavioral health hospitals in Texas that were closed during the year ended September 30, 2020. In October 2020, the Company entered into an Asset Purchase Agreement to sell substantially all of the assets of the facility in New Jersey, and the sale is expected to close at the end of December 2021. For all periods presented the assets and liabilities of these businesses have been classified as "held for sale," and the operations (as related to revenues and expenses that no longer continue post sale) have been shown within discontinued operations. All of the footnotes in these consolidated financial statements refer to continuing operations unless otherwise stated.

Admitting physicians are primarily practitioners in the local area. The hospitals have payment arrangements with Medicare, Medicaid and other third-party payers, including commercial insurance carriers, health maintenance organizations ("HMOs") and preferred provider organizations ("PPOs").

Medical Group Segment

The Medical Group segment is a healthcare management services organization that provides management services to affiliated physician organizations that operate as independent physician associations ("Medical Groups" or "IPAs"). The IPAs, either directly or through Prospect's risk management entities ("RMEs"), enter into agreements with HMOs to provide HMO enrollees with a full range of medical services in exchange for fixed monthly fees ("Capitation"). The Medical Groups contract with physicians (primary care and specialist) and other healthcare providers to provide enrollees with medical services. Prospect currently manages the provision of healthcare services for contracted enrollees through Prospect's IPAs and RMEs in California, Texas, Rhode Island, Connecticut, Pennsylvania and New Jersey. The California network consists of various IPAs that are generally wholly owned by Prospect Medical Group, Inc. ("PMG") and managed by the two medical management company subsidiaries that are wholly owned by Prospect. Prospect's networks in its other states consist of IPA subsidiaries of Prospect Provider Groups, Inc. The Medical Group segment also owns clinic facilities in California that operate by employing physicians to serve their patients. In California, the clinic facilities are owned through New Genesis Medical Associates, Inc. ("NGMA"). PMG and NGMA are owned by a nominee physician shareholder pursuant to an assignable option agreement, under which Prospect has an assignable option, obtained for a nominal amount that would be due to the nominee shareholder upon an option's exercise. The option entitles Prospect to designate the purchaser (successor physician) for all or part of PMG's or NGMA's, as applicable, issued and outstanding stock in Prospect's sole discretion.

The IPAs and RMEs in California and Texas have entered into Management Service Agreements ("MSA") with Prospect Medical Systems Inc. ("PMS"), and have agreed to pay a management fee to PMS, which is based in part on the costs to the management company and on a percentage of revenues. The IPAs and RMEs in Rhode Island, Pennsylvania, Connecticut and New Jersey are operated and managed through the Global Risk Management segment discussed below. In return for payment of a management fee under each MSA in California and Texas, PMS has agreed to provide financial management, information systems, marketing, advertising, public relations, risk management, and administrative support, including for utilization review and quality of care. At its cost, PMS has assumed the obligations for all facilities and employs physician and non-physician personnel for administrative services. The management fee is earned based on a combination of percentage of revenue and share of pre-tax income. The management fees fluctuate based on the revenue and profitability of each IPA and RME. The MSAs are not terminable by the IPAs or RMEs except in the case of gross negligence, fraud or other illegal acts, or bankruptcy, of PMS.

Prospect consolidates the revenues and expenses of its IPAs (except for one entity that is a 50/50 partnership, which is accounted for under the equity method) from the respective dates of execution of the Management Agreements. All significant inter-entity balances have been eliminated in consolidation. In the case of the partnership, only that portion of the results which are contractually identified as

Prospect's are recognized in the consolidated financial statements, together with the management fee that Prospect charges the partnership for managing the other owners' share of the partnership operations.

PMS has also entered into management services agreements with unaffiliated third parties to manage services to their HMO enrollees. These management agreements do not have characteristics that give rise to the consolidation of the entities under current accounting literature. These management services agreements are terminable in accordance with the agreements' terms.

The affiliated IPAs and RMEs coordinate medical services to a combined total of approximately 634,000 and 609,000 enrollees as of September 30, 2021 and 2020, respectively. As of September 30, 2021 and 2020, the enrollees are approximately 413,000 and 394,000, respectively, including enrollees that Prospect manages for the economic benefit of certain independent third parties. The total paid member months, including managed enrollees, for the years ended September 30, 2021 and 2020 was approximately 7,404,000 and 5,635,000, respectively.

Global Risk Management Segment

The Global Risk Management ("GRM") segment exists in pursuit of Prospect's coordinated regional care ("CRC") operating model and risk management platform. The GRM segment has operations in California, Texas, Rhode Island, Pennsylvania, Connecticut and New Jersey, including Medicare accountable care organizations ("ACOs") operating in Rhode Island, Connecticut and Pennsylvania. These RMEs contract with third-party health plans, and the ACOs contract with CMS, on progressive risk reimbursement models leading to global risk contracts for physicians, other medical services and institutional services including hospital inpatient and outpatient services, home health, skilled nursing facility and other institutional services. In turn, the RMEs and ACOs contract with owned and third-party IPAs, owned and third-party hospitals and other health care providers to assume and manage this global risk. Through these contracts, Prospect manages health plan member populations with a focus on delivering coordinated care to members across our network of physicians and other providers under risk and value-based contracts.

The GRM segment also includes Coordinated Regional Care Group, Inc. ("CRCG"). CRCG incurs development and operating costs related to the GRM segment for new markets and strategic initiatives. As noted above, in California and Texas, Prospect's IPAs and RMEs have entered into MSAs with PMS to arrange for their management. CRCG provides management services to the IPAs, RMEs and ACOs in Rhode Island, Pennsylvania, Connecticut and New Jersey. Additionally, the RMEs in those states have entered into Administrative Services Agreements ("ASA") with PMS pursuant to which they have agreed to reimburse PMS for the costs of certain administrative services provided by PMS on their behalf. In return for payment of an administrative services fee, PMS has agreed to provide financial management, certain information systems, and limited administrative support. The negotiated fees fluctuate based on the services provided. The services provided under an ASA are more limited than those provided under an MSA and each ASA is terminable by either party upon the delivery of 90 days prior written notice thereof.

The GRM segment, through its contracted owned and unaffiliated providers, provides medical services for a combined total of approximately 348,000 and 298,000 enrollees as of September 30, 2021 and 2020, respectively.

Corporate Segment

The Company has two captive insurance companies, Prospect Medical Holding Risk Retention Group, Inc. ("RRG"), based in Vermont, and Connecticut Healthcare Insurance Company ("CHIC"), based in the Cayman Islands. The RRG was formed to provide primary insurance coverage for hospital and physician professional and general liability risks for the Company's subsidiary health care organizations located in Pennsylvania. CHIC provides hospital and physician professional and general liability coverage to all of the Company's hospitals and affiliated subsidiaries outside of Pennsylvania. CHIC is an exempted Company with limited liability under the Companies Law of the Cayman Islands and it holds a Class "B(i)" Insurer's License under Section 4(3)(b) of the Cayman Islands Insurance Law 2010. CHIC's principal activity is to issue primary policies for hospital liabilities covering Prospect, its subsidiaries and employees, on a claims-made basis. CHIC also provides excess healthcare professional liability and umbrella liability insurance coverage on a claims-made basis covering healthcare professional liability, general liability, automobile liability, employer's liability, helipad liability and non-owned aircraft liability of the Company and its affiliates. This excess coverage under this policy is 100% reinsured by commercial reinsurance carriers rated at minimum A- by AM Best. CHIC also provides a deductible reimbursement policy for workers compensation to the Company's facilities all of which have high deductible program structures or are qualified self-insureds (see Note 2). In fiscal 2021, through commutation agreements certain policies and reinsurance amendments were revised, which transferred risk for self-insured layers of coverage for workers compensation deductible reimbursement program, hospital and physician professional and general liability and certain buffer layer excess programs from both of the Company's captive insurance companies to the Company's hospitals and affiliated subsidiaries. This had no impact on the Company's consolidated financial statements.

The Company does not allocate interest expense related to acquisition debt or income taxes to the other reporting segments.

2. Significant Accounting Policies

Principles of Consolidation and Basis of Presentation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and include the accounts of all controlled subsidiaries. Such control is effectuated through ownership of voting common stock or by other means, but do not include the accounts of the parent companies, Chamber, Ivy Holdings and Ivy Intermediate Holding Inc. The Company has a variable interest in various entities under the Medical Group segment due to the existence of two call options (see "Medical Group Segment" above), under which the Company has the ability to require the holders of all of the voting common stock of the underlying subsidiaries to sell their shares at a fixed nominal price ($1,000) to another designated physician chosen by the Company. This call option agreement represents rights provided through a variable interest other than the equity interest itself that limits the returns that could be earned by the equity holders. In addition, the Company has management agreements with the physician organizations under the Medical Group segment (see "Medical Group Segment" above) which allows the Company to direct the activities of such physician organizations that most significantly impact their economic performance, retain the right to receive expected residual returns and assume the obligation to absorb losses. Accordingly, the Company is considered to be the primary beneficiary and these entities are consolidated within the accompanying consolidated financial statements.

Operating results for acquisitions are consolidated with the Company's consolidated financial statements from their acquisition dates. All significant intercompany balances and transactions have been eliminated in consolidation. Non-controlling interests in less-than-wholly owned consolidated subsidiaries of the Company are presented as a component of total equity to distinguish between the interests of the Company and the interests of the non-controlling owners.

The consolidation of these entities does not change any legal ownership, and does not change the assets or the liabilities and equity of the Parent Entity as a stand-alone entity. These entities had total revenues of approximately $391,700,000 and $346,182,000 and total net income of approximately $39,793,000 and $36,243,000 for the years ended September 30, 2021 and 2020, respectively. The assets and liabilities of the variable interest entities are as follows (in thousands):

September 30,	**2021**	2020
Assets		
Total current assets	$ **155,767**	$ 120,920
Total non-current assets	**110,050**	110,180
Total assets	$ **265,817**	$ 231,100
Liabilities		
Total current liabilities	$ **69,258**	$ 70,963
Total long-term liabilities	**730**	730
Total liabilities	$ **69,988**	$ 71,693

Revenues

Revenues by reportable segment are comprised of the following amounts (in thousands):

For the Years Ended September 30,	2021	2020
Net Hospital Services		
Inpatient	$ 1,437,905	$ 1,377,468
Outpatient	804,084	802,318
Capitation	161,518	147,588
Other	4,569	12,005
Total Hospital Services operating revenues (before provision for bad debts-2020 only)	2,408,076	2,339,379
Less: Provision for bad debts	-	(102,251)
Total Net Hospital Services operating revenues	2,408,076	2,237,128
Other non-patient revenues	44,603	38,464
Total Hospital Services revenues	2,452,679	2,275,592
Medical Group		
Capitation	397,670	310,521
Management fees	16,393	11,563
Other	57,270	50,562
Total Medical Group revenues	471,333	372,646
Global Risk Management		
Capitation	73,151	55,290
Other	27,003	29,610
Total Global Risk Management revenue	100,154	84,900
Corporate revenues	3,171	250
Total net revenues	$ 3,027,337	$ 2,733,388

On October 1, 2020, the Company adopted the new revenue recognition standard, Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers (Topic 606)", using a modified retrospective method of application to all contracts existing on October 1, 2020. The core principle of the guidance in ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. For the Hospital Segment, the adoption of ASU 2014-09 resulted in changes to the presentation and disclosure of revenue primarily related to uninsured or underinsured patients. Prior to the adoption of ASU 2014-09, a significant portion of the provision for doubtful accounts related to self-pay patients, as well as co-pays, co-insurance amounts and deductibles owed by patients with insurance. Under ASU 2014-09, the estimated uncollectable amounts due from these patients are generally considered implicit price concessions that are a direct reduction to net operating revenues, with a corresponding reduction in the amounts presented as provision for doubtful accounts.

The Company has revised its accounting policies related to revenues effective October 1, 2020 and these are discussed below.

The Company recognizes net operating revenues in the period in which performance obligations under contracts by transferring our services to customers are satisfied. Net operating revenues are recognized in the amounts to which the Company expects to be entitled, which are the transaction prices allocated to the distinct services.

Net operating revenues for the Hospital Segment primarily consist of net patient service revenues, principally for patients covered by Medicare, Medicaid, managed care and other health plans, as well as certain uninsured patients and other uninsured discount and charity programs. Additionally, the Hospital Segment also earns revenues from capitation arrangements that are made directly made with various managed care providers.

The following is a summary of sources of patient service revenues in the Hospital Segment (in thousands):

Years Ended September 30,	**2021**	2020
Medicare	**$ 678,577**	$ 745,780
Medicaid	**780,305**	757,626
Managed Care/Commercial	**700,915**	571,749
Self-Pay/Other	**82,193**	104,631
Capitation	**161,518**	147,588
Other	**4,568**	12,005
Total patient service revenue	**$ 2,408,076**	$ 2,339,379

Operating revenues of the Medical Group segment consist primarily of payments for medical services procured by certain entities included within the Medical Group segment ("Affiliates") under capitated contracts with various managed care providers including HMOs. Capitation revenue under HMO contracts is prepaid monthly to the Affiliates based on the number of enrollees electing any one of the Affiliates as their health care provider. Operating revenues of the Global Risk Management segment consist primarily of payments for medical services procured under global capitation arrangements from third-party health plans. Capitation revenue under these global capitation contracts is prepaid monthly to the Global Risk Management segment based on the number of enrollees. Entities within the Global Risk Management segment entered into Management Services Agreements with the Hospital Services and Medical Group segments, under which up to 98% of capitation revenue received is transferred to these segments. During the years ended September 30, 2021 and 2020, capitation revenue received from health plans was approximately $288,908,000 and $265,513,000, respectively, of which $129,738,000 and $101,556,000, and $104,274,000 and $119,328,000 were transferred to the Hospital Services segment and Medical Group segment, respectively.

Fee-for-Service ("FFS") Revenues

FFS revenues are due from patients, third-party payers (including managed care payers and government programs) and others, and they include variable consideration for retroactive revenue adjustments due to settlement of audits, reviews and investigations. Generally, the Company bills patients and third-party payers several days after the services are performed or shortly after discharge. Revenues are recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided and revenues are recognized when performance obligations satisfied over time based on actual charges incurred in relation to total expected charges. This method provides a faithful depiction of the transfer of services over the term of performance obligations based on the inputs needed to satisfy the obligations. Generally, performance obligations satisfied over time relate to patients in the Company's hospitals receiving inpatient acute care services. The Company measures the performance obligation from admission into the hospital, or the commencement of an outpatient service, to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge or completion of the outpatient services. Patient encounters and related episodes of care and procedures qualify as distinct goods and services, provided simultaneously together with other readily available resources, in a single instance of service, and thereby constitute a single performance obligation for each patient encounter and, in most instances, occur at readily determinable transaction prices. All services provided are expected to result in cash flows and are therefore reflected as net revenue in the consolidated financial statements.

The transaction price is determined based on gross charges for services provided, reduced by contractual adjustments provided to third-party payers, discounts provided to uninsured patients, and implicit price concessions provided primarily to uninsured patients. The estimates of contractual adjustments and discounts are based on contractual agreements, discount policies and historical cash collection experience. As a practical expedient, the Company adopted a portfolio approach for the FFS revenue stream to group together contracts with similar characteristics and analyze historical cash collections trends. The contracts within the portfolio share the characteristics conducive to ensuring that the results do not materially differ under the new standard if it were to be applied to individual patient contracts related to each patient encounter.

The Company is responsible for confirming member eligibility, performing program utilization review, potentially directing payment to the provider and accepting the financial risk of loss associated with services rendered, as specified within the Company's patient contracts. The Company has the ability to adjust contractual fees with patients and possess the financial risk of loss in certain contractual obligations. These factors indicate the Company is the principal and, as such, the Company records gross fees contracted with patient in revenues.

Revenues under the traditional FFS service Medicare and Medicaid programs are based primarily on prospective payment systems. Retrospectively determined cost-based revenues under these programs, which were more prevalent in earlier periods, and certain other payments, such as disproportionate share hospital and bad debt expense reimbursement, which are based on our hospitals' cost reports, are estimated using historical trends and current factors. Cost report settlements under these programs are subject to audit by Medicare and Medicaid auditors and administrative and judicial review, and it can take several years until final settlement of such matters is determined and completely resolved. The Company records accruals to reflect the expected final settlements on cost reports. For filed cost reports, the accrual is recorded based on those cost reports and subsequent activity. The accrual for periods for which a cost report is yet to be filed is recorded based on estimates of what the Company expects to report on the filed cost reports. After the cost report is filed, the accrual may need to be adjusted and these accruals are adjusted in future periods as they become known.

Settlements with third-party payers for retroactive revenue adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care using the most likely outcome method. These settlements are estimated based on the terms of the payment agreement with the payer, correspondence from the payer and historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements

are adjusted in future periods as adjustments become known, or as years are settled or are no longer subject to such audits, reviews and investigations.

The following is a summary of due from and due to governmental payers at September 30, 2021 and 2020 (in thousands):

September 30,	2021	2020
Due from government payers:		
Medicaid disproportionate share	$ 19,356	$ 14,828
Medicare cost report settlements	3,942	5,417
Medicaid Section 1115 receivable	-	145
	$ 23,298	$ 20,390
Due to government payers:		
Medicaid disproportionate share	$ 8,091	$ 4,461
Medicare cost report settlements	1,703	4,160
Medicaid cost report settlements	10,424	24,128
	$ 20,218	$ 32,749

The Company is not aware of any material claims, disputes, or unsettled matters with any payers that would affect revenues that have not been adequately provided for and disclosed in the accompanying consolidated financial statements. Because the laws, regulations, instructions and rule interpretations governing Medicare and Medicaid reimbursement are complex, subject to interpretation and can change frequently, the estimates recorded could change by material amounts.

The Company provides charity care to patients who lack financial resources and are deemed to be medically indigent based on criteria established under the Company's charity care policy. This care is provided without charge or at amounts less than the Company's established rates. Because the Company does not pursue collection of amounts determined to qualify as charity care, such amounts are not reported as net operating revenues. The direct and indirect costs related to this care totaled approximately $3,488,000 and $6,545,000 for the years ended September 30, 2021 and 2020, respectively. Direct and indirect costs for providing charity care are estimated by calculating a ratio of cost to gross charges and then multiplying that ratio by the gross uncompensated charges associated with providing care to charity patients.

Patients who are covered by third-party payers are responsible for related co-pays, co-insurance and deductibles, which vary in amount. The Company estimates the transaction price for patients with co-pays, co-insurance and deductibles and for those who are uninsured based on historical collection experience and current market conditions. The discount offered to certain uninsured patients is recognized as a contractual allowance, which reduces net operating revenues at the time the self-pay accounts are recorded. The uninsured patient accounts, net of contractual allowances recorded, are further reduced to their net realizable value at the time they are recorded through implicit price concessions based on historical collection trends for self-pay accounts and other factors that affect the estimation process. Although outcomes vary, the Company's policy is to attempt to collect amounts due from patients, including co-pays, co-insurance and deductibles due from patients with insurance, at the time of service while complying with all federal and state statutes and regulations. All of the Company's hospital facilities are subject to Emergency Medical Treatment and Active Labor Act ("EMTALA"). This federal law and accompanying regulations require any hospital that participates in the Medicare program to conduct an appropriate medical screening examination of every person who comes to the hospital's

emergency department for treatment and, if the patient is suffering from an emergency medical condition, to either stabilize that condition or make an appropriate transfer of the patient to a facility that can treat the condition. The obligation to screen and stabilize emergency medical conditions exists regardless of a patient's ability to pay for treatment. There are severe penalties under EMTALA for violations of the law and regulations, including if a hospital fails to screen or appropriately stabilize or transfer a patient or if the hospital delays appropriate treatment in order to first inquire about the patient's ability to pay. Penalties for violations of EMTALA include civil monetary penalties and exclusion from participation in the Medicare program. In addition, an injured patient, the patient's family or a medical facility that suffers a financial loss as a direct result of another hospital's violation of the law can bring a civil suit against that other hospital. The Company believes that it is in compliance with EMTALA and is not aware of any pending or threatened EMTALA investigations involving allegations of potential wrongdoing that would have a material effect on the Company's consolidated financial statements.

State Supplemental Medicaid Programs

The various states in which the Company operates have additional programs in which certain of the Company's facilities participate in, related to medical facilities serving a disproportionate number of low-income patients. The Company recognizes revenues related to supplemental Medicaid payments under using the most likely outcome method, and the estimates also consider whether it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. The following table shows the revenues generated by these programs during the years ended September 30, 2021 and 2020 (in thousands), which are reflected in Net Hospital Segment patient service revenues in the accompanying consolidated statements of operations:

Years Ended September 30,	**2021**	2020
California Medi-Cal Disproportional Share ("CA DSH")	**$ 38,183**	$ 32,216
Rhode Island DSH and Upper Payment Limit ("UPL")	**22,273**	20,239
Pennsylvania State Programs	**32,042**	48,988
Connecticut Medicaid DSH revenue	**25,270**	27,659
	$ 117,768	$ 129,102

California Hospital Fee Program

The Company recognizes revenues related to supplemental Medi-Cal payments under California provider fee programs using the most likely outcome method, which is based on formulas contained in the legislation as well as modeling performed by the California Hospital Association ("CHA"). The estimates also consider whether it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. These programs are funded by quality assurance fees paid by participating hospitals and matching federal funds.

The Company recognized supplemental payments, included in net patient service revenue, and quality assurance fee expense, included in general and administrative in the accompanying consolidated statements of operations as follows (in thousands):

Years Ended September 30,	**2021**	2020
Hospital services revenues	**$ 137,926**	$ 140,691
General and administrative	**73,720**	97,270
Net pre-tax impact	**$ 64,206**	$ 43,421

MPT CONFIDENTIAL

Capitation Revenues

Capitation revenue (net of capitation withheld to fund risk share deficits discussed below) is recognized in the month in which the providers are obligated to provide services (stand ready obligation). Minor ongoing adjustments to prior months' capitation, primarily arising from contracted HMOs' finalizing of monthly patient eligibility data for additions or subtractions of enrollees, are recognized in the month they are communicated to the Company. Additionally, Medicare pays capitation using a "Risk Adjustment model," which compensates managed care organizations and providers based on the health status (acuity) of each enrollee. Under Risk Adjustment, capitation is determined based on health severity, measured using patient encounter data. Capitation is paid on an interim basis based on data submitted for the enrollee for the preceding year and is adjusted in subsequent periods the final data is compiled. Positive or negative capitation adjustments are made for Medicare enrollees with conditions requiring more or less healthcare services than assumed in the interim payments. Since the Company cannot reliably predict these adjustments, periodic changes in capitation amounts earned as a result of Risk Adjustment are recognized generally in the fourth quarter when those changes are communicated by the health plans to the Company.

As related to the Medical Group Segment, during the years ended September 30, 2021 and 2020, the Company returned and recognized as a reduction in revenue, approximately $2,800,000 and $1,395,000, respectively, as a result of the final Hierarchical Condition Category ("HCC") reconciliation. As related to the Global Risk Management Segment, the Company recognized capitation risk adjustments of approximately $6,123,000 and $9,646,000, respectively, during the years ended September 30, 2021 and 2020.

Per Member Per Month ("PMPM") managed care contracts generally have a term of one year or longer. All managed care contracts have a single performance obligation that constitutes a series for the provision of managed healthcare services for a population of enrolled members for the duration of the contract. The transaction price for PMPM contracts is variable as it primarily includes PMPM fees associated with unspecified membership that fluctuates throughout the contract. In certain contracts, PMPM fees also include adjustments for items such as performance incentives, performance guarantees and risk sharing. The Company generally estimates the transaction price using the most likely amount methodology and amounts are only included in the net transaction price to the extent that it is probable that a significant reversal of cumulative revenue will not occur once any uncertainty is resolved. The majority of the Company's net PMPM transaction price relates specifically to the Company's efforts to transfer the service for a distinct increment of the series (e.g. month) and is recognized as revenue in the month in which members are entitled to service.

Risk Pool Settlements and Incentives

HMO contracts also include provisions to share in the risk for hospitalization, whereby the physician organization can earn additional incentive revenue or incur penalties based upon the utilization of hospital services. Typically, any shared risk deficits are not payable until and unless the Company generates future risk sharing surpluses, or if the HMO withholds a portion of the capitation revenue to fund any risk share deficits. At the termination of the HMO contract, any accumulated risk share deficit is typically extinguished. Due to the lack of access to information necessary to estimate the related costs, shared-risk amounts receivable from the HMOs are only recognized, using the most likely methodology, and only included in revenue to the extent that it is probable that a significant reversal of cumulative revenue will not occur. Risk pools for the prior contract years are generally final settled in the third or fourth quarter of the following fiscal year. For the years ended September 30, 2021 and 2020, Medical Group revenues included approximately $12,282,000 and $24,166,000, respectively, relating to risk-sharing profit. At September 30, 2021 and 2020, contingent liabilities for carry-forward risk-pool deficits expected to be forgiven, or offset against future surpluses were approximately $13,740,000 and $68,702,000, respectively, based on the available information from the health plans.

The Company also receives incentives under "pay-for-performance" programs for quality medical care, based on various criteria. The incentive programs track specific performance measures and calculate payments to the Company based on the performance measures. The Company's incentives under "pay-for-performance" programs are recognized using the most likely methodology. However, as the Company does not have sufficient insight from the health plans on the amount and timing of the shared risk pool and incentive payments these amounts are considered to be fully constrained and only recorded when such payments are known and/or received. Performance and incentive revenues recorded during the years ended September 30, 2021 and 2020 were $15,405,000 and $21,272,000, respectively.

Management fee revenue is earned in the month the services are rendered. Management fee arrangements with unaffiliated entities provide for compensation ranging from 6.5% to 10% of revenues. Consideration from management contracts is variable in nature because the majority of the fees are generally based on revenue or collections, which can vary from period to period. The Company has control over pricing. Contractual fees are invoiced to the Company's clients generally monthly and payment terms are typically due within 30 days. The variable consideration in the Company's management contracts meets the criteria to be allocated to the distinct period of time to which it relates because (i) it is due to the activities performed to satisfy the performance obligation during that period and (ii) it represents the consideration to which the Company expects to be entitled. Management fee revenues recorded during the years ended September 30, 2021 and 2020 were $15,562,000 and $11,895,000, respectively. Management fees for revenue for entities that are consolidated are eliminated on consolidation.

Contract Assets and Contract Liabilities

The receivables and payables related to the California Hospital Fee Program are the most significant contract assets and liabilities in the Company's consolidated financial statements. As of September 30, 2021 and 2020, the Company had receivables related to the California Hospital Fee Program of approximately $178,042,000 and $189,941,000, respectively, and had liabilities related to the California Hospital Fee Program of approximately $71,197,000 and $70,660,000, respectively, in the accompanying consolidated balance sheets.

Cost of revenues

The Company, for certain matters, maintains stop loss coverage for health care costs that are in excess of set thresholds.

Medical Group Cost of Revenues

The cost of health care services consists primarily of capitation and claims payments, pharmacy costs and incentive payments to contracted providers. These costs are recognized in the period incurred, or when the services are provided. Claims costs also include an estimate of the cost of services which have been incurred but not yet reported to the Company. The estimate for accrued medical costs is based on projections of costs using historical studies of claims paid and adjusted for seasonality, utilization and cost trends. These estimates are subject to trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management records its best estimate of the amount of medical claims incurred at each reporting period. Estimates are continually monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current period. See Note 14 for changes in claims estimates during the years ended September 30, 2021 and 2020.

The Company has contractual reimbursement obligations to providers and discretionary incentive payment obligations to physicians. These payments are in large part predicated on the pay-for-performance, shared risk revenues, and favorable senior capitation risk adjustment payments received by the Company from the health plans. The Company records these revenues generally in the third or fourth quarter of each fiscal year when the incentives and capitation adjustments due from the health plans are known. During this period, the Company also finalizes the physician discretionary incentive.

The Company recorded physician incentives expense of approximately $33,932,000 and $24,230,000 for the years ended September 30, 2021 and 2020, respectively. As of September 30, 2021 and 2020, physician incentive accruals of approximately $24,776,000 and $22,484,000, respectively, were included in accounts payable and other accrued liabilities in the accompanying consolidated financial statements.

The Company also periodically evaluates the need to establish premium deficiency reserves for the probability that anticipated future health care costs could exceed future capitation payments from HMOs under capitated contracts and, where appropriate, records a premium deficiency reserve. There were no such premium deficiencies recorded at September 30, 2021 and 2020, respectively.

Global Risk Management

The cost of health care services consists primarily of the transfer of capitation revenue to the Hospital Services and Medical Group segments under the Management Services Agreements, and capitation and claims payments. These costs are recognized in the period incurred, or when the services are provided. Claims costs also include an estimate of the cost of services which have been incurred but not yet reported to the Company. The estimate for accrued medical costs is based on projections of costs using historical studies of claims paid and adjusted for seasonality, utilization and cost trends. These estimates are subject to trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management records its best estimate of the amount of medical claims incurred at each reporting period. Estimates are continually monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current operations.

The Company also periodically evaluates the need to establish premium deficiency reserves for the probability that anticipated future health care costs could exceed future capitation payments from HMOs under capitated contracts and, where appropriate, record a premium deficiency reserve. There were no such premium deficiencies recorded at September 30, 2021 or 2020.

Patient Accounts Receivable, Net

Collection of receivables from third-party payers and patients are the Company's primary source of cash and is critical to its operating performance. For patient accounts receivable resulting from revenue recognized prior to October 1, 2020, a provision for doubtful accounts was established to reduce the carrying value of such receivables to their estimated net realizable value. Generally, the Company estimated this allowance based on the aging of our accounts receivable by hospital, its historical collection rates as well as changes in applicable laws, rules and regulations and contract terms, to assure that provisions for contractual allowances are made using the most accurate information available. The allowance for doubtful accounts was approximately $198,052,000 as of September 30, 2020, representing 41% of gross accounts receivable. Under the provisions of ASU 2014-09, which the Company adopted effective October 1, 2020, when the Company has an unconditional right to payment, subject only to the passage of time, the right is treated as a receivable. Patient accounts receivable, including billed accounts and unbilled accounts for which there is the unconditional right to payment, and estimated amounts due from third-party payers for retroactive adjustments, are receivables if the right to consideration is unconditional and only the passage of time is required before payment of that consideration is due. For patient accounts receivable subsequent to the Company's adoption of ASU 2014-

09 on October 1, 2020, the estimated uncollectable amounts are generally considered implicit price concessions that are a direct reduction to patient accounts receivable rather than allowance for doubtful accounts. Such implicit price concessions may be caused by denials for payments for services due to issues over patient eligibility for medical coverage, the Company's ability to demonstrate medical necessity for services rendered and payer authorization of hospitalization.

Property, Improvements and Equipment

Property, improvements and equipment are stated on the basis of cost or, in the case of acquisitions, at their acquisition date fair values. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, and amortization of leasehold improvements is provided using the straight-line basis over the shorter of the remaining lease period or the estimated useful lives of the leasehold improvements. Leasehold improvements are generally depreciated over 5 to 40 years, buildings and improvements are depreciated over 5 to 40 years, equipment is depreciated over 2 to 15 years and furniture and fixtures are depreciated over 2 to 20 years. Equipment capitalized under capital lease obligations are amortized over the lesser of the life of the lease or the useful life of the asset.

As more fully described in Note 13, the Company is required to comply with certain seismic standards as required by the state of California by dates through July 2022. The useful life of buildings subject to seismic retrofit requirements may be limited if the Company does not make the necessary upgrades by the required compliance date.

Goodwill

Goodwill represents the excess of the consideration paid and liabilities assumed over the fair value of the net assets acquired, including identifiable intangible assets.

The Company follows the private company alternative, under which private companies can elect to amortize goodwill on a straight-line basis over 10 years, or less than 10 years if the entity demonstrates that another useful life is more appropriate. It also permits a private company to apply a simplified impairment model to goodwill, allowing impairment analysis to be evaluated at the entity level. Accordingly, the Company amortizes goodwill on a straight-line basis over 10 years. The Company evaluates goodwill for impairment at the entity level when a triggering event occurs that indicates that the fair value of the entity may be below its carrying amount. When a triggering event occurs, the Company first assesses qualitative factors to determine whether the quantitative impairment test is necessary. If that qualitative assessment indicates that it is more likely than not that goodwill is impaired, the Company performs the quantitative test to compare the entity's fair value with its carrying amount, including goodwill. If the qualitative assessment indicates that it is not more likely than not that goodwill is impaired, further testing is unnecessary. The goodwill impairment loss, if any, represents the excess of the carrying amount of the entity over its fair value. There was no goodwill impairment recorded during the years ended September 30, 2021 and 2020.

Intangible Assets

Intangible assets include customer relationships, trade names, and favorable leaseholds. The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. The Company considers assets to be impaired and writes them down to fair value if estimated undiscounted cash flows associated with those assets are less than their carrying amounts. Fair value is based upon the present value of the associated cash flows. Changes in circumstances (for example, changes in laws or regulations, technological advances or changes in strategies) may also reduce the useful lives from initial estimates. Changes in planned use of intangibles may result from changes in customer base, contractual agreements, or regulatory requirements. In such

circumstances, management will revise the useful life of the long-lived asset and amortize the remaining net book value over the adjusted remaining useful life. There were no impairments recorded during the years ended September 30, 2021 and 2020.

Insurance Reserves

Medical Malpractice Liability Insurance

The individual physicians who contract with the physician organizations carry their own medical malpractice insurance, some of which may be purchased from RRG or CHIC. In the Hospital Services segment, the Company's hospitals carry professional and general liability insurance to cover medical malpractice claims under claims-made policies. Under the policies, insurance premiums cover only those claims actually reported during the policy term. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims related to occurrences during the policy term but reported subsequent to the policy's termination may be uninsured. The Company's hospitals have a consolidated policy for professional and general liability insurance with a retention that applies per claim.

Prospect RRG & Prospect Crozer, LLC ("Crozer")

During the years ended September 30, 2021 and 2020 at Crozer, RRG provided primary malpractice insurance ($500,000 per occurrence and $1,500,000 in the aggregate for physicians, and $500,000 per occurrence and $2,500,000 in the aggregate for the hospitals) and general liability ($1,000,000 per occurrence and $2,000,000 in the aggregate). The Pennsylvania MCARE fund provides the $500,000 in excess of $500,000 RRG malpractice coverage for physicians, hospitals, and certain professional corporations. For the year ended September 30, 2021, excess coverage was provided by CHIC for limits up to $80,000,000 over entity retentions, which was 100% reinsured by third party carriers. Additionally, RRG provides $1,000,000 per occurrence and $3,000,000 in the aggregate) coverage for non-healthcare provider professional liability. For the year ended September 30, 2020, RRG provided coverage for losses of $4,000,000 in excess of $1,000,000 for each hospital professional liability claim with no aggregate limit. RRG also provided additional layers of excess coverage over $5,000,000 up to $20,000,000, which was 100% reinsured to third party carriers. The excess coverage provided for general liability is over $1,000,000 up to $50,000,000, which was also 100% reinsured by third party carriers. Additionally, there is $1,000,000 per occurrence and $3,000,000 in the aggregate) coverage for non-healthcare provider professional liability.

CHIC

For the year ended September 30, 2021, the malpractice and general liability risk was retained by the Company's hospitals and affiliated subsidiaries subject to a $7,500,000 retention, except for Crozer subject to $12,500,000 retention. For the year ended September 30, 2020, CHIC provided malpractice and general liability ($5,000,000 per occurrence and $37,000,000 in the aggregate) coverage for all facilities, except Crozer. For the years ended September 30, 2021 and 2020, CHIC also provided an excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general liability, automobile liability, employers' liability, helipad liability and non-owned aircraft liability. The limit provided was $80,000,000 during the years ended September 30, 2021 and 2020, for each loss event and in the annual aggregate excess of the primary coverage layers described above. This coverage was fully reinsured by third party carriers.

GAAP requires that a health care organization record and disclose the estimated costs of medical malpractice claims in the period of the incident of malpractice, if it is reasonably possible that liabilities may be incurred and losses can be reasonably estimated. The Company has recognized an estimated liability for incurred but not reported claims and the self-insured risks (including deductibles and potential claims in excess of policy limits) based upon an actuarial valuation of the Company's historical claims experience of its hospitals. At September 30, 2021 and 2020, the total gross claims liability, was approximately $121,691,000 and $103,349,000 and reinsurance recoverable on unpaid losses were approximately $16,053,000 and $17,506,000, respectively, included in other assets on the accompanying consolidated balance sheets, and were estimated using a discount factor ranging from 3.50% to 4.00%.

Workers' Compensation Insurance

The workers' compensation coverage provides the statutory benefits required by law with a $500,000 deductible reimbursement policy provided by CHIC for the Company's entities located in California and Connecticut, and Pennsylvania for the year ended September 30, 2020. The facilities in Rhode Island were fully insured for workers' compensation claims with no deductible in a guaranteed cost program.

At September 30, 2021 and 2020, included in accrued salaries, wages and benefits are accruals for uninsured claims and claims incurred but not reported of approximately $29,109,000 and $32,532,000 and reinsurance recoverable on unpaid losses of $4,952,000 and $5,218,000, respectively, included in other assets on the accompanying consolidated balance sheets. The amounts are estimated based upon an actuarial valuation of claims experience, using a discount factor of 4%.

Reserve Methodology

The claims reserve is based on the best data available to the Company. The estimate, however, is subject to a significant degree of inherent variability. The estimate is continually monitored and reviewed, and as the reserve is adjusted, the difference is reflected in current operations. While the ultimate amount of the medical malpractice and workers' compensation claims liability is dependent on future developments, management is of the opinion that the associated liabilities recognized in the accompanying consolidated financial statements are adequate to cover such claims. Management is not aware of any potential claims whose settlement, if any, would have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with initial maturities of 90 days or less to be cash equivalents. Cash and cash equivalents are primarily comprised of deposits with banks. The Company maintains its cash at banks with high credit-quality ratings.

Cash Held in Escrow

As of September 30, 2021, the Company held $45,270,000 of cash held in escrow in connection with the purchase of the non-controlling interest of Prospect CharterCARE, LLC ("CharterCare") (see Note 4). As of September 30, 2020, the Company held $70,000 of cash in escrow.

Restricted Cash

Some of the Company's cash is restricted for various purposes including research, regulatory requirements and letters of credit. The Company is also required to keep restricted deposits by certain HMOs for the payment of claims. Such restricted deposits are classified as a current asset in the accompanying consolidated balance sheets, as they are restricted for payment of current liabilities. Restricted cash also include certificates of deposit with maturity dates of more than 90 days when purchased.

Restricted Investments

Investments in marketable securities, primarily mutual funds, and are classified as available for sale and are stated at fair value. Unrealized gains and losses are recorded in the statements of other comprehensive income. Investment securities are exposed to various risk, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in values of investment securities could occur in the near term and such changes could materially affect investment. These investments are held in the Company's captive insurance companies and are shown as restricted because the state/local regulators require their approval before dividends or return of capital to the Parent Entity.

Inventories

Inventories of supplies are valued at the lower of amounts that approximate the weighted average cost or net realizable value, which approximates market value, and are expensed as incurred. Inventories consist primarily of medical and surgical supplies and pharmaceuticals.

Internal Use Software

Included within other receivables, prepaid expenses and other current assets are hosting arrangements related to the Oracle suite of products, which are accounted for as service contracts. The gross carrying amount of capitalized service costs was approximately $30,641,000 and $14,298,000 at September 30, 2021 and 2020, respectively. There is no expected residual value for capitalized costs. As of September 30, 2021 there we no capitalized costs for hosting arrangements accounted for as service contracts that was in the development stage. As of September 30, 2020, there was approximately $12,100,000 of capitalized costs for hosting arrangements accounted for as service contracts that was in the development stage and amortization is scheduled to commence once the project is complete and ready for its intended use. The estimated amortization period is 5 years. Amortization expense was approximately $3,651,000 and $1,648,000 during the years ended September 30, 2021 and 2020, respectively.

Deferred Financing Costs

Deferred financing costs are amortized over the period in which the related debt is outstanding using the effective interest method and are classified as a deduction from the carrying amount of the related debt. As it relates to MPT liabilities, deferred financing costs are classified in other assets in the accompanying consolidated balance sheets.

Income Taxes

Deferred income tax assets and liabilities are recognized for differences between financial and income tax reporting bases of assets and liabilities based on enacted tax rates and laws. To the extent a deferred tax asset cannot be recognized under the preceding criteria, allowances must be established. The impact on deferred taxes of changes in tax rates and laws, if any, are applied to the years during which temporary differences are expected to be settled and reflected in the financial statements in the period of enactment. The Company recognizes interest and penalties associated with income tax matters and unrecognized tax benefits in the income tax expense line item of the statements of operations.

An entity is required to evaluate its tax positions using a two-step process. First, the entity should evaluate the position for recognition. An entity should recognize the financial statement benefit of a tax position if it determines that it is more likely than not that the position will be sustained on examination. Next, the entity should measure the amount of benefit that should be recognized for those tax positions that meet the more-likely-than-not test.

Sale-Leaseback Transactions

The Company evaluates sale-leaseback transactions by determining whether the transaction meets the qualifying criteria to be recognized as a sale-leaseback, including the transfer of risk and rewards of ownership as well as the absence of continuing involvement of the Company. When the qualifying criteria for a sale-leaseback transaction are not met, the Company accounts for the transaction as a financing (see Notes 9 and 10).

Comprehensive Income

Comprehensive income consists of net income and other gains and losses affecting stockholder's equity that, under generally accepted accounting principles, are excluded from net income (loss) attributable to the Company. For the Company, such items consist primarily of unrealized gains or losses on debt as well as changes related to pension and other postretirement liabilities that are not recognized immediately in net periodic benefit costs (see Note 12).

Fair Value Measurement

Relevant accounting guidance establishes a framework for measuring fair value and clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

The guidance requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows: Level 1 quoted prices in active markets for identical assets or liabilities; Level 2 quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or Level 3 unobservable inputs for the asset or liability, such as discounted cash flow models or valuations. The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The Company's Level 1 assets include cash and cash equivalents and investments (certificates of deposit and money market mutual funds). The inputs for fair value of goodwill and intangible assets (including long-lived assets and intangible assets subject to amortization) would be based on Level 3 inputs as data used for such fair value calculations would be based on discounted cash flows that are not observable from the market, directly or indirectly.

Financial Items Measured at Fair Value on a Recurring Basis

The following table sets forth the Company's financial assets and liabilities measured at fair value on a recurring basis and where they are classified within the hierarchy (in thousands):

September 30, 2021	Total	Level 1	Level 2	Level 3
Mutual funds	**$ 34,283**	**$ 34,283**	**$ -**	**$ -**
September 30, 2020				
Mutual funds	$ 31,354	$ 31,354	$ -	$ -

MPT CONFIDENTIAL

The Company's investments are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices. The Company's defined benefit pension plan assets are also measured at fair value (see Note 12).

The Company's carrying amount of debt approximated fair value as of September 30, 2021 and 2020, respectively.

Concentrations of Credit Risk

Cash and cash equivalents are maintained at financial institutions and, at times, balances may exceed federally insured limits of $250,000 per depositor of each financial institution. The Company has not experienced any losses to date related to these balances.

Financial instruments that potentially subject the Company to concentrations of credit risk consist of receivables due from Medicare, Medicaid, patients, and health plans including shared-risk arrangements.

The Company invests excess cash in liquid securities at institutions with strong credit ratings, following established guidelines relative to diversification and maturities to maintain safety and liquidity. These guidelines are periodically reviewed and modified to take into consideration trends in yields and interest rates and principal risk. Management attempts to schedule the maturities of the Company's investments to coincide with the Company's expected cash requirements. Credit risk with respect to receivables is limited since amounts are generally due from large HMOs within the Medical Group segment and from the Medicare and Medicaid programs within the Hospital Services segment. Management reviews the financial condition of these institutions on a periodic basis and does not believe the concentration of cash or receivables results in a high level of risk.

For the years ended September 30, 2021 and 2020, the Hospital Services segment received a total of 61% and 64% of its net patient revenues from Medicare and Medicaid programs, respectively, and the Medical Group segment received a total of 59% and 58% for the years ended September 30, 2021 and 2020, respectively, of their capitation revenues from its five largest HMOs, as follows (in thousands):

Years Ended September 30,		**2021**	**% of Total Revenue**			2020	% of Total Revenue
Hospital Services:							
Government Payers:							
Medicare	$	**678,577**	**28%**		$	745,780	32%
Medicaid		**780,305**	**32%**			757,626	32%
Total	$	**1,458,882**	**61%**		$	1,503,406	64%
Medical Group:							
HMO A	$	**53,780**	**14%**	HMO A		41,136	13%
HMO C		**51,208**	**13%**	HMO E		36,299	12%
HMO E		**48,304**	**12%**	HMO B		35,819	12%
HMO D		**41,996**	**11%**	HMO F		35,166	11%
HMO H		**35,090**	**9%**	HMO D		30,477	10%
Total	$	**230,378**	**59%**		$	178,897	58%

MPT CONFIDENTIAL

The Global Risk Management segment received all of their revenues from seven health plans during the years ended September 30, 2021 and 2020.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities at the dates, and for the periods, that the consolidated financial statements are prepared. Actual results could materially differ from those estimates. Principal areas requiring the use of estimates include due to/from government payors, settlements under risk sharing programs, allowances for contractual discounts and implicit price concessions (doubtful accounts or bad debts in 2020), accruals for medical claims, impairment of goodwill, long-lived assets and intangible assets, share-based payments, professional and general liability claims and workers' compensation claims, reserves for pension obligations and other postretirement benefit reserves, reserves for outcome of changes in legislation and valuation allowances against deferred tax assets.

New Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)" with effective dates deferred for all entities by ASU 2019-10, and further deferred for nonpublic entities by ASU 2020-05. The core principle of ASU 2016-02 is that a lessee should recognize the assets and liabilities that arise from leases, including operating leases. Under the new requirements, a lessee will recognize in the statement of financial position a liability to make lease payments (the lease liability) and the right-of-use asset representing the right to the underlying asset for the lease term. For leases with a term of 12 months or less, the lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from previous GAAP. Nonpublic entities will apply the new standard for annual periods beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. The Company is currently evaluating the standard and the impact on its consolidated financial statements and footnote disclosures.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". The amendments in this standard require the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. In addition, this standard amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. The amendment is effective for nonpublic entities for annual reporting periods beginning after December 15, 2022. Early adoption is permitted. The Company is currently evaluating the standard and the impact on its consolidated financial statements and footnote disclosures.

In August 2018, the FASB issued ASU 2018-14, "Compensation - Retirement Benefits - Defined Benefit plans - General (Topic 715-20): Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans", which amends ASC 715 to add, remove and clarify disclosure requirements related to defined benefit pension and other postretirement plans. This ASU is effective for fiscal years ending after December 15, 2021. Early adoption is permitted. The Company is currently evaluating the provision of ASU 2018-14 and its impact on its consolidated financial statements and related disclosures.

MPT CONFIDENTIAL MPT_PROSPECT_00010141

Recently Adopted Accounting Pronouncements

On October 1, 2020, the Company adopted ASU 2014-09, *Revenue from Contracts with Customers*, and all subsequent amendments thereto (collectively, "Topic 606"). Topic 606 supersedes virtually all existing revenue recognition guidance, including industry-specific guidance, and replaces it with a single, comprehensive framework for recognizing revenue from contracts with customers. Topic 606 also requires enhanced disclosure about the Company's revenue from contracts with customers. The Company elected to adopt Topic 606 using the modified retrospective method. There is minimal impact from the implementation of ASC 606 except for the classification of bad debt and it is likely that the consolidated financial statement users will not have a lack of comparability in the financial statements.

Reclassifications

Certain reclassifications were made to the prior year consolidated financial statements in order to conform to the current year presentation. These reclassifications did not have a material impact on previously reported consolidated financial statements.

3. Property, Improvements and Equipment

Property, improvements and equipment, consisted of the following (in thousands):

September 30,	**2021**	2020
Land and land improvements	**$ 67,847**	$ 68,374
Buildings and improvements	**419,652**	378,882
Leasehold improvements	**28,614**	27,971
Equipment	**416,159**	409,784
Furniture and fixtures	**7,128**	6,032
	939,400	891,043
Less: accumulated depreciation	**(484,822)**	(412,812)
	454,578	478,231
Construction in Progress	**125,187**	66,025
Property, improvements and equipment, net	**$ 579,765**	$ 544,256

At September 30, 2021 and 2020, the Company had assets under capitalized leases of approximately $89,823,000 and $56,244,000, respectively, and related accumulated depreciation of $56,037,000 and $11,392,000, respectively.

Depreciation expense was approximately $71,193,000 and $70,706,000 for the years ended September 30, 2021 and 2020, respectively.

Included within equipment is capitalized software costs, which relate to significant system conversions. The estimated amortization period is 5 years. The gross carrying amount of capitalized software for internal use (related to the Cerner suite of products) was approximately $66,966,000 and $36,157,000 at September 30, 2021 and 2020, respectively, and the net carrying amount considering accumulated amortization was approximately $60,443,000 and $31,870,000 at September 30, 2021 and 2020, respectively. There is no expected residual value for capitalized internal-use software. At September 30, 2021 and 2020, there was approximately $55,783,000 and $24,973,000, respectively, of capitalized costs for internal-use software that is in the development stage and amortization is scheduled to commence once the software project is complete and ready for its intended use. Amortization expense was $2,237,000 and $2,237,000 for the years ended September 30, 2021 and 2020, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00010142

4. Acquisition of Noncontrolling Interest in CharterCARE

In June 2014, the Company, through a newly formed subsidiary, Prospect CharterCARE, LLC ("CCHP"), acquired substantially all of the assets of CharterCARE Health Partners and its subsidiaries, in exchange for an 85% interest in CCHP, $43.3 million in cash and a commitment to invest at least $50 million in CCHP and its subsidiaries for strategic business development and capital improvements over the next four years (the "CharterCARE acquisition"). As a result of the acquisition, the Company had an 85% ownership interest in CCHP, with the remaining 15% being owned by the prior owner of the selling entities, CharterCARE Health Partners, which was subsequently renamed CharterCARE Community Board ("CCCB").

CCHP, through wholly owned subsidiaries, operates both Roger Williams Medical Center and St. Joseph Health Services of Rhode Island, dba Our Lady of Fatima Hospital. One of the seller entities, St. Joseph Health Services of Rhode Island, had a Retirement Plan (the "Retirement Plan") which is a defined benefit pension plan and was set up for the benefit of employees of Our Lady of Fatima Hospital when the hospital was a standalone hospital owned by a religious institution. The Company and CCHP did not acquire the Retirement Plan as part of the CharterCARE acquisition, and $14 million of the proceeds from the sale were contributed to the Retirement Plan in exchange for the Company and its subsidiaries, including CCHP, not having any liabilities related to the Retirement Plan. In August 2017, a petition was filed to place the Retirement Plan into receivership by its administrators because it was underfunded. In June 2018, the receiver for the Retirement Plan (along with various named participants) filed a lawsuit on behalf of all participants against various defendants which included CCCB, the Company, CCHP, the subsidiary which holds the Company's ownership interest in CCHP, and the two subsidiaries which own Roger Williams Medical Center and Our Lady of Fatima Hospital, along with the administrators of the Retirement Plan, The Angell Pension Group, Inc., among others. Also, in March 2019, CCCB sued the Company and various directors of the Company, and certain subsidiaries. The suits involved allegations related to the valuation of CCCB's 15% ownership interest in CCHP. In December 2019, CCCB and its subsidiaries settled with the receiver of the Retirement Plan. As a result, in January 2020 the receiver took control of CCCB's noncash assets, including its ownership interest in CCHP. In December 2019, the Company sued CCCB on the basis that CCCB had breached the original terms of the acquisition by entering into the settlement agreement with the receiver and seeking indemnity against the receiver's June 2018 lawsuit.

The Company entered into a Settlement Agreement in December 2020 to release the Company and its directors and subsidiaries from all of the various claims under the aforementioned litigation. The Settlement Agreement also provided for the Company to purchase the noncontrolling interest. Under the terms of the settlement, the Company paid $27.25 million, of which $22.25 million was to settle all of the outstanding cases between the parties, including the Company, which was subsequently released of their related claims, and $5 million was for the acquisition of the noncontrolling interest. The buyout of the noncontrolling interest was treated as an equity transaction. The payment of the settlement was conditioned upon State and Federal Court approvals, which was obtained in March 2021 and August 2021, respectively. Accordingly, the Company paid $27.25 million in August 2021, and the buyout of CCCB's noncontrolling interest in CCHP was effective on August 18, 2021.

The Company received recoveries from its insurance policies of approximately $12 million. A receivable was recorded for this amount at September 30, 2021. Such monies were received after year-end.

MPT CONFIDENTIAL MPT_PROSPECT_00010143

5. Discontinued Operations

As of and for the years ended September 30, 2021 and 2020, the operations of Nix Hospital System ("Nix Health") in Texas and East Orange General Hospital ("EOGH") in New Jersey met the criteria under applicable accounting standards to be presented as discontinued operations and as assets held for sale. In October 2020, the Company entered into an Asset Purchase Agreement to sell substantially all of the assets of EOGH for a sale price of $6.2 million. That sale closed effective January 1, 2022 (see Note 16). The Company's decision to discontinue the operations of each of these entities was based on the strategy of the Company's management in their respective markets and financial results.

In connection with the presentation of discontinued operations, the Company was required to test the long-lived assets for impairment as of September 30, 2021 and 2020. As of September 30, 2021, as a result of the impairment test, at EOGH: (i) property, improvements and equipment were impaired by approximately $4.5 million; and (ii) other receivables, prepaid expenses and other current assets at EOGH were impaired by approximately $6.4 million. As of September 30, 2020, as a result of the impairment test, at EOGH: (i) property, improvements and equipment were impaired by approximately $5.3 million; and (ii) other receivables, prepaid expenses and other current assets at EOGH were impaired by approximately $3.6 million.

Summarized financial information for discontinued operations is included below (in thousands):

September 30,	**2021**	2020
Patient accounts receivable, (net of allowance for doubtful accounts-2020) and other receivables	**$ 16,417**	$ 11,771
Other receivables, prepaid expenses and other current assets	**(1,110)**	4,865

The following table shows the funds that the Company received through the PRF in both general and targeted distributions, including amounts received for Nix Health that were required to be repaid to HHS, during the year ended September 30, 2021 and 2020 (in thousands), as it relates to discontinued operations:

	PRF Funds	Hotspot Funds	Other Funds	Total
Funds received during the year ended September 30, 2020	$ 4,068	$ 12,350	$ 14,835	$ 31,253
Funds transferred from discontinued operations to continuing operations	(1,683)	-	-	(1,683)
Funds applied to lost revenues	-	(6,460)	(9,198)	(15,658)
Funds applied to incremental expenses	-	-	(5,637)	(5,637)
Funds that were refunded	(2,385)	-	-	(2,385)
Funds unused at September 30, 2020	$ -	$ 5,890	$ -	$ 5,890
Funds received during the year ended September 30, 2021	$ -	$ -	$ -	$ -

Funds applied to incremental expenses	-	(730)	-	(730)
Funds applied to incremental capital assets	-	(2)	-	(2)
Funds unused at September 30, 2021	$ -	$ -	$ -	$ -

As of September 30, 2020, the Company had $5,890,000 in funds related to EOGH that had not been recognized in the accompanying consolidated statements of operations. As these liabilities were not set to transfer upon the completion of the sale of EOGH, they were reflected in accounts payable and other accrued liabilities in the accompanying consolidated balance sheets. During the year ended September 30, 2021, such funds were used in full against incremental expenses and lost revenues and accordingly there was no liability as of September 30, 2021.

As of September 30, 2021 and 2020, the Company had recorded liabilities related to Medicare advance payments received of approximately $7,435,000 and $10,152,000, respectively, related to EOGH. These liabilities will not transfer in the sale of EOGH and accordingly are reflected in refund liabilities, current and non-current, in the accompanying consolidated balance sheets.

6. Goodwill and Intangible Assets

The net carrying value of goodwill by reporting unit is as follows (in thousands):

September 30, 2021	Gross	Accum. Impairment	Accum. Amortization	Total
Southern California Hospitals	$ 130,912	$ -	$ (26,182)	$ 104,730
California Medical Groups	30,722	-	(5,936)	24,786
CharterCare	14,718	(14,228)	(70)	420
Crozer	140,216	(978)	(27,868)	111,370
Prospect ECHN, Inc. ("ECHN")	535	-	(107)	428
Prospect Waterbury, Inc. ("Waterbury")	2,888	-	(555)	2,333
Total	$ 319,991	$ (15,206)	$ (60,718)	$ 244,067

September 30, 2020	Gross	Accum. Impairment	Accum. Amortization	Total
Southern California Hospitals	$ 130,912	$ -	$ (13,091)	$ 117,821
California Medical Groups	30,722	-	(2,864)	27,858
CharterCare	14,665	(14,228)	(22)	415
Crozer	140,216	(978)	(13,946)	125,292
ECHN	535	-	(54)	481
Waterbury	2,888	-	(268)	2,620
Total	$ 319,938	$ (15,206)	$ (30,245)	$ 274,487

The changes in the net carrying amount of goodwill for the years ended September 30 are as follows (amounts in thousands):

September 30,	2021	2020
Balance, beginning of year	$ 274,487	$ 302,377
Acquisitions	53	3,333
Disposition	-	(978)
Amortization	(30,473)	(30,245)
Balance, end of year	$ 244,067	$ 274,487

Amortization expense was $30,473,000 and $30,245,000 for the year ended September 30, 2021 and 2020, respectively, and is included in goodwill amortization expense in the accompanying consolidated statements of operations.

Estimated amortization expense for each fiscal year of goodwill is as follows (in thousands):

Years ending September 30,	
2022	$ 30,476
2023	30,476
2024	30,476
2025	30,476
2026	30,476
Thereafter	91,687
Total future amortization expense	$ 244,067

The weighted-average remaining useful life for the goodwill was approximately eight years as of September 30, 2021.

Identifiable intangible assets are comprised of the following (in thousands):

September 30,	Useful lives	**2021**	2020
HMO membership	14 years	**$ 25,200**	$ 25,200
Trade names, net of impairment	3 - 20 years	**42,030**	42,030
Other	5 - 6 years	**-**	97
Gross carrying value		**67,230**	67,327
Accumulated amortization		**(52,360)**	(47,273)
Intangible assets, net		**$ 14,870**	$ 20,054

Amortization is recognized on a straight-line basis (management's best estimate of the period of economic benefit) over the respective useful lives and expense for the years ended September 30, 2021 and 2020 was $5,184,000 and $5,491,000, respectively, and is included in depreciation and amortization expense in the accompanying consolidated statements of operations. There are no expected residual values related to these intangible assets.

Estimated amortization expense for each future fiscal year of intangible assets is as follows (in thousands):

Years ending September 30,	
2022	$ 3,395
2023	2,875
2024	2,875
2025	2,875
2026	2,435
Thereafter	415
	$ 14,870

The weighted-average remaining useful life for the intangible assets was approximately five years as of September 30, 2021.

MPT CONFIDENTIAL MPT_PROSPECT_00010148

7. Related Party Transactions

Jeereddi Prasad, M.D., was a shareholder of Ivy Holdings, a director of Ivy Holdings and the Company, through June 1, 2021, and is an officer of the Upland Medical Group, a Professional Medical Group and Pomona Valley Medical Group, Inc. (collectively "ProMed Entities"), which has ownership interests in physician medical groups that provide medical services to ProMed members, including Chaparral Medical Group, Inc., (in which the Company beneficially owns a 13.2% interest). For the period from October 1, 2020 to June 1, 2021 (date of Chamber Transaction - see Note 11) and for the year ended September 30, 2020, the ProMed Entities paid these groups approximately $16,439,000 and $19,998,000. As of September 30, 2020, the Company had accounts payable and other accrued liabilities due to these related parties of $731,000, respectively. Such transactions continue after the Chamber Transaction.

Pursuant to a Management Services Agreement, dated December 15, 2010 and amended on May 3, 2012 (the "LGP Management Agreement"), between the Company and Leonard Green & Partners, L.P. ("LGP"), a private equity fund with affiliated funds that collectively constituted the majority shareholder of Ivy Holdings, LGP provided to the Company, (a) certain investment banking services, (b) management, consulting and financial planning services and (c) financial advisory and investment banking services in connection with major financial transactions from time to time. In connection with the Chamber Transaction (see Note 11), the LGP Management Agreement was terminated on June 1, 2021. In consideration for the services provided by LGP under the LGP Management Agreement, the Company paid LGP an annual fee of $1,000,000, payable in monthly installments, and reimbursed LGP for its related expenses up to $50,000 annually. The Company ceased accruing LGP monthly fees in March 2020.

During the year ended September 30, 2021, the Company paid a dividend of approximately $11.9 million (see Note 11). There were no dividends paid during the year ended September 30, 2020.

The Company is a wholly owned indirect subsidiary of Chamber. Therefore, Chamber is the parent of an affiliated group of corporations within the meaning of Section 1504(a) of the Internal Revenue Code of 1986. On December 15, 2010, Ivy Holdings, Ivy Intermediate and the Company entered into a Tax Sharing Agreement. The Tax Sharing Agreement allows the Company to make payments to Chamber as necessary to fund their payment of any required taxes incurred due to such parent status. Under this agreement, the Company received refunds (net of payments) of $(519,000) and $(397,000) for the years ended September 30, 2021 and September 30, 2020, respectively.

8. Income Taxes

The components of the income tax (benefit) provision are as follows (in thousands):

Year Ended September 30,	2021	2020
Current:		
Federal	$ -	$ (8,944)
State	(2,206)	1,874
	(2,206)	(7,070)
Deferred:

State	-	-
	-	-
Total:		
Federal	(2,206)	(8,944)
State	-	1,874
	$ (2,206)	$ (7,070)

Temporary differences and carry forward items that result in deferred income tax balances as of September 30, are as follows (in thousands):

September 30,	**2021**	2020
Deferred tax assets:		
Accrued medical claims	$ **6,233**	$ 8,038
Malpractice reserves	**7,009**	4,013
Accounts receivable	**21**	723
Accrued salaries & wages	**16,201**	13,936
Pension obligation	**70,856**	58,511
Net operating losses and 163j	**142,315**	100,061
Tax Credits	**1,045**	2,350
Other comprehensive income	**14,753**	(297)
Lease liability	**125,159**	128,496
Deferred revenue	**1,039**	5,720
Deferred FICA tax	**7,215**	7,016
Deferred tax assets	**391,846**	328,567
Valuation allowance	**(307,973)**	(246,584)
Net deferred tax assets	**83,873**	81,983
Deferred tax liabilities:		
Property, plant & equipment	**(75,261)**	(71,010)
Intangible assets	**(3,939)**	(5,834)
Prepaid expenses	**(2,840)**	(2,830)
Outside basis differences	**(905)**	(1,920)
UTP & other	**(928)**	(389)
Deferred tax liabilities	**(83,873)**	(81,983)
Net deferred tax assets	$ **-**	$ -

Deferred tax assets and liabilities reflect the effect of temporary differences between the assets and liabilities recognized for financial reporting purposes and the amounts recognized for income tax purposes.

Management assesses the available positive and negative evidence to estimate whether sufficient future pretax income will be generated to permit use of the existing deferred tax assets. A significant piece of objective negative evidence evaluated was the cumulative pretax losses incurred over the three-year period ended September 30, 2021. Such objective evidence limits the ability to consider other subjective evidence, such as the Company's projections for future growth. Based on this evaluation, at September 30, 2021 and 2020, a valuation allowance of approximately $308.0 million and $246.5 million, respectively, was recorded. The amount of the deferred tax asset considered realizable, however, could be adjusted if estimates of future taxable income during the carryforward period are reduced or increased or if negative objective evidence in the form of cumulative losses is no longer present and additional weight is given to subjective evidence such as the Company's projections for growth.

A consolidated federal tax return is filed for Chamber, Inc., with the exception of Nuestra Familia Medical Group Inc., ("Nuestra"), which files its own federal tax returns. The Company files combined state tax returns for California, Texas, Rhode Island, Connecticut, New Jersey and file separate state returns for Pennsylvania and Florida. The Company's filed tax returns are generally subject to examination by the IRS and state tax boards for 3 to 4 years.

As of September 30, 2021, the Company has net operating loss ("NOL") carryforwards for federal purposes of $197 million and various states of $922 million. The federal NOL carryforwards begin to expire in fiscal year 2039 and the state NOL carryforwards begin to expire in fiscal year 2022. We believe that it is more likely than not that the benefit from federal and state carryforwards will not be realized. In recognition of this risk, we have provided a valuation allowance on the deferred tax assets related to these NOL carryforwards. Utilization of the net operating loss carryforwards may be subject to an annual limitation due to the ownership change limitations provided by the Internal Revenue Code of 1986, as amended (the "Code"), and similar state provisions. Any annual limitation may result in the expiration of net operating losses before utilization.

The Company's tax years 2017 through 2019 are open for federal income tax examination, and generally the states are open for tax years 2016 through 2019. The Company is under examination by the California Franchise Tax Board (FTB) for tax year ended September 30, 2017. During fiscal year ended September 30, 2021, the Company received a closing letter for the tax years ended September 2014 through 2016 from the California FTB auditor. In addition to finalizing the audit, the FTB allowed the inclusion of Prospect Medical Group, Inc & Subsidiaries and New Genesis Medical Associates, Inc. & Subsidiaries in the California unitary group filed by Ivy Holdings, Inc & Subsidiaries. An incremental benefit of $4.1 million was recorded to income tax receivable in the current period for the refund expected as a result of the audit close. For the period ended September 30, 2021 and 2020, the Company recorded a liability in the amount of $5.7 million and $4.1 million respectively, related to uncertain tax positions ("UTP") with respect to California Unitary Combined Filing for Fiscal year 2017 through 2021, which was recorded in other long-term liabilities in the accompanying consolidated balance sheets.

The Company has evaluated the CARES Act and does not expect the legislation to have a significant impact on the effective tax rate or the income tax payable of the Company.

The differences between the income tax provision at the federal statutory rate and that reflected in the accompanying consolidated statements of operations are summarized as follows:

Years Ended September 30,	**2021**	2020
Tax provision at statutory rate	**21%**	21%
State taxes, net of federal benefit	**14%**	20%
Return to provision adjustments	**-%**	11%
Goodwill amortization	**(4)%**	(8)%
Deferred tax adjustments	**1%**	8%
Valuation allowance	**(32)%**	(39)%
UTP	**(1)%**	(5)%
Change in State Tax Rate	**5%**	1%
Other	**(2)%**	-%
	2%	9%

9. Debt

Debt consists of the following (in thousands):

September 30,	2021	2020
MPT TRS loan *(1)*	$ 98,606	$ 105,508
MPT Foothill loan *(1)*	51,267	51,267
Sale-leaseback financing obligations	21,935	31,401
Other debt *(2)*	11,907	21,163
Total debt	183,715	209,339
Less: current maturities	(16,032)	(19,138)
Debt, net of current maturities	$ 167,683	$ 190,201

(1) See Note 10 for more information related to MPT sale-leaseback transactions.
(2) Other debt is comprised of building, equipment and software loans.

Senior Secured and Revolving Credit Facilities

On February 22, 2018, the Company entered into an ABL Credit Agreement (the "ABL Agreement"), by and among the Company (as the borrower), the lenders party thereto and JPMorgan Chase Bank, N.A. ("JPMorgan"), as administrative agent and collateral agent. Under the ABL Agreement, the initial maximum revolving commitment was $250.0 million with ability to expand the facility to $325.0 million (the "ABL Facility"), and the ABL facility bears interest at a variable base rate plus an applicable spread that is based on excess availability under the ABL Facility, as further described in the ABL Agreement, which was 3.75% and 4.0% as of September 30, 2021 and 2020, respectively. Through various amendments and the sale of Nix Health, the maximum commitment under the ABL Agreement was $275.0 million at September 30, 2021. This commitment will decrease by $15.0 million in the month after the sale of EOGH and by a further $10.0 million when the remaining building at Nix Health is sold. In January 2020, the maximum revolving commitment under the ABL Agreement decreased by $10.0 million to $275.0 million in connection with the sale of the acute care hospital building at Nix Health in December 2019.

The ABL Facility matures on February 22, 2023. As of September 30, 2021 and 2020, the outstanding balance on the ABL facility was $45.0 million and $0, respectively, and the available balance was $190.7 million and $210.8 million, respectively.

The ABL Facility is secured by a first priority security interest on the working capital assets of the Company and its wholly owned subsidiaries except Prospect Health Plan, Inc., CHIC, RRG, Prospect Health Access Network, Inc. and certain immaterial subsidiaries and a second priority security interest on their fixed assets. The ABL Agreement does not have any financial maintenance covenants. The ABL Agreement has a "springing" fixed charge ratio covenant that applies if excess availability is less than the greater of 10% of the maximum borrowing amount and $22,000,000. The fixed charge ratio covenant was not required to be tested for the fiscal quarter ended September 30, 2021.

Effective August 16, 2021, the Company entered into an amendment on its ABL Agreement to increase the aggregate letter of credit availability from $60 million to $80 million.

MPT CONFIDENTIAL MPT_PROSPECT_00010153

Scheduled payments under the Company's debt, current portion and debt, net of current portion as of September 30, 2021 are as follows (in thousands):

Years ending September 30,	
2022	$ 16,032
2023	15,104
2024	9,135
2025	9,404
2026	13,947
Thereafter	120,093
Total scheduled payments	183,715
Less: Current maturities	(16,032)
Total debt	$ 167,683

10. Transactions with MPT

On August 23, 2019, the Company closed a series of transactions with affiliates of Medical Properties Trust, Inc. ("MPT"), a publicly traded Real Estate Investment Trust ("REIT"). Under these transactions, the Company sold to MPT the Company's hospital buildings in California (excluding Foothill Regional Medical Center ("Foothill")), Connecticut and Pennsylvania for an aggregate purchase price of $1,386,000,000. Concurrent with the sale transactions, the Company entered into two master lease agreements whereby the hospital properties and related medical office buildings were leased back for an initial 15 year term, with options to extend twice for an additional 5 years each and for a further 4.75 year extension. Monthly rent is defined as 7.5% of the lease base, subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. For the first master lease, the Company has the option to buy the properties at their fair value at the end of the lease term. For the second master lease, the Company has the option to purchase at a price that is fixed at the time of entering into the lease (the "Option Price"). If the Company chooses not to exercise this option, and the fair value at the end of the lease is below the Option Price, then the Company must pay MPT a sum equal to the difference between the fair value and the Option Price. These transactions do not qualify for sale leaseback accounting because of the Company's deemed continuing involvement with the buyer-lessor, including the requirements to pay reserves for major repairs, and the option to purchase included in the lease, which are considered a form of contingent collateral and results in the transaction being recorded under the financing method. All of the legal entities that are parties to the master lease agreement (which are the hospital entities in California, Connecticut and Pennsylvania) provide cross guarantees on all of the obligations to MPT, which guarantees include both lease payments under the master lease as well as indebtedness due to MPT. As of September 30, 2021 and 2020, the balances due under the leases are approximately $1,291,326,000 and $1,338,040,000, respectively, and are reflected in MPT liabilities in the accompanying consolidated financial statements.

Further, MPT provided the Company with a $51,266,700 mortgage on the Foothill property. This mortgage is secured by the buildings at Foothill. The interest on this mortgage is 7.5% per annum and is subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. The maturity date of this loan is in August 2034. MPT can purchase the property on event of default or at end of term. The Company is required to provide MPT with the option to purchase the Foothill property and lease it back to the Company under the second master lease agreement, for an amount equal to the outstanding principal balance. As of September 30, 2021, and subject to any subsequent extension from MPT, the Company has until December 31, 2021 to offer this right to MPT. As of September 30, 2021 and 2020, the balances due under the promissory note payable to MPT are $51,267,000 and $51,267,000,

MPT CONFIDENTIAL MPT_PROSPECT_00010154

respectively, and are reflected in long term debt in the accompanying consolidated financial statements (see Note 9).

Additionally, the Company entered into a promissory note (the "TRS Note"), under which MPT has advanced to the Company $112,937,000. The interest on this note is 7.5% per annum and is subject to annual escalation of the consumer price index, limited to a minimum of 2% and a maximum of 4%. The maturity date of this note was originally scheduled to be the earlier of July 2022 or, if it occurs, a sale-leaseback of the properties in Rhode Island. In connection with the Chamber Transaction, and the approval of such transaction by the Rhode Island Attorney General, the maturity date of the TRS Note was extended to April 30, 2026. A sale-leaseback of the properties in Rhode Island is prohibited to occur before the extended maturity date. As of September 30, 2021 and 2020, the balances due under this note are $98,606,000 and $105,508,000, respectively, and are reflected in long term debt in the accompanying consolidated financial statements (see Note 9).

All of the agreements referenced in this footnote are cross-collateralized and cross defaulted among the parties and the assets included therein (which do not include any of the hospital operating entities or real properties in Rhode Island, Texas or New Jersey). Based on annualized Adjusted EBITDAR (as defined) achieved over the three years from the transaction date, additional amounts between $50 million to $250 million will be payable to the Company. As of September 30, 2021, there has been no accounting for these amounts in the consolidated financial statements.

The MPT transaction documents contain certain customary covenants and restrictions and a financial covenant based on EBITDAR performance. The Company was in compliance with all such covenants at September 30, 2021.

In connection with the transactions with MPT, the Company incurred deferred financing costs of $28,058,000. Amortization expense was approximately $1,970,000 and $1,933,000 during the year ended September 30, 2021 and 2020, respectively.

Interest expense under these agreements was $58,800,000 and $60,789,000 for the years ended September 30, 2021 and 2020, respectively.

See Note 13 for future minimum lease payments related to sale leaseback commitments as of September 30, 2021.

11. Stockholder's Equity

Chamber Transaction

In June 2021, Green Equity Investments V, LP, Green Equity Investments Side V, LP and other minority shareholders sold their shares of Ivy Holdings for a purchase price of approximately $11,900,000. As a result of the sale, the Company became indirectly wholly-owned by two shareholders that were previously the two largest individual shareholders in Ivy Holdings. The transaction, among other things, (i) merged Ivy Holdings with Chamber Merger Sub Inc., a wholly-owned subsidiary of Chamber Inc. ("Chamber") which is owned by the referenced two ultimate shareholders, and Ivy Holdings, as the surviving entity in such merger, became a wholly-owned direct subsidiary of Chamber, (ii) bought out all of the other stockholders of Ivy Holdings, (iii) terminated all stock options that have not previously been exercised.

Equity Based Compensation Plans

In December 2010, the Board of Directors of Ivy Holdings adopted the Ivy Plan that initially authorized the issuance of options exercisable for up to 155,110 shares of the common stock of Ivy Holdings ("Initial Options") to employees, certain consultants and independent members of the boards of directors, of Ivy Holdings and its subsidiaries (including the Company and its subsidiaries). These options were exercisable into Ivy Holdings stock and vested based on a number of criteria, including time, Company and Business Unit performance based on EBITDA targets and CEO and Compensation Committee discretion. Since the Ivy Holdings stock options were granted to Company employees for their services related to the Company, the related compensation cost has been recorded in the Company's consolidated financial statements. In June 2015, the Board of Directors of Ivy Holdings adopted the First Amendment to the Ivy Plan. Under the First Amendment, and subsequent amendments, a further 63,704 shares of common stock of Ivy Holdings ("New Options") could be issued.

The New Options were exercisable into Ivy Holdings stock and vested based on a number of criteria, including the same criteria as the Initial Options. However, they only became exercisable on the occurrence of certain corporate transactions, including a change in control of Ivy Holdings, as defined in the Incentive Stock Option Agreements. At the time that the Merger Agreement was executed, all options were "underwater." Accordingly, the Company determined to terminate these options and not allow them to be exercised, prior to the Chamber Transaction occurring. In May 2021, the Board of Directors agreed to terminate the options on the Effective Date, as defined in the Merger Agreement. As no options had been granted or vested during the years ended September 30, 2021 and 2020, no compensation cost has been recorded in the Company's consolidated financial statements for the years then ended.

In connection with a dividend paid to shareholders on February 22, 2018, the Board of Directors of Ivy Holdings approved special cash payouts in the amount of approximately $33 million in bonus payments to stock option holders. The approval provided that any bonus with respect to an unvested portion of an option would be payable upon the date such unvested portion becomes vested and exercisable, subject to the optionee's continued employment with Prospect through such date. At September 30, 2020, approximately $2.2 million had been accrued for bonuses in connection with such options that had previously vested, and this was paid in June 2021, in connection with the Chamber Transaction. Additionally, certain option holders that held unvested options at February 22, 2018 were entitled to a cash payment on the occurrence of certain corporate transactions, provided they remained employed by the Company at that time. Cash payments of approximately $4.1 million were made to those employees were made in June 2021. This amount was recorded as an expense during the year ended September 30, 2021.

Dividends

The Company distributed approximately $11.9 million in connection with the Chamber Transaction during the year ended September 30, 2021, which was recorded against retained earnings, and was ultimately paid to the common stockholders of Ivy Holdings, Inc. There were no distributions during the year ended September 30, 2020.

MPT CONFIDENTIAL MPT_PROSPECT_00010156

12. Retirement Benefits

The Company sponsors various employee non-contributory, defined benefit pension plans (the "DB Plan") covering certain full-time employees of Crozer, ECHN and Waterbury.

In connection with the acquisition of Crozer, its plan was frozen with all benefits accruals ceased as of July 1, 2016. With respect to each Represented Employee who is a member of the Laborers' International Union of North America, the Monthly Compensation (as defined), the Credited Service (as defined), the Eligibility Service (as defined) and the accrued benefit was frozen and determined as of July 1, 2016. No benefits accrue since that date. The plan was amended to provide for determination of Vesting Service (as defined) for employees who were employed with the Company before July 1, 2016, such that years of service shall include all periods of employment completed on and after July 1, 2016, subject to the Break in Service rules (as defined). The plan was further amended on September 3, 2016 to provide certain Qualifying Participants (as defined) the right to make a Special Benefit Election (as defined) during "2016 Lump Sum Option Window" period from October 15, 2016 through November 30, 2016 to receive or commence receiving his or her vested Accrued Benefit as of December 1, 2016 in accordance with procedures adopted by the Committee. Further, the Company will adopt a plan amendment to terminate the plan effective within such five year period and will liquidate, fully fund and satisfy, and pay all benefits owed to participants and beneficiaries of the plan by providing lump sum distributions to participants, purchasing annuities for participants who do not elect a lump sum distribution, subject to applicable filing and authorization by the applicable government agency or entity. The five-year period can be extended in the event certain discount rates fall below certain defined thresholds. Presently the discount rates are below those thresholds and the Company intends to delay the termination of the Crozer DB plan.

Crozer also sponsors a postretirement benefit program (the "OPEB Plan") which is an unfunded medical care and life insurance benefit program, and a supplemental executive retirement plan (the "SERP Plan") which is an unfunded retirement plan that covers a group of current and former executives. These plans were frozen and all benefit accruals ceased as of July 1, 2016. No benefits will accrue since that date. The SERP plan was terminated and all funds paid out. With respect to each Represented Employee who is a member of the Laborers' International Union of North America, benefits will continue to accrue until a settlement of an ongoing union contract negotiation is reached for the OPEB Plan.

ECHN sponsors a DB Plan that covered substantially all of its employees. The benefits were based upon years of service and compensation for the five highest years during the employee's last 10 years of service. On December 31, 2008, ECHN implemented a soft freeze on the plan. All qualified employees were eligible to enter into the defined contribution plan, ECHN contributed 3% of eligible employees' salaries. This contribution was non-guaranteed for all employees, except certain union workers covered under a collective bargaining agreement. Effective December 31, 2013, ECHN froze the plan for all remaining participants. During September 2013, the Board passed a resolution to freeze all benefits related to the plan.

ECHN also sponsors an OPEB Plan that provides health care benefits to vested, retired employees, who are age 55 or older and start collecting under the defined benefit plan described above once retired. The retiree must be enrolled into the medical plan on the date of retirement to be eligible for the continuation. Full-time registered nurse retirees from ECHN's Manchester facility (retired prior to October 1, 2005 and were eligible per the collective bargaining agreement) were grandfathered and required to pay at least 50% of the total cost of the medical and dental coverage they elect for themselves under the OPEB Plan.

Waterbury has a noncontributory defined benefit cash balance plan. The plan was frozen to non-union participants effective June 30, 2015. Participants who are part of the Connecticut Healthcare Associates Technical Unit remain active in the plan. Non-union employees no longer accrue additional employer contribution credits in the plan. These participants will continue to receive interest credits based on their account balances in accordance with the terms of the plan. They will be entitled to their account balance (the retirement benefit they have earned up to June 30, 2015) plus applicable interest credits after the Plan were frozen.

For all plans, the Company has made contributions sufficient to meet the minimum funding requirements of applicable laws and regulations.

The activity of the pension plans for the years ended September 30, 2021 and 2020 is as follows (in thousands):

September 30,	**2021**	2020
Changes in benefit obligations		
Projected benefit obligations, beginning of period	**$ 797,145**	$ 768,614
Service cost	**126**	184
Interest cost	**22,527**	24,457
Plan participant contributions	**-**	187
Actuarial loss	**(1,879)**	32,994
Benefits paid	**(24,780)**	(28,822)
Lump sum benefits paid and annuity purchase	**(19,266)**	(469)
Projected benefit obligation, end of year	**$ 773,873**	$ 797,145
Changes in plan assets		
Fair value of plan assets, beginning of year	**$ 559,213**	$ 460,688
Actual return on plan assets	**(40,002)**	56,532
Contributions by plan sponsor	**8,297**	71,097
Plan participant contributions	**-**	187
Benefits paid	**(24,780)**	(28,822)
Lump sum benefits paid and annuity purchase	**(19,266)**	(469)
Fair value of plan assets, end of year	**$ 483,462**	$ 559,213
Funded status of the plan, end of year	**$ (290,411)**	$ (237,932)
Accumulated benefit obligation, end of year	**$ (290,411)**	$ (237,932)

The funded status of the pension plans as of September 30, 2021 and 2020 is as follows (in thousands), split between the pension plans and the post retirement plans:

	2021 Pensions	**2021 OPEBs**	**2021 Total**	2020 Pensions	2020 OPEBs	2020 Total
Current liability	**$ -**	**$ 430**	**$ 430**	$ -	$ 440	$ 440
Non-current liability	**284,674**	**5,307**	**289,981**	231,941	5,551	237,492
	$ 284,674	**$ 5,737**	**$ 290,411**	$ 231,941	$ 5,991	$ 237,932

MPT CONFIDENTIAL

The components of net periodic benefit cost for the years ended September 30, 2021 and 2020 are as follows (in thousands):

September 30,	2021	2020
Components of net periodic benefit cost:		
Service cost	$ 126	$ 184
Interest cost	22,527	24,457
Expected return on plan assets	(10,292)	(15,202)
Amortization of net loss	8	38
Effect of settlement	723	-
Amortization of prior service credit	(51)	(51)
Total net periodic benefit cost	$ 13,041	$ 9,426

Service cost is recorded in Hospital operating expenses on the consolidated statements of operations. All other components of net periodic benefit costs are recorded in other expense on the consolidated statements of operations.

	2021	2020
Other change in benefit obligations recognized in accumulated other comprehensive income:		
Loss due to participant experience	$ 143	$ 1,167
Amortization of net gain	(8)	(19)
Asset return loss (gain)	48,272	(9,523)
Prior service cost	51	51
Amount recognized due to settlement	(723)	-
Total recognized in other comprehensive loss (income) and accumulated other comprehensive loss (income)	$ 47,735	$ (8,324)

The assumptions used in determining the actuarial present value of the projected benefit obligations for pension plans as of September 30, 2021 and 2020 and for the years then ended are as follows:

	2021	2020
Weighted average assumptions used to determine benefit obligations at end of period		
Discount rate	2.65-3.01%	2.34-2.97%
Rate of compensation increase	0.00-2.00%	0.00-2.00%
Weighted average assumptions used to determine net periodic benefit cost for the period ended		
Discount rate	2.55-2.97%	2.92-3.31%
Rate of compensation increase	0.00-2.00%	0.00-2.00%
Expected return on the plan assets	0.00-3.25%	0.00-4.75%

MPT CONFIDENTIAL

Assumed health care cost trend rates for the next period used to measure the expected cost of benefits covered by the plan are as follows:

	2021	2020
Health care trend rate assumed for next year	**7.00%**	6.75%
Rate to which the cost trend is assumed to decline (the ultimate rate)	**3.25%**	4.75%
Year that the rate reaches the ultimate trend rate	**2029**	2028

Assumed health care cost trend rates have a significant effect on amounts reported for other postretirement benefit programs. A one-percentage-point change in assumed health care cost trends would have the following effects (in thousands):

	1% Increase	1% Decrease
Effect on other postretirement benefit obligations	$ 116	$ 106
Effect on total of service and interest cost components	$ 3	$ 3

The asset allocation percentage by major asset class for the plans and the target allocation for 2021 follows:

	Target	2021
Asset class:		
Cash and cash equivalents	0% -20%	1%
Fixed income	10% - 100%	97%
Alternative investments and hedge funds	0% - 30%	2%
		100 %

The investment objectives of the plans are to invest consistently with the fiduciary standards of ERISA, to provide for the funding and anticipated withdrawals on an ongoing basis, conserve and enhance the capital value of the plans in real terms while maintaining a moderate risk profile, to minimize principal fluctuations over the investment cycle, and achieve a long-term level of return commensurate with contemporary economic conditions. The expected long-term rate of return with respect to the plans is based on an aggregate of expected capital market returns within each asset category.

The following tables set forth the assets in the plans measured at fair value, by input level (in thousands):

September 30, 2021	Level 1	Level 2	Level 3	Net asset value	Total
Fixed income securities:					
Short-Term Duration	$ -	$ 40,502	$ -	$ -	$ 40,502
Extended Duration	-	201,527	-	-	201,527
Interim Duration	-	60,320	-	-	60,320
Long-Term Duration	-	166,901	-	-	166,901
Real estate	-	-	928	-	928
Alternative investments	-	-	10,423	-	10,423
Cash and cash equivalents	-	-	-	2,861	2,861
Total	$ -	$ 469,250	$ 11,351	$ 2,861	$ 483,462

September 30, 2020	Level 1	Level 2	Level 3	Net asset value	Total
Fixed income securities:					
Short-Term Duration	$ -	$ 41,769	$ -	$ -	$ 41,769
Extended Duration	-	231,197	-	-	231,197
Interim Duration	-	59,346	-	-	59,346
Long-Term Duration	-	210,351	-	-	210,351
Real estate	-	-	555	-	555
Alternative investments	-	-	13,142	-	13,142
Cash and cash equivalents	-	-	-	2,853	2,853
Total	$ -	$ 542,663	$ 13,697	$ 2,853	$ 559,213

Pension plan assets classified as Level 3 in the fair value hierarchy represent investments in which the trustee has used significant unobservable inputs in the valuation model. The hedge funds consist of equity/long/short funds and multi-strategy funds in which fair values have been estimated using the net asset value per share of the investment. The alternative investments primarily consist of investments in limited partnerships that invest in the Public-Private Investment Program which fair values have been estimated using the net asset value per share of the investment.

On an annual basis, the Company assesses the valuation hierarchy for pension assets recorded at fair value. From time to time, assets will be transferred within the fair value hierarchy as a result of changes in, among other things, inputs used, liquidity, or valuation methodologies. During the years ended September 30, 2021 and 2020, there were no transfers in classification within the fair value hierarchy. The following table is a rollforward of the plans' assets classified within Level 3 of the fair value hierarchy (in thousands):

September 30,	2021	2020
Balance, beginning of year	$ 13,697	$ 18,865
Actual return on plan assets:		
Unrealized loss	(2,346)	(5,168)
Balance, end of year	$ 11,351	$ 13,697

MPT CONFIDENTIAL MPT_PROSPECT_00010161

The expected long-term future benefit payments to retirees with respect to the plans and are as follows (in thousands):

2022	$	51,580
2023		44,940
2024		45,140
2025		45,270
2026		45,887
2027 - 2031		220,580
	$	453,397

Waterbury participates in multi-employer pension plans that cover substantially all union employees. Contributions to the plans are based upon a percentage of each participant's total salary. The risks of participating in these multi-employer plans are different from single employer plans in the following aspects:

- Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of another participating employer.
- If a participating employer stops contributing to the plan, the unfunded obligation of the plan may be borne by the remaining participating employers.
- If Waterbury chose to stop participating in the multi-employer plans, Waterbury may be required to pay those plans an amount based on the underfunded status of the plans, referred to as a withdrawal liability.

The following table presents Waterbury's participation in these plans as of and for the years ended September 30, 2021 and 2020.

Pension Trust Fund	EIN / Pension Plan	Pension Protection Act ("PPA") Certified Zone Status *(1)*		FIP / RP Status Pending / Implemented *(2)*	Contributions		Surcharge Imposed	Exp. Date of CBA
		2021	2020		2021	2020		
Connecticut Health Care Associates Pension Fund	06-1313462	Red	Red	Implemented	**$ 2,168,769**	$ 2,024,000	No	7/1/22
New England Health Care Employees Pension Fund	22-3071963	Green	Green	NA	**783,560**	818,000	No	3/15/25
Total contributions					**$ 2,952,329**	$ 2,842,000		

MPT CONFIDENTIAL MPT_PROSPECT_00010162

(1) The most recent PPA zone status available in 2021 is for the plan's year-ending during 2020. The zone status is based on information received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the orange zone are less than 80 percent funded and have an accumulated funding deficiency in the current year or projected in the next six years, plans in the yellow zone are less than 80 percent funded, and plans in the green zone are at least 80 percent funded.

(2) The "FIP/RP Status Pending/Implemented" column indicates plans for which a financial improvement plan ("FIP") or a rehabilitation plan ("RP") is either pending or has been implemented. As it relates to the Connecticut Health Care Associates ("CHCA") Pension Plan, the trustees adopted a Rehabilitation Plan on May 7, 2018. The Rehabilitation Period, as defined, commenced on January 1, 2019 and ends on December 31, 2028. The trustees updated the Rehabilitation Plan on December 12, 2019 which reflects various reductions to plan benefits effective January 1, 2020.

During the years ended September 30, 2021 and 2020, Waterbury's contributions to the CHCA Pension Plan and the New England Health Care Employees Pension Plan represented 81.9% and 2.5% and 80.1% and 2.5% of the total contributions made to the plans by all participating employers, respectively.

Governmental regulations impose certain requirements relative to union-sponsored pension plans. In the event of plan termination or employer withdrawal, an employer may be liable for a portion of the plan's unfunded vested benefits. As of September 30, 2021, Waterbury has not recorded any liabilities for future withdrawal obligations related to the multi-employer plans.

Defined contribution plans

The Company sponsors two defined contribution plans covering substantially all employees who meet certain eligibility requirements, which are segregated between union and non-union employees. Under these plans, employees can contribute up to 50% of their compensation up to the IRS deferred annual maximum. There is currently no company match offered under the plans, except at certain facilities in Rhode Island and Pennsylvania, for which the expense for the employer match was $16,070,000 and $17,778,000 for the years ended September 30, 2021 and 2020, respectively.

13. Commitments and Contingencies

Leases

The Company leases various office facilities and equipment from third parties under non-cancelable operating and capital lease arrangements expiring at various dates through 2034. Certain operating leases contain rent escalation clauses and renewal options, which have been factored into determining rent expense on a straight-line basis over the lease terms. Capital leases bear interest at rates ranging from 1.3% to 41.0% per annum.

MPT CONFIDENTIAL MPT_PROSPECT_00010163

The future minimum annual lease payments required under leases in effect at September 30, 2021, are as follows (in thousands):

For the Years ending September 30,	Capital Leases	Operating Leases	MPT Liability*
2022	$ 16,874	$ 25,525	$ 107,803
2023	14,849	24,101	109,959
2024	13,090	21,751	112,158
2025	9,777	19,702	114,401
2026	6,216	18,611	116,689
Thereafter	19,619	26,733	1,165,800
Total minimum lease payments	80,425	$ 136,423	1,726,810
Less: amounts representing interest	(17,384)		(482,660)
Add: amounts representing land	-		47,176
	63,041		1,291,326
Less: current portion	(12,947)		(50,978)
	$ 50,094		$ 1,240,348

* *Excludes debt related to the Foothill and TRS Notes with MPT (see Note 10).*

Rent expense related to operating leases for the years ended September 30, 2021 and 2020 was approximately $39,350,000 and $51,246,000, respectively. Sublease rental income was not material to the consolidated financial statements for the years ended September 30, 2021 and 2020.

Litigation

The Company is subject to a variety of claims and suits that arise from time to time in the ordinary course of its business, acquisitions, or other transactions. While the Company's management currently believes that resolving all of these matters, individually or in the aggregate, will not have a material adverse impact on the Company's consolidated financial position or results of operations, the litigation and other claims that the Company faces are subject to inherent uncertainties and management's view of these matters may change in the future. Should an unfavorable final outcome occur, there exists the possibility of a material adverse impact on the Company's consolidated financial position, results of operations and cash flows for the period in which the effect becomes probable and reasonably estimable.

Seismic Standards

The Company's California Hospitals (with the exception of Bellflower and Van Nuys, which currently only provide psychiatric services) are required to comply with laws that regulate the seismic performance of all aspects of hospital facilities in California and imposes near-term and long-term compliance deadlines for seismic safety assessment, submission of corrective plans, and retrofitting or replacement of medical facilities to comply with current seismic standards. These laws and regulations require hospitals to meet seismic performance standards to ensure that they are capable of providing medical services to the public after an earthquake.

MPT CONFIDENTIAL MPT_PROSPECT_00010164

The Company was required to conduct engineering studies at its hospitals to determine whether and to what extent modifications to the hospital facilities will be required. Two buildings at Southern California Hospital at Culver City ("SCH Culver City") do not currently meet the applicable seismic requirements. These buildings are currently classified at Structural Performance Category 1 ("SPC-1") and, subject to possible deadline extensions discussed below, they must be upgraded to at least SPC-2 by July 1, 2022. That deadline date was set pursuant to an extension granted upon the Company's application submitted in accordance with California Senate Bill 90 and approved by the Office of Statewide Health Planning and Development ("OSHPD").

OSHPD has a voluntary program to re-evaluate the seismic risk of hospital buildings classified as SPC-1. These buildings are considered hazardous and at high risk of collapse in the event of an earthquake and they were required to be retrofitted, replaced or removed from providing acute care services by the applicable deadline. OSHPD is using Hazards U.S. ("HAZUS"), a state-of-the-art methodology, to reassess the seismic risk of SPC-1 buildings. Once the SPC-1 buildings have been seismically upgraded to SPC-2, they are no longer considered a significant risk to occupants, but they may not be repairable or functional after an earthquake. Participation in the HAZUS program is optional for hospital owners wishing to have their SPC-1 buildings evaluated.

Applications for HAZUS evaluation of seismic risk were submitted for all five of the Company's California acute care facilities: Southern California Hospital at Hollywood ("SCH Hollywood"); SCH Culver City; Los Angeles Community Hospital; Los Angeles Community Hospital at Norwalk ("LACH Norwalk"); and Foothill. All buildings at these five facilities obtained SPC-2 reclassification using HAZUS, except for the aforementioned two buildings at SCH Culver City that are still classified as SPC-1. Currently, failure to obtain SPC-2 reclassification for the two remaining SPC-1 buildings by July 1, 2022 would mean that the buildings deemed non-compliant would be subject to daily fines up to $5,000 per day until retrofitted to SPC-2 standards or removed from acute care services.

Recently enacted Assembly Bill 2190 was utilized to request additional extension. OSHPD granted extensions to June 1, 2022 and February 25, 2022 for the Tower Building and Pavilion Building at SCH Culver City. The construction was started in February 2020 for both buildings. SCH Culver City is evaluating pursuing an alternate "replacement" scheme that would relocate the Emergency department into the adjoining One-Story Building which currently classified as an SPC-2 structure. The Tower Building would be retained as a "non-hospital" OSHPD building useable for non-acute care services such as behavioral health and subacute/skilled nursing services.

The Company will also be required to make significant capital expenditures in the future to comply with 2030 seismic standards (i.e., upgrade to SPC-4D and NPC-4D/5) for any buildings that will be utilized for hospital facilities beyond January 1, 2030. Such modifications to the hospital facilities could potentially result in environmental remediation liabilities which may be material to the Company.

These requirements can result in significant operational changes and capital outlays. Management is continuing to assess its options and the methods of financing the required retrofits. Based on management's evaluation, the costs of renovation needed to comply with the California seismic safety standards for its acute-care facilities, including asbestos abatement, are not estimable at this time.

Legislation and HIPAA

The healthcare industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and

regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

The Company believes that it is in compliance with fraud and abuse regulations as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

The Health Insurance Portability and Accountability Act ("HIPAA") assures health insurance portability, reduces healthcare fraud and abuse, guarantees security and privacy of health information, and enforces standards for health information. The Health Information Technology for Economic and Clinical Health Act ("HITECH Act") expanded upon HIPAA in a number of ways, including establishing notification requirements for certain breaches of protected health information. In addition to these federal rules, California has also developed strict standards for the privacy and security of health information as well as for reporting certain violations and breaches. The Company may be subject to significant fines and penalties if found not to be compliant with these state or federal provisions.

Collective Bargaining Agreements

As of September 30, 2021, the Company had approximately 17,000 employees, of whom approximately 3,700 employees or 22% are represented by various labor organizations. Of those, approximately 3,300 employees or 19% of the Company's employees are employed under union contracts that have expired or will expire before September 30, 2022.

As of September 30, 2020, the Company had approximately 17,000 employees, of whom approximately 5,200 employees or 31% are represented by various labor organizations. Of those, approximately 700 employees or 4% of the Company's employees are employed under union contracts that have expired or will expire before September 30, 2021.

Tangible Net Equity ("TNE") Requirement

The Company's affiliated California physician organizations and licensed healthcare service plans may be subject to one or more of the following requirements: minimum working capital, Tangible Net Equity, cash-to-claims ratio and claims payment requirements as prescribed by the California Department of Managed Health Care ("DMHC"). TNE is defined as net assets, less intangibles and amounts due from affiliates, plus subordinated obligations. As of September 30, 2021, the Company's affiliated California physician organizations were in compliance with these regulatory requirements.

Employee Health Plans

The Company offers self-insured EPO/HMO and PPO plans to all eligible employees.

Employee health benefits are administered by a third party claims administrator, based on plan coverage and eligibility guidelines determined by the Company, as well as by collective bargaining agreements (as reflected above). All locations were covered by insurance policies with CHIC for per occurrence losses in excess of $350,000, except for Crozer for which the limit is $750,000. CHIC maintains reinsurance coverage above $500,000 for all locations except for Crozer, for which the limit is $750,000. Effective September 30, 2020, the CHIC policies were revised to only include the reinsurance coverage noted above. An actuarially and internally estimated liability of approximately $14,861,000 and $18,114,000 for incurred but not reported claims has been included in accrued salaries, wages, and benefits as of September 30, 2021 and 2020, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00010166

Provider Contracts

Many of the Company's payer and provider contracts are complex in nature and may be subject to differing interpretations regarding amounts due for the provision of medical services. Such differing interpretations may not come to light until a substantial period of time has passed following contract implementation. Liabilities for claims disputes are recorded when the loss is probable and can be estimated. Any adjustments to reserves are reflected in current operations.

PACE financing

In August 2019 the Company entered into an agreement with a third party that specializes in property assessed clean energy ("PACE") financing to finance approximately $49.0 million for qualifying renovations for the properties in California. The full amount of the funds was deposited into an escrow account managed by a third party administrator, less deductions for the first year of prepaid interest of approximately $3.2 million and deferred financing fees totaling approximately $2.6 million. The Company received cash from the escrow account of approximately $13.5 million which was used to refinance related completed qualifying expenditures under the PACE program and invoices for construction in progress that had been paid. The amount financed is subject to an annual interest rate of 6.0% and the financing has a maturity date of September 2, 2045. Payments are collected through property tax bills as a non-ad valorem assessment. Payments commenced in July 2020. At September 30, 2021, the Company had a related financing liability of approximately $34.5 million, of which $1.2 million and $33.3 million is classified within other current liabilities and other long-term liabilities, respectively, in the accompanying consolidated balance sheets. At September 30, 2020, the Company had a related financing liability of approximately $20.0 million, which is classified within other long-term liabilities in the accompanying consolidated balance sheets. At September 30, 2021, there was approximately $18.7 million left in escrow, required to be spent on qualifying renovations.

In May 2020, the Company entered into an agreement with a third party that specializes in PACE financing to finance approximately $42.0 million for qualifying renovations for the property in Rhode Island located at Roger Williams Medical Center. The full amount of the funds were deposited into an escrow account managed by a third party administrator, less deductions for deferred financing fees totaling approximately $2.7 million and lease payoffs of approximately $6.0 million. The Company received cash from the escrow account of approximately $14.9 million which was used to refinance related completed qualifying expenditures under the PACE program and invoices for construction in progress that had been paid. The amount financed is subject to an annual interest rate of 5.75% and the financing has a maturity date of April 30, 2045. Payments are collected through property tax bills as a non-ad valorem assessment. Payments commenced in July 2020. At September 30, 2021, the Company had a financing liability of approximately $32.0 million, of which $0.8 million and $31.2 million is classified within other current liabilities and other long-term liabilities, respectively, in the accompanying consolidated balance sheets. At September 20, 2020, the Company had a financing liability of approximately $26.5 million which is classified within other long-term liabilities in the accompanying consolidated balance sheets. At September 30, 2021, there was approximately $10.7 million left in escrow, required to be spent on qualifying renovations.

In January 2021, the Company entered into an agreement with a third party that specializes in PACE financing to finance approximately $18.0 million for qualifying renovations for the property in Rhode Island located at Our Lady of Fatima Hospital. The full amount of the funds were deposited into an escrow account managed by a third party administrator, less deductions for deferred financing fees totaling approximately $1.4 million. The Company received cash from the escrow account of approximately $2.9 million which was used to refinance related completed qualifying expenditures under the PACE program and invoices for construction in progress that had been paid. The amount financed is subject to an annual interest rate of 5.75% and the financing has a maturity date of July 31, 2046. Payments are collected

MPT CONFIDENTIAL MPT_PROSPECT_00010167

through property tax bills as a non-ad valorem assessment. Payments commenced in July 2021. At September 30, 2021, the Company had a financing liability of approximately $4.9 million, of which $0.3 million and $4.6 million is classified within other current liabilities and other long-term liabilities, respectively, in the accompanying consolidated balance sheets. At September 30, 2021, there was approximately $13.4 million left in escrow, required to be spent on qualifying renovations.

14. Accrued Medical Claims and Other Healthcare Costs Payable

The following table presents the roll-forward of incurred but not reported ("IBNR") claims reserves (Medical Group segment, Global Risk Management segment, and full risk contracts) as of and for each of the years ended September 30, 2021 and 2020 (in thousands):

September 30,	**2021**	2020
IBNR as of beginning of year	$ **76,457**	$ 72,508
Claim expenses incurred during the year:		
Related to current year	**352,288**	258,958
Related to prior year	**(6,715)**	(5,212)
Total incurred	**345,573**	253,746
Claims paid during the year:		
Related to current year	**(274,447)**	(192,609)
Related to prior year	**(53,881)**	(57,188)
Total paid	**(328,328)**	(249,797)
IBNR as of end of year	$ **93,702**	$ 76,457

Following is a table showing the details of the Medical Group and Global Risk Management segments cost of revenues per the consolidated statements of operations (in thousands):

Years Ended September 30,	**2021**	2020
Capitation expense	$ **133,786**	$ 97,903
Fee-for-service claims expense	**232,103**	142,971
Other physician compensation	**28,428**	29,628
Other cost of revenues	**17,255**	24,663
Total cost of revenues	$ **411,572**	$ 295,165

AMENDED AND RESTATED
MASTER RESTRUCTURING AGREEMENT
(Vista Investment)

THIS AMENDED AND RESTATED MASTER RESTRUCTURING AGREEMENT (this "Agreement") is made and entered into effective as of this 23rd day of May, 2023, by and among **PROSPECT MEDICAL HOLDINGS, INC.**, a Delaware corporation ("Prospect Medical"), **PHP HOLDINGS, LLC**, a Delaware limited liability company ("PHP Holdings"), **PROSPECT HEALTHCARE FACILITIES MANAGEMENT, LLC** f/k/a PHC HoldCo, Inc., a Delaware limited liability company ("ManageCo"), and each of their respective undersigned Affiliates (such Affiliates, together with Prospect Medical, PHP Holdings, and ManageCo, collectively, the "Prospect Parties") on the one hand, and **MPT PICASSO INVESTORS TRS, LLC**, a Delaware limited liability company ("MPT Picasso TRS"), and its undersigned Affiliates (such Affiliates, together with MPT Picasso TRS, collectively, the "MPT Parties") on the other hand. The Prospect Parties and the MPT Parties are herein sometimes referred to individually as a "Party" and collectively, as the "Parties".

W I T N E S E T H:

WHEREAS, the capitalized terms used in these recitals and throughout this Agreement have the respective meanings ascribed to them in the Glossary of Defined Terms attached hereto as ***ANNEX A***;

WHEREAS, (a) the Master Lease I Lessors and Master Lease I Lessees are parties to Master Lease I, pursuant to which such Master Lease I Lessors lease to such Master Lease I Lessees certain real property and improvements consisting of multiple healthcare facilities, as more particularly described in Master Lease I; (b) the Master Lease II Lessors and Master Lease II Lessees are parties to Master Lease II, pursuant to which such Master Lease II Lessors lease to such Master Lease II Lessees certain real property and improvements consisting of multiple healthcare facilities, as more particularly described in Master Lease II; (c) the MPT Foothill Lender, Alta Newport, and Foothill Propco (as assignee) are parties to the Foothill Mortgage Loan Agreement, pursuant to which the MPT Foothill Lender made certain mortgage loans to Alta Newport, as evidenced by the Foothill Mortgage Loan Note and secured by, among other things, the Foothill Mortgage (and Alta Newport assigned all of its rights, title, and interest to the Foothill Facility (and certain related realty assets described therein) to Foothill Propco as described in Section 3.1(c) hereof); (d) the MPT TRS Lender made a term loan to Prospect Medical in the amount of One Hundred Twelve Million Nine Hundred Thirty Seven Thousand Two Hundred Four and No/100 Dollars ($112,937,204.00), which term loan is evidenced by the TRS Note; and (e) MPT Picasso TRS made a convertible term loan to PHP Holdings in the amount of Fifty Million and No/100 Dollars ($50,000,000.00), which convertible term loan is evidenced by the MPT Advance Convertible Note;

WHEREAS, the Released Defaults of certain of the Prospect Parties currently exist under the foregoing documents and certain other agreements entered into by certain of the Prospect Parties in connection therewith, each being subject to the Forbearance Agreement;

WHEREAS, pursuant to the terms of that certain Term Sheet dated March 30, 2023 between MPT Picasso TRS and Prospect Medical (as amended or modified from time to time, the "Restructuring Term Sheet"), the Parties now desire: (a) that the MPT Parties agree to release, waive, and refrain from exercising available rights and remedies against the Prospect Parties and their respective Affiliates with respect to, the Released Defaults, and (b) that the Parties engage in the Equity Rollover Transactions and the Restructuring Transactions herein described, it being the intent of the Parties that PHP Holdings obtained prior hereto, and will hereafter own at all times, all of the Managed Care Business which will be operated separately from the portfolio of other entities previously owned and controlled by Prospect Medical;

MPT CONFIDENTIAL MPT_PROSPECT_00011433

WHEREAS, in connection therewith, the Parties desire to amend and restate the Original Restructuring Agreement in order to effect the Equity Rollover Transactions and the Restructuring Transactions as further described herein; and

WHEREAS, as a result of the direct and indirect benefits (financial and otherwise) that each of the Prospect Parties and the MPT Parties has derived, and will continue to derive, from the transactions described in this Agreement, as a condition to the release and waiver of the Released Defaults and consummation of the Equity Rollover Transaction and the Restructuring Transactions as described herein, the Parties desire to enter into this Agreement and the other Restructuring Documents, to reflect certain additional rights, covenants, and obligations of the Parties.

NOW, THEREFORE, in consideration of the promises and mutual agreements contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby amend and restate the Original Restructuring Agreement as set forth herein and agree as follows:

ARTICLE I
DEFINED TERMS; INTERPRETATION

1.1. Certain Defined Terms. Capitalized terms used herein shall have the respective meanings ascribed to them in the Glossary of Defined Terms attached hereto as ***ANNEX A***.

1.2. Interpretation; Terms Generally. The definitions set forth in Section 1.1 and elsewhere in this Agreement shall apply equally to both the singular and plural forms of the terms defined. Whenever the context may require, any pronoun shall include the corresponding masculine, feminine and neuter forms. Unless otherwise indicated, the words "include", "includes" and "including" shall be deemed to be followed by the phrase "without limitation." The words "herein", "hereof" and "hereunder" and words of similar import shall be deemed to refer to this Agreement (including the Schedules and Exhibits) in its entirety and not to any part hereof, unless the context shall otherwise require. All references herein to parties, Articles, Sections, Schedules and Exhibits shall be deemed to refer to parties, Articles, Sections and Schedules of, and Exhibits to, this Agreement, unless the context shall otherwise require. Unless the context shall otherwise require, any references to any agreement or other instrument or statute or regulation are to it as amended and supplemented from time to time (and, in the case of a statute or regulation, to any corresponding provisions of successor statutes or regulations). Any reference in this Agreement to a "day" or number of "days" that does not refer explicitly to a "Business Day" or "Business Days" shall be interpreted as a reference to a calendar day or number of calendar days. If any action or notice is to be taken or given on or by a particular calendar day, and such calendar day is not a Business Day, then such action or notice shall be deferred until, or may be taken or given on, the next Business Day.

ARTICLE II
ACKNOWLEDGMENTS; RELEASES AND WAIVERS

2.1. General Inducement. The Outstanding Obligations represent valid and enforceable, secured, cross-collateralized, and cross-defaulted indebtedness obligations of substantial value of Prospect Medical owed to the MPT Parties. The preferred financial rights granted to the holder of PHPH Series A-1 Preferred Units, together with the consent rights related to major decisions granted to the holder of PHPH Series A-1 Preferred Units (including, without limitation, the right of MPT Picasso TRS to consent to any bankruptcy, dilutive events, incurrence of debt, insolvency, liquidation or dissolution of PHP Holdings), are a material inducement to the applicable MPT Parties to enter into this Agreement, to waive, release and

MPT CONFIDENTIAL MPT_PROSPECT_00011434

refrain from exercising the MPT Parties' rights and remedies with respect to the Released Defaults, and to participate in the Equity Rollover Transaction and the Restructuring Transactions contemplated herein.

2.2. Outstanding Obligations. The Prospect Parties hereby acknowledge that the amount of each of the Outstanding Obligations as of the date hereof is the amount set forth in the attached ***EXHIBIT A***, and that certain of the Outstanding Obligations are cross-collateralized and guaranteed by Prospect Medical pursuant to, and to the extent provided in, the Master Lease I, Master Lease II, the Foothill Mortgage Loan Documents, the TRS Note, the MPT Advance Convertible Note, and any other related agreements and security documents entered into by certain of the Prospect Parties in connection therewith.

2.3. Financial and Structural Matters. The Parties hereby acknowledge and agree that the transactions contemplated herein are being entered into by each of them based upon the following assumptions:

(a) the ownership and structure of the Prospect Parties and their respective Subsidiaries as reflected on the Organizational Chart attached hereto as ***EXHIBIT B*** (the "Prospect Organizational Chart") are complete, true, and correct in all respects on the date hereof, effective immediately following the closing of the Phase I Transactions;

(b) the aggregate *net equity value* of PHP Holdings and its Subsidiaries is equal to One Hundred Fifty-Three Million Six Hundred Sixty-Two Thousand Four Hundred Two Dollars Twenty-Six Cents ($153,662,402.26) (the "PHPH Net Equity Value") and, for the purposes of issuance of any of PHP Holdings' Equity Interests or any convertible notes (including, as applicable, the PHPH Series A-1 Preferred Units issued upon conversion of such convertible notes) to MPT Picasso TRS as contemplated herein on the date hereof, the PHPH Net Equity Value of PHP Holdings shall be used for purposes of determining the amount and value of such PHP Holdings' Equity Interests or convertible notes received by MPT Picasso TRS;

(c) on the date hereof, PhysicianCo Term Loan Lenders have made a term loan to PHPH MidCo and Physician Holdings (collectively, the "PhysicianCo Term Loan Borrowers") in the aggregate original principal amount of Three Hundred Seventy-Five Million and No/100 Dollars ($375,000,000.00) (the "PhysicianCo Term Loan");

(d) on the date hereof, MPT Picasso TRS provided a delayed draw term loan facility to Prospect Medical in the maximum principal amount of Seventy-Five Million and No/100 Dollars ($75,000,000.00), pursuant to the terms of the HospitalCo Term Loan Agreement; and

(e) PHP Holdings shall conduct its business as a Bankruptcy Remote Entity at all times after the date hereof in accordance with the terms hereof.

2.4. Satisfaction of Released Defaults.

(a) Immediately upon consummation of the Phase I Transactions contemplated in this Agreement, each of the Released Defaults shall, without further action by the MPT Parties, for themselves and their heirs, personal representatives, administrators, successors, and assigns (collectively, including the MPT Parties, the "MPT Releasing Parties"), be forever expressly released, cured, discharged, and waived, unconditionally and irrevocably as against the Prospect Parties and their respective Affiliates, and each of their heirs, personal representatives, officers, directors, managers, employees, administrators, agents, successors, and assigns (collectively, the "Prospect Released Parties").

MPT CONFIDENTIAL MPT_PROSPECT_00011435

(b) Each MPT Releasing Party, for itself and on behalf of any other MPT Releasing Party, acknowledges that the legal requirements of many states provide substantially the following:

> "A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR."

The MPT Parties for itself and on behalf of any MPT Releasing Parties understand that the foregoing gives the MPT Releasing Parties the right not to release existing claims of which the MPT Releasing Parties are not aware, unless the MPT Releasing Parties voluntarily choose to waive this right. Having been so apprised, but subject in all respects to Section 2.4(e) hereof, the MPT Parties for itself and on behalf of any MPT Releasing Parties nevertheless hereby voluntarily elect to and waive the rights described above solely with respect to the Released Defaults (or such other comparable statute, rule, regulation or order), and elect to assume all risks for claims that exist, existed or may hereafter exist in its favor, known or unknown, suspected or unsuspected, solely arising out of or related to the Released Defaults, in each case, effective upon the date hereof. The MPT Parties for itself and on behalf of any MPT Releasing Parties acknowledge and agree that the foregoing waiver is an essential and material term of the release of the Released Defaults by the MPT Releasing Parties and that, without such waiver, the Prospect Released Parties would not have agreed to the terms of this release.

(c) The MPT Parties hereby represent and warrant to the Prospect Parties that the MPT Parties have no actual knowledge (and without inquiry by any such MPT Party) that any "Event of Default" (as defined in the applicable Obligation Documents) exists as of the date hereof other than the Released Defaults and the Uncured Defaults.

(d) At least two (2) days prior to the Closing Date of each of the Phase II Transactions and the Phase III Transactions, each of the MPT Parties, on the one hand, and Prospect Parties, on the other hand, will (i) provide to one another an updated list of Events of Default then in existence as of such date that are actually known by such Parties, and (ii) represent and warrant to one another that such Parties have no actual knowledge (and without inquiry by any such Party) that any Event of Default exists as of such Closing Date other than such updated Events of Defaults described per clause (i) hereof (collectively, the "Default Representation").

(e) Notwithstanding the foregoing, the MPT Parties are not waiving or refraining from exercising any rights or remedies with respect to any default or Event of Default that is not a Released Default *as of the date hereof* (including any future Event of Default), and expressly reserve the right to exercise all such rights and remedies with respect to any such other default or Event of Default (including any Uncured Defaults) in accordance with the applicable agreements (including, without limitation, any failure to pay rents, interests, or other amounts payable after the date hereof in accordance with their applicable terms). The existence of any new Events of Default, if any, occurring after the date hereof shall not effect or delay the closing of the Phase II Transactions or the Phase III Transactions. This is not a waiver, release, or extension of any future requirement or other obligation under any of Master Lease I, Master Lease II, the Foothill Mortgage Loan Documents, the TRS Note, the MPT Advance Convertible Note, the Phase I Convertible Note, the Pennsylvania Restructuring Documents, the Amended and Restated Security Agreements, or any other related agreements, and this provision is without prejudice to, and the MPT Parties expressly reserve any and all rights and remedies thereunder, under applicable law, or otherwise with respect to any such future requirements or other obligations.

MPT CONFIDENTIAL MPT_PROSPECT_00011436

(f) Without limiting the generality of the foregoing subsection, the Prospect Parties hereby acknowledge the existence of the Uncured Defaults and shall take all actions reasonably necessary to cure such defaults in all respects within thirty (30) Business Days following the date hereof; provided, however, the Prospect Parties may enter into a payment plan or other arrangement, which would be deemed to satisfy the Prospect Parties' obligations in this Section 2.4(f), so long as such payment plan or other arrangement is approved in advance by the MPT Parties (which shall be in the MPT Parties' sole discretion but not to be unreasonably delayed). Any failure to cure any of such Uncured Defaults within the specified time period shall be deemed an Event of Default under the applicable Obligation Documents.

2.5. Release and Waiver of MPT Parties. Contemporaneously herewith, each of the Prospect Parties has executed and delivered to the MPT Parties a Release and Waiver Agreement in the form attached hereto as ***EXHIBIT C***. As of the Closing Date of each of the Phase II Transactions and the Phase III Transactions, the Prospect Parties shall simultaneously execute and deliver to the MPT Parties an additional Release and Waiver Agreement, to be effective as of each such Closing Date.

2.6. Termination of Forbearance Agreement. The Forbearance Agreement is hereby terminated, and shall be of no further force or effect after the date hereof.

2.7. Termination of Collateral Assignments of Assignable Option Agreement. The Collateral Assignments are hereby terminated, and shall be of no further force or effect after the date hereof.

ARTICLE III
PHASE I TRANSACTIONS

The Phase I Transactions are comprised of the events provided in this ARTICLE III, which Phase I Transactions are occurring as of the Closing Date of the Phase I Transactions (unless expressly otherwise provided):

3.1. PhysicianCo Term Loan; Transfer and Leaseback of Foothill Facility; Redemption of Series A-2 Preferred Units. As a condition to the MPT Parties entering into this Agreement and effecting the transactions contemplated herein, on the date hereof:

(a) PhysicianCo Term Loan. The PhysicianCo Term Loan Lenders and the PhysicianCo Term Loan Borrowers have entered into the PhysicianCo Term Loan Agreement, pursuant to which the PhysicianCo Term Loan Lenders have made a term loan to the PhysicianCo Term Loan Borrowers in the original principal amount of Three Hundred Seventy-Five Million and No/100 Dollars ($375,000,000.00), of which the sum of One Hundred Thirty-One Million Four Hundred Sixty-Nine Thousand Four Hundred Eighty-Nine Dollars Fifty-Three Cents ($131,469,489.53) will be distributed by PHPH Midco to PHP Holdings and Fifty-Six Million Four Hundred Sixty-Nine Thousand Four Hundred Eighty-Nine Dollars Fifty-Three Cents ($56,469,489.53) will be distributed by PHP Holdings to Prospect Medical (immediately prior to MPT Picasso TRS acquiring any Equity Interests in PHP Holdings).

(b) Intercreditor Agreements. The PhysicianCo Term Loan Lenders and certain of the MPT Parties (and their Affiliates) have entered into the PhysicianCo Intercreditor Agreement and the HospitalCo Intercreditor Agreement, pursuant to which they have agreed upon (i) the priority of their Encumbrances on certain collateral securing their respective obligations and liabilities from certain of the Prospect Parties, and (ii) certain of their other respective rights and remedies, as set forth therein.

MPT CONFIDENTIAL MPT_PROSPECT_00011437

(c) Transfer and Leaseback of Foothill Facility. Prior to the consummation of the Phase I Transactions, (i) Alta Newport transferred, assigned, and conveyed all of its rights, title, and interest to the Foothill Facility (and certain related realty assets described therein) to Foothill Propco (subject in all respects to the Foothill Mortgage and all obligations owed by Alta Newport to the MPT Foothill Lender under the other Foothill Mortgage Loan Documents), and (ii) Foothill Propco leased the Foothill Facility to Alta Newport pursuant to that certain Hospital Lease Agreement, dated May 16, 2023 ("Foothill Lease"), and which Foothill Lease is secured as set forth therein. Contemporaneously with the closing of the balance of the Phase I Transactions, the Foothill Mortgage and all obligations owed by Alta Newport and Foothill Propco to the MPT Foothill Lender under the other Foothill Mortgage Loan Documents will be released in accordance with Section 3.5(a).

(d) Redemption of Outstanding Series A-2 Preferred Units. Prior to the date hereof, PHP Holdings issued 32,402,885 Series A-2 Preferred Units as follows: (i) 29,795,354 PHPH Series A-2 Preferred Units to Prospect Provider Group, LLC ("PPG"), and (ii) 2,607,531 PHPH Series A-2 Preferred Units to PHS Holdings, LLC ("PHS"). Prior to the consummation of the Phase I Transactions, PHP Holdings redeemed all of such 32,402,885 Series A-2 Preferred Units from PPG and PHS pursuant to the Redemption Agreements and, as a result thereof, there are no PHPH Series A-2 Preferred Units issued and outstanding as of the date hereof.

3.2. Issuance of Preferred Units and Convertible Notes for Certain Outstanding Obligations.

(a) PHPH Series A-1 Preferred Units. Immediately following the consummation of the transactions contemplated in Section 3.1, on the date hereof:

(i) Pursuant to the Series A-1 Subscription Agreement, MPT Picasso TRS has received PHPH Series A-1 Preferred Units comprising Forty-Nine Percent (49%) of the outstanding Equity Interest in PHP Holdings, which the Parties hereby agree the value of which equals Seventy-Five Million Two Hundred Ninety-Four Thousand Five Hundred Seventy-Seven Dollars Eleven Cents ($75,294,577.11) (based upon the PHPH Net Equity Value);

(ii) each of PHP Holdings, MPT Picasso TRS, and Prospect Medical has entered into the PHP Holdings LLC Agreement (pursuant to which ManageCo shall serve as the manager thereof following the date hereof); and

(iii) in accordance with the terms of the PHP Holdings LLC Agreement, each of the Subsidiaries of PHP Holdings (but not including Prospect Health Plan, Inc. solely to the extent prohibited by applicable laws or regulations), has amended (or, no later than ten (10) days following the Closing Date of the Phase I Transactions will, amend) its respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents to include certain provisions and protections for the benefit of MPT Picasso TRS (collectively, the "PHPH Subsidiary Amendments").

(b) PHP Convertible Notes. Contemporaneously herewith, PHP Holdings has issued MPT Picasso TRS the "Phase I Convertible Note" in the original principal amount of Six Hundred Forty-Six Million Three Hundred Thirty-Seven Thousand Five Hundred Ninety-Seven Dollars Seventy-Four Cents ($646,337,597.74), which amount the Parties intend to equal the following:

(i) the Phase I Outstanding Obligations described in Section 3.2(c) hereof, *less*

MPT CONFIDENTIAL MPT_PROSPECT_00011438

(ii) the agreed upon value of the PHPH Series A-1 Preferred Units issued to MPT Picasso TRS as set forth above in Section 3.2(a) hereof.

(c) Phase I Outstanding Obligations. MPT Picasso TRS is accepting the Phase I Convertible Note in lieu of additional PHPH Series A-1 Preferred Units because issuance of any additional PHPH Series A-1 Preferred Units to MPT Picasso TRS on the date hereof beyond those described in Section 3.2(a) hereof requires certain regulatory notices and approvals (as described in Section 4.1 hereof) and, thus, the issuance of such PHPH Series A-1 Preferred Units and Phase I Convertible Note, on a combined basis, are intended to be in full and complete satisfaction of the following Outstanding Obligations (collectively, the "Phase I Outstanding Obligations"):

(i) the outstanding balance (if any) of the MPT Advance Convertible Note described in Section 3.3 hereof;

(ii) the Deferred Amounts and Outstanding Property Insurance described in Section 3.4 hereof;

(iii) the outstanding balance of the Foothill Mortgage Loan Note described in Section 3.5(a) hereof;

(iv) the outstanding balance of the TRS Note described in Section 3.6 hereof;

(v) the Agreed Pennsylvania Shortfall Amount as described in Section 3.7 hereof; and

(vi) the Agreed Connecticut Shortfall Amount as described in Section 5.1 hereof.

Subject to the specific terms and conditions of this Agreement, the priority of payment and amounts allocated to the Phase I Outstanding Obligations shall be allocated and applied in accordance with, as applicable, Master Lease I, Master Lease II, the Foothill Mortgage Loan Documents, the TRS Note, any other existing Obligation Documents, and as otherwise determined by the MPT Parties in their sole and absolute discretion, provided however, such allocation shall in no event result in less than the full and complete satisfaction of the Phase I Outstanding Obligations.

3.3. MPT Advance Convertible Note. MPT Picasso TRS hereby notifies PHP Holdings, pursuant to Section 5(a)(i) of the MPT Advance Convertible Note, of MPT Picasso TRS's election to convert the outstanding aggregate principal amount of the MPT Advance Convertible Note and any accrued but unpaid interest thereon as of the date hereof, in full, into PHPH Series A-1 Preferred Units, which PHPH Series A-1 Preferred Units have been authorized and reserved for issuance pursuant to the PHP Holdings LLC Agreement. Notwithstanding anything to the contrary set forth in the MPT Advance Convertible Note, contemporaneously herewith: (a) the original principal amount of Fifty Million and No/100 Dollars ($50,000,000.00) of the MPT Advance Convertible Note and accrued but unpaid interest thereon in the amount of Five Hundred Eighty-Eight Thousand Eight Hundred Eighty-Eight and 89/100 Dollars ($588,888.89) have been fully satisfied by the issuance to MPT Picasso TRS of the PHPH Series A-1 Preferred Units and the Phase I Convertible Note, each as more particularly described in Section 3.2 hereof, and (b) as a result of the full satisfaction of all amounts owed under the MPT Advance Convertible Note pursuant to the Phase I Transactions, (i) the MPT TRS Lender has cancelled the MPT Advance Convertible Note and returned the same to Prospect Medical, (ii) the MPT Advance Convertible Note shall be deemed terminated and of no further force or effect, and (iii) PHPH shall have no further obligations thereunder and all obligations set forth thereunder shall be immediately deemed satisfied in full and extinguished in their entirety, including with respect to any interest amounts accrued prior to the date hereof. The Parties

MPT CONFIDENTIAL MPT_PROSPECT_00011439

acknowledge that: (1) prior to the closing of the Phase I Transactions, PHP Holdings is a wholly-owned and controlled Subsidiary of Prospect Medical, (2) MPT Picasso TRS is a wholly-owned and controlled Subsidiary (directly or indirectly) of MPT Op, and (3) the issuances of such PHPH Series A-1 Preferred Units and the Phase I Convertible Note are being made to MPT Picasso TRS for the respective benefit of the Parties. MPT Picasso TRS represents and warrants that immediately prior to the conversion of the MPT Advance Convertible Note, MPT Picasso TRS is the sole owner of and sole beneficiary under the MPT Advance Convertible Note and has not transferred, pledged, hypothecated or otherwise encumbered the MPT Advance Convertible Note or any amounts due thereunder.

3.4. Deferred Amounts and Outstanding Property Insurance. The aggregate outstanding amounts of: (i) the Deferred Base Rent, (ii) the Deferred Interest, (iii) the accrued but unpaid base interest under the Foothill Mortgage Loan Note, and the TRS Note through the date hereof, and (vi) to the extent not included in the foregoing clauses, all Deferred Base Rent and Deferred Interest that may hereafter be deferred as described in the Term Sheet (collectively, the "Deferred Amounts"), are equal to One Hundred Ninety-Three Million Nine Hundred Seventy-Five Thousand One Hundred Seventy-Five Dollars Ninety-Six Cents ($193,975,175.96). The aggregate amount of Outstanding Property Insurance is Seven Hundred Eight-Three Thousand Seven Hundred Eight and No/100 Dollars ($783,708.00).

(a) Satisfaction of Deferred Amount and Outstanding Property Insurance. At the closing of the Phase I Transactions contemporaneously herewith, all of the Deferred Amounts and Outstanding Property Insurance have been satisfied by the issuance to MPT Picasso TRS of the PHPH Series A-1 Preferred Units and the Phase I Convertible Note, each as more particularly described in Section 3.2 hereof.

(b) Acknowledgements. The Parties acknowledge that as of immediately prior to the closing of the Phase I Transactions: (i) Alta Newport, the Master Lease I Lessees, and the Master Lease II Lessees are wholly-owned and controlled Subsidiaries (directly or indirectly) of Prospect Medical, and PHP Holdings is owned by Prospect Medical, PPG and PHS, (ii) Prospect Medical guarantees their respective obligations to the MPT Parties pursuant to certain of the Obligation Documents, (iii) the MPT Foothill Lender, the Master Lease I Lessors, the Master Lease II Lessors, and MPT Picasso TRS are wholly-owned and controlled Subsidiaries (directly or indirectly) of MPT Op, and (iv) the satisfaction in full, of the Deferred Amounts and Outstanding Property Insurance by Prospect Medical as set forth in this agreement, to the applicable MPT Parties, and the issuances of such PHPH Series A-1 Preferred Units and the Phase I Convertible Note to MPT Picasso TRS, are being made for the respective benefit of the Parties.

3.5. Foothill Transaction.

(a) Mortgage Payment. Contemporaneously herewith, Prospect Medical has paid the sum of One Hundred Sixty Million Four Hundred Four Thousand Two Hundred and No/100 Dollars ($160,404,200.00), which amount is comprised of the sum of (and full satisfaction of) (i) the Tranche I Advance, (ii) the Tranche 2 Advances, and (iii) the Tranche 2 Additional Interest (in each case owed by Alta Newport and Foothill Propco and to the MPT Foothill Lender), by the issuance to MPT Picasso TRS of the PHPH Series A-1 Preferred Units and the Phase I Convertible Note, each as more particularly described in Section 3.2 hereof. Contemporaneously therewith, the MPT Foothill Lender has caused the Foothill Mortgage to be terminated and released in the official records of Orange County, California.

(b) Acknowledgements. The Parties acknowledge that as of immediately prior to the closing of the Phase I Transactions: (i) Alta Newport, the Master Lease I Lessees, and the Master Lease II Lessees are wholly-owned and controlled Subsidiaries (directly or indirectly) of Prospect Medical, and PHP Holdings

MPT CONFIDENTIAL MPT_PROSPECT_00011440

is owned by Prospect Medical, PPG and PHS, (ii) Prospect Medical guarantees their respective obligations to the MPT Parties pursuant to certain of the Obligation Documents, (iii) the MPT Foothill Lender, the Master Lease I Lessors, the Master Lease II Lessors, and MPT Picasso TRS are wholly-owned and controlled Subsidiaries (directly or indirectly) of MPT Op, and (iv) the satisfaction in full, of the Deferred Amounts by Prospect Medical as set forth in this agreement, to the applicable MPT Parties, and the issuances of such PHPH Series A-1 Preferred Units and the Phase I Convertible Note to MPT Picasso TRS, are being made for the respective benefit of the Parties.

3.6. TRS Note. Contemporaneously herewith, (a) the original principal amount of One Hundred Twelve Million Nine Hundred Thirty Seven Thousand Two Hundred Four and No/100 Dollars ($112,937,204.00) of the TRS Note has been fully satisfied by the issuance to MPT Picasso TRS of the PHPH Series A-1 Preferred Units and the Phase I Convertible Note, each as more particularly described in Section 3.2 hereof, and (b) as a result of the full satisfaction of all amounts owed under the TRS Note pursuant to the Phase I Transactions, the MPT TRS Lender has cancelled the TRS Note and returned the same to Prospect Medical. The Parties acknowledge that: (1) as of immediately prior to the closing of the Phase I Transactions PHP Holdings is owned by Prospect Medical, PPG and PHS, (2) both the MPT TRS Lender and MPT Picasso TRS are wholly-owned and controlled Subsidiaries (directly or indirectly) of MPT Op, and (3) the issuances of such PHPH Series A-1 Preferred Units and the Phase I Convertible Note are being made to MPT Picasso TRS for the respective benefit of the Parties.

3.7. Pennsylvania Transaction.

(a) Purchase and Sale; Intercompany Lease.

(i) Contemporaneously herewith: (A) the Pennsylvania Lessors and Prospect CCMC have entered into the Pennsylvania Purchase Agreement, pursuant to which the Pennsylvania Lessors have sold and conveyed to Prospect CCMC, and Prospect CCMC has purchased and accepted from the Pennsylvania Lessors, all of the Pennsylvania Lessors' respective right, title and interest in and to the Pennsylvania Facilities (and certain related assets described therein) for an aggregate purchase price of Two Hundred Fifty Million and No/Dollars ($250,000,000.00) (the "Pennsylvania Purchase Price"), of which amount has been contemporaneously paid as set forth in Section 3.7(b) below, and (B) each of the Pennsylvania Facilities, Pennsylvania Lessors, and Pennsylvania Lessees have been severed and removed from Master Lease I and Master Lease II, as applicable.

(ii) Immediately after the transactions described in clause (i) hereof: (A) Prospect CCMC leased the Pennsylvania Facility commonly known as "Delaware County Memorial Hospital" to Prospect DCMH pursuant to a lease agreement between them, and (B) Prospect DCMH joined in the execution and delivery of the Amended and Restated Security Documents, and (C) Prospect DCMH delivered that certain Subordination and Attornment Agreement, dated of even date herewith, to the Pennsylvania Mortgage Lenders (as described below) and their Affiliates (the "Pennsylvania Subordination and Attornment Agreement").

(b) Payment of the Pennsylvania Purchase Price. The Pennsylvania Purchase Price is being paid as follows:

(i) *Pennsylvania Mortgage Loan*. One Hundred Fifty Million and No/100 Dollars ($150,000,000.00) of the Pennsylvania Purchase Price has been satisfied by the issuance of a

MPT CONFIDENTIAL MPT_PROSPECT_00011441

mortgage loan in such amount (plus an additional Five Million Two Hundred Twenty-Two Thousand Five Hundred Seventeen Dollars and Fifty-Four Cents ($5,222,517.54) for transfer taxes, as contemplated in Section 11.15(b) hereof) made by the Pennsylvania Lessors (hereinafter also referred to as the Pennsylvania Mortgage Lenders) to Prospect CCMC (hereinafter also referred to as the Pennsylvania Mortgage Borrower) in accordance with that certain Real Estate Loan Agreement, dated of even date herewith, by and among the Pennsylvania Mortgage Borrower and the Pennsylvania Mortgage Lenders (the "Pennsylvania Mortgage Loan Agreement"), and which:

(A) is evidenced by a Promissory Note, dated of even date herewith, made by the Pennsylvania Mortgage Borrower in favor of the Pennsylvania Mortgage Lenders (the "Pennsylvania Mortgage Loan Note"), with a term of five (5) years, and which will bear interest at: (1) a per annum rate of Nine Percent (9%), to be paid in kind from March 1, 2024 thru May 31, 2025 (which shall be added to the principal balance of the Pennsylvania Mortgage Loan Note), and (2) a per annum rate of Twelve Percent (12%), payable in cash thereafter, and

(B) will be cross-defaulted and cross-collateralized in the same manner as the obligations under Master Lease I and Master Lease II, and otherwise secured by, among other things, that certain Mortgage, Security Agreement and Fixture Filing, dated of even date herewith, made by Prospect CCMC in favor of the Pennsylvania Mortgage Lenders (the "Pennsylvania Mortgage") and the Amended and Restated Security Documents.

(ii) *PHPH Series A-1 Preferred Units or Convertible Note*. One Hundred Million and No/100 Dollars ($100,000,000.00) (the "Agreed Pennsylvania Shortfall Amount") of the Pennsylvania Purchase Price has been satisfied by the issuance to MPT Picasso TRS of the PHPH Series A-1 Preferred Units and the Phase I Convertible Note, each as more particularly described in Section 3.2 hereof. The Parties acknowledge that: (i) the Pennsylvania Mortgage Borrower is a wholly-owned and controlled Subsidiary (directly or indirectly) of Prospect Medical, and as of immediately prior to the closing of the Phase I Transactions PHP Holdings is owned by Prospect Medical, PPG and PHS, (ii) Prospect Medical guarantees their respective obligations to the MPT Parties pursuant to certain of the Obligation Documents, (iii) both the Pennsylvania Mortgage Lenders and MPT Picasso TRS are wholly-owned and controlled Subsidiaries (directly or indirectly) of MPT Op, and (iv) the issuances of such PHPH Series A-1 Preferred Units and the Phase I Convertible Note are being made to MPT Picasso TRS for the respective benefit of the Parties.

(iii) *Remaining Pennsylvania Purchase Price*. In lieu of any further consideration for the Pennsylvania Purchase Price, MPT Picasso TRS has received a right to receive certain distributions on an accelerated, profits-interest basis under the distribution provisions of the PHP Holdings LLC Agreement.

(c) Taxes, Insurance, Utilities. All utility charges, insurance, and real and personal property taxes related to the Pennsylvania Facilities: (i) for any periods (or portions thereof) ending on or prior to the date hereof shall be the responsibility of the Pennsylvania Lessees and their Affiliates pursuant to the terms of Master Lease I and Master Lease II, and (ii) for any periods (or portions thereof) ending after the date hereof, shall be the responsibility of Pennsylvania Mortgage Borrower and their Affiliates pursuant to the terms of the Pennsylvania Mortgage Loan Agreement. In no event shall any of the MPT Parties have any responsibility for payment of such amounts, *provided*, *however*, for the avoidance of doubt, MPT Parties

MPT CONFIDENTIAL MPT_PROSPECT_00011442

must pay the amounts owed by it pursuant to Section 11.15 of this Agreement (which shall be added to the Pennsylvania Mortgage Loan Note).

3.8. Connecticut Master Agreement. In connection with the transactions contemplated above, on the date hereof: (i) the applicable Prospect Parties and the applicable MPT Parties have entered into that certain Amendment to Connecticut Master Agreement, dated of even date herewith (the "Amendment to Connecticut Master Agreement"), pursuant to which the parties have modified the Connecticut Master Agreement to address the transactions to be consummated in accordance with this Agreement (including ARTICLE V hereof), and (ii) such Prospect Parties have delivered to such MPT Parties the written consent from Yale New Haven Health Services Corporation to such Amendment to Connecticut Master Agreement, as required pursuant to the terms and conditions of the Underlying Acquisition Agreement (as defined in the Connecticut Master Agreement) (the "Yale Consent").

3.9. Phase I Deliverables.

(a) Deliverables by Prospect Parties. Prior to or contemporaneously herewith, the applicable Prospect Parties have delivered (or caused to be delivered) to the MPT Parties the following:

(i) Copies of the PhysicianCo Term Loan Agreement, and all other loan documents entered into or delivered by any of the Prospect Parties or any of their Affiliates in connection therewith, duly executed by the applicable Prospect Parties and the PhysicianCo Term Loan Lenders;

(ii) PhysicianCo Intercreditor Agreement, duly executed by the PhysicianCo Term Loan Lenders and the applicable Prospect Parties;

(iii) Evidence reasonably satisfactory to the MPT Parties of repayment in full of the indebtedness and other obligations outstanding under the ABL Credit Agreement dated as of February 22, 2018 among PMH, as borrower, JPMorgan Chase Bank, N.A, as administrative agent and issuing bank, the lenders party thereto and the other agents, arrangers and bookrunners identified therein, as amended from time to time .

(iv) Master Lease I Amendment, duly executed by the Master Lease I Lessees;

(v) Master Lease II Amendment, duly executed by the applicable Master Lease II Lessees;

(vi) the Amended and Restated Security Documents, duly executed by the applicable Prospect Parties and their applicable Affiliates;

(vii) the PHP Holdings Pledge Agreement, duly executed by PHP Holdings;

(viii) the Intercompany Subordination Agreement, duly executed by the applicable Prospect Parties and their applicable Affiliates;

(ix) Amendments to each of the existing Memoranda of Lease relating to Master Lease I, Master Lease II, the termination of the Foothill Mortgage Loan Agreement, and the addition of Obligation Documents contemplated herein, each duly executed by the applicable Prospect Parties;

(x) Amendments to each of the existing Assignment of Rents and Leases relating to Master Lease I, Master Lease II, the termination of the Foothill Mortgage Loan Agreement, and the

MPT CONFIDENTIAL MPT_PROSPECT_00011443

addition of Obligation Documents contemplated herein, each duly executed by the applicable Prospect Parties;

(xi) Redemption Agreements, duly executed by PHP Holdings, Prospect Medical, and each of PPG and PHS (respectively);

(xii) Series A-1 Subscription Agreement, duly executed by PHP Holdings and Prospect Medical;

(xiii) PHP Holdings LLC Agreement, duly executed by PHP Holdings, and Prospect Medical;

(xiv) PHPH Subsidiary Amendments, duly executed by PHP Holdings and its applicable Subsidiaries (to the extent available, it being understood that certain PHPH Subsidiary Amendments may be delivered no more than ten (10) days following the closing of the Phase I Transactions);

(xv) Service Mark Assignment Agreement, duly executed by Prospect Medical and Prospect Medical Systems, LLC;

(xvi) Trademark License Agreement, duly executed by Prospect Medical and PMH;

(xvii) Phase I Convertible Note, duly executed by PHP Holdings;

(xviii) An amendment to the Support Services Agreement, duly executed by PHP Holdings and Prospect Medical;

(xix) Termination of Foothill Loan Agreement and Foothill Mortgage, duly executed by Alta Newport and Prospect Medical;

(xx) Copies of the Foothill Lease and any other documents entered into by any of the Prospect Parties or their Affiliates in connection therewith, duly executed by the applicable Prospect Parties;

(xxi) Pennsylvania Purchase Agreement, the Pennsylvania Mortgage Loan Agreement, the Pennsylvania Mortgage Loan Note, the Pennsylvania Subordination and Attornment Agreement, and each of the other Pennsylvania Restructuring Documents, duly executed by the applicable Pennsylvania Lessees and their applicable Affiliates;

(xxii) Amendment to Connecticut Master Agreement, duly executed by the applicable Prospect Parties;

(xxiii) Copy of the Yale Consent (to the Amendment to Connecticut Master Agreement);

(xxiv) Evidence of Letter of Credit (if available, or within 30 days hereafter);

(xxv) A Release and Waiver Agreement, duly executed by all of the Prospect Parties;

(xxvi) Resolutions or consents of the respective governing bodies of each of the Prospect Parties authorizing their respective execution, delivery, and performance of this Agreement and all other documents or agreements to be executed by any of them in connection herewith (including, without

MPT CONFIDENTIAL MPT_PROSPECT_00011444

limitation, any such documents and agreements to be entered into by any of the Prospect Parties after the date hereof) (collectively, the "Prospect Parties' Resolutions");

(xxvii) An Officers' Certificate in form and substance reasonably satisfactory to the MPT Parties and executed by a duly authorized executive officer of Prospect Medical on behalf of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries (other than PHP Holdings and its Designated Subsidiaries):

(A) certifying to the MPT Parties on behalf of all of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries that: (1) all of the representations and warranties of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries set forth in this Agreement and the other Restructuring Documents are true and correct as of the date hereof, and (2) Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries, as applicable, have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring Documents to be delivered, performed, observed and complied with by Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries as of the date hereof;

(B) certifying to the MPT Parties on behalf of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries that: (1) with respect to Prospect Medical, as to the Certificate of Incorporation and Bylaws, each as in effect from the date of this Agreement, (2) with respect to each of Prospect Medical's Designated Subsidiaries and Other Applicable Subsidiaries, as to their respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect from the date of this Agreement, and (3) a copy of each of the applicable Prospect Parties' Resolutions from Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries; and

(C) providing specimen signatures of the officers or authorized agents of each of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries;

(xxviii) An Officers' Certificate in form and substance reasonably satisfactory to the MPT Parties and executed by a duly authorized executive officer of PHP Holdings on behalf of PHP Holdings and its Designated Subsidiaries:

(A) certifying to the MPT Parties on behalf of all of PHP Holdings and such Designated Subsidiaries that: (1) all of the representations and warranties of PHP Holdings and such Designated Subsidiaries set forth in this Agreement (subject to the disclosures made in the Disclosure Schedules) and the other Restructuring Documents are true and correct as of the date hereof, and (2) PHP Holdings and such Designated Subsidiaries, as applicable, have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring Documents to be delivered, performed, observed and complied with by PHP Holdings and such Designated Subsidiaries as of the date hereof;

MPT CONFIDENTIAL MPT_PROSPECT_00011445

(B) certifying to the MPT Parties on behalf of PHP Holdings and such Designated Subsidiaries that: (1) with respect to PHP Holdings, as to the Certificate of Formation and the PHP Holdings LLC Agreement, each as in effect from the date of this Agreement, (2) with respect to each of PHP Holdings' Designated Subsidiaries, as to their respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect from the date of this Agreement, and (3) a copy of each of the applicable Prospect Parties' Resolutions from PHP Holdings and such Designated Subsidiaries; and

(C) providing specimen signatures of the officers or authorized agents of each of PHP Holdings and such Designated Subsidiaries;

(xxix) Certificates of existence and good standing of each of the Prospect Parties, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries, dated within thirty (30) days prior to the date hereof, from each such entity's State of incorporation or formation and, to the extent in which the character of its properties or in which the transaction of its business makes such qualification necessary, from the States of California and Connecticut and the Commonwealth of Pennsylvania;

(xxx) A closing statement in form and substance mutually satisfactory to the Parties, duly executed by each of the applicable Prospect Parties; and

(xxxi) Such other amendments, certificates, financing statements, tax filings, instruments and documents as any of the MPT Parties reasonably deems necessary to effectuate the transactions contemplated hereby.

(b) Deliverables by MPT Parties. Contemporaneously herewith, the applicable MPT Parties have delivered (or caused to be delivered) to the Prospect Parties the following:

(i) PhysicianCo Intercreditor Agreement, duly executed by the applicable MPT Parties;

(ii) Series A-1 Subscription Agreement, duly executed by MPT Picasso TRS;

(iii) PHP Holdings LLC Agreement, duly executed by MPT Picasso TRS;

(iv) Cancelled Foothill Mortgage Loan Note;

(v) Termination of Foothill Loan Agreement and Foothill Mortgage, duly executed by MPT Foothill Lender;

(vi) Cancellation of TRS Note;

(vii) Cancellation of the MPT Advance Convertible Note;

(viii) Pennsylvania Purchase Agreement, the Pennsylvania Mortgage Loan Agreement, the Pennsylvania Mortgage Loan Note, the Pennsylvania Subordination and Attornment Agreement, and each of the other Pennsylvania Restructuring Documents, duly executed by the applicable Pennsylvania Lessors and their applicable Affiliates;

MPT CONFIDENTIAL MPT_PROSPECT_00011446

(ix) Master Lease I Amendment, duly executed by the applicable Master Lease I Lessors;

(x) Master Lease II Amendment, duly executed by the applicable Master Lease II Lessors;

(xi) the Amended and Restated Security Documents, duly executed by the applicable MPT Parties and their applicable Affiliates;

(xii) the PHP Holdings Pledge Agreement, duly executed by MPT Picasso TRS;

(xiii) [Intentionally Omitted];

(xiv) Amendments to each of the existing Memoranda of Lease relating to Master Lease I, Master Lease II, the termination of the Foothill Mortgage Loan Agreement, and the addition of Obligation Documents contemplated herein, each duly executed by the applicable Prospect Parties;

(xv) Amendments to each of the existing Assignment of Rents and Leases relating to Master Lease I, Master Lease II, the termination of the Foothill Mortgage Loan Agreement, and the addition of Obligation Documents contemplated herein, each duly executed by the applicable Prospect Parties;

(xvi) Amendment to Connecticut Master Agreement, duly executed by the applicable MPT Parties;

(xvii) Resolutions or consents of the respective governing bodies of each of the MPT Parties authorizing their respective execution, delivery, and performance of this Agreement and all other documents or agreements to be executed by any of them in connection herewith (including, without limitation, any such documents and agreements to be entered into by any of the MPT Parties after the date hereof) (collectively, the "MPT Parties' Resolutions");

(xviii) An Officers' Certificate in form and substance reasonably satisfactory to the Prospect Parties and executed by a duly authorized executive officer of MPT OP:

(A) certifying to the Prospect Parties on behalf of all of the MPT Parties that: (1) all of the representations and warranties of the MPT Parties set forth in this Agreement and the other Restructuring Documents are true and correct as of the date hereof, and (2) the applicable MPT Parties have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring Documents to be delivered, performed, observed and complied with by such MPT Parties as of the date hereof;

(B) certifying to the Prospect Parties on behalf of all of the MPT Parties that: (1) with respect to each of the MPT Parties, as to each of such MPT Parties' respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect from the date of this Agreement, and (2) a copy of each of the MPT Parties' Resolutions; and

MPT CONFIDENTIAL MPT_PROSPECT_00011447

(C) providing specimen signatures of the officers or authorized agents of each of the MPT Parties;

(xix) Certificates of existence and good standing of each of the MPT Parties, dated within thirty (30) days prior to the date hereof, from each such entity's State of incorporation or formation and, to the extent in which the character of its properties or in which the transaction of its business makes such qualification necessary, from the States of California and Connecticut and the Commonwealth of Pennsylvania;

(xx) A closing statement in form and substance mutually satisfactory to the Parties, duly executed by each of the applicable MPT Parties; and

(xxi) Such other amendments, certificates, financing statements, tax filings, instruments and documents as any of the Prospect Parties reasonably deems necessary to effectuate the transactions contemplated hereby (it being acknowledged by the Prospect Parties that certain affidavits typically provided by owners of real property may be limited due to the Prospect Parties' sole use and possession of the Facilities prior to the date hereof).

ARTICLE IV
PHASE II TRANSACTIONS

The Phase II Transactions are comprised of the events provided in this ARTICLE IV, which Phase II Transactions are occurring as of the Closing Date of the Phase II Transactions (unless expressly otherwise provided):

4.1. Regulatory Consents and Approvals.

(a) Promptly following the date hereof, Prospect Medical and the other applicable Prospect Parties shall take all actions necessary to obtain any approval or consent of, or to provide written notification to, any Governmental Body or any other Person that is required in connection with the Prospect Parties' (and their respective Affiliates') consummation and performance of the Phase II Transactions, including, without limitation: (i) filing all reports or other documents required or requested by any Governmental Bodies concerning the transactions contemplated hereby (including without limitation, the health care regulatory filings set forth in Section 4.1(b)), (ii) comply within the timeframe set forth in such request or if no timeframe is requested then within a commercially reasonable time period after receiving the request (recognizing that time is of the essence), and any other requests by any Governmental Body for additional information concerning such Phase II Transactions, (iii) take all actions necessary to obtain any approval or consent of, or to provide written notification to, any other Governmental Body or any other Person described in Section 7.3 hereof and (iv) take any other actions required by Governmental Bodies or any other Person to approve such Phase II Transactions, to allow the applicable Governmental Body or Person to approve the Phase II Transactions as promptly as possible. Notwithstanding anything in this Section 4.1 to the contrary, the MPT Parties acknowledge and agree that the Prospect Parties will not be required to incur unreimbursed costs, be deemed to be in breach of this Section 4.1 or agree to conditions not currently known, or anticipated, by any of the Prospect Parties as of the date hereof (whether in kind or magnitude) if any conditions imposed on the Prospect Parties by the Governmental Body or non-approval by a Governmental Body of any approval required under this Agreement is a direct result of the information provided or omission of information by the MPT Parties, or the structure required by the MPT Parties to

MPT CONFIDENTIAL MPT_PROSPECT_00011448

comply with applicable REIT requirements (and the MPT Parties shall be responsible for all costs associated with such changes).

(b) The Prospect Parties shall promptly: (i) submit a notice of material modification by or on behalf of Prospect Health Plan, Inc. to the DMHC, which notifies and requests the approval the DMHC of the Phase II Transactions, (ii) submit an application and request for the issuance of a temporary pharmacy license (and subsequently the issuance of a permanent license) with the California Board of Pharmacy in connection with the pharmacy license issued to Alta Newport for the operations of its pharmacy, which license will allow the continued operation of the pharmacy at its current location, and (iii) submit an application with the CDPH as required by applicable Law.

(c) The Prospect Parties shall permit the MPT Parties and their representatives to review and provide comments within five (5) Business Days after receipt by the applicable MPT Parties to any documents to be submitted to any Governmental Bodies or any other Person in connection with any material regulatory consents or approvals. Notwithstanding the foregoing, for the filings set forth in Section 4.1(b), the MPT Parties will provide comments within three (3) Business Days after receipt of such documents. Subject to the last sentence of Section 4.1(a), the Prospect Parties shall (i) incorporate any comments from the MPT Parties with respect to (A) the MPT Parties' legal, tax, accounting, or financial status which comments shall be limited to changes the MPT Parties required to comply with applicable REIT requirements or PHP Holdings' operation as a Bankruptcy Remote Entity, or (B) known to the Prospect Parties of the date hereof and directly related to the structure and subsequent documentation of the Phase I Transactions or Phase II Transactions and which comments are not inconsistent with the terms of this Agreement, and (ii) consider any other comments provided by the MPT Parties, in good faith, which are received within the timeframes set forth in this Section 4.1(c).

(d) To the extent any information is necessary or required by law from any of the MPT Parties for the submission, processing, and/or granting of any such notices or approvals, the applicable MPT Parties will cooperate with the applicable Prospect Parties and promptly provide such information to the applicable Prospect Parties. The Parties intend that the foregoing conditions are to be completed and all such regulatory approvals, consents and confirmations shall be obtained by the Prospect Parties no later than November 30, 2023, to the extent that each applicable Governmental Body is able to provide such consent, approval or confirmation prior to such date, and shall act in good faith and cooperate in all material respects to meet such intended deadline.

(e) Notwithstanding anything to the contrary in this Agreement, in the event of an Organic Change (as defined in the Phase I Convertible Note) or similar event, if:

(i) Prospect Medical and the other applicable Prospect Parties are unable to obtain the approvals or consents of any Governmental Body and other Persons contemplated by this Section 4.1 that are necessary to allow MPT Picasso TRS to convert the Phase I Convertible Note (as described in Section 4.4 below) (the "Required Consents") prior to the occurrence of any Organic Change or similar event; and

(ii) as a result of the inability to convert due to the circumstances described in Section 4.1(e)(i) above:

(A) the aggregate amount that MPT Picasso TRS would receive at the time of such Organic Change from the sum of (1) the Convertible Amounts (as defined in the Phase I Convertible

MPT CONFIDENTIAL MPT_PROSPECT_00011449

Note) payable under the Phase I Convertible Note as of the date of such Organic Change, and (2) the distributions of "Available Cash" pursuant to the PHP Holdings LLC Agreement in connection with such Organic Change or similar event, is *less than*

(B) the aggregate amount that MPT Picasso TRS would have received solely from distributions of Available Cash pursuant to the PHP Holdings LLC Agreement had MPT Picasso TRS fully converted the Phase I Convertible Note prior to such Organic Change or similar event,

(such difference, a "Conversion Shortfall"), then the Convertible Amount due and payable under the Phase I Convertible Note immediately prior to the occurrence of such Organic Change or similar event in accordance with the terms of the Phase I Convertible Note shall automatically be increased by an amount equal to such Conversion Shortfall and, for all other purposes to the fullest extent permitted by applicable laws, MPT Picasso TRS shall be treated as if the Phase I Convertible Note has been fully converted as of the occurrence of such Organic Change or similar event. It is hereby understood and agreed that the Parties intend that MPT Picasso TRS' economic and financial rights shall not be diminished for any reason due to Prospect Medical's and the other applicable Prospect Parties' failure to obtain the Required Consents prior to such Organic Change or similar event, and that each of the Parties shall act in good faith, take all actions reasonably necessary, and otherwise reasonably cooperate in all material respects to fulfill such intent of the Parties, including providing one another reasonable access to financial and other information reasonably necessary to determine and agree upon the amount of any Conversion Shortfall. Nothing in this subsection is intended to limit or modify the Parties' rights to bring an action for breach of contract or for specific performance (and to seek other equitable relief) in connection with any breach or violation, or any attempted breach or violation, of the provisions of this Article.

4.2. Transfer of Alta Newport to PHP Holdings. Immediately following the receipt of all requisite approvals from Governmental Bodies in accordance with Section 4.1 hereof, the Prospect Parties shall cause: (a) Alta Newport to be merged with and into Foothill Propco, with Alta Newport being the surviving entity that will thereafter be owned by PHPH MidCo (the "Merger"), and (b) Alta Newport and Foothill Propco to terminate the Foothill Lease (and any related security documents). As consideration for the Merger of Alta Newport with and into Foothill Propco, Prospect Medical shall exchange the number of Class A-1 Units held by Prospect Medical representing reasonable value for Alta Newport, as mutually agreed to by the Parties, into PHPH Series A-2 Preferred Units, and will transfer such PHPH Series A-2 Preferred Units to Alta Hospitals System, LLC, a California limited liability company ("ALTA"). PHP Holdings will record such transfer and issuance of PHPH Series A-2 Preferred Units to ALTA, which such units shall at all times prior to the Merger be reserved by PHPH for issuance pursuant to this Section 4.2. The MPT Parties hereby approve the exchange, transfer and issuance of PHPH Series A-2 Preferred Units to ALTA.

4.3. Joinder to Management Agreement. Contemporaneously with the transactions contemplated in Section 4.2 hereof, PHP Holdings, ManageCo and Alta Newport shall enter into the Management Agreement with ManageCo, pursuant to which ManageCo shall serve as an "eligible independent contractor" as defined in Section 856(d)(9)(A) of the Code (an "EIK") to manage and operate any and all Health Care Facilities now or hereafter owned or leased by PHP Holdings and its Subsidiaries (but, for sake of clarity, any such Management Agreement will not cover the regulated operations of Prospect Health Plan, Inc. as conducted on the date hereof) during the term of the Management Agreement, and which Management Agreement shall provide that, at all times that MPT Picasso TRS, or any of its Affiliates shall own any Equity Interest (or securities convertible into Equity Interest) in PHP Holdings: (a) ManageCo shall remain an EIK and manage all aspects of operating such Health Care Facilities, including control of

MPT CONFIDENTIAL MPT_PROSPECT_00011450

day-to-day operations, (b) the Management Agreement may not be terminated, amended, modified or supplemented without the prior written consent of MPT Picasso TRS and any of its Affiliates which then directly hold any Equity Interests (or securities convertible into Equity Interests) in PHP Holdings, and (c) ManageCo will earn an arm's-length management fee for services rendered under the Management Agreement.

4.4. Conversion of Phase I Convertible Note. Following the receipt of all requisite approvals or confirmations from Governmental Bodies in accordance with Section 4.1 hereof, if MPT Picasso TRS determines in its reasonable discretion that all principal, interests and other amounts payable under the Phase I Convertible Note, as applicable may then be converted on a dollar-for-dollar basis into the applicable Equity Interests provided therein (based upon the PHPH Net Equity Value) in compliance with all applicable laws (including, without limitation, any provisions of the Code relating to real estate investment trusts), then MPT Picasso TRS may deliver written notice at any time thereafter of such conversions (in whole or in part) to PHP Holdings, which conversions shall be effective immediately upon receipt of such written notice by PHP Holdings. PHP Holdings, Prospect Medical, and MPT Picasso TRS shall execute and deliver to one another such documents and instruments as may be reasonably necessary to: (a) evidence the issuance of such PHPH Series A-1 Preferred Units by PHP Holdings to MPT Picasso TRS in connection with any such whole or partial conversion, and (b) make all such PHPH Series A-1 Preferred Units subject to the PHP Holdings LLC Agreement (which shall be amended and modified by the applicable Parties if and to the extent necessary to complete such issuance).

4.5. Phase II Deliverables.

(a) Deliverables by Prospect Parties. On or prior to the Closing Date of the Phase II Transactions, each of the applicable Prospect Parties shall deliver (or cause to be delivered) to the MPT Parties the following:

(i) Copies or evidence of all material regulatory notices, consents and approvals required from each such Governmental Body pursuant to the terms of Section 4.1 (or confirmation from such a Governmental Body that the closing of the Phase II Transactions will not cause a lapse in the applicable license or permit), to the extent such Governmental Body is able to provide such notice, consent, approval or confirmation prior to the Closing Date;

(ii) Management Agreement, duly executed by ManageCo, PHP Holdings, and all of its applicable Subsidiaries (including Alta Newport) that constitute "Operators" as such term is defined in the Management Agreement;

(iii) Copies of all Merger documents entered into by the applicable Prospect Parties as contemplated in Section 4.2 hereof, including, without limitation, the Certificate of Merger filed with the California Secretary of State which provides for a merger date as of the Closing Date of the Phase II transactions, the applicable Agreement and Plan of Merger (or similar instrument), all applicable governing body approvals from the Prospect Parties approving the Merger, and evidence of all applicable notices provided to Governmental Bodies;

(iv) To the extent applicable, amendments to the PHP Holdings LLC Agreement and any other documents reasonably necessary to evidence the issuance of the PHPH Series A-1 Preferred Units, duly executed by PHP Holdings, Prospect Medical, and any other members of PHP Holdings (other than MPT Picasso TRS);

MPT CONFIDENTIAL MPT_PROSPECT_00011451

(v) A Release and Waiver Agreement, duly executed by all of the Prospect Parties in favor of the MPT Parties;

(vi) A Default Representation, duly executed by all of the Prospect Parties;

(vii) An Officers' Certificate in form and substance reasonably satisfactory to the MPT Parties and executed by a duly authorized executive officer of Prospect Medical on behalf of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries (other than PHP Holdings and its Designated Subsidiaries):

(A) certifying to the MPT Parties on behalf of all of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries that: (1) all of the representations and warranties of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries set forth in this Agreement (subject to the disclosures made in the Disclosure Schedules, as updated pursuant to Section 11.10) and the other Restructuring Documents are true and correct as of such Closing Date, and (2) Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries, as applicable, have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring Documents to be delivered, performed, observed and complied with by Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries as of such Closing Date;

(B) certifying to the MPT Parties on behalf of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries that: (1) with respect to Prospect Medical, as to its Certificate of Incorporation and Bylaws, each as in effect on such Closing Date, (2) with respect to each of Prospect Medical's Designated Subsidiaries and the Other Applicable Subsidiaries as to their respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect on such Closing Date, and (3) a copy of each of the applicable Prospect Parties' Resolutions from Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries; and

(C) providing specimen signatures of the officers or authorized agents of each of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries;

(viii) An Officers' Certificate in form and substance reasonably satisfactory to the MPT Parties and executed by a duly authorized executive officer of PHP Holdings on behalf of PHP Holdings and its Designated Subsidiaries:

(A) certifying to the MPT Parties on behalf of all of PHP Holdings and such Designated Subsidiaries that: (1) all of the representations and warranties of PHP Holdings and such Designated Subsidiaries set forth in this Agreement and the other Restructuring Documents are true and correct as of such Closing Date, and (2) PHP Holdings and such Designated Subsidiaries, as applicable, have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring

MPT CONFIDENTIAL MPT_PROSPECT_00011452

Documents to be delivered, performed, observed and complied with by PHP Holdings and such Designated Subsidiaries as of such Closing Date;

(B) certifying to the MPT Parties on behalf of PHP Holdings and such Designated Subsidiaries that: (1) with respect to PHP Holdings, as to the Certificate of Formation and the PHP Holdings LLC Agreement, each as in effect on such Closing Date, (2) with respect to each of PHP Holdings' Designated Subsidiaries, as to their respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect on such Closing Date, and (3) a copy of each of the applicable Prospect Parties' Resolutions from PHP Holdings and such Designated Subsidiaries; and

(C) providing specimen signatures of the officers or authorized agents of each of PHP Holdings and such Designated Subsidiaries;

(ix) Certificates of existence and good standing of each of the Prospect Parties, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries, dated within thirty (30) days prior to such Closing Date, from each such entity's State of incorporation or formation and, to the extent in which the character of its properties or in which the transaction of its business makes such qualification necessary, from the States of California and Connecticut and the Commonwealth of Pennsylvania;

(x) A closing statement in form and substance mutually satisfactory to the Parties, duly executed by each of the applicable Prospect Parties; and

(xi) Such other amendments, certificates, financing statements, tax filings, instruments and documents as any of the MPT Parties reasonably deems necessary to effectuate the transactions contemplated hereby.

(b) Deliverables by MPT Parties. On or prior to the applicable Closing Date of the Phase II Transactions each of the applicable MPT Parties shall deliver (or cause to be delivered) to the Prospect Parties the following:

(i) Amendments to the PHP Holdings LLC Agreement and any other documents reasonably necessary to evidence the issuance of the PHPH Series A-1 Preferred Units, duly executed by MPT Picasso TRS, if applicable;

(ii) A Default Representation, duly executed by the MPT Parties;

(iii) An Officers' Certificate in form and substance reasonably satisfactory to the Prospect Parties and executed by a duly authorized executive officer of MPT OP:

(A) certifying to the Prospect Parties on behalf of all of the MPT Parties that: (1) all of the representations and warranties of the MPT Parties set forth in this Agreement and the other Restructuring Documents are true and correct as of such Closing Date, and (2) the applicable MPT Parties have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring Documents to be

MPT CONFIDENTIAL MPT_PROSPECT_00011453

delivered, performed, observed and complied with by such MPT Parties as of such Closing Date;

(B) certifying to the Prospect Parties on behalf of all of the MPT Parties that: (1) with respect to each of the MPT Parties, as to each of such MPT Parties' respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect on such Closing Date, and (2) each of the MPT Parties' Resolutions remain true, correct and in full force and effect as of such Closing Date; and

(C) providing specimen signatures of the officers or authorized agents of each of the MPT Parties;

(iv) Certificates of existence and good standing of each of the MPT Parties, dated within thirty (30) days prior to such Closing Date, from each such entity's State of incorporation or formation and, to the extent in which the character of its properties or in which the transaction of its business makes such qualification necessary, from the States of California and Connecticut and the Commonwealth of Pennsylvania;

(v) A closing statement in form and substance mutually satisfactory to the Parties, duly executed by each of the applicable Prospect Parties; and

(vi) Cancellation of the Phase I Convertible Note (if and only to the extent that it is fully converted); and

(vii) Such other amendments, certificates, financing statements, tax filings, instruments and documents as any of the Prospect Parties reasonably deems necessary to effectuate the transactions contemplated hereby.

ARTICLE V
PHASE III TRANSACTIONS

The Phase III Transactions are comprised of the events provided in this ARTICLE V, which Phase III Transactions are occurring as of the Closing Date of the Phase III Transactions (unless expressly otherwise provided):

5.1. Connecticut Transaction. The aggregate purchase price (the "Connecticut Purchase Price") for the "Acquired Assets" (as defined in the Connecticut Master Agreement) is Four Hundred Fifty-Seven Million Nine Hundred Forty-Two Thousand Nine Hundred Ninety-Eight and No/100 Dollars ($457,942,998.00). The Parties intend that the Connecticut Transaction and the other transactions described in this Article shall be consummated no later than September 30, 2023, and shall act in good faith and cooperate in all material respects to meet such intended deadline. The Parties have amended the Connecticut Master Agreement contemporaneously with this Agreement in order to evidence the obligations of the Parties hereunder.

(a) Satisfaction of Shortfall. At the Closing of the Connecticut Transaction in accordance with the Connecticut Master Agreement, the applicable Prospect Parties shall pay (or cause to be paid) to the applicable MPT Parties an amount equal to the Net Transaction Proceeds (as defined in the Master Connecticut Agreement) of Three Hundred Fifty-Five Million and No/100 Dollars

MPT CONFIDENTIAL MPT_PROSPECT_00011454

($355,000,000.00) (the "Connecticut Closing Payment"), which Net Transaction Proceeds shall be paid by the applicable Prospect Parties in cash to the applicable MPT Parties by wire transfer of immediately available funds to an account specified in writing by the MPT Parties. The Parties agree that the difference between (a) the Connecticut Purchase Price and (b) the maximum amount of the Connecticut Closing Payment is a Phase I Outstanding Obligation in the amount of One Hundred Two Million Nine Hundred Forty-Two Thousand Ninety-Eight Dollars ($102,942,998.00) (the "Agreed Connecticut Shortfall Amount"), which has been satisfied by the issuance to MPT Picasso TRS of the PHPH Series A-1 Preferred Units and the Phase I Convertible Note, each as more particularly described in Section 3.2 hereof.

(b) Acknowledgements. The Parties acknowledge that as of immediately prior to the date hereof: (i) the Prospect Parties subject to the Connecticut Master Agreement are wholly-owned and controlled Subsidiaries (directly or indirectly) of Prospect Medical, and PHP Holdings is owned by Prospect Medical, (ii) Prospect Medical guarantees their respective obligations to the MPT Parties pursuant to certain of the Obligation Documents, (iii) both the MPT Parties subject to the Connecticut Master Agreement and MPT Picasso TRS are wholly-owned and controlled Subsidiaries (directly or indirectly) of MPT Op, and (iv) the issuances of such PHPH Series A-1 Preferred Units and the Phase I Convertible Note are being made to MPT Picasso TRS for the respective benefit of the Parties.

5.2. Phase III Deliverables.

(a) Deliverables by Prospect Parties. On or prior to the Closing Date of the Phase III Transactions, each of the applicable Prospect Parties shall deliver (or cause to be delivered) to the MPT Parties the following:

(i) Cash payment of the Connecticut Closing Payment as contemplated in Section 5.1(a) above;

(ii) All documents and instruments required to be delivered by any of the Prospect Parties pursuant to the Master Connecticut Agreement;

(iii) Amendments to the PHP Holdings LLC Agreement and any other documents reasonably necessary to evidence the issuance of the PHPH Series A-1 Preferred Units, if applicable, duly executed by PHP Holdings, Prospect Medical, and any other members of PHP Holdings (other than MPT Picasso TRS);

(iv) A Release and Waiver Agreement, duly executed by all of the Prospect Parties in favor of the MPT Parties;

(v) A Default Representation, duly executed by all of the Prospect Parties;

(vi) An Officers' Certificate in form and substance reasonably satisfactory to the MPT Parties and executed by a duly authorized executive officer of Prospect Medical on behalf of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries (other than PHP Holdings and its Designated Subsidiaries):

(A) certifying to the MPT Parties on behalf of all of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries that: (1) all of the representations and warranties of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries set forth in this Agreement (subject to the disclosures made in the Disclosure

MPT CONFIDENTIAL MPT_PROSPECT_00011455

Schedules, as updated pursuant to Section 11.10) and the other Restructuring Documents are true and correct as of such Closing Date, and (2) Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries, as applicable, have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring Documents to be delivered, performed, observed and complied with by Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries as of such Closing Date;

(B) certifying to the MPT Parties on behalf of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries that: (1) with respect to Prospect Medical, as to the Certificate of Incorporation and Bylaws, each as in effect on such Closing Date, (2) with respect to each of Prospect Medical's Designated Subsidiaries and the Other Applicable Subsidiaries as to their respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect on such Closing Date, and (3) a copy of each of the applicable Prospect Parties' Resolutions from Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries; and

(C) providing specimen signatures of the officers or authorized agents of each of Prospect Medical, its Designated Subsidiaries, and the Other Applicable Subsidiaries;

(vii) An Officers' Certificate in form and substance reasonably satisfactory to the MPT Parties and executed by a duly authorized executive officer of PHP Holdings on behalf of PHP Holdings and its Designated Subsidiaries:

(A) certifying to the MPT Parties on behalf of all of PHP Holdings and such Designated Subsidiaries that: (1) all of the representations and warranties of PHP Holdings and such Designated Subsidiaries set forth in this Agreement and the other Restructuring Documents are true and correct as of such Closing Date, and (2) PHP Holdings and such Designated Subsidiaries, as applicable, have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring Documents to be delivered, performed, observed and complied with by PHP Holdings and such Designated Subsidiaries as of such Closing Date;

(B) certifying to the MPT Parties on behalf of PHP Holdings and such Designated Subsidiaries that: (1) with respect to PHP Holdings, as to the Certificate of Formation and the PHP Holdings LLC Agreement, each as in effect on such Closing Date, (2) with respect to each of PHP Holdings' Designated Subsidiaries, as to their respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect on such Closing Date, and (3) a copy of each of the applicable Prospect Parties' Resolutions from PHP Holdings and such Designated Subsidiaries; and

(C) providing specimen signatures of the officers or authorized agents of each of PHP Holdings and such Designated Subsidiaries;

MPT CONFIDENTIAL MPT_PROSPECT_00011456

(viii) Certificates of existence and good standing of each of the Prospect Parties, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries, dated within thirty (30) days prior to such Closing Date, from each such entity's State of incorporation or formation and, to the extent in which the character of its properties or in which the transaction of its business makes such qualification necessary, from the States of California and Connecticut and the Commonwealth of Pennsylvania;

(ix) A closing statement in form and substance mutually satisfactory to the Parties, duly executed by each of the applicable Prospect Parties; and

(x) Such other amendments, certificates, financing statements, tax filings, instruments and documents as any of the MPT Parties reasonably deems necessary to effectuate the transactions contemplated hereby.

(b) Deliverables by MPT Parties. On or prior to the applicable Closing Date of the Phase III Transactions, each of the applicable MPT Parties shall deliver (or cause to be delivered) to the Prospect Parties the following:

(i) All documents and instruments required to be delivered by any of the MPT Parties pursuant to the Master Connecticut Agreement;

(ii) Amendments to the PHP Holdings LLC Agreement and any other documents reasonably necessary to evidence the issuance of the PHPH Series A-1 Preferred Units, duly executed by MPT Picasso TRS, if applicable;

(iii) A Default Representation, duly executed by the MPT Parties;

(iv) An Officers' Certificate in form and substance reasonably satisfactory to the Prospect Parties and executed by a duly authorized executive officer of MPT OP:

(A) certifying to the Prospect Parties on behalf of all of the MPT Parties that: (1) all of the representations and warranties of the MPT Parties set forth in this Agreement and the other Restructuring Documents are true and correct as of such Closing Date, and (2) the applicable MPT Parties have delivered, performed, observed and complied in all material respects with all of the items, instruments, documents, covenants, agreements and conditions required by this Agreement and the other Restructuring Documents to be delivered, performed, observed and complied with by such MPT Parties as of such Closing Date;

(B) certifying to the Prospect Parties on behalf of all of the MPT Parties that: (1) with respect to each of the MPT Parties, as to each of such MPT Parties' respective articles or certificate of incorporation, bylaws, operating agreements, limited liability company agreements, partnership agreements, and other similar organizational and governing documents, each as in effect on such Closing Date, and (2) each of the MPT Parties' Resolutions remain true, correct and in full force and effect as of such Closing Date; and

(C) providing specimen signatures of the officers or authorized agents of each of the MPT Parties;

MPT CONFIDENTIAL MPT_PROSPECT_00011457

(v) Certificates of existence and good standing of each of the MPT Parties, dated within thirty (30) days prior to such Closing Date, from the State of each such entity's incorporation or formation and, to the extent in which the character of its properties or in which the transaction of its business makes such qualification necessary, from the States of California and Connecticut and the Commonwealth of Pennsylvania;

(vi) A closing statement in form and substance mutually satisfactory to the Parties, duly executed by each of the applicable MPT Parties; and

(vii) Such other amendments, certificates, financing statements, tax filings, instruments and documents as any of the Prospect Parties reasonably deems necessary to effectuate the transactions contemplated hereby.

ARTICLE VI
ADDITIONAL COVENANTS AND OBLIGATIONS OF THE PROSPECT PARTIES

6.1. Cooperation. In addition to and without limiting the other terms and conditions contained in this Agreement, the Parties shall act in good faith and take all actions reasonably necessary to comply with their respective obligations set forth in this Agreement.

6.2. Information With Respect to PhysicianCo Term Loan. The Prospect Parties shall deliver to the MPT Parties complete, true, and correct copies of all of the PhysicianCo Term Loan Documents now or hereafter entered into by any of the Prospect Parties or their Affiliates. During the period in which any of the PhysicianCo Term Loan Documents remain in effect, the Prospect Parties shall provide the MPT Parties with reasonable access to all such PhysicianCo Term Loan Documents and promptly keep the MPT Parties informed regarding any of the Prospect Parties' negotiations or discussions with the PhysicianCo Term Loan Lenders (including, without limitation, providing copies of all material written notices and communications between the PhysicianCo Term Loan Lenders and any of the Prospect Parties) and drafts of any proposed agreements, modifications, acknowledgements or waivers prior to execution.

6.3. Bankruptcy Remote Entity. At all times that MPT Picasso TRS, or any of its Affiliates owns any Equity Interest (or securities convertible into an Equity Interest) in PHP Holdings, the applicable Prospect Parties shall: (a) except as specifically provided for in the PhysicianCo Term Loan Documents *executed as of the date hereof,* cause PHP Holdings to be operated as a Bankruptcy Remote Entity, (b) Prospect Medical shall own any of its Equity Interest (or securities convertible into Equity Interests) in PHP Holdings (and otherwise own any direct or indirect interest in the managed care business of PHP Holdings and its Subsidiaries as currently conducted by the Prospect Parties) only through ownership structures expressly provided for in this Agreement or as otherwise consented to in writing by the MPT Parties, and (c) except as specifically provided for in the PhysicianCo Term Loan Documents *executed as of the date hereof*, none of Prospect Medical or its other Affiliates (excluding PHP Holdings and its Subsidiaries) shall guarantee or otherwise obligate itself, with respect to the debts of any of PHP Holdings or its Subsidiaries.

6.4. Capital Transaction Covenants. Until such time as all of the Capital Transaction Covenant Conditions are satisfied in full, the HospitalCo Parties shall comply with the following covenants (each a "Capital Transaction Covenant" and collectively, the "Capital Transaction Covenants"):

(a) the HospitalCo Parties shall not, without the MPT Parties' prior written consent which may be given or denied in the MPT Parties' sole discretion, enter into or agree to enter into any Capital Transaction; *provided*, *however*, that the MPT Parties' prior written consent shall not be required for (i) any Capital

MPT CONFIDENTIAL MPT_PROSPECT_00011458

Transaction that involves aggregate consideration of Five Million and No/100 Dollars ($5,000,000.00) or less (whether in cash, securities, or other property), or (ii) any Permitted Transaction, so long as the Net Capital Proceeds are used to pay retained liabilities relating to such Permitted Transaction.

(b) the HospitalCo Parties shall not make any Distribution or investment of Net Capital Proceeds without the prior written consent of the MPT Parties; *provided, however*, the HospitalCo Parties shall be permitted to make intercompany distributions or transfers: (i) among Prospect Medical and its Subsidiaries (other than PHP Holdings and its Subsidiaries), or (ii) among PHP Holdings and its Subsidiaries, in each case solely to facilitate repayment of their respective Outstanding Obligations and any other obligations under, as applicable, the Obligation Documents (subject, in the case of PHP Holdings, to any applicable approval rights in the PHP Holdings LLC Agreement). For purposes of clarity, this Section 6.4(b) shall not restrict Prospect Medical or its Affiliates from consummating the Permitted Transactions, so long as the Net Capital Proceeds are used to pay retained liabilities relating to such Permitted Transaction.

(c) None of the HospitalCo Parties shall: (i) pay or allow any other Distributions, (ii) issue, redeem or purchase (directly or indirectly) any direct or indirect Equity Interests in Prospect Medical or any of its Affiliates, (iii) other than in the ordinary course of business, incur or guaranty any new Indebtedness (directly or indirectly), (iv) make any advances or loans to (or repay, in whole or part, any loans from) any of Prospect Medical's direct or indirect stockholders (or their respective Affiliates), or (v) permit any Encumbrance of any kind or nature whatsoever on (A) any Equity Interest of any of Prospect Medical or its Subsidiaries, or (B) any of the Net Capital Proceeds, in each case, except as expressly contemplated in this Agreement or following the prior written consent of the MPT Parties (in their sole and absolute discretion).

The breach of any Capital Transaction Covenant shall automatically constitute a "Major Event of Default" under and as defined in the applicable Obligation Documents. The Parties acknowledge and agree that the Merger shall be excluded from any restrictions set forth in this Section 6.4 and Section 6.5 and consummation of the Merger shall not be deemed a breach of this Section 6.4 and Section 6.5.

6.5. Additional Covenants of the Prospect Parties. In addition to the Capital Transaction Covenants, the HospitalCo Parties (as applicable) agree as follows:

(a) Any and all intercompany debt among the HospitalCo Parties and their Affiliates hereby is and shall be subordinated to the amounts owed to the applicable MPT Parties pursuant to the Obligation Documents (subject to the PhysicianCo Intercreditor Agreement).

(b) Prospect Medical shall provide to (or cause to be provided to) the MPT Parties all financial, operating and other data or information relating to any proposed Capital Transaction, as may be reasonably requested by the MPT Parties in connection with its due diligence review.

(c) The HospitalCo Parties shall (i) promptly inform the MPT Parties regarding any potential Capital Transactions, (ii) promptly provide to the MPT Parties copies of any indications of interest, or other agreements or documentation regarding any potential Capital Transaction that the HospitalCo Parties are interested in or otherwise desire to enter into, including without limitation, any term sheets or letters of intent executed by the HospitalCo Parties (it being understood that the HospitalCo Parties' execution of any binding agreements with respect to any Capital Transaction are subject to the terms and conditions of this Agreement), and (iii) reasonably cooperate with the MPT Parties and keep the MPT Parties reasonably informed of the status of any such transaction on a frequent basis or as otherwise requested from time to

time by the MPT Parties.

(d) The HospitalCo Parties will reasonably cooperate, at no cost to the HospitalCo Parties, with the MPT Parties regarding any actions by the MPT Parties relating to qualification and compliance matters relating to "real estate investment trusts" under the Code (or any related rules or regulations), including, without limitation, the filing of any "TRS" elections with respect to any of PHP Holdings' Subsidiaries, as reasonably deemed necessary or appropriate by the MPT Parties; *provided*, *that*, the Prospect Parties shall not be required to take any action that is not commercially reasonable or that would otherwise be materially detrimental to the Prospect Parties or their respective Affiliates. The MPT Parties shall pay to or reimburse the HospitalCo Parties within thirty (30) days demand for all reasonable expenses which may be incurred by the HospitalCo Parties or their Affiliates with respect to any cooperation or actions taken by the HospitalCo Parties or their Affiliates pursuant to this Section 6.5(d).

6.6. No Waiver of Rights. Nothing herein shall be deemed (a) to obligate the MPT Parties to consent to any Capital Transaction, or (b) to limit or modify the consent rights of the MPT Parties with respect to any Capital Transaction otherwise set forth herein or any other rights and remedies of the MPT Parties set forth in any of the Obligation Documents.

6.7. Delivery of Audited Financial Statements. As soon as reasonably practicable, but in no event more than five (5) days after completion, the Prospect Parties shall deliver to the MPT Parties true, correct and complete copies of the audited consolidated balance sheets of Prospect Medical, PHP Holdings, and each of their respective Subsidiaries as of September 30, 2022, and the related audited consolidated statements of income, cash flow and changes in stockholders' equity of Prospect Medical and its Subsidiaries (excluding PHP Holdings) for the fiscal year then ended, and the related unaudited consolidated statements of income, cash flow and changes in stockholders' equity of PHP Holdings for the fiscal year then ended.

ARTICLE VII
REPRESENTATIONS AND WARRANTIES OF PROSPECT PARTIES

Each of (i) Prospect Medical and its Designated Subsidiaries, jointly and severally, and (ii) PHP Holdings and its Designated Subsidiaries, jointly and severally, in each case hereby represent, warrant and covenant to the MPT Parties as follows:

7.1. Existence; Good Standing; Enforceability.

(a) Each of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries is a corporation or limited liability company (as applicable) duly formed, validly existing, and in good standing under the laws of the applicable State of its formation. Each of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries has all requisite power and authority to own, operate, and lease its properties and carry on its business as currently conducted. Each of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries is duly licensed and qualified to do business as a foreign entity and is in good standing under the laws of each jurisdiction in which the character of its properties or in which the transaction of its business makes such qualification necessary except where failure to be so qualified, licensed or in good standing would not individually or in the aggregate be material to Prospect Medical, PHP Holdings, and their respective Designated Subsidiaries, and the Other Applicable Subsidiaries. The copies of the respective articles or certificate of incorporation, bylaws, operating agreements, limited

liability company agreements, partnership agreements, and other similar organizational and governing documents (collectively, the "Governing Documents") of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries, each as amended to date and provided by Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries to the MPT Parties, are complete and correct, and no amendments thereto are pending. Each of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries is in compliance with its Governing Documents in all material respects.

(b) Each of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries has all requisite power and authority to execute and deliver this Agreement and each other Restructuring Document to which it is or will become a party and to perform its obligations hereunder and thereunder. The execution and delivery of this Agreement and each other Restructuring Document to which any of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries is a party, the performance by Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries of respective their obligations hereunder and thereunder and the consummation of the transactions contemplated hereby and thereby have been duly authorized by all necessary action on the part of all of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries, and no further action on the part of any of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries is necessary to authorize the execution and delivery by Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries of this Agreement or such other Restructuring Documents, and the consummation of the transactions contemplated hereby and thereby, except for approvals from any Governmental Bodies, and informational filings with Governmental Bodies, required under applicable legal requirements, as further addressed in Section 7.3(b) hereof.

(c) This Agreement and the other Restructuring Documents to which any of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries is or will become a party have been (or with respect to certain Restructuring Documents to be executed after the date hereof, will be) duly executed and delivered by Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries and, assuming the due authorization, execution and delivery of this Agreement and such other Restructuring Documents by each of the other Parties hereto and thereto, constitute (or, as applicable with respect to certain Restructuring Documents to be executed after the date hereof, shall constitute) legal, valid and binding obligations of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries, enforceable against Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries, as applicable in accordance with the terms and conditions hereof and thereof, except as such enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors' rights generally and by general equitable principles (regardless of whether enforcement is sought in a proceeding at law or in equity).

7.2. Capitalization of PHP Holdings.

(a) The PHP Holdings LLC Agreement executed contemporaneously herewith sets forth a description of all of the Equity Interests of all of its members outstanding as of the date hereof. The Prospect Organizational Chart is complete, true, and correct in all respects, and discloses all of the respective Subsidiaries and other Persons owned in whole or in party, directly or indirectly, by an of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, or the Other Applicable Subsidiaries, all of which

are held of record on the date hereof by the Persons described therein effective immediately at the closing of the Phase I Transactions.

(b) Except as expressly set forth in this Agreement, the PHP Holdings LLC Agreement, the Phase I Convertible Note, and the other Governing Documents of PHP Holdings and its Designated Subsidiaries, each as amended to date and provided by the Prospect Parties to the MPT Parties: (i) there are no outstanding subscriptions, options, warrants, commitments, preemptive rights, deferred compensation rights, agreements, arrangements or commitments of any kind to which any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries is a party relating to the issuance of, or outstanding securities convertible into or exercisable or exchangeable for, any Equity Interest of PHP Holdings or any of its Designated Subsidiaries, (ii) there are no agreements to which Prospect Holdings, PHP Holdings, or any of their respective Designated Subsidiaries is a party with respect to the voting of any shares of Equity Interest of PHP Holdings or any of its Designated Subsidiaries or which restrict the transfer of any such Equity Interests, and (iii) there are no outstanding contractual obligations of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries to repurchase, redeem or otherwise acquire any shares of Equity Interests or any other securities of PHP Holdings or any of its Designated Subsidiaries.

7.3. No Conflict; Consents.

(a) Except as set forth on ***Schedule 7.3(a)***, and provided any required approvals from Governmental Bodies are obtained, and required information filings with Governmental Bodies are made, as further addressed in Section 7.3(b) below, the execution and delivery by each of Prospect Medical, PHP Holdings, their Designated Subsidiaries, and the Other Applicable Subsidiaries of this Agreement and each other Restructuring Document to which each of them is (or will become) a party, and the consummation of the transactions contemplated hereby and thereby in accordance with their respective terms, do not: (i) violate, conflict with or result in a default (whether after the giving of notice, lapse of time or both) under, or give rise to a right of termination, amendment, acceleration or cancellation of, or result in the triggering of any payments or the creation of an Encumbrance on any property or asset of any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries under any Material Contract or License (including, without limitation, all Healthcare Licenses) to which any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries is a party or by which any of their respective assets are bound; (ii) conflict with, or result in any violation of, any provision of their respective Governing Documents; or (iii) violate or result in a violation of or constitute a default under (whether after the giving of notice, lapse of time or both), or result in the triggering of any payments or the creation of an Encumbrance on any property or asset of any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries under any provision of any law, regulation or rule, or any order of, or any restriction imposed by, any court or other Governmental Body applicable to any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries, including, without limitation, all applicable Laws regarding the paying, making, or declaring dividends or distributions by any of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries, except in the case of clause (i) and (iii) above, for such conflicts, violations, breaches, defaults or failure to receive consents that would not individually or in the aggregate be material to any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries.

(b) The execution and delivery by Prospect Medical, PHP Holdings, and their respective Designated Subsidiaries of this Agreement and each other Restructuring Document to which any of them is (or will become) a party, and the consummation by Prospect Medical, PHP Holdings, any of their respective

Designated Subsidiaries or any Other Applicable Subsidiaries of the transactions contemplated hereby and thereby in accordance with their respective terms, do not require from Prospect Medical, PHP Holdings, any of their respective Designated Subsidiaries or any Other Applicable Subsidiaries any notice to, declaration or material filing with, or material consent or approval of any Governmental Body, except for as otherwise set forth on ***Schedule 7.3(b)***.

7.4. Financial Statements.

(a) ***Schedule 7.4(a)*** sets forth true, correct and complete copies of (i) the audited consolidated balance sheets of Prospect Medical and its Subsidiaries as of September 30, 2021 (the "Audited Balance Sheet"), and the related audited consolidated statements of income, cash flow and changes in stockholders' equity of Prospect Medical and its Subsidiaries for the fiscal year then ended (the "Audited Financials"), (ii) in all material respects, the unaudited consolidated balance sheets of Prospect Medical and its Subsidiaries and PHP Holdings and its Subsidiaries as of September 30, 2022 (the "Balance Sheet Date") and the related unaudited consolidated statements of income, and cash flow of Prospect Medical and its Subsidiaries for the fiscal year then ended and the related unaudited consolidated statements of income of PHP Holdings and its Subsidiaries for the fiscal year then ended (the "Most Recent Annual Financials"), (iii) in all material respects, the unaudited consolidated balance sheets of Prospect Medical, PHP Holdings, and each of their respective Subsidiaries as of March 31, 2023, and the related unaudited consolidated statements of income and cash flow of Prospect Medical, PHP Holdings, and each of their respective Subsidiaries for the six (6) months then ended (the "Most Recent Balance Sheet"), and (iv) the consolidated pro forma consolidated statements of income of PHP Holdings and its Subsidiaries for the twelve (12) month period ending on March 31, 2023 (the "PHP Holdings Pro Forma Financials" and, together with the Audited Financials, the Most Recent Annual Financials, and the Most Recent Balance Sheet, the "Financial Statements").

(b) The Financial Statements fairly present, in all material respects, the consolidated financial position of Prospect Medical, PHP Holdings, and each of their respective Subsidiaries, as of the respective dates thereof, and the results of operations and the changes in cash flows of Prospect Medical, PHP Holdings, and their respective Subsidiaries, for the respective periods set forth therein; *provided, that*, the PHP Holdings Pro Forma Financials fairly present, in all material respects, the consolidated financial position of PHP Holdings and its Subsidiaries on a pro forma basis and the projections and assumptions expressed therein were prepared in good faith and represent management's opinion based on the information available to PHP Holdings at the time of this Agreement and, since the preparation thereof, there has occurred no change in the business, financial condition, operations, or prospects of any of PHP Holdings or any of its Subsidiaries, or PHP Holdings and its Subsidiaries taken as a whole, which has had or could reasonably be expected to have a Material Adverse Effect on PHP Holdings, its Subsidiaries, or the Managed Care Business. Each of the Financial Statements (including all related notes) (i) is consistent with the books and records of the applicable Prospect Parties, (ii) was derived from the books and records of the applicable Prospect Parties, and (iii) has been prepared, in all material respects, in accordance with GAAP applied on a consistent basis during the periods involved, except (A) any deviations as are otherwise specifically noted therein, (B) in the case of the Most Recent Balance Sheet, subject to normal year-end adjustments and the absence of footnote disclosures, none of which, individually or in the aggregate, will be material, and (C) in the case of the PHP Holdings Pro Forma Financials, which were prepared on a pro forma basis as described herein.

(c) Prospect Medical, PHP Holdings, and their respective Subsidiaries maintain internal controls designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the financial statements of Prospect Medical, PHP Holdings, and their respective Subsidiaries, including

the Financial Statements. None of the boards of directors or managers of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries or any audit committee of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries have been advised by their accountants or consultants of: (i) any significant deficiencies or material weaknesses in the design or operation of the internal controls over financial reporting of any of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries which would reasonably be expected to materially and adversely affect its ability to record, process, summarize and report financial data relating to the business of Prospect Medical, PHP Holdings, and their respective Subsidiaries or (ii) any fraud, whether or not material, that involves management or other employees who have a role in the internal controls over financial reporting of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries. The books and records of Prospect Medical, PHP Holdings, and their respective Subsidiaries are and have been properly prepared and maintained in form and substance adequate in all material respects for preparing audited consolidated financial statements, in accordance with GAAP and any other applicable legal and accounting requirements.

7.5. No Undisclosed Liabilities. None of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries has any material Liabilities *except*: (a) as reflected in or reserved against in the Financial Statements, (b) as set forth on ***Schedule 7.5***, (c) for liabilities incurred in the Ordinary Course of Business, (d) for liabilities under an executory portion of a Contract that have not yet been performed, (e) for Liabilities under this Agreement or entered into in connection herewith, or (f) Liabilities that are not material to Prospect Medical, PHP Holdings, or any of their respective Subsidiaries (as applicable).

7.6. Title to Personal Property; Related Matters. Except for Priming Liens and Permitted Encumbrances, and except as set forth on ***Schedule 7.6***, Prospect Medical, PHP Holdings, and their respective Designated Subsidiaries own, have a valid leasehold interest in, or a valid license to use, all of the material tangible personal properties, assets and equipment owned or used by any of Prospect Medical, PHP Holdings, or their respective Designated Subsidiaries and necessary in connection with the ownership and operation of the Facilities and the Managed Care Business, as applicable.

7.7. Absence of Litigation; Orders.

(a) Except as set forth on ***Schedule 7.7(a)***, there is no, and since the Balance Sheet Date there has not been any claim, demand, citation, action, arbitration, suit, litigation, complaint, proceeding or investigation of any kind whatsoever, at law or in equity (including actions or proceedings seeking injunctive relief), by or before any Governmental Body ("Litigation") pending or, to the Knowledge of the Prospect Parties, threatened by or against Prospect Medical, PHP Holdings, or any of their respective Subsidiaries or affecting any of their respective properties or assets, other than (i) claims made in the Ordinary Course of Business with respect to professional liability which do not seek class status and which are fully insured (subject to any applicable deductibles), (ii) claims that do not involve amounts in excess of $1,000,000 or are otherwise not reasonably expected to be material to Prospect Medical, PHP Holdings, or any of their respective Subsidiaries, and (iii) investigations which have not resulted, and would not reasonably be expected to result in, a civil or criminal subpoena, civil investigative demand, or other similar formal initiation of investigation proceedings.

(b) Except as set forth on ***Schedule 7.7(b)***, none of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries is, and since the Balance Sheet Date has been a party to or subject to, or in violation, default or breach under, any judgment, order, injunction, stipulation, settlement agreement, consent agreement, memorandum of understanding, disciplinary agreement, decree, ruling, writ, assessment or arbitration award of, or entered into by or with any, Governmental Body ("Orders") applicable to Prospect

MPT CONFIDENTIAL MPT_PROSPECT_00011464

Medical or such Subsidiaries or any of their respective properties or assets, except for such violation, default or breach which would not, individually or in the aggregate, be material to any of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, or any Other Applicable Subsidiaries.

(c) Except as set forth on ***Schedule 7.7(c)***, since the Balance Sheet Date, none of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries: (i) has received any written notification or, to the Knowledge of the Prospect Parties, any other communication from any Governmental Body asserting that any of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries is not in compliance in any material respect with any Order, or (ii) entered into or been subject to any material Order.

7.8. Taxes.

(a) Each of such Prospect Parties and their respective Subsidiaries has (i) filed or caused to be filed with the appropriate Governmental Bodies all income and other material Tax Returns required to be filed by it, and (ii) paid all Taxes due and payable by it to the appropriate Governmental Body, except to the extent such amounts are being contested in good faith and for which appropriate reserves have been established in accordance with GAAP. All such Tax Returns were correct and complete in all material respects solely in relation to the ultimate Tax liability calculated and reflected on such Tax Returns.

(b) Except as set forth on ***Schedule 7.8(b)***, there are no outstanding waivers or agreements regarding the application of the statute of limitations with respect to any material Taxes or material Tax Returns of any of the Prospect Parties or their respective Subsidiaries (other than pursuant to an extension of time to file).

(c) No unresolved federal, state, local or foreign audits or other administrative proceedings have been formally commenced or are pending with regard to any Taxes or Tax Returns of any of the Prospect Parties or their respective Subsidiaries for which any of the Prospect Parties or their respective Subsidiaries has not made adequate provisions (in accordance with GAAP), and no written or, to the Knowledge of the Prospect Parties, any other notification has been received by any of the Prospect Parties or their respective Subsidiaries that such an audit or other proceeding has been proposed or, to the Knowledge of the Prospect Parties, threatened.

(d) The provision for Taxes on the Most Recent Balance Sheet is sufficient for all accrued and unpaid Taxes of any of the Prospect Parties and their respective Subsidiaries as of the date thereof, and will be sufficient for all accrued and unpaid Taxes of any of the Prospect Parties and their respective Subsidiaries through the end of the applicable Closing Date as adjusted for the passage of time through the end of the applicable Closing Date in accordance with the past custom and practice of Prospect Medical, PHP Holdings, and each of their respective Subsidiaries in filing their Tax Returns.

(e) No unresolved written claim has been made by a Governmental Body with respect to Taxes in a jurisdiction where any of the Prospect Parties or their respective Subsidiaries does not file Tax Returns that any of such Prospect Parties or Subsidiaries is or may be subject to taxation by or required to file Tax Returns in that jurisdiction.

(f) There are no Encumbrances for Taxes (other than Permitted Encumbrances) upon any of the Facilities or the Managed Care Business.

(g) Except as set forth on ***Schedule 7.8(g)***, none of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries are party to any Tax abatement agreements relating to any of its properties or assets.

7.9. Employee Benefit Plans/ERISA.

(a) ***Schedule 7.9(a)*** sets forth the "Benefit Plans" which are defined as (i) each employee benefit plan within the meaning of Section 3(3) of ERISA that is sponsored or maintained by any of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries, and (ii) each "multiemployer plan" as defined in Section 3(37) of ERISA to which any of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries is obligated to contribute as of the date hereof or has been so obligated within the preceding six (6) years pursuant to a collective bargaining agreement or participation agreement (a "Multiemployer Plan"). There has been no termination or partial termination of any Benefit Plan within the meaning of Section 411(d)(3) of the Code.

(b) Except as disclosed in ***Schedule 7.9(b)***, (i) all amounts that are required under the terms of any collective bargaining agreement or participation agreement to be paid as contributions to a Multiemployer Plan on or prior to the Closing Date have been paid; (ii) no accumulated funding deficiency or liquidity shortfall (as those terms are defined in Section 302 of ERISA and Section 412 of the Code), whether or not waived, exists with respect to the Multiemployer Plan; (iii) the value of the assets of each Multiemployer Plan exceeds the amount of all benefit liabilities (determined on an ongoing basis using the actuarial assumptions currently in effect for the Multiemployer Plan) of such Multiemployer Plan. The funded status of each Benefit Plan is disclosed on ***Schedule 7.9(b)*** in a manner consistent with the Accounting Standards Codification 715. None of the transactions contemplated in this Agreement will subject any of Prospect Medical, PHP Holdings, or their respective Designated Affiliates or any of the MPT Parties to any withdrawal liability under Part 1 of Subtitle E of Title IV of ERISA as a "complete withdrawal" (as defined in ERISA Section 4203) or a "partial withdrawal" (as defined in ERISA Section 4205) from any Multiemployer Plan.

(c) Except as set forth on ***Schedule 7.9(c)***, the Benefit Plans have been administered in accordance with the applicable provisions of ERISA and the Code, and are in compliance with all other applicable laws and regulations respecting such Benefit Plans. None of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries has any liability for (i) any lien imposed under Section 303(k) of ERISA or Section 430(k) of the Code, or (ii) for any interest payments required under Section 303(j) of ERISA or Section 430(j) of the Code.

(d) Except as set forth on ***Schedule 7.9(d)***, neither the execution and delivery of this Agreement and the other Restructuring Documents, nor the consummation of the transactions contemplated hereby and thereby, will result (i) in any "parachute payment" as defined in Section 280G of the Code, (ii) any "change in control" or other payment under any Benefit Plan or employment agreement or non-qualified deferred compensation plan or agreement, (iii) entitle any current or former director, officer, employee or consultant of any of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries to severance pay, termination pay, unemployment compensation or any other payment or benefit under any Benefit Plan, (iv) accelerate the time of payment or vesting of benefits, or increase the amount of compensation, due to any such director, officer, employee or consultant under any Benefit Plan, (v) trigger any funding obligation under any Benefit Plan, or (vi) impose any restrictions or limitations on the sponsoring employer's rights to administer, amend or terminate any Benefit Plan.

(e) Except as set forth on ***Schedule 7.9(e)***, no "reportable event" within the meaning of Section 4043 of ERISA has occurred with respect to any Benefit Plan in the prior three (3) years and with respect to any of the transactions contemplated in this Agreement, to the extent such transaction is a reportable event, with respect to which the reporting requirement has not been waived, each Prospect Medical, PHP Holdings, and/or their respective Subsidiaries has provided (or intends to provide) to the PBGC the required notice of such reportable event in all cases as required by all applicable laws and requisite reporting period.

7.10. Labor Matters.

(a) Except as set forth on ***Schedule 7.10(a)***, none of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries is a party to any collective bargaining agreement or similar Contract with any labor organization or other employee representative body (a "Collective Bargaining Agreement").

(b) No grievance, unfair labor practice charge, or arbitration proceeding arising out of or under any Collective Bargaining Agreement, which could reasonably be anticipated to result in liability in excess of One Million and No/100 Dollars ($1,000,000.00), is pending.

(c) Since the Look-Back Date, there has not been, nor is there, any pending or, to the Knowledge of the Prospect Parties, any threatened (i) material labor dispute between Prospect Medical, PHP Holdings, or any of their respective Subsidiaries with any labor organization, or any material strike, work slowdown, work stoppage or other similar organized labor activity involving any employee of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries, which could reasonably be anticipated to result in liability in excess of One Million and No/100 Dollars ($1,000,000.00) or (ii) union organizing, or union election activity involving any employee of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries with respect to their employment by Prospect Medical, PHP Holdings, or any of their respective Subsidiaries which could reasonably be anticipated to result in liability in excess of One Million and No/100 Dollars ($1,000,000.00).

(d) Each of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries is, and has been since the Look-Back Date, in compliance in all material respects with all Laws regarding labor, employment and employment practices, and conditions of employment, including occupational safety and health, immigration, discrimination, harassment, wrongful termination, misclassification of employees and independent contractors, and wages and hours, including any bargaining or other obligations under the National Labor Relations Act. Except as set forth on ***Schedule 7.7(a)***, there are no complaints, actions, suits, investigations, or other Litigation pending or, to the Knowledge of the Prospect Parties, threatened against Prospect Medical, PHP Holdings, or any of their respective Subsidiaries in connection with the employment of any current or former employee or temporary employee or current or former independent contractor that would reasonably be expected to result in material liability to, or have a material impact on, Prospect Medical, PHP Holdings, or any of their respective Subsidiaries, taken as a whole.

(e) Each of Prospect Medical, PHP Holdings, and their respective Subsidiaries is (and has been since the Look-Back Date), in material compliance with the Worker Adjustment and Retraining and Notification Act ("WARN") and similar state Laws and has no material Liabilities pursuant thereto. Each of Prospect Medical, PHP Holdings, and their respective Subsidiaries have not implemented a "mass layoff" or "plant closing" (as defined in WARN) within the last twelve months preceding the date hereof.

(f) Each of Prospect Medical, PHP Holdings, and their respective Subsidiaries have been, and is, in compliance and has not violated, the terms of the Immigration Reform and Control Act of 1988, as

amended, and all related regulations promulgated thereunder and any other immigration laws, except, in each case, as would not reasonably be expected to result in any material Liability for Prospect Medical, PHP Holdings, and their respective Subsidiaries. Since the Look-Back Date, none of Prospect Medical, PHP Holdings, or their respective Subsidiaries have been warned, fined, or otherwise penalized by any Governmental Body by reason of its failure to materially comply immigration laws.

7.11. Contracts and Commitments; Enforceability.

(a) Each of the Material Contracts is the legal, valid and binding obligation of Prospect Medical, PHP Holdings, and/or their respective Designated Subsidiaries (and, to the Prospect Parties' Knowledge, of the other parties thereto), enforceable against them (and, to the Prospect Parties' Knowledge, of the other parties thereto), in accordance with its terms, except as such enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium and similar laws affecting creditors' rights generally and by general equitable principles (regardless of whether enforcement is sought in a proceeding at law or in equity).

(b) Further (i) each Material Contract is in full force and effect, (ii) none of Prospect Medical, PHP Holdings, any of their respective Designated Subsidiaries, or any Other Applicable Subsidiaries is and, to the Knowledge of the Prospect Parties, no other party to any such agreement is in default under any such agreement, (iii) no party has received any unresolved written notice of any default, offset, counterclaim or defense under any Material Contract, and (iv) to the Prospect Parties' Knowledge, no condition or event has occurred which with the passage of time or the giving of notice or both would constitute a default or breach by any of Prospect Medical, PHP Holdings, any of their respective Designated Subsidiaries, or any Other Applicable Subsidiaries under the terms of any Material Contract, in each case except for such matters, defaults or breaches as to which requisite waivers or consents have been obtained and except for such matters, defaults or breaches that would not individually or in the aggregate be material to any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries.

7.12. Insurance.

(a) ***Schedule 7.12(a)*** contains a complete and correct list of all material insurance policies maintained by, on behalf of or for the benefit of any of Prospect Medical, PHP Holdings, and their respective Designated Subsidiaries as of the date hereof (the "Insurance Policies"). The Insurance Policies are in full force and effect, no written notice of default or termination has been received in respect thereof and all premiums due thereon have been paid. None of Prospect Medical, PHP Holdings, or their respective Designated Subsidiaries is in material breach or default, and neither Prospect Medical nor any Subsidiary of Prospect Medical has taken any action or failed to take any action which, with notice or the lapse of time, would constitute such a material breach or default, or permit termination or modification, of any of the Insurance Policies.

(b) ***Schedule 7.12(b)*** sets forth a list of all claims involving a sum of money for a potential loss in excess of One Million and No/100 Dollars ($1,000,000.00) made by any of Prospect Medical, PHP Holdings, and their respective Subsidiaries since the Look-Back Date against any insurer in respect of coverage under any insurance policy.

(c) Except as set forth on ***Schedule 7.12(c)***, there are no claims involving a sum of money for a potential loss in excess of One Million and No/100 Dollars ($1,000,000.00) by any of Prospect Medical, PHP Holdings, and their respective Subsidiaries pending under any Insurance Policies as to which coverage

has been questioned, denied or disputed by the underwriters of such Insurance Policies or bonds or in respect of which such underwriters have reserved their rights.

(d) Except as set forth in ***Schedule 7.12(d)***, none of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries has any self-insurance or co-insurance programs.

7.13. Licenses; Reimbursement; Accreditation.

(a) ***Schedule 7.13(a)*** contains a complete and accurate list, as of the date hereof, of all material Healthcare Licenses.

(b) Except as set forth in ***Schedule 7.13(b)***, Prospect Medical, PHP Holdings, and their respective Designated Subsidiaries and/or the Facilities and each Person operating any portion of the Managed Care Business, as applicable, possess all material Healthcare Licenses, and such material Healthcare Licenses are in full force and effect.

(c) Except as set forth on ***Schedule 7.13(c)***, (i) Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries are in compliance, in all material respects, with the requirements of all material Healthcare Licenses, (ii) no suspension or cancellation of any such Healthcare Licenses is pending, or to the Knowledge of the Prospect Parties, threatened, and (iii) none of Prospect Medical, PHP Holdings, or their respective Designated Subsidiaries have received any written notice from any Governmental Body with respect to, as applicable, the threatened or pending denial, revocation, termination, or suspension of any of the material Healthcare Licenses.

7.14. Healthcare Compliance.

(a) In each case except as set forth on ***Schedule 7.14(a)***, the businesses and operations of Prospect Medical, PHP Holdings, and each of their respective Subsidiaries are, and since the Look-Back Date have been, to the Knowledge of the Prospect Parties, in compliance in all material respects with all applicable Healthcare Laws. In each case except as set forth in ***Schedule 7.14(a)***, there is no material Litigation pending or, to the Knowledge of the Prospect Parties, threatened against Prospect Medical, PHP Holdings, or any of their respective Subsidiaries, alleging any material failure to comply with Healthcare Laws which would have a Material Adverse Effect on Prospect Medical or PHP Holdings, or any of their respective Subsidiaries.

(b) In each case except as set forth in ***Schedule 7.14(b)***, since the Look-Back Date, none of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries: (i) has been assessed a civil monetary penalty under Section 1128A of the Social Security Act, (ii) has been excluded, suspended, debarred from, or convicted of a crime that would reasonably be expected to lead to any such exclusion, suspension or debarment from, participation in any Government Program, (iii) has been subject to either mandatory or permissive exclusion from participation in any Government Program pursuant to 42 USC § 1320a-7, (iv) has been convicted of, or, to the Knowledge of the Prospect Parties, charged with, a violation of any Healthcare Law related to fraud, theft, embezzlement, bribe, payoff, kickback or inducement, whether of money, property or services; or (v) listed on the "General Services Administration" published list of parties excluded from federal procurement programs and non-procurement programs.

(c) In each case except as set forth in ***Schedule 7.14(c)***, (i) to the Knowledge of the Prospect Parties, all billing practices (including, without limitation, billing, coding, filing and claims practices) of Prospect Medical, PHP Holdings, and each of their respective Subsidiaries with respect to all Payor Programs are,

MPT CONFIDENTIAL MPT_PROSPECT_00011469

and since the Look-Back Date have been, conducted in material compliance with all Healthcare Laws and in material compliance with any applicable policies, procedures, rules and requirements of any such Payor Programs; (ii) to the Knowledge of the Prospect Parties, there is not pending or threatened any material recoupment, repayment, or other similar action sought by any Payor Program which exceeds $250,000 (individually) against Prospect Medical, PHP Holdings, or any of their respective Subsidiaries not in the Ordinary Course of Business; and (iii) to the Knowledge of the Prospect Parties, no material fine, penalty or sanction in connection with a Payor Program has been imposed by any Governmental Body on any of Prospect Medical, PHP Holdings, or their respective Subsidiaries.

(d) Each of (i) Prospect Medical, (ii) PHP Holdings, (iii) their respective Designated Subsidiaries, (iv) the Facilities, and (v) the Persons operating the Managed Care Business (as applicable), hold all material Healthcare Licenses which are currently necessary to own, lease or otherwise hold and operate their properties and assets and to conduct their respective businesses as currently conducted, and will maintain all such Healthcare Licenses up to the Closing Dates subject to applicable laws, including requirements by such Governmental Body that a new Healthcare License is required, which Healthcare License may be issued following the applicable Closing Date.

(e) All material Contracts between third party payors and any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries (each, a "Payor Contract") were entered into in the Ordinary Course of Business. Prospect Medical, PHP Holdings, and their respective Designated Subsidiaries are, to the Knowledge of the Prospect Parties, in compliance with all Payor Contracts in all material respects, subject to any disputes with any third party payors being undertaken in the Ordinary Course of Business and any disputes which have been resolved.

(f) Each of the Facilities and the Persons operating the Managed Care Business, as applicable: (i) is enrolled and is a provider authorized to participate under the Government Programs; (ii) is in compliance in all material respects with all the conditions of participation for the Government Programs, (iii) has received all material approvals or qualifications necessary for capital reimbursement; and (iv) is in compliance in all material respects with 42 C.F.R. §§ 489.20 and 489.24 and their Medicare provider agreements.

(g) Set forth on ***Schedule 7.14(g)*** is a true and complete list and description (including locations) of all Healthcare Care Facilities (as that term is defined in the Code) owned or leased by PHP Holdings and its Subsidiaries (including, without limitation, all primary care centers, urgent care centers, physician clinics, and other ancillary healthcare centers now or hereafter to be operated as part of the Managed Care Business).

(h) As of the date hereof, none of PHP Holdings, its Subsidiaries or any other Person in which PHP Holdings or a Subsidiary of PHP Holdings owns any Equity Interests, directly or indirectly: (i) operates or manages, for itself or for any other entity, any Lodging Facility or Health Care Facility, or (ii) provides to any Person (under a franchise, license, or otherwise) rights to any brand name under which any Lodging Facility or Health Care Facility is operated. Except for the anticipated acquisition of the operations of Alta Newport in the Phase II Transaction, which will be operated and managed subject to the Management Agreement, as of the date hereof, PHP Holdings and its Subsidiaries have no present intention to conduct the activities described in clauses (i) and (ii) above.

MPT CONFIDENTIAL MPT_PROSPECT_00011470

(i) As of the date hereof, PHP Holdings is under no contractual obligation to acquire any business entities or to organize and own any interests in any business entity in addition to the current Designated Subsidiaries of PHP Holdings.

(j) As of the date hereof none of PHP Holdings, its Subsidiaries, or any other Person in which any of them own any Equity Interests, directly or indirectly, holds a license to operate a Health Care Facility, to provide medical services, dispense pharmaceuticals, or conduct any other health care related activities and, except with respect to the operations of Alta Newport as described above, PHP Holdings, its Subsidiaries, and all other Person in which any of them own any Equity Interests have no present contractual obligation to acquire any such license.

(k) To the extent PHP Holdings, its Subsidiaries, and any other Person in which PHP Holdings or its Subsidiaries directly owns any Equity Interests contracts with or employs physicians and other licensed medical care providers to provide primary care medical services to patients to the Knowledge of the Prospect Parties such primary medical care services are provided under the license authority of the licensed physician or other licensed medical care provider and all participation in the Medicare program with respect to such primary care medical services is through such licensed professionals and absent a valid reassignment by such licensed medical care provider of such billing rights to such entity or otherwise legally compliant arrangement not through any license held by, as applicable, PHP Holdings, its Subsidiaries, or any other Person in which PHP Holdings or its Subsidiaries directly own any Equity Interests.

7.15. Transactions with Affiliates. ***Schedule 7.15*** sets forth a complete and correct list as of the date hereof of all Contracts requiring annual payments in excess of Five Hundred Thousand Dollars ($500,000) currently in effect between any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries, on the one hand, and any Person that is an Affiliate of any of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries, on the other hand (other than Contracts for compensation and benefits received as employees, directors, officers or consultants of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries).

7.16. No Brokers. None of Prospect Medical, PHP Holdings, or any of their respective Designated Subsidiaries has entered into any contract, arrangement or understanding with any Person or firm that may result in the obligation of such entity or any of the MPT Parties or their Affiliates to pay any finder's fees, brokerage or agent's commissions or other like payments in connection with the negotiations leading to this Agreement or consummation of the transactions contemplated in this Agreement.

7.17. Patriot Act Compliance.

(a) To the extent applicable to Prospect Medical, PHP Holdings, or any of their respective Subsidiaries, each of them has complied in all material respects with the International Money Laundering Abatement and Anti-Terrorist Financing Act of 2001, which comprises Title III of the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "Patriot Act") and the regulations promulgated thereunder, and the rules and regulations administered by the U.S. Treasury Department's Office of Foreign Assets Control ("OFAC").

(b) None of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries is included on the List of Specially Designated Nationals and Blocked Persons maintained by the OFAC, and none of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries is a resident in, or organized or chartered under the laws of, (i) a jurisdiction that has been designated by the U.S. Secretary of the Treasury under

Section 311 or 312 of the Patriot Act as warranting special measures due to money laundering concerns or (ii) any foreign country that has been designated as non-cooperative with international anti-money laundering principles or procedures by an intergovernmental group or organization, such as the Financial Action Task Force on Money Laundering, of which the United States is a member and with which designation the United States representative to the group or organization continues to concur.

7.18. Ability to Grant Security Interest. Subject to the provisions of the PhysicianCo Intercreditor Agreement, Prospect Medical, its Designated Subsidiaries (other than Alta Newport Hospital, LLC), and any Other Applicable Subsidiaries, as applicable, may grant the MPT Parties the first priority security interests to the extent contemplated under the Obligation Documents and each of the Restructuring Documents in all of (a) the outstanding Equity Interest of each of Prospect Medical's Designated Subsidiaries and the Other Applicable Subsidiaries subject to the Amended and Restated Pledge Agreement, and (b) the Licenses (including, without limitation, the Healthcare Licenses); *provided, however*, it is acknowledged that in the event the MPT Parties seek to exercise remedies in connection with such liens, the transfer of such Equity Interests and Licenses, may require the parties to undertake change of ownership processes with, provide notices to and seek approvals from Governmental Bodies, as further contemplated and addressed in the Obligation Documents.

7.19. Licenses/Compliance with Laws. Except as set forth on ***Schedule 7.19***, (i) each of Prospect Medical, PHP Holdings, their respective Designated Subsidiaries, and the Other Applicable Subsidiaries possess all material Licenses required under applicable Laws to own, lease and operate its properties and assets and to carry on its business as currently operated, and (ii) there is no Litigation or Order pending or, to the Knowledge of the Prospect Parties, threatened regarding the revocation, suspension, cancellation, withdrawing, modification or limitation of any such material License or a declaration of any such License as invalid. Except as set forth on ***Schedule 7.19***, each material License is in full force and effect, and each of Prospect Medical, PHP Holdings, and their respective Subsidiaries is in compliance in all material respects with such License (and its obligations with respect to such License) and with all Laws and Orders applicable to it or by or to which any of its properties or assets is bound or subject, and none of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries has received any written notice alleging material non-compliance.

7.20. Solvency.

(a) Prospect Medical and each of its subsidiaries (other than PHP Holdings and its Subsidiaries), and PHP Holdings and each of its Subsidiaries will each be Solvent immediately after giving effect to each of the transactions contemplated herein (including with respect to the obligations under the PhysicianCo Term Loan Documents).

(b) No transfer of property is being made and no obligation is being incurred in connection with the transactions contemplated herein with the intent to hinder, delay, or defraud either present or future creditors of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries.

(c) None of Prospect Medical, PHP Holdings, or any of their respective Subsidiaries are involved in any proceeding by or against it as a debtor before any Governmental Bodies under Title 11 of the United States Bankruptcy Code or any other insolvency or debtors' relief act, whether state, federal or foreign, or for the appointment of a trustee, receiver, liquidator, assignee, sequestrator or other similar official for any part of any properties of any of Prospect Medical, PHP Holdings, or their respective Subsidiaries.

7.21. Other Events of Default; Bring-Down.

(a) Other than the Released Defaults and Uncured Defaults, to the Knowledge of the Prospect Parties, there exists no Event of Default (as defined in each of Master Lease I, Master Lease II, the Foothill Mortgage Loan Agreement, the TRS Note, or the MPT Advance Convertible Note, respectively), or any event, condition or circumstance that, with notice or a passage of time, would constitute such an event of default, by any of the Prospect Parties or any of their Affiliates under or pursuant to any of the Master Lease I, Master Lease II, the Foothill Mortgage Loan Agreement, the TRS Note, the MPT Advance Convertible Note or any of the other Obligation Documents entered into in connection therewith.

(b) Each of the respective representations and warranties of the Prospect Parties and their Affiliates contained in Master Lease I, Master Lease II, the Foothill Mortgage Loan Agreement, the TRS Note, the MPT Advance Convertible Note, the Pennsylvania Mortgage Loan Agreement, or any of the other Obligation Documents are true and correct as of the date of this Agreement; *provided*, *however*, the representation in this Section 7.21(b) is limited to those representations and warranties in Master Lease I, Master Lease II, the Foothill Mortgage Loan Agreement, the TRS Note, the MPT Advance Convertible Note, the Pennsylvania Mortgage Loan Agreement, or any of the other Obligation Documents that, if untrue or incorrect, such untruth or incorrectness would result, in a material adverse effect with respect to the Managed Care Business, the Facilities, the Properties (as defined in the applicable Obligation Documents), the Prospect Parties' ability to pay any obligations under the Obligation Documents (as determined in the MPT Parties' reasonable discretion), or the transactions contemplated by this Agreement.

ARTICLE VIII
REPRESENTATIONS AND WARRANTIES OF MPT PARTIES

Each of the MPT Parties, jointly and severally, hereby represent, warrant and covenant to the Prospect Parties as follows:

8.1. Existence; Good Standing; Enforceability.

(a) Each of such MPT Parties is a corporation or limited liability company (as applicable) duly formed, validly existing, and in good standing under the laws of the applicable State of its formation. Each of such MPT Parties has all requisite power and authority to own, operate, and lease its properties and carry on its business as currently conducted. Each of such MPT Parties is duly licensed and qualified to do business as a foreign entity and is in good standing under the laws of each jurisdiction in which the character of its properties or in which the transaction of its business makes such qualification necessary except where failure to be so qualified, licensed or in good standing would not individually or in the aggregate be material to such MPT Party. Each of such MPT Parties is in compliance with its Governing Documents in all material respects.

(b) Each of such MPT Parties has all requisite power and authority to execute and deliver this Agreement and each other Restructuring Document to which it is or will become a party and to perform its obligations hereunder and thereunder. The execution and delivery of this Agreement and each other Restructuring Document to which any of the MPT Parties is a party, the performance by the MPT Parties of their obligations hereunder and thereunder and the consummation of the transactions contemplated hereby and thereby have been duly authorized by all necessary action on the part of all of the MPT Parties, and no further action on the part of any of the MPT Parties is necessary to authorize the execution and delivery by the MPT Parties of this Agreement or such other Restructuring Documents, and the

MPT CONFIDENTIAL MPT_PROSPECT_00011473

consummation of the transactions contemplated hereby and thereby, except for approvals from any Governmental Bodies, and informational filings with Governmental Bodies, required under applicable legal requirements, as further addressed in Section 8.2(b) hereof.

(c) This Agreement and the other Restructuring Documents to which any of the MPT Parties is or will become a party have been (or with respect to certain Restructuring Documents to be executed after the date hereof, will be) duly executed and delivered by such MPT Parties and, assuming the due authorization, execution and delivery of this Agreement and such other Restructuring Documents by each of the other Parties hereto and thereto, constitute (or, as applicable with respect to certain Restructuring Documents to be executed after the date hereof, shall constitute) legal, valid and binding obligations of such MPT Parties, enforceable against the applicable MPT Parties in accordance with the terms and conditions hereof and thereof, except as such enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws affecting creditors' rights generally and by general equitable principles (regardless of whether enforcement is sought in a proceeding at law or in equity).

8.2. No Conflict; Consents.

(a) Provided any required approvals from Governmental Bodies are obtained, and required information filings with Governmental Bodies are made, as further addressed in Section 4.1 above, the execution and delivery by each of the MPT Parties of this Agreement and each other Restructuring Document to which each of them is (or will become) a party, and the consummation of the transactions contemplated hereby and thereby in accordance with their respective terms, do not: (i) violate, conflict with or result in a default (whether after the giving of notice, lapse of time or both) under, or give rise to a right of termination, amendment, acceleration or cancellation of, or result in the triggering of any payments or the creation of an Encumbrance on any property or asset of any of the MPT Parties or their respective Subsidiaries under any material contract, license, or similar instrument to which any of the MPT Parties or their respective Subsidiaries is a party or by which any of the MPT Parties' or their respective Subsidiaries' assets are bound; (ii) conflict with, or result in any violation of, any provision of such MPT Parties' or their respective Subsidiaries' applicable Governing Documents; or (iii) violate or result in a violation of or constitute a default under (whether after the giving of notice, lapse of time or both), or result in the triggering of any payments or the creation of an Encumbrance on any property or asset of any of the MPT Parties or their respective Subsidiaries under any provision of any law, regulation or rule, or any order of, or any restriction imposed by, any court or other Governmental Body applicable to any of the MPT Parties or their respective Subsidiaries, including, without limitation, all applicable Laws regarding the paying, making, or declaring dividends or distributions by any of the MPT Parties, except in the case of clause (i) and (iii) above, for such conflicts, violations, breaches, defaults or failure to receive consents that would not individually or in the aggregate be material to any of such MPT Parties or Subsidiaries.

(b) The execution and delivery by each of the MPT Parties and their respective Subsidiaries of this Agreement and each other Restructuring Document to which any of them is (or will become) a party, and the consummation by the MPT Parties and their respective Subsidiaries of the transactions contemplated hereby and thereby in accordance with their respective terms, do not require from the MPT Parties and their respective Subsidiaries any notice to, declaration or material filing with, or material consent or approval of any Governmental Body, except for those required to be obtained by the Prospect Parties as contemplated in Section 4.1 hereof.

8.3. Litigation. There is no Litigation, action, suit, proceeding, claim, arbitration or investigation pending or, to the actual knowledge of the MPT Parties, threatened in writing against any of the MPT

Parties, nor are any of the MPT Parties subject to any outstanding order, writ, judgment, injunction or decree, in either case, which would (a) prevent, hinder or materially delay the consummation of the transactions contemplated in this Agreement, or (b) otherwise prevent, hinder or materially delay performance by any of the MPT Parties of any of their material obligations under this Agreement.

8.4. **No Brokers**. None of the MPT Parties or any of their respective Subsidiaries has entered into any contract, arrangement or understanding with any Person or firm that may result in the obligation of such entity or any of the Prospect Parties or their Affiliates to pay any finder's fees, brokerage or agent's commissions or other like payments in connection with the negotiations leading to this Agreement or consummation of the transactions contemplated in this Agreement.

ARTICLE IX
CONFIDENTIALITY

The Parties hereto will, and will cause each of their Affiliates and Representatives to maintain the confidentiality of this Agreement. The Parties agree that public announcements or press release, if any, with respect to this Agreement or the transactions contemplated hereby shall be mutually approved in advance by the Parties; *provided*, however, that, notwithstanding any provision hereof to the contrary, a Party, without the prior consent of the other Parties hereto, may: (a) issue or cause publication of any such press release or public announcement to the extent that such party reasonably determines, after consultation with outside legal counsel, such action to be required by law or by the rules of any applicable self-regulatory organization (including, without limitation, federal and state securities laws and the rules and regulations of the NYSE or NASDAQ), in which event such Party will use its commercially reasonable efforts to allow the other Parties hereto reasonable time to comment on such press release or public announcement in advance of its issuance, and (b) disclose that it has entered into this Agreement and the other Restructuring Documents, and may provide and disclose information regarding this Agreement, the Parties to this Agreement and the other Restructuring Documents, the Facilities, the Managed Care Business, and the other assets and properties subject hereto and thereto, and such additional information which such party may reasonably deem necessary, to its proposed investors in connection with a public offering or private offering of securities (including, without limitation, the offerings to be conducted by Medical Properties Trust, Inc. in anticipation of the transactions contemplated herein), or any current or prospective lenders with respect to its financing (including, without limitation, the PhysicianCo Term Loan Lenders), and to investors, analysts and other parties in connection with earnings calls and other normal communications with investors, analysts and other parties, or (c) include any information in a prospectus, prospectus supplement or other offering circular or memorandum in connection with public or private capital raising or other activities undertaken by such party.

ARTICLE X
INDEMNIFICATION

10.1. **Prospect Medical**. Prospect Medical and each of its Subsidiaries (other than PHP Holdings and its Subsidiaries), jointly and severally, shall indemnify, defend and hold harmless the MPT Parties, their Affiliates, and their respective officers, managers, members, (general and limited) partners, shareholders, employees, agents and representatives (collectively, the "MPT Indemnified Parties") from and against all Liabilities, demands, claims, actions, losses, damages, penalties, taxes, costs and expenses (including, without limitation, attorneys' and accountants' fees, settlement costs, arbitration costs and any reasonable other expenses for investigating or defending any action or threatened action) asserted against or incurred by MPT Indemnified Parties or any of them arising out of or in connection with or resulting from (a) any

MPT CONFIDENTIAL MPT_PROSPECT_00011475

breach of, misrepresentation associated with, or failure to perform under any covenant, representation, warranty or agreement under, this Agreement, the Restructuring Documents or the other agreements contemplated hereby or thereby on the part of Prospect Medical or such Subsidiaries (other than PHP Holdings and its Subsidiaries), or (b) any operation or management of the Managed Care Business of Prospect Medical or its Subsidiaries prior to the date hereof.

10.2. PHP Holdings. PHP Holdings and each of its Subsidiaries, jointly and severally, shall indemnify, defend and hold harmless the MPT Indemnified Parties from and against all Liabilities, demands, claims, actions, losses, damages, penalties, taxes, costs and expenses (including, without limitation, attorneys' and accountants' fees, settlement costs, arbitration costs and any reasonable other expenses for investigating or defending any action or threatened action) asserted against or incurred by MPT Indemnified Parties or any of them arising out of or in connection with or resulting from (a) any breach of, misrepresentation associated with, or failure to perform under any covenant, representation, warranty or agreement under, this Agreement, the Restructuring Documents or the other agreements contemplated hereby or thereby on the part of PHP Holdings or such Subsidiaries, or (b) any operation or management of the Managed Care Business of PHP Holdings or its Subsidiaries prior to the date hereof.

10.3. MPT Parties. The MPT Parties and each of their Subsidiaries, jointly and severally, shall indemnify, defend and hold harmless the Prospect Parties, their Affiliates, and their respective officers, managers, members, (general and limited) partners, shareholders, employees, agents and representatives (collectively, the "Prospect Indemnified Parties") from and against all Liabilities, demands, claims, actions, losses, damages, penalties, taxes, costs and expenses (including, without limitation, attorneys' and accountants' fees, settlement costs, arbitration costs and any reasonable other expenses for investigating or defending any action or threatened action) asserted against or incurred by Prospect Indemnified Parties or any of them arising out of or in connection with or resulting from (a) any breach of, misrepresentation associated with, or failure to perform under any covenant, representation, warranty or agreement under, this Agreement, the Restructuring Documents or the other agreements contemplated hereby or thereby on the part of the MPT Parties or their respective Subsidiaries, or (b) adverse tax consequences under the REIT qualification sections of the Code that are not caused by the breach of any covenant, representation, warranty or agreement under this Agreement, the PHP Holdings, LLC Agreement, or any of the other Restructuring Documents by any of the Prospect Parties or their respective Affiliates.

10.4. Other Rights to Indemnification. Nothing in this Article is intended or shall be deemed to modify or limit any rights of indemnification in favor of any of the Parties or their respective Affiliates as may be set forth in any Master Lease I, Master Lease II, the Foothill Mortgage Loan Documents, the TRS Note, the Phase I Convertible Note, the Pennsylvania Restructuring Documents, the PHP Holdings LLC Agreement, or any other agreements, documents, or instruments entered into in connection therewith, all of which shall remain in full force and effect in accordance with their respective terms.

ARTICLE XI
MISCELLANEOUS

11.1. Specific Performance. In addition to any rights and remedies available to the Parties hereunder or at law, each Party shall be entitled to bring an action for specific performance and to seek other equitable relief in connection with any breach or violation, or any attempted breach or violation, of the provisions of

MPT CONFIDENTIAL MPT_PROSPECT_00011476

this Agreement (including, without limitation, the covenants set forth in ARTICLE VI hereof), without the necessity of showing actual damages or furnishing bond or other security.

11.2. Governing Law. THIS AGREEMENT SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF DELAWARE APPLICABLE TO CONTRACTS EXECUTED AND PERFORMED IN SUCH STATE, WITHOUT GIVING EFFECT TO CONFLICTS OF LAW PRINCIPLES.

11.3. Jurisdiction and Venue. THE PARTIES CONSENT TO PERSONAL JURISDICTION IN THE STATE OF DELAWARE. THE PARTIES AGREE THAT ANY ACTION OR PROCEEDING ARISING FROM OR RELATED TO THIS AGREEMENT SHALL BE BROUGHT AND TRIED EXCLUSIVELY IN THE STATE OR FEDERAL COURTS OF DELAWARE. EACH OF THE PARTIES IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY OBJECTION TO THE LAYING OF VENUE OF ANY SUCH ACTION OR PROCEEDING BROUGHT IN ANY SUCH COURT. THE PARTIES EXPRESSLY ACKNOWLEDGE THAT DELAWARE IS A FAIR, JUST AND REASONABLE FORUM AND AGREE NOT TO SEEK REMOVAL OR TRANSFER OF ANY ACTION FILED BY THE OTHER PARTY IN SAID COURTS. FURTHER, EACH PARTY IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY CLAIM THAT SUCH SUIT, ACTION OR PROCEEDING HAS BEEN BROUGHT IN AN INCONVENIENT FORUM. SERVICE OF ANY PROCESS, SUMMONS, NOTICE OR DOCUMENT BY CERTIFIED MAIL ADDRESSED TO A PARTY AT THE ADDRESS DESIGNATED PURSUANT TO SECTION 11.6 SHALL BE EFFECTIVE SERVICE OF PROCESS AGAINST SUCH PARTY FOR ANY ACTION OR PROCEEDING BROUGHT IN ANY SUCH COURT. A FINAL JUDGMENT IN ANY SUCH ACTION OR PROCEEDING BROUGHT IN ANY SUCH COURT MAY BE ENFORCED IN ANY OTHER COURT TO WHOSE JURISDICTION ANY OF THE PARTIES IS OR MAY BE SUBJECT.

11.4. Waiver of Jury Trial. TO THE MAXIMUM EXTENT PERMITTED BY LAW, EACH OF THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE THE RIGHT TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION BASED HEREON, ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENT (WHETHER VERBAL OR WRITTEN) OR ACTION OF EITHER PARTY OR ANY EXERCISE OF ANY PARTY OF THEIR RESPECTIVE RIGHTS HEREUNDER OR IN ANY WAY RELATING TO THIS AGREEMENT OR THE REAL PROPERTY (INCLUDING ANY CLAIM OR DEFENSE ASSERTING THAT THIS AGREEMENT WAS FRAUDULENTLY INDUCED OR IS OTHERWISE VOID OR VOIDABLE). THIS WAIVER IS A MATERIAL INDUCEMENT FOR LENDER TO ENTER INTO THIS AGREEMENT.

11.5. Binding Effect; Assignment. This Agreement shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and permitted assigns; provided that neither this Agreement nor any of the rights, interests or obligations hereunder may be assigned or delegated by any Party without the prior written consent of the other Parties (except in connection with any Prospect Parties' assignment of its rights and interest under any of the Obligation Documents to which it is a party to the extent permitted thereunder). Notwithstanding the foregoing, the MPT Parties may at any time and without the consent of the Prospect Parties assign all of its respective rights and obligations hereunder to any Person.

11.6. Notices. All notices, demands and other communications to be given or delivered under or by reason of the provisions of this Agreement shall be in writing and shall be deemed to have been given (a) when personally delivered, (b) when transmitted via telecopy (or other facsimile device) to the number set

forth below if the sender on the same day sends a conforming copy of such notice by recognized overnight delivery service (charges prepaid), (c) when delivered via Electronic Transmission to the email address set forth below if the sender on the same day sends a conforming copy of such notice by recognized overnight delivery service (charges prepaid), (d) the day following the day (except if not a Business Day then the next Business Day) on which the same has been delivered prepaid to a reputable national overnight air courier service or (e) the third Business Day following the day on which the same is sent by certified or registered mail, postage prepaid. Notices, demands and communications, in each case to the respective parties, shall be sent to the applicable address set forth below, unless another address has been previously specified in writing:

If to any Prospect Parties:

or to such other address as either party may hereafter designate in writing, and shall be effective upon receipt. A notice, demand, consent, approval, request and other communication shall be deemed to be duly received (i) if delivered in person or by a recognized delivery service, when left at the address of the recipient, (ii) if sent by facsimile, upon receipt by sender of an acknowledgment or transmission report generated by the machine from which the facsimile was sent indicating that the facsimile was sent in its entirety to the recipient's facsimile number, and (iii) if sent by Electronic Transmission when sent to the recipient's email address, if the sender on the same day sends a conforming copy of such notice by recognized overnight delivery service (charges prepaid); provided that if a notice, demand, consent, approval, request or other communication is served by hand or is received by facsimile or Electronic Transmission on a day which is not a Business Day, or after 5:00 p.m. on any Business Day (based upon Birmingham, Alabama time), such notice or communication shall be deemed to be duly received by the recipient at 9:00 a.m. (based upon Birmingham, Alabama time) on the first Business Day thereafter.

11.7. Calculation of Time Period. When calculating the period of time before which, within which or following which any act is to be done or step taken, the date that is the reference date in calculating such period shall be excluded. If the last day of such period is not a Business Day, the period in question shall end of the next succeeding Business Day.

11.8. Captions. The section and paragraph headings or captions appearing in this Agreement are for convenience only, are not a part of this Agreement, and are not to be considered in interpreting this Agreement.

11.9. Entire Agreement; Modification. This Agreement, together with all exhibits, schedules and the other documents referred to herein, embody and constitute the entire understanding between the parties with respect to the subject matter hereof in any way. The Parties have not relied upon, and shall not be entitled to rely upon, any prior or contemporaneous agreements, understandings, representations or statements (oral or written) other than this Agreement in effecting the transactions contemplated herein or otherwise (including, without limitation, the Original Restructuring Agreement and the Restructuring Term Sheet). Neither this Agreement, any exhibit or schedule attached hereto, nor any provision hereof or thereof may be modified or amended except by an instrument in writing signed by all of the parties hereto.

11.10. Supplement to Disclosure Schedules. From time to time prior to the Closing Date of the Phase II Transactions or Phase III Transactions, as applicable, upon written notice to the MPT Parties, the Prospect Parties shall have the right (but not the obligation) to supplement or amend the Disclosure Schedules hereto with respect to any fact, circumstance, condition, change, event, occurrence, or matter arising after the effective date of this Agreement or of which the Prospect Parties become aware after the effective date hereof (each a "Schedule Supplement"). Any such Schedule Supplement shall be made, and written notice shall be provided to the MPT Parties, at least five (5) days prior to the Closing Date of the Phase II Transactions or Phase III Transactions, as applicable. Unless the event that requires such Schedule Supplement constitutes or arises out of a breach of any covenant or obligation of the Prospect Parties under this Agreement, (a) such updated Schedule Supplements shall be incorporated into this Agreement; and (b) any disclosure in any such Schedule Supplement shall be deemed to have cured any inaccuracy in or breach of any representation or warranty contained in this Agreement that would exist at the Closing Date of the Phase II Transaction or Phase III Transaction, in the absence of such Schedule Supplement.

11.11. Annexes, Schedules, and Exhibits. All Annexes, Schedules and Exhibits referred to in this Agreement shall be deemed a part of this Agreement and are hereby incorporated herein by reference. The statements in the Schedules referred to in this Agreement, and those in any supplement thereto, relate only

MPT CONFIDENTIAL MPT_PROSPECT_00011479

to the provisions in the Section of this Agreement to which they expressly relate and not to any other provision in this Agreement. Further, nothing set forth in such Schedule shall be deemed adequate to disclose an exception to a representation or warranty related thereto unless such Schedule identifies the exception with reasonable particularity and describes the relevant facts in reasonable detail.

11.12. Necessary Action. Each party shall perform any further acts and execute and deliver any documents that may be reasonably necessary to carry out the provisions of this Agreement.

11.13. Counterparts. This Agreement may be executed in multiple counterparts, any one of which need not contain the signature of more than one party, but all such counterparts taken together shall constitute one and the same instrument.

11.14. Delivery by Electronic Transmission. This Agreement and any signed agreement entered into in connection herewith or contemplated hereby, and any amendments hereto or thereto, to the extent signed and delivered by means of a facsimile machine or by .pdf, .tif, .gif, .jpeg or similar attachment to electronic mail, shall be treated in all manner and respects as an original contract and shall be considered to have the same binding legal effects as if it were the original signed version thereof delivered in person. At the request of any party hereto or to any such contract, each other party hereto or thereto shall re-execute original forms thereof and deliver them to all other parties. No Party hereto or to any such contract shall raise the use of a facsimile machine or by .pdf, .tif, .gif, .jpeg or similar attachment to electronic mail to deliver a signature or the fact that any signature or contract was transmitted or communicated through the use of facsimile machine or by .pdf, .tif, .gif, .jpeg or similar attachment to electronic mail as a defense to the formation of a contract and each such party forever waives any such defense.

11.15. Expenses.

(a) In General. Prospect Medical is responsible for, and shall pay or reimburse to the MPT Parties upon demand for all expenses (including but not limited to legal, accounting, and other fees and expenses) which may be incurred by the MPT Parties or their Affiliates with respect to the Equity Rollover Transaction, the Restructuring Transactions, this Agreement and the other Restructuring Documents, and the transactions and documents contemplated hereby and thereby. In addition, Prospect Medical shall be responsible for, and shall pay to the MPT Parties or the applicable third parties upon demand, all third-party costs of all surveys, inspections, title policies, environmental and other third-party reports required by any of the Parties, recording fees, and all other reasonable third-party expenses incurred in the transactions contemplated in this Agreement.

(b) Taxes. In addition, Prospect Medical shall be responsible for, and shall pay to the MPT Parties or the applicable third parties upon demand, all transfer taxes, lease taxes, mortgage taxes, income taxes, and all other taxes imposed as a result of the transactions contemplated in this Agreement (including, without limitation, any taxes imposed on any of the Parties as a result of the internal restructuring of the Prospect Parties or the issuance of any Equity Interests in PHP Holdings); *provided, however*, the MPT Parties will pay on behalf of itself or PMH, as applicable, the sum of Five Million Two Hundred Twenty-Two Thousand Five Hundred Seventeen Dollars and Fifty-Four Cents ($5,222,517.54), which amount is to be applied to the transfer taxes arising out of or in connection with the transactions effected pursuant to the Pennsylvania Restructuring Documents as contemplated in Section 3.7 hereof, it being understood that any such amounts paid by any of the MPT Parties pursuant to this subsection (b) shall be added to the Pennsylvania Mortgage Loan Note.

(c) For the avoidance of doubt, either Party may submit to the other Party after execution of this Agreement copies of any invoices relating to costs and expenses for which such Party is responsible for pursuant to this Section 11.15, and the responsible Party shall reimburse the other Party within thirty (30) days after receipt thereof.

11.16. No Third Party Beneficiaries. Nothing expressed or referred to in this Agreement will be construed to give any Person other than the parties to this Agreement any legal or equitable right, remedy, or claim under or with respect to this Agreement or any provision of this Agreement.

11.17. Joint Drafting. The parties hereto and their respective counsel have participated in the drafting and redrafting of this Agreement and the general rules of construction which would construe any provisions of this Agreement in favor of or to the advantage of one party as opposed to the other as a result of one party drafting this Agreement as opposed to the other or in resolving any conflict or ambiguity in favor of one party as opposed to the other on the basis of which party drafted this Agreement are hereby expressly waived by all parties to this Agreement.

11.18. Joint and Several Obligations.

(a) Prospect Medical and its Subsidiaries (other than PHP Holdings and its Subsidiaries) shall be jointly and severally liable for all of the liabilities and obligations of Prospect Medical and such Subsidiaries under this Agreement. Additionally, each of Prospect Medical and such Subsidiaries acknowledge and agrees that all of their respective representations, warranties, covenants, obligations, conditions, and agreements terms contained in this Agreement and the Restructuring Documents shall be applicable to and shall be binding upon and enforceable against any one or more of Prospect Medical and such Subsidiaries.

(b) PHP Holdings and its Subsidiaries shall be jointly and severally liable for all of the liabilities and obligations of PHP Holdings and such Subsidiaries under this Agreement. Additionally, each of PHP Holdings and such Subsidiaries acknowledge and agrees that all of their respective representations, warranties, covenants, obligations, conditions, and agreements contained in this Agreement and the Restructuring Documents shall be applicable to and shall be binding upon and enforceable against any one or more of PHP Holdings and such Subsidiaries.

(c) MPT Parties and their Subsidiaries (other than PHP Holdings and its Subsidiaries) shall be jointly and severally liable for all of the liabilities and obligations of MPT Parties and such Subsidiaries under this Agreement. Additionally, each MPT Party and such Subsidiaries acknowledge and agrees that all of their respective representations, warranties, covenants, obligations, conditions, and agreements terms contained in this Agreement and the Restructuring Documents shall be applicable to and shall be binding upon and enforceable against any one or more of MPT Parties and such Subsidiaries.

11.19. No Waiver. Any provision of this Agreement or Exhibits hereto may be amended or waived only in a writing signed by the parties hereto. No waiver of any provision hereunder or any breach or default thereof shall extend to or affect in any way any other provision or prior or subsequent breach or default.

11.20. Severability. The parties agree that each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement or any application of this Agreement (as to any party or otherwise) is held to be prohibited by or invalid under applicable law, such provision or application shall be ineffective only to the extent of such prohibition or

invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement or any other applications of this Agreement.

11.21. Representatives.

(a) Prospect Medical and its Subsidiaries (other than PHP Holdings and its Subsidiaries) hereby appoint Prospect Medical as their duly authorized agent and representative (the "Prospect Representative") to take all actions and enforce all rights of Prospect Medical and its Subsidiaries under this Agreement and the other Restructuring Documents, including, without limitation, (i) giving and receiving any notice or instruction permitted or required under this Agreement and the other Restructuring Documents, (ii) interpreting all of the terms and provisions of this Agreement and the other Restructuring Documents, (iii) authorizing payments or obtaining reimbursement as may be provided for herein, (iv) consenting to, compromising, or settling all disputes with the MPT Parties under this Agreement and the other Restructuring Documents, (v) conducting negotiations and dealing with the MPT Parties under this Agreement and the other Restructuring Documents, and (vi) taking any other actions on behalf of Prospect Medical and such Subsidiaries relating to their respective rights, claims, duties, and obligations under this Agreement and the other Restructuring Documents. In the performance of the MPT Parties' duties and obligations hereunder, the MPT Parties shall be authorized and permitted to correspond and transact with the Prospect Representative on behalf of all Prospect Medical and such Subsidiaries and the MPT Parties shall be entitled to rely upon any document or instrument executed and delivered by the Prospect Representative.

(b) PHP Holdings and its Subsidiaries hereby appoint ManageCo as their duly authorized agent and representative (the "PHP Holdings Representative") to take all actions and enforce all rights of PHP Holdings and its Subsidiaries under this Agreement and the other Restructuring Documents, including, without limitation, (i) giving and receiving any notice or instruction permitted or required under this Agreement and the other Restructuring Documents, (ii) interpreting all of the terms and provisions of this Agreement and the other Restructuring Documents, (iii) authorizing payments or obtaining reimbursement as may be provided for herein, (iv) consenting to, compromising, or settling all disputes with the MPT Parties under this Agreement and the other Restructuring Documents, (v) conducting negotiations and dealing with the MPT Parties under this Agreement and the other Restructuring Documents, and (vi) taking any other actions on behalf of PHP Holdings and such Subsidiaries relating to their respective rights, claims, duties, and obligations under this Agreement and the other Restructuring Documents. In the performance of the MPT Parties' duties and obligations hereunder, the MPT Parties shall be authorized and permitted to correspond and transact with the PHP Holdings Representative on behalf of all Prospect Medical and such Subsidiaries and the MPT Parties shall be entitled to rely upon any document or instrument executed and delivered by the PHP Holdings Representative.

(c) The MPT Parties hereby appoint MPT Picasso TRS as their duly authorized agent and representative (the "MPT Representative") to take all actions and enforce all rights of the MPT Parties under this Agreement and the other Restructuring Documents, including, without limitation, (i) giving and receiving any notice or instruction permitted or required under this Agreement, (ii) interpreting all of the terms and provisions of this Agreement and the other Restructuring Documents, (iii) authorizing payments or obtaining reimbursement as may be provided for herein, (iv) consenting to, compromising, or settling all disputes with the Prospect Parties under this Agreement and the other Restructuring Documents, (v) conducting negotiations and dealing with the Prospect Parties under this Agreement and the other Restructuring Documents, and (vi) taking any other actions on behalf of the Prospect Parties relating to their respective rights, claims, duties, and obligations under this Agreement and the other Restructuring

MPT CONFIDENTIAL MPT_PROSPECT_00011482

Documents. In the performance of the Prospect Parties duties and obligations hereunder, the Prospect Parties shall be authorized and permitted to correspond and transact with the MPT Representative on behalf of all the MPT Parties and the Prospect Parties shall be entitled to rely upon any document or instrument executed and delivered by the MPT Representative.

11.22. One Action Waiver. To the extent permitted by applicable law, the Prospect Parties waive any and all rights or defenses arising by reason of: (i) any "one action" or "anti-deficiency" law or any other law which may prevent the MPT Parties from bringing any action, including a claim for deficiency, against any one or more of the Prospect Parties, before or after the MPT Parties' commencement or completion of any foreclosure or similar action or actions, either judicially or by exercise of a power of sale; (ii) any election of remedies by the MPT Parties which destroys or otherwise adversely affects any one or more of the Prospect Parties' subrogation rights or rights to proceed against any Person for reimbursement, including, without limitation, any loss of rights the Prospect Parties may suffer by reason of any law limiting, qualifying, or discharging the obligations under this Agreement or the Obligation Documents (as applicable); (iii) any right to claim discharge of the obligations under this Agreement on the basis of unjustified impairment of any collateral for such obligations; or (iv) any defenses given to guarantors, sureties, and/or co-makers at law or in equity other than actual payment and performance of the Prospect Parties' obligations under this Agreement or the Obligation Documents (as applicable).

MPT CONFIDENTIAL MPT_PROSPECT_00011487

ANNEX A

GLOSSARY OF DEFINED TERMS

The following terms (whether or not capitalized and whether used in the singular or plural) shall have the following meanings as used in this Agreement:

"Affiliate" with respect to any Person, (i) any Person that, directly or indirectly, controls or is controlled by or is under common control with such Person, or (ii) any other Person that owns, beneficially, directly or indirectly, 25% or more of the outstanding capital stock, shares or Equity Interests of such Person; *provided, however*, that (i) none of Green Equity Investors Side V, LP, Green Equity Investors V, LP or Ivy LGP Co-Invest LLP shall be considered to be "Affiliates" of any of the Prospect Parties for purposes of this definition, (ii) none of MPT Picasso TRS or the other MPT Parties shall be considered to be "Affiliates" of PHP Holdings (or any of the Prospect Parties) following consummation of the Phase I Transactions, and (iii) PHP Holdings and its Subsidiaries, and following the consummation of the Merger, Alta Newport, shall not be considered to be "Affiliates" of any of Prospect Medical and its other Subsidiaries. For the purposes of this definition, "control" (including the correlative meanings of the terms "controlled by" and "under common control with"), as used with respect to any Person, shall mean the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of such Person, through the ownership of voting securities or otherwise.

"Agreed Connecticut Shortfall Amount" has the meaning set forth in Section 5.1(a).

"Agreed Pennsylvania Shortfall Amount" has the meaning set forth in Section 3.7(b)(ii).

"Agreement" has the meaning set forth in the preamble hereof.

"ALTA" has the meaning set forth in Section 4.2.

"Alta Newport" means Alta Newport Hospital, LLC, a California limited liability company.

"Amended and Restated Environmental Indemnity" means that certain Amended and Restated Environmental Indemnification Agreement, dated of even date herewith, by and among certain of the Prospect Parties and certain of the MPT Parties, as the same may be modified, amended, or restated from time to time.

"Amended and Restated Guaranty" means that certain Amended and Restated Guaranty Agreement, dated of even date herewith, made by Prospect Medical and certain of the Prospect Parties in favor of certain of the MPT Parties, as the same may be modified, amended, or restated from time to time.

"Amended and Restated Noncompetition Agreement" means that certain Amended and Restated Noncompetition Agreement, dated of even date herewith, by and among certain of the Prospect Parties and certain of the MPT Parties, as the same may be modified, amended, or restated from time to time.

"Amended and Restated Pledge Agreement" means that certain Amended and Restated Pledge Agreement, dated of even date herewith, by and among certain of the Prospect Parties and certain of the MPT Parties, as the same may be modified, amended, or restated from time to time.

MPT CONFIDENTIAL MPT_PROSPECT_00011488

"Amended and Restated Security Agreement" means that certain Amended and Restated Security Agreement, dated of even date herewith, by and among certain of the Prospect Parties and certain of the MPT Parties, as the same may be modified, amended, or restated from time to time.

"Amended and Restated Security Documents" means, collectively: (i) the Amended and Restated Security Agreement, (ii) the Amended and Restated Pledge Agreement, (iii) the Amended and Restated Guaranty, (iv) the Amended and Restated Environmental Indemnity, (v) the Amended and Restated Noncompetition Agreement, (vi) Omnibus Amendment of Collateral Lease Assignments, and (vii) any other documents securing any obligations of any of the Prospect Parties (or their respective Affiliates) to any of the MPT Parties (or their respective Affiliates) entered into in connection herewith.

"Amendment to Connecticut Master Agreement" has the meaning set forth in Section 3.8.

"Audited Balance Sheet" has the meaning set forth in Section 7.4(a).

"Audited Financials" has the meaning set forth in Section 7.4(a).

"Balance Sheet Date" has the meaning set forth in Section 7.4(a).

"Bankruptcy Remote Entity" means, with respect to PHP Holdings, an entity that: (a) generally operates in a manner intended to isolate all financial risks to the fullest extent reasonably practicable, and to minimize the risk of being involved in any voluntary or involuntary bankruptcy proceedings (including any initiated by the PhysicianCo Term Loan Lenders or any other creditors); (b) has implemented governance procedures, organizational structure or other arrangements designed to make PHP Holdings less likely to become the subject of a bankruptcy or insolvency event or to become consolidated into a bankruptcy proceeding of Prospect Medical or its other Affiliates (or any other Person); (c) has implemented arrangements that ensure that the assets of PHP Holdings and its Subsidiaries will not be available to the creditors of, or otherwise be consolidated with, any of Prospect Medical or its other Affiliates (or any other Person); (d) exist solely for the purpose of owning and operating the Subsidiaries that control the Managed Care Business (as reflected on the Prospect Organizational Chart) and activities incidental thereto; (e) engages (directly or indirectly) in no other business or activity other than the Managed Care Business and activities incidental thereto; (f) conducts business only in its own name (or a state-approved fictitious name); (g) does not hold, directly or indirectly, any ownership interest (legal or equitable) in any entity or any real or personal property other than the Equity Interest which it owns as reflected in the Prospect Organizational Chart and the other assets incident to the Managed Care Business (subject to the transfer of Alta Newport as contemplated in this Agreement) without the prior written consent of the MPT Parties; (h) does not have any debt, or guarantee or otherwise obligate itself, with respect to the debts of any other Person (other than its Subsidiaries in connection with the Managed Care Business), including, without limitation, Prospect Medical or its other Affiliates; (i) maintains its own separate books, records and financial statements (subject to consolidation with its Subsidiaries); (j) holds itself out as being a legal entity that is not part of any other legal entity (promptly corrects any known misunderstanding regarding its separate legal identity), and (k) maintains all entity formalities independent of any other entity (including Prospect Medical and its other Affiliates).

"Benefit Plans" has the meaning set forth in Section 7.9(a).

"Business Day" means any day other than Saturday, Sunday, or any day on which the principal commercial banks in the State of New York are authorized or obligated to close under applicable law.

"Capital Transaction" means any transaction (or series of transactions) that involves aggregate consideration of One Million and No/100 Dollars ($1,000,000.00) or more (whether in cash, securities, or other property), involving (i) the sale or transfer of all or substantially all of the assets of Prospect Medical or any of its Affiliates, (ii) the sale or transfer of any direct or indirect Equity Interests in Prospect Medical or any of its Affiliates, (iii) the sale or transfer of any direct or indirect Equity Interests owned or held by Prospect Medical or any of its Affiliates (including any joint venture interests), or (iv) any other sale, transfer, merger, reorganization, or consolidation or other transaction that would result in any Person who is not currently an Affiliate of Prospect Medical operating or otherwise having voting control over Prospect Medical or any such Affiliates.

"Capital Transaction Covenants" has the meaning set forth in Section 6.4.

"Capital Transaction Covenant Conditions" means, collectively, the occurrence of all of the following events:

(i) if any payment obligations under the Pennsylvania Mortgage Loan Note (and related Pennsylvania Mortgage Loan Agreement and Pennsylvania Mortgage) remain outstanding, then:

(A) all such payment obligations then due have been paid through the then current date;

(B) if, for two (2) consecutive trailing calendar quarters, "Consolidated EBITDAR" (as defined in the Pennsylvania Mortgage Loan Agreement) of Prospect Medical and its Subsidiaries shall greater than Three Hundred Percent (300%) of the Realty Payments (as defined in the Pennsylvania Mortgage Loan Agreement) (as determined utilizing the trailing twelve (12) month operating and financial results of Prospect Medical and its Subsidiaries and measured on a calendar quarterly basis); and

(C) if, for two (2) consecutive trailing calendar quarters, "Consolidated EBITDAR" (as defined in the Pennsylvania Mortgage Loan Agreement) of the Borrowers (under and as defined in the Pennsylvania Mortgage Loan Agreement) shall greater than One Hundred Twenty-Five Percent (125%) of the Realty Payments (as defined in the Pennsylvania Mortgage Loan Agreement) (as determined utilizing the trailing twelve (12) month operating and financial results of such Borrowers and measured on a calendar quarterly basis);

(ii) Prospect Medical and its applicable Subsidiaries are in full compliance with the financial covenants contained in Section 16.1(j) and (k) of Master Lease I and Master Lease II at the time of the Capital Transaction;

(iii) Prospect Medical and its applicable Subsidiaries have paid all amounts then due and owing by any of them to any of the MPT Parties or their Affiliates; and

(iv) if all of the foregoing conditions are satisfied in full, no uncured Event of Default then exists under any of the then existing Obligation Documents.

"CDPH" means the California Department of Public Health.

"Closing Date" means, as applicable: (a) with respect to the Phase I Transactions, the effective date of this Agreement, (b) with respect to the Phase II Transactions, the date of the closing of Phase II Transactions as contemplated in ARTICLE IV, and (c) with respect to the Phase III Transactions, the date of the closing of Phase III Transactions as contemplated in ARTICLE V.

"Code" means the Internal Revenue Code of 1986, as amended from time to time.

"Collateral Assignment I" means that certain Collateral Assignment of Fifth Amended and Restated Assignable Option Agreement, dated March 30, 2023, made by Prospect Medical Systems, LLC, a Delaware Limited Liability Company, to and for the benefit of MPT of Upper Darby PMH, LLC, MPT of Manchester PMH, LLC, MPT of Rockville PMH, LLC, MPT of Springfield PMH, LLC, MPT of Ridley Park PMH, LLC, MPT of Upland PMH, LLC, MPT of Waterbury PMH, LLC, MPT TRS Lender PMH, LLC, each a Delaware limited liability company, MPT of Van Nuys PMH, L.P., MPT of Hollywood PMH, L.P., MPT of Los Angeles PMH, L.P., MPT OF Culver City PMH, L.P., MPT of Bellflower PMH, L.P., MPT of Tustin PMH, L.P., and MPT of Norwalk PMH, L.P., each a Delaware limited partnership.

"Collateral Assignment II" means that certain Collateral Assignment of Ninth Amended and Restated Assignable Option Agreement ("Collateral Assignment B"), dated March 30, 2023, made by Prospect Medical Systems, LLC, a Delaware Limited Liability Company, to and for the benefit of MPT of Upper Darby PMH, LLC, MPT of Manchester PMH, LLC, MPT of Rockville PMH, LLC, MPT of Springfield PMH, LLC, MPT of Ridley Park PMH, LLC, MPT of Upland PMH, LLC, MPT of Waterbury PMH, LLC, MPT TRS Lender PMH, LLC, each a Delaware limited liability company, MPT of Van Nuys PMH, L.P., MPT of Hollywood PMH, L.P., MPT of Los Angeles PMH, L.P., MPT OF Culver City PMH, L.P., MPT of Bellflower PMH, L.P., MPT of Tustin PMH, L.P., and MPT of Norwalk PMH, L.P., each a Delaware limited partnership.

"Collateral Assignments" means Collateral Assignment I and Collateral Assignment II.

"Collective Bargaining Agreement" has the meaning set forth in Section 7.10(a).

"Connecticut Properties" means the Manchester Property, the Rockville Property, and the Waterbury Property, each as defined in the Connecticut Master Agreement.

"Connecticut Transaction" means the applicable MPT Parties sale of the Connecticut Properties to the applicable Prospect Parties (or to such Person designated by the Prospect Parties) pursuant to the terms of the Connecticut Master Agreement and the other transactions contemplated therein and in the Underlying Acquisition Agreement (as defined in the Connecticut Master Agreement).

"Contracts" means all written contractual agreements relating to or affecting the assets or the operation of the Facilities to which any of the Prospect Parties or their respective Subsidiaries is a party, and all contracts or agreements with regard to the development and construction of any additional Health Care Facilities.

"Conversion Shortfall" has the meaning set forth in Section 4.1(e).

"Default Representation" has the meaning set forth in Section 2.4(d) hereof.

"Deferred Amounts" has the meaning set forth in Section 3.3.

"Deferred Base Rent" has the meaning set forth in Master Lease I and Master Lease II, respectively (and including past due amounts, together with overdue interests and late payment penalties on all past due amounts).

"Deferred Interest" has the meaning set forth in the Foothill Mortgage Loan Note and the TRS Note, respectively (and including past due amounts, together with overdue interests and late payment penalties on all past due amounts).

"Designated Subsidiaries" means:

(a) with respect to Prospect Medical, each of (i) ManageCo, (ii) Prospect DCMH, LLC, (iii) Prospect CCMC, LLC, (iv) Prospect Manchester Hospital, Inc., (v) Prospect Rockville Hospital, Inc., (vi) Southern California Healthcare System, Inc., (vii) Alta Los Angeles Hospitals, Inc., (viii) Prospect Waterbury, Inc., and (ix) Alta Newport Hospital, Inc., and

(b) with respect to PHP Holdings, all of its Subsidiaries (including Foothill Propco).

"Disclosure Schedules" means the Disclosure Schedules delivered by the Prospect Parties concurrently with the execution and delivery of this Agreement.

"Distribution" means any dividend or distribution (whether in cash, securities or other property) made by Prospect Medical to any Person with respect to any direct or indirect Equity Interest in Prospect Medical or any of its Affiliates.

"DMHC" means the California Department of Managed Health Care, together with any successor agency thereto.

"EIK" has the meaning set forth in Section 4.3.

"Electronic Transmission" means any form of communication (including, without limitation, by electronic mail) not directly involving the physical transmission of paper, that creates a record that may be retained, retrieved, and reviewed by a recipient of such record, and that may be directly reproduced in paper form by such a recipient through an automated process.

"Encumbrance" means any mortgage, deed of trust, pledge, hypothecation, assignment, charge or deposit arrangement, lien (statutory or otherwise) or preference, security interest, restrictions or easements or other encumbrance of any kind or nature whatsoever.

"Equity Interests" means with respect to any Person, the voting power, ownership, or other equitable interests of such Person, including any interest represented by any capital stock, convertible or participating debt instruments, membership interest, partnership interest, or any similar interest therein.

"Equity Rollover Transactions" means the applicable MPT Parties exchanging certain of the Outstanding Obligations for PHPH Series A-1 Preferred Units in PHP Holdings as described in this Agreement.

"Facility" has the meaning set forth in Master Lease I, Master Lease II, and the Foothill Mortgage Loan Agreement, as applicable.

"Financial Statements" has the meaning set forth in Section 7.4(a).

"Foothill Facility" has the meaning ascribed thereto in the Foothill Mortgage Loan Agreement.

"Foothill Lease" has the meaning set forth in Section 3.1(c).

"Foothill Mortgage" means that certain Deed of Trust, Security Agreement and Fixture Filing, dated August 23, 2019, and filed of record on August 29, 2019 under Document Number 2019000324068 in the official records of Orange County, California, and amended pursuant to that certain Amendment to Deed of Trust, Security Agreement and Fixture Filing, dated July 26, 2022, and filed of record on August 9, 2022 under Document Number 2022000272512 in the official records of Orange County, California, as the same have been or shall be further amended, modified, or restated from time to time.

"Foothill Mortgage Loan Agreement" means, collectively, that certain Real Estate Loan Agreement, dated August 23, 2019, as amended by that certain Amendment to Real Estate Loan Agreement (Tranche 2 Advances), dated July 26, 2022, as further modified, amended, or restated from time to time.

"Foothill Mortgage Loan Documents" means, collectively, the Foothill Mortgage Loan Agreement, the Foothill Mortgage Loan Note, the Foothill Mortgage, and all of the other documents entered into in connection therewith, as each of the same may be as modified, amended, or restated from time to time.

"Foothill Mortgage Loan Note" means that certain Amended and Restated Promissory Note (Mortgage Loan), dated as of July 26, 2022, made by Alta Newport in favor of MPT Foothill Lender in the amount of One Hundred and Fifty-One Million Two Hundred Sixty-Six Thousand Seven Hundred and No/100 Dollars ($151,266,700.00), as the same has been or may be modified, amended or restated from time to time.

"Foothill Propco" means FRMC Hospital Property, LLC, a California limited liability company and a wholly-owned subsidiary of PHP Holdings.

"Forbearance Agreement" means that certain Second Amended and Restated Forbearance Agreement, dated as of March 24, 2023, by and among Prospect Medical and certain of the other Prospect Parties named therein and certain of the MPT Parties named therein, as the same may have been amended, modified, supplemented, or extended from time to time.

"GAAP" shall mean generally accepted accounting principles in the United States as in effect from time to time and applied consistently throughout the periods involved.

"Governing Documents" has the meaning set forth in Section 7.1(a).

"Governmental Body" means any (a) national, federal, state, provincial, county, municipal or local government, foreign or domestic, (b) political subdivision of any of the foregoing or (c) entity, authority, agency, ministry or other similar body exercising any legislative, executive, judicial, regulatory or

administrative authority or functions of or pertaining to government, including any court, commission, tribunal or other quasi-governmental entity established to perform any such function (including, without limitation, the Securities and Exchange Commission, the Internal Revenue Service, the DMHC, and the California Board of Pharmacy).

"Government Programs" means all state and federal health benefit programs sponsored by a Governmental Body, including any "federal health care program" as defined in 42 U.S.C. § 1320a-7b(f), Medicare and Medicare Advantage, state Medicaid programs, state CHIP programs, TRICARE and similar or successor programs with or for the benefit of any Governmental Body.

"Health Care Facility" has the meaning set forth in Section 856(e)(3)(D)(ii) of the Code.

MPT CONFIDENTIAL MPT_PROSPECT_00011514

RELEASE AND WAIVER AGREEMENT

THIS RELEASE AND WAIVER AGREEMENT (this "Release") is made and entered into effective as of this ____ day of _____, 202__ (the "Effective Date"), by **PROSPECT MEDICAL HOLDINGS, INC.**, a Delaware corporation ("Prospect Medical"), and each of its respective undersigned Affiliates (such Affiliates, together with Prospect Medical, collectively, the "Prospect Parties"), for the benefit and in favor of each of the undersigned Affiliates of MPT Operating Partnership, L.P., a Delaware limited partnership (collectively, the "MPT Parties"). The Prospect Parties, the MPT Parties, and certain of their respective affiliates have entered into that Amended and Restated Master Restructuring Agreement, dated as of May 23, 2023 (as amended, modified, or restated from time to time, the "Restructuring Agreement"). The Prospect Parties and the MPT Parties are herein sometimes referred to individually as a "Party" and collectively, as the "Parties."

W I T N E S S E T H:

WHEREAS, as an inducement for the MPT Parties to enter into and deliver the Restructuring Agreement and to consummate the transactions which are to be consummated on the Effective Date under the terms of the Restructuring Agreement, each of the Prospect Parties desire to enter into and deliver this Release to the MPT Parties.

NOW, THEREFORE, in consideration of the foregoing inducements, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Prospect Parties do hereby agree as follows:

1. **Defined Terms.** Capitalized terms used but not otherwise defined herein shall have the meaning ascribed thereto under the Restructuring Agreement, unless otherwise specifically noted.

2. **General Release and Waiver by Prospect Parties and Affiliates**.

(a) Subject to the other terms, conditions, and limitations set forth in this Release, the Prospect Parties, on behalf of themselves and their respective Affiliates and Subsidiaries, and each of their respective members, stockholders, managers, directors, officers, employees, partners, members, equityholders, controlling or controlled persons, managers, agents, advisors, representatives, and their respective successors and assigns (collectively, the "Prospect Releasors"), effective as of the Effective Date, hereby irrevocably and unconditionally release, waive, and forever discharge the MPT Parties and each of their respective Affiliates, members, stockholders, directors, officers, successors, assigns, agents, employees, representatives and attorneys, and all Persons acting by, through, under, or in concert with any of the aforesaid Persons (collectively, the "MPT Releasees"), from and against any and all demands, actions, causes of action, suits, covenants, contracts, controversies, agreements, promises, sums of money, accounts, bills, reckonings, damages and any and all other claims, counterclaims, defenses, rights of set-off, demands and liabilities whatsoever (individually, a "Claim" and collectively, "Claims") of every name and nature, known or unknown, suspected or unsuspected, both at law and in equity, which any of the Prospect Releasors may now or hereafter own, hold, have or claim to have against the MPT Releasees or any of them for, upon, or by reason of any circumstance, action, cause or thing whatsoever which arose prior to the Effective Date, for or on account of, or in relation to, or otherwise in connection with (i) the Outstanding Obligations (as of the date hereof), (ii) any of Master Lease I, Master Lease II, the TRS Note, the Foothill Mortgage Loan Documents, [the Pennsylvania Restructuring Documents, the Amended and Restated Security Documents, and all of the other Obligation Documents][1] and the MPT Advance Convertible Note,

[1] Note to From: To be included in the Phase II and Phase III Release and Waiver Agreements together with any other Obligation Documents then in effect.

or (iii) the Restructuring Agreement and any of the other documents or agreements contemplated therein, *provided*, *however*, that the Claims released and waived by the Prospect Releasors hereunder shall not include (x) any rights or Claims which cannot be waived as a matter of law, (y) any Claim that is determined in a final, non-appealable judgment by a court of competent jurisdiction to have resulted from the gross negligence, willful misconduct, or fraud of any MPT Releasee, or (z) any rights or Claims that arise on or after the Effective Date, including but not limited to, any Claims related to the agreements and transactions contemplated by the [Phase I Transactions, Phase II Transactions or Phase III Transactions][2] (as such terms are defined in the Restructuring Agreement), including, for the avoidance of doubt, the Restructuring Agreement and the PHP Holdings LLC Agreement (as defined in the Restructuring Agreement) or any other Claims arising under the Restructuring Agreement regardless of when such Claim arose.

(b) Each of the Prospect Parties, for itself and on behalf of any other Prospect Releasors, acknowledges that the legal requirements of many states provide substantially the following:

> "A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR."

Each of the Prospect Parties, for itself and on behalf of any other Prospect Releasors, understand that the foregoing gives the Prospect Parties the right not to release existing claims of which the Prospect Parties are not aware, unless the Prospect Parties voluntarily choose to waive this right. Having been so apprised, each of the Prospect Parties, for itself and on behalf of any other Prospect Releasors, nevertheless hereby voluntarily elect to and waive the rights described above (or such other comparable statute, rule, regulation or order) with respect to the Claims released in subsection (a) above, and elect to assume all risks for claims that exist, existed or may hereafter exist in its favor, known or unknown, suspected or unsuspected, solely arising out of or related to such released Claims, in each case, effective upon the Effective Date. Each of the Prospect Parties, for itself and on behalf of any other Prospect Releasors, acknowledge and agree that the foregoing waiver is an essential and material term of the released Claims by the Prospect Parties and that, without such waiver, the MPT Parties would not have agreed to the terms of this Release.

3. Representations and Warranties. The Parties acknowledge and agree that the respective representations and warranties of the Prospect Parties to the MPT Parties as set forth in the Restructuring Agreement shall be applicable to this Release in all respects. The Prospect Parties, jointly and severally, further represent and warrant to the MPT Parties that none of the Prospect Parties (nor any of the Prospect Releasees) have (a) assigned, transferred, or conveyed, or (b) purported to assign, transfer, or convey, or (c) placed or permitted any Encumbrance on, and each Party covenants that such Party will not assign, transfer, or convey to any third party, or place or permit any lien or encumbrance on any right or interest that it may have in or with respect to any Claim (or portion thereof or interest therein) that is released, waived, or discharged pursuant by this Release.

4. Covenants. Each of the Prospect Parties, on behalf of itself and each of the Prospect Releasors, hereby absolutely, unconditionally and irrevocably, covenants and agrees with and in favor of each of the MPT Releasees that none of the Prospect Parties nor any of the Prospect Releasors shall (a) assign, transfer, or convey to any unaffiliated third party, or place or permit any Encumbrance on, any right or interest that it may have in or with respect to any Claim (or portion thereof or interest therein) that is

[2] Note to From: To be updated at each closing.

released, waived, and discharged pursuant by this Release, or (b) absent suits related to matters expressly carved-out in Section 2 above, sue (at law, in equity, in any regulatory or arbitration proceeding or otherwise) on the basis of any Claim released, waived, or discharged pursuant to this Release.

5. Effect of Releases.

(a) The Prospect Parties understand there is a risk that, subsequent to the execution of this Release, they may discover claims or facts in addition to, or different from, those which they know or believe to exist, in connection with the Claims released, waived, and discharged pursuant by this Release and that, notwithstanding the foregoing, it is the Prospect Parties' intention to assume the risk of such unknown and unanticipated claims and facts with respect to such Claims. For the purpose of implementing a full and complete release and settlement of such Claims, the Prospect Parties expressly acknowledge that this Release is intended to include all Claims arising out of, arising under, or related to the relationship between and among the Parties from the beginning of time to the Effective Date, even those which any one or more of the Parties do not know or suspect to exist at the time this Release is signed, and further, that this Release extinguishes and discharges any and all such Claims described herein, and the relationship between and among the Parties from the beginning of time to the Effective Date, except as specifically set forth in this Release. The Prospect Parties acknowledge that this Release was bargained for, and that there are no representations by, or conduct of, anyone being relied upon by them in entering into this Release, except as specifically provided herein.

(b) Each of the Parties acknowledge and agree that (i) the releases, waivers and discharges set forth in this Release may be pleaded as a full and complete defense and may be used as a basis for an injunction against any action, suit or other proceeding which may be instituted, prosecuted or attempted in breach of the provisions hereof, and (ii) no fact, event, circumstance, evidence or transaction which could now be asserted or which may hereafter be discovered shall affect in any manner the final, absolute and unconditional nature of the provisions set forth above. The provisions of this Release shall survive the consummation of the transactions contemplated by the Restructuring Agreement but shall only apply to the Claims released under this Release and shall not be expanded by the consummation of the transactions contemplated by the Restructuring Agreement.

6. Joint Drafting by Counsel. Each Party acknowledges and represents and warrants to the other Parties that such Party has been represented by and relied upon counsel of such party's own choosing in the negotiation, preparation and execution of this Release. The Parties and their respective counsel have participated in the drafting and redrafting of this Release and the general rules of construction which would construe any provisions of this Release in favor of or to the advantage of one Party as opposed to the other as a result of one Party drafting this Release as opposed to the other or in resolving any conflict or ambiguity in favor of one Party as opposed to the other on the basis of which Party drafted this Release are hereby expressly waived by all Parties to this Release.

7. Counterparts. This Release may be executed in multiple counterparts, any one of which need not contain the signature of more than one party, but all such counterparts taken together shall constitute one and the same instrument.

8. Delivery by Electronic Transmission. This Release and any signed agreement entered into in connection herewith or contemplated hereby, and any amendments hereto or thereto, to the extent signed and delivered by means of a facsimile machine or by .pdf, .tif, .gif, .jpeg or similar attachment to electronic mail, shall be treated in all manner and respects as an original contract and shall be considered to have the same binding legal effects as if it were the original signed version thereof delivered in person. At the request of any party hereto or to any such contract, each other party hereto or thereto shall re-execute original forms thereof and deliver them to all other parties. No Party hereto or to any such contract shall raise the use of a facsimile machine or by .pdf, .tif, .gif, .jpeg or similar attachment to electronic mail to

deliver a signature or the fact that any signature or contract was transmitted or communicated through the use of facsimile machine or by .pdf, .tif, .gif, .jpeg or similar attachment to electronic mail as a defense to the formation of a contract and each such party forever waives any such defense.

9. Binding Effect. This Release shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and assigns.

10. Severability. Whenever possible, each provision of this Release shall be interpreted in such manner as to be effective and valid under applicable Law, but if any provision of this Release is held to be prohibited by or invalid under applicable law, such provision shall be ineffective only to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Release, unless the severance of such provision would be in opposition to the parties' intent with respect to such provision. If, for any reason, any part of this Release is deemed to be prohibited, invalid or unenforceable with respect to any particular Party, that shall not affect or impair the operation or effect of this Release with respect to all of the other Parties.

11. Further Actions. Each of the Parties shall (and shall cause their respective Affiliates to) perform any further acts and execute and deliver any documents or instruments that may be reasonably necessary to carry out the provisions of this Release.

12. Injunctive Relief. Each of the Prospect Parties recognizes and affirms that in the event of a breach of this Release by any Prospect Releasor, money damages may be inadequate and the MPT Releasees may have no adequate remedy at law. Accordingly, the Prospect Parties agree that the MPT Releasees shall have the right, in addition to any other rights and remedies existing in their favor at law or in equity, to enforce their rights and the Prospect Releasors' obligations hereunder not only by an action or actions for damages but also by an action or actions for specific performance, injunctive and/or other equitable relief (without posting of bond or other security). The Prospect Parties agree not to assert that a remedy of specific performance or other equitable relief is unenforceable, invalid, contrary to law or inequitable for any reason, and not to assert that a remedy of monetary damages would provide an adequate remedy or that the MPT Releasees otherwise have an adequate remedy at law.

13. Expenses. Should any Party bring suit to enforce this Release against the other Party, or otherwise seek any remedy against any of the Parties hereunder, whether at law or equity, for any alleged breach or violation of this Release, the prevailing Party or Parties in any such proceeding shall be entitled to recover its/their expenses incurred in connection therewith from the opposing Parties, including, without limitation, all reasonable attorneys' fees and expert and consultant fees and costs, all court costs, all reproduction and information management expenses, all court report and transcription costs, all communication charges, and the like.

14. Governing Law. THIS RELEASE SHALL BE GOVERNED BY AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF DELAWARE APPLICABLE TO CONTRACTS EXECUTED AND PERFORMED IN SUCH STATE, WITHOUT GIVING EFFECT TO CONFLICTS OF LAW PRINCIPLES.

15. Jurisdiction and Venue. THE PARTIES CONSENT TO PERSONAL JURISDICTION IN THE STATE OF DELAWARE. THE PARTIES AGREE THAT ANY ACTION OR PROCEEDING ARISING FROM OR RELATED TO THIS RELEASE SHALL BE BROUGHT AND TRIED EXCLUSIVELY IN THE STATE OR FEDERAL COURTS OF DELAWARE. EACH OF THE PARTIES IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY OBJECTION TO THE LAYING OF VENUE OF ANY SUCH ACTION OR PROCEEDING BROUGHT IN ANY SUCH COURT. THE PARTIES EXPRESSLY ACKNOWLEDGE THAT DELAWARE IS A FAIR, JUST AND REASONABLE FORUM AND AGREE NOT TO SEEK REMOVAL OR TRANSFER OF ANY ACTION

FILED BY THE OTHER PARTY IN SAID COURTS. FURTHER, EACH PARTY IRREVOCABLY AND UNCONDITIONALLY WAIVES ANY CLAIM THAT SUCH SUIT, ACTION OR PROCEEDING HAS BEEN BROUGHT IN AN INCONVENIENT FORUM. SERVICE OF ANY PROCESS, SUMMONS, NOTICE OR DOCUMENT BY CERTIFIED MAIL ADDRESSED TO A PARTY AT THE ADDRESS DESIGNATED PURSUANT TO RESTRUCTURING AGREEMENT SHALL BE EFFECTIVE SERVICE OF PROCESS AGAINST SUCH PARTY FOR ANY ACTION OR PROCEEDING BROUGHT IN ANY SUCH COURT. A FINAL JUDGMENT IN ANY SUCH ACTION OR PROCEEDING BROUGHT IN ANY SUCH COURT MAY BE ENFORCED IN ANY OTHER COURT TO WHOSE JURISDICTION ANY OF THE PARTIES IS OR MAY BE SUBJECT.

16. **Waiver of Jury Trial**. TO THE MAXIMUM EXTENT PERMITTED BY LAW, EACH OF THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE THE RIGHT TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION BASED HEREON, ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS RELEASE, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENT (WHETHER VERBAL OR WRITTEN) OR ACTION OF EITHER PARTY OR ANY EXERCISE OF ANY PARTY OF THEIR RESPECTIVE RIGHTS HEREUNDER OR IN ANY WAY RELATING TO THIS RELEASE OR THE REAL PROPERTY (INCLUDING ANY CLAIM OR DEFENSE ASSERTING THAT THIS RELEASE WAS FRAUDULENTLY INDUCED OR IS OTHERWISE VOID OR VOIDABLE). THIS WAIVER IS A MATERIAL INDUCEMENT FOR LENDER TO ENTER INTO THIS RELEASE.

17. **Entire Agreement; Modification**. This Release and the documents referred to herein (including the Restructuring Agreement, Restructuring Documents under the Restructuring Agreement and for the limited purposes set forth herein, the Restructuring Agreement constitute the entire agreement and understanding of the Parties hereto pertaining to the Claims and other subject matter contained herein and supersedes all prior oral or written agreements, representations, warranties and understandings of the Parties hereto with respect to the subject matter hereof. It is expressly agreed that there are no verbal understandings or agreements which in any way change the terms, covenants, and conditions set forth in this Release, and that no modification of this Release and no waiver of any of its terms and conditions shall be effective unless it is made in writing and duly executed by the Parties. The Parties have not relied upon, and shall not be entitled to rely upon, any prior or contemporaneous agreements, understandings, representations or statements (oral or written) other than this Release in effecting the transactions contemplated herein or otherwise.

[SIGNATURES ARE ON THE FOLLOWING PAGES]

IN WITNESS WHEREOF, the parties have caused this Release and Waiver Agreement to be executed by their duly authorized officers to be effective as of the Effective Date.

MPT CONFIDENTIAL MPT_PROSPECT_00011524

MANAGEMENT SERVICES AGREEMENT

THIS MANAGEMENT SERVICES AGREEMENT (this "Agreement") is made and entered into as of this [____] day of [____], 2023 (the "Effective Date"), by and among **PROSPECT HEALTHCARE FACILITIES MANAGEMENT, LLC** f/k/a PHC Holdco, Inc., a Delaware limited liability company (the "Manager"), **PHP HOLDINGS, LLC**, a Delaware limited liability company (the "Company"), Alta Newport Hospital, LLC, a California limited liability company (the "Hospital Operator"), and each of the other entities which may from time to time, directly operate a Facility (as defined herein) and be joined to this Agreement, each of which is a direct or indirect subsidiary of the Company (each, an "Operator," and together with the Hospital Operator, the "Operators") (the Manager, the Company, and the Operators, individually may be referred to as a "Party" and collectively may be referred to as the "Parties").

Introductory Statements

As of the Effective Date, Hospital Operator operates Foothill Regional Medical Center "FRMC" and together with any new Healthcare Facilities that the Company (a) directly or indirectly owns, leases (as lessee), operates or manages, or hereafter becomes the operator or manager of or is deemed an operator or manager for purposes of Sections 856–861 of the Code; and (b) such Operator executes a document to become a Party to this Agreement, each a "Facility," and collectively, the "Facilities". For this purpose, a Healthcare Facility has the meaning given to it in Section 856(e)(6)(D)(ii) of the Internal Revenue Code of 1986, as amended or as may be amended from time to time (the "Code") and the treasury regulations promulgated thereunder.

Affiliates of the Manager have been in the business of operating and managing healthcare facilities historically, and have organized the Manager to engage in the business of operating and managing the Facilities.

The Company and the Operators desire to engage Manager to manage the day-to-day operations of any Facility as of the date the applicable Operator becomes a Party to this Agreement, and Manager is willing to be engaged in such capacity subject to the terms and conditions set forth herein.

As of the Effective Date, the Company, will be jointly owned by one or more Affiliates of the Manager and MPT Picasso Investors TRS, LLC, a Delaware limited liability company ("MPT Picasso TRS").

NOW, THEREFORE, in consideration of the promises and covenants herein contained and intending to be legally bound hereby, the Parties agree as follows:

ARTICLE I
RETENTION

1.1 Retention. For and during the Term (as defined herein), the Company and the Operators hereby engage Manager and grant to Manager the sole and exclusive right to operate, manage, supervise, direct, and control the management and operation of the Facilities (subject to

MPT CONFIDENTIAL MPT_PROSPECT_00011525

the Operators retaining ultimate authority and responsibility for the Facilities as further described herein), and the Company and the Operators hereby engage Manager to provide certain other management services as set forth below. Manager and the Company agree that all new Operators formed or acquired, by Company or any of its direct or indirect subsidiaries will be required to, and will join as Parties to this Agreement by executing a joinder to this Agreement agreeing to be bound by and subject to the terms and restrictions of this Agreement.

1.2 Acceptance. Manager accepts such appointment and agrees that it will (a) perform its duties and responsibilities hereunder in accordance with this Agreement as modified from time to time; and (b) use commercially reasonable efforts to (i) provide the management services set forth in this Agreement in an efficient and cost effective manner, and (ii) comply, in all material respects, with all statutes, ordinances, rules and regulations established by any governmental authority having jurisdiction over the Facilities and which are applicable to the services provided by Manager under this Agreement. Subject to the foregoing and to the other provisions of this Agreement, Manager, without the approval of Company or the Operators (unless such approval is herein specifically required), shall have the exclusive control regarding the operation and management of the Facilities for purposes of furnishing services pursuant to this Agreement (including the exercise of its rights and performance of its duties provided for in Article III hereof); *provided*, *however*, that the Company and/or the Operators, as the case may be, shall retain the ultimate professional and administrative authority and responsibility for the Facilities in accordance with California Code of Regulations, Title 22, Section 70713 or the applicable regulations for the state in which a Facility is located along with all other obligations that the Company and the Operators are required to maintain pursuant to the provisions set forth in Article IV. All matters requiring professional medical judgments shall remain the responsibility of the Facilities' Medical Staff (as defined herein) and allied health professionals, and Manager shall have no responsibility, obligation, or liability whatsoever for such judgments. Without limiting the foregoing, and to the extent the Manager is the same Person acting as the manager of the Company, the Parties hereby agree that, when making any decision or taking, or refusing or refraining from taking, any actions, permitted or required to be made by the Manager under this Agreement, the Manager shall be entitled to consider such interests and factors as it desires without implicating any fiduciary duties or other obligations it may owe as manager of the Company. Any actions taken by the manager of the Company, who is also the Manager under this Agreement (including the withdrawal, resignation or removal of the manager of the Company) will not change or alter, or have any effect on, this Agreement and the terms and conditions set forth herein will control the terms and conditions applicable to the Manager in its capacity as manager under this Agreement.

1.3 Independent Contractor Relationship. It is expressly agreed by the Parties that Manager is at all times acting and performing under this Agreement as an independent contractor of the Company and the Operators, and that no act, commission or omission by the Company, the Operators and/or Manager shall be construed to make or constitute the other its partner, member, joint venturer or associate by virtue of this Agreement. Manager shall be responsible for the compensation and supervision of its own employees used to perform the management services under this Agreement. Manager shall determine the methods, manner and means by which such services will be performed. Manager shall be solely liable for the payment of all salaries, wages, and any unemployment, social security, and other payroll taxes for Manager and its officers and employees, including any related assessments or contributions required by law.

1.4 Licenses; Permits. The Company and/or the Operators, as applicable, shall be the holder of the respective licenses, permits and contracts pertaining to the Facilities, and shall be the "provider" within the meaning of all third-party contracts for the Facilities.

1.5 Interpretation. It is the express intent of the parties that Manager shall at all times during the Term, including any Renewal Term, be an "eligible independent contractor," as defined in Section 856(d)(9)(A) of the Internal Revenue Code of 1986, as amended, and the Treasury regulations promulgated thereunder (an "EIK"), with respect to MPT Picasso TRS and its Affiliates (specifically including Medical Properties Trust, Inc, collectively, "MPT"). In the event that MPT determines, in its sole and absolute discretion, that this Agreement should be amended in any manner in order to maintain such eligible independent contractor status or to comply with provisions of the Code regarding MPT's status as a real estate investment trust, the Parties hereby agree to such an amendment provided that the Parties shall in good faith negotiate the terms of such an amendment, and provided that any such amendment does not adversely affect the rights of Manager in any material respect or any of its direct or indirect owners or impose any additional financial or other material obligations thereon. For purposes of this Agreement, "Affiliate" shall mean, with respect to any individual, corporation, limited liability company, general or limited partnership, unincorporated association, joint venture, governmental entity or another entity or group (each a "Person"), (i) any other Person that, directly or indirectly, controls or is controlled by or is under common control with such Person, or (ii) any other Person that owns, beneficially, directly or indirectly, 50% or more of the outstanding capital stock, shares, voting power, ownership, or other equitable interests of such Person (including any interest represented by any capital stock, convertible or participating debt instruments, membership interest, partnership interest, or any similar interest therein). For the purposes hereof, "control" (including the correlative meanings of the terms "controlled by" and "under common control with"), as used with respect to any Person, shall mean the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of such Person, through the ownership of voting securities or otherwise. Whenever the term Affiliate is used to describe MPT's Affiliates, it shall not be deemed to include the Company, the Operators, or any of their direct or indirect subsidiaries. Whenever the term Affiliate is used to describe Operator's Affiliates, it shall be deemed to include only the Manager, the Company, the Operators, and their respective direct or indirect subsidiaries.

ARTICLE II
TERM

The initial term (the "Initial Term") of this Agreement begins on the Effective Date (the "Commencement Date") and shall continue for a period of five (5) years. After the end of the Initial Term, this Agreement shall automatically continue for five (5) additional five (5) year terms (each a "Renewal Term") upon the same terms and conditions as are herein contained unless otherwise agreed or unless one hundred twenty (120) days' written notice is given by Company or Manager to the other Party prior to the end of the Initial Term or prior to the end of any Renewal Term. For purposes of this Agreement, "Term" shall mean the Initial Term and any Renewal Term. For purposes of this Agreement, the "Termination Date" shall be such date on which the final Term expires, or such date on which this Agreement terminates pursuant to Article VI hereof.

MPT CONFIDENTIAL MPT_PROSPECT_00011527

ARTICLE III
RIGHTS AND DUTIES OF MANAGER

During the Term of this Agreement, the Manager will undertake the general day-to-day supervision and management of the Facilities and provide the following services regarding the operation of the Facilities:

3.1 General Responsibilities.

(a) Subject to the control that the Company or Operators must maintain under applicable law or under this Agreement, the Manager shall provide reasonably sufficient and qualified management personnel, with the applicable personnel holding any licensure required by law, to:

(i) Manage, and direct the hospital operations at the Facilities;

(ii) Manage the selection, retention, supervision and discharge of, the Facilities' chief executive officer(s), chief financial officer(s), department heads and all operating and service employees performing services in and about the Facilities *provided that* such persons may be employees of the Manager, Company or the Operators, as applicable and for employees of Company or the Operators the decision to hire or fire such individual shall ultimately lie with the entity employing such individual.

(iii) manage and oversee the Facilities' human resources department(s); provide guidance for personnel policies and guidelines for adoption by the applicable entity; and negotiate, on the Company's behalf and at the Company's expense, with any labor union lawfully entitled to represent the employees at the Facilities, but any collective bargaining agreement or labor contract resulting therefrom must first be approved by the relevant Operator, who shall be the only person(s) authorized to execute the same;

(iv) Subject to the obligations of the Company and Operators set forth in Section 4.6, procure and supervise for the Company and the Operators the appropriate types, categories and amounts of insurance to cover the real and personal property of the Facilities, and to supervise the actions of the staff in securing certificates of such insurance, each as may from time to time be required pursuant to any leases, loan agreements or similar agreements with any lessors or lenders of the Company or the Operators relating to the Facilities (and subject to any other terms and conditions thereof) or otherwise; *provided*, *however*, that the payment to any insurance provider shall be and remain the sole responsibility of the Company or the Operators, and Manager shall have no responsibility whatsoever for such payment;

(v) direct the food service operation at the Facilities;

(vi) supervise the purchasing of all food supplies, pharmaceutical supplies, medical supplies, materials, and equipment incidental to the operation of the Facilities *provided*, *however*, the payment to for these items shall be and remain the sole responsibility of the Company or the Operators, and Manager shall have no responsibility whatsoever for such payment;

MPT CONFIDENTIAL MPT_PROSPECT_00011528

(vii) assist and supervise the Company's, the Operators' and the Facilities' compliance with all appropriate governmental requirements or regulations and with all the Company's, Operators' and Facilities' licenses and certifications and assist with the implementation of corporate compliance plan(s) for adoption by the Operators and/or the Facilities;

(viii) Subject to the provisions of Section 4.4, support and manage the Company's, Operators', and Facilities' information systems for the following areas: Accounts Payable, Contract Management, Payroll, Benefits, Financial Reporting, Marketing, Medical Records, Coding and Billing, and General Ledger;

(ix) supervise the Facilities' marketing department(s) or staff(s) and use commercially reasonable efforts to cause compliance by such Facilities' marketing departments with all applicable federal and state healthcare laws and regulations;

(x) Supervise quality assurance and performance improvement processes and assist the Company and the Operators with implementation of such systems at the Facilities, including risk management, patient/family satisfaction, licensing and accreditation, and program evaluation;

(xi) Subject to the legal authority of the governing body, manage the relationships of the Facilities with any partner, joint venturer, co-owner or similar party of any healthcare facility and to make all decisions and take all necessary or appropriate actions on behalf of the Facility according to the terms of any partnership agreement, joint venture agreement, limited liability company agreement, bylaws or any similar agreements or governing documents with respect to any such partnership, joint venture, limited liability company or similar entity of any kind, it being understood that Manager shall have the exclusive authority with respect to the affiliated subsidiary entities of the Operators;

(xii) Subject to the legal authority of the governing body, handle, on a timely basis, any negotiations, and discussions for the purpose of attempting to cure any defaults that may exist with respect to the Company's or an Operator's contractual or regulatory obligations (provided that the Manager shall have no obligation to cure any monetary default except with funds from the relevant Facility or Operator); and

(xiii) Subject to the Facilities' capital budgets and governing body approvals, supervise the maintenance and the undertaking of all alterations and repairs at each Facility, and to prepare and submit to the Company, on an annual basis no fewer than thirty (30) days prior to the end of the year, a list of, and a budget relating to, capital items to be acquired for, or altered or repaired at the Facilities. Such budget shall include an allocation for capital purchases, alterations and repairs to be undertaken by Manager, in its discretion, and which allocation may be modified by Manager, in its sole discretion, including by substitution, for such year so long as the aggregate budget for such item does not result in a Material Deviation (as defined herein); *provided*, *however*, that such amount may be increased to meet emergency needs if Manager determines such needs are commercially reasonable and provides prior written notice to the Company. Further, in the event capital purchases, alterations or repairs become necessary in order to preserve or procure necessary licenses and permits to operate the Facilities, the

MPT CONFIDENTIAL MPT_PROSPECT_00011529

Company will convene within two (2) days at the request of Manager to authorize such additional expenditures as may be necessary to maintain necessary licenses and permits and approval of such expenses shall not be unreasonably withheld, conditioned or delayed. Notwithstanding, Manager is also authorized to make sure expenditure even without such approval to extent such expenditure is required by law. For purposes hereof, the determination of whether an expenditure constitutes a capital item shall be made in accordance with generally accepted accounting principles ("GAAP"), consistently applied. The term "Material Deviation" shall mean either (a) exceeding any individual line item in such budget by more than twenty percent (20%), or (b) exceeding the Permitted Expenditure Amount by more than ten percent (10%). The term "Permitted Expenditure Amount" shall mean the total expenditure amount of all line items in such budget.

(b) In performing its duties under this Agreement, Manager may rely on the recommendations of the Facilities' medical staff (and its designated committees) and departmental chairpersons (collectively "Medical Staff") relative to the quality of professional services provided by individuals with clinical privileges.

3.2 Financial Responsibilities. Manager shall use commercially reasonable efforts to:

(a) Manage the preparation of an annual operating budget for each Facility based on anticipated revenues and expenses at such Facility for the approval by the Company and endeavor to cause the Facilities to operate within its budget, notifying the Company in a reasonable time period of all material changes or deviations from the budget projections, and making recommendations to the Company concerning such changes or deviations;

(b) Oversee the timely preparation of financial and operating reports with respect to the Facilities, which shall include all reports required by any lender or lessor to the Company and/or the Operators, budgetary comparisons and capital improvement reports and periodic reports summarizing Manager's actions and performance hereunder; *provided*, *however*, that it shall be the sole responsibility of the Company and the Operators to solicit and retain, at the expense of the Company or the Operators, certified public accountants to undertake the year end audit of the Facilities' operations, and to cause said accountants to issue their certified statements of profit and loss and the balance sheet for the Facilities and for Company and Operators for each fiscal year;

(c) Oversee the Facilities' billing office(s) regarding the collection of all amounts due to the Facilities from all sources, including, but not limited to, amounts due from patients, and due under Medicare, Medicaid or other governmental or private insurance programs (the "Receivables"), and to retain on behalf of Company or an Operator, at the Facilities' expense, counsel to undertake litigation or similar action before any court, dispute resolution service, administrative agency or board in order to collect any of the Receivables;

(d) Review, when appropriate, the reserve requirements of Operator's lenders or governmental agencies with jurisdiction over the Facilities in an effort to assist in ensuring that all such reserve requirements are being met on a timely basis;

MPT CONFIDENTIAL MPT_PROSPECT_00011530

(e) Supervise the preparation and filing of all material reports, statements of affairs or records required by any federal, state or local government, or by any agency thereof, with regard to the operations of the Facilities as may be necessary to obtain reimbursements or funds therefrom, provided that the retention of any third party for the preparation of such reports shall be an expense of the Facilities;

(f) Review the financial performance and the operations of any partnership, joint venture, or similar arrangements in which the Facility may be a party, member, or co-owner of any sort;

(g) Oversee the payroll records for the Facilities' staff(s);

(h) Oversee the payment of, all accounts payable, and all amounts owing, by the Facilities;

(i) To the extent such Facility does not have an existing depository Fund, select an appropriate financial institution to serve as depository for such Facility's' funds;

(j) Recommend to the Operator appropriate parties to sign checks on behalf of each Facility and upon Operator's designation of such individuals obtain proper authorization for said parties to sign checks on behalf of each Facility; and

(k) At the direction of the Company and the applicable Operator, review, oversee and negotiate the terms of any working capital or other similar loan agreements and related debt instruments with respect to the Company or any Operator which pertains to a Facility.

3.3 Third Party Contracts. Subject to the legal authority of the Facility's governing body, Manager, in the performance of its duties under this Agreement, may review, negotiate, and enter into (on behalf of the any Operator or Facility, as applicable) contracts with third parties regarding certain services for the Facilities. Such services may include, but shall not be limited to, therapy services, auditing services, coding services, lab services, ancillary services, insurance and brokerage services, food service, linens and other supplies, accounting services, consulting services, marketing, and bookkeeping services. Prior to entering into contracts for and on behalf of any of the Operators or Facilities with such persons that require or are likely to result in an annual expenditure that is not included in the annual operating budget of such Facility, Manager shall provide the Company and Operators with such information regarding such contracts as the Company or Operators may reasonably request and shall obtain all legally required Facility approvals. Such contracts for annual expenditures that are not included in the annual operating budget for such Facility or Operator shall be subject to the approval of the Company and the Facility governing body, which approval shall not be unreasonably withheld, conditioned or delayed.

3.4 Legal Matters. Manager will: (a) prepare or coordinate with outside legal counsel for the preparation of documents for the operation of the Facilities, including managed care contracts, supplier/vendor contracts, service contracts, equipment leases and other ancillary contracts; (b) prepare or coordinate licensure and other regulatory applications; (c) coordinate all litigation involving the Facilities with local counsel or the insurance company; (d) coordinate

with local counsel on local law issues affecting the Facilities; (e) process working capital requests and apply for, negotiate and obtain letters of credit; and (f) coordinate with local counsel to provide counsel to the Facilities' human resources department(s). The Parties acknowledge that all outside counsel expenses under this Section shall be an expense of the Company and/or Operators and that Manager shall retain the right to select such outside legal counsel or local counsel. Without the Company's or any Operator's prior written consent, Manager may initiate, settle, or otherwise dispose of litigation relating to the Facilities where the claim asserted is less than or equal to One Million Dollars ($1,000,000). Notwithstanding the foregoing, nothing shall limit Manager's ability to defend, settle or otherwise dispose of litigation against Manager in its individual capacity and not as an agent of the Company or the Operators.

3.5 Other Management Services. Manager shall have the authority to provide the applicable Parties and Facilities with other services the Parties determine are necessary or appropriate, including ongoing consulting and training in key areas, such as documentation, management systems, quality assurance, staffing efficiency and expense control, and risk management, provided that the retention of any third party to provide such services shall be an expense of the Facilities. For the avoidance of doubt, Manager's duties to the Company and/or the Operators shall be solely limited to services in support of or relating to the Facilities. Notwithstanding anything herein to the contrary, in no event shall Manager be delegated or otherwise responsible for any roles, responsibilities, or obligations in support of or relating to (a) Prospect Health Plan, Inc.; or (b) the provision of administrative or management services by any Affiliate of the Company to medical groups, independent practice associations, or similar provider organizations that are not Facilities.

3.6 Payment of Expenses. All debts, obligations, other liabilities and expenditures of every kind required or permitted by Manager under this Agreement, including, without limitation, any costs incurred in connection with the operation of the Facilities, are for the Company's or the applicable Operator's account, and the Company and the applicable Operator on account of which such expenditures were incurred shall be jointly and severally liable for all such expenditures ("Company Expenditures"), except for Manager's Staff Services (described below). For the avoidance of doubt, the Operators shall not be jointly and severally liable between themselves for Company Expenditures, and each separate Operator shall only be jointly and severally liable with the Company for Company Expenditures incurred on account of such Operator. Manager is authorized by the Company to pay all Company Expenditures from funds from the Company, Operators, and the Facilities. The Company and the Operators, as applicable, shall pay directly any Company Expenditures not paid from funds from the Facilities, and neither Manager nor any of its Affiliates shall be obligated to advance any of its own funds to or for the account of the Company, any Operator or Facility, or to incur any liability on behalf of the Company, any Operator or Facility, unless the Company or an Operator, as applicable, shall have furnished Manager with funds necessary for the discharge thereof prior to incurring such liability. Manager's "Staff Services", which are not reimbursable by the Company and the Operators, are exclusively limited to the salaries and benefits of Manager's employees, officers and home office staff, as well as Manager's home office overhead expenditures, including but not limited to lease expenditures, accountant and/or audit expenses, insurance policies, legal fees, third party accounts, payroll processing and human resources administration.

3.7 Serving as Officers and Directors. During the Term of this Agreement (but subject to the limited liability company agreement of the Company (as amended, restated, modified, or amended and restated, the "LLC Agreement") and applicable law, including duties that an Operator or Facility must retain under applicable law), Manager may appoint officers, directors, and managers with respect to the governing bodies of the Operators and Facilities (which officers, directors and managers may consist of employees, officers, directors, or managers of Manager). The Company, the Operators, and their affiliated operating subsidiaries, including, as applicable, Facilities (each individually and on behalf of their respective officers, directors, managers, and equity owners) and the Manager, (individually and on behalf of its officers, directors, managers, and equity owners) each waive any conflict of interest in connection therewith, though such conflicts of interest shall be disclosed in accordance with Facility policies.

3.8 Reserved.

3.9 Insurance of Manager.

(a) Manager shall procure appropriate general liability insurance coverage for Manager and its employees, and the cost of such insurance coverage (if any) shall be included within the Management Fee (as defined herein). Such general liability insurance coverage shall be provided under a policy that is issued by an insurer with at least an "A-" rating from A.M. Best Company that is properly licensed and qualified to do business in the State in which the Facility is located, and shall name as additional insured the Company and the Operators (and any entities affiliated therewith). No insurance may be maintained through "self-insurance" unless approved in writing in advance by the Company and the Requisite Series A-1 Holders (as such term is defined in the LLC Agreement). Manager shall use commercially reasonable efforts to ensure that all entities retained or hired by it maintain appropriate insurance coverage.

(b) Manager shall submit to the Company a Certificate of Insurance ("COI") evidencing the coverage required herein prior to the Commencement Date. The COI shall contain an unqualified requirement that the insurance company provide Company with thirty (30) days' written notice of any cancellation or lapse of said policy or any change to Company's additional insured status of said policy, unless related to the failure to pay any premium, in which event the insurance company shall provide Company with ten (10) days' written notice. All policies must contain a waiver of all rights of subrogation against Company.

ARTICLE IV
RIGHTS AND DUTIES OF COMPANY

During the Term of this Agreement:

4.1 Cooperation with Manager. The Company shall, and shall cause, the Operators and Facilities to promptly and fully cooperate in all reasonable respects with Manager in operating and supervising the operations of the Facilities.

4.2 Operating Capital. The Company shall use commercially reasonable efforts to ensure that the Facilities have access to a level of funding reasonable and necessary for the

MPT CONFIDENTIAL MPT_PROSPECT_00011533

operation of the Facilities on a sound financial basis (including the payment of management fees and reimbursable expenses owed to Manager).

4.3 Capital Improvements. The Company shall, and shall cause the Operators to, ensure that the Facilities have access to working capital reasonable and necessary to make all necessary capital improvements to the Facilities in order to maintain and continue standards of operation of the Facilities as rehabilitation and long term acute care facilities, as applicable.

4.4 Support Operations. The Company shall, and shall cause the Operators to, provide (at no additional cost to Manager) and be responsible for administrative services, staffing, payroll, information technology systems, financial and accounting systems (including but not limited to billing, accounts payable, financial reports, and general ledger), and the signing of any reports or filings for the Facilities.

4.5 Reserved.

4.6 Insurance of Company and Operators.

(a) The Company shall, and shall cause each of the Operators to, maintain, at their sole expense, professional liability and general liability insurance, Workers Compensation, Property, Directors & Officers Liability, Employment Practices Liability, Managed Care E&O, Cyber Liability, Crime, Fiduciary and other customary policies as may be required by applicable law or contracts to which they are a party, which insurance shall cover the Company, the Operators, and their employees or anyone engaged by or acting on behalf of any of them at the Facilities. Such insurance coverages shall be provided an insurer with at least an "A-" rating from A.M. Best Company that is properly licensed and qualified to do business in the State in which the Facility is located. No insurance may be maintained through "self-insurance" unless approved in writing in advance by Manager, which approval will not be unreasonably withheld, conditioned or delayed. The Company shall name Manager as an additional insured in connection with such insurance.

(b) The Company shall submit to Manager a COI evidencing the coverage required herein prior to the Commencement Date. The COI shall contain an unqualified requirement that the insurance company provide Manager with thirty (30) days' written notice of any cancellation or lapse of said policy or any change to Manager's additional insured status of said policy, unless related to the failure to pay any premium, in which event the insurance company shall provide Manager with ten (10) days' written notice. All policies must contain a waiver of all rights of subrogation against Manager.

4.7 On-Site Management Facilities. As part of the consideration for Manager's services provided under this Agreement, the Company shall cause the Operators to provide adequate space at the Facilities for a management office, for the use of Manager to conduct the business of the management of the Facilities.

4.8 Responsibility of Company and Operators. Notwithstanding the authority granted to Manager in this Agreement, the governing body of the Facilities, including the Medical Staff of the Facilities, as the case may be, will at all times retain sole and ultimate control and authority over patient care (including the provision of all medical, clinical or professional

services rendered by or on behalf of the Facilities and Operators or such providers at the Facilities and otherwise); medical, clinical or professional services (including professional judgment relating thereto); the Facilities (including, among other things the all Facility assets and operations); and such other duties and responsibilities that must be retained under applicable law, each case to the fullest extent as may be required by applicable law, including but not limited to:

(a) The Operators shall have the sole and ultimate responsibility to be and remain the licensee of such Facilities and, as such, the Company and Operators shall be fully liable and legally accountable and responsible at all times to all patients and governmental organizations for all patient care and funds received, and for all other aspects of the operation and maintenance of the Facilities. In this regard, it is specifically emphasized that during the Term, the Company and the Operators shall be and remain fully liable and legally accountable and responsible to the governments of the United States and the applicable state where the Facility is located, and the agents of said governments, with respect to all matters concerning the Facilities' continued participation in the Medicare and Medicaid programs under Title XVIII and Title XIX of the Social Security Act (42 U.S.C. § 1395 et seq.; 42 U.S.C. § 1396 et seq.);

(b) Each Facility's governing body shall remain solely responsible for all obligations as set forth in 42 C.F.R. § 482.12 and California Code of Regulations, Title 22, Section 70713 or the applicable regulations for the state in which a Facility is located; and

(c) It is and will remain the ultimate responsibility of each Operator (or the board of the Medical Staff of a Facility, as the case may be) to approve all decisions to credential, recredential, appoint, grant clinical privileges to and discipline such Facility's Medical Staff in accordance with the medical staff bylaws and applicable law.

ARTICLE V
COMPENSATION

5.1 Management Fees.

(a) Upon the terms and subject to the conditions contained in this Agreement, the Company and/or the Operators shall pay Manager the management fees set forth on Schedule A (the "Management Fee") as consideration for the services rendered by Manager pursuant to this Agreement.

(b) The pro-rated portion of the Management Fee shall be payable monthly in arrears on the last business day of each month, or earlier, in the Company's sole discretion. Manager may invoice the Company on a monthly basis; *provided*, *however*, that the Management Fee shall be due and payable by the Company and/or the Operators as described herein regardless of whether an invoice is received.

(c) The Parties acknowledge that the components of the Management Fee associated with Foothill Regional Medical Center are based on Gross Patient Revenue (as defined in Schedule A) in accordance with monthly internally prepared financial statements that may subsequently be subject to adjustment, on periodic basis. Manager agrees to provide to the Company a quarterly summary and reconciliation of the Management Fee within thirty (30) days after the end of each calendar quarter. In the event the Company is entitled to a reimbursement

MPT CONFIDENTIAL MPT_PROSPECT_00011535

on account of the total Management Fee paid by the Company to Manager in the previous quarter, then Manager shall deliver to the Company with such accounting, the total amount of reimbursements so owed to the Company. If the Company underpaid Manager, then within thirty (30) days after the receipt of the accounting by Manager, the Company shall pay Manager the amount of the underpayment.

(d) The Management Fee may be subject to adjustment effective as of the first (1st) anniversary of the Effective Date, and thereafter from time to time as the Parties shall agree, to reflect changes in the scope and/or nature of the services provided by Manager hereunder and/or the fair market value thereof, and that any such adjustment in the Management Fee shall be confirmed by written agreement of the Parties. Notwithstanding anything herein to the contrary, the Parties agree and acknowledge that, to the extent the Company and/or any Operator is able to provide any of the services to otherwise be provided by Manager pursuant to Article III in lieu of Manager, the Management Fee shall be adjusted to reflect the scope and/or nature of the services to be actually provided by Manager going forward and/or the fair market value thereof, and that any such adjustment in the Management Fee shall be confirmed by written agreement of the Parties.

5.2 Reimbursable Costs. In addition to the Management Fee, Manager shall be reimbursed for any reasonable out of pocket costs paid by Manager for the travel, lodging and meals expense of the Manager's home office staff who travel to the Facilities, and for any Company Expenditures or other amounts to which it is entitled pursuant to Section 3.6 or any other provisions hereof. Manager will provide receipts or other appropriate evidence of these expenses prior to Manager withdrawing such reimbursements from funds from the Facilities. In the event the funds from the Facilities are not sufficient to pay such reimbursements, the Company and/or the Operators shall pay to Manager any deficiency within five (5) days after receipt of Manager's written request therefore. If Manager is required by law to obtain a license in any jurisdiction in which the Company operates and in which Manager is not currently so licensed, the Company agrees to reimburse Manager for all reasonable expenses related thereto.

ARTICLE VI
TERMINATION RIGHTS

6.1 Termination by the Company. If at any time during the Term any of the following events shall occur and not be remedied within the applicable period of time herein specified (if any), then the Company shall have the right to terminate this Agreement immediately upon written notice:

(a) If at any time during the Term, Manager shall fail in any material respect to make any payment of any monetary obligation due and payable by the Manager pursuant to this Agreement (other than a failure to make any such payment resulting from a default by the Company or any Operator under this Agreement or otherwise caused by the Company or any Operator) within five (5) days following receipt by Manager of written notice thereof from any other Party hereto (*provided, however*, in no event shall the other parties hereto be required to give more than two (2) such written notices hereunder during any consecutive twelve (12) month period), then Company shall have the right to terminate this Agreement immediately upon written notice.

MPT CONFIDENTIAL MPT_PROSPECT_00011536

(b) If at any time during the Term, Manager shall, in any material respect, fail to comply with, observe or perform any material non-monetary covenant, agreement, term or provision of this Agreement required to be complied with, observed, or performed by Manager (other than Section 6.1(a) above), and such material failure shall continue for a period of sixty (60) days after receipt of written notice thereof by the Company to Manager, unless such failure cannot be cured within a period of sixty (60) days, in which case such failure shall not be deemed to continue so long as Manager commences to cure such failure within the sixty (60) day period and Manager proceeds thereafter with due diligence and good faith to complete the curing.

(c) If at any time Manager shall apply for or consent to the appointment of a receiver, trustee, or liquidator such party, as applicable, or of all or a substantial part of its assets, file a voluntary petition in bankruptcy or admit in writing its inability to pay its debts as they become due, make a general assignment for the benefit of creditors, file a petition or any answer seeking reorganization or arrangement with creditors or take advantage of any insolvency law, or if an order, judgment or decree shall be entered by a court of competent jurisdiction, on the application of a creditor, adjudicating such party bankrupt or appointing a receiver, trustee, or liquidator of such party with respect to all or a substantial part of the assets of such party, and such order, judgment or decree shall continue unstayed and in effect for any period of sixty (60) consecutive days, then the Company shall have the right to terminate this Agreement immediately upon written notice.

(d) Notwithstanding anything herein to the contrary, the Company may terminate this Agreement at any time during the Term if the Manager (as such term is defined in the LLC Agreement) of the Company and the Requisite Series A-1 Holders (as such term is defined in the LLC Agreement) approve the termination of this Agreement.

6.2 Termination by Manager. If at any time during the Term any of the following events shall occur and not be remedied within the applicable period of time herein specified (if any), then the Manager shall have the right to terminate this Agreement immediately upon written notice:

(a) The Company and/or the Operators shall fail to keep, observe, or perform any material covenant, agreement, term or provision of this Agreement required to be kept, observed, or performed by any of them (except as described in Section 6.2(b) below) and such failure shall continue for a period of thirty (30) days after written notice thereof by Manager to Company, unless such failure cannot with due diligence be cured within a period of thirty (30) days (in Manager's reasonable discretion), in which case such failure shall not be deemed to continue so long as the Company and/or the Operators commence to cure such failure within the thirty (30) day period and proceeds with due diligence to complete the curing thereof within sixty (60) days after receipt by the Company and/or the Operators (as applicable) of a notice of default (or such longer period as is reasonably required to effect such cure if Company and/or the Operators (as applicable) are diligently proceeding to do so);

(b) The Company and/or the Operators shall fail to make any payment required hereunder and such default shall continue for a period of five (5) business days after written notice from Manager to Company (*provided, however*, in no event shall the other

MPT CONFIDENTIAL MPT_PROSPECT_00011537

Manager be required to give more than two (2) such written notices hereunder during any consecutive twelve (12) month period);

(c) The Facilities or any material portion thereof shall be materially damaged or destroyed by fire or other casualty and (i) the Company shall fail to undertake to repair, restore, rebuild, or replace any such material damage or destruction within forty-five (45) days after such fire or other casualty, or shall fail to complete such work diligently, and (ii) Company shall fail to permit Manager to undertake to repair, restore, rebuild, or replace, at Company's expense, any such material damage or destruction within forty-five (45) days after such fire or other casualty;

(d) The Company and/or any of the Operators shall apply for or consent to the appointment of a receiver, trustee, or liquidator such party, as applicable, or of all or a substantial part of its assets, file a voluntary petition in bankruptcy or admit in writing its inability to pay its debts as they become due, make a general assignment for the benefit of creditors, file a petition or any answer seeking reorganization or arrangement with creditors or take advantage of any insolvency law, or if an order, judgment or decree shall be entered by a court of competent jurisdiction, on the application of a creditor, adjudicating such party bankrupt or appointing a receiver, trustee, or liquidator of such party with respect to all or a substantial part of the assets of such party, and such order, judgment or decree shall continue unstayed and in effect for any period of sixty (60) consecutive days; or

6.3 Survival Rights Upon Termination. If either Party exercises its option to terminate pursuant to this Article VI, each Party shall account for and pay to the other all sums due and owing pursuant to the terms of this Agreement within thirty (30) days after the effective date of termination. Any term or provision hereof relating to a disputed amount sum shall survive the termination hereof until the final resolution of the applicable dispute. Without limiting the generality of the foregoing, within thirty (30) days after the effective date of termination of this Agreement, Company and the Operators shall pay to Manager all accrued fees and reimbursable expenses of Manager, together with all accrued and unpaid interest thereon. All other rights and obligations of the Parties under this Agreement shall terminate (except as set forth in Article VII, Article VIII, Article XII, Section 6.3, Section 6.4, and Section 6.5 hereof).

6.4 Cooperation After Termination. Upon the expiration or earlier termination of this Agreement, Manager shall cooperate with the Company and use commercially reasonable efforts to effect an orderly transition to avoid any interruption in the rendering of the above-described services to the Facilities (including, continuing to provide management services for three (3) months following expiration or termination on the same compensation basis, provided, that, all fees then owing to Manager are paid and the fees for such three (3) month period is placed in an escrow account reasonably satisfactory to the Parties, which escrowed amount will be used solely to compensate the Manager pursuant hereto). In the event of such expiration or earlier termination, Manager shall promptly surrender to Company all keys, contracts, other documents and records maintained by Manager in connection with the operations of the Facilities as soon as practical, but in no event later than the later of thirty (30) days after the Termination Date or the date that Manager ceases providing services under this Agreement. In addition, upon the expiration or earlier termination of this Agreement, Manager shall return to the Company or the Operators, as appropriate, all original electronic and paper documents and all copies thereof,

MPT CONFIDENTIAL MPT_PROSPECT_00011538

except for one copy which Manager may maintain for record purposes only, which relate in any way to the performance of services hereunder, and the operation and maintenance of the Facilities in the possession, custody or control of Manager. For any requests of Manager made after the Termination Date that do not involve obligations of Manager already required under this Agreement but not as yet completed prior to the Termination Date, Manager will be promptly reimbursed by the Company for any of Manager's reasonable and documented out-of-pocket costs and expenses (including but not limited to the reasonable expenses of Manager's travel expenses and reasonable, fees, disbursements and other reasonable and documented charges of legal counsel to Manager) and will be promptly and reasonably compensated by the Company for any material efforts made at the request of the Company.

6.5 No Personal Liability. The Parties agree that the liability of Company and Manager under the terms of this Agreement shall be limited solely to the assets of Company and the Operators, on the one hand, and the Manager, on the other hand, it being intended that no officers, manager(s), director(s) or members of the Company or officers, members or managers of the Manager shall be deemed personally liable for any judgment, costs or damages incurred by Manager or the Company hereunder.

ARTICLE VII
NO LIABILITY; INDEMNIFICATION; EXPENDITURE LIMITATION

7.1 Indemnification of Company By and Liability of Manager.

(a) If and only to the extent not otherwise covered by insurance, the Manager hereby agrees to defend, indemnify, protect and hold harmless the Company, the Operators and each of their respective members, Affiliates, and its and their respective agents, officers, directors, managers, and employees (the "Company Indemnitees"), from and against any and all liability, claims, loss, cost, damage or expense (including, without limitation, reasonable attorneys' fees and expenses and court costs, costs and expenses of defense, appeal and settlement of any proceedings instituted against any of such Company Indemnitees and all reasonable costs of investigation in connection therewith) incurred by any of them in connection with, by reason of, or arising out of any third party claims which are primarily caused by the Manager's fraud or willful misconduct in connection with the performance of its duties or obligations under this Agreement. The Manager's obligations under this Section 7.1(a) shall survive the expiration or earlier termination of this Agreement.

(b) Subject to Section 7.1(a) hereof, Manager assumes no liability whatsoever for any acts, omissions or delinquencies of the Company or any Operator or any of their members, managers, Affiliates, agents, officers, directors or employees, or any previous operators of the Facilities, or any previous property managers or other agents of either the Company or any Operator. Subject to Section 7.1(a) hereof, Manager assumes no liability for known or previously unknown violations of environmental, healthcare laws or other laws or regulations which become known during the Term. Any such environmental violations or hazards or healthcare violations or other violations of law discovered by Manager shall be brought to the attention of the Company and/or the Operators in writing and, except to the extent caused by a grossly negligent act or material omission of Manager, the Company and/or the Operators shall be responsible for such violations or hazards. In addition, except to the extent

MPT CONFIDENTIAL MPT_PROSPECT_00011539

caused by a negligent act or omission of Manager, and subject to Section 7.1(a) hereof, Manager assumes no liability for any failure of computer hardware or software of miscellaneous computer systems to accurately process data (including, but not limited to, calculating, comparing, and sequencing) or for any damages arising from, incident to, or in connection with, the pre-existing conditions of the structure, equipment, or the environment of the Facilities.

(c) Further for the avoidance of doubt, Manager makes no, and hereby disclaims any, warranties whatsoever, including, without limitation, warranties of merchantability or fitness for a particular purpose or implied warranties, with regard to any goods or third-party services purchased or used by the Company, the Operators or the Facilities under this Agreement. The Company and Operators agree that neither the Company nor an Operator will make any claim against Manager for defects in any such product or service, for breach of warranty, or for any other claim arising out of any such product or services purchased or used by the Company, the Operators or the Facilities under this Agreement.

7.2 Indemnification of Manager by the Company and the Operators. The Company and the Operators, on a joint and several basis, agree to defend, indemnify, protect and hold harmless Manager and its members, Affiliates and its and their respective agents, officers, directors, managers and employees (the "Manager Indemnitees") to the greatest extent permitted by law, including, without limitation, from and against any and all liability, claims, loss, cost, damage or expense (including, without limitation, reasonable attorneys' fees and expenses and court costs, costs and expenses of defense, appeal and settlement of any proceedings instituted against any of such Manager Indemnitees and all reasonable costs of investigation in connection therewith) incurred by any of them in connection, by reason of, or arising out of: (a) Manager's performance of services or undertaking of responsibilities under this Agreement, unless (and then, only to the extent) caused by Manager's fraud or willful misconduct, or (b) any damage to property, or injury or death to persons, occurring in or with respect to any of the Facilities, unless (and then, only to the extent) caused by Manager's fraud or willful misconduct. The Company and the Operators shall pay to Manager all indemnifiable expenses as they are incurred by any Manager Indemnitee (the "Expense Advancement Obligation") in connection with any proceeding in advance of the final disposition of such proceeding; *provided*, that Manager shall be obligated to repay the amount of such expenses advanced to Manager if it is finally determined by a court of competent jurisdiction that Manager was not entitled under this Agreement to indemnification. Without limitation on their Expense Advancement Obligation, the Company and the Operators shall be permitted to satisfy their obligations under this Section 7.2 with any available insurance proceeds. No Manager Indemnitee shall be liable pursuant to this Agreement (a) for the acts, receipts, neglects, defaults or omissions of any other Manager Indemnitee or agent of the Company or any Operator, (b) for any loss on account of defect of title to any property of the Company or any Operator, (c) on account of the insufficiency of any security in or upon which any money of the Company or any Operator shall be invested or (d) for any loss incurred through any bank, broker or other similar person or entity; *provided*, that, the foregoing limitation shall not be applicable to the liability of Manager pursuant to the LLC Agreement or any other Transaction Documents (as defined therein). The Company's and the Operators' obligations under this Section 7.2 shall survive the expiration or earlier termination of this Agreement.

MPT CONFIDENTIAL MPT_PROSPECT_00011540

7.3 Control of Defense of Indemnifiable Claims. The indemnified party shall promptly notify the indemnifying party in writing of any such claim and shall provide the indemnifying party with all available evidence in its possession to enable the indemnifying party to defend such claim; *provided, however*, that the failure to give any such notice shall not disqualify any indemnified party from the right to indemnification unless such failure is adversely prejudicial to the indemnifying party. The indemnifying party shall have the sole and exclusive right to select counsel and shall pay all expenses of the defense, including, without limitation, attorneys' fees and court costs. If necessary, the indemnified party shall join as a party to the suit, but shall be under no obligation to participate except to the extent that such participation is required as a result of being a named party to the suit. The indemnified party shall offer reasonable assistance to the indemnifying party in connection therewith at no charge to the indemnifying party except for reimbursement of reasonable out-of-pocket costs and expenses incurred by the indemnified party in rendering such assistance. The indemnified party shall have the right to participate and be represented in any such suit by its own counsel at its own expense. The indemnifying party shall not settle any such suit if such settlement would have an adverse effect on the rights of the indemnified party, including imposing a burden on the indemnified party or if the indemnifying party is not responsible for or does not pay all amounts owed in relation to such settlement, in each case, without obtaining the prior written consent of the indemnified party, which consent shall not be unreasonably withheld, conditioned or delayed. It is the intention of the Parties that, in the event that the indemnifying party wrongfully denies its indemnification obligations hereunder, and the indemnified party is required to enforce the indemnifying party's obligation hereunder, then the indemnified party shall be entitled to recover its reasonable attorneys' fees, expenses and costs incurred therein.

7.4 Limitation of Expenditure Obligation. Notwithstanding anything to the contrary in this Agreement, but excluding Manager's indemnity obligations set forth in Section 7.1 above, Manager shall have no obligation whatsoever to make any advance to or for the account of the Company or any Operator or Facility, or to pay any amount contemplated for, or required of, Manager under this Agreement, or to incur any expenditure obligation – whether ordinary or capital – except to the extent that funds are available for such purpose (in Manager's reasonable judgment) either from capital funds provided by Company, the Operators or otherwise from the Facilities' funds. Moreover, if Manager so requests, from time to time, the Company shall, and cause the Operators to, sign, as principal, any contract or agreement which Manager is authorized or required to execute pursuant to this Agreement to evidence that Manager is acting solely as Company's and the Operator's agent and not as principal.

7.5 COMPANY'S AND OPERATORS' REMEDIES. AS A MATERIAL PART OF THE CONSIDERATION TO MANAGER, THE COMPANY AND THE OPERATORS AGREE THAT, AND EXCEPT FOR COMPANY'S, OPERATORS' AND THEIR AFFILIATES RIGHTS, REMEDIES AND RECOVERIES UNDER SECTION 7.1 OF THIS AGREEMENT, IN NO EVENT WILL MANAGER OR ITS MEMBERS, PARTNERS, EQUITY HOLDERS, MANAGERS, DIRECTORS, OFFICERS, EMPLOYEES OR AFFILIATES, OR SUCH AFFILIATES' SHAREHOLDERS, MEMBERS, PARTNERS, EQUITY HOLDERS, MANAGERS, DIRECTORS, OFFICERS, OR EMPLOYEES, OR ANY SUCCESSORS OR ASSIGNS BE LIABLE TO COMPANY, OPERATORS OR ANY THIRD PARTY UNDER OR IN CONNECTION WITH THIS AGREEMENT OR ITS SUBJECT MATTER, UNDER ANY LEGAL OR EQUITABLE THEORY, INCLUDING, WITHOUT

LIMITATION, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY, AND OTHERWISE, FOR ANY CONSEQUENTIAL DAMAGES, INCIDENTAL DAMAGES, INDIRECT DAMAGES, EXEMPLARY DAMAGES, SPECIAL, ENHANCED DAMAGES, OR PUNITIVE DAMAGES, REGARDLESS OF WHETHER SUCH PERSONS WERE ADVISED OF THE POSSIBILITY OF SUCH LOSSES OR DAMAGES OR SUCH LOSSES OR DAMAGES WERE OTHERWISE FORESEEABLE, AND NOTWITHSTANDING THE FAILURE OF ANY AGREED UPON OR OTHER REMEDY OF ITS ESSENTIAL PURPOSE AND COMPANY HEREBY WAIVES ALL CLAIMS AGAINST THE FOREGOING ASSUMES ALL RISK RELATING TO THERETO, KNOWN AND UNKNOWN.

ARTICLE VIII
PROTECTION OF PROPRIETY INFORMATION

8.1 Property Interests/Confidentiality of Manager's Protected Information.

(a) Manager's Protected Information. All information concerning the Manager's businesses or assets that is not generally known to the public, including, but not limited to, the technical systems, methods, policies, procedures and controls, copyrights, trade names, trademarks, service marks, "know-how" and all other intellectual property rights related thereto employed by the Manager, along with the processes, procedures, and the information and materials compiled or prepared by or on behalf of Manager in connection with Manager's management of healthcare facilities, including without limitation marketing plans of Manager, business plans and strategies of Manager, pricing information of Manager, information on competition of Manager, demographics of relevance to Manager, suppliers and providers of services of Manager, structure, status and activities of the Manager; organizational documents of the Manager; books, records, tax returns, appraisals and similar documents of the Manager; financial and performance statements of the Manager; and financing arrangements of Manager (collectively "Manager Protected Information") are and shall remain the confidential property of the Manager and are not, at any time, to be utilized, distributed, copied or otherwise employed or acquired by the Company and/or the Operators and/or the Facilities, except as authorized in writing by the Manager or except as may be required by law. Manager Protected Information used in this Section 8.1 does not include any information collected or prepared by Manager exclusively for the benefit of or on behalf of the Company and/or the Operators.

(b) Ownership. The Manager shall own all rights, title and interest, including but not limited to all intellectual property rights, in and to Manager Protected Information. To the extent that ownership in such Manager Protected Information does not automatically vest in Manager, the Company on behalf of itself and the Operators and Facilities hereby transfer and assign to Manager, as applicable, all rights, title and interest which the Company or an Operator may have in the Manager Protected Information. The Company shall, and shall cause the Operators and Facilities to, complete and execute any other documents reasonably requested by Manager to confirm the conveyance of all Manager Protected Information.

(c) Survival. The provisions of this Section 8.1 shall survive the expiration or sooner termination of this Agreement.

MPT CONFIDENTIAL MPT_PROSPECT_00011542

8.2 Property Interests/Confidentiality of Company's and Operators' Protected Information.

(a) Work Product. "Work Product" means all work, ideas, inventions, discoveries, processes and improvements, computer programs, specifications, operating instructions, notes, technical drawings, designs and all related documentation (whether or not patentable) created or first reduced to practice by Manager, alone or with others, in providing the services to the Company and the Operators under this Agreement and exclusively used in the provision of the services and not at any other location by Manager.

(b) Owner of Medical Records, Company Protected Information and Work Product.

(i) "Medical Records" mean all information concerning the healthcare services provided to an individual in any aspect of healthcare delivery by the Operator in a Facility, and/or documenting healthcare or health status of an individual. "Company Protected Information" means all information concerning the Company's and the Operators' businesses or assets that is not generally known to the public, including, but not limited to, information relating to the assets, business, operations, management, performance, structure, status and activities of the Company and the Operators; organizational documents of the Company and the Operators; books, records, tax returns, appraisals and similar documents of the Company and the Operators; financial and performance statements of the Company and the Operators; and business plans and strategies of the Company and the Operators. The Company and the Operators shall own all rights, title, and interest, including but not limited to all intellectual property rights, in and to all Company Protected Information and Work Product. To the extent that ownership in such Company Protected Information and Work Product does not automatically vest in Company or an Operator, Manager hereby transfers and assigns to Company and/or the Operator, as applicable, all rights, title, and interest which Manager may have in such Company Protected Information and Work Product. Manager agrees to complete and execute any other documents reasonably requested by Company to confirm the conveyance of all Company Protected Information and Work Product.

(c) Use and Disclosure of Medical Records, Protected Information and Work Product. Manager acknowledges that it will be given access to Medical Records, Company Protected Information and Work Product in connection with Company's and the Operators' businesses and their operations, and each of the Company and Operators acknowledges that it will be given access to Manager Protected Information in connection with Manager's businesses and their operations. Each Party shall comply with all applicable laws concerning the privacy, security and confidentiality of Medical Records. Each of the Parties further acknowledges that the other Parties have devoted and will devote substantial time, money and effort in the development of Manager Protected Information, Company Protected Information and Work Product (as applicable) and in maintaining the proprietary and confidential nature thereof. Each of the Parties expressly acknowledges and agrees that the Manager Protected Information, Company Protected Information and Work Product (as applicable) is proprietary and confidential and that if any of the Manager Protected Information, Company Protected Information and Work Product (as applicable) were used or imparted to a person or entity that is in competition with Manager, Company and/or the Operators (as applicable), such disclosure would result in

hardship, loss, irreparable injury and damage to Manager, Company and the Operators (as applicable), the measurement of which would be difficult, if not impossible, to determine. Accordingly, each of the Parties expressly agrees that the other Parties have a legitimate interest in protecting the Manager Protected Information, Company Protected Information and Work Product (as applicable) and their business goodwill, and that it is necessary for them to protect their businesses from such hardship, loss, irreparable injury and damage. Each of the Parties agrees that it will use commercially reasonable efforts and take steps to protect and safeguard the Manager Protected Information, Company Protected Information and Work Product (as applicable), that such Party will not, directly or indirectly, use, disclose, distribute, or disseminate to any other person, entity, business or corporation or otherwise employ the Manager Protected Information, Company Protected Information and Work Product (as applicable), either for such Party's own benefit or for the benefit of another, except as required in the ordinary course of Manager's engagement by Company, upon the approval of the owner of such information or as required by law. Each of the Parties shall use such Manager Protected Information, Company Protected Information and Work Product (as applicable) only in the course of its duties to the other Parties under this Agreement and for no other purpose.

(d) Duty Not to Use or Disclose After Termination. The confidentiality obligations set forth in Section 8.1 and Section 8.2 shall continue as long as the Company Protected Information, Manager Protected Information and Work Product and/or records remain confidential (except that the obligations shall continue if the Company Protected Information, Manager Protected Information or Work Product are disclosed and lose their confidential nature through improper means, including, but not limited to, any breach of this Agreement or otherwise) and shall survive the termination of this Agreement.

(e) Ownership of Records and Copies. Any and all documents, records and copies of records, including, but not limited to, hard copies or copies stored on a computer or disk, e-mail, databases, etc. pertaining to Medical Records, Company Protected Information and Work Product that are made or received by Manager in the course of its engagement with Manager shall be deemed to be the property of Company or the Operators. Any and all documents, records and copies of records, including, but not limited to, hard copies or copies stored on a computer or disk, e-mail, databases, etc. pertaining to Manager Protected Information that are made or received by the Company or an Operator in the course of its engagement with Manager shall be deemed to be the property of Manager.

(f) Return Upon Termination. Upon termination of this Agreement for any reason, (i) Manager shall deliver to Company all documents, records and copies of records, including, but not limited to, hard copies or copies stored on a computer or disk, e-mail, databases, etc. pertaining to Medical Records, Company Protected Information and Work Product and all other property of Company, to the extent in Manager's possession or under Manager's custody or control, within ten (10) business days, provided however, Company and the Operator(s) agree that Manager may retain a copy of such information for litigation, dispute resolution purposes and similar purposes and (ii) the Company shall, and shall cause the Operators to, deliver to Manager all documents, records and copies of records, including, but not limited to, hard copies or copies stored on a computer or disk, e-mail, databases, etc. pertaining to Manager Protected Information and all other property of Manager, to the extent in the Company's or an Operator's possession or under the Company's or an Operator's custody or

MPT CONFIDENTIAL MPT_PROSPECT_00011544

control, within ten (10) business days. Each Party shall maintain such records for the longer of the applicable period under law or five (5) years and afford access to such information upon the other Party's reasonable request.

(g) Violations. In the event of any violation of these confidentiality obligations, a Party shall be authorized and entitled to obtain immediate and permanent injunctive relief, as well as any other relief permitted by law. Each Party waives any requirement that the other Party post a bond as condition for obtaining any such relief.

(h) The provisions of this Section 8.2 shall survive the expiration or sooner termination of this Agreement.

8.3 Remedies. The Parties agree that an aggrieved party who is the beneficiary of any restriction contained herein may not be adequately compensated for damages for a breach of the covenants contained in this Article VIII, and such aggrieved party shall be entitled to injunctive relief and specific performance in addition to all other remedies. If a court of competent jurisdiction shall finally determine that the restraints provided for in this Article VIII, are too broad as to the activity, geographic area or time covered, said activity, geographic area or time covered will be reduced to whatever extent the court deems necessary, and such covenant shall be enforced as to such reduced activity, geographic area or time period.

ARTICLE IX
REPRESENTATIONS AND WARRANTIES

9.1 Organization and Standing of Company and Operators. The Company and the Operators represent and warrant to Manager, on a joint and several basis, that each of them is duly incorporated or organized, validly existing and in good standing or its equivalent under the laws of the state of its incorporation or organization, and that each of them has the power and authority to own the property and assets now owned by it and to conduct the business presently being conducted by it.

9.2 Authorization and Enforceability. The Company and the Operators represent and warrant to Manager, on a joint and several basis, (a) that this Agreement has been duly executed and delivered by each of them and constitutes a valid and legally binding obligation, enforceable against each of them in accordance with its terms, subject to bankruptcy, insolvency, reorganization, and similar laws affecting the enforcement of creditor's rights or contractual obligations generally and, as to enforcement, to general principles of equity, regardless of whether applied in a proceeding at law or in equity, and (b) that the execution and delivery of this Agreement and the obligations created hereby have been duly authorized by all necessary proceedings on the part of the Company and the Operators.

9.3 Absence of Conflicting Agreements. The Company and the Operators represent and warrant to Manager, on a joint and several basis, that neither the execution or delivery of this Agreement, or any of the other instruments and documents required or contemplated hereby and thereby (collectively, the "Transaction Documents") by it, nor the performance by it of the transactions contemplated hereby and thereby, materially conflicts with, or constitutes a material breach of or a material default or requires the consent of any third party (except consents already

MPT CONFIDENTIAL MPT_PROSPECT_00011545

obtained) under (a) its Articles of Organization or Operating Agreement, as applicable; or (b) any applicable law, rule, judgment, order, writ, injunction, or decree of any court, currently in effect; or (c) to the best of its knowledge, any applicable rule or regulation of any administrative agency or other governmental authority currently in effect; or (d) any agreement, indenture, contract or instrument to which it is now a party or by which its assets are bound.

9.4 Organizing and Standing of Manager. Manager represents and warrants to Company and the Operators that Manager is a limited liability company, duly organized, validly existing and in good standing under the laws of the State of Delaware, and that it has the power and authority to own the property and assets now owned by it and to conduct the business presently being conducted by it.

9.5 Authorization and Enforceability. The Manager represents and warrants to the Company and the Operators (a) that this Agreement has been duly executed and delivered by it and constitutes a valid and legally binding obligation, enforceable against it in accordance with its terms, subject to bankruptcy, insolvency, reorganization, and similar laws affecting the enforcement of creditor's rights or contractual obligations generally and, as to enforcement, to general principles of equity, regardless of whether applied in a proceeding at law or in equity, and (b) that the execution and delivery of this Agreement and the obligations created hereby have been duly authorized by all necessary proceedings on the part of the Manager.

9.6 Absence of Conflicting Agreements. Manager represents and warrants to Company and the Operators that neither the execution or delivery of this Agreement, or any of the Transaction Documents by Manager, nor the performance by Manager of the transactions contemplated hereby and thereby, materially conflicts with, or constitutes a material breach of or a material default or requires the consent of any third party (except consents already obtained) under (a) the organizational documents of Manager; or (b) any applicable law, rule, judgment, order, writ, injunction, or decree of any court, currently in effect; or (c) to the best of its knowledge, any applicable rule or regulation of any administrative agency or other governmental authority currently in effect; or (d) any agreement, indenture, contract or instrument of which Manager is now a party or by which the assets of Manager are bound.

9.7 Manager's Independent Business Operations. Manager represents and warrants that a substantial number of the management personnel of Manager as of the Effective Date who will provide the management services to be performed under this Agreement have previously been engaged in the active conduct of the business of managing and operating healthcare facilities for PHP Holdings, LLC and its affiliated operating subsidiaries (as officers or employees of such entities) prior to forming Manager.

ARTICLE X
SUCCESSORS AND ASSIGNS

10.1 Ability of Manager to Assign This Agreement. Manager shall have no right to assign this Agreement to another person or entity without the prior written consent of the Company, which consent may be withheld in the Company's sole and absolute discretion. Neither the Company nor any of the Operators, shall have a right to assign this Agreement.

MPT CONFIDENTIAL MPT_PROSPECT_00011546

10.2 Binding Effect. This Agreement shall be binding upon the respective successors and permitted assigns of the parties hereto and shall inure to the benefit of and be enforceable by the parties hereto and their respective successors and permitted assigns.

10.3 Subcontracting. The Manager may subcontract any of its management responsibilities and duties under this Agreement, *provided*, *however*, that (a) any such subcontracting party is an EIK (as defined in Section 1.5) and (b) Manager shall remain responsible and liable for the fulfillment of all its obligations and duties set forth in this Agreement.

ARTICLE XI
REGULATORY MATTERS

11.1 Regulatory Compliance. The Parties agree that no part of this Agreement shall be construed to induce or encourage the referral of patients or the purchase of health care services or supplies. The Parties acknowledge that there is no requirement under this Agreement or any other agreement between the Company (or its Affiliates) and the Manager (or its Affiliates) that either party refer any patients to any healthcare provider or purchase any healthcare goods or services from any source. No payment made under this Agreement shall be in return for such referral or purchase. In particular, while Manager may develop and recommend marketing/community outreach strategies and implement marketing/community outreach strategies on behalf of the Company, the Operators or the Facilities, Manager shall not actively and directly market the Facilities to actual or potential patients or referral sources and shall not bring patients or induce referrals to the Facilities. All direct marketing of the Facilities and community liaison activities shall be performed by Operator or Facility employees or contractors.

(a) Representations and Warranties. Each Party represents and warrants that it is and shall remain throughout the Term in compliance, in all material respects, with all applicable federal and state laws and regulations related to this Agreement and the services to be provided hereunder, including without limitation, statutes and regulations related to fraud, abuse, false claims/statements, referrals, prohibition of kickbacks and the Health Insurance Portability and Accountability Act. The Parties further represent, warrant and covenant to each other that as of the date of this Agreement, and for the Term, with respect to any applicable federal health care program as defined in Section 1128B of the Social Security Act (42 U.S.C. 1320a-7b(f)) or any State health care program as defined in Section 1128B of the Social Security Act (42 U.S.C. 1320a-7b(h)) (collectively, the "Programs"): neither (i) the representing party; (ii) any individual with a direct or indirect ownership of five percent (5%) or more of the representing party; nor (iii) any director, officer, or, to the knowledge of such Party, employee of the representing party; has ever been debarred, suspended or excluded from any Program. Each Party covenants to immediately notify the other in writing if this representation is no longer true, or if such Party is sanctioned or has a civil monetary penalty levied under any program.

(b) Severability. In the event that any clause or provision of this Agreement is determined to be illegal, that provision or clause shall be deemed unenforceable and invalidated. Upon invalidation of a provision or clause of the Agreement pursuant to this Section, the Parties shall exercise their best efforts to renegotiate the Agreement to comply with the requirements of

MPT CONFIDENTIAL MPT_PROSPECT_00011547

law, amending the Agreement, if necessary, in accordance with the provisions contained in this Agreement. If the Parties fail to reach such an accommodation after ninety (90) days following a written request by either of the Parties to discuss such an accommodation, then either Party may terminate this Agreement upon thirty (30) days written notice, with no further obligations, financial or otherwise, to the other Party.

11.2 Access to Records. Until the expiration of four (4) years after furnishing of services pursuant to this Agreement or other time period required by applicable law, Manager shall upon written request, make available to the Secretary of the Department of Health and Human Services ("HHS"), the Comptroller General, or any of their duly authorized representatives, this Agreement, and any books, documents and records that are necessary to certify the nature and extent of the costs incurred by Company under this Agreement. This provision will apply if the amount paid under this Agreement is $10,000 or more over a twelve (12) months period. The availability of Manager's books, documents and records will at all times be subject to such criteria and procedures for seeking access as may be promulgated by the Secretary of HHS in regulations, and other applicable laws. Manager's disclosure under this provision will not be construed as a waiver of any legal rights to which Manager or Company may be entitled under statue or regulation.

11.3 HIPAA. As required by law, the Parties shall execute a Business Associate Agreement in order to comply with the requirements of the Health Insurance Portability and Accountability Act ("HIPAA") Privacy and Security Rules.

ARTICLE XII
MISCELLANEOUS PROVISIONS

12.1 Notices. Any notice or communication by any Party to the other shall be in writing and shall be given and be deemed to have been duly given, upon the date delivered or date of first refusal, by commercial express overnight delivery service or by postage pre-paid, registered, express, or certified mail, addressed as follows:

or to such other address, and to the attention of such other person or officer as any party may designate in writing by notice.

12.2 No Partnership or Joint Venture. Nothing contained in this Agreement shall constitute or be construed to be or create a partnership or joint venture between Company and the Operators, or their successors or assigns, on the one part, and Manager, its successors, or assigns on the other part. Notwithstanding the foregoing, the Parties hereby agree that they shall each have a duly to act in good faith and to deal fairly with the other parties hereto.

12.3 Modifications and Changes. This Agreement cannot be changed or modified except by another agreement in writing signed by Company and Manager.

12.4 Understanding and Agreements. This Agreement, the LLC Agreement, and the other documents executed in connection therewith constitutes the entire understanding and agreement of whatsoever nature or kind existing between the Parties with respect to Manager's management of the Facilities and all prior negotiations, understandings, covenants, representations, warranties and agreements (if any) pertaining to the subject matter hereof are merged into this Agreement. It is expressly agreed that there are no verbal understandings, covenants, representations, warranties, or agreements which in any way change the terms,

covenants, and conditions set forth in this Agreement. The Parties have not relied upon, and shall not be entitled to rely upon, any prior or contemporaneous agreements, understandings, representations, covenants, warranties, or statements (oral or written) other than this Agreement in effecting the transactions contemplated herein or otherwise.

12.5 Headings, Etc. The article and paragraph headings contained herein are for convenience of reference only and are not intended to define, limit, or describe the scope or intent of any provision of this Agreement.

12.6 Approval of Consent. Whenever under any provisions of this Agreement, the approval or consent of each party is required, the decision thereon shall be promptly given and such approval or consent shall not be unreasonably withheld, delayed or conditioned, unless this Agreement expressly provides that a decision shall be made in a Party's sole discretion. For all purposes under this Agreement, Manager shall determine solely from the latest such notification received by it the person or persons authorized to give such approval or consent. Manager shall rely exclusively and conclusively on the designation set forth in such notification, notwithstanding any notice of knowledge to the contrary.

12.7 Governing Law. THIS AGREEMENT SHALL BE DEEMED TO HAVE BEEN MADE AND SHALL BE CONSTRUED AND INTERPRETED IN ACCORDANCE WITH THE LAWS OF THE STATE OF DELAWARE, WITHOUT REGARD TO ITS LAWS REGARDING CONFLICTS OF LAW. THE PARTIES HERETO AGREE THAT ANY SUIT, ACTION OR OTHER LEGAL PROCEEDING IN CONNECTION WITH THIS AGREEMENT SHALL BE BROUGHT IN THE STATE OR FEDERAL COURTS OF THE STATE OF DELAWARE. THE PARTIES HERETO WAIVE ANY OBJECTION TO SUCH JURISDICTION AND VENUE IN ANY OF SUCH COURTS.

12.8 Waiver of Jury Trial. TO THE MAXIMUM EXTENT PERMITTED BY LAW, THE PARTIES HEREBY KNOWINGLY, VOLUNTARILY AND INTENTIONALLY WAIVE THE RIGHT TO A TRIAL BY JURY IN RESPECT OF ANY LITIGATION BASED HEREON, ARISING OUT OF, UNDER OR IN CONNECTION WITH THIS AGREEMENT, OR ANY COURSE OF CONDUCT, COURSE OF DEALING, STATEMENT (WHETHER VERBAL OR WRITTEN) OR ACTION OF ANY PARTY OR ANY EXERCISE OF ANY PARTY OF THEIR RESPECTIVE RIGHTS HEREUNDER OR IN ANY WAY RELATING TO THIS AGREEMENT (INCLUDING ANY CLAIM OR DEFENSE ASSERTING THAT THIS AGREEMENT WAS FRAUDULENTLY INDUCED OR IS OTHERWISE VOID OR VOIDABLE). THIS WAIVER IS A MATERIAL INDUCEMENT FOR EACH OF THE PARTIES TO ENTER INTO THIS AGREEMENT.

12.9 Legal Fees and Expenses. In the event any claim is made by one Party to this Agreement against any other Party to this Agreement, the Non-Prevailing Party (as herein defined), and only the Non-Prevailing Party, shall be responsible for paying and/or reimbursing the reasonable costs (including costs of investigation), expenses and legal fees of the other Party to the claim. "Non-Prevailing Party" means, with respect to any claim between any Parties hereto, such party determined as the non-prevailing party by a court with proper jurisdiction.

MPT CONFIDENTIAL MPT_PROSPECT_00011550

12.10 Enforceability. Should any provision of this Agreement be unenforceable as among the Parties, such unenforceability shall not affect the enforceability of the other provisions of this Agreement.

12.11 Counterpart and Facsimile Execution. This Agreement may be executed in any number of counterparts with the same effect as if the Parties hereto had signed the same document. All counterparts will be construed together and shall constitute one agreement. Signatures transmitted by facsimile or email delivery shall have the same effect as original signatures.

12.12 No Waiver. No failure by any Party to insist upon the strict performance of any term of this Agreement or to exercise any right, power or remedy consequent upon a breach thereof, and no acceptance of full or partial performance under the terms of this Agreement during the continuance of any such breach, shall constitute a waiver of any such breach or any such term. To the extent permitted by law, no waiver of any breach shall affect or alter this Agreement, which shall continue in full force and effect with respect to any other then existing or subsequent breach. The Parties agree that no waiver shall be effective hereunder unless it is in writing.

12.13 Further Assurances. Each Party hereto shall perform any further acts and execute and deliver any documents that may be reasonably necessary to carry out the provisions of this Agreement.

12.14 Force Majeure. No Party shall be liable or deemed to be in default for any delay or failure to perform under this Agreement resulting, directly or indirectly, from acts of God, civil or military authority, acts of public enemy, war, accidents, fires, explosions, earthquakes, floods, strikes or other work interruptions by any Party's employees or any other similar cause beyond the reasonable control of a non-performing Party.

12.15 Third Party Beneficiary. MPT Picasso TRS and its Affiliates are intended third party beneficiaries with respect to Section 1.5 of this Agreement.

12.16 No Offset. Whenever any Party is to pay any sum to any other Party or any Affiliate or related person thereof, no amounts that such Party or such [Affiliate]or related person owes to such other Party may be deducted or otherwise set off or recouped from that sum before payment unless there is a final, non-appealable order that such Party or such Affiliate or related person owes such amounts.

12.17 Specific Performance. In addition to any rights and remedies available to the Parties hereunder or at law, each Party shall be entitled to bring an action for specific performance and to seek other equitable relief in connection with any breach or violation, or any attempted breach or violation, of the provisions of this Agreement, without the necessity of showing actual damages or furnishing bond or other security.

Schedule A

Management Fee

The Parties may amend or modify any part of this Schedule A at any time upon mutual agreement of the parties hereto through the execution of an amendment signed by both parties.

FEES

A. Foothill Regional Medical Center Fees:

The Company shall pay fees for the services listed below relating to Hospital Operator, dba Foothill Regional Medical Center ("Foothill") calculated based on a percentage of Gross Patient Revenue, which, for the purpose of this Schedule A, "Gross Patient Revenue" means (i) revenue earned for the provision of professional services, or administrative services related to the provision of professional services, performed by Foothill, from third party reimbursement, Medicare disproportionate share payments, and self-pay/private pay, and (ii) any and all other proceeds paid or payable to Foothill directly related to the provision of professional services, or administrative services related to the provision of professional services, performed by Foothill.

Functions	***Services Provided***	***Fee***
Back-end Revenue Cycle Management Services	Patient financial accounting CBO Quality shared management Utilization review shared management Admitting shared management Medical records shared management Credentialing shared management	2.0% of Gross Patient Revenue
Information Technology	Network management Infrastructure management Clinical applications Licenses Support services	1.5% of Gross Patient Revenue
Finance/Administration	General accounting Accounts payable Financial planning & analysis Financial reporting Legal support Compliance support Treasury support Payroll	0.5% of Gross Patient Revenue

[Signature Page to Management Services Agreement]

B. Company Management Fees:

In addition to the fees referenced in Section A above, the Company will pay Manager the lesser of (i) the reasonable value the services performed by Manager pursuant to Section 3.5 (for the avoidance of doubt, excluding the services referenced in Section A above), as determined by an independent third-party valuator, and (ii) $750,000 per year.

DISCLOSURE SCHEDULES

These Disclosure Schedules are hereby delivered by the Prospect Parties, in accordance with that certain Amended and Restated Master Restructuring Agreement (the "Agreement"), dated as of May 23, 2023, by and among (i) **PROSPECT MEDICAL HOLDINGS, INC.**, a Delaware corporation ("Prospect Medical"), **PHP HOLDINGS, LLC**, a Delaware limited liability company ("PHP Holdings"), Prospect Healthcare Facilities Management, LLC, a Delaware limited liability company ("ManageCo"), and each of the entities signed as their Affiliates therein (such Affiliates, together with Prospect Medical, PHP Holdings, and ManageCo, collectively, the "Prospect Parties"), and (ii) **MPT PICASSO INVESTORS TRS, LLC**, a Delaware limited liability ("MPT Picasso TRS"), and each of the entities signed as their Affiliates therein (such Affiliates, together with MPT Picasso TRS, collectively, the "MPT Parties"). Any capitalized terms used in these Disclosure Schedule but not otherwise defined shall have the respective meanings assigned to such terms in the Agreement.

These Disclosure Schedules have been arranged to correspond to particular Sections of the Agreement and any matter, fact or item disclosed in any section or paragraph of these Disclosure Schedules shall be considered disclosed with respect to such other section or paragraph of these Disclosure Schedules or the Agreement, as the case may be, if the relevance of such disclosure to such other section or paragraph is reasonably apparent on its face. Each reference to an agreement, contract, list, instrument or other matter listed in these Disclosure Schedules shall be deemed to incorporate herein such referenced item in its entirety, including any and all exhibits, Disclosure Schedules, annexes and other attachments to such document, and the terms thereof.

The headings, captions and cross-references in these Disclosure Schedules are included for convenience of reference only and shall in no way (i) modify, limit or affect any information provided in these Disclosure Schedules, (ii) be considered in construing or interpreting any information provided in these Disclosure Schedules or (iii) expand the scope of information required to be disclosed in these Disclosure Schedules.

Neither the specification of any dollar amount in any representation or warranty contained in the Agreement nor the inclusion of any specific item in any section or paragraph of these Disclosure Schedules is intended to imply that such amount, or higher or lower amounts, or the item so included or other items, are or are not material, or are or are not in the ordinary course of business, and no Party shall use the fact of the setting forth of any such amount or the inclusion of any such item in any dispute or controversy between the Parties as to whether any obligation, item or matter not described herein or included in any section or paragraph of these Disclosure Schedules is or is not material for purposes of the Agreement, or is or is not in the ordinary course of business.

In disclosing the information contained in these Disclosure Schedules, the Prospect Parties expressly do not waive any attorney-client or other privileges associated with such information or any protection afforded by the work-product doctrine or any similar doctrine with respect to any of the matters disclosed therein. The Prospect Parties shall not be prejudiced in any manner whatsoever, and no presumptions shall be created, by virtue of the disclosure of any item or matter herein which otherwise is not required to be disclosed by the Agreement.

Schedule 7.3(a)

No Conflict; Consents

I. **Consent required pursuant to the terms of the following Contract in connection with the Amendment to Connecticut Master Agreement**:

1. Asset Purchase Agreement by and among Yale New Haven Health Service Corporation, Prospect Medical Holdings, Inc., and the Selling Entities (as defined therein), dated October 5, 2022.

18. Participating Provider Agreement, by and between Redacted and Prospect Health Services TX, Inc., effective August 1, 2021.

MPT CONFIDENTIAL MPT_PROSPECT_00011564

Schedule 7.3(b)

Governmental Approvals

I. **PRE-CLOSING APPROVAL AND CONSENTS REQUIREMENTS.** The following approvals and consents from Governmental Bodies are required in order to consummate the transactions contemplated by the Agreement and other Restructuring Documents:

a) **California**:

1. DMHC: If Prospect elects to secure the Foothill Intercompany Loan with a second-lien deed of trust on real property known as Foothill Regional Medical Center (the "Foothill Second Mortgage") on the Closing Date of the Transactions, then a sixty-day notice and approval from the California Department of Managed Health Care ("DMHC") is required to consummate the Foothill Second Mortgage as a component of the Transaction. In accordance with Section 6.2(h) of the Agreement, Prospect may defer collateralization of the Foothill Intercompany Loan by the Foothill Second Mortgage until after the Closing Date of the Transactions, by notice given to MPT at or before such Closing Date; notwithstanding such deferral, Prospect will remain subject to compliance with the subordination requirement set forth in Section 6.2(h) and receipt of DMHC approval.

2. CDPH Hospital License: An application with respect to Alta Newport Hospital, LLC's Hospital License must be filed with the California Department of Public Health prior to the closing of the Phase II Transactions.

3. Hospital Pharmacy Licenses: New applications for Alta Newport Hospital, LLC's Hospital Pharmacy License HSP 57632 and Sterile Compounding Pharmacy License LSC 101527 must be filed with the California Board of Pharmacy and temporary licenses must be issued by the California Board of Pharmacy prior to the closing of the Phase II Transactions.

4. Knox-Keene License: A notice of material modification must be submitted for Prospect Health Plan, Inc. to the DMHC, which notifies and requests the approval the DMHC of the Phase II Transactions.

II. **SUPPLEMENTAL INFORMATION**. The following notices are required to be submitted post-closing; the information below is provided for completeness only and is not a representation that such post-closing notices are required in order to consummate the transactions contemplated by the Transaction Documents:

a) California:

1. CDPH Hospital License: Real property owner information must be updated within 10 days after the closing of the Phase I Transaction.

2. RightRx Pharmacy license: A Change of Permit for the Community Pharmacy License No. 58561 issued by the California Board of Pharmacy must be filed with the California Board of Pharmacy within 30 days after the closing of the Phase I Transaction.

MPT CONFIDENTIAL MPT_PROSPECT_00011565

3. Texas Third Party Administrator License: For Prospect Medical Systems, LLC, post-closing filing to the Texas Department of Insurance required; must be submitted within 30 days after closing of the Phase I Transaction.

4. City of Orange Business License: For Prospect Medical Systems, LLC post-closing filing must be made to the City of Orange within 30 days after closing of the Phase I Transaction.

5. Medicare: Post-closing filing of CMS 855A (Institutional Provider Enrollment Application) must be submitted within 30 days after closing of the Phase I Transaction.

6. Clinical lab license: Post-closing filing to California Department of Public Health Laboratory Field Services must be submitted within 30 days after closing of the Phase II Transaction.

7. Clinical Laboratory Improvement Amendments ("CLIA") Certificates and Accreditations: For Alta Newport, a CMS 116 Change of Information form must be submitted to the Department of Health and Human Services ("DHHS"), and notice must be sent to the applicable accrediting organization, within 30 days after the closing of the Phase II Transaction.

b) Pennsylvania:

1. Medicare: Post-closing filing of CMS 855A (Institutional Provider Enrollment Application) and 855B (Clinics/Group Practices and Certain Other Suppliers Enrollment Application) required; must be submitted within 30 days after closing.

2. Medicaid: Filing of prescribed updated information is required with the PA Department of Human Services within 30 days post-closing.

3. Radioactive Materials License: Sending a copy of the Memorandum of Understanding between the Lessee and Lessor that the property owner is aware radioactive materials are maintained onsite to the Pennsylvania Department of Environmental Protection, Bureau of Radiation Protection, Radioactive Materials Licensing Section is required. There is no formal timing requirement, but PA DEP has indicated that the MOU should be sent to them as soon as possible.

Independent Auditor's Report

Board of Directors
Prospect Medical Holdings, Inc.
Los Angeles, California

Opinion

We have audited the consolidated financial statements of Prospect Medical Holdings, Inc. and its subsidiaries (the Company), which comprise the consolidated balance sheets as of September 30, 2021 and 2020, and the related consolidated statements of operations and comprehensive loss, changes in stockholder's deficit, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of September 30, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As described in Note 2 to the consolidated financial statements, effective October 1, 2020, the Company changed its method of accounting for recognition of revenues and related disclosures in 2021 due to the adoption of Accounting Standards Codification 606, *Revenue from Contracts with Customers*. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued or available to be issued.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

MPT CONFIDENTIAL MPT_PROSPECT_00011578

1. Organization

Prospect Medical Holdings, Inc. ("Prospect" or the "Company" or the "Parent Entity") is a Delaware corporation and a wholly owned indirect subsidiary of Ivy Holdings Inc. ("Ivy Holdings") and its new parent company, Chamber Inc. ("Chamber"). In June 2021, Green Equity Investments V, LP, Green Equity Investments Side V, LP and other shareholders sold their shares of Ivy Holdings for a purchase price of approximately $11.9 million (see Note 11 for further discussion of the transaction). As a result of the sale, the Company became indirectly wholly-owned by two shareholders that were previously the two largest individual shareholders in Ivy Holdings.

The Company's operations are currently organized into four primary reportable segments: Hospital Services, Medical Group, Global Risk Management and Corporate, as discussed below.

COVID-19 Pandemic

During 2020 and 2021, federal, state and local authorities have taken several administrative actions intended to assist healthcare providers in providing care during the outbreak of the novel coronavirus ("COVID-19") public health emergency. Sources of relief include the Coronavirus Aid, Relief and Economic Security Act, the Paycheck Protection Program and Health Care Enhancement Act (the "PPPHCE Act"), the Continuing Appropriations Act, 2021 and Other Extensions Act, and the Consolidated Appropriations Act, 2021 (collectively, (the "COVID Acts"). With the COVID Acts, the federal government authorized funding to be distributed through the Public Health and Social Services Emergency Fund ("Provider Relief Fund" or "PRF"). U.S. Department of Health and Human Services ("HHS") will recoup PRF grant funds not utilized by the established deadlines. The COVID Acts also revised the Medicare accelerated payment program in an attempt to disburse payments to hospitals and other care providers more quickly and permitted employers to defer payment of the 6.2% employer Social Security tax beginning March 27, 2020 through December 31, 2020. In June 2021, the U.S. Department of Health and Human Services ("HHS") established new deadlines for when recipients of PRF grants must use the funding received, generally 12 to 18 months after receipt of the grant funds.

In certain circumstances, when a hospital is experiencing financial difficulty due to delays in receiving payment for the Medicare services it provided, it may be eligible for an accelerated or advance payment pursuant to the Medicare accelerated payment program. The COVID Acts revised the Medicare accelerated payment program in an attempt to disburse payments to healthcare providers more quickly. Recipients may retain the accelerated payments for one year from the date of receipt before recoupment commences, which is effectuated by a 25% offset of claims payments for 11 months, followed by a 50% offset for the succeeding six months. The initial 11-month recoupment period began in April 2021. At the end of the 29-month period, interest on the unpaid balance will be assessed at 4% per annum. As of September 30, 2021, the Company had received Medicare accelerated and advance payments of approximately $276 million, of which approximately $49 million had been repaid during year ended September 30, 2021 and approximately $227 million and $276 million were reflected in current and noncurrent refund liabilities in the accompanying consolidated balance sheets as of September 30, 2021 and 2020, respectively.

The following table shows the funds that the Company received through the PRF in both general and targeted distributions, net of amounts received for previously divested entities that were required to be repaid to HHS, during the years ended September 30, 2021 and 2020 (in thousands):

	General Funds	Targeted Funds	State funds	Other funds	Total
Funds received during the year ended September 30, 2020	$ 50,482	$ 83,088	$ 15,782	$ 33,702	$ 183,054
Transferred from discontinued operations to continuing operations	1,683	-	-	-	1,683
Applied to lost revenues	(48,004)	(69,144)	-	-	(117,148)
Applied to incremental expenses	(4,161)	(3,570)	(15,782)	(32,842)	(56,355)
Applied to incremental capital	-	-	-	(860)	(860)
Funds unused at September 30, 2020	$ -	$ 10,374	$ -	$ -	$ 10,374
Funds received during the year ended September 30, 2021	$ 6,971	$ -	$ 3,831	$ 1,146	$ 11,948
Transferred from continuing opens to discontinued operations	(1,683)	-	-	-	(1,683)
Reversal against lost revenues	5,930	-	-	-	5,930
Applied to incremental expenses	(11,218)	(10,374)	(3,831)	(948)	(26,371)
Applied to incremental capital	-	-		(198)	(198)
Unused at September 30, 2021	$ -	$ -	$ -	$ -	$ -

The amount of lost revenues (represented as a negative change in year-over-year net revenues from patient care related sources) was recorded in "pandemic relief grant income" and incremental expenses were recognized as a reduction to operating expense within the accompanying consolidated statements of operations for the years ended September 30, 2021 and 2020. The recognition of amounts received is conditioned upon the provision of care for individuals with possible or actual cases of COVID-19 after January 31, 2020, certification that payment will be used to prevent, prepare for and respond to COVID-19 and will reimburse the recipient only for healthcare related expenses or lost revenues that are attributable to COVID-19, and receipt of the funds. Amounts are recognized as a reduction to operating costs and expenses only to the extent the Company is reasonably assured that underlying conditions are met. These monies have been recognized following the grant accounting model, recognizing income or reduction to expenses over the applicable reporting period as management becomes reasonably assured of meeting the required criteria. As of September 30, 2021, the Company has no funds that had not been recognized in the consolidated statements of operations.

Liquidity

The Company had a net working capital deficit of approximately $250 million as of September 30, 2021 compared to net working capital surplus of approximately $130 million as of September 30, 2020, respectively. Additionally, the Company had a net loss before income taxes of approximately $144 million for the year ended September 30, 2021 compared to net loss before income taxes of approximately $82 million for the year ended September 30, 2020. As of September 30, 2021, the Company has a stockholder's deficit of approximately $1,274 million compared to stockholder's deficit of approximately $1,060 million as of September 30, 2020. Cash and cash equivalents generated by operations declined from cash provided by operating activities of approximately $396 million during the year ended September 30, 2020 to cash used in operating activities of approximately $175 million during the year ended September 30, 2021. Total change in cash, cash equivalents and restricted cash decreased year on year from an increase of approximately $265 million for the year ended September 30, 2020 to a decline of approximately $283 million for the year ended September 30, 2021. During the year ended September 30, 2020, the Company received approximately $276 million in funds under the Medicare accelerated payment program, and during the year ended September 30, 2021 the Company repaid approximately $49 million under this program. During the year ended September 30, 2020, the Company received stimulus funds totaling approximately $183 million for continuing operations and approximately $29 million (net of monies returned) for discontinued operations. During the year ended September 30, 2021, the Company received stimulus funds totaling approximately $12 million for continuing operations and $0 for discontinued operations. These two items account for the majority of the swings in cash generated related to operating activities, year over year. In relation to the amounts outstanding under the Medicare accelerated payment program, the Company estimates that approximately $74 million will be outstanding at the end of the 17-month period that Medicare withholds payments and will convert to an on-demand note, with interest accruing every 30 days at a rate of 4% per annum. Total debt (including MPT liabilities) decreased to approximately $1,475 million at September 30, 2021 compared to approximately $1,547 million at September 30, 2020, and the balance outstanding on the Company's revolving line of credit increased from $0 at September 30, 2020 to $45 million at September 30, 2021. At September 30, 2021, the available balance on the line was approximately $191 million. Cash and cash equivalents declined from approximately $387 million at September 30, 2020 to approximately $59 million at September 30, 2021.

The Company has various initiatives in place to generate positive cash flows from operations. From a revenue generating perspective, these include a focus on improving charge capture, improving the success rate on denials, and increasing reimbursements through rate negotiations with managed care payors, as well as improving volumes. From a cost cutting perspective, the initiatives include improvements to labor productivity and the reduction in overtime and use of registry, driven by the use of an internal registry, as well as better controls on supply and pharmacy contracts. Further, there are initiatives to focus on improving both productivity and volumes from the Company's physician groups. In addition, the shareholders have confirmed continued financial support and commitment to the Company. The Company believes that it will have sufficient cash flows from operations and available revolving facilities to provide sufficient capital resources to sustain operations, investing activities and financing for at least the next twelve months from the date these financial statements were available to be issued.

Hospital Services Segment

As of September 30, 2021, through its subsidiaries, the Company owned 16 acute care and behavioral hospitals in Southern California, Rhode Island, Pennsylvania and Connecticut with approximately 3,000 licensed beds, and a network of specialty and primary care clinics. During the year ended September 30, 2021, the Company acquired the remaining 15% interest in CharterCARE (see Note 4), and accordingly the Hospital Services segment subsidiaries are wholly owned by Prospect.

MPT CONFIDENTIAL MPT_PROSPECT_00011581

Additionally at September 30, 2021, through its subsidiaries, the Company owned one acute care hospital in New Jersey, as well as two behavioral health hospitals in Texas that were closed during the year ended September 30, 2020. In October 2020, the Company entered into an Asset Purchase Agreement to sell substantially all of the assets of the facility in New Jersey, and the sale is expected to close at the end of December 2021. For all periods presented the assets and liabilities of these businesses have been classified as "held for sale," and the operations (as related to revenues and expenses that no longer continue post sale) have been shown within discontinued operations. All of the footnotes in these consolidated financial statements refer to continuing operations unless otherwise stated.

Admitting physicians are primarily practitioners in the local area. The hospitals have payment arrangements with Medicare, Medicaid and other third-party payers, including commercial insurance carriers, health maintenance organizations ("HMOs") and preferred provider organizations ("PPOs").

Medical Group Segment

The Medical Group segment is a healthcare management services organization that provides management services to affiliated physician organizations that operate as independent physician associations ("Medical Groups" or "IPAs"). The IPAs, either directly or through Prospect's risk management entities ("RMEs"), enter into agreements with HMOs to provide HMO enrollees with a full range of medical services in exchange for fixed monthly fees ("Capitation"). The Medical Groups contract with physicians (primary care and specialist) and other healthcare providers to provide enrollees with medical services. Prospect currently manages the provision of healthcare services for contracted enrollees through Prospect's IPAs and RMEs in California, Texas, Rhode Island, Connecticut, Pennsylvania and New Jersey. The California network consists of various IPAs that are generally wholly owned by Prospect Medical Group, Inc. ("PMG") and managed by the two medical management company subsidiaries that are wholly owned by Prospect. Prospect's networks in its other states consist of IPA subsidiaries of Prospect Provider Groups, Inc. The Medical Group segment also owns clinic facilities in California that operate by employing physicians to serve their patients. In California, the clinic facilities are owned through New Genesis Medical Associates, Inc. ("NGMA"). PMG and NGMA are owned by a nominee physician shareholder pursuant to an assignable option agreement, under which Prospect has an assignable option, obtained for a nominal amount that would be due to the nominee shareholder upon an option's exercise. The option entitles Prospect to designate the purchaser (successor physician) for all or part of PMG's or NGMA's, as applicable, issued and outstanding stock in Prospect's sole discretion.

The IPAs and RMEs in California and Texas have entered into Management Service Agreements ("MSA") with Prospect Medical Systems Inc. ("PMS"), and have agreed to pay a management fee to PMS, which is based in part on the costs to the management company and on a percentage of revenues. The IPAs and RMEs in Rhode Island, Pennsylvania, Connecticut and New Jersey are operated and managed through the Global Risk Management segment discussed below. In return for payment of a management fee under each MSA in California and Texas, PMS has agreed to provide financial management, information systems, marketing, advertising, public relations, risk management, and administrative support, including for utilization review and quality of care. At its cost, PMS has assumed the obligations for all facilities and employs physician and non-physician personnel for administrative services. The management fee is earned based on a combination of percentage of revenue and share of pre-tax income. The management fees fluctuate based on the revenue and profitability of each IPA and RME. The MSAs are not terminable by the IPAs or RMEs except in the case of gross negligence, fraud or other illegal acts, or bankruptcy, of PMS.

Prospect consolidates the revenues and expenses of its IPAs (except for one entity that is a 50/50 partnership, which is accounted for under the equity method) from the respective dates of execution of the Management Agreements. All significant inter-entity balances have been eliminated in consolidation. In the case of the partnership, only that portion of the results which are contractually identified as

Prospect's are recognized in the consolidated financial statements, together with the management fee that Prospect charges the partnership for managing the other owners' share of the partnership operations.

PMS has also entered into management services agreements with unaffiliated third parties to manage services to their HMO enrollees. These management agreements do not have characteristics that give rise to the consolidation of the entities under current accounting literature. These management services agreements are terminable in accordance with the agreements' terms.

The affiliated IPAs and RMEs coordinate medical services to a combined total of approximately 634,000 and 609,000 enrollees as of September 30, 2021 and 2020, respectively. As of September 30, 2021 and 2020, the enrollees are approximately 413,000 and 394,000, respectively, including enrollees that Prospect manages for the economic benefit of certain independent third parties. The total paid member months, including managed enrollees, for the years ended September 30, 2021 and 2020 was approximately 7,404,000 and 5,635,000, respectively.

Global Risk Management Segment

The Global Risk Management ("GRM") segment exists in pursuit of Prospect's coordinated regional care ("CRC") operating model and risk management platform. The GRM segment has operations in California, Texas, Rhode Island, Pennsylvania, Connecticut and New Jersey, including Medicare accountable care organizations ("ACOs") operating in Rhode Island, Connecticut and Pennsylvania. These RMEs contract with third-party health plans, and the ACOs contract with CMS, on progressive risk reimbursement models leading to global risk contracts for physicians, other medical services and institutional services including hospital inpatient and outpatient services, home health, skilled nursing facility and other institutional services. In turn, the RMEs and ACOs contract with owned and third-party IPAs, owned and third-party hospitals and other health care providers to assume and manage this global risk. Through these contracts, Prospect manages health plan member populations with a focus on delivering coordinated care to members across our network of physicians and other providers under risk and value-based contracts.

The GRM segment also includes Coordinated Regional Care Group, Inc. ("CRCG"). CRCG incurs development and operating costs related to the GRM segment for new markets and strategic initiatives. As noted above, in California and Texas, Prospect's IPAs and RMEs have entered into MSAs with PMS to arrange for their management. CRCG provides management services to the IPAs, RMEs and ACOs in Rhode Island, Pennsylvania, Connecticut and New Jersey. Additionally, the RMEs in those states have entered into Administrative Services Agreements ("ASA") with PMS pursuant to which they have agreed to reimburse PMS for the costs of certain administrative services provided by PMS on their behalf. In return for payment of an administrative services fee, PMS has agreed to provide financial management, certain information systems, and limited administrative support. The negotiated fees fluctuate based on the services provided. The services provided under an ASA are more limited than those provided under an MSA and each ASA is terminable by either party upon the delivery of 90 days prior written notice thereof.

The GRM segment, through its contracted owned and unaffiliated providers, provides medical services for a combined total of approximately 348,000 and 298,000 enrollees as of September 30, 2021 and 2020, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00011583

Corporate Segment

The Company has two captive insurance companies, Prospect Medical Holding Risk Retention Group, Inc. ("RRG"), based in Vermont, and Connecticut Healthcare Insurance Company ("CHIC"), based in the Cayman Islands. The RRG was formed to provide primary insurance coverage for hospital and physician professional and general liability risks for the Company's subsidiary health care organizations located in Pennsylvania. CHIC provides hospital and physician professional and general liability coverage to all of the Company's hospitals and affiliated subsidiaries outside of Pennsylvania. CHIC is an exempted Company with limited liability under the Companies Law of the Cayman Islands and it holds a Class "B(i)" Insurer's License under Section 4(3)(b) of the Cayman Islands Insurance Law 2010. CHIC's principal activity is to issue primary policies for hospital liabilities covering Prospect, its subsidiaries and employees, on a claims-made basis. CHIC also provides excess healthcare professional liability and umbrella liability insurance coverage on a claims-made basis covering healthcare professional liability, general liability, automobile liability, employer's liability, helipad liability and non-owned aircraft liability of the Company and its affiliates. This excess coverage under this policy is 100% reinsured by commercial reinsurance carriers rated at minimum A- by AM Best. CHIC also provides a deductible reimbursement policy for workers compensation to the Company's facilities all of which have high deductible program structures or are qualified self-insureds (see Note 2). In fiscal 2021, through commutation agreements certain policies and reinsurance amendments were revised, which transferred risk for self-insured layers of coverage for workers compensation deductible reimbursement program, hospital and physician professional and general liability and certain buffer layer excess programs from both of the Company's captive insurance companies to the Company's hospitals and affiliated subsidiaries. This had no impact on the Company's consolidated financial statements.

The Company does not allocate interest expense related to acquisition debt or income taxes to the other reporting segments.

2. Significant Accounting Policies

Principles of Consolidation and Basis of Presentation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and include the accounts of all controlled subsidiaries. Such control is effectuated through ownership of voting common stock or by other means, but do not include the accounts of the parent companies, Chamber, Ivy Holdings and Ivy Intermediate Holding Inc. The Company has a variable interest in various entities under the Medical Group segment due to the existence of two call options (see "Medical Group Segment" above), under which the Company has the ability to require the holders of all of the voting common stock of the underlying subsidiaries to sell their shares at a fixed nominal price ($1,000) to another designated physician chosen by the Company. This call option agreement represents rights provided through a variable interest other than the equity interest itself that limits the returns that could be earned by the equity holders. In addition, the Company has management agreements with the physician organizations under the Medical Group segment (see "Medical Group Segment" above) which allows the Company to direct the activities of such physician organizations that most significantly impact their economic performance, retain the right to receive expected residual returns and assume the obligation to absorb losses. Accordingly, the Company is considered to be the primary beneficiary and these entities are consolidated within the accompanying consolidated financial statements.

Operating results for acquisitions are consolidated with the Company's consolidated financial statements from their acquisition dates. All significant intercompany balances and transactions have been eliminated in consolidation. Non-controlling interests in less-than-wholly owned consolidated subsidiaries of the Company are presented as a component of total equity to distinguish between the interests of the Company and the interests of the non-controlling owners.

The consolidation of these entities does not change any legal ownership, and does not change the assets or the liabilities and equity of the Parent Entity as a stand-alone entity. These entities had total revenues of approximately $391,700,000 and $346,182,000 and total net income of approximately $39,793,000 and $36,243,000 for the years ended September 30, 2021 and 2020, respectively. The assets and liabilities of the variable interest entities are as follows (in thousands):

September 30,	**2021**	2020
Assets		
Total current assets	$ **155,767**	$ 120,920
Total non-current assets	**110,050**	110,180
Total assets	$ **265,817**	$ 231,100
Liabilities		
Total current liabilities	$ **69,258**	$ 70,963
Total long-term liabilities	**730**	730
Total liabilities	$ **69,988**	$ 71,693

Revenues

Revenues by reportable segment are comprised of the following amounts (in thousands):

For the Years Ended September 30,	2021	2020
Net Hospital Services		
Inpatient	$ 1,437,905	$ 1,377,468
Outpatient	804,084	802,318
Capitation	161,518	147,588
Other	4,569	12,005
Total Hospital Services operating revenues (before provision for bad debts-2020 only)	2,408,076	2,339,379
Less: Provision for bad debts	-	(102,251)
Total Net Hospital Services operating revenues	2,408,076	2,237,128
Other non-patient revenues	44,603	38,464
Total Hospital Services revenues	2,452,679	2,275,592
Medical Group		
Capitation	397,670	310,521
Management fees	16,393	11,563
Other	57,270	50,562
Total Medical Group revenues	471,333	372,646
Global Risk Management		
Capitation	73,151	55,290
Other	27,003	29,610
Total Global Risk Management revenue	100,154	84,900
Corporate revenues	3,171	250
Total net revenues	$ 3,027,337	$ 2,733,388

On October 1, 2020, the Company adopted the new revenue recognition standard, Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers (Topic 606)", using a modified retrospective method of application to all contracts existing on October 1, 2020. The core principle of the guidance in ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. For the Hospital Segment, the adoption of ASU 2014-09 resulted in changes to the presentation and disclosure of revenue primarily related to uninsured or underinsured patients. Prior to the adoption of ASU 2014-09, a significant portion of the provision for doubtful accounts related to self-pay patients, as well as co-pays, co-insurance amounts and deductibles owed by patients with insurance. Under ASU 2014-09, the estimated uncollectable amounts due from these patients are generally considered implicit price concessions that are a direct reduction to net operating revenues, with a corresponding reduction in the amounts presented as provision for doubtful accounts.

The Company has revised its accounting policies related to revenues effective October 1, 2020 and these are discussed below.

The Company recognizes net operating revenues in the period in which performance obligations under contracts by transferring our services to customers are satisfied. Net operating revenues are recognized in the amounts to which the Company expects to be entitled, which are the transaction prices allocated to the distinct services.

Net operating revenues for the Hospital Segment primarily consist of net patient service revenues, principally for patients covered by Medicare, Medicaid, managed care and other health plans, as well as certain uninsured patients and other uninsured discount and charity programs. Additionally, the Hospital Segment also earns revenues from capitation arrangements that are made directly made with various managed care providers.

The following is a summary of sources of patient service revenues in the Hospital Segment (in thousands):

Years Ended September 30,	**2021**	2020
Medicare	**$ 678,577**	$ 745,780
Medicaid	**780,305**	757,626
Managed Care/Commercial	**700,915**	571,749
Self-Pay/Other	**82,193**	104,631
Capitation	**161,518**	147,588
Other	**4,568**	12,005
Total patient service revenue	**$ 2,408,076**	$ 2,339,379

Operating revenues of the Medical Group segment consist primarily of payments for medical services procured by certain entities included within the Medical Group segment ("Affiliates") under capitated contracts with various managed care providers including HMOs. Capitation revenue under HMO contracts is prepaid monthly to the Affiliates based on the number of enrollees electing any one of the Affiliates as their health care provider. Operating revenues of the Global Risk Management segment consist primarily of payments for medical services procured under global capitation arrangements from third-party health plans. Capitation revenue under these global capitation contracts is prepaid monthly to the Global Risk Management segment based on the number of enrollees. Entities within the Global Risk Management segment entered into Management Services Agreements with the Hospital Services and Medical Group segments, under which up to 98% of capitation revenue received is transferred to these segments. During the years ended September 30, 2021 and 2020, capitation revenue received from health plans was approximately $288,908,000 and $265,513,000, respectively, of which $129,738,000 and $101,556,000, and $104,274,000 and $119,328,000 were transferred to the Hospital Services segment and Medical Group segment, respectively.

Fee-for-Service ("FFS") Revenues

FFS revenues are due from patients, third-party payers (including managed care payers and government programs) and others, and they include variable consideration for retroactive revenue adjustments due to settlement of audits, reviews and investigations. Generally, the Company bills patients and third-party payers several days after the services are performed or shortly after discharge. Revenues are recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided and revenues are recognized when performance obligations satisfied over time based on actual charges incurred in relation to total expected charges. This method provides a faithful depiction of the transfer of services over the term of performance obligations based on the inputs needed to satisfy the obligations. Generally, performance obligations satisfied over time relate to patients in the Company's hospitals receiving inpatient acute care services. The Company measures the performance obligation from admission into the hospital, or the commencement of an outpatient service, to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge or completion of the outpatient services. Patient encounters and related episodes of care and procedures qualify as distinct goods and services, provided simultaneously together with other readily available resources, in a single instance of service, and thereby constitute a single performance obligation for each patient encounter and, in most instances, occur at readily determinable transaction prices. All services provided are expected to result in cash flows and are therefore reflected as net revenue in the consolidated financial statements.

The transaction price is determined based on gross charges for services provided, reduced by contractual adjustments provided to third-party payers, discounts provided to uninsured patients, and implicit price concessions provided primarily to uninsured patients. The estimates of contractual adjustments and discounts are based on contractual agreements, discount policies and historical cash collection experience. As a practical expedient, the Company adopted a portfolio approach for the FFS revenue stream to group together contracts with similar characteristics and analyze historical cash collections trends. The contracts within the portfolio share the characteristics conducive to ensuring that the results do not materially differ under the new standard if it were to be applied to individual patient contracts related to each patient encounter.

The Company is responsible for confirming member eligibility, performing program utilization review, potentially directing payment to the provider and accepting the financial risk of loss associated with services rendered, as specified within the Company's patient contracts. The Company has the ability to adjust contractual fees with patients and possess the financial risk of loss in certain contractual obligations. These factors indicate the Company is the principal and, as such, the Company records gross fees contracted with patient in revenues.

Revenues under the traditional FFS service Medicare and Medicaid programs are based primarily on prospective payment systems. Retrospectively determined cost-based revenues under these programs, which were more prevalent in earlier periods, and certain other payments, such as disproportionate share hospital and bad debt expense reimbursement, which are based on our hospitals' cost reports, are estimated using historical trends and current factors. Cost report settlements under these programs are subject to audit by Medicare and Medicaid auditors and administrative and judicial review, and it can take several years until final settlement of such matters is determined and completely resolved. The Company records accruals to reflect the expected final settlements on cost reports. For filed cost reports, the accrual is recorded based on those cost reports and subsequent activity. The accrual for periods for which a cost report is yet to be filed is recorded based on estimates of what the Company expects to report on the filed cost reports. After the cost report is filed, the accrual may need to be adjusted and these accruals are adjusted in future periods as they become known.

Settlements with third-party payers for retroactive revenue adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care using the most likely outcome method. These settlements are estimated based on the terms of the payment agreement with the payer, correspondence from the payer and historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements

are adjusted in future periods as adjustments become known, or as years are settled or are no longer subject to such audits, reviews and investigations.

The following is a summary of due from and due to governmental payers at September 30, 2021 and 2020 (in thousands):

September 30,	2021	2020
Due from government payers:		
Medicaid disproportionate share	$ 19,356	$ 14,828
Medicare cost report settlements	3,942	5,417
Medicaid Section 1115 receivable	-	145
	$ 23,298	$ 20,390
Due to government payers:		
Medicaid disproportionate share	$ 8,091	$ 4,461
Medicare cost report settlements	1,703	4,160
Medicaid cost report settlements	10,424	24,128
	$ 20,218	$ 32,749

The Company is not aware of any material claims, disputes, or unsettled matters with any payers that would affect revenues that have not been adequately provided for and disclosed in the accompanying consolidated financial statements. Because the laws, regulations, instructions and rule interpretations governing Medicare and Medicaid reimbursement are complex, subject to interpretation and can change frequently, the estimates recorded could change by material amounts.

The Company provides charity care to patients who lack financial resources and are deemed to be medically indigent based on criteria established under the Company's charity care policy. This care is provided without charge or at amounts less than the Company's established rates. Because the Company does not pursue collection of amounts determined to qualify as charity care, such amounts are not reported as net operating revenues. The direct and indirect costs related to this care totaled approximately $3,488,000 and $6,545,000 for the years ended September 30, 2021 and 2020, respectively. Direct and indirect costs for providing charity care are estimated by calculating a ratio of cost to gross charges and then multiplying that ratio by the gross uncompensated charges associated with providing care to charity patients.

Patients who are covered by third-party payers are responsible for related co-pays, co-insurance and deductibles, which vary in amount. The Company estimates the transaction price for patients with co-pays, co-insurance and deductibles and for those who are uninsured based on historical collection experience and current market conditions. The discount offered to certain uninsured patients is recognized as a contractual allowance, which reduces net operating revenues at the time the self-pay accounts are recorded. The uninsured patient accounts, net of contractual allowances recorded, are further reduced to their net realizable value at the time they are recorded through implicit price concessions based on historical collection trends for self-pay accounts and other factors that affect the estimation process. Although outcomes vary, the Company's policy is to attempt to collect amounts due from patients, including co-pays, co-insurance and deductibles due from patients with insurance, at the time of service while complying with all federal and state statutes and regulations. All of the Company's hospital facilities are subject to Emergency Medical Treatment and Active Labor Act ("EMTALA"). This federal law and accompanying regulations require any hospital that participates in the Medicare program to conduct an appropriate medical screening examination of every person who comes to the hospital's

MPT CONFIDENTIAL MPT_PROSPECT_00011589

emergency department for treatment and, if the patient is suffering from an emergency medical condition, to either stabilize that condition or make an appropriate transfer of the patient to a facility that can treat the condition. The obligation to screen and stabilize emergency medical conditions exists regardless of a patient's ability to pay for treatment. There are severe penalties under EMTALA for violations of the law and regulations, including if a hospital fails to screen or appropriately stabilize or transfer a patient or if the hospital delays appropriate treatment in order to first inquire about the patient's ability to pay. Penalties for violations of EMTALA include civil monetary penalties and exclusion from participation in the Medicare program. In addition, an injured patient, the patient's family or a medical facility that suffers a financial loss as a direct result of another hospital's violation of the law can bring a civil suit against that other hospital. The Company believes that it is in compliance with EMTALA and is not aware of any pending or threatened EMTALA investigations involving allegations of potential wrongdoing that would have a material effect on the Company's consolidated financial statements.

State Supplemental Medicaid Programs

The various states in which the Company operates have additional programs in which certain of the Company's facilities participate in, related to medical facilities serving a disproportionate number of low-income patients. The Company recognizes revenues related to supplemental Medicaid payments under using the most likely outcome method, and the estimates also consider whether it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. The following table shows the revenues generated by these programs during the years ended September 30, 2021 and 2020 (in thousands), which are reflected in Net Hospital Segment patient service revenues in the accompanying consolidated statements of operations:

Years Ended September 30,	**2021**	2020
California Medi-Cal Disproportional Share ("CA DSH")	**$ 38,183**	$ 32,216
Rhode Island DSH and Upper Payment Limit ("UPL")	**22,273**	20,239
Pennsylvania State Programs	**32,042**	48,988
Connecticut Medicaid DSH revenue	**25,270**	27,659
	$ 117,768	$ 129,102

California Hospital Fee Program

The Company recognizes revenues related to supplemental Medi-Cal payments under California provider fee programs using the most likely outcome method, which is based on formulas contained in the legislation as well as modeling performed by the California Hospital Association ("CHA"). The estimates also consider whether it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. These programs are funded by quality assurance fees paid by participating hospitals and matching federal funds.

The Company recognized supplemental payments, included in net patient service revenue, and quality assurance fee expense, included in general and administrative in the accompanying consolidated statements of operations as follows (in thousands):

Years Ended September 30,	**2021**	2020
Hospital services revenues	**$ 137,926**	$ 140,691
General and administrative	**73,720**	97,270
Net pre-tax impact	**$ 64,206**	$ 43,421

MPT CONFIDENTIAL

Capitation Revenues

Capitation revenue (net of capitation withheld to fund risk share deficits discussed below) is recognized in the month in which the providers are obligated to provide services (stand ready obligation). Minor ongoing adjustments to prior months' capitation, primarily arising from contracted HMOs' finalizing of monthly patient eligibility data for additions or subtractions of enrollees, are recognized in the month they are communicated to the Company. Additionally, Medicare pays capitation using a "Risk Adjustment model," which compensates managed care organizations and providers based on the health status (acuity) of each enrollee. Under Risk Adjustment, capitation is determined based on health severity, measured using patient encounter data. Capitation is paid on an interim basis based on data submitted for the enrollee for the preceding year and is adjusted in subsequent periods the final data is compiled. Positive or negative capitation adjustments are made for Medicare enrollees with conditions requiring more or less healthcare services than assumed in the interim payments. Since the Company cannot reliably predict these adjustments, periodic changes in capitation amounts earned as a result of Risk Adjustment are recognized generally in the fourth quarter when those changes are communicated by the health plans to the Company.

As related to the Medical Group Segment, during the years ended September 30, 2021 and 2020, the Company returned and recognized as a reduction in revenue, approximately $2,800,000 and $1,395,000, respectively, as a result of the final Hierarchical Condition Category ("HCC") reconciliation. As related to the Global Risk Management Segment, the Company recognized capitation risk adjustments of approximately $6,123,000 and $9,646,000, respectively, during the years ended September 30, 2021 and 2020.

Per Member Per Month ("PMPM") managed care contracts generally have a term of one year or longer. All managed care contracts have a single performance obligation that constitutes a series for the provision of managed healthcare services for a population of enrolled members for the duration of the contract. The transaction price for PMPM contracts is variable as it primarily includes PMPM fees associated with unspecified membership that fluctuates throughout the contract. In certain contracts, PMPM fees also include adjustments for items such as performance incentives, performance guarantees and risk sharing. The Company generally estimates the transaction price using the most likely amount methodology and amounts are only included in the net transaction price to the extent that it is probable that a significant reversal of cumulative revenue will not occur once any uncertainty is resolved. The majority of the Company's net PMPM transaction price relates specifically to the Company's efforts to transfer the service for a distinct increment of the series (e.g. month) and is recognized as revenue in the month in which members are entitled to service.

Risk Pool Settlements and Incentives

HMO contracts also include provisions to share in the risk for hospitalization, whereby the physician organization can earn additional incentive revenue or incur penalties based upon the utilization of hospital services. Typically, any shared risk deficits are not payable until and unless the Company generates future risk sharing surpluses, or if the HMO withholds a portion of the capitation revenue to fund any risk share deficits. At the termination of the HMO contract, any accumulated risk share deficit is typically extinguished. Due to the lack of access to information necessary to estimate the related costs, shared-risk amounts receivable from the HMOs are only recognized, using the most likely methodology, and only included in revenue to the extent that it is probable that a significant reversal of cumulative revenue will not occur. Risk pools for the prior contract years are generally final settled in the third or fourth quarter of the following fiscal year. For the years ended September 30, 2021 and 2020, Medical Group revenues included approximately $12,282,000 and $24,166,000, respectively, relating to risk-sharing profit. At September 30, 2021 and 2020, contingent liabilities for carry-forward risk-pool deficits expected to be forgiven, or offset against future surpluses were approximately $13,740,000 and $68,702,000, respectively, based on the available information from the health plans.

The Company also receives incentives under "pay-for-performance" programs for quality medical care, based on various criteria. The incentive programs track specific performance measures and calculate payments to the Company based on the performance measures. The Company's incentives under "pay-for-performance" programs are recognized using the most likely methodology. However, as the Company does not have sufficient insight from the health plans on the amount and timing of the shared risk pool and incentive payments these amounts are considered to be fully constrained and only recorded when such payments are known and/or received. Performance and incentive revenues recorded during the years ended September 30, 2021 and 2020 were $15,405,000 and $21,272,000, respectively.

Management fee revenue is earned in the month the services are rendered. Management fee arrangements with unaffiliated entities provide for compensation ranging from 6.5% to 10% of revenues. Consideration from management contracts is variable in nature because the majority of the fees are generally based on revenue or collections, which can vary from period to period. The Company has control over pricing. Contractual fees are invoiced to the Company's clients generally monthly and payment terms are typically due within 30 days. The variable consideration in the Company's management contracts meets the criteria to be allocated to the distinct period of time to which it relates because (i) it is due to the activities performed to satisfy the performance obligation during that period and (ii) it represents the consideration to which the Company expects to be entitled. Management fee revenues recorded during the years ended September 30, 2021 and 2020 were $15,562,000 and $11,895,000, respectively. Management fees for revenue for entities that are consolidated are eliminated on consolidation.

Contract Assets and Contract Liabilities

The receivables and payables related to the California Hospital Fee Program are the most significant contract assets and liabilities in the Company's consolidated financial statements. As of September 30, 2021 and 2020, the Company had receivables related to the California Hospital Fee Program of approximately $178,042,000 and $189,941,000, respectively, and had liabilities related to the California Hospital Fee Program of approximately $71,197,000 and $70,660,000, respectively, in the accompanying consolidated balance sheets.

Cost of revenues

The Company, for certain matters, maintains stop loss coverage for health care costs that are in excess of set thresholds.

Medical Group Cost of Revenues

The cost of health care services consists primarily of capitation and claims payments, pharmacy costs and incentive payments to contracted providers. These costs are recognized in the period incurred, or when the services are provided. Claims costs also include an estimate of the cost of services which have been incurred but not yet reported to the Company. The estimate for accrued medical costs is based on projections of costs using historical studies of claims paid and adjusted for seasonality, utilization and cost trends. These estimates are subject to trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management records its best estimate of the amount of medical claims incurred at each reporting period. Estimates are continually monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current period. See Note 14 for changes in claims estimates during the years ended September 30, 2021 and 2020.

The Company has contractual reimbursement obligations to providers and discretionary incentive payment obligations to physicians. These payments are in large part predicated on the pay-for-performance, shared risk revenues, and favorable senior capitation risk adjustment payments received by the Company from the health plans. The Company records these revenues generally in the third or fourth quarter of each fiscal year when the incentives and capitation adjustments due from the health plans are known. During this period, the Company also finalizes the physician discretionary incentive.

The Company recorded physician incentives expense of approximately $33,932,000 and $24,230,000 for the years ended September 30, 2021 and 2020, respectively. As of September 30, 2021 and 2020, physician incentive accruals of approximately $24,776,000 and $22,484,000, respectively, were included in accounts payable and other accrued liabilities in the accompanying consolidated financial statements.

The Company also periodically evaluates the need to establish premium deficiency reserves for the probability that anticipated future health care costs could exceed future capitation payments from HMOs under capitated contracts and, where appropriate, records a premium deficiency reserve. There were no such premium deficiencies recorded at September 30, 2021 and 2020, respectively.

Global Risk Management

The cost of health care services consists primarily of the transfer of capitation revenue to the Hospital Services and Medical Group segments under the Management Services Agreements, and capitation and claims payments. These costs are recognized in the period incurred, or when the services are provided. Claims costs also include an estimate of the cost of services which have been incurred but not yet reported to the Company. The estimate for accrued medical costs is based on projections of costs using historical studies of claims paid and adjusted for seasonality, utilization and cost trends. These estimates are subject to trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management records its best estimate of the amount of medical claims incurred at each reporting period. Estimates are continually monitored and reviewed and, as settlements are made or estimates adjusted, differences are reflected in current operations.

The Company also periodically evaluates the need to establish premium deficiency reserves for the probability that anticipated future health care costs could exceed future capitation payments from HMOs under capitated contracts and, where appropriate, record a premium deficiency reserve. There were no such premium deficiencies recorded at September 30, 2021 or 2020.

Patient Accounts Receivable, Net

Collection of receivables from third-party payers and patients are the Company's primary source of cash and is critical to its operating performance. For patient accounts receivable resulting from revenue recognized prior to October 1, 2020, a provision for doubtful accounts was established to reduce the carrying value of such receivables to their estimated net realizable value. Generally, the Company estimated this allowance based on the aging of our accounts receivable by hospital, its historical collection rates as well as changes in applicable laws, rules and regulations and contract terms, to assure that provisions for contractual allowances are made using the most accurate information available. The allowance for doubtful accounts was approximately $198,052,000 as of September 30, 2020, representing 41% of gross accounts receivable. Under the provisions of ASU 2014-09, which the Company adopted effective October 1, 2020, when the Company has an unconditional right to payment, subject only to the passage of time, the right is treated as a receivable. Patient accounts receivable, including billed accounts and unbilled accounts for which there is the unconditional right to payment, and estimated amounts due from third-party payers for retroactive adjustments, are receivables if the right to consideration is unconditional and only the passage of time is required before payment of that consideration is due. For patient accounts receivable subsequent to the Company's adoption of ASU 2014-

09 on October 1, 2020, the estimated uncollectable amounts are generally considered implicit price concessions that are a direct reduction to patient accounts receivable rather than allowance for doubtful accounts. Such implicit price concessions may be caused by denials for payments for services due to issues over patient eligibility for medical coverage, the Company's ability to demonstrate medical necessity for services rendered and payer authorization of hospitalization.

Property, Improvements and Equipment

Property, improvements and equipment are stated on the basis of cost or, in the case of acquisitions, at their acquisition date fair values. Depreciation is provided using the straight-line method over the estimated useful lives of the assets, and amortization of leasehold improvements is provided using the straight-line basis over the shorter of the remaining lease period or the estimated useful lives of the leasehold improvements. Leasehold improvements are generally depreciated over 5 to 40 years, buildings and improvements are depreciated over 5 to 40 years, equipment is depreciated over 2 to 15 years and furniture and fixtures are depreciated over 2 to 20 years. Equipment capitalized under capital lease obligations are amortized over the lesser of the life of the lease or the useful life of the asset.

As more fully described in Note 13, the Company is required to comply with certain seismic standards as required by the state of California by dates through July 2022. The useful life of buildings subject to seismic retrofit requirements may be limited if the Company does not make the necessary upgrades by the required compliance date.

Goodwill

Goodwill represents the excess of the consideration paid and liabilities assumed over the fair value of the net assets acquired, including identifiable intangible assets.

The Company follows the private company alternative, under which private companies can elect to amortize goodwill on a straight-line basis over 10 years, or less than 10 years if the entity demonstrates that another useful life is more appropriate. It also permits a private company to apply a simplified impairment model to goodwill, allowing impairment analysis to be evaluated at the entity level. Accordingly, the Company amortizes goodwill on a straight-line basis over 10 years. The Company evaluates goodwill for impairment at the entity level when a triggering event occurs that indicates that the fair value of the entity may be below its carrying amount. When a triggering event occurs, the Company first assesses qualitative factors to determine whether the quantitative impairment test is necessary. If that qualitative assessment indicates that it is more likely than not that goodwill is impaired, the Company performs the quantitative test to compare the entity's fair value with its carrying amount, including goodwill. If the qualitative assessment indicates that it is not more likely than not that goodwill is impaired, further testing is unnecessary. The goodwill impairment loss, if any, represents the excess of the carrying amount of the entity over its fair value. There was no goodwill impairment recorded during the years ended September 30, 2021 and 2020.

Intangible Assets

Intangible assets include customer relationships, trade names, and favorable leaseholds. The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of such assets may not be recoverable. The Company considers assets to be impaired and writes them down to fair value if estimated undiscounted cash flows associated with those assets are less than their carrying amounts. Fair value is based upon the present value of the associated cash flows. Changes in circumstances (for example, changes in laws or regulations, technological advances or changes in strategies) may also reduce the useful lives from initial estimates. Changes in planned use of intangibles may result from changes in customer base, contractual agreements, or regulatory requirements. In such

circumstances, management will revise the useful life of the long-lived asset and amortize the remaining net book value over the adjusted remaining useful life. There were no impairments recorded during the years ended September 30, 2021 and 2020.

Insurance Reserves

Medical Malpractice Liability Insurance

The individual physicians who contract with the physician organizations carry their own medical malpractice insurance, some of which may be purchased from RRG or CHIC. In the Hospital Services segment, the Company's hospitals carry professional and general liability insurance to cover medical malpractice claims under claims-made policies. Under the policies, insurance premiums cover only those claims actually reported during the policy term. Should the claims-made policy not be renewed or replaced with equivalent insurance, claims related to occurrences during the policy term but reported subsequent to the policy's termination may be uninsured. The Company's hospitals have a consolidated policy for professional and general liability insurance with a retention that applies per claim.

Prospect RRG & Prospect Crozer, LLC ("Crozer")

During the years ended September 30, 2021 and 2020 at Crozer, RRG provided primary malpractice insurance ($500,000 per occurrence and $1,500,000 in the aggregate for physicians, and $500,000 per occurrence and $2,500,000 in the aggregate for the hospitals) and general liability ($1,000,000 per occurrence and $2,000,000 in the aggregate). The Pennsylvania MCARE fund provides the $500,000 in excess of $500,000 RRG malpractice coverage for physicians, hospitals, and certain professional corporations. For the year ended September 30, 2021, excess coverage was provided by CHIC for limits up to $80,000,000 over entity retentions, which was 100% reinsured by third party carriers. Additionally, RRG provides $1,000,000 per occurrence and $3,000,000 in the aggregate) coverage for non-healthcare provider professional liability. For the year ended September 30, 2020, RRG provided coverage for losses of $4,000,000 in excess of $1,000,000 for each hospital professional liability claim with no aggregate limit. RRG also provided additional layers of excess coverage over $5,000,000 up to $20,000,000, which was 100% reinsured to third party carriers. The excess coverage provided for general liability is over $1,000,000 up to $50,000,000, which was also 100% reinsured by third party carriers. Additionally, there is $1,000,000 per occurrence and $3,000,000 in the aggregate) coverage for non-healthcare provider professional liability.

CHIC

For the year ended September 30, 2021, the malpractice and general liability risk was retained by the Company's hospitals and affiliated subsidiaries subject to a $7,500,000 retention, except for Crozer subject to $12,500,000 retention. For the year ended September 30, 2020, CHIC provided malpractice and general liability ($5,000,000 per occurrence and $37,000,000 in the aggregate) coverage for all facilities, except Crozer. For the years ended September 30, 2021 and 2020, CHIC also provided an excess healthcare professional liability and umbrella liability insurance policy on a claims-made basis covering healthcare professional liability, general liability, automobile liability, employers' liability, helipad liability and non-owned aircraft liability. The limit provided was $80,000,000 during the years ended September 30, 2021 and 2020, for each loss event and in the annual aggregate excess of the primary coverage layers described above. This coverage was fully reinsured by third party carriers.

GAAP requires that a health care organization record and disclose the estimated costs of medical malpractice claims in the period of the incident of malpractice, if it is reasonably possible that liabilities may be incurred and losses can be reasonably estimated. The Company has recognized an estimated liability for incurred but not reported claims and the self-insured risks (including deductibles and potential claims in excess of policy limits) based upon an actuarial valuation of the Company's historical claims experience of its hospitals. At September 30, 2021 and 2020, the total gross claims liability, was approximately $121,691,000 and $103,349,000 and reinsurance recoverable on unpaid losses were approximately $16,053,000 and $17,506,000, respectively, included in other assets on the accompanying consolidated balance sheets, and were estimated using a discount factor ranging from 3.50% to 4.00%.

Workers' Compensation Insurance

The workers' compensation coverage provides the statutory benefits required by law with a $500,000 deductible reimbursement policy provided by CHIC for the Company's entities located in California and Connecticut, and Pennsylvania for the year ended September 30, 2020. The facilities in Rhode Island were fully insured for workers' compensation claims with no deductible in a guaranteed cost program.

At September 30, 2021 and 2020, included in accrued salaries, wages and benefits are accruals for uninsured claims and claims incurred but not reported of approximately $29,109,000 and $32,532,000 and reinsurance recoverable on unpaid losses of $4,952,000 and $5,218,000, respectively, included in other assets on the accompanying consolidated balance sheets. The amounts are estimated based upon an actuarial valuation of claims experience, using a discount factor of 4%.

Reserve Methodology

The claims reserve is based on the best data available to the Company. The estimate, however, is subject to a significant degree of inherent variability. The estimate is continually monitored and reviewed, and as the reserve is adjusted, the difference is reflected in current operations. While the ultimate amount of the medical malpractice and workers' compensation claims liability is dependent on future developments, management is of the opinion that the associated liabilities recognized in the accompanying consolidated financial statements are adequate to cover such claims. Management is not aware of any potential claims whose settlement, if any, would have a material adverse effect on the Company's consolidated financial position, results of operations or cash flows.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with initial maturities of 90 days or less to be cash equivalents. Cash and cash equivalents are primarily comprised of deposits with banks. The Company maintains its cash at banks with high credit-quality ratings.

Cash Held in Escrow

As of September 30, 2021, the Company held $45,270,000 of cash held in escrow in connection with the purchase of the non-controlling interest of Prospect CharterCARE, LLC ("CharterCare") (see Note 4). As of September 30, 2020, the Company held $70,000 of cash in escrow.

Restricted Cash

Some of the Company's cash is restricted for various purposes including research, regulatory requirements and letters of credit. The Company is also required to keep restricted deposits by certain HMOs for the payment of claims. Such restricted deposits are classified as a current asset in the accompanying consolidated balance sheets, as they are restricted for payment of current liabilities. Restricted cash also include certificates of deposit with maturity dates of more than 90 days when purchased.

Restricted Investments

Investments in marketable securities, primarily mutual funds, and are classified as available for sale and are stated at fair value. Unrealized gains and losses are recorded in the statements of other comprehensive income. Investment securities are exposed to various risk, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in values of investment securities could occur in the near term and such changes could materially affect investment. These investments are held in the Company's captive insurance companies and are shown as restricted because the state/local regulators require their approval before dividends or return of capital to the Parent Entity.

Inventories

Inventories of supplies are valued at the lower of amounts that approximate the weighted average cost or net realizable value, which approximates market value, and are expensed as incurred. Inventories consist primarily of medical and surgical supplies and pharmaceuticals.

Internal Use Software

Included within other receivables, prepaid expenses and other current assets are hosting arrangements related to the Oracle suite of products, which are accounted for as service contracts. The gross carrying amount of capitalized service costs was approximately $30,641,000 and $14,298,000 at September 30, 2021 and 2020, respectively. There is no expected residual value for capitalized costs. As of September 30, 2021 there we no capitalized costs for hosting arrangements accounted for as service contracts that was in the development stage. As of September 30, 2020, there was approximately $12,100,000 of capitalized costs for hosting arrangements accounted for as service contracts that was in the development stage and amortization is scheduled to commence once the project is complete and ready for its intended use. The estimated amortization period is 5 years. Amortization expense was approximately $3,651,000 and $1,648,000 during the years ended September 30, 2021 and 2020, respectively.

Deferred Financing Costs

Deferred financing costs are amortized over the period in which the related debt is outstanding using the effective interest method and are classified as a deduction from the carrying amount of the related debt. As it relates to MPT liabilities, deferred financing costs are classified in other assets in the accompanying consolidated balance sheets.

Income Taxes

Deferred income tax assets and liabilities are recognized for differences between financial and income tax reporting bases of assets and liabilities based on enacted tax rates and laws. To the extent a deferred tax asset cannot be recognized under the preceding criteria, allowances must be established. The impact on deferred taxes of changes in tax rates and laws, if any, are applied to the years during which temporary differences are expected to be settled and reflected in the financial statements in the period of enactment. The Company recognizes interest and penalties associated with income tax matters and unrecognized tax benefits in the income tax expense line item of the statements of operations.

An entity is required to evaluate its tax positions using a two-step process. First, the entity should evaluate the position for recognition. An entity should recognize the financial statement benefit of a tax position if it determines that it is more likely than not that the position will be sustained on examination. Next, the entity should measure the amount of benefit that should be recognized for those tax positions that meet the more-likely-than-not test.

Sale-Leaseback Transactions

The Company evaluates sale-leaseback transactions by determining whether the transaction meets the qualifying criteria to be recognized as a sale-leaseback, including the transfer of risk and rewards of ownership as well as the absence of continuing involvement of the Company. When the qualifying criteria for a sale-leaseback transaction are not met, the Company accounts for the transaction as a financing (see Notes 9 and 10).

Comprehensive Income

Comprehensive income consists of net income and other gains and losses affecting stockholder's equity that, under generally accepted accounting principles, are excluded from net income (loss) attributable to the Company. For the Company, such items consist primarily of unrealized gains or losses on debt as well as changes related to pension and other postretirement liabilities that are not recognized immediately in net periodic benefit costs (see Note 12).

Fair Value Measurement

Relevant accounting guidance establishes a framework for measuring fair value and clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants.

The guidance requires disclosure about how fair value is determined for assets and liabilities and establishes a hierarchy for which these assets and liabilities must be grouped, based on significant levels of inputs as follows: Level 1 quoted prices in active markets for identical assets or liabilities; Level 2 quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or Level 3 unobservable inputs for the asset or liability, such as discounted cash flow models or valuations. The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The Company's Level 1 assets include cash and cash equivalents and investments (certificates of deposit and money market mutual funds). The inputs for fair value of goodwill and intangible assets (including long-lived assets and intangible assets subject to amortization) would be based on Level 3 inputs as data used for such fair value calculations would be based on discounted cash flows that are not observable from the market, directly or indirectly.

Financial Items Measured at Fair Value on a Recurring Basis

The following table sets forth the Company's financial assets and liabilities measured at fair value on a recurring basis and where they are classified within the hierarchy (in thousands):

September 30, 2021	Total	Level 1	Level 2	Level 3
Mutual funds	**$ 34,283**	**$ 34,283**	**$ -**	**$ -**
September 30, 2020				
Mutual funds	$ 31,354	$ 31,354	$ -	$ -

MPT CONFIDENTIAL

The Company's investments are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices. The Company's defined benefit pension plan assets are also measured at fair value (see Note 12).

The Company's carrying amount of debt approximated fair value as of September 30, 2021 and 2020, respectively.

Concentrations of Credit Risk

Cash and cash equivalents are maintained at financial institutions and, at times, balances may exceed federally insured limits of $250,000 per depositor of each financial institution. The Company has not experienced any losses to date related to these balances.

Financial instruments that potentially subject the Company to concentrations of credit risk consist of receivables due from Medicare, Medicaid, patients, and health plans including shared-risk arrangements.

The Company invests excess cash in liquid securities at institutions with strong credit ratings, following established guidelines relative to diversification and maturities to maintain safety and liquidity. These guidelines are periodically reviewed and modified to take into consideration trends in yields and interest rates and principal risk. Management attempts to schedule the maturities of the Company's investments to coincide with the Company's expected cash requirements. Credit risk with respect to receivables is limited since amounts are generally due from large HMOs within the Medical Group segment and from the Medicare and Medicaid programs within the Hospital Services segment. Management reviews the financial condition of these institutions on a periodic basis and does not believe the concentration of cash or receivables results in a high level of risk.

For the years ended September 30, 2021 and 2020, the Hospital Services segment received a total of 61% and 64% of its net patient revenues from Medicare and Medicaid programs, respectively, and the Medical Group segment received a total of 59% and 58% for the years ended September 30, 2021 and 2020, respectively, of their capitation revenues from its five largest HMOs, as follows (in thousands):

Years Ended September 30,		**2021**	**% of Total Revenue**			2020	% of Total Revenue
Hospital Services:							
Government Payers:							
Medicare	$	**678,577**	**28%**		$	745,780	32%
Medicaid		**780,305**	**32%**			757,626	32%
Total	$	**1,458,882**	**61%**		$	1,503,406	64%
Medical Group:							
HMO A	$	**53,780**	**14%**	HMO A		41,136	13%
HMO C		**51,208**	**13%**	HMO E		36,299	12%
HMO E		**48,304**	**12%**	HMO B		35,819	12%
HMO D		**41,996**	**11%**	HMO F		35,166	11%
HMO H		**35,090**	**9%**	HMO D		30,477	10%
Total	$	**230,378**	**59%**		$	178,897	58%

MPT CONFIDENTIAL

The Global Risk Management segment received all of their revenues from seven health plans during the years ended September 30, 2021 and 2020.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities at the dates, and for the periods, that the consolidated financial statements are prepared. Actual results could materially differ from those estimates. Principal areas requiring the use of estimates include due to/from government payors, settlements under risk sharing programs, allowances for contractual discounts and implicit price concessions (doubtful accounts or bad debts in 2020), accruals for medical claims, impairment of goodwill, long-lived assets and intangible assets, share-based payments, professional and general liability claims and workers' compensation claims, reserves for pension obligations and other postretirement benefit reserves, reserves for outcome of changes in legislation and valuation allowances against deferred tax assets.

New Accounting Pronouncements

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)" with effective dates deferred for all entities by ASU 2019-10, and further deferred for nonpublic entities by ASU 2020-05. The core principle of ASU 2016-02 is that a lessee should recognize the assets and liabilities that arise from leases, including operating leases. Under the new requirements, a lessee will recognize in the statement of financial position a liability to make lease payments (the lease liability) and the right-of-use asset representing the right to the underlying asset for the lease term. For leases with a term of 12 months or less, the lessee is permitted to make an accounting policy election by class of underlying asset not to recognize lease assets and lease liabilities. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from previous GAAP. Nonpublic entities will apply the new standard for annual periods beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. The Company is currently evaluating the standard and the impact on its consolidated financial statements and footnote disclosures.

In June 2016, the FASB issued ASU 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments". The amendments in this standard require the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. In addition, this standard amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. The amendment is effective for nonpublic entities for annual reporting periods beginning after December 15, 2022. Early adoption is permitted. The Company is currently evaluating the standard and the impact on its consolidated financial statements and footnote disclosures.

In August 2018, the FASB issued ASU 2018-14, "Compensation - Retirement Benefits - Defined Benefit plans - General (Topic 715-20): Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans", which amends ASC 715 to add, remove and clarify disclosure requirements related to defined benefit pension and other postretirement plans. This ASU is effective for fiscal years ending after December 15, 2021. Early adoption is permitted. The Company is currently evaluating the provision of ASU 2018-14 and its impact on its consolidated financial statements and related disclosures.

MPT CONFIDENTIAL MPT_PROSPECT_00011600

Recently Adopted Accounting Pronouncements

On October 1, 2020, the Company adopted ASU 2014-09, *Revenue from Contracts with Customers*, and all subsequent amendments thereto (collectively, "Topic 606"). Topic 606 supersedes virtually all existing revenue recognition guidance, including industry-specific guidance, and replaces it with a single, comprehensive framework for recognizing revenue from contracts with customers. Topic 606 also requires enhanced disclosure about the Company's revenue from contracts with customers. The Company elected to adopt Topic 606 using the modified retrospective method. There is minimal impact from the implementation of ASC 606 except for the classification of bad debt and it is likely that the consolidated financial statement users will not have a lack of comparability in the financial statements.

Reclassifications

Certain reclassifications were made to the prior year consolidated financial statements in order to conform to the current year presentation. These reclassifications did not have a material impact on previously reported consolidated financial statements.

3. Property, Improvements and Equipment

Property, improvements and equipment, consisted of the following (in thousands):

September 30,	**2021**	2020
Land and land improvements	**$ 67,847**	$ 68,374
Buildings and improvements	**419,652**	378,882
Leasehold improvements	**28,614**	27,971
Equipment	**416,159**	409,784
Furniture and fixtures	**7,128**	6,032
	939,400	891,043
Less: accumulated depreciation	**(484,822)**	(412,812)
	454,578	478,231
Construction in Progress	**125,187**	66,025
Property, improvements and equipment, net	**$ 579,765**	$ 544,256

At September 30, 2021 and 2020, the Company had assets under capitalized leases of approximately $89,823,000 and $56,244,000, respectively, and related accumulated depreciation of $56,037,000 and $11,392,000, respectively.

Depreciation expense was approximately $71,193,000 and $70,706,000 for the years ended September 30, 2021 and 2020, respectively.

Included within equipment is capitalized software costs, which relate to significant system conversions. The estimated amortization period is 5 years. The gross carrying amount of capitalized software for internal use (related to the Cerner suite of products) was approximately $66,966,000 and $36,157,000 at September 30, 2021 and 2020, respectively, and the net carrying amount considering accumulated amortization was approximately $60,443,000 and $31,870,000 at September 30, 2021 and 2020, respectively. There is no expected residual value for capitalized internal-use software. At September 30, 2021 and 2020, there was approximately $55,783,000 and $24,973,000, respectively, of capitalized costs for internal-use software that is in the development stage and amortization is scheduled to commence once the software project is complete and ready for its intended use. Amortization expense was $2,237,000 and $2,237,000 for the years ended September 30, 2021 and 2020, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00011601

4. Acquisition of Noncontrolling Interest in CharterCARE

In June 2014, the Company, through a newly formed subsidiary, Prospect CharterCARE, LLC ("CCHP"), acquired substantially all of the assets of CharterCARE Health Partners and its subsidiaries, in exchange for an 85% interest in CCHP, $43.3 million in cash and a commitment to invest at least $50 million in CCHP and its subsidiaries for strategic business development and capital improvements over the next four years (the "CharterCARE acquisition"). As a result of the acquisition, the Company had an 85% ownership interest in CCHP, with the remaining 15% being owned by the prior owner of the selling entities, CharterCARE Health Partners, which was subsequently renamed CharterCARE Community Board ("CCCB").

CCHP, through wholly owned subsidiaries, operates both Roger Williams Medical Center and St. Joseph Health Services of Rhode Island, dba Our Lady of Fatima Hospital. One of the seller entities, St. Joseph Health Services of Rhode Island, had a Retirement Plan (the "Retirement Plan") which is a defined benefit pension plan and was set up for the benefit of employees of Our Lady of Fatima Hospital when the hospital was a standalone hospital owned by a religious institution. The Company and CCHP did not acquire the Retirement Plan as part of the CharterCARE acquisition, and $14 million of the proceeds from the sale were contributed to the Retirement Plan in exchange for the Company and its subsidiaries, including CCHP, not having any liabilities related to the Retirement Plan. In August 2017, a petition was filed to place the Retirement Plan into receivership by its administrators because it was underfunded. In June 2018, the receiver for the Retirement Plan (along with various named participants) filed a lawsuit on behalf of all participants against various defendants which included CCCB, the Company, CCHP, the subsidiary which holds the Company's ownership interest in CCHP, and the two subsidiaries which own Roger Williams Medical Center and Our Lady of Fatima Hospital, along with the administrators of the Retirement Plan, The Angell Pension Group, Inc., among others. Also, in March 2019, CCCB sued the Company and various directors of the Company, and certain subsidiaries. The suits involved allegations related to the valuation of CCCB's 15% ownership interest in CCHP. In December 2019, CCCB and its subsidiaries settled with the receiver of the Retirement Plan. As a result, in January 2020 the receiver took control of CCCB's noncash assets, including its ownership interest in CCHP. In December 2019, the Company sued CCCB on the basis that CCCB had breached the original terms of the acquisition by entering into the settlement agreement with the receiver and seeking indemnity against the receiver's June 2018 lawsuit.

The Company entered into a Settlement Agreement in December 2020 to release the Company and its directors and subsidiaries from all of the various claims under the aforementioned litigation. The Settlement Agreement also provided for the Company to purchase the noncontrolling interest. Under the terms of the settlement, the Company paid $27.25 million, of which $22.25 million was to settle all of the outstanding cases between the parties, including the Company, which was subsequently released of their related claims, and $5 million was for the acquisition of the noncontrolling interest. The buyout of the noncontrolling interest was treated as an equity transaction. The payment of the settlement was conditioned upon State and Federal Court approvals, which was obtained in March 2021 and August 2021, respectively. Accordingly, the Company paid $27.25 million in August 2021, and the buyout of CCCB's noncontrolling interest in CCHP was effective on August 18, 2021.

The Company received recoveries from its insurance policies of approximately $12 million. A receivable was recorded for this amount at September 30, 2021. Such monies were received after year-end.

5. Discontinued Operations

As of and for the years ended September 30, 2021 and 2020, the operations of Nix Hospital System ("Nix Health") in Texas and East Orange General Hospital ("EOGH") in New Jersey met the criteria under applicable accounting standards to be presented as discontinued operations and as assets held for sale. In October 2020, the Company entered into an Asset Purchase Agreement to sell substantially all of the assets of EOGH for a sale price of $6.2 million. That sale closed effective January 1, 2022 (see Note 16). The Company's decision to discontinue the operations of each of these entities was based on the strategy of the Company's management in their respective markets and financial results.

In connection with the presentation of discontinued operations, the Company was required to test the long-lived assets for impairment as of September 30, 2021 and 2020. As of September 30, 2021, as a result of the impairment test, at EOGH: (i) property, improvements and equipment were impaired by approximately $4.5 million; and (ii) other receivables, prepaid expenses and other current assets at EOGH were impaired by approximately $6.4 million. As of September 30, 2020, as a result of the impairment test, at EOGH: (i) property, improvements and equipment were impaired by approximately $5.3 million; and (ii) other receivables, prepaid expenses and other current assets at EOGH were impaired by approximately $3.6 million.

Summarized financial information for discontinued operations is included below (in thousands):

September 30,	**2021**	2020

Funds applied to lost revenues	(1,683)	(5,158)	-	(6,841)
Funds applied to incremental expenses	-	(730)	-	(730)
Funds applied to incremental capital assets	-	(2)	-	(2)
Funds unused at September 30, 2021	$ -	$ -	$ -	$ -

As of September 30, 2020, the Company had $5,890,000 in funds related to EOGH that had not been recognized in the accompanying consolidated statements of operations. As these liabilities were not set to transfer upon the completion of the sale of EOGH, they were reflected in accounts payable and other accrued liabilities in the accompanying consolidated balance sheets. During the year ended September 30, 2021, such funds were used in full against incremental expenses and lost revenues and accordingly there was no liability as of September 30, 2021.

As of September 30, 2021 and 2020, the Company had recorded liabilities related to Medicare advance payments received of approximately $7,435,000 and $10,152,000, respectively, related to EOGH. These liabilities will not transfer in the sale of EOGH and accordingly are reflected in refund liabilities, current and non-current, in the accompanying consolidated balance sheets.

6. Goodwill and Intangible Assets

The net carrying value of goodwill by reporting unit is as follows (in thousands):

September 30, 2021	Gross	Accum. Impairment	Accum. Amortization	Total
Southern California Hospitals	$ 130,912	$ -	$ (26,182)	$ 104,730
California Medical Groups	30,722	-	(5,936)	24,786
CharterCare	14,718	(14,228)	(70)	420
Crozer	140,216	(978)	(27,868)	111,370
Prospect ECHN, Inc. ("ECHN")	535	-	(107)	428
Prospect Waterbury, Inc. ("Waterbury")	2,888	-	(555)	2,333
Total	$ 319,991	$ (15,206)	$ (60,718)	$ 244,067

September 30, 2020	Gross	Accum. Impairment	Accum. Amortization	Total
Southern California Hospitals	$ 130,912	$ -	$ (13,091)	$ 117,821
California Medical Groups	30,722	-	(2,864)	27,858
CharterCare	14,665	(14,228)	(22)	415
Crozer	140,216	(978)	(13,946)	125,292
ECHN	535	-	(54)	481
Waterbury	2,888	-	(268)	2,620
Total	$ 319,938	$ (15,206)	$ (30,245)	$ 274,487

The changes in the net carrying amount of goodwill for the years ended September 30 are as follows (amounts in thousands):

September 30,	2021	2020
Balance, beginning of year	$ 274,487	$ 302,377
Acquisitions	53	3,333
Disposition	-	(978)
Amortization	(30,473)	(30,245)
Balance, end of year	$ 244,067	$ 274,487

Amortization expense was $30,473,000 and $30,245,000 for the year ended September 30, 2021 and 2020, respectively, and is included in goodwill amortization expense in the accompanying consolidated statements of operations.

Estimated amortization expense for each fiscal year of goodwill is as follows (in thousands):

Years ending September 30,	
2022	$ 30,476
2023	30,476
2024	30,476
2025	30,476
2026	30,476
Thereafter	91,687
Total future amortization expense	$ 244,067

The weighted-average remaining useful life for the goodwill was approximately eight years as of September 30, 2021.

Identifiable intangible assets are comprised of the following (in thousands):

September 30,	Useful lives	**2021**	2020
HMO membership	14 years	**$ 25,200**	$ 25,200
Trade names, net of impairment	3 - 20 years	**42,030**	42,030
Other	5 - 6 years	**-**	97
Gross carrying value		**67,230**	67,327
Accumulated amortization		**(52,360)**	(47,273)
Intangible assets, net		**$ 14,870**	$ 20,054

Amortization is recognized on a straight-line basis (management's best estimate of the period of economic benefit) over the respective useful lives and expense for the years ended September 30, 2021 and 2020 was $5,184,000 and $5,491,000, respectively, and is included in depreciation and amortization expense in the accompanying consolidated statements of operations. There are no expected residual values related to these intangible assets.

Estimated amortization expense for each future fiscal year of intangible assets is as follows (in thousands):

Years ending September 30,	
2022	$ 3,395
2023	2,875
2024	2,875
2025	2,875
2026	2,435
Thereafter	415
	$ 14,870

The weighted-average remaining useful life for the intangible assets was approximately five years as of September 30, 2021.

MPT CONFIDENTIAL MPT_PROSPECT_00011607

7. Related Party Transactions

Jeereddi Prasad, M.D., was a shareholder of Ivy Holdings, a director of Ivy Holdings and the Company, through June 1, 2021, and is an officer of the Upland Medical Group, a Professional Medical Group and Pomona Valley Medical Group, Inc. (collectively "ProMed Entities"), which has ownership interests in physician medical groups that provide medical services to ProMed members, including Chaparral Medical Group, Inc., (in which the Company beneficially owns a 13.2% interest). For the period from October 1, 2020 to June 1, 2021 (date of Chamber Transaction - see Note 11) and for the year ended September 30, 2020, the ProMed Entities paid these groups approximately $16,439,000 and $19,998,000. As of September 30, 2020, the Company had accounts payable and other accrued liabilities due to these related parties of $731,000, respectively. Such transactions continue after the Chamber Transaction.

Pursuant to a Management Services Agreement, dated December 15, 2010 and amended on May 3, 2012 (the "LGP Management Agreement"), between the Company and Leonard Green & Partners, L.P. ("LGP"), a private equity fund with affiliated funds that collectively constituted the majority shareholder of Ivy Holdings, LGP provided to the Company, (a) certain investment banking services, (b) management, consulting and financial planning services and (c) financial advisory and investment banking services in connection with major financial transactions from time to time. In connection with the Chamber Transaction (see Note 11), the LGP Management Agreement was terminated on June 1, 2021. In consideration for the services provided by LGP under the LGP Management Agreement, the Company paid LGP an annual fee of $1,000,000, payable in monthly installments, and reimbursed LGP for its related expenses up to $50,000 annually. The Company ceased accruing LGP monthly fees in March 2020.

During the year ended September 30, 2021, the Company paid a dividend of approximately $11.9 million (see Note 11). There were no dividends paid during the year ended September 30, 2020.

The Company is a wholly owned indirect subsidiary of Chamber. Therefore, Chamber is the parent of an affiliated group of corporations within the meaning of Section 1504(a) of the Internal Revenue Code of 1986. On December 15, 2010, Ivy Holdings, Ivy Intermediate and the Company entered into a Tax Sharing Agreement. The Tax Sharing Agreement allows the Company to make payments to Chamber as necessary to fund their payment of any required taxes incurred due to such parent status. Under this agreement, the Company received refunds (net of payments) of $(519,000) and $(397,000) for the years ended September 30, 2021 and September 30, 2020, respectively.

8. Income Taxes

The components of the income tax (benefit) provision are as follows (in thousands):

Year Ended September 30,	**2021**	2020
Current:		
Federal	$ -	$ (8,944)
State	**(2,206)**	1,874
	(2,206)	(7,070)

Tax Credits	**1,045**	2,350
Other comprehensive income	**14,753**	(297)
Lease liability	**125,159**	128,496
Deferred revenue	**1,039**	5,720
Deferred FICA tax	**7,215**	7,016
Deferred tax assets	**391,846**	328,567
Valuation allowance	**(307,973)**	(246,584)
Net deferred tax assets	**83,873**	81,983
Deferred tax liabilities:		
Property, plant & equipment	**(75,261)**	(71,010)
Intangible assets	**(3,939)**	(5,834)
Prepaid expenses	**(2,840)**	(2,830)
Outside basis differences	**(905)**	(1,920)
UTP & other	**(928)**	(389)
Deferred tax liabilities	**(83,873)**	(81,983)
Net deferred tax assets	**$ -**	$ -

Deferred tax assets and liabilities reflect the effect of temporary differences between the assets and liabilities recognized for financial reporting purposes and the amounts recognized for income tax purposes.

Management assesses the available positive and negative evidence to estimate whether sufficient future pretax income will be generated to permit use of the existing deferred tax assets. A significant piece of objective negative evidence evaluated was the cumulative pretax losses incurred over the three-year period ended September 30, 2021. Such objective evidence limits the ability to consider other subjective evidence, such as the Company's projections for future growth. Based on this evaluation, at September 30, 2021 and 2020, a valuation allowance of approximately $308.0 million and $246.5 million, respectively, was recorded. The amount of the deferred tax asset considered realizable, however, could be adjusted if estimates of future taxable income during the carryforward period are reduced or increased or if negative objective evidence in the form of cumulative losses is no longer present and additional weight is given to subjective evidence such as the Company's projections for growth.

A consolidated federal tax return is filed for Chamber, Inc., with the exception of Nuestra Familia Medical Group Inc., ("Nuestra"), which files its own federal tax returns. The Company files combined state tax returns for California, Texas, Rhode Island, Connecticut, New Jersey and file separate state returns for Pennsylvania and Florida. The Company's filed tax returns are generally subject to examination by the IRS and state tax boards for 3 to 4 years.

As of September 30, 2021, the Company has net operating loss ("NOL") carryforwards for federal purposes of $197 million and various states of $922 million. The federal NOL carryforwards begin to expire in fiscal year 2039 and the state NOL carryforwards begin to expire in fiscal year 2022. We believe that it is more likely than not that the benefit from federal and state carryforwards will not be realized. In recognition of this risk, we have provided a valuation allowance on the deferred tax assets related to these NOL carryforwards. Utilization of the net operating loss carryforwards may be subject to an annual limitation due to the ownership change limitations provided by the Internal Revenue Code of 1986, as amended (the "Code"), and similar state provisions. Any annual limitation may result in the expiration of net operating losses before utilization.

The Company's tax years 2017 through 2019 are open for federal income tax examination, and generally the states are open for tax years 2016 through 2019. The Company is under examination by the California Franchise Tax Board (FTB) for tax year ended September 30, 2017. During fiscal year ended September 30, 2021, the Company received a closing letter for the tax years ended September 2014 through 2016 from the California FTB auditor. In addition to finalizing the audit, the FTB allowed the inclusion of Prospect Medical Group, Inc & Subsidiaries and New Genesis Medical Associates, Inc. & Subsidiaries in the California unitary group filed by Ivy Holdings, Inc & Subsidiaries. An incremental benefit of $4.1 million was recorded to income tax receivable in the current period for the refund expected as a result of the audit close. For the period ended September 30, 2021 and 2020, the Company recorded a liability in the amount of $5.7 million and $4.1 million respectively, related to uncertain tax positions ("UTP") with respect to California Unitary Combined Filing for Fiscal year 2017 through 2021, which was recorded in other long-term liabilities in the accompanying consolidated balance sheets.

The Company has evaluated the CARES Act and does not expect the legislation to have a significant impact on the effective tax rate or the income tax payable of the Company.

The differences between the income tax provision at the federal statutory rate and that reflected in the accompanying consolidated statements of operations are summarized as follows:

Years Ended September 30,	**2021**	2020
Tax provision at statutory rate	**21%**	21%
State taxes, net of federal benefit	**14%**	20%
Return to provision adjustments	**-%**	11%
Goodwill amortization	**(4)%**	(8)%
Deferred tax adjustments	**1%**	8%
Valuation allowance	**(32)%**	(39)%
UTP	**(1)%**	(5)%
Change in State Tax Rate	**5%**	1%
Other	**(2)%**	-%
	2%	9%

9. Debt

Debt consists of the following (in thousands):

September 30,	2021	2020
MPT TRS loan *(1)*	$ 98,606	$ 105,508
MPT Foothill loan *(1)*	51,267	51,267
Sale-leaseback financing obligations	21,935	31,401
Other debt *(2)*	11,907	21,163
Total debt	183,715	209,339
Less: current maturities	(16,032)	(19,138)
Debt, net of current maturities	$ 167,683	$ 190,201

(1) See Note 10 for more information related to MPT sale-leaseback transactions.
(2) Other debt is comprised of building, equipment and software loans.

Senior Secured and Revolving Credit Facilities

On February 22, 2018, the Company entered into an ABL Credit Agreement (the "ABL Agreement"), by and among the Company (as the borrower), the lenders party thereto and JPMorgan Chase Bank, N.A. ("JPMorgan"), as administrative agent and collateral agent. Under the ABL Agreement, the initial maximum revolving commitment was $250.0 million with ability to expand the facility to $325.0 million (the "ABL Facility"), and the ABL facility bears interest at a variable base rate plus an applicable spread that is based on excess availability under the ABL Facility, as further described in the ABL Agreement, which was 3.75% and 4.0% as of September 30, 2021 and 2020, respectively. Through various amendments and the sale of Nix Health, the maximum commitment under the ABL Agreement was $275.0 million at September 30, 2021. This commitment will decrease by $15.0 million in the month after the sale of EOGH and by a further $10.0 million when the remaining building at Nix Health is sold. In January 2020, the maximum revolving commitment under the ABL Agreement decreased by $10.0 million to $275.0 million in connection with the sale of the acute care hospital building at Nix Health in December 2019.

The ABL Facility matures on February 22, 2023. As of September 30, 2021 and 2020, the outstanding balance on the ABL facility was $45.0 million and $0, respectively, and the available balance was $190.7 million and $210.8 million, respectively.

The ABL Facility is secured by a first priority security interest on the working capital assets of the Company and its wholly owned subsidiaries except Prospect Health Plan, Inc., CHIC, RRG, Prospect Health Access Network, Inc. and certain immaterial subsidiaries and a second priority security interest on their fixed assets. The ABL Agreement does not have any financial maintenance covenants. The ABL Agreement has a "springing" fixed charge ratio covenant that applies if excess availability is less than the greater of 10% of the maximum borrowing amount and $22,000,000. The fixed charge ratio covenant was not required to be tested for the fiscal quarter ended September 30, 2021.

Effective August 16, 2021, the Company entered into an amendment on its ABL Agreement to increase the aggregate letter of credit availability from $60 million to $80 million.

Scheduled payments under the Company's debt, current portion and debt, net of current portion as of September 30, 2021 are as follows (in thousands):

Years ending September 30,	
2022	$ 16,032
2023	15,104
2024	9,135
2025	9,404
2026	13,947
Thereafter	120,093
Total scheduled payments	183,715
Less: Current maturities	(16,032)
Total debt	$ 167,683

10. Transactions with MPT

On August 23, 2019, the Company closed a series of transactions with affiliates of Medical Properties Trust, Inc. ("MPT"), a publicly traded Real Estate Investment Trust ("REIT"). Under these transactions, the Company sold to MPT the Company's hospital buildings in California (excluding Foothill Regional Medical Center ("Foothill")), Connecticut and Pennsylvania for an aggregate purchase price of $1,386,000,000. Concurrent with the sale transactions, the Company entered into two master lease agreements whereby the hospital properties and related medical office buildings were leased back for an initial 15 year term, with options to extend twice for an additional 5 years each and for a further 4.75 year extension. Monthly rent is defined as 7.5% of the lease base, subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. For the first master lease, the Company has the option to buy the properties at their fair value at the end of the lease term. For the second master lease, the Company has the option to purchase at a price that is fixed at the time of entering into the lease (the "Option Price"). If the Company chooses not to exercise this option, and the fair value at the end of the lease is below the Option Price, then the Company must pay MPT a sum equal to the difference between the fair value and the Option Price. These transactions do not qualify for sale leaseback accounting because of the Company's deemed continuing involvement with the buyer-lessor, including the requirements to pay reserves for major repairs, and the option to purchase included in the lease, which are considered a form of contingent collateral and results in the transaction being recorded under the financing method. All of the legal entities that are parties to the master lease agreement (which are the hospital entities in California, Connecticut and Pennsylvania) provide cross guarantees on all of the obligations to MPT, which guarantees include both lease payments under the master lease as well as indebtedness due to MPT. As of September 30, 2021 and 2020, the balances due under the leases are approximately $1,291,326,000 and $1,338,040,000, respectively, and are reflected in MPT liabilities in the accompanying consolidated financial statements.

Further, MPT provided the Company with a $51,266,700 mortgage on the Foothill property. This mortgage is secured by the buildings at Foothill. The interest on this mortgage is 7.5% per annum and is subject to annual escalation of consumer price index, limited to a minimum of 2% and a maximum of 4%. The maturity date of this loan is in August 2034. MPT can purchase the property on event of default or at end of term. The Company is required to provide MPT with the option to purchase the Foothill property and lease it back to the Company under the second master lease agreement, for an amount equal to the outstanding principal balance. As of September 30, 2021, and subject to any subsequent extension from MPT, the Company has until December 31, 2021 to offer this right to MPT. As of September 30, 2021 and 2020, the balances due under the promissory note payable to MPT are $51,267,000 and $51,267,000,

MPT CONFIDENTIAL MPT_PROSPECT_00011613

respectively, and are reflected in long term debt in the accompanying consolidated financial statements (see Note 9).

Additionally, the Company entered into a promissory note (the "TRS Note"), under which MPT has advanced to the Company $112,937,000. The interest on this note is 7.5% per annum and is subject to annual escalation of the consumer price index, limited to a minimum of 2% and a maximum of 4%. The maturity date of this note was originally scheduled to be the earlier of July 2022 or, if it occurs, a sale-leaseback of the properties in Rhode Island. In connection with the Chamber Transaction, and the approval of such transaction by the Rhode Island Attorney General, the maturity date of the TRS Note was extended to April 30, 2026. A sale-leaseback of the properties in Rhode Island is prohibited to occur before the extended maturity date. As of September 30, 2021 and 2020, the balances due under this note are $98,606,000 and $105,508,000, respectively, and are reflected in long term debt in the accompanying consolidated financial statements (see Note 9).

All of the agreements referenced in this footnote are cross-collateralized and cross defaulted among the parties and the assets included therein (which do not include any of the hospital operating entities or real properties in Rhode Island, Texas or New Jersey). Based on annualized Adjusted EBITDAR (as defined) achieved over the three years from the transaction date, additional amounts between $50 million to $250 million will be payable to the Company. As of September 30, 2021, there has been no accounting for these amounts in the consolidated financial statements.

The MPT transaction documents contain certain customary covenants and restrictions and a financial covenant based on EBITDAR performance. The Company was in compliance with all such covenants at September 30, 2021.

In connection with the transactions with MPT, the Company incurred deferred financing costs of $28,058,000. Amortization expense was approximately $1,970,000 and $1,933,000 during the year ended September 30, 2021 and 2020, respectively.

Interest expense under these agreements was $58,800,000 and $60,789,000 for the years ended September 30, 2021 and 2020, respectively.

See Note 13 for future minimum lease payments related to sale leaseback commitments as of September 30, 2021.

11. Stockholder's Equity

Chamber Transaction

In June 2021, Green Equity Investments V, LP, Green Equity Investments Side V, LP and other minority shareholders sold their shares of Ivy Holdings for a purchase price of approximately $11,900,000. As a result of the sale, the Company became indirectly wholly-owned by two shareholders that were previously the two largest individual shareholders in Ivy Holdings. The transaction, among other things, (i) merged Ivy Holdings with Chamber Merger Sub Inc., a wholly-owned subsidiary of Chamber Inc. ("Chamber") which is owned by the referenced two ultimate shareholders, and Ivy Holdings, as the surviving entity in such merger, became a wholly-owned direct subsidiary of Chamber, (ii) bought out all of the other stockholders of Ivy Holdings, (iii) terminated all stock options that have not previously been exercised.

Equity Based Compensation Plans

In December 2010, the Board of Directors of Ivy Holdings adopted the Ivy Plan that initially authorized the issuance of options exercisable for up to 155,110 shares of the common stock of Ivy Holdings ("Initial Options") to employees, certain consultants and independent members of the boards of directors, of Ivy Holdings and its subsidiaries (including the Company and its subsidiaries). These options were exercisable into Ivy Holdings stock and vested based on a number of criteria, including time, Company and Business Unit performance based on EBITDA targets and CEO and Compensation Committee discretion. Since the Ivy Holdings stock options were granted to Company employees for their services related to the Company, the related compensation cost has been recorded in the Company's consolidated financial statements. In June 2015, the Board of Directors of Ivy Holdings adopted the First Amendment to the Ivy Plan. Under the First Amendment, and subsequent amendments, a further 63,704 shares of common stock of Ivy Holdings ("New Options") could be issued.

The New Options were exercisable into Ivy Holdings stock and vested based on a number of criteria, including the same criteria as the Initial Options. However, they only became exercisable on the occurrence of certain corporate transactions, including a change in control of Ivy Holdings, as defined in the Incentive Stock Option Agreements. At the time that the Merger Agreement was executed, all options were "underwater." Accordingly, the Company determined to terminate these options and not allow them to be exercised, prior to the Chamber Transaction occurring. In May 2021, the Board of Directors agreed to terminate the options on the Effective Date, as defined in the Merger Agreement. As no options had been granted or vested during the years ended September 30, 2021 and 2020, no compensation cost has been recorded in the Company's consolidated financial statements for the years then ended.

In connection with a dividend paid to shareholders on February 22, 2018, the Board of Directors of Ivy Holdings approved special cash payouts in the amount of approximately $33 million in bonus payments to stock option holders. The approval provided that any bonus with respect to an unvested portion of an option would be payable upon the date such unvested portion becomes vested and exercisable, subject to the optionee's continued employment with Prospect through such date. At September 30, 2020, approximately $2.2 million had been accrued for bonuses in connection with such options that had previously vested, and this was paid in June 2021, in connection with the Chamber Transaction. Additionally, certain option holders that held unvested options at February 22, 2018 were entitled to a cash payment on the occurrence of certain corporate transactions, provided they remained employed by the Company at that time. Cash payments of approximately $4.1 million were made to those employees were made in June 2021. This amount was recorded as an expense during the year ended September 30, 2021.

Dividends

The Company distributed approximately $11.9 million in connection with the Chamber Transaction during the year ended September 30, 2021, which was recorded against retained earnings, and was ultimately paid to the common stockholders of Ivy Holdings, Inc. There were no distributions during the year ended September 30, 2020.

MPT CONFIDENTIAL MPT_PROSPECT_00011615

12. Retirement Benefits

The Company sponsors various employee non-contributory, defined benefit pension plans (the "DB Plan") covering certain full-time employees of Crozer, ECHN and Waterbury.

In connection with the acquisition of Crozer, its plan was frozen with all benefits accruals ceased as of July 1, 2016. With respect to each Represented Employee who is a member of the Laborers' International Union of North America, the Monthly Compensation (as defined), the Credited Service (as defined), the Eligibility Service (as defined) and the accrued benefit was frozen and determined as of July 1, 2016. No benefits accrue since that date. The plan was amended to provide for determination of Vesting Service (as defined) for employees who were employed with the Company before July 1, 2016, such that years of service shall include all periods of employment completed on and after July 1, 2016, subject to the Break in Service rules (as defined). The plan was further amended on September 3, 2016 to provide certain Qualifying Participants (as defined) the right to make a Special Benefit Election (as defined) during "2016 Lump Sum Option Window" period from October 15, 2016 through November 30, 2016 to receive or commence receiving his or her vested Accrued Benefit as of December 1, 2016 in accordance with procedures adopted by the Committee. Further, the Company will adopt a plan amendment to terminate the plan effective within such five year period and will liquidate, fully fund and satisfy, and pay all benefits owed to participants and beneficiaries of the plan by providing lump sum distributions to participants, purchasing annuities for participants who do not elect a lump sum distribution, subject to applicable filing and authorization by the applicable government agency or entity. The five-year period can be extended in the event certain discount rates fall below certain defined thresholds. Presently the discount rates are below those thresholds and the Company intends to delay the termination of the Crozer DB plan.

Crozer also sponsors a postretirement benefit program (the "OPEB Plan") which is an unfunded medical care and life insurance benefit program, and a supplemental executive retirement plan (the "SERP Plan") which is an unfunded retirement plan that covers a group of current and former executives. These plans were frozen and all benefit accruals ceased as of July 1, 2016. No benefits will accrue since that date. The SERP plan was terminated and all funds paid out. With respect to each Represented Employee who is a member of the Laborers' International Union of North America, benefits will continue to accrue until a settlement of an ongoing union contract negotiation is reached for the OPEB Plan.

ECHN sponsors a DB Plan that covered substantially all of its employees. The benefits were based upon years of service and compensation for the five highest years during the employee's last 10 years of service. On December 31, 2008, ECHN implemented a soft freeze on the plan. All qualified employees were eligible to enter into the defined contribution plan, ECHN contributed 3% of eligible employees' salaries. This contribution was non-guaranteed for all employees, except certain union workers covered under a collective bargaining agreement. Effective December 31, 2013, ECHN froze the plan for all remaining participants. During September 2013, the Board passed a resolution to freeze all benefits related to the plan.

ECHN also sponsors an OPEB Plan that provides health care benefits to vested, retired employees, who are age 55 or older and start collecting under the defined benefit plan described above once retired. The retiree must be enrolled into the medical plan on the date of retirement to be eligible for the continuation. Full-time registered nurse retirees from ECHN's Manchester facility (retired prior to October 1, 2005 and were eligible per the collective bargaining agreement) were grandfathered and required to pay at least 50% of the total cost of the medical and dental coverage they elect for themselves under the OPEB Plan.

Waterbury has a noncontributory defined benefit cash balance plan. The plan was frozen to non-union participants effective June 30, 2015. Participants who are part of the Connecticut Healthcare Associates Technical Unit remain active in the plan. Non-union employees no longer accrue additional employer contribution credits in the plan. These participants will continue to receive interest credits based on their account balances in accordance with the terms of the plan. They will be entitled to their account balance (the retirement benefit they have earned up to June 30, 2015) plus applicable interest credits after the Plan were frozen.

For all plans, the Company has made contributions sufficient to meet the minimum funding requirements of applicable laws and regulations.

The activity of the pension plans for the years ended September 30, 2021 and 2020 is as follows (in thousands):

September 30,	**2021**	2020
Changes in benefit obligations		
Projected benefit obligations, beginning of period	**$ 797,145**	$ 768,614
Service cost	**126**	184
Interest cost	**22,527**	24,457
Plan participant contributions	**-**	187
Actuarial loss	**(1,879)**	32,994
Benefits paid	**(24,780)**	(28,822)
Lump sum benefits paid and annuity purchase	**(19,266)**	(469)
Projected benefit obligation, end of year	**$ 773,873**	$ 797,145
Changes in plan assets		
Fair value of plan assets, beginning of year	**$ 559,213**	$ 460,688
Actual return on plan assets	**(40,002)**	56,532
Contributions by plan sponsor	**8,297**	71,097
Plan participant contributions	**-**	187
Benefits paid	**(24,780)**	(28,822)
Lump sum benefits paid and annuity purchase	**(19,266)**	(469)
Fair value of plan assets, end of year	**$ 483,462**	$ 559,213
Funded status of the plan, end of year	**$ (290,411)**	$ (237,932)
Accumulated benefit obligation, end of year	**$ (290,411)**	$ (237,932)

The funded status of the pension plans as of September 30, 2021 and 2020 is as follows (in thousands), split between the pension plans and the post retirement plans:

	2021 Pensions	**2021 OPEBs**	**2021 Total**	2020 Pensions	2020 OPEBs	2020 Total
Current liability	**$ -**	**$ 430**	**$ 430**	$ -	$ 440	$ 440
Non-current liability	**284,674**	**5,307**	**289,981**	231,941	5,551	237,492
	$ 284,674	**$ 5,737**	**$ 290,411**	$ 231,941	$ 5,991	$ 237,932

MPT CONFIDENTIAL MPT_PROSPECT_00011617

The components of net periodic benefit cost for the years ended September 30, 2021 and 2020 are as follows (in thousands):

September 30,	2021	2020
Components of net periodic benefit cost:		
Service cost	$ 126	$ 184
Interest cost	22,527	24,457
Expected return on plan assets	(10,292)	(15,202)
Amortization of net loss	8	38
Effect of settlement	723	-
Amortization of prior service credit	(51)	(51)
Total net periodic benefit cost	$ 13,041	$ 9,426

Service cost is recorded in Hospital operating expenses on the consolidated statements of operations. All other components of net periodic benefit costs are recorded in other expense on the consolidated statements of operations.

	2021	2020
Other change in benefit obligations recognized in accumulated other comprehensive income:		
Loss due to participant experience	$ 143	$ 1,167
Amortization of net gain	(8)	(19)
Asset return loss (gain)	48,272	(9,523)
Prior service cost	51	51
Amount recognized due to settlement	(723)	-
Total recognized in other comprehensive loss (income) and accumulated other comprehensive loss (income)	$ 47,735	$ (8,324)

The assumptions used in determining the actuarial present value of the projected benefit obligations for pension plans as of September 30, 2021 and 2020 and for the years then ended are as follows:

	2021	2020
Weighted average assumptions used to determine benefit obligations at end of period		
Discount rate	2.65-3.01%	2.34-2.97%
Rate of compensation increase	0.00-2.00%	0.00-2.00%
Weighted average assumptions used to determine net periodic benefit cost for the period ended		
Discount rate	2.55-2.97%	2.92-3.31%
Rate of compensation increase	0.00-2.00%	0.00-2.00%
Expected return on the plan assets	0.00-3.25%	0.00-4.75%

Assumed health care cost trend rates for the next period used to measure the expected cost of benefits covered by the plan are as follows:

	2021	2020
Health care trend rate assumed for next year	**7.00%**	6.75%
Rate to which the cost trend is assumed to decline (the ultimate rate)	**3.25%**	4.75%
Year that the rate reaches the ultimate trend rate	**2029**	2028

Assumed health care cost trend rates have a significant effect on amounts reported for other postretirement benefit programs. A one-percentage-point change in assumed health care cost trends would have the following effects (in thousands):

	1% Increase	1% Decrease
Effect on other postretirement benefit obligations	$ 116	$ 106
Effect on total of service and interest cost components	$ 3	$ 3

The asset allocation percentage by major asset class for the plans and the target allocation for 2021 follows:

	Target	2021
Asset class:		
Cash and cash equivalents	0% -20%	1%
Fixed income	10% - 100%	97%
Alternative investments and hedge funds	0% - 30%	2%
		100 %

The investment objectives of the plans are to invest consistently with the fiduciary standards of ERISA, to provide for the funding and anticipated withdrawals on an ongoing basis, conserve and enhance the capital value of the plans in real terms while maintaining a moderate risk profile, to minimize principal fluctuations over the investment cycle, and achieve a long-term level of return commensurate with contemporary economic conditions. The expected long-term rate of return with respect to the plans is based on an aggregate of expected capital market returns within each asset category.

The following tables set forth the assets in the plans measured at fair value, by input level (in thousands):

September 30, 2021	Level 1	Level 2	Level 3	Net asset value	Total
Fixed income securities:					
Short-Term Duration	$ -	$ 40,502	$ -	$ -	$ 40,502
Extended Duration	-	201,527	-	-	201,527
Interim Duration	-	60,320	-	-	60,320
Long-Term Duration	-	166,901	-	-	166,901
Real estate	-	-	928	-	928
Alternative investments	-	-	10,423	-	10,423
Cash and cash equivalents	-	-	-	2,861	2,861
Total	$ -	$ 469,250	$ 11,351	$ 2,861	$ 483,462

September 30, 2020	Level 1	Level 2	Level 3	Net asset value	Total
Fixed income securities:					
Short-Term Duration	$ -	$ 41,769	$ -	$ -	$ 41,769
Extended Duration	-	231,197	-	-	231,197
Interim Duration	-	59,346	-	-	59,346
Long-Term Duration	-	210,351	-	-	210,351
Real estate	-	-	555	-	555
Alternative investments	-	-	13,142	-	13,142
Cash and cash equivalents	-	-	-	2,853	2,853
Total	$ -	$ 542,663	$ 13,697	$ 2,853	$ 559,213

Pension plan assets classified as Level 3 in the fair value hierarchy represent investments in which the trustee has used significant unobservable inputs in the valuation model. The hedge funds consist of equity/long/short funds and multi-strategy funds in which fair values have been estimated using the net asset value per share of the investment. The alternative investments primarily consist of investments in limited partnerships that invest in the Public-Private Investment Program which fair values have been estimated using the net asset value per share of the investment.

On an annual basis, the Company assesses the valuation hierarchy for pension assets recorded at fair value. From time to time, assets will be transferred within the fair value hierarchy as a result of changes in, among other things, inputs used, liquidity, or valuation methodologies. During the years ended September 30, 2021 and 2020, there were no transfers in classification within the fair value hierarchy. The following table is a rollforward of the plans' assets classified within Level 3 of the fair value hierarchy (in thousands):

September 30,	2021	2020
Balance, beginning of year	$ 13,697	$ 18,865
Actual return on plan assets:		
Unrealized loss	(2,346)	(5,168)
Balance, end of year	$ 11,351	$ 13,697

MPT CONFIDENTIAL MPT_PROSPECT_00011620

The expected long-term future benefit payments to retirees with respect to the plans and are as follows (in thousands):

2022	$ 51,580
2023	44,940
2024	45,140
2025	45,270
2026	45,887
2027 - 2031	220,580
	$ 453,397

Waterbury participates in multi-employer pension plans that cover substantially all union employees. Contributions to the plans are based upon a percentage of each participant's total salary. The risks of participating in these multi-employer plans are different from single employer plans in the following aspects:

- Assets contributed to the multi-employer plan by one employer may be used to provide benefits to employees of another participating employer.
- If a participating employer stops contributing to the plan, the unfunded obligation of the plan may be borne by the remaining participating employers.
- If Waterbury chose to stop participating in the multi-employer plans, Waterbury may be required to pay those plans an amount based on the underfunded status of the plans, referred to as a withdrawal liability.

The following table presents Waterbury's participation in these plans as of and for the years ended September 30, 2021 and 2020.

Pension Trust Fund	EIN / Pension Plan	Pension Protection Act ("PPA") Certified Zone Status *(1)*		FIP / RP Status Pending / Implemented *(2)*	Contributions		Surcharge Imposed	Exp. Date of CBA
		2021	2020		**2021**	2020		
Connecticut Health Care Associates Pension Fund	06-1313462	Red	Red	Implemented	**$ 2,168,769**	$ 2,024,000	No	7/1/22
New England Health Care Employees Pension Fund	22-3071963	Green	Green	NA	**783,560**	818,000	No	3/15/25
Total contributions					**$ 2,952,329**	$ 2,842,000		

MPT CONFIDENTIAL MPT_PROSPECT_00011621

(1) The most recent PPA zone status available in 2021 is for the plan's year-ending during 2020. The zone status is based on information received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65 percent funded, plans in the orange zone are less than 80 percent funded and have an accumulated funding deficiency in the current year or projected in the next six years, plans in the yellow zone are less than 80 percent funded, and plans in the green zone are at least 80 percent funded.

(2) The "FIP/RP Status Pending/Implemented" column indicates plans for which a financial improvement plan ("FIP") or a rehabilitation plan ("RP") is either pending or has been implemented. As it relates to the Connecticut Health Care Associates ("CHCA") Pension Plan, the trustees adopted a Rehabilitation Plan on May 7, 2018. The Rehabilitation Period, as defined, commenced on January 1, 2019 and ends on December 31, 2028. The trustees updated the Rehabilitation Plan on December 12, 2019 which reflects various reductions to plan benefits effective January 1, 2020.

During the years ended September 30, 2021 and 2020, Waterbury's contributions to the CHCA Pension Plan and the New England Health Care Employees Pension Plan represented 81.9% and 2.5% and 80.1% and 2.5% of the total contributions made to the plans by all participating employers, respectively.

Governmental regulations impose certain requirements relative to union-sponsored pension plans. In the event of plan termination or employer withdrawal, an employer may be liable for a portion of the plan's unfunded vested benefits. As of September 30, 2021, Waterbury has not recorded any liabilities for future withdrawal obligations related to the multi-employer plans.

Defined contribution plans

The Company sponsors two defined contribution plans covering substantially all employees who meet certain eligibility requirements, which are segregated between union and non-union employees. Under these plans, employees can contribute up to 50% of their compensation up to the IRS deferred annual maximum. There is currently no company match offered under the plans, except at certain facilities in Rhode Island and Pennsylvania, for which the expense for the employer match was $16,070,000 and $17,778,000 for the years ended September 30, 2021 and 2020, respectively.

13. Commitments and Contingencies

Leases

The Company leases various office facilities and equipment from third parties under non-cancelable operating and capital lease arrangements expiring at various dates through 2034. Certain operating leases contain rent escalation clauses and renewal options, which have been factored into determining rent expense on a straight-line basis over the lease terms. Capital leases bear interest at rates ranging from 1.3% to 41.0% per annum.

MPT CONFIDENTIAL MPT_PROSPECT_00011622

The future minimum annual lease payments required under leases in effect at September 30, 2021, are as follows (in thousands):

For the Years ending September 30,	Capital Leases	Operating Leases	MPT Liability*
2022	$ 16,874	$ 25,525	$ 107,803
2023	14,849	24,101	109,959
2024	13,090	21,751	112,158
2025	9,777	19,702	114,401
2026	6,216	18,611	116,689
Thereafter	19,619	26,733	1,165,800
Total minimum lease payments	80,425	$ 136,423	1,726,810
Less: amounts representing interest	(17,384)		(482,660)
Add: amounts representing land	-		47,176
	63,041		1,291,326
Less: current portion	(12,947)		(50,978)
	$ 50,094		$ 1,240,348

* *Excludes debt related to the Foothill and TRS Notes with MPT (see Note 10).*

Rent expense related to operating leases for the years ended September 30, 2021 and 2020 was approximately $39,350,000 and $51,246,000, respectively. Sublease rental income was not material to the consolidated financial statements for the years ended September 30, 2021 and 2020.

Litigation

The Company is subject to a variety of claims and suits that arise from time to time in the ordinary course of its business, acquisitions, or other transactions. While the Company's management currently believes that resolving all of these matters, individually or in the aggregate, will not have a material adverse impact on the Company's consolidated financial position or results of operations, the litigation and other claims that the Company faces are subject to inherent uncertainties and management's view of these matters may change in the future. Should an unfavorable final outcome occur, there exists the possibility of a material adverse impact on the Company's consolidated financial position, results of operations and cash flows for the period in which the effect becomes probable and reasonably estimable.

Seismic Standards

The Company's California Hospitals (with the exception of Bellflower and Van Nuys, which currently only provide psychiatric services) are required to comply with laws that regulate the seismic performance of all aspects of hospital facilities in California and imposes near-term and long-term compliance deadlines for seismic safety assessment, submission of corrective plans, and retrofitting or replacement of medical facilities to comply with current seismic standards. These laws and regulations require hospitals to meet seismic performance standards to ensure that they are capable of providing medical services to the public after an earthquake.

MPT CONFIDENTIAL MPT_PROSPECT_00011623

The Company was required to conduct engineering studies at its hospitals to determine whether and to what extent modifications to the hospital facilities will be required. Two buildings at Southern California Hospital at Culver City ("SCH Culver City") do not currently meet the applicable seismic requirements. These buildings are currently classified at Structural Performance Category 1 ("SPC-1") and, subject to possible deadline extensions discussed below, they must be upgraded to at least SPC-2 by July 1, 2022. That deadline date was set pursuant to an extension granted upon the Company's application submitted in accordance with California Senate Bill 90 and approved by the Office of Statewide Health Planning and Development ("OSHPD").

OSHPD has a voluntary program to re-evaluate the seismic risk of hospital buildings classified as SPC-1. These buildings are considered hazardous and at high risk of collapse in the event of an earthquake and they were required to be retrofitted, replaced or removed from providing acute care services by the applicable deadline. OSHPD is using Hazards U.S. ("HAZUS"), a state-of-the-art methodology, to reassess the seismic risk of SPC-1 buildings. Once the SPC-1 buildings have been seismically upgraded to SPC-2, they are no longer considered a significant risk to occupants, but they may not be repairable or functional after an earthquake. Participation in the HAZUS program is optional for hospital owners wishing to have their SPC-1 buildings evaluated.

Applications for HAZUS evaluation of seismic risk were submitted for all five of the Company's California acute care facilities: Southern California Hospital at Hollywood ("SCH Hollywood"); SCH Culver City; Los Angeles Community Hospital; Los Angeles Community Hospital at Norwalk ("LACH Norwalk"); and Foothill. All buildings at these five facilities obtained SPC-2 reclassification using HAZUS, except for the aforementioned two buildings at SCH Culver City that are still classified as SPC-1. Currently, failure to obtain SPC-2 reclassification for the two remaining SPC-1 buildings by July 1, 2022 would mean that the buildings deemed non-compliant would be subject to daily fines up to $5,000 per day until retrofitted to SPC-2 standards or removed from acute care services.

Recently enacted Assembly Bill 2190 was utilized to request additional extension. OSHPD granted extensions to June 1, 2022 and February 25, 2022 for the Tower Building and Pavilion Building at SCH Culver City. The construction was started in February 2020 for both buildings. SCH Culver City is evaluating pursuing an alternate "replacement" scheme that would relocate the Emergency department into the adjoining One-Story Building which currently classified as an SPC-2 structure. The Tower Building would be retained as a "non-hospital" OSHPD building useable for non-acute care services such as behavioral health and subacute/skilled nursing services.

The Company will also be required to make significant capital expenditures in the future to comply with 2030 seismic standards (i.e., upgrade to SPC-4D and NPC-4D/5) for any buildings that will be utilized for hospital facilities beyond January 1, 2030. Such modifications to the hospital facilities could potentially result in environmental remediation liabilities which may be material to the Company.

These requirements can result in significant operational changes and capital outlays. Management is continuing to assess its options and the methods of financing the required retrofits. Based on management's evaluation, the costs of renovation needed to comply with the California seismic safety standards for its acute-care facilities, including asbestos abatement, are not estimable at this time.

Legislation and HIPAA

The healthcare industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government healthcare program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and

regulations by healthcare providers. Violations of these laws and regulations could result in expulsion from government healthcare programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed.

The Company believes that it is in compliance with fraud and abuse regulations as well as other applicable government laws and regulations. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

The Health Insurance Portability and Accountability Act ("HIPAA") assures health insurance portability, reduces healthcare fraud and abuse, guarantees security and privacy of health information, and enforces standards for health information. The Health Information Technology for Economic and Clinical Health Act ("HITECH Act") expanded upon HIPAA in a number of ways, including establishing notification requirements for certain breaches of protected health information. In addition to these federal rules, California has also developed strict standards for the privacy and security of health information as well as for reporting certain violations and breaches. The Company may be subject to significant fines and penalties if found not to be compliant with these state or federal provisions.

Collective Bargaining Agreements

As of September 30, 2021, the Company had approximately 17,000 employees, of whom approximately 3,700 employees or 22% are represented by various labor organizations. Of those, approximately 3,300 employees or 19% of the Company's employees are employed under union contracts that have expired or will expire before September 30, 2022.

As of September 30, 2020, the Company had approximately 17,000 employees, of whom approximately 5,200 employees or 31% are represented by various labor organizations. Of those, approximately 700 employees or 4% of the Company's employees are employed under union contracts that have expired or will expire before September 30, 2021.

Tangible Net Equity ("TNE") Requirement

The Company's affiliated California physician organizations and licensed healthcare service plans may be subject to one or more of the following requirements: minimum working capital, Tangible Net Equity, cash-to-claims ratio and claims payment requirements as prescribed by the California Department of Managed Health Care ("DMHC"). TNE is defined as net assets, less intangibles and amounts due from affiliates, plus subordinated obligations. As of September 30, 2021, the Company's affiliated California physician organizations were in compliance with these regulatory requirements.

Employee Health Plans

The Company offers self-insured EPO/HMO and PPO plans to all eligible employees.

Employee health benefits are administered by a third party claims administrator, based on plan coverage and eligibility guidelines determined by the Company, as well as by collective bargaining agreements (as reflected above). All locations were covered by insurance policies with CHIC for per occurrence losses in excess of $350,000, except for Crozer for which the limit is $750,000. CHIC maintains reinsurance coverage above $500,000 for all locations except for Crozer, for which the limit is $750,000. Effective September 30, 2020, the CHIC policies were revised to only include the reinsurance coverage noted above. An actuarially and internally estimated liability of approximately $14,861,000 and $18,114,000 for incurred but not reported claims has been included in accrued salaries, wages, and benefits as of September 30, 2021 and 2020, respectively.

MPT CONFIDENTIAL MPT_PROSPECT_00011625

Provider Contracts

Many of the Company's payer and provider contracts are complex in nature and may be subject to differing interpretations regarding amounts due for the provision of medical services. Such differing interpretations may not come to light until a substantial period of time has passed following contract implementation. Liabilities for claims disputes are recorded when the loss is probable and can be estimated. Any adjustments to reserves are reflected in current operations.

PACE financing

In August 2019 the Company entered into an agreement with a third party that specializes in property assessed clean energy ("PACE") financing to finance approximately $49.0 million for qualifying renovations for the properties in California. The full amount of the funds was deposited into an escrow account managed by a third party administrator, less deductions for the first year of prepaid interest of approximately $3.2 million and deferred financing fees totaling approximately $2.6 million. The Company received cash from the escrow account of approximately $13.5 million which was used to refinance related completed qualifying expenditures under the PACE program and invoices for construction in progress that had been paid. The amount financed is subject to an annual interest rate of 6.0% and the financing has a maturity date of September 2, 2045. Payments are collected through property tax bills as a non-ad valorem assessment. Payments commenced in July 2020. At September 30, 2021, the Company had a related financing liability of approximately $34.5 million, of which $1.2 million and $33.3 million is classified within other current liabilities and other long-term liabilities, respectively, in the accompanying consolidated balance sheets. At September 30, 2020, the Company had a related financing liability of approximately $20.0 million, which is classified within other long-term liabilities in the accompanying consolidated balance sheets. At September 30, 2021, there was approximately $18.7 million left in escrow, required to be spent on qualifying renovations.

In May 2020, the Company entered into an agreement with a third party that specializes in PACE financing to finance approximately $42.0 million for qualifying renovations for the property in Rhode Island located at Roger Williams Medical Center. The full amount of the funds were deposited into an escrow account managed by a third party administrator, less deductions for deferred financing fees totaling approximately $2.7 million and lease payoffs of approximately $6.0 million. The Company received cash from the escrow account of approximately $14.9 million which was used to refinance related completed qualifying expenditures under the PACE program and invoices for construction in progress that had been paid. The amount financed is subject to an annual interest rate of 5.75% and the financing has a maturity date of April 30, 2045. Payments are collected through property tax bills as a non-ad valorem assessment. Payments commenced in July 2020. At September 30, 2021, the Company had a financing liability of approximately $32.0 million, of which $0.8 million and $31.2 million is classified within other current liabilities and other long-term liabilities, respectively, in the accompanying consolidated balance sheets. At September 20, 2020, the Company had a financing liability of approximately $26.5 million which is classified within other long-term liabilities in the accompanying consolidated balance sheets. At September 30, 2021, there was approximately $10.7 million left in escrow, required to be spent on qualifying renovations.

In January 2021, the Company entered into an agreement with a third party that specializes in PACE financing to finance approximately $18.0 million for qualifying renovations for the property in Rhode Island located at Our Lady of Fatima Hospital. The full amount of the funds were deposited into an escrow account managed by a third party administrator, less deductions for deferred financing fees totaling approximately $1.4 million. The Company received cash from the escrow account of approximately $2.9 million which was used to refinance related completed qualifying expenditures under the PACE program and invoices for construction in progress that had been paid. The amount financed is subject to an annual interest rate of 5.75% and the financing has a maturity date of July 31, 2046. Payments are collected

through property tax bills as a non-ad valorem assessment. Payments commenced in July 2021. At September 30, 2021, the Company had a financing liability of approximately $4.9 million, of which $0.3 million and $4.6 million is classified within other current liabilities and other long-term liabilities, respectively, in the accompanying consolidated balance sheets. At September 30, 2021, there was approximately $13.4 million left in escrow, required to be spent on qualifying renovations.

14. Accrued Medical Claims and Other Healthcare Costs Payable

The following table presents the roll-forward of incurred but not reported ("IBNR") claims reserves (Medical Group segment, Global Risk Management segment, and full risk contracts) as of and for each of the years ended September 30, 2021 and 2020 (in thousands):

September 30,	**2021**	2020
IBNR as of beginning of year	$ **76,457**	$ 72,508
Claim expenses incurred during the year:		
Related to current year	**352,288**	258,958
Related to prior year	**(6,715)**	(5,212)
Total incurred	**345,573**	253,746
Claims paid during the year:		
Related to current year	**(274,447)**	(192,609)
Related to prior year	**(53,881)**	(57,188)
Total paid	**(328,328)**	(249,797)
IBNR as of end of year	$ **93,702**	$ 76,457

Following is a table showing the details of the Medical Group and Global Risk Management segments cost of revenues per the consolidated statements of operations (in thousands):

Years Ended September 30,	**2021**	2020
Capitation expense	$ **133,786**	$ 97,903
Fee-for-service claims expense	**232,103**	142,971
Other physician compensation	**28,428**	29,628
Other cost of revenues	**17,255**	24,663
Total cost of revenues	$ **411,572**	$ 295,165

15. Joint Ventures and Unconsolidated Equity Investments

The Company has invested in several joint ventures with unrelated third parties, which are accounted for under the equity method of accounting. Ownership percentages as of September 30, 2021 and 2020 are as follows:

September 30,	**2021**	2020
CharterCare:		
Roger Williams Radiation Therapy	**20.00%**	20.00%
Southern New England Regional Cancer Center, LLC	**20.00%**	20.00%
Crozer:		
University Technology Park, Inc.	**50.00%**	50.00%
Delaware Valley Sleep Management Company, LLC	**21.25%**	21.25%
DCMH MOB Associates	**35.00%**	35.00%
ECHN:		
NRRON, LLC	**50.00%**	50.00%
Aetna Ambulance Service, Inc.	**50.00%**	50.00%
Ambulance Service of Manchester, LLC	**50.00%**	50.00%
Evergreen Endoscopy Center, LLC	**50.00%**	50.00%
Connecticut Occupational Medicine Partners, LLC	**25.00%**	25.00%
Waterbury:		
Harold Leever Regional Cancer Center Inc.	**50.00%**	50.00%
Prospect Ambulatory Holding, Inc.:		
Naugatuck Valley Endoscopy Center	**20.92%**	0.00%
PMG:		
AMVI/Prospect Medical Group	**50.00%**	50.00%

These joint ventures under the equity method are included in the other assets in the accompanying consolidated balance sheets as of September 30, 2021 and 2020 are $28,722,000 and $45,881,000, respectively. For the years ended September 30, 2021 and 2020, the Company received $22,645,000 and $1,465,000, respectively, in distributions for equity method investments, and $0 and $58,000, respectively, for cost method investments.

In December 2020, the Company purchased, through a wholly owned subsidiary, shares representing an approximate 21% ownership interest in Naugatuck Valley Endoscopy Center, a limited liability company operating an ambulatory surgery center in the State of Connecticut, for approximately $5.1 million.

Summarized combined unaudited financial information for the Company's joint ventures as of September 30, 2021 and 2020 and for the years then ended is as follows (in thousands):

September 30,	**2021**	2020
Cash	$ **18,646**	$ 35,793
Receivables	**10,795**	10,359
Other current assets	**2,894**	4,221
Total current assets	**32,335**	50,373

Equity	**60,166**	80,588
Total liabilities and partner's capital	$ **76,707**	$ 93,275

Years ended September 30,	**2021**	2020
Revenues	$ **59,474**	$ 65,162
Net income	$ **7,451**	$ 5,346
PMH's income from equity method investments	$ **3,095**	$ 2,030

16. Subsequent Events

The Company has evaluated subsequent events through January 7, 2022, the date the Company's consolidated financial statements were available for issuance.

In October 2020, the Company entered into an Asset Purchase Agreement to sell substantially all of the assets of EOGH for a sale price of $6.2 million. The sale closed effective January 1, 2022.

Supplementary Information

Independent Auditor's Report on Supplementary Information

Our audits of the consolidated financial statements included in the preceding section of this report were conducted for the purpose of forming an opinion on those statements as a whole. The supplementary information presented in the following section of this report is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

BDO USA, LLP

January 7, 2022

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

PROSPECT MEDICAL HOLDINGS REPORTS FISCAL 2023 SECOND QUARTER FINANCIAL RESULTS

Q2 FY 2023 Highlights

- **Revenue was $416.3 million, up 16.5%, compared to $357.2 million in the same quarter last year.**
- **Proforma Adjusted EBITDA, excluding the hospital operations in Rhode Island, Pennsylvania and Connecticut that are being sold pursuant to a plan approved by management, was $30.7 million for Q2 FY23 compared to $26.9 million in the same quarter last year.**

YTD Q2 FY 2023 Highlights

- **Revenue was $828.2 million, up 17.8% compared to $703.2 million in the same quarter last year.**
- **Proforma Adjusted EBITDA, excluding the hospital operations in Rhode Island, Pennsylvania and Connecticut that are being sold pursuant to a plan approved by management, was $53.2 million for YTD Q2 FY23 compared to $43.5 million in the same period last year.**

CONSOLIDATED RESULTS OVERVIEW

Consolidated revenues were $416.3 million for the second quarter ended March 31, 2023, representing an increase of $59.0 million when compared to the second quarter ended March 31, 2022 with consolidated revenues at $357.2 million. Hospital segment revenues were $190.0 million for the second quarter ended March 31, 2023, representing an increase of $27.8 million when compared to the second quarter ended March 31, 2022, with hospital revenues at $162.2 million. Medical Group revenues were $150.1 million for the second quarter ended March 31, 2023, representing an increase of $11.9 million when compared to the second quarter ended March 31, 2022, with Medical Group revenues at $138.2 million. Global Risk Management revenues were $76.2 million for the second quarter ended March 31, 2023, representing an increase of $20.6 million when compared to the second quarter ended March 31, 2022, with Global Risk Management revenues at $55.6 million.

IMPACT OF THE COVID-19 PANDEMIC

During the Coronavirus disease (COVID-19) pandemic, federal, state, and local authorities took several administrative actions intended to assist healthcare providers in providing care during the COVID-19 public health emergency. Sources of relief include the Coronavirus Aid, Relief and Economic Security Act, the Paycheck Protection Program and Health Care Enhancement Act (the "PPPHCE Act"), the Continuing Appropriations Act, 2021 and Other Extensions Act, and the Consolidated Appropriations Act, 2021 (collectively, (the "COVID Acts"). With the COVID Acts, the federal government authorized funding to be distributed through the Public Health and Social Services Emergency Fund ("Provider Relief Fund" or "PRF"). HHS will recoup PRF grant funds not utilized by the established deadlines. The COVID Acts also revised the Medicare accelerated payment program to disburse payments to hospitals and other care providers more quickly and permitted employers to defer payment of the 6.2% employer Social Security tax beginning March 27, 2020, through December 31, 2020. In June 2021, the U.S. Department of Health and Human Services ("HHS") established new deadlines for when recipients of PRF grants must use the funding received, generally 12 to 18 months after receipt of the grant funds.

In 2021, during the height of COVID-19, Medicare arranged for advanced payments to assist hospitals with their cash flow needs during this difficult time. Recoupment of those special advances began one year later than the disbursement. Recoupment began in month 13 utilizing a payment offset methodology whereby 25% of Medicare payments were withheld for the next 11 months and applied against the advanced total. The recoupment rate increased to 50% for the succeeding six months or less if the advances are not fully repaid. The remaining amounts were considered due and payable to Medicare at the end of the six-month period; however, hospitals were able to apply for an extended repayment plan at a rate of 4% per annum for a period not to exceed an additional 60 months if they demonstrate a financial need for the extension. We applied for and were granted repayment extensions ranging from 18 months to 60 months and plan to apply for advances for the remining two hospitals that are currently in the 50% repayment corridor, as their advances were initially delayed. The Company had received Medicare accelerated and advance payments of approximately $276.1 million, of which approximately $206.9 million had been recouped through a reduction of our Medicare claims payments through September 30, 2022. During the quarter ended December 31, 2022 and March 31, 2023, $18.3 million and 5.6 million, respectively, had been recouped and no additional advances were received. Approximately $45.3 million and $69.2 million of the remaining Medicare advance liabilities are reflected in the accompanying unaudited condensed balance sheet as of March 31, 2023 and September 30, 2022, respectively.

CASH FLOW AND LIQUIDITY

Cash, cash equivalents, cash held in escrow and restricted cash was $127.5 million at March 31, 2023 (FY2023) representing an increase of $16.1 million at March 31, 2022. Cash increased during the six-month period ended March 31, 2023 by $35.6 million vs the comparable prior year period increase of $5.4 million.

Net cash provided by operating activities was $73.8 million for the six months ended March 31, 2023 compared to the net cash used in $68.3 million for the six months ended March 31, 2022.

Net cash used in investing activities was $18.4 million the six months ended March 31, 2023 compared to net cash used in $43.5 million for the six months ended March 31, 2022.

Net cash used in financing activities was $19.7 million for the six months ended March 31, 2023 compared to net cash provided of $117.1 million for the six months ended March 31, 2022. The change is mainly due to increased line of credit.

In addition, total cash paid for interest was $37.2 million and $34.8 million for the six months ended March 31, 2023 and 2022, respectively.

At March 31, 2023, the Company had outstanding borrowings of $170.8 million under its revolving line of credit under its ABL Credit Agreements entered into on February 22, 2018 and amended from time to time.

DISCONTINUED OPERATIONS

During the first quarter of FY 2022, following a strategic review of the company's growth strategies and structure, our management also approved a plan to sell the hospital operations of our East Coast facilities.

On January 11, 2022, we signed a non-binding Letter of Intent ("LOI") for Centurion Foundation, Inc. to acquire CharterCare Health Partners ("CharterCare") in Rhode Island. On February 3, 2022, we signed a non-binding LOI for Christiana Care Health System, Inc. to acquire Crozer-Keystone Health System ("Crozer") in Pennsylvania. However, that LOI was later terminated effective August 8, 2022. The Company continues to market Crozer. On February 4, 2022, we signed a non-binding LOI for Yale New Haven Health to acquire Eastern Connecticut Health Network, Inc. ("ECHN") and Greater Waterbury Health Network, Inc. ("Waterbury") in Connecticut.

We have classified the results of operations as discontinued operations in our consolidated statement of income for all periods presented. Additionally, the related assets and liabilities associated with these entities are also reported in the accompanying balance sheets as discontinued operations for all periods presented.

MPT CONFIDENTIAL MPT_PROSPECT_00011664

Asset Purchase Agreements

On October 5, 2022, the Company entered into an asset purchase agreement with Yale New Haven Health Services Corporation, a Connecticut nonstock corporation, pursuant to which the Company agreed to sell, and the purchaser agreed to purchase, substantially all of the assets of the Company related to the Company's ECHN and Waterbury hospital systems in Connecticut. The transaction is pending.

On November 18, 2022, the Company entered into an asset purchase agreement with Centurion Foundation, Inc., pursuant to which the Company agreed to sell, and the purchaser agreed to purchase, substantially all of the assets of the Company related to the Company's CharterCARE hospital system in Rhode Island. The transaction is pending.

SUBSEQUENT EVENTS

Pursuant to a Commitment Letter, dated April 14, 2023, Centerbridge Credit CS, L.P. and Blue Torch Capital LP committed to loan $375 million to the PhysicianCo Business (the "PhysicianCo Loan") pursuant to terms set forth therein and later definitive documentation. The proceeds are required to be used to repay the outstanding indebtedness under the ABL Facility, to provide capital for compliance with certain regulatory financial covenants applicable to the PhysicianCo Business and to provide for general working capital and corporate purposes.

RECENTLY ADOPTED ACCOUNTING PRONOUCEMENTS

Effective October 1, 2021, we adopted ASU 2018-14, "Compensation - Retirement Benefits - Defined Benefit Plans - General (Subtopic 715-20) Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans" ("ASU 2018-14"), which applied to all employers that sponsor defined benefit pension or other postretirement plans. The amendments in ASU 2018-14, removed, modified, or added certain disclosure requirements as part of the FASB's disclosure framework project to improve the effectiveness of the notes to the financial statements. The adoption of this ASU did not impact our financial position, results of operations or cash flows.

RECLASSIFICATIONS

Certain prior period amounts have been reclassified to conform to the current period presentation. These reclassifications did not affect net loss, revenues and stockholders' equity.

USE OF NON-GAAP MEASURES

This document contains "non-GAAP financial measures," that is, financial measures that either exclude or include amounts that are not excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles. Specifically, we make use of the non-GAAP measures "EBITDA," "Adjusted EBITDA," and "Proforma Adjusted EBITDA."

We define EBITDA as net income (loss) plus (i) income (loss) from discontinued operations, (ii) provision for income taxes, (iii) interest expense, net (including amortization of deferred financing costs), (iv) depreciation, and (v) amortization. In addition, we define Adjusted EBITDA as EBITDA as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance, including transaction costs, certain legal expenses, stock-based compensation, sponsor structuring and management fees, purchase price adjustments and pre-acquisition items, other unusual and non-recurring charges, and other noncash charges. Further, we define Proforma Adjusted EBITDA as Adjusted EBITDA as further adjusted for proforma adjustments related to the California Hospital Fee Program and lost margins because of the COVID-19 pandemic. From the fourth of quarter of FY20, in line with the revised guidance that HHS issued in October 2020, which changed the comparison of change in operating income to lost revenues (see discussion above under "COVID-19 Pandemic"), we have changed the definition of Proforma Adjusted EBITDA to reflect lost revenues compared to the same period in the prior year. Management believes that EBITDA, Adjusted EBITDA and Proforma Adjusted EBITDA are useful tools for investors and other users of our financial statements in assessing our ability to service and/or incur indebtedness, maintain current operating levels of capital assets and acquire additional operations and businesses. A reconciliation of EBITDA, Adjusted EBITDA, and Proforma Adjusted EBITDA to our net income (loss) under generally accepted accounting principles, or GAAP, for certain periods presented in our financial statements is

included in this document. However, EBITDA, Adjusted EBITDA, and Proforma Adjusted EBITDA are not necessarily comparable to other similarly titled financial measures of other companies due to the potential inconsistencies in the method of calculation. EBITDA, Adjusted EBITDA, and Proforma Adjusted EBITDA have limitations as analytical tools and should not be considered in isolation or as substitutes for analyzing the Company's results as reported under GAAP. Some of these limitations are:

- They do not reflect cash outlays for capital expenditures or future contractual commitments.
- They do not reflect changes in, or cash requirements for, working capital.
- They do not reflect interest expense, or the cash requirement necessary to service interest, or principal payments, on its indebtedness.
- They do not reflect income tax expense or the cash necessary to pay income taxes.
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA, Adjusted EBITDA, and Proforma Adjusted EBITDA do not reflect cash requirements for such replacements; and
- Other companies, including other companies in our industry, may not use such measures or may calculate the measures differently than as presented in this earnings release, limiting their usefulness as a comparative measure.

Because of these limitations, EBITDA, Adjusted EBITDA, and Proforma Adjusted EBITDA or any related ratio using such measures should be considered only as a supplemental measure in addition to, and not in lieu of, our GAAP income and cash flow statements, and not as a measure of discretionary cash available to invest in business growth or reduce indebtedness.
