WITNESS STATEMENTS

"Now is the time to generate ideas to strengthen Social Security for generations to come.

Senator Whitehouse's new bill shows that raising revenue is key to protecting Social Security for future generations, without making devastating cuts that put people's economic wellbeing at risk."

Kathleen Romig Director of Social Security and Disability Policy Center on Budget and Policy Priorities

"These are the two competing visions. In one we do less and less to make America a good place to work and retire.

In the other... we make modest reforms to better tax those who are taking a larger share of our wealth and income, in order to reinforce a major pillar of our promise to Americans."

Amy Hanauer Executive Director Institute on Taxation and Economic Policy
